## SOPHS WIN CLASS FIGHT.

The old-time Frosh spirit was in evidence last Monday, as the Freshman Class came swinging up Pine Street on their way to the Green-Capless Green Cap Day massacre on the campus. Army training on the part of most of the class could be seen in the way they kept their column of fours intact as they swept along, singing "The Mining Engineer," and shouting defiance to the Sophs.

The annual exodus of the Freshman Class to the Fair Grounds took place a few minutes before six o'clock Sunday evening, as usual. And, as usually is the case, very few of the Frosh spent the night in wooing the elusive Morpheus. Instead, from reputable sources, it was learned that the night was spent mainly in wooing the elusive African dominoes, otherwise known as African golf. And those who did try to sleep were periodically aroused by the alarm, "The Sophs are coming."

But with the coming of day the old battle spirit arose, and

by the time the ninety-three Frosh arrived on the battlefield in front of the Chemistry building, they were ready to give the new class of 1923 a good introduction to the student body of M. S. M. by giving their enemy, the class of 1922, the battle of its life.

The Frosh were lined up ready for battle at 8:50, but the Sophs gave them fifteen minutes of nervous waiting before setting forth from their lair in the Chemistry building. At 9:05 Eb gave the signal for the joining of battle—and the fight was on. Thirteen minutes later hostilities ceased, with the class of 1922 declared victors. Coach Denie made several finds for his football machine during the course of the fight.

The circus following the massacre was the same old three-ring variety, nothing new appearing in the way of original stunts. Most of the population of Phelps County was on hand to witness the annual humiliation of the Freshmen.

The Frosh have the I. W. W., Bolshevik, or some of the clan

## SOPHOMORE SMOKER BIG SUCCESS.

The Sophomores had a big day last Monday. First, they whipped the Frosh; then they put on a circus; and finally, to show that there was no ill feeling, they gave a smoker in honor of their defeated foes. Cigarettes and cigars, red lemonade for the "bar flies," and a very interesting program made up a night of good fellowship.

Linzer on the violin, and a "49-er" at the piano, "put out" some music that was really music; two local Jack Johnsons gave a four-round lesson in the manly art to a draw; and Dr. McRae made a little speech welcoming the Freshmen to the school.

In all, a very enjoyable evening was spent, and everybody looks forward to the return engagement which the class of '23 will give in the near future.

Dr. McRae has received an announcement of the marriage of President A. Ross Hill, of Missouri University, to Mrs. Vassie James Ward, of Kansas City, Mo. The wedding took place on Saturday, Sept. 6th, at Kansas City, Mo.

The Miner extends congratulations to the "Prexy" and his wife.

R. Chavez, '18, is mining geologist for the Sun Oil Co., of Philadelphia, Pa., in the Tampico oil fields, Tampico, Mex.

to thank for the fact that they are not yet appearing in the insignia of their lowly estate, a strike of textile workers in Chicago interfering with the manufacture of the green caps.

**LIBRARY RULES AND REGULATIONS.****Hours.**

Regular Session.

8:00 to 12:00 A. M.

1:00 to 6:00 P. M.

7:00 to 10:00 Evening.

Sunday, 2:00 to 3:00 P. M.

Closed on All Legal Holidays.

Officers and students of the School of Mines are entitled to draw books from the library. Graduates, former students, responsible citizens of the state, libraries and clubs may also draw books, provided that the borrower pay the cost of transportation.

All officers may borrow as many books as are needed for their work, provided the books are not in demand at the library. All such books must be returned one week preceding commencement.

Students, student assistants and others may borrow two works of fiction, and as many books of non-fiction as are legitimately needed for their work. A monopoly by any one person of the resources of the library on any one subject will not be permitted.

The limit on each book is 14 days, with one renewal, except for books in demand or overdue.

Unbound back numbers of all periodicals except current issues may be drawn with a limit of three days. Current issues may be borrowed over night or over Sunday.

A fine of two cents per day is charged on books not returned when due. No books will be lent to any student charged with unpaid fines. If the book is lost, he shall pay the cost of the book and the fines accumulated at the time he notifies the library that the book is lost.

Reference and reserve books in the reading room are not for circulation. They may be

drawn after 9:30 p. m., for over night use and over Sunday. They must be returned by 9:00 a. m. Failure to do so will subject the borrower to a fine of five cents per hour or fraction thereof, and a possible withdrawal of library privileges.

Books must not be taken from the library until they are charged at the loan desk. Failure to have the book properly charged will subject the borrower to a fine of 25 cents.

The book-stacks are open to all, but books must not be returned to shelves by readers.

President A. Ross Hill, of the University, Dr. S. L. Baysinger, chairman of the Executive Committee, and Dr. A. L. McRae, Director of the School of Mines, were in Washington the latter part of June in the interest of the establishment of a U. S. Bureau of Mines Experiment Station for lead and zinc at Rolla. Senator Spencer succeeded in having the Senate pass an appropriation of \$75,000 for the establishment of three new stations, but in the conference between the House and Senate the item was finally stricken out. The matter will be taken up again at the regular session in December. It is hoped that one of the new stations will be established at M. S. M. in 1920.

Frederick William Shaw, Associate Professor of Chemistry and Director of Student Health will advise the students as to personal health, sanitation and hygiene. Dr. Shaw is a graduate of Medicine, University of Kansas. He has served as Army Medical Inspector in the Philippines, and during the war he was a Major in the Medical Corps, and had charge of the medical hospital at Fort Leavenworth, Kan.

### CADET OFFICERS APPOINT- ED.

**Headquarters  
 Reserve Officers Training Corps  
 Missouri School of Mines.**

Rolla, Mo., Sept. 5, 1919.  
 General Orders No. 1.

1. In accordance with par. 19, C. O. 49, W. D., 1916, the following appointments are made in the Corps of Cadets of the Missouri School of Mines for the year 1919-1920:

To be Major:

Thomas P. Walsh, '17.

To be Captains:

J. P. Colbert, '21, B. E. Sherman, '20; H. C. Stevens, '21.

To be Sergeant-Major:

E. R. Tragitt, '22.

To be Sergeants:

K. H. deCousses, '22, B. Rixleben, '22, P. W. Smith, '22,

G. S. Wyman, '23,

To be Corporals:

J. L. Campbell, '22, O. E. Fisher, '22, P. H. Karges, '22, W. H. Metzger, '22, P. D. Windsor, '22, T. C. Weir, '22, S. W. Kilgore, '23.

2. Capt. J. P. Colbert is hereby appointed Adjutant Corps of Cadets of the Missouri School of Mines for the school year 1919-1920.

**H. J. WILD,**

Major, Engrs., Commanding.

Richard Wesley Mellow, ex-'18, was married to Miss Helen Kuhn, of St. Louis, July 9, 1919. They will be at home after August 1, at 3005 Lafayette Ave., St. Louis, Mo.

Charles L. Allen, ex-'91, has been made cashier of the First National Bank of St. Louis. This is the largest bank west of the Mississippi River, and was recently formed by the consolidation of the Third National, the St. Louis Union, and the Mechanics-American National Banks. The Miner congratulates Charlie Allen upon his promotion and success.

### FOOTBALL.

More men are showing up on Jackling Field, and Coach Dennie is getting a few of those kinks out of his otherwise unruffled brow. There are plenty of backfield candidates out, but what is most needed is a hefty line. Bruce, a letter man, is back, and will try for his old position at center. "Bud" Cairns and "Kid" Wilson are also out.

No additional information is at hand for any more games, either at home or on foreign grids, but there still is a chance of copping a good game or two.

Drury authorities have been asked to transfer the Thanksgiving Day clash scheduled for Springfield to Rolla. It is up to Drury entirely, as the contract as it now stands reads Springfield, Mo., and cannot be altered, except with their consent.

### M. S. M. TENNIS TOURNAMENT.

Singles to be followed by Doubles.

Open to all students of M. S. M.

An Entrance Fee of \$2.50 is charged so that only those thoroughly interested will enter.

Men entering both the Singles and Doubles charged only one fee.

Fee money to be used for prizes for Winner and Runner-up.

Entrees for Singles close on Wednesday, Sept. 17, 1919.

For Doubles to be announced later.

Entrees and Sshedule to be published in next week's Miner.

Give entree to either Coach Dennie, Mr. Mize or Mr. Scruby.

Captain James W. Pugh, '18, who has been studying at the University of Birmingham, England, will return to M. S. M. in September for graduate work

## THE MISSOURI MINER.

## THE GOLFER'S ALPHABET.

By Ronald A. Phillips.

A stands for Alibi, the golfer's best bet

When a hundred-yard drive is all he can get.

B is for Bunker, a nightmare to those

Who wobble their heads or go up on their toes.

C is for Caddy, he's paid by the round;

But when he's most wanted, never is found.

D stands for Dub, a name you'll agree

That's applied to most players, except you and me.

E is for etiquette, possessed by a few

That ask your permission before playing through.

F represents Form—like fortune and fame

It's the will-o'-the-wisp o' the golfing game.

G is for Gallery, always on hand

When you fizzle a drive or dig up the sand.

H stands for Handicap, Hazard and Hook;

Without them the game could be learned from a book.

I is Information. From dawn to setting sun

It's extended free gratis by every one.

J stands for Jigger, a treacherous club

When put in the hands of a venturesome dub.

K is for Kicker. You'll hear him bray

When his handicap's lowered on tournament day.

L stands for luck. You'll cry it, no doubt,

When with a brassie your opponent holes out.

M is for Mashie. You can use it and grin

If you lay an aproach shot dead to the pin.

N that is Niblick, to be called on in trouble.

Often you'll wish it was built like a shovel.

O is for One. It's your treat at the bar

When you sink a one where three is par.

P stands for Practice and Perfection, also;

It's the former that makes for the latter, you know.

Q represents Quarrel. You'll start to get mean

When you're robbed of a hole by a rub of the green.

R that for roll. To attain it, beware

Of the slice, and the drive that ascends in the air.

S is for Scotch. The pro's likely one;

The other's enjoyed when a hard match is done.

T is just Tee; the driving-off line

Where you pray for a birdie and finish in nine.

U is the umpire, face clouded in frown;

No camouflage goes when he's on the ground.

V is Vocabulary; you'll realize its worth

When you've played a few rounds and dug up the earth.

W is for Widow, grieving all alone

While hubby flirts with bogey in place of staying home.

XYZ must stand for sulphurous phrases

That condemn poor golfers to brimstone and blazes.

## LADIES!

The swimming pool will be open for ladies on Monday and Thursday evenings at 7 o'clock.

Get your Athletic Ticket, which includes the above privilege, from Mr. Kahlbaum, Registrar, \$12.00 a year.

Ralph Knappenberger, '13, and J. P. Gill, '19, are visiting at the Pi Kappa Alpha house for a few days.

H. A. Horner, '17, is metallurgist for the American Metallurgical Corporation, Philadelphia, Pa.

Edwin S. Tompkins, ex-'20, of New St., East Orange, N. J., has been elected an Associate Member A. I. M. & M. E.

Hector Julio Boza, '10, is manager Comp. Minera La Guardia, Ltd., Lima, Peru. He has been recommended for membership in the A. I. M. & M. E. by D. C. Jackling, '93, and H. G. S. Anderson, '09.

At the last Sophomore class meeting the following officers were elected: Gettler, President; Knight, vice-president; Christner, secretary-treasurer.

Last Saturday night the Kappa Sigma Fraternity gave a dance at their chapter house. Among those present was Miss Lewis, of Sioux City, Iowa, who is visiting Mrs. Malcolm Wilson.

Extensive plans are in the making for a great celebration of the school's Fiftieth Anniversary in 1920.

The Trowell Club initiated six new members at its meeting Wednesday night at the Masonic Temple. The new members are: W. H. Baxter, C. E. Bardsley, Osher Goldsmith, V. I. Keeter, E. L. Miller, Jr., and M. L. Terry. Old members present were: K. W. Booker, president last year; Theodore Saunders Dunn, the Club's first president; H. W. Hurst, E. M. Guy and D. E. Huffman.

After the initiates had ridden the goat to the satisfaction of the older members the meeting was adjourned to a drug store, where a sundae luncheon was served, with the initiates as hosts.

F. A. Krause, '19, is chemist for the Ozark Smelting and Mining Co., Coffeyville, Kan.

Mr. Dorsey A. Lyon has been made chief metallurgist of the Bureau of Mines, vice Dr. Cottrell, in conjunction with the position of supervisor of stations.

Mr. Lyons is an honorary member of the Tau Beta Pi Chapter at M. S. M.

Pi Kappa Alpha entertained in honor of their pledges Friday evening with a dance.

Ensign W. H. Reber, '18, is spending a week's leave in Paris. He expects to return to this country soon, and will visit in Rolla for a few days.

Capt. Harry Ambler, '17, is visiting in Rolla for several days. He hopes to be discharged soon from the hospital at Ft. Sheridan, where he has been recovering from a wound received last October.

Senior Class meeting Monday at 7 P. M. Be on hand to elect officers.

There will be a meeting of the Mining Association at 7 P. M. Wednesday, in Norwood Hall.

C. M. Schnaidt, '17, is Junior Engineer on the Illionis State Highway Commission, at Canton, Ill.

## ON THE WAY.

Mrs. Heckle: Is your husband overseas?

Mrs. Shekel (glancing at a wabbly man across the room): No, I should say about half-seas over.—Cartoon's Magazine.

The cartoon on the front page this week marks a new era in the progress of The Miner. Joe Wilson, of the Miner staff, made both the cartoon and the cut.

A box, slightly wider than the finished width and as long as desired, is filled with plaster of paris. The cartoon is drawn directly upon the plaster while in a moist state, with a nail or other sharp tool. The box is then inserted into a furnace and baked until hard.

The resulting mold is then poured with type metal, an alloy of lead, antimony and tin. The finished cut so closely resembles a commercially-made zinc etching that as soon as the promoters of the process have developed it to a higher state of perfection, The Miner hopes to be able to run cartoons and drawings of school happenings in all issues. Zinc etchings are expensive, while the new style of cut can be made practically without cost.

An old miner, who has had fifteen years' experience underground, says that he has observed one peculiar fact, that between twelve and two o'clock at night, if there is a loose stone or bit of earth in the mine, it is sure to fall. About this time everything begins to stir; and immediately after twelve, although the mine has been as still as a tomb before, particles of rock and dirt come tumbling down; and if there is a caving piece of ground in the mine it is sure to give way after midnight.

### JUNIOR.

'Twas a mighty nice fight between the Frosh and the Sophs, though it didn't last but 14 minutes it showed the kind of stuff our beginners are made of.

"They are still rolling in;" hardly a day goes by without at least one or two of the old boys coming back.

"Gus" Delaloye is back after a summer's work in the Cripple Creek district, and tells powerful tales about the way he handles a jackhammer.

After sixteen months with the A. E. F., Clark Williams has returned with a more worldly knowledge of things than he had before.

Already the Profs. have illustrated the time-worn moral, "the student should peruse the text." Many have been knocked cold before they could even get started.

### A Trag.

A Bar—A Lad—A Fort—A Rail—  
A Beer—A Glass—A Gin—An Ale—  
A Talk—A News—A Glad—A Thrill—

French Briar, a sterling  
ring and vulcanite bit,  
hand fitted and finished  
by an expert.

WM. DEMUTH & CO., New York  
World's Largest Pipe Manufacturer

#### SEEN AND HEARD FROM THE FLAGPOLE.

"I was a stranger, and you  
took me in." At least it came  
very near being that when  
Fischer talked for 15 minutes  
trying to convince T. P. F.  
Walsh that as a "new man,"  
the thing for him to do would  
be to buy a "Good Fellow-  
ship" ticket (privileges of club  
rooms and all social functions.)  
Having sold a few himself in  
his younger days, T. P. F. re-  
spectfully declined.

The city has again decorated  
its street intersections with "To  
the right" signs. As a hint to  
Frosh we will say that these  
affairs make excellent hall  
trees.

Wanted: Four sulphur fum-  
igators and three gallons of col-  
logne, at the "49" show, owing  
to a shortage of soap and water  
on the Fair Grounds.

In looking over the list of  
new men we can't help but  
wonder that if Wix should A-  
Buser, wo dl Fleck Backer,  
Orr would Hollow be Moore of  
a Jewel and Russell the Clouds  
of Knight away.

#### SENIORS WIN BASEBALL GAME.

Last Monday the Seniors  
won the first inter-class base-  
ball game from the Juniors,  
6-3. The game was remark-  
able for the versatility shown  
by the players on both sides.  
They could play any position on  
the field.
