## BASKETBALL TO TAKE A FLYING START MONDAY.

Inter-Club-Frat Series Scheduled for December 7 to 20.

Athletic Director Dennie is attending the annual meeting of the Missouri Inter-Collegiate Athletic Association this weekend at Kansas City. Immediately on his return M. S. M.'s basketball season will start. Before leaving Tuesday, Coach Dennie posted notices asking all candidates for basketball to report Thursday, Nov. 29th, at 4 P. M. Practice will be held every day after Nov. 29th, and it is expected that the squad will be picked during the first week.

Besides last year's letter men it is known that there are a number of good players in the Freshman class, and they will, no doubt, put a little pep into the competition for a berth on M. S. M.'s quintet. We have the material for one of the best teams in the school's history. All we need to do is to start the season right—win the first game.

The Inter-Club-Fraternity schedule, which is printed below, was drawn up by Coach Dennie. These games must be played on the afternoon scheduled, and each organization is asked to send a representative to the Gymnasium office next Monday at 4:15 P. M. to discuss rules, and complete the schedule.

The schedule follows:

1. Dec. 7—Prospectors v. Kappa Sigs.
2. Dec. 8.—Grubstakers v. Pi K. A.
3. Dec. 9—Vocates v. Bonanza.
4. Dec. 10—Placers v. In-

## "HELLO, MABEL!"

## Home for Thanksgiving.

The first thing he does: "Hello, Mabel!—that you—Oh, Gosh—this is Bill—fine, how are you—Say, your voice sure sounds good, Mabel—when can I come over—this afternoon?—fine—you saved me all three dates?—you're a brick—well, so long till this afternoon—Pssst! still love me—Ha—Ha—Ha. Well, G'bye."

dependents.

5: Dec. 11—Lambda Chi v. Sigma Nu.

6. Dec. 13—Winners 1 v. Winners 2.

7. Dec. 14—Winners 3 v. Winners 4.

8. Dec. 15—Winners 5 v. K. A.

## MINERS LOSE LAST GAME TO KENDALL, 45 TO 0.

Tulsa Team Outplayed Half the Time.

Tulsa, Nov. 25.—Altho the Miners outplayed Kendall fifty per cent of the time, and were in scoring distance several times during the game, they lacked the kick to cross the goal line. The game was fast and snappy, with the first quarter clearly in the Miners' favor.

Early in the second quarter Bryan of Kendall made a sensational 30-yard run, and then followed by a long pass, put the ball over. On the next kick off, three first downs and a forward pass put the ball over the Miners' line for another counter. Rolla received and carried ball to mid-field, where they were forced to punt. White intercepted a pass, and the Miners made two first downs. McMahon of Kendall pulled one of "Buddy's" passes down and raced fifty yards for Kendall's third touchdown. Half ended with score 21 to 0.

## White Features Second Half.

The first part of the third quarter was featured by White's consistent gains of 10 to 15 yards. An exchange of punts and a few plunges put the ball on Miner's 5-yard line. Rolla's line held for three downs, but fourth punch put ball over. On kickoff Bryan of Kendall ran length of field for touchdown. Quarter ended with Kendall punting from their 10-yard line.

In last quarter Miners were within scoring distance twice. Gettler, McBride and White made sensational passes and end runs. The Kendall team was unable to stand against the

Miners, eight men being carried from the field. Rolla was evidently in superior condition. The game ended with the score 45 to 0.

### WHAT DO YOU THINK ABOUT IT?

At the completion of this football season, old M. S. M. will have passed thru the best one of her career since the famous '14 team. The men who have been here for the past three years can only vouch for this in those years they have been in school, and to rely upon 'dope' it further upholds the above statement.

Now we are face to face with the proposition of "What are you going to do about it?" The word "you" in this case applies to the student body and if it represents that pep which only Miners show at games it means that the showing is going to have some punch to it—spiked.

It has been suggested that a banquet be given to the football squad and to the new coach, McCune, who has shown such excellent handling of the training of these men. Off hand, this sounds easy enough, but consideration on the otherhand brings to light a responsibility running into a neat sum of money. The men to whom this responsibility has shown itself met last Wednesday in the metallurgy building, and this group, showing representatives from each club, fraternity and the independents, have the following to offer for the student body's consideration:

First, there must be a sale of two hundred tickets at a price of two dollars per plate.

Second, there must be a hall sufficiently spacious enough to accommodate this number of guests.

Third, that the only place possible for such an affair is the K. P. Hall; and

Fourth, that further suggestions from anybody are in per-

fect order.

As it is understood, there are around thirty-five members of the football squad who have given very valuable time for school spirit and M. S. M. honor on the gridiron. Every student realizes the penalty, and then we are soon to creep into the basketball season.

Such being the case, "Why shouldn't we clean up at once by starting to clean up now?" The infusion of pep into our athletics is beyond reproach. Let's go, men, "What are you going to do about it?"

### PETITION TO KEEP COAH McCUNE HERE.

A petition has been circulated during the last few days which has as its object the retaining of Coach McCune on the faculty during the remainder of the year. This petition, which already has over 250 signers, will be presented to Dr. Fulton in the near future.

The Miner is heartily in favor of this move. Coach McCune has shown himself to be a man in every sense of the word, and as a result, the men under him have always had implicit faith in him. For furthering the idea and bettering conditions for better athletics here no better move could be made than to ask Coach McCune to finish the year out here. And let's hope, if he is asked, that he accepts.

### TEACHERS' CONVENTION HERE THIS WEEK.

The twenty-eighth annual session of the South Central Missouri Teachers' Association is being held in Rolla this week. The program of the session was opened at Parker Hall last night, and the Association will be in session today, and conclude tomorrow morning.

Athletic events will take place on Saturday afternoon. The relay race will be held at Jackling Field, 4:00 P. M. Basketball teams from several schools will exhibit their skill at the Jackling Gym at 1:30 P. M.

### SOUTHWEST ALUMNI ASSOCIATION ORGANIZED.

After the Turkey Day game at Tulsa yesterday, the Miner team was given a banquet by the alumni in that section of the country. An organization of the alumni in Oklahoma, called

the Southwest Alumni Association was completed. W. W. Kiskaddon being elected president, J. N. Lyons secretary, and R. C. Schappler treasurer. Real old Miner pep was shown, and much can be expected from these live wires in cementing a closer relationship between graduates and their old school.

### VOCATES MAY DO TOPOGRAPHIC MAP OF ILLINOIS.

The topographic survey of the entire state of Illinois will be completed if the appropriations of \$70,000 each from the U. S. Government and the State go thru on schedule. Only about one-fourth of the state has been surveyed. This means that it will take some thirteen years to do the work. As the national Geological Survey has only enough topographers to carry on routine work. The topography class of vocational men at M. S. M. will probably have to be depended upon to do the work. This is because we are the only school in the country offering courses in topographical surveying and mapping.

### FROSH SMOKER SOON.

From current reports we are to be favored with the annual Freshman smoker at an early date. The exact date has not been announced as yet, but it will probably take place early in December. From what we can hear, certain attractions will be offered which will make the affair well worthy of your attendance. Make it snappy, Frosh.

**EDITORIAL.**

As long as the anonymous chalk artists confined themselves to pleas for light by which to study, and which did nothing worse than disfigure the sidewalks and buildings of the city and campus, it was merely a diverting fact; but now that personal attacks are being made by this contemptible means, and attempts made to incite the student body to strike, it is time to call a halt. Only cowards who are afraid to come out in the open are capable of perpetrating such deeds. If the cause is worthy a great deal more can be accomplished by coming out in the open like real men and demanding reforms, instead of resorting to the emthods of sneaks and cowards who slink about in the middle of the night defacing property.

The Miner thinks that the light proposition for the poor student is 'something fierce,' but we are willing to come out

in the open and say so. Any constructive thing that is in our power to do we will gladly do. But we do not believe in going about directing criticisms at a condition for which we can advance no practical idea for alleviation. Let's be square and above board.

During the past few weeks there has been considerable propaganda, via the sidewalks, in regard to one of the departments in the school. This method of publicity grew to such an extent that it was becoming personal in nature, and spreading to other departments as well. Rather than ignore the students' point of view, the department in question (Physics) announced that it wished to meet all those who had grievances against the course given, in order that any objectionable features might be removed. On the hour set for the conference only two of the host who were supposed to have a "crow to pick," had appeared. The instructor (Dr. Woodman) was sincere in his wish to get the students' point of view.

There may have been reasons for an honest complaint against the course and method of instruction, but why were those interested not there to present their case. All that was desired was a frank and honest discussion of conditions. Dr. Woodman believes he is giving a course that is representative of an engineering school, and to reduce it would lower the school's standards, a thing that no one really desires.

**JUNIORS, NOTICE.**

The attendance at class meetings has been far from what it should have been. There will be a meeting during the first part of next week, at which a full attendance is very essential. The business in hand must be taken care of at this meeting.

**FROSH-SOPH GAME.****First Year Men Win, 19 to 6.**

Last Saturday's "event," the Fresh-Soph game, brought nearly the entire student body to the side lines. The Frosh did the least fumbling, and won, 19 to 6.

The Freshmen received, but lost on a fumble after making their downs. The Sophomores made downs once, then lost the ball. Each side took turn about at this, over the whole field, possession of the ball changing most often, by fumbles. The quarter ended with the Freshmen near the Sophomore goal line.

In the second quarter, Smith, Freshman end, recovered a fumble and traveled seventy yards for the first touchdown. The half ended with the score 6-0.

The Freshmen kicked off at the beginning of second half. Obtaining possession of the ball on the 20-yard line, they completed a pass for their second touchdown. They again failed to kick goal. The quarter ended with the score 12-0.

**Last Quarter Hardest Fought.**

During the first of the last period the Freshmen made enough ground in a punting duel to again threaten the Soph goal. Kemper intercepted a pass and carried across the third touchdown for the Freshmen. Goal was kicked. Score 19 to 0.

A short time later, and after the ball had changed hands but a few times, the Sophomores recovered a fumble and made their only touchdown. The game ended with the score, Frosh 19, Sophs, 6.

Carter and Smith starred for the Freshmen, completing five forward passes for about 80 yards gain. The Frosh completed eight forward passes out of twenty-nine attempts, while the Sophs attempted ten and

completed only two.

**Line-up:**

Substitutes: Frosh, Powell, Moody and Metcalf; Sophs, Walling, Teller, Hoover, Evans, Meeks, Pesoit, Knight, Hooper, Moore and Davidson.	
Officials: Referee, Dennie; umpire, McCune; head linesman and timekeeper, Thornberry.	

**MINER DANCE CONTRIBUTES TO MEMORIAL FUND.**

The second Miner dance, given on the evening of November 20, netted the sum of \$31.35 toward the "Eddie" Bohn Memorial Fund. The dance was well attended, and the music by Hunt's orchestra was excellent. "Thorny" reports that he has received the following contributions from old Miners:

L. B. Benton.....	\$5.00
C. P. Howard.....	\$5.00
M. P. Brazill.....	\$5.00

This is indeed a splendid showing. An excellent example, it is, of the kind of men who have gone before us.

**DR. FULTON HEADS DIVISION OF A. M. C.**

Dr. Fulton has returned from his trip to Denver, where he attended the convention of the convention of the American Mining Congress. While there Dr. Fulton delivered a lecture before the division on "Mining Education and Public Service," on "The Place of Metallurgy in Mining Engineering." This division of the organization is to meet in St. Louis next year, and Dr. Fulton was elected chairman of that meeting.

A. X. Illinski, President New Mexico School of Mines, who graduated here in '10, and received his Met. E. here in 1916, was elected vice-chairman.

### OLD MINER SPENDS THANKSGIVING IN ROLLA.

Phil S. "Goody-Goody" Judy, '05-'09, visited in Rolla over Thursday, taking his Turkey Day dinner at the Grubstaker Club, of which he was a member while at M. S. M. Mr. Judy is one of the "old timers," and finds that Rolla's familiar streets recall many a fond remembrance of his days at M. S. M. At present he is sales-manager for the Bunting Hardware Co., of Kansas City. Mr. Judy was much interested in the plans for an M. S. M. homecoming, and expressed his opinion that next Thanksgiving would be the ideal time for the occasion, as more of the graduates and ex-students could find it possible to be present.

### BE SURE TO VOTE.

Until lately the dates considered for the time of the Fiftieth Anniversary celebration have been St. Pat's and Commencement week. Last week the Miner announced Thanksgiving of 1921 as another possibility due to the fact that the doors of the school were opened during the first part of November, 1871, and that date would be nearer the true 50th anniversary.

If the celebration should be held on that date the main feature of the program would be a football game with some large university. The money required for the expenses of the game being furnished by the Curators. No definite announcements have been made as to the nature of the program if held at St. Pat's or Commencement.

The success of the celebration of course will depend upon the alumni. Every man should make a special effort to be here for the occasion. The Miner announced that a ballot would be published this week in order that all might vote for

when they think the celebration should be held. Instead we are going to mail postal card ballots with the three dates under discussion printed thereon. Check the date you think best and mail to the Editor of the Miner. This is a chance for the Alumni to voice their opinion on the subject, and they should take advantage of the opportunity.

### FROSH-JUNIOR GAME?

It has been rumored that a game between the teams of the Junior and Freshman classes is to be staged in the near future. Such a game should prove a hard contest, and we surely hope the rumor will prove true.

A junior class meeting is to be called early next week, and it is expected that a challenge will be sent to the freshmen.

The class of '22 defeated the class of '21 in '18, and the class of '23 in '19, leaving the class of '24 the only class now in school not defeated by the class of '22. A game with these two teams opposing each other should be a hard fought contest.

Go to it, '22 and '24.

### MET. AND CHEM.

The Met. and Chem. Society spent an enjoyable two hours last Friday evening. Some constructive measures were passed by the members, which will make future meetings more interesting and instructive. All those interested in metallurgy and chemistry will miss some practical information, as well as a good time, by failure to attend these meetings.

Corporal: "I hear they have found Christopher Columbus' bones."

Dark Private: "Why, man, I didn't know they shot craps when he was alive."

—American Legion Weekly.

### ROLLAMO PLAY A TREMENDOUS SUCCESS.

The Rollamo play, "Officer 666," presented on Tuesday evening, Nov. 23, 1920, under the auspices of the Star and Garter, was better than most plays presented here, and was only equalled by "Stop Thief" and "Billy" of last year.

The cast was exceedingly well picked, and the play as a whole showed the effects of excellent training under the director, W. L. Stewart. As compared with the plays of last year, this was one much more difficult to present.

Virgil Whitworth, as "Bateato," meek and humble Japanese servant that he was, carried his part in a way much better than was to be expected in so difficult a part. Of "Pem" Gordon, in the role of "Officer 666," we can say heartily that his part could not have been better played than by him. He was truly a delightful personification of these numerous sons of Erin who seem to have such an affinity for brass-buttoned uniforms. The part of "Whitney Barnes" was well taken care of by "Bill" Hoke. He showed best while in the unfortunate predicament of having on a pair of locked hand-cuffs.

Both "Bill" Baxter, as "Travers Gladwin," and "Bill" Stewart, as Alfred Wilson, showed remarkable stage presence. Baxter showed himself to be very versatile in the two roles he was required to assume, while Stewart's portrayal of the cool, cock-sure criminal, could not have been better. Mrs. Charlotte Singleton as "Helen Burton," showed by her manner that she was perfectly at home on the stage. Her voice was natural and well modulated, and her actions were graceful.

The part of "Sadie Small," taken by Miss Billie Farris, was well done, with quite the proper amount of reserve and timidity

which the part called for, and which is usually so difficult to produce. Mrs. Marguerite Norville played the part of "Mrs. Burton," aunt of the two girls. Mrs. Norville's part was a difficult one, in that it required so much action; and she did well in carrying it out on so small a stage. Her voice, too, was of the right pitch and easily heard by the audience.

Watkins, in the part of "Police Captain," was really good. He carried the proper expression and tone of voice thruout. Collett, too, was good. He portrayed the part of the cool-headed, "hard-boiled," police detective, in a fitting way. Collett's acting was characterized by the same qualities that accented his playing last year in "Billy." Kiskaddon, as "Watkins," Sam Stuart, as "Ryan," and the other policemen who took part in the play, were all good in their parts. All in all, the play was well presented, and was nothing short of a direct hit.

The Star and Garter, W. L. Stewart, the director, the members of the cast, Prof. Armsby Hosterman and Case, and all who contributed in any way to the success of the play, are to be congratulated for their efforts.
