THE MISSOURI MINER.

Missouri School of Mines and Metallurgy, Rolla, Mo.

Vol. 3, No. 9.

Friday, November 10, 1916.

Price 5 Cents.

Warrensburg 13, Miners 14.

Miners 14, Warrensburg Normal 13.

Warrensburg came down determined to wipe out last year's defeat at the hands of the Miners, but they were just a trifle too sure, and consequently went home with the hope that they might do better in the future. It was an even game, with the Miners taking advantage of all of the Normal's misplays, but themselves being outplayed in most of the second half. The Miner line showed fight, especially when Warrensburg threatened to score in the last quarter. Warrensburg was also penalized severely for holding, when the ball was well within Miner territory. Dawson's 15-yard run after grabbing a Warrensburg pass was the classiest bit of broken field running seen on Jackling field this season. White also starred on the offensive. Gunn and Campbell were the big noises for the teachers. Campbell was undoubtedly the best consistent ground gainer on either side. It usually took three or four men to bring him to the turf.

A detailed account of the game follows:

Warrensburg receives the kick off at 2:30 P. M. The ball goes over the line, and is put into scrimmage on their 20-yard line. The Teachers go thru the line at will, and it looks like an early score, but the Miners recover a fumble on their 45-yard line, and gain possession of the ball. Now the Miners get into action. White and Raible carry the ball around

Edmond Otis Stoliker.

E. O. Stoliker was born in Kansas on July 1st, 1889. He died at 2:50 P. M. Sunday, Nov. 5, 1916, in the Henryetta Hospital at Henryetta, Okla., after an illness of two weeks which was diagnosed as malaria. His mother, Mrs. Laura Barkers, of Creston, Iowa; a married sister in the same town, and a brother at Saskatoon, Canada, also two half brothers survive him.

"Stollie" attended Des Moines College, Des Moines, Ia. for two years, before coming to Rolla in 1911. He was a member of the Rollamo Board, Quo Vadis, Mining Association and Grubstaker Club. In 1913 he was captain of the M. S. M. football team, and was the possessor of an enviable record as a half back during his football career. Since his graduation in 1914, he spent one half year in the Canadian woods with his brother, but came back to the States to accept a position as chemist for the Arminius Chemical Co., of Mineral, Va. He visited in Rolla during June 1916

How I Found Things in Mexico.

By Raoul Chavez.

Continued From Vol. 3 No. 7.

The resources of the country are inexhaustible, and one can see trainloads of corn, beans, lard and cattle pour daily into the city of Chihuahua from the western parts of the state; that is, from the country where Villa and his renegades are supposed to be. Large quantities of gold and silver bullion also come into the city. This bullion is brought in by Mexican mine owners from western Chihuahua, which is one of the richest portions of Mexico in mineral resources. From this same part of the country I saw car loads of crude galena and spalerite, running over 40 per cent lead and zinc respectively. These minerals are shoveled into the railroad cars just as the rock falls after blasted, and are so hauled over 400 miles to the United States. Large mines of hematite are at present operated in Chihuahua, and the ores used in a large foundry located in Chihuahua City. There are many other mines, especially of gold and silver, which are not operated at the present time, because the Mexican government has prohibited the exportation from the country of precious metals. It is obvious, however, that as soon as this restriction is changed, most mines will be re-opened.

As to danger to Americans, I saw none. There exists some dislike towards the American, which should rather be called

distrust, and which, however, is towards the United States as a whole, who, they fear, will finally absorb the country, but this dislike is not shown to any single American, and while at Chihuahua I saw several Americans treated even with courtesy. This distrust, fostered by the Colombian incident, the taking over of the Sto. Domingo custom house, the landing of marines in Nicaragua, Haiti, and Vera Cruz, etc. is still further inflamed by cheap politicians who exploit the dislike of the United States in order to serve their own purposes, much as the ancient dislike of England, springing from the revolution and the war of 1812 has been exploited for political purposes are at different periods.

(Editor's Note.—Mr. Chavez will conclude this article in a subsequent issue of the Miner.)

Mass Meeting.

Nov. 9, 1916. Sophomore Class in charge. A. F. Krause, chairman.

Music by Sprigg and Crutcher.

Illustrated lecture on the art of Angling by Professor Dean, C. E., B. S. The essentials of trout and bass fishing were outlined in detail. The disciples and followers of Isaac Walton were delighted with the highly interesting discourse. The new and original jokes interposed thruout the sermon caused great amusement. Great stuff, Prof. Come agin!

Collection for flowers. If you did not pay, do so at once. See Dr. McRae or Ole Nevin.

Officers of Alumni Association.

A canvas of the ballots shows that the following named men have been elected officers of the M. S. M. Alumni Association for 1916-17:

W. Rowland Cox, President; Ray F. Rucker, Vice President; Chas. Y. Clayton, Secretary; Geo. R. Dean, L. E. Garrett, K. V. Moll, R. R. Benedict, E. W. Buskett, H. T. Mann, Advisory Committee.

Football Dope.

It finally looks as if the team has struck its stride and most of the boys say that the defeat at Fayetteville did the business, that is, put Fight into the team. The showings against Washington and Warrensburg Normal, gave ample proof that the team is fighting during the entire game. This immediately makes a team look dangerous from the enemy standpoint.

Last Friday Warrensburg came down with nothing but a victory for them in sight. Yes, and by a margin of at least three touchdowns. The lightning attack of the Miners and the uncanny habit they had of taking advantage of the Normals' miscues, took the Teachers by surprise, and when they finally woke up, the game was lost to them.

If the team can keep up this present pace they may be a lot of prophets relegated to the junk pile on Nov. 17th and on Thanksgiving Day. Oklahoma A. & M. who have a 16-6 victory over Warrensburg to their credit, gave Henry Kendall the scare of their young lives last Saturday, when Kendall won in the last couple of minutes of play by a 12-13 count.

With Brazill, and perhaps Capt. Imlay again in the line up, it would change the aspect entirely. A more developed system of open play would then be possible. This is the main reliance of Kendall, and should be used against them. A defensive attack to break up the passing game would "call" Kendall's hand in case they haven't another style to resort to in a pinch.

The cripples are disappearing gradually and the team is in the best physical condition. All they need now is the money support of the Student Body to carry them over the last hurdles in the 1916 season.

Thank You, "Y!"

The Miner in behalf of the student body wishes to thank the "Y" for their Student's Hand Book which we received a few days ago. The publishers were a little slow in delivering them on account of several other large orders which had to be disposed of first. This, however, does not detract from our appreciation, for we find these books a very handy, useful article.

Edmond Otis Stolikar.

Continued from Page One.

on his way to a new position with the Oklahoma Spelter Co. at Kusa, Okla. Here he contracted the sickness which caused his death after a short illness of about two weeks. Mr. Stolikar was engaged to be married to Miss Olive Scott, of Rolla, and the couple had set the date for June, 1917. His body was sent to Creston, Ia. for burial.

The Miner and the entire student body extend heartfelt sympathy to all of the bereaved relatives and friends, who have lost a loved one in Mr. E. O. Stolikar, whose manly, upright character made him a universal favorite with all who knew him.

As soon as word reached Rolla of Stolikar's death, arrangements were made to send a representative from M. S. M. to Kusa, to attend to the deposition of the body. Mr. Joe Cole went down and says that the representatives of the Kusa plant were ready to offer all assistance possible. They paid the entire expenses of transporting the body to Creston, as well as all of the doctor and hospital bills. Mr. Cole's expenses were also paid in full by the smelter company.

At Creston, Mr. L. H. Hoppock and Mr. T. S. Delay, both old M. S. M. men, did everything in their power to help the bereaved relatives in their hour of sorrow.

Late Item.

A bouncing youngster arrived at the home of Prof. and Mrs. C. Y. Clayton. Prof. has the Quaker Oats smile backed off the map now.

D. D. Dunkin, '04, is general superintendent of the McAlester Coal and Coke Co., and manager and operator of Buck Mine No. 21, Alderson, Okla.

J. C. Reid, '93, is vice president and general manager of the Oklahoma Mining and Stripping Co., McAlester, Okla.

Around The Sun Dial.

The last week sure has been a big one. Things started by our tying the can on Warrensburg. That was a glorious victory.

A straw vote was taken on what was done by most of the students Tuesday. The latest returns show that Sleep is in the lead.

Since the election the sun-dial is coming into its own, and "Jimmie" Allison has a number of second hand watches for sale.

Big reform in Norwood Hall. The segregated "Ruf Neks" have been driven from their quarters in crystallography must wear stiff collars and lavender ties, and must part their hair in the middle. They must speak in monotonous and not too loud, yet loud enough to show that they are determined.

Since the street car incident in St. Louis everyone is trying to sell Frisco trains to Texas students.

Here's hoping we make Drury look Dreary Friday.

Fifth chapter of Thermo, ninety-third verse: Cast thy steam lab. report into the office, and it shall be returned after a few days.

Stick up for your home state, boys, whether it went for Wilson or Hughes, whether woman suffrage carried or not and even if it did go dry.

Be not concerned with the sanity of thy neighbor. If he wheeleth another down the street in a wheelbarrow or shaveth but one side of his face—remember the election is just over.

Cheer for M. S. M., boys,

Shout her praises to the sky;

Far above the rest, boys,

Put M. S. M. on high.

P. A. Phillipi, '08, is construction and maintenance engineer of the Baker Asphalt Co., Madison, Ill. His home address is 5245 Washington Ave., St. Louis, Mo.

Boost The Team.

Why not turn out to football practice? Some afternoon that you are idle go out and cheer the boys on a little. Show them that you are for them first, last and forever. They will appreciate it.

If they make a good play cheer them and root and root, and then root some more. By doing so you will so instill the fighting spirit into them that they will clean up on Drury Friday.

Trowel Club.

There will be a meeting of the Trowel Club on Monday evening, Nov. 13th, at 8 P. M. at the Masonic Hall. All new and old members welcome. Initiation of new members.

G. E. Ebmeyer.

C. C. Conover, '12, is assistant superintendent of the National Zinc Co., Springfield, Ill.

SENIOR COLUMN.

Many of the Seniors who bet on Benson are sadder and wiser men today.

Joe Wilson, ex-'17, is transit man with the mine at Silver Bow, Montana.

Bob Lyons begs to advise the Reporters for the Freshman, Sophomore, and Junior Classes that he is a fourth-year man, and, hence, does not desire to have his name appear under their columns.

Mayfield Huff, ex-'17, will spend the winter in Ironton, Mo.

The football team will be out of town next week, so J. K. expects to go fussing.

Wake up, Special Senior Reporters, and hand in some "dope."

Freshman Column.

The freshmen met last week and said, "Let's have the smoker the night of the Drury game." So shall it be and some "scrumptious" you will have to believe me, so come prepared to eat, drink, smoke, and be merry, for the opportunity may not come again soon.

"Tame Cat" Hume was elected manager of the freshmen football squad. Look out for us, Sophomores.

"Tubby" Stanfield is visiting friends near St. James. From there he is going to Webb City where he expects to attend high school next semester.

George B. Clayton returned from St. Louis where he had his tonsils removed a week ago last Wednesday. We are glad to hear that he is doing nicely.

The freshmen's green cap is looking rather dilapidated. Cheer up boys, we won't have to wait long now for the discard.

DANCING SCHOOL.

Miss Mary McCrae will open a dancing school in the Cowan Building November 14th. Term of 12 lessons, \$6.00, cash in advance. Call or phone to arrange for classes.

MURAD

THE Turkish Cigarette

That Murads are
Better than many
25 cent cigarettes
is NOT a mere claim.

Murads ARE better—because better, higher-priced tobacco goes into Murads.

Much of the tobacco used in many 25 CENT cigarettes could never get into the Murad brand. These facts are perfectly well known among cigarette manufacturers.

We Challenge Contradiction.

Don't pay 25 Cents for a cigarette whose price is the only expensive thing about it. A half dozen puffs will show how much better Murads are.

JUNIOR COLUMN.

The Junior Class has already began making arrangements for a big St. Pat. An official committee on class finances has been chosen, which consists of a man from each Club and Fraternity. The men who will handle '18 money are as follows:

C. E. Bardsley, G. Burnet, H. S. Clark, H. W. Doennecke, E. E. Decker, F. H. Geib, T. F. Golic, P. D. Kern, M. Shonfeld, H. R. Stahl, W. C. Zeuch, L. J. Zoller.

These men are fully authorized by the secretary and treasurer to receive class dues and issue receipts for same from their respective Clubs and Fraternities, and from those members of the class not in some Club or Fraternity.

An important business meeting of the financial committee will be held at the Kappa Sigma House this Friday, Nov. 10, at 8 P. M. The object is to adopt a definite financial policy for the ensuing year. Each one of the above men on the committee are urged to attend. Let's pull together for a Big St. Pats.

Men holding cast from sale of ribbons, please make remittance to Bardsley at once so as to facilitate the closing of that account. Let's keep the slate clear this year fellows.

Having a tender passion, Germany took his lady friend some flowers one night last week.

"How kind of you," she said, "they are so pretty fresh, I think there is some dew on them yet." "Yes," said Germany, in embarrassment, "there is, but I'm going to pay it off tomorrow."

THE ROAD TO SUCCESS.

"What is the secret to success?" asked the Sphinx.

"Push," said the button.

"Never be lead wrong," said the pencil.

"Make light of every thing," said the fire.

"Be up to date," said the calendar.

"Never lose your head," said the cabbage.

Do a driving business," said the hammer.

"Find a good thing and stick to it," said the clue.

"Do the work you are suited for," said the chimney.

The following extracts from a letter by Zentaro Iijima, ex-'96, of Tokio, Japan:

"When I started in the transformer business thirteen years ago I was rather anxious regarding the prospect of the business, for at the time electrical undertakings were restricted within a circle of small radius. Fortunately the business was favorably received among electrical men by giving me constant orders. At present the footing of my business is quite firm and covers a large extent. The annual output exceeds 30000 K W ranging in size from $\frac{1}{4}$ to 500 K W and the voltage runs up to 250,000. Most of my time is taken up with general business affairs and with designing special transformers."

"Everytime I receive honor from my Government for service rendered in connection with transformers I feel that something is lacking because I cannot share the honor with you. It is my pride to talk about M. S. M. with my friends here even now, as I never forget the pleasant time I had while there."

"If you or any of your friends ever want anything that can be obtained only in this part of the world please simply drop me a note and I will do the rest."

"I thank you again for the kindness shown me while at M. S. M. and for giving me a true course for navigating the world as a successful electrical engineer."

"Please remember me to all old friends."

Lucian Erskine, ex-'16, is assistant chemist, Station B, Laclede Gas Light Co., St. Louis, Mo.

EDITORIAL.

One of the best events that has occurred at the Missouri School of Mines to arouse "Pep" and otherwise stimulate interest, was the Miner straw vote ballot of last Friday. It was a complete success, for it brought forth sensible discussions and gave expression to many conflicting views. Not only did it awaken in the students the desire to learn the facts of the coming election, but to avail themselves of the opportunity to vote in the big contest. This was shown by the fact that nearly every student of age was eager to be included as a voter last Tuesday.

A very forcible point, however, was brought out, and that was the lack of interest that was manifested by a few students and Professors, who could not spare the necessary five minutes from their arduous self-imposed and self-important duties to register or vote.

It is their privilege, of course, and undoubtedly, to do exactly as they please regarding school activities, but their stand, to be intelligently consistent should be that of some one totally foreign to M. S. M. in everything. Yet some of the same men seek to be **leaders** and some of the same Profs delight to revel in the reminiscences of the Old Days of real Pep, etc., etc.

But lest we be too severe, some excuses are offered for the student digestion. Foremost, it was claimed, "I would have voted had I known about it." They would **have known all about it had they attended the two previous mass meetings!**

"I had no time." This is undoubtedly an excellent alibi. To be frank, why not have said, "Candidly, I don't give a rap."

The important point, however, is that the vote of any one man who failed to vote would have tied the ballot, and two votes would have reversed the verdict. What keen joy must now be the reward of the Hughes supporter

to learn that he lost the ballot to his cause. What ghoulish exuberance must be the Wilson adherent who realizes how closely he saw his party win while he stood helpless and indifferent.

And if we learn nothing more, it is an important lesson if we realize that little as our individual efforts are, we owe them to our helpmates, and it is not "square play" to shift the load, or refuse to put a shoulder to the wheel.

To the few students and the five Profs who failed to vote, perhaps it is all a good joke, or, perhaps you really do care, and regret. If the latter, forget it, and show your spirit by hearty co-operation next time. Forget that you failed to vote; remember only that what is done by the student body as a whole, should be done by you, for you are a part of that body.

Let us unite, fellow students and faculty, and strive together for a bigger M. S. M. Then only are we sincere when we say, "I am proud to be a Miner"!

SOPHOMORE COLUMN.

From all appearances it seems as if the Sophomores think they have the Soph-Fresh game cinched. While it pays to have a certain amount of self confidence, over confidence has caused the failure of many a big undertaking. At the only practice held this week, three men showed up. Center, quarterback and full-back. Some team. What's the idea? Get that proverbial "hump" on you.

In the Hall of Fame: Benjamin Harrison Nichols, one of the first students to kill a turkey this year.

The height of vanity: Archimedes Lysander Nolte addressing letters to himself.

Although offered a liberal sum to mention Osher Solomon Goldsmith's name in this column, we absolutely refused to blemish the professional integrity of this noble publication.

"WILSON WINS IN MINER STRAW VOTE."

Complete Returns by Classes.

The following are the results of the straw vote:

President, Woodrow Wilson 119; Chas. E. Hughes 118.

Vice-President: Thos. Marshall 119; Chas. Fairbanks 118.

U. S. Senator: James A. Reed 110; Walter S. Dickey 115.

Governor: Fred D. Gardner 118; Henry Lamm 113.

Prohibition: Yes 92; No 101.

Suffrage: Yes 101; No 93.

Faculty: Divided between Wilson and Hughes. No complete returns on suffrage. Yes on prohibition.

Seniors: Majority of 7 for Hughes. No on Prohibition. Yes on Suffrage.

Juniors: Majority of 1 for Wilson. No on Prohibition. Yes on Suffrage.

Sophomores: Fifty fifty on President. No on Prohibition. Split on Suffrage.

Freshman: Overwhelmingly Wilson. No on Prohibition. Yes on Suffrage.

Continued from Page One.

the Normal ends for long gains. Short line bucks were used to make distance in some instances. The Normal's line was taken off its feet, and White goes over from the 3-yard line on a buck thru center. Raible's kick-out was caught by Cunningham, and Bruce kicks the goal. End of quarter. Miners 7, Warrensburg 0.

Miners kick off to Warrensburg, who try line play again. The Miners hold, and Gunn essays a forward pass, which Dawson nabs on the 45-yard line. Nevins' interference threw off several tacklers, and Tommie dodged a few more before planting the ball squarely behind the goal posts. It was a run a la Im-lay. Bruce kicks goal. Miners 14, Warrensburg 0.

Warrensburg again receives the kickoff, which they return 25 yards. The runner had passed practically the whole Miner team except Bruce and Raible, who brot him to the sod. The Teachers smash the line for several first downs, and a 20-yard run brings the ball to the Miners' 15-yard line. Several bucks against the fighting Miners scored the first touchdown for the Warrensburg crew. They kick goal. Miners 14, Warrensburg 7.

The Miners receive the next kickoff, but are unable to gain thru the Normal line. A 15-yard penalty against the Normals helps some, but the ball is lost when a Warrensburg end recovers Raible's forward pass. Warrensburg's ball on our 40-yard line. A series of powerful line charges with Campbell, the husky Warrensburg fullback, lugging the ball, eventually scored another touchdown for them. The try at goal failed. Miners 14, Warrensburg 13.

Cunningham returns the kick-off 20 yards. The Miners are unable to gain thru the line, and kick to the Normals' 30-yard line. They are penalized for off-side, making it first down and 15

yards to go. A forward pass fails, and the Normals punt to Dawson, who returns the ball 20 yards, when time is called for the first half. Score: Miners 14, Warrensburg 13.

Warrensburg kicks off to the Miners, and Raible returns it 10 yards. Dawson makes 4 yards off tackle, but the Miners fail to make the distance, and Cunningham punts. The punt is returned 15 yards, and the Normalites rely almost entirely upon Campbell for their ground gaining. He makes 15 yards thru tackle; also another 10 thru the line, and plants the ball on the Miner 5-yard line. Here the Miners stop the heavy charges, and take the ball on downs. Cunny immediately punts out of danger from behind the goal line. Warrensburg's ball on our 4-yard line. Lyons tackles a man for a 10-yard loss, a forward pass fails, and the Teachers kick to Dawson in mid field, who signals for a fair catch. A short pass, Bruce to Dawson, fails to gain, Dawson makes 8 thru the line, but the Miners are penalized for offside. Cunny's kick is run back to our 15-yard line, but a 15-yard penalty for holding brings the ball to the 30-yard mark. A cross-field run nets them 12 yards, when time is called for the third quarter. Score: Miners 14, Warrensburg 13.

Warrensburg forfeits the ball, as twelve of their men were on the field when a play was made. Miners' ball on their own 20-yard line. Warrensburg penalized for offside. Dawson loses 5 yards, and Cunningham kicks to middle of field. The Normal team braced and carry the ball to our 15-yard line, where Miners again hold for downs. A try for goal from the 20-yard line falls short, and it's the Miners' ball on their 20-yard line again. Cunningham makes a few yards on a line-buck but Warrensburg recovers a fumble on the 20-yard line. They make a first down on our 9-yard line. Four terrific smashes against the desperate Miner line

brings the ball about 4 inches from the goal line, where the Miners take it on downs. It was a close call, but it saved the game. Cunningham kicks out to the 25-yard line. A forward pass fails, as does another try at a field goal, which Dawson runs back 10 yards. Cunningham kicks to the 30-yard line, where Warrensburg has the ball when time is called for the end of the game. Score: M. S. M., 14; Warrensburg Normals 13.

Second flea—Nope, on a tramp.

—Ex.

"Tomorrow, gentlemen," said the Prof. in a lecture on taking notes, "I will bring in my cards and show you my system."

Voice—O. K., Doc. Bring some chips and we'll have a regular party. —Ex.

Herbert F. Rogers, '99, is general manager of the Superior Phosphate Co., Joliet, Ill.
