THE MISSOURI MINER.

Missouri School of Mines and Metallurgy, Rolla, Missouri.

Vol. 8, No. 3.

Friday, September 23, 1921.

Price, 8 Cents.

EDDIE BOHN MEMORIAL IN PLACE BY NOV. 1ST.

According to the latest reports the Eddie Bohn Memorial will be completed by Nov. 1st. The fountain was shipped from the quarry in Vermont on Sept. 15th, and will be in St. Louis in a few days. The work of putting in the plumbing and assembling will be done there, so that when it arrives in Rolla all that will be necessary will be to place it, and connect the water.

The memorial will consist of a fountain placed in front of Parker Hall, and surrounded by flower beds. The fountain will be of gray granite, surrounded by a bowl in the center of which will be a spray. Three bubblers will be placed around the edges. The tablet bearing the inscription will be of bronze.

MINER CHANGES DATE OF PUBLICATION.

Beginning with the next issue the Miner will be published on Mondays, rather than on Fridays. This exchange of date, we believe, will meet with the approval of the student body, and especially the alumni. Football games at home and abroad, with one exception, are to be played on Fridays. This would mean, under the old date of publication, that the football news would be one week old when printed. If printed on Monday, however, each week's game will be read at least before the following game is played, whereas, formerly it

Continued on Page Eight.

THE STUDENT ADVISOR.

The biggest job on the campus is that of Student Advisor. If you don't believe it, ask Prof. Armsby. He has the job of advising the students at M. S. M., and the job doesn't stop at mere advising. As Prof. Dean says, "If you want to know if you can come to school, ask me. If you want to know anything else under the sun, go to the Student Advisor." And that is the way it is. "Anything under the sun" comes under the jurisdiction of "Doc" Armsby.

In the office of the Student Advisor will be found lists of all the students, their credits, grades, absences, organization affiliation, and in fact, everything pertaining to any man enrolled at M. S. M. If a man's grade is falling below the required standard, or his absences are reaching the negative-hour mark, Prof. Armsby will attempt to reach the cause of the matter before the man flunks, or is credited with the negative hours. Finding the cause and remedying it are parts of the functions of the Student Advisor.

The matter that most concerns the student body, individually, is that of having on the schedules the studies being pursued. For a man to receive credit in a course, that course must be on his schedule. The object of this ruling is two-fold. Loading up with studies after the maximum twenty-two hours is reached, and not signing up for the subjects in the office of the Student Advisor is prevented, and, the schedule serves as

Continued on Page Eight.

BIG GAME ONLY ONE WEEK OFF.

Three Men Injured On the Field This Week.

With our biggest game of the season only one week off the Miner's chances look bigger and better every day. Scrimmage and signal practice have been the main topics on Jackling Field for the past week. With the team practicing every afternoon until dark a strong team is being thoroly developed.

As the result of the hard grueling practice the team has lost three candidates by injuries. Captain Wendell was forced to leave the field, due to chipped ankle bone, which he received in scrimmage. During tackling practice McBride suffered a dislocated ankle, and McGirl was laid out in a scrimmage on Tuesday. Wendell's injury will probably keep him out of the Washington U. game, and the team feels his loss, as well as the loss of the other two men. With the ever-ready material their places were well filled by qualified men, and in a few days the team should be showing up in war strength again. The first team has not yet been picked, and every man is being given an equal chance. By the first of next week the regulars should and probably will be picked, but the men who will make the Washington trip will not be made known officially until late next week.

The team has been helped considerably by the noticeable number of specators on the side lines, and there is no reason why the majority of the student body cannot be up there

giving the team encouragement every afternoon.

There has been some talk of a special train to St. Louis on October 1st, and we are almost sure to have a holiday. Whether the special train idea goes thru or not, there will always be plenty of freights, and four or five passenger trains, and M. S. M. should be represented by one hundred per cent on the bleachers and sidelines. With eleven fighting men on the field and with the whole school backing them, we should show Washington U. a team which will be aggressive and unbeatable. It takes more than eleven men to win a football game, and they need your help. Without it the team cannot help but lack pep. See to it that you are in St. Louis on October first, with the best of the Miner pep.

Nothing is known of the strength of the Washington team, but it is understood that they have many of their old letter men back again, which means a stiff struggle for the Miners. They beat us last year, but will they repeat it this year? Not if you will get behind the team and push.

TENNIS TOURNAMENT TO START NEXT WEEK.

The list of entries for the fall tennis tournament has been posted on bulletin boards for over a week, and few men have showed enough spirit and forethought to write their names as entries upon the list. After looking over the list and knowing, that many other men in school are excellent players, but have shown no interest, tennis as a sport at M. S. M. looks very disgusting and unfavorable. The courts have been kept in good condition, and are crowded every day, yet the men show no interest in a tournament. Last spring the best men in the tournament were sent to Springfield to compete

with Normal and Drury tennis stars. The tournament this year was for the same purpose, but the outlook is not nearly as good as it was last spring. Has the old Miner pep degenerated? Here's another chance to put M. S. M. on top.

THE ORE BUCKETT.

Last week's issue of the Miner marked the introduction of a new feature to our paper. Some enterprising students have undertaken to edit a special column, which they have dubbed "THE ORE BUCKETT." This

A. A. E. MEETING

POSTPONED.

Because so few attended the A. A. E. meeting on Wednesday evening, it was decided to postpone it until Tuesday, Sept. 27. Every member of the local chapter should be there, for both a president and a secretary will be elected.

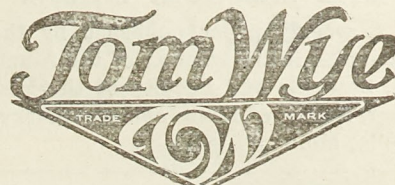

WHO'S WHO.

"Dottie" Storrs, resident of Hannibal, Missouri, and gun in mechanics, upholds the grand old tradition of the Up-River Town. Is possibly the only rival of "Billy" Sunday in town, as he has strength enough to try to convert anything from a College Prof. to a girl from "The '49." Is real generous in his tendencies, and believes that even girls should be nice. Must be quite a go in Hannibal, because a frined came all the way to Rolla to be with him during the County Fair. And then the boys call him "Billy" Sunday.

THE PIANO.

Recognizing the great need of a piano in the Gym, The Missouri Miner has leased one for the entire school year. This piano will be loaned gratis for all beneficent purposes, but for all other occasions it will be rented. Inasmuch as this instrument is under our care we ask you to respect our position by helping us to take care of the piano while it is in the Gym. Any one wishing to rent the piano will receive prices from the Business Manager.

E. K. ("Toots") Schuman, M. S. M. '20, has returned to Rolla to enter business with Chas. Schuman & Co. He has been engaged in consulting work with Harrington, Howard & Ash, Consulting Engineers, of Kansas City, until he resigned to enter partnership with his father.

THE "CO-OP" CLUB.

We realize that the word co-operation is used so often that it loses its forcefulness, yet we do not apologize for using it again as regards our student life. If it were as easy for the student body to co-operate as it is for the various individuals who constitute the student body to crab we would have a school with a reputation second to none for loyalty and eagerness to push any worthy enterprise. It is true that as individuals we may not appreciate being told that we have a tendency to crab and pick flaws, rather than look for the good things about us, yet as a body of men we should not be offended if we are frankly told that we are "crabbers." And the secret of the success or failure of the student body lies in that word "Frankness." Are you frank, honest and above board with your fellow students? And if not, what good reason can you

offer?

We have numerous enterprises at the M. S. M. meriting the support of every student, and not just a few of the more interested ones. If you have a **constructive** criticism to offer, the only place to make it is where it will do the most good—to the man or organization about whom it is made. Such a criticism is not "crabbing." It is a boost; and better still, it shows that your interest is of the right kind.

The student body at the M. S. M. has a difficult task to perform during the year. A task that calls upon it to show its oneness in every move it makes. Especially during the "Home-Coming Week" we should extend to the old grads and ex-students a brand of hospitality that will stick in their memories, and be an accomplishment of which we can be proud.

We can not, however, accomplish, or even approach accomplishment of the above, unless we start now to develop a little co-operation, by being frank and above board with our constructive criticisms. Get the habit of boosting. You will feel better when you have put your hand toward really accomplishing something. Nothing is to be gained by lethargy. Put **your** hand to the wheel. Join the Co-op Club.

Miss Ruth Richards, of Hutchinson, Kansas, was visiting in Rolla from Sept. 17 to Sept. 19, and was the guest of honor at a dance at the Bonanza Club, given by her brother, Robert E. Richards. Miss Richards is en route to Smith College, Northampton, Mass., where she will resume her school work.

L. E. Davidson, M. S. M. '21, has accepted a position in Ozark, Mo. He will do geological work.

THE ORE BUCKETT.

"Doc" Dake says that "making little ones out of big ones" is a geological process called erosion.

Dr. Boyce can't see why a stevedore should be paid twice or 3 times as much as an educator.—Karoline.

That, Karoline, is because educators are a luxury, and stevedores are a necessity.

Clementini enquires why the Seniors set in the front rows in mass meeting.

That they may be, Old Dear, shining examples for the rest of the school.

Krazy Kat says that in the Old Days when Seniors knew something it was more convenient from the front seats to crown the Prof. who was speaking.

Archie says they lend atmosphere.

Archie is out for the Razz-berry sweetspikes.

"How red that Freshman's hair is."

"Yes; I understand that he can't cross a railroad track without flagging a train."

Hezekiah: "What's become of the old-fashioned girl who used to say, 'Ask father?'"

Solomon: "She now has a daughter who says, 'Give it more gas, George, the old man is gaining on us.'"

An old colored man was burning dead grass, when a freshman dropped himself over the fence: "You're foolish to do that, Uncle Ed," he told the bent figure. "It will make the meadow as black as you are."

"Don't worry 'bout dat, sah," responded the undisturbed Uncle Ed. "Dat grass will grow out an' be as green as you is."

VOCATES.

Kimball and MacDonald were tendered a royal reception by the "St. James citizens" committee. When they reached Rolla their footwear gave evidence of a rocky road. The next day we saw the section gang on the Frisco busily engaged putting in new ties between Rolla and St. James.

Besides keeping busy with his school work Healy is training his vocal chords. We understand he takes several lessons per week, under the supervision of a very able instructor. With the interest he is showing, together with his talent and able instruction, we predict a successful future for him in this new field.

Max Howard is anything but selfish. He has the habit of bringing some very delicious cake from St. James, which he sometimes divides among his Vocate brethren. He is tempting competition.

Atkinson is thinking seriously of changing his course from Civil Engineering to Telephone Operator. He already knows the switchboard well.

Siegle cut classes half a day last week in order to witness the construction of a sewer ditch near the Vocate house. Said it made him himesi k. We thot he was from St. Louis, but it must be from East St. Louis.

Schnell, Schreeberger and Neal attended church Sunday which is something every one should do, but it would take a mighty large Christmas tree if we did.

Any one wishing to see evidence of the good food furnished at the Vocate House kindly glance at Bish and Healy next time you meet them.

On Thursday evening, Sept. 30, there will be a meeting of the DeMolay in Norwood Hall. The purpose of this meeting

SEE HERE, FELLOWS.

It is impossible for me to see every fellow personally, but a number of you are going to buy Suits, Overcoats and Raincoats soon.

I have an unequalled line of Cravanettes, Gaberdines, Raincoats, Suits and Overcoats. Large variety of styles and made to your order for less money than you will pay for ready-made clothes.

See me at school, or phone me, and I shall be glad to bring my samples around.

DANIEL B. JETT,
 Phone 181.

will be to discuss plans for a local organization here, and for that reason all DeMolays in school should be present. Social members of the A. F. & A. M. will give talks.

John Gay Reilly, '17, is at present with the Mexican Light and Power Co., at Necaxa, Puebla, Mexico, where he is surveying, and engineering the construction of a tunnel for the Company.

If a woman's dress was of the old length and the price in proportion, how much would it cost to dress a chicken?—Steamboat Springs (Colorado) Pilot.

The women are not putting up much fruit in Johnston county this year. The men are using all the fruit jars. (None of your business.) Tishomingo (Okla.) Democrat.

THIRD ANNUAL HALLOW- E'EN DANCE WILL SUR- PASS ALL PREVIOUS HAL- LOWE'EN AFFAIRS.

The annual Miner Hallowe'en Dance this year promises to surpass any previous effort of its kind on the campus.

Last year's dance met with such success that the Staff has decided to make this year's dance even better. The Gym floor will be under the supervision of Mr. Whitworth, who is in charge of effects. Students, start feeling for your dates now, and if you can't find enough girls in Rolla, import your sweetheart from back home.

MARRIED IN SOUTH AMERICA.

The Miner has just learned of the marriage of Mr. James L. Head and Miss Ruth Moran. The ceremony was performed at Lima, Peru, South America, on Sept. 14th, 1921. They will make their home at Cerro de Pasco, South America.

The bride is the daughter of Mr. and Mrs. William G. Grayson Moran, of Staunton, Virginia. Mr. Head, better known as "Babe," to M. S. M. men, graduated from the School of Mines in the class of 1916. While at school he was a member of the Sigma Nu Fraternity, and was very instrumental in starting the Miner in its present form. Mr. Head is now assistant engineer for the Cerro de Pasco Copper Corporation. The Miner joins with many friends in warmest congratulations, wishing Mr. and Mrs. Head happiness and success.

MR. AND MRS. HARRIS ENTERTAIN.

On Saturday evening, Sept. 10, Mr. and Mrs. E. G. Harris entertained with a most delightful dance at the Baltimore Hotel, in honor of their daughters, Misses Zoe and Dixie.

"FACING THE MUSIC" BEN- EFIT FOR M. S. M. PLAY- ERS.

The three-act comedy, "Facing the Music," which is being presented tonight in Parker Hall by the new organization, "The M. S. M. Players," is a benefit play for that organization. Being successor of the old "Star and Garter," it needed a financial footing to insure its continuous success. It is proposed to purchase stage fixtures, etc., with the proceeds of this play, and thus enable the organization to present future plays in a more fitting manner.

The M. S. M. Players as a campus organization merits the support of the student body. The cast of the play has worked faithfully, and those attending tonight will have no regrets for having done so. Give the M. S. M. Players your support. See "Facing the Music" tonight, and form your own opinion.

CONCERNING SCHEDULES.

The matter of student schedules has been turned over to me. The school regulations state that no student can receive credit for a course which does not appear on his official schedule. If you are carrying any courses for which you are not signed up, see me about them at once. If you are in any doubt at all as to whether or not you are properly signed up, come in and see me. You have not been signed up properly unless the change has had my approval.

Schedules are on file in my office for two purposes. One is to keep a record of grades and absences, and the other is so that it will be possible to find a man when he is wanted, as, for example, a telegram comes for him. It will be to your advantage to notify me of any change in hours in your classes.

a directory of each man in school. By referring to the records, a student can be located at any time during the school hours, if his record is correct, and telegrams, telephone calls, urgent business, and so on, can be delivered to the party in question immediately. If a section in any course is changed to another hour, it must be recorded at the office. All changes in schedules must go thru the office of the Student Advisor.

Professor Armsby also has

supervision of student activities and of student organizations, of which there are about thirty on the campus. It is not "Doc" Armsby's intention to interfere with any of them, but to give advice where needed, and to help out in any difficulty. Any worthy organization that benefits, at least a few students, will receive the recognition of the Faculty, without which they cannot exist, but any not having a definite purpose that will aid the student, will not be recognized.

The office is in Norwood Hall in the old Surveying office. Go there with your troubles, and have "Doc" Armsby straighten them out.
