Dean Puts Alumni Association Over The Top

DON'T FORGET THE

MINER DANCE.

We need say but little to the old timers at M. S. M. as regards the character and general excellence of Miner Dances, but we'll have to ask the Freshmen and new students not to miss these affairs if they intend to make the most out of their college careers.

The right way to get in right with a Rolla girl is to invite her to attend a Miner Dance. It's better than "Saying it with flowers," and cheaper, too. Admission \$1.00. Friday, September 7th, 9 P. M.

ENROLLMENT NOW 310.

Enrollment Up to Noon Sept. 4th.

Graduates	5
Seniors	48
Juniors	79
Sophomores	52
Freshmen	105
Specials.....	21

Total310

These numbers are all according to the official classification of students. The numbers in the class organizations will not agree with these figures, since some members of the Sophomore Class are officially ranked as Freshmen, some Juniors are ranked as Sophomores, and some Seniors are ranked as Juniors.

The officers of all student organizations are urged to hand in membership lists and names of officers, to complete the files in this office, and to keep such lists up to date by notifying the office of new members taken in, as promptly as possible after their induction. These lists are very useful, and are necessary to complete the individual student records.

ELECTION OF OFFICERS

OCTOBER 25.

Since his election to the office of Secretary, at the time the Alumni Association was organized, Prof. George R. Dean has made for himself an enviable reputation as an organizer.

The Association was formed by the few old graduates who returned to their Alma Mater for the home-coming celebration in 1921. Since that time Prof. Dean has, through his untiring efforts, increased the membership from a mere handful to its present strength of four hundred members.

While yet in its infancy the M. S. M. Alumni Association has done a great deal for the school. It is in a position now to make M. S. M. one of the best known schools in the country by a systematic drive towards increasing the enrollment. With its alumni scattered far and wide, and with a capable organizer at its helm, it should be able to induce many students to attend here, who without its influence, or without the information which its members are able to give, would have only a remote knowledge of the school.

For the information and guidance of our alumni subscribers we are printing the following section of the constitution of the M. S. M. Alumni Association, and a list of the nominations:

Constitution.

Section 2. The Board of Directors, functioning as a Nominating Committee, shall elect as nominees not less than two members of the Association

MARRIAGES.

HORROM-HUME.

On May 5th "Doc" Horrom took unto himself a wife, Miss Maud Hume being the lucky lady. They went to Warrenton, Mo., to have the knot tied. "Doc" is again in school, while Mrs. "Doc" is at present in St. Louis.

Samuel Zook, '23, went straight back to Iowa and took the mighty jump. Mrs. Samuel Zook spent a few days in Rolla last year, but her name was a secret. Best wishes to both of you, and remember M. S. M.

Lapee's name may also be included among the recent benedicts. Wonders will continue to happen. The Miner wishes you both the best of luck. May success and happiness be yours always.

WALSH-McCONVILLE.

J. K. Walsh, '17, ex-Editor of the Miner, was married to Miss Cecelia McConville on June 28th, 1923. They are residing at Wilburton, Okla.,

where J. K. is President of the Oklahoma School of Mines. The Miner extends best wishes, and may all your troubles be minors.

POND-PAGE.

April 28, 1923, at Weston, Mass., there was solemnized the marriage of Walter F. Pond to Miss Madeline Page, of New York City. Mr. Pond is geologist for the Missouri Geological Survey, with offices in the Rolla Building. Mr. and Mrs. Pond are residing at 1108 Rolla St. Continued success and happiness is the sincere wish of the Miner.

SHAW-CORNWALL.

O. C. Shaw, one of Rolla's native sons, and a former M. S. M. student, was married recently to Miss Pauline Cornwall, also of Rolla. Always be kind to her, Clark, and you'll always be happy.

RIXLEBEN-SPRINGER.

Bruno Rixleben, '22, was married to Miss Ella Mai Springer, of Holden-

ville, Okla. The ceremony took place at Shawnee, Okla., on July 22, 1923. Bruno stopped in to see us today, and he is still happy.

DOOLEY-HARRIS.

The student body lost a real friend and a loyal supporter when Glenn Dooley, '23, stole Miss Emily Harris, daughter of Prof. E. G. Harris, from our midst.

Glenn will be remembered as assistant to the Student Advisor, Sigma Nu, Joplin boy, banjo player, and everything else. The Miner extends the best of good wishes.

PROF. FULCHER DIES.

Prof. J. E. Fulcher, '96, died at his home in Des Moines, Iowa, Aug. 28th, 1923. The deceased was a professor at Highland Park College, Des Moines, at the time of his death. M. S. M. has lost a real friend and booster. We take this occasion to extend our deepest sympathy to his wife, who will be remembered as Miss Ida Allen, of Rolla.

YES! WE HAVE NO BUZZER.

In each class room the close observer will notice a rectangular appearing sort of an instrument, to which is attached a pair of electrical wires. The sole purpose of this instrument is to buzz. When it no longer buzzes it has failed in its purpose, and can no longer be called a buzzer. The reason it has been hung up for the purpose of buzzing is to notify the erstwhile preoccupied instructor that the end of the period has arrived. Now, as we have said before, the buzzer has failed to buzz, yet the instructor continues to instruct, which means that the instructor in the succeeding class is petulant when his students fail to arrive on time. This provokes cutting remarks from some instructors regarding some students, and regarding other instructors as well.

We want to suggest, first, that school time be calibrated to Rolla time; and, second, that Rolla time be Western Unionized; and finally, to call the Varsity electrician's attention to the sad and deplorable condition of the buzzer.

J. L. GREGG LEAVES, "BUDDY" CAIRNS RETURNS TO BUREAU OF MINES.

J. L. Gregg has left the State Mining Experiment Station, to accept the position of metallurgical inspector

with the Gary Steel Corporation. He left Rolla on Friday morning, Aug. 31.

A. L. (Buddy) Cairns, '21, has taken Gregg's place. "Buddy" has been in Butte, Montana, with the Butte and Superior Co., where he was assayer and chemist.

VALUABLE COLLECTIONS**RECEIVED.**

The Department of Geology is just in receipt of a very valuable and representative set of the minerals and rocks of the Braden Mine, collected by the late Christian R. Miller, M. S. M. 1911. The collection was donated to the school by Mrs. Miller, in memory of her husband.

The Paleontology collections of the Department of Geology have received recent valuable additions of Texas Comachean fossils, through the kindness of Kurt deCousser and I. W. Keyes, Class of 1922, who are now working for the Transcontinental Oil Company.

Continued from Page One.

for each office to be filled by ballot in the following manner: The Secretary, who must be a resident of Rolla, Missouri, the designated headquarters of the Association, shall submit to each member of the Association by U. S. mail, a ballot containing the names of all nominees for office at least 60 days prior to date upon which the term of offices to be filled becomes effective. Members shall be requested to indicate upon such ballots the individual for whom vote is cast, and return to the Secretary. The majority of votes cast and in possession of the Secretary not later than ten days previous to beginning of term of office shall constitute an election.

J. S. BROWN TAKES**MUILENBURG'S PLACE.**

J. S. Brown, who graduated from M. S. M. in '17, has received a year's leave of absence from the U. S. G. S. to take Prof. Muilenburg's place this year.

Brown spent the summer following his graduation in the southern part of Missouri mapping oil structures for the State Geological Survey. That fall he went to the U. S. G. S., where he remained until he came here. His first work with the survey was in the Imperial Valley. Two publications were printed on his work there. From the Imperial Valley he went to the coast of Connecticut, where he made an exhaustive study of sea and under ground water. A report of this work was published in the American Journal of Science, Oct., 1922. Brown left the Survey during the war to join the army, and returned to it after his discharge. Upon returning he was put in charge of a party sent to Haiti, where the winter 1920-21 was spent.

While with the Survey, in 1922, he attended Washington U. in Washington, D. C., where he received his M. S. During the year 1922-23 Brown was awarded the Emmans Memorial Fellowship in ore deposits, and spent that year at Columbia, working on his

Doctor's degree.

Several more of his papers have been accepted by the Survey, but are not yet off the press. Next year Brown expects to return to Columbia and complete the work on his Doctor's degree. Brown is a member of the Tau Beta Pi and Sigma Xi fraternities.

**BUREAU OF MINES BUILDING
NEARING COMPLETION.**

Nothing is being overlooked with regards to making this new building one of the most modern testing laboratories in the United States. The approximate cost of constructing the building will be in the neighborhood of \$125,000. It is being erected under the supervision of Prof. C. E. Mann of M. S. M., and F. G. Allin, of the McDonald Construction Co., of St. Louis.

The building will contain, besides the various testing laboratories, the offices of the Mining Engineering Department, offices of Prof. Boyce, and Prof. Thornberry, and of Prof. Dean.

The contractors hope to turn the building over to the school about Jan. 1st, 1924.

THE NEW WAY

DUNHAM'S BARBER SHOP**FOOTBALL PRACTICE BEGINS.**

Fifty husky pigskin aspirants answered the initial call for football material, which was issued last Monday by Coach McCollum. Although the ranks of last year's eleven were sadly depleted through graduation, the prospects for a winning team appear exceedingly rosy. There are many men from among the candidates who are showing a wealth of promise, and with a little coaching should make valuable additions to the ranks of the Miners.

The Neil brothers, who came here from Springfield Teachers College, are showing much promise, and will undoubtedly make a strong bid for a place on the line.

There is a noticeable scarcity of ends this year, Anderson being the only man to return who has had experience on the ends.

The development of two good men to take care of the wing positions is one of the hardest problems which confronts Coach McCollum at the present time. The development and the perfection of the forward pass have immeasurably increased the advantages of a good pair of ends.

Nolan, Ledford, Sargent and Groschan constitute the members of last year's backfield who have returned to school. With these men as a nucleus the Miners should have one of the hardest hitting and fastest traveling backfields that they have had for years.

NEW COURSE ON CURRICULA.

A new 1.5-hour course is about to be offered dealing with, and comprising, a comprehensive study of the chronological sequence and the proper methods of circumambulation as connected with the new M. S. M. registration scheme. The student will be given extensive practice in the proper methods of shuffling the registration cards; also in the art of determining by the sense of touch, the proper forms to use on all occasions.

In connection with the above it is also planned to drill the student thoroughly on the determination of the average semester grade; its relation to credit hours, and the relation of both to the maximum schedule.

This course is to be accompanied by the laboratory course in "Faculty Petition Composition."

Texts: Green Registration Problems—Armsby; The Origin of Grade Points—A. Nonymous.

inner and outer defences with hits that should have been easy outs.

On the other hand the Faculty secured hits when hits were most needed, and this, combined with some excellent fielding, enabled them to come out on top.

As a result of their victory the Faculty will come into possession of the cup which is awarded annually to the winner, and which was won last year by the Independents.

It is not yet definitely known whether or not a new building will be erected in order to furnish a suitable place to keep the trophy, but we are assured that some place will be secured where "studes" and "Profs." alike can often gaze on the Faculty's token of victory—and wonder how it happened.

BIRTHS.

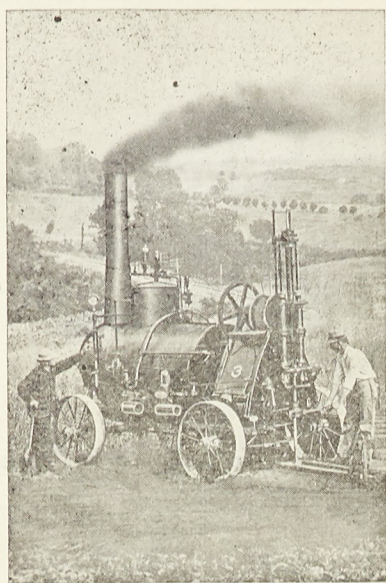

R. W. Hunt and wife are the proud parents of a baby girl. Congratulations, Rosie.

Mr. and Mrs. C. E. Stover are the proud parents of a baby boy, born July 26th. James Edward Stover, '48, should be a famous name in years to come.

Dan Jett and wife are parents of a baby girl, born recently. Congratulations, Dan.

Dr. and Mrs. Turner are the parents of a baby boy. John is taking up chemistry already, and promises to be a real gun. Congratulations, Doc.

"Fitts" Bland and wife are the proud parents of a baby girl. Mr. Bland is located in St. Louis in the insurance business. His business, however, does not interfere with his home life. Congratulations, "Pitts."

A Good Friend

The man who is rich in friends
is rich indeed. The man with-
out friends is poor even though
he lives in a palace.

You can not choose your neigh-
bors, but you can choose your
friends. Let one of them be a
good bank--a bank which takes
a friendly interest in you and in
your success.

This bank will be pleased to be
your friend.

ROLLA STATE BANK

ROLLA, MO.,

**HOTEL
BALTIMORE****VOCATES.**

The Vocational Class lost one of
its best friends in the departure of
Mrs. Ada L. Gregg on Aug. 29th. Mrs.
Gregg has been connected with the
Co-ordinator's office, U. S. Veterans'

Bureau, for the past eighteen months,
and was held in the highest esteem by
all members of the class. She was
especially admired for her willingness
to assist all members of the class at
all times. Mr. and Mrs. Gregg will

make their home in Gary, Ind., where
Mr. Gregg has accepted a position as
metallurgist for the Illinois Steel Co.
The class wishes to extend to Mrs.
Gregg a hearty vote of thanks for the
exceptional services she rendered
here.

Assistant Prof. E. J. McKee re-
turned to Rolla Aug. 29, to resume his
duties as assistant professor of oil
production methods. He has been di-
rectly in charge of a number of men
on placement training in Oklahoma
and Kansas during the summer, and
reports that all of his men make good
with their employers, and a number
of them will be placed permanently.

Bush, Sanderson, Chaney, Alton
and Pasley attended summer school at
Missouri University.

Matlock, Schaeffer, Kennedy, Beck
and Lindsley attended summer school
at Ames, Iowa. Although they might
have finished their studies there, each
elected to return and finish at M. S.
M.

Classes in the Vocational Depart-
ment will start Tuesday, Sept. 4th.
A number of the men are expected to
return to Rolla within the next few
days.

To date Lee Elliott has been suc-
cessful in avoiding an interview. We
expect to have more complete details
at an early date as to his recent ad-
venture.

COACH McCOLLUM ARRIVES.

Stanley McCollum, coach of last year's football team, will again serve in the capacity of head football coach. McCollum spent the summer at his home in Pennsylvania, and arrived here Saturday, Aug. 25th.

Although a new-comer at M. S. M. last year Coach McCollum soon won the confidence of both players and students. We're glad to have him with us again, and we're sure we can

safely say that the confidence which we had in him last year has not lessened to the slightest degree.

DR. W. T. SCHRENK TO TEACH CHEMISTRY HERE.

The Chemistry Department staff has been modified for this year by the resignation of Mr. Driedel, who taught Industrial Chemistry, and the appointment of Dr. W. T. Schrenk, who will teach Analytical and Inorganic Chem-

istry. Dr. Schrenk comes from the University of Wisconsin, where he did his graduate work, and where he has since been instructor in Analytical Chemistry.

RECEPTION FOR DR. SCHRENK.

The Department of Chemistry held an informal reception for Dr. and Mrs. W. T. Schrenk last Monday evening, at the home of Dr. W. D. Turner. All the members of the departmental staff and their wives were present.

THE SCHOOL OF MINES AND METALLUGY

**A Division of the
UNIVERSITY OF MISSOURI.**

The second oldest School of Mines in America, offers seven four-year collegiate curricula leading to Bachelor's Degrees in

I. Mining Engineering**II. Metallurgy****III. Civil Engineering.****IV. General Science****V. Mechanical Engineering.****VI. Electrical Engineering.****VII. Chemical Engineering.**

Options { Metal Mining
Coal Mining
Mining Geology
Petroleum Engineering

Also offers one-year graduate curricula leading to Master's degrees in the branches of engineering named above.

The following degrees are conferred after three to five years of professional work:

Engineer of Mines, Civil Engineer, Metallurgical Engineer, Mechanical Engineer, Electrical Engineer, Chemical Engineer.

Has 800 graduates scattered all over the world holding positions as Engineers, Scientists and Teachers of Science and Engineering. At least 300 non-graduates have reached distinction in their chosen profession.
