OWENS SEVERELY INJURED

CHAMBER OF COMMERCE BOOSTING M. S. M. ATH- LETICS.

Among the many interests backing athletics at M. S. M. can be listed the Rolla Chamber of Commerce. Following an intensive campaign to create interest in football, and athletics in general, by the Athletic Association, the Chamber of Commerce willingly offered its influence, and thru it financial as well as moral support is being given athletics this year. The following petition was circulated among the business houses:

The undersigned, recognizing the importance of the athletic activities of the School of Mines, and desiring to encourage and support the Athletic Association, do hereby agree to close our places of business from 3 o'clock to 5 o'clock on afternoons of October 14th and 21st, and November 4th and 18th, all of said dates being on Friday, in order that we and our employes may attend the football games to be played in Rolla on those dates: Harvey & Smith, L. C. Smith & Son, J. M. Pirtle, M. H. Case, A. L. Capps, Asher Bros., Ozark Garage, Sands Grocery, H. R. McCaw, Empire Meat Market, Model Meat Market, Model Grocery, Rolla Wholesale Grocery, Ary & Smith, S. M. Smith, M. F. Faulkner, Jno. W. Scott, Sease Bros., Rolla Meat Market,

"FACING THE MUSIC" WELL RECEIVED.

The farce comedy, "Facing the Music," presented by the M. S. M. Players Friday, Sept. 23, was well attended by an audience that appreciated the clever presentation of the play. "Pem." Gordon, in the leading role of "John Smith," drew out the crowd by his good impersonation and interpretation of the feelings of a man faced by the predicament of having another woman in the house when his wife returned home.

Mrs. Helen Stover, as Mrs. John Smith, carried her part well. Charm of manner and attractive personality combined with good acting, drew the crowd to her. We hope to see Mrs. Stover in future plays at M. S. M.

H. L. Leonard as Dick Desmond, a friend of John Smith, successfully portrayed a good part. His happy laugh and comic advice to his friend did much to put the mirth in the play. "Shucks" has natural ability as an amateur actor, and doubtless will be seen again in plays at Parker Hall.

Miss Ruth Tresidder and Miss Marion Fulton, as the wife of Rev. John Smith, and Flora Fotheringay, of the Bijou Theatre, respectively, interpreted their parts very capably, and added to the attractiveness of the play.

J. P. Bryan shone as the

MINERS BATTLE HARD, BUT LOSE IN FINAL QUARTER.

The Miners lost their first and biggest game of the season to Washington U. last Saturday. After fighting hard and holding the ball in Piker's territory for three quarters they practically lost the game when a forward pass was completed by Washington. Following this came a drop kick by Thompson, of Washington, which seemed to dishearten the Miners, and started the rally against them. With added pep, and helped by the penalties imposed on the Miners, they pushed the ball over the line for a touchdown within the last few minutes of play.

The game was started with a kick-off by Washington. Nolan received and ran fifteen yards for a down. The Miners were unable to gain to any advantage, and kicked far into Washington's territory. Washington was unable to gain thru the Miner's line and punted. The Miners then took the ball and started up the field for a touchdown. Penalty after penalty was imposed on them, and when they were within 25 yards of the goal they were given another 15-yard penalty. Without a doubt this stopped the Miners from gaining a touchdown in the first quarter. A punting duel followed, with the Miner backs occasionally going thru the Piker's line for

Continued on Page Five.

**ATHLETIC ASSOCIATION
DANCE.**

The Athletic Association needs your support at their dance on next Wednesday evening, October 5th. The expenses of the football team are heavy, and you can do your part toward making up any deficit by attending all such benefits given by the Association. When the time comes for the team to go onto the field, you are there ready to cheer and lend your support in that way; but there is another need just as vital as the one of school spirit; it is money. Let's all turn out for this dance and make it a good one. The price has been put down to seventy-five cents per couple. Make your date at once.

HURST-McDOWELL.

Mr. Henry Hurst, '21, who finished at M. S. M. Christmas, has been married to Miss Hazel McDowell, of Durango, Colorado. After a honeymoon trip thru the Colorado Rockies they have returned to Rosiclaire, Illinois, where Mr. Hurst is engaged as engineer for the Fluorspar Co.

While in school Mr. Hurst was a Prospector. He was also a member of the Square and Compass, of the 1920 Rollamo, and had served on the Student Council last fall.

The Miner joins with his many friends in extending their heartiest wishes to Mr. Hurst and his bride.

J. P. Gill, Met. E., '19, spent one day last week in town, a guest at the Pi Kappa Alpha house. While here Gill gave a talk before the class in Alloys. He is connected with the Vanadium Steel Co., Latrobe, Pa. From all indications it appears that the Miner may be able to offer the customary nuptial congratulations in a short time.

**MEETING OF
DIPHENYL DOZEN.**

At the meeting of the Diphenyl Dozen on Tuesday evening Dr. Turner presented an interesting paper on the separation of the isomers of Xylene. As has been announced before, the Chemistry Department is co-operating with the Research Chemicals Department of the Eastman Kodak Co. in the solution of problems which are of scientific interest, and this is one of the problems undertaken at M. S. M. It is interesting to note that altho several of the larger universities are also co-operating with the Eastman Co., none of them possessed the apparatus necessary to undertake an investigation of this nature, while M. S. M. was fortunate enough to be properly equipped. Altho not many students on the campus realize it, the Industrial Chemistry Lab. here is recognized as one of the most thoroughly equipped school laboratories in the country, and is being improved all the time.

Ortho, meta and paraxylene are obtained among other by-products during manufacture of coke. They are physically and chemically nearly alike, and are valuable, because by proper treatment they are converted into intermediates for the manufacture of dyes. Dr. Turner, assisted by Mr. Kerchner, contributed some worthwhile data to the information on this subject by determining just what are the best concentrations of acid to be used in sulphonating commercial xylene so as to secure the best possible separation of the three isomers.

Editor The Miner:

I just finished reading the first number of the "old sheet" for this year, and it went stright to my heart. I wish I could again spend every Friday down at the Herald, helping get it out.

I am still with the same company with which I went to Cuba, and still expect, perhaps, to go back down there for them again. But I am far, far from being a **Mining Engineer**. Instead, I am more in mechanical engineering, laying out plants and designing machines for special processes of manufacture. And in school I steered as far away from mechanical engineering as I could get. That goes to show what little sense an average young fellow, meaning me (or myself, or I, etc.) has in regard to what he should take in college.

Do not former members of the Staff get the Miner for two years after graduation? I think I got about three copies while in Cuba. Please send it, also the back numbers I have missed.

Mrs. Miller and I are pulling for the Miners to clean up in football this year. (Wish we could drop in for the games.

Good luck.

E. L. ("SCHNUUTZ") MILLER
1816 N. Calvert,
Baltimore, Md.

Editor's Note:

Dear "Schnuutz," when you return to Cuba train those mail clerks differently, and we'll see that the Circulation Dept. gets the correct address.

P. W. Smith, ex-'22, spent last week end at the Pi Kappa Alpha house. From here he went to the University of Illinois, to which school he transferred at the end of his Sophomore year.

meek minister, Rev. John Smith, timid and apologetic. His success in the part lay in his naturalness and ease of manner.

The parts of Col. Duncan Smith and Detective Sergeant Duffell were well taken by J. F. Hosterman and Ralph Knight respectively. Both played well the parts assigned them, and drew the laughter of the audience by their clever remarks and actions.

The part of the English housekeeper, Mrs. Ponting, was very capably portrayed by Miss Dorothy Culbertson. Her sure manner and incisive speech carried well. This was the second appearance of Miss Culbertson on the M. S. M. stage, and no doubt we shall see her again in M. S. M. plays.

During the intermissions Virgil Whitworth entertained with snappy tunes on his xylophone, which were well appreciated by the audience.

The cast as a whole put on a play well worth the price admission, and future plays at Parker Hall should entertain full houses. The S. R. O. sign would look well hanging out in front.

two and four-yard gains. Hasselman was injured, and was replaced by McBride, after he had completed several good gains.

The second half was practically the same as the first, with the Miners again pushing the Pikers to the utmost. Arnold and Bolt at tackle prevented the Washington backs from breaking thru the line. Buck at end played a spectacular game, and caused the Piker backs to be downed with a loss of several yards. Owens and Anderson, by line plunges made a few yards, but the Miners were unable to make enough first downs to carry the ball over. The first half ended with the ball in Washington's territory, and the score 0 to 0. The second half opened with a rush, and the Miners began the decline, but still they were able to repulse the Piker attack. The

Pikers then started passing, but completed only a few of them. The Miners seemed to be everywhere, and Anderson and Arnold succeeded in intercepting several passes, to good advantage for the Miners. Still the Miners held the edge, and the punting duel continued with the Miners losing heavily thru penalties. The third quarter ended 0 to 0, with the Washington rooters showing considerable concern over the outcome. The practice game for the Pikers had turned out to be a real game after all.

The third quarter started, and Bolt had kicked off with a fine boot to the Piker 5-yard line. In the following down Owens, while stopping the play, suffered a severe injury, which forced him to be carried from the field. Following this Gray was injured, and was replaced by Ledford. Hasselman

MINERS VS. CAPE GIRAR-
DEAU ON OCT. 7.

The Miners will play their first Conference game with Cape Girardeau on Oct. 7. The team will leave on Thursday evening, as this week's game will be played on Friday. The players who will make the trip are not yet known, but it will be virtually the same line-up which went up against Washington, with a few possible changes. The idea that this will be an easy game is misleading. Taking into consideration that the two St. Louis teams are usually evenly matched St. Louis U. only beat Cape 7 to 0; while Washington beat us 10 to 0. This dope shows the Miners and the Cape team about evenly matched. However, the Miners should be confident of winning after they held Washington to such close play. We have to win. This is a Conference game, and it's up to us to win the Conference. So, let's give the team all the pep possible this week to fit them for their coming battle.

OWENS SEVERELY INJURED
WILL RECOVER.

"Hank" Owens, after playing a dashing game at left half, was injured while making a tackle at the opening of the third quarter. His injury was so severe that he had to be carried from the field, and Dr. O. O. Smith, of the Washington U. Medical Department was called. After being examined by Dr. Smith he was sent to the Barnes Hospital for an X-Ray examination. This examination showed no bones broken, but Dr. Smith's findings showed a concussion of the spine and brain. Much to the joy of the entire school, which holds Owens in high regard, the information that he will recover and probably be available to the team in a few weeks, was given out.

PLEDGES MINER
COTILLION CLUB.

H. E. Barnard, C. R. Cameron, W. R. Luckfield, R. McCune, B. R. Mennie, M. I. Signer.

Sigma Gamma Epsilon have announced the following pledges: Hunter, Dorris, Lindgren, Gray, Gregg, Scruby, Fischer, Alcorn, Chapin, Mosena, Stover, Kaley, Knight, Keyes, Fleck, Wyman, Teeter.

The Satyrs, the honorary Sophomore organization, announce the pledging of the following men for the year 1921-22: R. M. Courtney, C. W. Sitzler, C. F. Schaeffer, C. A. Smith, W. E. TenEyck, K. M. Baumgardner, Jack Campbell, P. F. Thompson, R. T. Muench, C. L. Kemper and R. O. Schramm.

The Athletic Association wishes to take this opportunity to thank Mr. Burbank, the new owner of the picture show, for so kindly giving the proceeds of the show last Wednesday to the Association for the purchase of athletic equipment. This money will help a great deal in getting some of the things we need this year.

A Gateway—Electrical

ONLY a forty-foot gateway bounded by two brick pilasters and ornamental lamps, but it is unlike any other gateway in the entire world.

For back of it is the General Electric Company's main office building, accommodating 2300 employees. And just next door is its main laboratory with the best equipment for testing, standardizing and research at the command of capable engineers. Then down the street a mile long—are other buildings where electrical products are made by the thousands of electrical workers who daily stream through.

Through this gate messages and representatives from a score of other factories and over fifty branch offices come and go every hour—an endless chain of coordinated activities carrying on and enlarging the scope of over a quarter century's work for the betterment of mankind.

What a story this gate would tell, if it could, of the leaders of the electrical industry and of ambassadors from other industries and institutions—and from foreign lands. The story would be the history of electric lighting, electric transportation, electrified industrials and electricity in the home.

General Electric
General Office Company Schenectady, N. Y.

95-4501H

HOSPITALITY.

One month from today the M. S. M. will be welcoming and entertaining the largest number of graduates and ex-students ever gathered in Rolla. These men, many of them, will have traveled a considerable distance in order to pay homage to their Alma Mater. But, whether from far or near, they will have looked forward to this visit to their old school with a pleasure which only an alumnus can have. As students we hold dear the many traditions handed down to us. The alumni, however, will recall many pleasant memories of which we can not share. They will, no doubt, see many changes in the school, but in the main they will find that Rolla is still the home of the Missouri School of Mines. We trust, that aside from these material changes they will find the same old spirit that inspired them still in vogue with the present student body.

Along with the fact that the M. S. M. of today must be the M. S. M. of yesteryear to those old men, comes the thought that, as one of the Alumni Associations has aptly put it, "they are coming back to old M. S. M. to be boys again." To see "Scotty, Judy, Slim, and all their other old pals," will indeed make their visit worth while.

So it is that as students we are to turn the key to the M. S. M. over to them. As the alumni live over again their school days let us be interested on-lookers, only too willing to add to their conveniences whenever possible. Above all, we must show the right kind of hospitality. "Smile and be gay with the Alumni" should be our slogan during "Home Coming Week." Try it.

SECOND MINER DANCE.

The second Miner dance of the year will be given on Oct. 14th. It is the object of the Miner to break even on the expenses of these dances. Therefore, it has been decided to charge only seventy-five cents per couple for this dance. Whether or not the price will remain at this figure depends on the turnout at this dance. While at the Athletic Association dance make your date for the second Miner dance. Or, better yet, don't wait that long. Do it at once. They're scarce. Remember the date, Oct. 14th, at nine P. M.

ANNOUNCEMENT.

There will be shown in the Auditorium, Parker Hall, on Monday, October 3rd, at 10:00 A. M. a motion picture, entitled, "The Manufacture of Portland Cement." Prof. Harris suggests that the picture would be of interest to all Miners. Invitation to attend is extended to every one having the hour open.

BUSINESS MANAGER OF ATHLETIC ASSOCIATION RESIGNS.

Owing to the fact that I have completed my collegiate work, and consequently am no longer eligible or in a position to hold the managership of the Athletic Association, I hereby submit my resignation as Manager of the Athletic Association, to become effective immediately.

D. F. UPDIKE.

The Pipe and Bowl Club announces the pledging of the following men: E. J. Wendell, C. R. Cameron, H. L. Leonard, W. R. Mennie, and F. K. M. Hunter.

W. Y. Bean, '78, is mentioned as a suitable man for appointment to the Public Service Commission.

..Continued from Page Five...

having returned to the game, McBride took Owens' place at half. The Pikers' backs then by end runs, passing and hitting the left side of the line succeeded in making enough yards to put over a drop kick. This seemed to wreck the morale of the Miners completely. With more passes completed, and with good gains thru the left side of the line, they put over a touchdown and kicked the goal. Previous to the touchdown the Miners held the Pikers for three downs on the Miners 8-yard line. With 3 yards to go and fourth down, Young, of Washington, plunged over for the six points. Gettler was given a chance at quarter in the last few minutes of play, and Zook took Bolt's place after he was injured following the last kick-off. Fischer replaced Christner at guard a few minutes before the Pikers gained their touchdown. The game ended with the ball in the Miners' territory. Washington 10, Miners 0.

Although the score was disappointing for the Miners they deserve the praise of the entire school. The line, Gray, Bolt, Christner, Zoller, Parkhurst, Arnold and Buck deserve the bigger part of the credit for fighting and withstanding the continued Piker assault. Time after time did the tackles and ends hit the Piker backs all at once. Anderson and Owens probably did the most stellar playing in the backfield, with Hasselman making a few good gains, and Nolan doing some excellent punting. It was a fighting eleven which went up against Washington, and it carried the spirit of the school behind it. We have no apologies to make. We did our best. The Miners completely outplayed their opponents in three periods of play, and were beaten

squarely by passing, and not so fairly by the heavy penalties which they received. With the experience gained by the Washington game the Miners should finish the season with an invincible eleven.

Line-up:

Miners (0)	Washington U. (10)
Gray.....e. l.....	Schnaus
