M. S. M. PLAYERS MAY GO ON WEEK'S TOUR.

Trip Would Include Either Northern or Southern Route.

The cast of "Nothing But The Truth," the play which was presented here last spring for the benefit of the "Eddie" Bohn Memorial Fund, is again at work on the play. The management and directing of the play has been taken over by the M. S. M. Players with the idea in view that the show will be taken on the road for a week's tour near Thanksgiving time.

There were several vacancies in the cast, due to the fact that Colbert, Whitworth, Collet and Miss Emily Harris are not in school. The part taken by Miss Ruth Tresidder was also left vacant, since it is possible that she will not be in town at that time. These parts have all been filled, and the play shows promise of being fully the success that it was when presented last spring.

Of course the plans are merely tentative, pending the signing of contracts. Two trips have been considered as being possible of fulfillment. One would be a trip into Southwest Missouri, Oklahoma and Arkansas. The other trip would include points in Northern Missouri.

Even though the project has not yet taken a really material aspect, the cast of the show is so confident that the tour will materialize that they are putting quite a little time into re-

MINERS ROMP OVER THE TEACHERS IN MUDDY GRIDIRON CONTEST.

Cape Team Clearly Outclassed.

M. S. M.'s prospects of a winning football team took a definite turn Friday, when Coach McCune's squad invaded Cape Girardeau and took the Cape eleven to a 24 to 0 cleaning. This was our first Conference battle, and altho it is not the most difficult contest we will have in the M. I. A. A. this season, it was a good start after our temporary reversal at the hands of Wash. U. the week previous.

The Cape Girardeau Sun of Oct. 8th, in reporting the game gave the following write-up:

The Missouri School of Mines team yesterday afternoon at the Fair Grounds in a drenching rain that covered the field all during the first half romped over the Teachers College grid gladiators for four touchdowns, the final score being 24 to 0. Brother Pluvius did not slacken a minute during the first half, and the play was staged in a swamp of mud and water. Rolla appeared on the field with newly laundered white suits. Three plays were made, and the beautiful white suits were no more. The Teachers wore the regulation blue and red, and the mud did not show so soon. However, the mud and water did not dampen the fighting spirit of the griders and they played the game that is known as straight football, trying but few forward passes. both teams punting many times

MINERS BATTLE SOUTHWEST TEACHERS COLLEGE ON HOME GROUNDS FRIDAY.

Next Friday, Oct. 14, will bring to the Miners their second Conference game of the season. They are scheduled to meet the Teachers College Bears in the first game on the home gridiron this year. With the fine start the Miners made last week with a one-sided score over Cape Girardeau, it looks like Friday's game would be easily won. But let us not be too Confident. Coach Briggs of the pedagogue school has been working his men unusually hard, and has had good luck in his first two games. Besides that he has had a squad of fifty-five men to work with, consisting of some of the ablest athletes in Southwest Missouri. Last year the Miners defeated the Bears by a score of 33 to 14. This year we should be able to keep the Teachers from scoring. It will be another hard battle, but it will mean another notch cut on our pennant stick.

after they had failed to gain on account of the muddy field.

Both teams played on even terms all during the first quarter, with both sides punting at intervals. The game was lacking of snappy plays, and practically all the plays by the aerial route were unsuccessful, as the ball was wet and very hard to catch. In the second quarter Rolla worked the ball down the field, and after a series of

BIG ANNUAL**HALLOWE'EN DANCE.**

Most of us remember the
Hallowe'en Dance of last year
—what a success it was, and
how good a time every one had.
The dance this year will be ev-
en better than the last one, so
do not delay getting that date
too long.

Since Hallowe'en and the
semi-centennial come so close
together it has been decided to
use the decorations for the ball
given Saturday evening by the
Alumni. Great care is being
exercised in the selection of
decorations, music, entertain-
ment and refreshments. In
fact, nothing is being omitted
that will go toward making this
Hallowe'en dance one long to
be remembered.

WADDELL'S BRIDGE**ECONOMICS.**

An important recent addi-
tion to the literature on civil
engineering is Waddell's Bridge
Economics. It is a great store
of general information and in-
struction about what is safest,
most enduring, and costs least
in the final count in bridge
building. The book is not one
of details; it deals in broad
generalities. Its reading will
broaden the view of any engi-
neer, and may prevent errone-
ous prejudice in favor or
against some particular style
of structure. Yet but few clear
cut decisions, not already
known, will be found in the
volume. This is not saying
that the author would not be
able to make a clear decision in
any specific case.

It is noticeable that the au-
thor has nothing to say about
the bridge as an investment, or
the ways and means of deter-
mining its economic effect on
dividends, or whether benefits
justify expenditures. Perhaps
if he lives to see the value of a
dollar made stable he can with
better heart undertake to cover

these last mentioned problems,
but when the value of a dollar
is as variable as the moon,
what is the use?

DE MOLAY ORGANIZES.

The DeMolays here at M. S.
M., representing various chap-
ters thruout the United States,
met in Norwood Hall last
Thursday evening, and elected
the officers to a temporary De-
Molay organization. It was de-
cided at this meeting that no at-
tempt would be made to organ-
ize a regular chapter of the De-
Molay amongst the students;
instead a club will be organized
whose membership will be lim-
ited to DeMolay members of
the student body.

The De Molay as a body is
recognized to be the greatest
young fellows organization in
existence. It stands for the
better and more noble things in
life, and our duty, therefore, is
of a serious nature. It is our
hope and ambition to become
the parent or model for other
organizations of a like nature.
We wish to be counted in on all
school activities, and hope that
we shall be a credit to M. S. M.

JIM WESTGARD**IN NORWAY.**

Jim Westgard, '23, who is
now enjoying a six month's va-
cation in Norway, writes of the
wonderful hunting and fishing
which prevail there. He states
that Norway, too, is afflicted
with the prohibition mania, but
much less so than the United
States. He promises to return
for the second semester.

"CORRECT TIME, PLEASE."

Since the opennig of the semester there has been such a variation in the timepieces about the campus that most every body has had the "correct time," and no two agreeing. Between the bell, the buzzers, and each Professor's watch, the student is caught "coming and going." The bell seems to be sounded at "most any old hour," and the buzzer is invariably out of step with the Professor's time piece. What we need is a little co-ordination on the part of the official time-keepers about the campus. Why not get in step, and stay in step?

Frank Fink came into the Trig. class very much excited and enthused Monday morning. It was so noticeable that the class surmised something very unusual had happened. The cause was the arrival of an 8-pound boy at his home that morning. We all extend congratulations.

THE ORE BUCKETT.

The hard boiled Junior does not have to attend a lecture on geology to find out that being crowned by a policeman's "billy" is an erosive process.

No, Isable. Not all Miners are members of the Y. M. C. A.

K. K. says he used to belong to the W. C. T. U.

line bucks Gettler went over for a touchdown. Miners failed to kick goal. Score 6 to 0.

In the last half Rolla punted and the Teachers received on Rolla's 20-yard line. Tibi, the Teacher's fullback, was forced to punt; he did not receive the ball, and did not get away quickly enough, due to the dampness of the grounds. Rolla's ensd came in fast and blocked the punt, the ball bounded back of Rolla's goal line, and one of the visitors' men, Buck, fell on the ball for a touchdown. Rolla failed to kick goal. Score 12 to 0.

Leming, center for the Teachers, who played a creditable game, intercepted a forward pass, but was downed in his tracks. Tibi was forced to punt. Rolla attempted a forward pass and lost the ball when the pass hit one of the Miners in the back. Cape worked hard, but was again forced to punt. Rolla tried a place kick, but missed by a wide margin.

Tibi attempted another punt which was blocked, Rolla recovering the ball on the 10-yard line. "Buddie McBride, a former Central High star, and now playing half back for Rolla, went through the Teacher's line for the third touchdown of the game. Score 10 to 0.

Moore, right end for the Teachers, repeatedly went in behind Rolla's line and got the man carrying the ball, and the Miners were forced to punt. Following this Cape started a march down the field that looked like a touchdwn. A forward pass, Black to Moore, netted 30 yards. Gram bucked the line for 3 yards, two forward passes failed, and Cape punted. Rolla was penalized 30 yards; Grant intercepted a forward pass, and raced thru a broken field for 45 yards; Cape failed to make downs and

lost the ball.

Rolla punted to the 15-yard line, and regained the ball when the Teachers failed to gain. The Miners by a series of end runs and line bucks brot the ball near the line, and Nolan carried the pigskin over.

The Rolla team played a very consistent game and took advantage of all breaks. The Miners outweighed the locals 15 pounds to the man. This added weight was used to advantage on the muddy field. On a dry field the Teachers ought to play the Rolla team to a touchdown margin, with the Miners coming out on the long end of the score. Leming, center, Moore, right end, Chambers, left tackle, and Grant, left end, were the outstanding stars of the Teachers. Leming at center, played a consistent game, and held the Miners when they came his way. He followed the play well, and made a number of spectacular tackles, besides intercepting a forward pass. Moode, at right end, was the nemesis of the Miners. He was in every play, and seldom missed a tackle. His

VOCATES.**The Spirit of '21.**

Healy, our dear friend and brother Vocate, finding the life of single blessedness to be very boresome, monotonous and inconvenient, decided to bridge the greatest chasm that man has ever attempted to bridge. The mysteries of matrimony held charms which he could no longer resist, so after weighing and balancing this great venture carefully and thoughtfully in his mind for some time, he finally came to the conclusion that life without a mate was unprogressive and artificial. He was married to Mrs. Bertha Woestman last Thursday evening at 5:30, at the Presbyterian parsonage by Rev. G. P. Keeling. We all agree that the new world into which he has ascended will be a different one compared to the past one. We all have the sincerest wish that happiness and prosperity will ever attend this union henceforth. We do not know what plans they have made for the future, but we hope this popular couple will remain with us.

Coach Dennie made a short talk to the Vocates about the use of the Gymnasium. He can be assured that the Vocates will do their best to co-operate with him. He also expressed his regret in regard to the improper way in which the "Vocational Student Card" was gotten up. We know if the coach had charge of it we would have received the right kind of square deal.

Evans having used up all of his pine oil, is unable to use his artificial foot until a new supply comes in. Once more we are returning to biblical custom by anointing our feet with oil.

We wish to challenge Herbert Hoover's statement that he can put his two sons thru Calif. U. on \$80 each. We would like to see an itemized list of

their monthly expenses. We venture to say there would be only two items mentioned—room and board. Their wardrobe was undoubtedly amply supplied before leaving for school.

Coakley is with us again after a sojourn of a few months here and there.

**NEW DISCOVERIES
MADE EVERY DAY.**

The latest:

A new "Classy Chaperone" equation was thoroly explained for the enlightenment of the Physical Chemistry Class last Friday by the discoverer himself, Prof. "Jake" Helmerichs.

Jake: "What's in a name anyway? It's the result that counts."

Class. "Check."

T. P. NOW CAPTAIN.

T. P. Walsh, '17, '20, has been promoted to a captaincy in the Coast Artillery Corps. He is now stationed at Fort Mills in the Philippines.

Capt. Walsh has always been interested in military matters. He was one of the first men at M. S. M. to leave for Camp Riley in 1917, and was in the first group to be commissioned. Upon his return to school in 1919 he assisted Maj. Wild in the organization of the R. O. T. C., and was appointed Cadet Major. We feel that Capt. Walsh will continue to advance in the military profession.

**METALLURGY OF ZINC, ON
THURSDAY, OCT. 13TH,
PARKER HALL.**

A seven-reel film of the metallurgy of zinc will be shown Thursday evening, Oct. 13th, in Parker Hall. The Senior Met. Class will not meet Thursday morning for a lecture, but the class is required to be present Thursday evening. The picture is free, and the student body is invited to attend.

T. P. F. AGAIN AN EDITOR.

Along with the announcement of the promotion of T. P. Walsh to a Captaincy in the 59th Artillery comes the news that he is once more at his old trade—Editor of a Weekly. In the issue of Aug. 24th of the "Corregidor Weekly" the announcement is made that Capt. Thomas P. Walsh, 59th Artillery, C. A. C., has relieved Major Wellborn Dent, P. S., as Editor. They note that Capt. Walsh is a former Editor of the Missouri Miner, and former News Editor on the Utah Chronicle, of Salt Lake City.

The Corregidor Weekly is issued at Fort Mills, Phillipine Islands.

MINER DANCE

FRIDAY EVENING.

The Miner dance preliminary to the annual Hallowe'en dance, will be given next Friday evening, Oct. 14th. This dance follows our first football game at home, and should be a real peppy affair. Bring your best girl, and celebrate the team's victory,—and then date her up for the big Hallowe'en affair. The date, Oct. 14th.

THE A. A. DANCE.

A goodly crowd turned out for the Athletic Association benefit dance last Wednesday night. Kohlbry's orchestra furnished the jazziest of jazzy music to the delight of the followers of Terpsichore. The Athletic Association appreciates the good support of the student body at their first benefit dance.

L. "Mike" Collins left Oct. 1st to take a position as Highway Engineer with the Illinois Highway Commission.

Dr. Fulton has a letter from Mr. R. G. Knickerbocker, Messina, Transvaal, S. Africa, in which he states he will probably return to the States in the early part of 1922.

hearsals. By Thanksgiving the play should be so well in hand that there should be no doubt but that it would create a good impression wherever it was presented.

The advertisement the school would receive in towns where the show would be presented is not to be disputed. No better movement has been on foot here in years.

Continued from Page Five...

ability to catch the passes featured also.

Grant's spectacular 45-yard run through a broken field was the longest end run of the game. He eluded all the Rolla men but the safety, and would have passed him up if the field had not been muddy. Chambers was a wall in the line, and repeatedly made large openings for the back field men. The remainder of the Teacher's line men played a good game, and were in the play at all times. The back field men were a little off, and were not playing up to their standard. Tibi and Black were worked hard, and both showed up well against the "beef" of the Miners.

The line-up follows:

Miners.	Position.	Teachers.
Watkins,	right end	Moore
Buck	right tackle	Sanders
Christner,	right guard, Englehardt	
Zeller,	center	Leming
Parkhurst	left guard	Hillers
Bolt,	left tackle	Chambers
Ledford	left end	Grant
McEride,	left half back	D. Black
Noland	quarterback	Jaden
Gettler	right half back	Revelle
Hasselmann	fullback	Tibi

Officials—Referee, Siler, Washington U.; umpire, Dr. Marquard, W. U.; head linesman, Roberts, Harvard; timer, M. Drumm, Missouri U.; coach, McCune, Rolla; Coach, Courleux, Cape; time of quarters, 15 minutes.

Substitutions: Teachers, Bunch for Juden, Grant for Revelle. Meyer for Grant, Daugherty for Englehardt, J. Miller for Leming, T. Miles for Sanders, Hailey for Bunch.
