THE MISSOURI MINER.

Missouri School of Mines and Metallurgy, Rolla, Mo.

Vol. 3, No. 10.

Friday, November 17, 1916.

Price 5 Cents.

Drury 39, Miners 0.

Drury 39, Miners 0.

In one of the most poorly played games from a Miner standpoint, our boys lost to the Drury Panthers by a score of 39 to 0. A bad break gave Drury the ball on their own 2-yard line, and the chance to score was gone. The Drury backfield was off with the snap of the ball, and made large gains, while the Miners weren't even in place on the line. Egendorf, the Drury fullback, plunged and made distance at will, while Zuber, the quarterback, was good for many long gains around the ends. Dawson was the Miner satellite. It looked like a case of over-confidence, for which there wasn't a just reason. In the last quarter it resembled a high school team.

Game in detail.

Drury kicks off to Raible, who runs it back to the 35-yard line. Cunningham kicks, and it's Drury's ball on their own 5-yard line. They are forced to punt to their 25-yard line. Miners fail to make distance on three tries, and Cunningham tries for a placement goal. He missed by a slight margin. Drury's ball on their 20-yard line. They make long gains thru the line and around the ends, and finally, Egendorf smashes over from the 10-yard line. The old fight, which was so evident in the Washington game, seemed to have left the boys, as they failed to stop Drury. They kick goal. Drury 7, Miners 0.

Johnston runs back the next kick-off and made 15 yards before being downed. "Cunny"

makes 10 more on an end run. Miners kick to Drury on the third down, and they run it back 25 yards, but soon kick to our 45-yard line. Raible calls for another punt, and Cunningham kicks the ball over the Drury quarterback's head, who recovers on his own 2-yard line. They immediately punt out of danger. Several Miner forward passes fail, and it's Drury's ball on their 20-yard line. End runs bring the ball to our 40-yard line, when Dowd takes time out. Dawson also replaces Johnston. Time called for the first quarter. Drury 7, Miners 0.

Drury kicks over goal line, and Miners put ball in play on their 20-yard line. "Cunny's" punt goes out of bounds on our 30-yard line. Drury commences to smash the line again, but lose the ball on downs on the Miner 10-yard line. Cunningham kicks to the 40-yard line, but after a punting duel Miners have possession of the ball in midfield. Dawson makes 9 yards thru tackle, Cunningham makes it first down. Dawson negotiates another first down, and a forward flip, Raible to Zoller, nets 7 more. Miners lose the ball on downs on Drury's 25-yard line. Dawson returns the next punt 15 yards, when time is called for the first half. Score: Drury 7, Miners 0.

The Miners kick off to the Drury 30-yard line. Miners penalized 5 yards for offside. Miners given another 15-yard penalty for holding. Line smashes net

FRESHMAN SMOKER

Greatest Success of Year.

Freshmen Show "PEP."

On the night of November 10th another page was written in the history of the School. Coming back after the disastrous defeat of our football team in the afternoon, the Freshmen, already showing that old M. S. M. spirit, that "never say die" spirit, put on one of the grandest and most glorious smokers of recent years. From the very first moment when Murphy led the cheers for the School to the very last when La Belle Alma sang "I'm thru," the smoker was a howling success. Any remnants of hard feeling remaining between individual members of the two lower classes, except those caused by the importation from St. Louis, were finally and utterly crushed out, and all present seemed to be united for a greater M. S. M.

The Freshmen put on a lengthy, varied, and enjoyable program. The musical numbers by Metzlow and Sprigg and Crutcher were appreciated; the wrestling bout between Myers and Fenelon was short and snappy; the hand and foot race between Davidson, Forgotson, Miller, and Whitworth was exciting; the three round bout between Dickerson and Barnard was full of action; the barrel fight in which Laun and Sherman participated excited much laughter; the flour and molasses race with Cameron and Halligan as contestants was ludicrous; and

the singing by the quartette, Scruby, Sprigg, Crutcher and Fox, was encored time and again; but the big event, and the event which assisted materially in making the evening a success, was the delightful singing and dancing skit by Mlle. Alma Arliss. Mlle. Arliss captured the hearts of all her auditors, and the Freshman Class is to be complimented for their good work in securing the services of so celebrated an artiste. Last but by no means least came refreshments of sandwiches, cake, and Bevo.

To the Freshman Class as a whole belongs the credit for making the evening a success, but especial credit is due to President Johnston and to the Entertainment Committee, Carson, chairman, Evans, Schumacher, Sprigg, Crutcher, and Forgotson.

The Faculty and the other classes thank you, Freshmen, for the enjoyable evening, and wish you success in your future undertakings.

Card of Thanks.

We desire to extended to the many friends in Rolla our thanks and deep appreciation of their kind acts and condolences extended us incident to the passing of our beloved son and brother, the late Edmond Stoliker. And, also for the beautiful floral offerings.

Mrs. J. L. Barkus and family.

Mr. Stoliker died of heart failure, as his death followed a morning of exceptional good prospects in overcoming a slight attack of fever.

Mrs. J. W. Scott and daughter, Miss Olive, together with Joe B. Cole, went to Kusa, Oklahoma, and from there to Creston, Iowa, to attend the funeral of the late Mr. E. O. Stoliker.

Horace H. Clark, '15, is industrial gas engineer for the Public Service Co. of Northern Illinois, Edison Building, Chicago, Ill.

ROLLAMO PICTURE SHOW.

The Rollamo Board is fortunate in securing for this week's shows two exceptionally good films. On Friday, Nov. 17, will be shown Pauline Frederick in "Zaza." Zaza is a popular singer in one of the gayest music halls of Paris. She leads a very tempestuous life, and is much sought after by the beaux of the town. One night she meets Bernard, a man about town, behind the scenes, and after a frivolous flirtation, falls deeply in love with him. It is not long before he establishes her in an apartment, where they live happily for several months. But why say more? Come out Friday night, and you will see it all.

Elsie Janis in " 'Twas Ever Thus," a delightful photo comedy of the art of love making from the prehistoric down to the present day, will be presented by Bosworth Incorporated, at the Rollamo Theatre, Parker Hall, on Saturday, Nov. 18.

Elsie Janis impersonates three entirely different girls, a bare limbed belle of the Cave Dweller epoch, a refined daughter of the Boston aristocracy of 1865, and an up-to-the-minute New York novelist of the present day. Her athletic vigor as the first, her grace with the difficult crinoline as the second, and her style and charm as the third prove an infinite variety and delight to this extra-moneysworth program.

CROSS-COUNTRY RUN Nov. 25, 1916.

Start on Jackling Field; east on 12th street to Olive street, south one block, and then east to cross road 1½ miles, north to point where it intersects St. James road, then back to Rolla. Finish on Jackling Field.

All runners get out and practice.

THE JEWELER.

SENIOR COLUMN.

The Senior Met. men are organizing a Metallurgical Society. With the hearty cooperation of the instructors in Metallurgy and the active participation of the Junior Met men this Society can be made an instrument for great good. The Metallurgical Society intends in no way to "buck" the Mining Association, but rather expects to assist it in every way possible. The following men are eligible for membership: Professors Mann, Clayton, and Thornberry of the Faculty; Ambler, Bock, Bowles, Elfred, Gaffney, James, Horner, Kaplan, Schiermeyer, and T. P. F. Walsh of the Senior Class; and Clark, Doeling, Doennecke, Epperson, Golick, Pugh, Shanfeld, and Terry of the Junior Class. A meeting of the men mentioned above will be held 7:30 P. M., Tuesday, Nov. 21st, Room 103, Metallurgy Building, for the purpose of effecting a permanent organization.

Mademoiselle Alma Arliss, the distinguished danseuse of Freshman Smoker fame, on being interviewed by the Senior Reporter had the following to say: "I think the School is a noble institution, the Senior Class the best in the world, and the Missouri Miner one of the greatest publications in America."

A certain professor who gave a quiz last Tuesday suggests that the Senior Class adopt as their official emblem—a baby's cradle.

Prof. "Boots" Clayton:—Say, "Thorny," I'd like to borrow that "kaki" suit next week, that is, if Prof. Dean don't care.

Dan Blaylock, '15, District Engineer of the Big Creek Coal Company, Illinois, spent last Sunday with the Grubstaker Club, leaving Monday for St. Louis.

Attention of Kluge, Hippard, and natives of small Illinois towns. Thornberry in Collinsville: Are the hotels in this town run on the American or

European plan?

Native: One is run by an American, and the other by a German. We haven't any Europeans.

Cox-Rethmeyer.

A very beautiful home wedding was solemnized Wednesday evening, Nov. 3, 1916, at the home of Mr. and Mrs. Henry Rethmeyer on Clark, Ave., of Sullivan, Mo. The contracting parties were Mr. William Ray Cox, ex-'18, and Miss Celia I. Rethmeyer, both well known Sullivan young people. Mr. Cox is the only son of Mr. and Mrs. Robert Cox, and is now at Topeka, Kans., where he has a good position with the Civil Engineering Department of the Atchison Topeka and Santa Fe Railroad Co. Miss Rethmeyer is the oldest daughter of one of Sullivan's best known and highly honored families.

The ceremony was performed by Pastor T. Bertrand Frary, formerly of St. Louis, Mo., now of Traverse City, Michigan. Mr. H. F. Valentine acted as best man.

There were about seventy-five guests, those from out of town being from Berger, Herman, Webster Groves, Maplewood, St. Louis, Coulterville, and Messrs. C. E. Bardsley and H. F. Valentine, students of the Missouri School of Mines at Rolla.

The following afternoon the newly weds left for St. Louis, proceeding immediately to Topeka, Kansas, where they will make their home.

A message of the good wishes of his fellow club members, the Corsairs, was delivered by Mr. Bardsley.

The Miner congratulates "Bauldy" and wishes him and his wife success.

The Hobo Club at the University of Montana offers free board and lodging to all students of rival schools who beat their way to Missoula to see the teams compete with Montana.—Ex.

A Plea for a Student Council.

Deep rolled the waves across a surging, heaving sea towards a horizon scowling and fearful in its unknown dangers. In the midst of a tranquil voyage the storm had burst, and now all was disorder, mutiny and mad scrambles towards the lifeboats, or stolid helpless indifference to the future fate of all aboard.

But then, when the first fingers of light crept up in the distance and smoothed the wrinkled billows, when the sun appeared in the golden glory of the East, the terrors of the night were dispelled, for the hidden reefs lay exposed, and the ship was saved.

Likewise has the student body been met with a period of storm, and tossed upon a sea of discontent, but thru the fog of mistaken college spirit and illusioned loyalty, the clear light of reason has revealed the shoals, and pointed the way to future great-

ness. Without resentment, without threats, issues have been met, and issues have been solved.

What does it all tend to? Has it not been shown that arbitration, fair and sincere, is not only possible, but practical in effect? Does it not prove that it is an excellent manner to settle disputes that have arisen and must arise?

Let us have more of it, or better, if the gathering of conflicting sentiments into a common crucible has resulted in a valuable product, let us establish, not for the time being, but forever, a mutually advantageous **Smelting and Refining Company**, composed of students and faculty representatives to continue the process. In other words, now that necessity has financed the project, let us strengthen the enterprise, so that it will pay greater dividends in the future.

In other words, why not a **real Student Council**?

Officers of Alumni Association.

A canvas of the ballots shows that the following named men have been elected officers of the M. S. M. Alumni Association for 1916-17:

W. Rowland Cox, President; Ray F. Rucker, Vice President; Chas. Y. Clayton, Secretary; Geo. R. Dean, L. E. Garrett, K. V. Moll, R. R. Benedict, E. W. Buskett, H. T. Mann, Advisory Committee.

Freshman Column.

The freshman football team is coming along nicely. The places have not been assigned yet but will be soon. The manager has a couple of dark horses which he expects to use in the game.

Uncle George Clayton reading leaders aloud at the Rollamo show Saturday night. "She offered Jane the services of her modesty." (Modiste.)

Some of us are having a hard time recovering (financially) from the effects of the election.

The freshman mechanical drawing has been moved to Mechanical Hall. If the reason for the move was the noise we made, "Fat" Laun's expostulation as to the merits of said mechanical drawing was most

Good Fresh Goods.

Around The Sun Dial.

Last Friday was an example of the "cloud with a silver lining," and it was the Freshmen who showed us that lining. Friday afternoon was a mournful one, but our grief at the loss of the game was drowned in good-fellowship and Bevo at the Freshman smoker that night.

The Freshman smoker was a glorious success, and the few who missed it regret it. We all had a good time, and believe she did too. The smoker was a pace-maker for future years, and the Class of 1920 should be highly commended.

Cold weather set in Sunday, and continued the rest of the week, thus causing the student to spend the evenings in his room. Wonder if, for a diversion, he studied.

The army of the faculty made a heavy attack of quizzes this week. The student faces fell back somewhat in disorder, but are reforming and preparing for the long winter siege.

Great discovery made by two budding young M. S. M. scientists. Housholder and Geib find that it is possible for the Sundial to work at night. They base their claim on the fact that at 7:15 P. M. last Thursday the Sundial reading corresponded to that of their watches. However they withhold such information as why they were on the campus, who was with them, and what condition they were in while taking the readings.

Wanted:—To know what Junior said that frost is most effective in the tropics.

It is claimed that association will contaminate the best of us, and here is another example. Prof. Meuhlenberg, from association with us miners is getting quite rough. In his Wednesday lecture, in replying to an outline, said that mamillary is like "H," and that ooltic is like "L." We hope his friends back in Golden, Colo., do not hear of this.

M. S. M. has a lack of songs. Some of you bravadoes with music in your souls, get busy and provoke the Muses so that we can spring something new on the old boys back home Christmas vacation.

The team is playing Texas A. & M. this week, and they are up against a strong team, and A. & M. does not mean amateur and muff, but whether they win or lose, we are with them.

The power house has been quite a popular place the last few days. All the boys taking C. E. congregate there to warm their hands, and ease their feelings for not having run the courses before cold weather set in.

Beware of the Rollamo show tomorrow. The picture to be shown failed to pass the Illinois Board of Censors.

GERALDINE FARRAR
in
CARMEN.

The Rollamo Board has secured for Thursday, Nov. 23rd, one of the best moving picture productions ever produced. At extra expense they have secured Geraldine Farrar in "Carmen." Wid, the greatest moving picture critic in the U. S., says the following about this film:

As a whole, a great film.
Direction, splendid.
Story, very well told.
Photography, wonderful.
Lightings, exceptionally artistic.

Star, a decided success.
Support, very good.
Exteriors, beautiful.
Interiors, perfectly lighted.
Detail, very good.
Atmosphere, good.
Length, hour and quarter.

Owing to the increased expense of securing this great production, the Rollamo Board is compelled to make the prices for this show 15c for adults, and 10c for children. Don't forget the date—Thursday, November 23, at Parker Hall.

Drury 39, Miners 0.

Continued from Page One.

Drury several first downs, and they finally shoot over for a touchdown. The Miners fought for every inch of ground, but seemed unable to keep the heavy Drury backs from making distance. They fail at goal. Drury 13, Miners 0.

Raible brings back the next kick off 20 yards, but Miners are unable to gain, and "Cunny" kicks to Drury's 30-yard line. Drury's heavy line charges again overcame the Miner resistance, and they score again from our 4-yard line. They kick goal. Drury 20, Miners 0.

Drury kicks off to Cunningham, who returns 25 yards. White snares a forward pass for a 5-yard gain, but Drury gets the next one on their own 25-yard line. They make a first down. Time for third quarter. Drury 20, Miners 0.

On the first play of the fourth quarter the Drury quarterback gains 20 yards on a long end run; Drury gets a 15-yard penalty for holding, a forward pass makes up the lost distance, but they lose 5 yards when Lyons tackles their halfback for a loss. Zuber scores a touchdown, running around left end behind splendid interference. They miss goal. Drury 26, Miners 0.

Raible makes a 20-yard return of kick off. One forward pass gains 5, while Drury cops the next one in midfield. They lose the ball on downs, and White gains 20 yards on a triple pass. Drury recovers a Miner pass, but kick to Raible, who returns 5 yards. White's punt is blocked, and Drury recovers on the Miner 20-yard line. Several onslaughts off tackle put the ball over the line. They kick goal. Drury 33, Miners 0.

Lyons makes a pretty return of 20 yards on the next kickoff, but Drury recovers a Miner fumble on the 40-yard line, from where these worthy gentlemen

batter the Miner line for another score. They miss goal. Game over, thank Mike.

Score: Drury 39, Miner 0.

SOPHOMORE COLUMN.

The Sophomores at the game last Friday between the Miners and Drury College showed that they had some of the old time Pep.

Wyan Ellis Lang, of the Engineers, by the election of Wilson, made it possible to reduce the bills very materially. He had six of them going without meals for one day.

The Sophomores deeply appreciated the smoker given in their honor last Friday night. Every one enjoyed himself immensely. Of course, each one had a different way of looking at it, but on the whole it seemed that Miss Alma Arliss, from St. Louis, was the biggest attraction. Miss Alma intimated to the Sophomore reporter that she was most pleased with the Class of '19. This was evidenced by her special attention paid to Mr. Themistocles Aristotle Dowd and Mr. Iva Dollar Goldsmith.

The Sophomores who bummed to St. James last week report that Miss Sophy Cushion entertained them during their stay.

In Spanish class it was proven that size is not always an asset. Translation by A. C. Starkey: "Big men are not always great men."

VENUS**VENUS
10¢ PENCIL***17 Perfect Degrees**from 6B Softest
to 9H Hardest**and hard and
medium copying*

Like a soft-leaded easy marking pencil? Take the higher numbered B's such as 3B, 4B, 5B. For the extreme limit of softness 6B is without an equal and is used by many as being the ideal of all pencils.

Medium degree is HB. H's are the harder grades, 2H or 3H being medium hard, and 6H, etc., being used for thin, clear, fine lines of detailings. Your professors will confirm these statements as to the merits of VENUS pencils. Note the distinctive VENUS water mark finish when you buy.

**VENUS
ERASER**

is beautifully smooth and even in texture. It rubs out pencil marks perfectly. Gray, and does not cause discoloration. 12 sizes from 100 to a box to 4 to a box. Box price \$2.00. Venus Erasers are the BEST erasers. Ask for them by name.

Descriptive mineralogy seems to be a warm subject, judging from Prof. Muelenburg's lecture last Tuesday.

Fine Treatment at Rolla.

Aside from taking the long end of the score, the Rolla Miners treated our team royally, and we can't blame them for that. Rolla supporters carried our fellows off the field after the game and ended up with a live party at movies on Friday night. Our men appreciated such treatment and are loud in their praise of the Miners. — (Warrensburg Normal Student.)

TULSA "PEP."

There are fifty-five of us within easy reach of Tulsa. Thanksgiving Day is a bully time for a get-together rally. And then we are to stage a banquet in honor of the team—remember that training has restricted them to raw meat and spikes all season. The eats will cost three dollars per each for out-of-town visitors. No charge will be made for the three hundred dollars worth of unconfined joy we will consume. Drop us a line and let us know how this appeals to you.

And don't forget to bring all the family.

Yours for M. S. M.,
TULSA ALUMNI.
Per Vic. Hughes.

Letter Sent to All M. S. M. Men in and Around Tulsa.

Brother Miner:

As you are probably aware, the Rolla Miners tangle with Kendall College in Tulsa on Thanksgiving Day. While the scores this season have not been what we would wish, nevertheless it is pleasant to know that M. S. M. is represented on the gridiron by a bunch of the scrappiest scrappers that ever fought under the Orange and White. They finish the season against a team recognized as one of the greatest in the Southwest. But they can be downed—and believe us, that scrappy bunch from Rolla are the boys that can hand Kendall the hook. With a little of the old-time pep and encouragement from the bleachers, the Miners will hand Kendall a bundle of gloom that will hover over their hearthstone for the next twenty years.

Joe Lyon, ex-'17, writes:

Jack Doyle, to put it plainly, must be on the path of some little innocent Indian maid, who has considerable of the worldly goods.

Frank Johnson avers that he will be with you for the second semester, and guarantees th

he will stick it out. Good football material for next year.

THERE WILL BE ONE ROYAL WELCOME FOR EVERY "MINER" WHO SHOWS UP IN THIS BURG ON THANKSGIVING, AND IF THEY CAN MANAGE TO GET HERE (NO MATTER HOW) I WILL ATTEND TO THE EATING END OF THEIR MATERIAL EXISTENCE WHILE IN OUR MIDST, AND IF NECESSARY, GO THEIR BOND FOR ANY UNFORESEEN CALAMITY THAT MIGHT ARISE.

BUT NO MATTER. LET EVERY ONE THAT CAN, MAKE IT A POINT TO BE HERE ON THE ABOVE DATE. TOO MANY "MINERS" DOWN HERE TO PASS UP A GOOD CHANCE TO SHOW THEIR OLD-TIME "PEP" and YOURS TOO.

News of the Tulsa Alumni.

M. M. Valerius and V. H. McNutt, of the firm of Valerius, McNutt & Hughes, are back in Tulsa after a prolonged visit to New York City.

J. S. Irwin is on the Geologic Staff of the Carter Oil Co., and doing field work in Oklahoma.

A. F. Truex is back in the field after a short business trip to Kansas City.

Jack Craig, ex-'17, is in the Production Department of the Gypsy Oil Co.

Josiah Bridge, formerly of the M. S. M. faculty, after spending the summer on geologic work for the Gypsy, has returned to the University of Chicago, to pursue his studies in Paleontology.

Joe Lyon, ex-'17, conducts a Cafe on the corner of E. Third and Main Sts., Tulsa, and needless to say, Joe has the best "eats" in town. His restaurant is the headquarters of the Tulsa Miners.

V. H. Hughes has just returned from a trip to the Estancia Valley, New Mexico.

H. H. Nowland reports having

made a trip last week to Sand Springs, where he says he met some "very charming young ladies, and having a splendid time."

Jas. V. Howe, formerly of the Civil Engineering Department of M. S. M., is with the Oklahoma Natural Gas Co.

"Bo" Breuer is doing oil work in and about Tulsa.

G. H. Cox, D. H. Radcliffe, and A. F. Truex, of the firm of Cox & Radcliffe, are doing geological work in the Osage Nation.

W. W. Kiskaddon, after having spent his honeymoon in Colorado, is back in Tulsa, and he and Mrs. Kiskaddon reside at 843 N. Denver.

It is the intention of the Tulsa to get together, at a time when all the field men are in town, to organize a Tulsa Branch of the M. S. M. Alumni Association. There are a large number of Miners with headquarters in Tulsa, and several more at the smelters located at Bartlesville, Collinsville, and Kusa. It is expected that this will become one of the largest local Alumni Associations of the School of Mines.

Mass Meeting.

Nov. 16, 1916. Freshman Class in charge. Bloom, chairman. Cheers by Murphy.
