SOPHS WIN CLASS SCRAP.

Freshmen Put Up Game Fight.

After five nights of varied and enforced entertainment to the tune of the well known barrel stave, our tender, young and unsophisticated students, fesh from their mother's apron strings, better known to the old-timers as the Freshmen, betook themselves, as directed by their masters, the Sophs., on Tuesday evening to the Fair Grounds for a night of unmolested rest in preparation for the big annual class fight between the Frosh and Sophs. This year found the Fair going full blast when the evacuation proclamation was issued, and, needless to say, the present Freshmen Class did much to make the Fair a moral success, for, instead of playing the usual game of "African Golf," they squandered all of their lucre at the roulettes and various other games of chance which had temporary headquarters established at this annual affair of Phelps County. A few of the more adventurous Sophomores tried to visit their opponents by taking in the Fair, but were ejected with force by the concentrated attack of the Freshmen when their identity became known. All retired on their beds of grass and rocks early, as there was no need to sneak into town and put up posters, as in former years, on account of the laxity of the Sophomore guards who stood watch during the wee small hours of the night previous and allowed them to negotiate the streets with apparent ease, and without the usual fear of capture.

The march into town started about eight o'clock, and at nine, the time for the scrap, found them "a rarin' to go" into the fracas. The usual large crowd was present, and at a few minutes after nine the gun was fired, and the Sophs from the north end of the arena advanced upon their "meat" from the south end, and in a short 14 minutes had all the Frosh conquered. During the melee cries of '25 and '26 were unanswered as each man was busily engaged getting his man tied up for the Juniors, who acted as field men, to carry to the sidelines. The Freshman class is to be commended for the game fight they put up against

Continued on Page Two.

DR. GUY HENRY COX.

Dr. G. H. Cox, formerly Professor of Geology and Mineralogy at M. S. M., was fatally injured in an automobile accident between Bristow and Sapulpa, Oklahoma, on Saturday night, August 19th. He was driving a machine, and when blinded by the headlights from another car, drove off a steep embankment. He was taken to a hospital in Bristow, but never regained consciousness, and died early Sunday morning, Aug. 20th. The remains were brought to Rolla Wednesday, August 23rd, and lay in state at the Episcopal Church until the following morning. Reverend H. Nelson Tragitt officiated at the funeral services at the church, and Rolla Lodge of Masons took charge of the services at the grave.

Dr. Guy Henry Cox was born at Lehigh, Iowa, May 4, 1881. He graduated from Northwestern University, took post-graduate work, and later received his Doctor's Degree from Wisconsin. He was Professor of Geology and Mineralogy at M. S. M. for the past 12 years, and during that time received the degree of Engineer of Mines from the school. Two years ago he resigned his chair at M. S. M. and took a position as oil geologist for the Josey Oil Co., of Oklahoma. His work carried him into Arkansas, Oklahoma and Texas. His home was in Oklahoma City.

On Dec. 27th, 1907, he married Miss Kittie May Gates, of Clear Lake, Iowa. His wife and their two children, Kenneth and Catherine, survive him, as well as his mother, who lives in Seattle, Washington, and a brother

CHANGES IN THE FACULTY.

The Department of Mathematics has secured Mr. R. M. Rankin as Instructor, to take the place of Mr. Pritchard. Mr. Rankin comes here with his M. A. in Math. from the University of Chicago, after two years of pure mathematics. He was graduated from Maryville (Tenn.) College in 1916, with a major in Math. The next year he spent as instructor in Mathematics and football coach at Wassatch Academy (Utah), and the next year he was instructor in Math at Westminster College, Salt Lake City. He was then called into the service, and served as Radio Instructor. After his discharge he was recalled to Westminster. After a year there he went to the University of Chicago to do graduate work.

Mr. Rankin is evidently well qualified for the position. It is hoped that his work here will be successful.

Another old man back is A. F. Delaloye, B. S. '21. "Gus" has returned as Instructor in Vocational Highway Engineering. Since his graduation he has been engineer for the Western Coal and Mining Co., Pittsburg, Kansas.

Eugene Dreidel, B. S. '20, has returned as Instructor in Organic and Industrial Chemistry. Since his graduation he has been employed at various times by the Monsanto Chemical Works, the Mineral Refining and Chemical Co., and the American Zinc and Lead Smelting Co. His work has been chiefly along research and control work.

Miss Edith Jones, of Webster Groves, Mo., has been appointed Librarian, to succeed Mrs. H. O. Norville, who left last spring to join her husband in New Orleans. Miss Jones has been librarian at the Medical Library at Washington University.

and two sisters.

Dr. Cox was a member of Rolla Lodge, A. F. & A. M., Rolla Chapter of Royal Arch Masons, Rolla Commandery, Knights Templar, and of Abou Ben Adhem Temple of the Mystical Shrine, Springfield, Mo.

The School of Mines has lost a faithful friend. The Miner, in behalf of the student body, alumni and faculty, wishes to extend the sincerest sympathy to the family.

overwhelming odds.

After the smoke of this furious conflict had cleared away, and allowed old Jupe Pluvius to enter into the midst of the vanquished, the victors dabbed paint over them, and burdened their shoulders with clever placards. Having done this they marched in lock step to Jackling Field, and amused the spectators who braved the precipitation of moisture, with a circus. Egg shampoos, proposals, lamp black, fights, etc., made up the program, which, though old, brought laughs from the students and poulace who have seen them time and again.

The green caps, which are a real green this year, did not arrive in time to complete the program of the day, but as they arrived on Friday we now may distinguish these lesser lights as they sojourn about the streets of this fair city until Thanksgiving, when they will be allowed to be removed.

A smoker for the benefit of the new men was given by the Sophomore Class in the evening at the Gymnasium. Almost the entire student body was present, and witnessed the interesting program arranged. Talks were made by Dr. Fulton, Prof. Armsby, and "Spike" Guy; Walker and Adams

wrestled in a "framed" bout and, needless to say, "Spoof" had a hard time getting his opponent to down him. Kessler and Letts put on a snappy two-round bout, and to make the affair a complete success the famed Varsity orchestra kept up the pep and interest by their delightful musical program of syncopated jazz.

ANNOUNCEMENT.

Tau Beta Pi wishes to announce the award of the Scholarship Trophy for the spring of 1922 to the Prospector's Club. Below is the standing of the different organizations:

Prospector's Club.....	74.02
Grubstaker Club.....	67.22
Pi Kappa Alpha.....	67.13
Lambda Chi Alpha.....	67.11
Independents	67.04
Kappa Sigma.....	62.37
Bonanza Club.....	61.34
Sigma Nu.....	58.03

The above results were calculated as prescribed by the rules published last January, when the contest for the trophy was announced. If there are any errors the committee will be glad to correct them, provided they are reported not later than Sept. 7th, 1922. A copy of the complete report for all organizations, giving the records of each man, will be found on the bulletin board in the Library.

LOYALTY.

Loyalty is a splendid quality, which can be developed by every one. There is the loyalty to conscience, to a Higher Power, which is the cornerstone of character. There is loyalty to ambition, to effort, which is necessary for success. There is that loyalty which requires faithfulness to duty, no matter what be the cost. There is that loyalty which is necessary that organizations survive and prosper. There is the loyalty of true friendship that demands many sacrifices and much confidence. Loyalty is greater than gratitude, for the latter presupposes a favor or benefit received. Be loyal to your school, to your organizations, to your friends, and to yourself.

SILVER AND GOLD.

The colors of the Missouri School of Mines are Silver and Gold. We print this for the benefit of the new men, lest they get the impression that Orange and White are the school colors. There have been many attempts by men prominent in under-graduate activities to change the colors, but the student body has always signified an almost unanimous desire to retain the Silver and Gold. So for the time being we suggest that the will of the student body, past and present, prevail in this matter.

"THEORETICAL JUNIOR."

Editor's Note.—The following was dropped into the Miner box, and is considered worthy of publication in the editorial column.

Rolla, Missouri, Sept. 1st, 1922.
Editor Missouri Miner.
Dear Sir:

Permit me, through the medium of your valuable paper, to introduce to my schoolfellows the latest product of an over-keen imagination which has arisen in our midst—the "theoretical Junior." This is not intended as a slur on the honest-to-God Junior, who by hard work and more or less conscientious effort has accumulated credit to the amount of ninety hours, and is already figuring how best to knock this old universe for a row of kilowatts, but rather an attempt to show up a new type of "artful dodger" that needs suppressing. The term "theoretical junior" may be new to some of us, and consequently needs some explanation. He was born of sheer funk and a disinclination to soil his clothes and came into existence about the beginning of the hazing season, which we all know was several days before the clas fight. He was a Sophomore—of a sort! I say "was," because I am acting on the assumption that he has by his action demonstrated his unfitness to belong to the class of '25. As the term "theoretical" will automatically debar him from the councils of the Juniors, I fancy he will be somewhat in the position of a "man without a country." God hates a quitter, and without attempting to place my class or myself on a par with the Deity, I would state that we, too, hate a quitter. These fellows hid behind the technicality that because they had registered three times they were juniors, and the amusing part of the whole business is that most of them have not fifty solid hours to their credit. But they were "Juniors," if you please, and that made them "ineligible to take part in the activities of the Sophomores, and, oh, how badly they wanted to! You have seen them, fellows—biggered up in their glory—pretty boys—paying court to the fair sex, when they should have been out on the job helping to develop a little enthusiasm. Perhaps I am radically inclined, but if it is left to me I shall see that a list of their names is published for the benefit of both the Sophomore and Junior classes. That, I feel, would do much to discourage evasion of duty and weak sisterhood in general. The School of Mines can get a long very well without fellows of this type, and as a matter of preserving the traditions of a great

institution, the class of '25 proposes to look after those birds who should have taken part in the recent activities, but did not. Speaking of birds, I think that when a comparison is made between Prof. Thornberry's buzzards and these fellows, the check-up will show in favor of the former. The buzzard is a comparatively useful bird, in that it acts as a scavenger, whereas the "theoretical junior" is all that the term implies—"dodger," "quitter," "fifty-fifty," and "effeminate." Perhaps I have started something—and then again, perhaps not—any way, whenever you whom this article is directed against, feel like retaliating, come around and talk it over with

ALUMNI NEWS

218 MEMBERS IN M. S. M. A. A.

MEMBERS OF ALUMNI

ASSOCIATION.

The Alumni Association at the present time has 218 members. Each day letters are being received from the old Miners who have gone forth from M. S. M., and who are now in all corners of the earth. Every letter is a boost for the Association and its aims and purposes. Below is printed the list of the members to date. If your name is not on the list, send in a check for five dollars to Prof. Dean. And if there are any other former M. S. M. men in your vicinity who are not members, ask them to join at once.

*Life members.

BUREAU OF MINES BUILDING UNDER CONSTRUCTION.

Work on the new building to house the Mississippi Valley Experiment Station of the U. S. Bureau of Mines was started last May, and has been progressing slowly ever since. At present the work on the basement of the main part is about completed. One of the chief causes of delay has been the difficulty of getting cement because of railroad conditions.

The building is situated just north of Parker Hall, and faces west. The finish will be of hard burned red brick laid up in garden wall bond. Trim-mings will be of Carthage stone. The contracts are for an estimated cost of \$100,000.00, and call for completion by Feb. 1st, 1923. Owing to the unforeseen delays this time may have to be extended.

The structure will be divided into two main parts, each approximately 50 feet by 125 feet. The west half of the building will be two floors above the basement. It will house all the offices of this station of the Bureau of Mines, as well as several smaller laboratories. The ground floor will have a rest and lounging room, and the basement will afford among other things, showers.

The east half of the building will be devoted entirely to laboratories. It will have no basement, but will be connected to the first floor of the west half of the building by a tunnel. The main laboratory will be two floors in height, so that different kinds of apparatus can be installed. In this part of the building also will be the rock drilling laboratory, cement testing laboratory, the electro-thermic laboratory, and the crushing and sampling laboratory. According to Dr. Fulton

this will be one of the best equipped metallurgical laboratories in the United States.

Prof. C. V. Mann is superintendent of construction for the School of Mines under Dr. Fulton. Prof. Mann has had wide experience in construction work, and should prove a valuable aid in this undertaking.

MINER BOARD HAPPENINGS.

At a recent meeting of the Miner Board, Muir L. Frey was elected Editor-in-Chief of the 1922-23 Miner, to succeed Stephen M. Burke, who resigned as Editor. Frey has served on the Board. Schneeberger will be an editor, and his work has been very commendable. A successful paper is expected under Frey's management.

At the same time F. C. Schneeberger and K. A. Ellison were elected to the Board. Schneeberger will be an Assistant Editor, and Ellison will be Circulation Manager. These men have been working under the supervision of the Board since January.

McCOLLUM IS

FOOTBALL COACH.

Another added punch to this year's football squad will be the services of Mr. S. C. McCollum, as Asst. Athletic Director and Coach. Coach McCollum, who is a member of the Kappa Sigma fraternity, hails from Penn State College, where he has had a stellar college career. For three years he was end and back on the Varsity football team. He was also a member of the baseball squad for three years, as well as forward on the Varsity basketball team. Coach McCollum comes highly recommended, having been mentioned by several eastern critics as All-American material. McCollum's experience should add real punch to the team's work this year. The student body should exert itself to make Coach McCollum's work easier. Boost the team.

VOCATES.

Mr. H. J. Teas, who has been Co-Ordinator for the Veterans' Bureau for the past 18 months, has resigned his position, and will return to the Illinois State Highway Commission, where he held a position before coming to Rolla. He was our first co-ordinator, and has had many difficult problems to solve, which he did conscientiously. We wish him luck in his return to the highway department.

F. S. Regle, of Salina, Kans., has been appointed co-ordinator, to succeed Mr. Teas, and entered upon his duties two weeks ago. He formerly was field man for the Veterans' Bureau in Northwestern Kansas, and no doubt knows the work well. It is the desire of the Vocational Class to become acquainted and work in hearty co-operation with him.

The Vocates have been widely scattered this summer. Some have remained in school during the hot summer months; others have been out on the job in the field with the State Highway Department. Those who have been in the field have had the opportunity to apply some of their training, and will come back ready to start the grind once more. In most cases the field men probably had a more pleasant summer than those who were in school. The diversions offered by the summer resorts at Jerome did much to break the monotonous, dull summer for those at Rolla.

Miss M. Popenhausen has been transferred to the Veterans' Bureau clinic at Des Moines, Iowa.

Miss Ethel Goodman of the St. Louis office, was here assisting with the Vocational registration the past week. She finished her work and returned to St. Louis last Thursday.

Our old friend, Grandpa Siegle, is visiting at the L'Abri House this week. Grandpa gained much notoriety while in school here in various ways. He has a very prosperous appearance, so evidently his present habitat must be a new field. He is attending school at Angora, Ind.

Miss Sanders is planning her vacation, but will not take it until Christmas. Of course there are many reasons why she should be planning so far ahead, but for the present nothing further will be published. She has been faithful all summer, and deserves all that her plans might happen to be.

SIGMA NU DANCE.

The Sigma Nu Fraternity gave a delightful dance last Friday evening, in honor of their pledges. Music was fur-

nished by the Varsity orchestra quintette. Dr. and Mrs. J. W. Barley and Mr. and Mrs. John McK. Southgate acted as chaperones.

FRESHMEN

That guy you see running around the campus, carrying that little red bag is Dan Jett.

He has several students associated with him as partners. There is one in your house or in your neighborhood. They stand ready to serve you in giving you quality goods at the lowest prices.

This week we want to mention our large line of Whiting stationery, in the College Seal or Fraternity Crest. See the man in your house or

Fifty-One Men' Report After First Call.

Fifty-one men responded to Coach McCullom's first call, and in this number are eleven old letter men from previous years' standing. McCullom has easily won the confidence of every member of the squad and school, and is rapidly rounding the men into shape. Everything points to a championship team this year.

The following is a list of this year's squad, with the letter men in heavy type:

*Watkins, *Zoller, Hopkins, *Parkhurst, *Ledford *Hasselman, Sutor, Keith, Mennie, *Zook, Comack, Gabler, Newcomb, Shire, Mills, Fischer, Koch, Birchard, Miller, Kent, *McBride, *Nolan, Sanders, Evans, *Springer, Powers, Havens Hoover, *Buck, Letts, Dosten, Butts, Sievers, Gilbreath, Whittlesey, Moodie, Sargent, McAlpin, Craig, S. E., Craig, C. D., Huckins, Diers, *Buser, Crutcher, Reder, Groschan, Boyle, Anderson, Harrison, Garr.

TRACK LETTERS AWARDED.

Pesout Captain-Elect.

The following is a list of the men who were awarded stripes and letters during the last track season:

Stripes.

B. F. Hoover, H. Chomeau, (Capt.) H. D. Scruby, Edw. Pesout, A. E. Runge, C. A. Walls and Carlton Smith

Letters.

H. D. Ainsworth, K. F. Hasselman, A. E. Buck, C. L. Martin, I. F. Hazelwood and Geo. C. Gabler.

At a meeting of these letter men Edw. Pesout was elected Captain for the season 1922-1923, to succeed H. Chomeau. Pesout, who has won the javelin throw in the last three meets, is always a sure point man, and should successfully and capably captain this year's team. Chomeau very creditably led the team thru last year's season.

MINERS PLACE AT

STATE MEET IN MAY.

At the State track meet held in Warrenton, Mo., May 19 and 20, the Miner team, altho composed of comparatively few men, made an excellent showing. The team was considerably

weakened by the loss of several graduates, but put up a spirited fight, and won several places.

B. F. Hoover easily placed first in the low hurdles, and endangered the state record in doing so, while A. E. Runge took second in the 880-yard run, and Buck placed third in the broad jump. The Miner relay team came in for a third in the mile relay. This team was composed of Martin, Buck, Hazelwood and Runge.

PEP MEETING STARTS THE YEAR OFF WITH A BANG.

A comparatively large audience was on hand Friday at the auditorium to hear the M. S. M. pep champions start off the old fight.

Earl Guy (the little guy with all the pepper) opened the meeting by leading us in "The Mining Engineer," after which "Spike" Dennie was heard on golf and football, Doc Armsby on student advising, Coach McCullom on football, Prof. Thornberry on How to have a football team, Miner Editor-elect Frey on the policy of the paper, and cheer leader Gordon on the platform.

"Thorny" pulled the masterpiece of the meeting. Step by step he took us thru the lives of the birds, showing us how they helped and harmed each other, then with a strong summary he showed us how, in the same way, we could help or harm the team.

Coach McCullom, in his talk on football, expressed the desire that the onlookers be eliminated from the football field during the team practice, excepting days which will be announced later. We believe the Coach "knows his stuff," and if he asks us to stay away, we know he has a good reason for his request, and we may as well start right off with him. He also remarked that we have the material for a first-class team, so with his guidance our assistance, and the team's pep, we should have a winner.

1922 FOOTBALL SCHEDULE.

The football schedule for the Miners for 1922, as announced by F. E. Dennie, director of athletics at M. S. M., is as follows:

Oct. 7, Washington U., at St. Louis.

Oct. 13, Westminster at Rolla.

Oct. 20, Missouri Wesleyan at Cameron.

Oct. 27, Arkansas Aggies at Rolla.

Nov. 4, St. Louis U., at St. Louis.

Nov. 11, Drury at Rolla.

Nov. 18, James Millikin at Rolla.

Nov. 25, College of Tennessee Doctors at Memphis, Tenn.

ROLLA, MISSOURI

MARRIAGES.

During the past summer many old Miners took the fatal step in life's long journey, and were united in the holy bonds of matrimony in various parts of the country.

W. R. Luckfield, '23, and Miss Jeanette Sally slipped off to Salem on April 26th last, were married, and managed to keep it secret until after school was officially out. Miss Sally is well known to Rolla students, being a member of the B. B. B. "Lucky" was a student here for the last three years, and was very well known among the student body, being Business Manager of The Miner last year, and a member of Kappa Sigma Fraternity.

M. L. Frey, '22, was the next benedict, and claims June 19th as the memorable day on which he was married to Miss Margaret Nelson, of St. Louis. Muir has been in school for four years and during this time has made many friends, both in and out of school. Mr. Frey is working for the U. S. Bureau of Mines at Rolla in connection for a Master's Degree. He was Assistant Editor of The Miner last year, and is Editor-elect of the 1922-23 Miner.

G. E. Ebmeier, '20, was united in marriage in Omaha, Neb., on July 3, to Miss Helen Thiesen, of Lincoln. Since then they have traveled thru Wisconsin and other places. He is employed as geologist for the Mexican Eagle Oil Co., at Tampico, Mexico. "Eb" was Editor of the 1916-17 Miner.

A. F. Delaloye, '21, was married to Miss Curtiss Moore, of Lebanon, Mo., on July 12th. Mr. Delaloye is at present an instructor in the Vocational Highway Department.

James P. Gill, '19, was married to Miss Clarice Powell, of Salem, Mo., in Chicago, on July 15th. Mr. Gill is metallurgist for the Vanadium Alloy Steel Co., at Latrobe, Pa. Gill was Editor of the 1918-19 Miner.

S. H. Lloyd, '21, became a married man on August 23rd, when he was married by Rev. H. Nelson Tragitt, of this city, to Miss Margaret McCaw, '25. Mr. Lloyd needs no introduction to the student body, as he has won the confidence and respect of all students since coming to Rolla. Mr. Lloyd is an instructor in the English Department, and is very popular among both the students and faculty.

We have news that M. I. Signer, '22, was married last week to Miss Ruth Tresidder, of Mariposa, Calif. While here at school "Sig" distinguished himself by his stellar work on the basketball teams, and the Miner joins with the student body in extending

them congratulations.

M. J. Ingerson, M.S.M. '23, dropped into town long enough last Saturday to marry Miss Stella Westlake, of this city. Mr. Ingerson was an instructor in the Department of Geology last year, and at present is located at Centre College, of Danville, Ky. He finished his work for an M. S. this summer.

MINERS BET HEAVILY

ON SPARKPLUG.

Sparkplug, the best two-year-old of the Walker stables, was the bright light of the Phelps County Fair. Sparkplug is some horse, and by his brilliant finishes at the late fair gave promise of some spectacular running in the near future. He finished fifth on Wednesday afternoon, running against the best horses in the county. An inexperienced jockey, "Pewee" Grady, perhaps, cut down his pace a bit too much. Thursday he had a bad start, but despite this handicap finished a strong third. This race featured the return of "Spoof" Walker as a jockey. Walker had to ride his ace when his regular jockey became ill at the last minute. It was a regular comeback after an absence of twenty years from the saddle.

Bookmaker Joker and Colonel Elliott claim that Sparkplug is a good bet and when those two veterans make that statement you can be sure that such is the case. The next appearance of Sparkplug will be at the Crawford County Fair, which will take place at Cuba this week. Owner Walker and Trainer Schramm look for him to walk away with the laurels this time.

THE FIRST MINER DANCE.

Miner Dances are given by the Miner Board in order those who like to trip the light fantastic toe may have an opportunity to indulge in their favorite pastime. They are for everybody, and there is no reason why every one cannot come, enjoy himself or herself, and feel at home.

The first Miner Dance of the season is scheduled for Friday night, Sept. 8th, at 9 o'clock in Jackling Gymnasium. The Varsity Orchestra will furnish music with their usual pep and novelty, and will endeavor to vary the evening's program with special numbers. The admission is \$1.00 per couple.

Don't forget the place and the date and that everybody is welcome.

CUSTOMERS FIRST!

—THEN SALES

Probably we have more regular customers than any other men's store in Rolla.

A curious fact about our business is the number of people who keep coming to us for clothing, hats, and haberdashery, whom we know and who know us.

Way back in the days of 1870 we decided that a customer was worth more than a sale.

Our definition of a customer is a man who comes back.

What makes you keep trading at a store you like?

It isn't altogether the quality or price of merchandise.

After a time, you get to feeling that that store is sincerely trying to give you a great service. It seems to understand your tastes and needs. It protects your interests in the matter of price and invariably gives you big value.

It never tries to seduce you into buying an article of deceptive quality by any trickery of pricing.

It plays square and makes good. We try to run that kind of store.
