SHOW DECISIVE VICTORY OVER TEACHERS

A NEW MINING AND MET. ASSOCIATION.

To Affiliate With A. I. M. E.

A pep meeting was held in the Ore Dressing lecture room Friday morning. The purpose of this meeting was to again put the School of Mines on the A. I. M. E. map. Some time ago Prof. Forbes received a letter from the headquarters of the Institute, which requested data concerning the local wing of the organization. As the Missouri Mining and Metallurgical Association, the local wedge into the A. I. M. E. for student members, had died a natural death, Professor Forbes was forced to reply that temporarily at least the Missouri School of Mines could boast of no such representation. This, too, from the largest mining and metallurgical school in the country.

After a consultation Profs. Forbes, Clayton, Muilenberg and Thornberry decided to put the issue up to the students. The meeting was called, and after a few remarks by Profs. Clayton and Forbes, "Ike" Hodges was elected temporary chairman, and took charge. A committee was appointed to revise the old constitution, and to present it at the next meeting, which will be Wednesday at 10 in the Ore Dressing lecture room. An election of officers will be held. All miners and metallurgists should attend.

The A. I. M. E. must know

DOCTOR FULTON ATTENDING AMERICAN MINING CONGRESS.

Dr. Fulton left Saturday night for Chicago, where he is attending the annual meeting of the American Mining Congress. Many matters of importance and interest will be taken up during the convention which extends from the 17th to the 24th.

As chairman of the Committee on Education and Public Service, Dr. Fulton will have an important part in the proceedings. At the meetings of the Educational Section a majority of the prominent western schools will be represented.

PLANS FOR BUREAU OF MINES BUILDING TO BE SUBMITTED.

Upon the instruction of Governor Hyde, the Board of Curators have started to work on the new Bureau of Mines building, which was authorized by the State Legislature at the last session. As soon as the architects submit their plans, and the most suitable one decided upon, Governor Hyde will release the appropriation, in order that construction may begin at once.

During the past week Mr. Geo. W. Hellmuth, ex-'93, of Hellmuth and Hellmuth, Architects, St. Louis, Mo.; and Mr. Guy Study, of Study and Farrar, Architects, St. Louis, Mo., were in Rolla with a view of

Last Friday the Miners clearly outclassed the Teachers College eleven, and won by the top heavy score of 69 to 6. Springfield's only score came in the first quarter thru a fluke. The Miners punted, and followed it down the field, trying an o side kick. The Miners failed to fall on the ball, when Lipe center for Springfield, grabbed the pigskin and ran 65 yards for a touchdown. The Miners' first score came in the first three minutes of play. Following this the touchdowns were frequent, one being made in 40 seconds actual time. The Miners used center bucks and end runs almost exclusively, and never failed to make their first downs. The Teachers relied upon passing, after many futile attempts to go thru the Miner line. The line was like a stone wall, Zoller, Bolt and Buck showing up exceedingly well. In the backfield McBride, Hasselman and Springer proved to be the most stellar players. But the game cannot be dedicated as won by the men mentioned. Every man came in for his fair share of the honors. Nolan was injured during the first quarter, and was replaced by Gettler. Springer took Gettler's place at right half. During the entire game Coach McCune replaced his regulars with the second string men, and every one was given a chance to play during the wholesale substitution.

Following is the game, play by play. S. denotes Springfield where man was not known.

Miners kick to Springfield's five-yard line. S. returns 22 yards, but is downed by Hasselman. S. passes. Miners interfere with pass, and are penalized. S. ball on 50-yard line. S. lost 4 yards on end run. S. gains 1 yard thru line. Pass fails, and are forced to punt. Nolan receives, and is downed after 5-yard run. Miner's ball on 20-yard line. McBride thru right guard 5 yards. Hasselman thru center for 4½ yards. Nolan thru center for 3 yards. 1st-10. McBride thru center 4 yards. Gettler gains 13 yards on left end run. McBride thru left tackle for 6 yards. S. penalized 5 yards for being offside. McBride circles left end for 9½ yards. Hasselman plows thru center for 8 yards. S. penalized 15 yards for coaching from side lines. Miners' ball on S. 8-yard line. Nolan around left end for touchdown. Bolt kicks goal. Touchdown made in 3½ minutes.

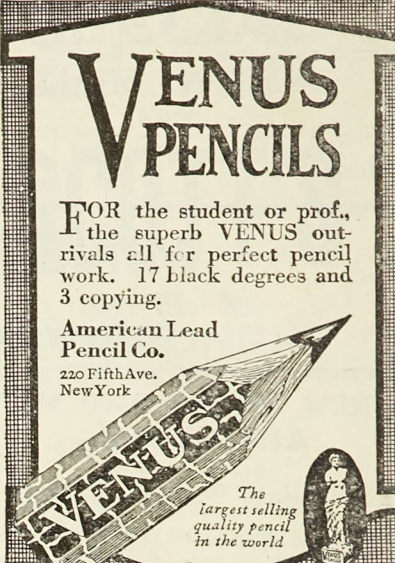

Bolt again kicks to S. 15-yard line. S. returns 10 yards. S. hits right side line for 3 yards. S. thru left side. Lose 1 yard. Completes pass for 7 yards. 1st-10. S. circles left end only to lose 3 yards. 2-yard gain follows thru right side line. Pass fails. Punt to Nolan on 20-yard line out of bounds. Bolt returns punt to S. 25-yard line. S. to right end for 2 yards. Thru center for 2 yards. Pass fails, and punts to Gettler on Miner 40-yard line. 5 yard return. Gettler fumbles, but recovers with a 3-yard loss. Buck called back and goes around right end for 3 yards. McBride hits center for 1 yard. Bolt punts to S. 35-yard line. Miners wait for S. to fall on ball. Lipes, center for Springfield, grabs ball and runs 65 yards for touchdown. S. fails to kick goal.

Bolt kicks to S. 5-yard line. 15-yard return. Downed by Christner. S. plunges center for 1 yard. S. around right end

for 25 yards, stopped by Nolan and Gettler. S. thru line 2 yards. Center for 2 yards. S. gains 3 yards on pass. S. hits center, but only gains one foot. Miners' ball on own 46-yard line. McBride right end for 8 yards. Pass intercepted by S. S. ball on own 30-yard line. S. left end for 1 yard. Hit right end for 1 yard. Springfield substitutes Mumford for Hall. Warren goes to left half, Alt-house to tackle. S. right end 2 yards. S. punts to Nolan on Miners' 30-yard line, advances 15 yards. Gettler goes around left end for 9½ yards. McBride thru right tackle for 7 yards. Nolan injured when he loses 4 yards on end runs. Gettler goes to quarter, Springer to right half. Springer to right end for 4 yards. End of quarter Miners 7, Springfield 6. Miner's ball on Springfield's 40-yard line.

McBride gains 8 yards on criss-cross play. Hasselman thru right tackle for 10 yards. McBride on criss-cross again gains 8 yards. Hasselman plunges center for 8 yards. Ball on S. 4-yard line. Springer goes around right end for touchdown. Bolt fails to kick goal. Miners 13, Springfield 6.

Springfield receives behind goal line, advances to 3-yard line. Warren around left end for 5 yards. Again for 4 yards. S. thru center, loss 1 yard. S. punts to Springer, returns 10 yards. Miners' ball on S. 28-yard line. Gettler to right end for 4 yards. Springer thru right tackle 1 yard. Hasselman fumbles, loses 15 yards. Bolt punts to S. 8-yard line. S. gains 1 yard thru line. Attempt to circle left end stopped by Zoller with 3-yard loss. S. right end for 4 yards. Punts out of bounds on 50-yard line. Buck called back, sent to right end for 5 yards. McBride hits line for 30 yards. Hasselman thru right tackle for 7 yards. Mc-

MINERS VS. MO. WESLEYAN
ON HOME GROUNDS NOV.
21.

The Miners will undoubtedly play the deciding championship game here next Friday, when they take on the strong Missouri Wesleyan eleven. The Conference standing is gradually narrowing down, and it looks like the Miners and the Wesleyans are the most logical contenders for first place. Missouri Wesleyan comes here with the strong record of having won every Conference game within a period of four years. However, we have hopes that their brilliant record will not continue after Friday. On Oct. 7 the Wesleyans beat Springfield 10 to 0, and we ran over the Teachers with a one-sided score last week, which gives us the advantage of dope. But dope or no dope, Friday's game will be the hardest Conference game of the season, and we have to win to gain the championship. With the team working as it did last week, we should have no difficulty in gaining the majority score in Friday's tussle.

The probable line-up for the game is as follows:

Miners.	Mo. Wesleyan.
Watkins.....	l. e.Dieterich
Bolt.....	l. t.Holder
Christner.....	l. g.McMahon
Zoller.....	c.Proman
Parkhurst.....	r. g.Clark
Buck.....	r. t.Irvin
Ledford.....	r. e.Filley
Nolan.....	q.Rising
McBride.....	l. h.Slayton
Gettler.....	r. h.McCoy
Hasselman.....	f. b.McFarland

GREENE-ELLIS.

The Miner is in receipt of the announcement of the marriage of Miss Melville Ellis to Mr. John W. Greene, '13, at El Paso, Texas, on the eleventh of October. Mr. Greene, while in school, was a member of the Kappa Sigma Fraternity, and also served on the Student Council.

The couple will reside at El Molino, Esquedo, Sonora, Mexico,

where Mr. Greene is located as engineer for the Lucky Tiger Mine.

The Miner joins with the many friends of the newly wedded pair in extending its heartiest wishes.

C.B. Hummel spent last week at the Pi Kappa Alpha House. He left last Thursday to go first to his home in Kansas City, Mo., then to the oil fields of Oklahoma, where he has a position doing geological work. Carl graduated in '20.

J. N. Webster, '10, of Winner, S. D., was here for a short visit last week, renewing old acquaintances. He regrets very much that he could not stay over for home-coming. Webster is a member of the Kappa Sigma Fraternity.

Paul N. Karges, '21, is now a salesman for the U. S. Industrial Alcohol Company, at Kansas City.

EASY COME—EASY GO.

A Poem of Student Life at M.
S. M.

When "Freddy Frosh" set out
from home

To come to "ROLLA TECH,"
His father said to Freddy:

"My son, here is a check.
And as the sum thereon is large,
I hope 'tis very clear,
That if you do not waste your
cash

'Twill last you thru the year."

So, with tearful eyes this Frosh
left home,

And caught a Frisco train,
Which brought him here to
"Rollie,"

To develop brawn and brain.
But when our hero got "signed
up,"

He very shortly found
That things to dissipate his
wealth

Were clustered thick around.

For every Prof. required a book

Which Freddy had to buy,
And as the Prof.'s were very

smart,

The books were very high.
And at thought of drawing in-
struments,

Our hero's heart did fail,
When they told him at the H.
& S.

The old heart-breaking tale.

That for a future engineer

'Twas wisdom to invest
'Bout thirty "Bucks" in draw-
ing tools,

So as to have the best.
And in a little "circular,"

He read with many groans,
That T squares and drawing
boards

Would cost him extra "bones."

So bit by bit and "Buck" by
"Buck,"

His dough did slip away,
And still he had his monthly
bill

For board and room to pay.
Thus time went by, and "Pa"
received

A note from "Loving Son,"
Who only had been gone two
weeks,

But now was craving "mon."

The loving note which "Pa" re-
ceived

Was brief and to the point;
It said, "Dear Dad—I'm busted
bad,"

It takes cash in this joint.
I thought when I first hit this
place

My cash would linger long,
But send 'Five Hundred Bucks'
at once,

I've just found out I'm
WRONG."

Here's why CAMELS are *the quality cigarette*

BECAUSE we put the utmost quality into this one brand. Camels are as good as it's possible for skill, money and lifelong knowledge of fine tobaccos to make a cigarette.

Nothing is too good for Camels. And bear this in mind! Everything is done to make Camels the best cigarette it's possible to buy. Nothing is done simply for show.

Take the Camel package for instance. It's the most perfect packing science can devise to protect cigarettes and keep them fresh. Heavy paper—secure foil wrapping—revenue stamp to seal the fold and make the package air-tight. But there's nothing flashy about it. You'll find no extra wrappers. No frills or furbelows.

Such things do not improve the smoke any more than premiums or coupons. And remember—you must pay their extra cost or get lowered quality.

If you want the smoothest, mellowest, mildest cigarette you can imagine—and one entirely free from cigarette aftertaste;

It's Camels for you.

ANOTHER ADDITION TO THE FACULTY.

The most recent addition to the faculty of M. S. M. is that of an Assistant Professor in the Mechanical Engineering De-

partment. Prof. Miller comes here from the Massachusetts Institute of Technology, where he has been teaching for the past year and a half. He was graduated from that institu-

tion in 1919 with a B. S. in Mechanical Engineering. He will have charge of the laboratory here.

VOCATES.

The Vocate Club was host to three of the defeated Springfield grid warriors Friday evening.

Prof. Brewer kept the Topog out until 10:30 Wednesday evening at Knobview, due to the fact that his "Lizze Henry" persisted in climbing telephone poles.

"Uncle Tom" Bencke says he has heard six times that he is married. He is beginning to wonder if it isn't true.

Max Howard is noted for his obliging disposition. He volunteered to get a car and bring in the stranded Topogs. But we also note that St. James lies on his road to Knobview.

Mr. Ryan, traveling Vocational representative, was in Rolla last week trying to clear up a few problems of the Vocates.

Maloney was called home on account of the serious illness of his father. We hope to have him with us again soon.

In a very heated argument in regard to a murder case, Grant persisted that a witness seeing the act of murder thru a window glass would not be a competent witness, due to the fact that he was looking thru glass. MacDonald wishes to know if a man wearing nose glasses would also be disqualified.

COTTRELL PRECIPITATOR TO BE DEMONSTRATED.

Mr. H. M. Pier, of the Research Corporation, will demonstrate the Cottrell Precipitator in the Metallurgy Building on the afternoon of Tuesday, November 8th, beginning at 1:15.

Quoting from Mr. Pier's letter: "Our usual program takes about one and a half hours, and consists first of a talk outlining the history, theory and practical operation of the process, followed by a number of slides,

showing the various installations and developments with the actual demonstration of the working model of the Cottrell Precipitator completing the program."

Members of the faculty and students are cordially invited and urged to attend this demonstration.

DR. BITTING ADDRESSES STUDENTS.

Dr. Bitting, of St. Louis, spoke to the student body and a large number of townspeople at Parker Hall Monday afternoon at 3 P. M. Dr. Bitting took as the subject of his address, "Mining Manhood." He presented in a forceful manner the importance of a man's thoughts and motives in moulding his character. His address was a treat, and those who failed to hear him missed an inspiring talk. Dr. Bitting was obtained through the efforts of the Methodist Engineers.

**COL. F. D. WEBSTER, M. S.
M. EX-'82, VISITS ROLLA.**

Brig. General A. E. F., Now
Col., R. O. T. C. Leavenworth High School.

Col. Frank D. Webster, former M. S. M. man, and Brig. General 8th Brigade, 4th Division, A. E. F., was in Rolla over the week-end. Col. Webster was an M. S. M. student from '80-'82, when the school was passing thru its early transition period. Prof. Waite was then director.

After leaving M. S. M. Col.

Webster attended Annapolis, and later West Point, graduating from the latter in 1889. Col. Webster has been in active service since his graduation from West Point, serving as a Brigadier-General during the late war with the A. E. F. forces. After being retired as Colonel, he was re-called to active service, and put in charge of the R. O. T. C. unit at the Leavenworth, Kansas, High School.

Col. Webster's visit to Rolla was caused by the serious illness of his sister, Mrs. L. C. Morgan.

OLD MINER TO RECOUNT HIS EXPERIENCES IN BALKANS.

Paul R. Cook, '07, will give a talk at assembly on Friday, October 21. The subject of his talk will be "A Year in the Balkans." Mr. Cook will tell of his experiences in Serbia and Bulgaria while prospecting for mining possibilities for American capital. He spent over a year in the Balkan states on this investigation, and has some very interesting things to tell.

The student body and the people of the town are cordially invited to be present at this meeting.

TELLING TIME.

The time of day I do not tell,
As some do, by the clock,
Or by the distant chiming bell
Set on some steeped rock.
But by the progress that I see
In what I have to do,
It's either Done O'clock for me,
Or only Half-past Through.
—John Kendrick Banks.

In a letter received from J. K. Murphy, ex-'23, recently, he states that Harry G. Smith, '19, was shot and killed in a gold mine thirty-five miles from Madero, Mexico. His body is enroute to Vinita, Oklahoma, which is his home, for burial. Smith was thirty-six, and had been in Old Mexico for several years with mining companies. At the time of his death he was Superintendent for the Dolores Mines Company, with headquarters in El Paso, Texas.
