CORRECTION

# Correction: Causal knowledge promotes behavioral self-regulation: An example using climate change dynamics

David K Sewell, Peter J Rayner, Daniel B Shank, Sophie Guy, Simon D. Lilburn, Saam Saber, Yoshihisa Kashima

In the Task overview: Managing a dynamic human-climate system subsection of the Introduction, there is an error in equation 4. There is a factor of  $\tau$  that is missing from the denominator of the first term that appears on the right-hand side of the equation. Please view the complete, correct equation here:

$$\Delta T_i = \frac{\sigma c_i}{\tau c_{pre}} - \frac{T_i}{\tau}$$
