HOMECOMING ISSUE

University of Missouri-Rolla

December 1979

Cathy Lally is all smiles after being crowned Homecoming Queen during halftime festivities at the University's Jackling Field. Her escort is Chris Derrington of Oak Grove, Mo.

UMR Freshman Captures Homecoming Crown

Cathy Lally, a freshman from Grandview, was elected UMR's 1979 homecoming queen. Her attendants were first runner-up Cynthia Lee Monds, a junior in engineering management from Arnold, second runner-up Cindy Cooper, senior in engineering management from Bloomfield, and third runner-up Valerie L. Jones, freshman in engineering management from St. Louis.

The new queen received her crown from UMR Chancellor Joseph M. Mar-

chello during halftime ceremonies at the homecoming game between UMR and Northeast Missouri State. From a field of 27 candidates, she was one of eight finalists chosen by a panel of judges. Her selection as queen was determined by a week-long campuswide election.

Lally has not yet declared a major field of study. She was nominated for homecoming queen by Thomas Jefferson Residence Hall and is the daughter of Mr. and Mrs. Richard M. Lally, 12714 Seventh St., Grandview.

Report of Election

Newly elected officials of the MSM-UMR Alumni Association, University of Missouri-Rolla, took office at the Board of Directors' meeting at Homecoming. First term directors-at-large are Armin J. Tucker, '40, Alexandria, Va., and James D. Gostin, '44, Arcadia, Calif. Area directors re-elected are Allen G. Behring, '66, Lake Bluff, Ill., and Harold A. Krueger, '42, Sweetwater, Mo. First term area directors are: Gerald L. Stevenson, '59, Lakeland, Fla.; J. L. "Jack" Painter, '50, Poplar Bluff, Mo.; David D. Kick, '57, Tulsa,

Okla.; William E. Patterson, '53, Houston, Texas, and Edward N. Thurmond, '76, Oakland, Calif.

Retiring directors are: John O. Wilms, '43, Carson, Calif.; Larry Spanier, '50, Dix Hills, N.Y.; Bill L. Atchley, '57, Clemson, S.C.; Edwin J. Werner, '49, Blue Springs, Mo.; Herman Fritschen, '51, Tulsa, Okla.; Rex Alford, '40, Houston, Texas, and E. Murray Schmidt, '49, San Francisco, Calif.

A complete list of officers and directors is published on the inside cover of the MSM ALUMNUS.

HOMECOMING 1979

HOMECOMING-SEVEN OR NINE?

"Come on", I said, fed up with delays,
I could no longer keep "my cool";
The time had come to go to school,
Return to the site of earlier days.
The smiles that met me lit up my face,
I felt that I did belong,
And almost burst into song,
For this was the time and the place.
Barbara, Joan, Alice, et al,
Ever were anxious to please,
With answers to questions great and small,
They completely put me at ease.
Was there ever such a finer way
For the start of a most enjoyable stay?

The "gang" gathered for cocktails that night,
Each one tagged with his name and year,
Almost immediately, I met a peer,
Homor Ford was a welcome sight.
I met more classmates, others as well,
And there seemed to be miles of smiles.
Everyone was dressed in various styles,
And each had a story to tell.
A Chief and Indians in buckskin and plumes,
Specially chosen from the Osage Nation,
Were there to honor, in colorful costumes,
Their benefactor, Mr. Smith, with high elation.
He has found his Fortune on their ground,
And he shared it lavishly all around.

Saturday dawned crisp and clear,
The Chancellor's breakfast was a treat,
The food and company were hard to beat,
There was much gaiety and cheer.
I fell in love with every seat-mate,
Jean, Rachele, Margaret, and Jan,
Heard thrilling stories from many a man,
Events that occurred at an earlier date.
At the Awards Banquet, many were honorees,
With brilliant grads the school was blessed,
These had learned more than their ABC's,
And I was emotionally impressed.
Now, can anyone answer this query of mine,
Was I floating on Cloud Seven, or Cloud Nine?

Sam A. Bermi-M.S.M.-'34
Oct. 17, 1979

Like most alumni, Sam A. Bermi, '34, doesn't return to the campus very often. When he does make the sentimental journey, unlike most alumni—he likes to capture his impressions and feelings by putting them down on paper. The account of his first trip back after graduation can be found on page 10 of the April, 1966 Alumnus magazine. His impressions of the 45th reunion festivities he shares with all (above). "I chose to write in sonnet form," he says, "because it is the style for expressing love."

Homecoming weekend was a busy, happy occasion for the entire University family—alumni, students, faculty, staff and townspeople.

Preliminary events included the initial contact with old friends and a look at the campus for returning alumni as they arrived on Friday, registered at the University Center and attended the

Silver and Gold Cocktail Party that evening at the St. Pat's Church Multi-Purpose Building. Students completed their voting for Homecoming Queen and attended the Homecoming Dance in Centennial Hall. Both groups participated in the huge M-Club bonfire featuring a two-story-high pile of combustibles (trash collected during the preceding week) and the pep band.

On Saturday morning, alumni were entertained at the various living units and members of the honor classes were invited to a morning reception at the chancellor's home. Alumni then gathered at the Bullman Multi-Purpose Building for a "Fieldhouse Feed" luncheon where photos were taken of the honor classes.

Highlight of the weekend was the football game between the Miners and the Northeast Missouri State Bulldogs. In pre-game activities, UMR fraternities

staged pajama races in which four-man teams raced the length of the field in sleeping gear. The Miner Band then came onto the field to the tune of Sousa's "Stars and Stripes Forever" with Craig Cousley playing the piccolo solo. After presentation of the colors and the National Anthem, sung by L. Dean Thompson, pastor of the Church of the Nazarene, the band performed a drill to Sousa's "Black Horse Troop". The eight homecoming queen finalists were ushered to their places as the band, flag corps and pom-pom squad offered a "Fight Miners" routine.

At half-time, Dr. David Oakley, director of the Miner Band, and Tom Ruess, assistant director, presented music and routines to please varied tastes. "Spanish Opener" was the initial offering of the program. Twirler Karen Wheaton performed with the flag and pom-pom

groups to "NBC Sports Disco". This was followed by a Beatles number, "Norwegian Wood," and alumni—who once played in the UMR band—got into the act by joining in a large UMR formation for "Here Comes the King". As the theme "Harvest Moon" drifted through the stands, the Homecoming Queen winner was announced and Chancellor Marchello performed the crowning ceremonies.

After the game (see Sports section), Alumni honored their outstanding members and faculty at the annual Awards Banquet while students attended a gala concert.

Once again a homecoming weekend had provided an opportunity for alumni, students and others of the University community to look back, enjoy the present, and speculate on the future with fellowship and good feelings.

Alumnus Circulation

The MSM ALUMNUS is published six times a year: February, April, June, August, October, and December. The February, August and December issues are in tabloid format—the other issues are magazines. The February ALUMNUS carries a report of the Annual Alumni Fund and the Honor Roll of Donors to the Association and the University. The June issue reports on Commencement activities and the Reunion of the Golden Alumni Class. December's ALUMNUS carries stories of Homecoming activities, Association reports and results of elections. The other issues carry general news of alumni and the University.

The publication of the ALUMNUS is financed by gifts to the ANNUAL ALUMNI FUND. University funds do not pay for the ALUMNUS. The Board of Directors of the MSM-UMR Alumni Association sets the circulation policy and these are its guidelines:

*Each issue is mailed to all members of the most recent graduating class.

*Each issue is distributed to all faculty and staff members.

*Each issue is mailed to all University of Missouri Curators and certain University administrators.

*The February, August and December issues are mailed to all alumni of record.

*The other issues are mailed to donors to the Annual Alumni Fund, so that they receive six issues after the date of their gift.

This variation in mailing lists results in some problems. We get news items in a variety of ways and do not make it a practice to check to see if the news item refers to a donor to the Fund—That is not a part of the decision of whether to publish. Consequently, we do publish items which refer to alumni who are not regular readers of the ALUMNUS. They never know. Frequently, we get a news item without any identification as to the alumnus involved.

If you have sent us an item and you believe we have ignored it, there are several tests you can make: first, are you a current donor (you are not current if you get Fund mailings); and second, was the item identified so that your name and relationship to UMR was clear. Let us know if we are guilty of missing a newsworthy item—that is not our intention.

COVER

Members of Tau Kappa Epsilon put finishing touches on the Homecoming Display in front of their house. Homecoming theme was "Miner Grinder-Bulldog Bologna."

MSM ALUMNUS (USPS-323-500)

Issued bi-monthly in the interest of the graduates and former students of the Missouri School of Mines and Metallurgy and the University of Missouri-Rolla. Entered as second class matter October 27, 1926, at Post Office at Rolla, Missouri 65401, under the Act of March 3, 1897.

Yoelit Shapiro

Yoelit Shapiro Student Homecoming Chairman

Yoelit Shapiro, a junior in electrical engineering from St. Louis, knew when she became the University of Missouri-Rolla's homecoming chairman, she would be very busy.

But the size of her workload surprised even her.

"Committee members do most of the work," Yoelit said, "but there are a lot of details to keep track of, and there is a lot of checking to do."

She had to keep track of details of such events as the homecoming queen contest (27 candidates this year) with candidate interviews & supervision of a campuswide election; making arrangements for the Friday night homecoming dance and the queen coronation ceremonies during halftime at the football game.

Yoelit is one of those persons who has learned to organize and, therefore, becomes involved in numerous activities. When she arrived at UMR as a freshman, she lived in the women's dormitory and soon became active in Residence Hall Association functions.

From there it was just a short step to intramurals (she enjoys volleyball and basketball), work with the Student Union Board "SUB" (her current position as chairman of the Special Events Committee for SUB automatically makes her homecoming chairman), membership in Lambda Chi Alpha fraternity's Crescents (little sisters' group) and participation in the University Choir.

All of these extracurricular activities haven't detracted from her studies, and she has remained a good student. She is a member of Phi Eta Sigma (freshman honorary) and Tau Beta Pi (engineering scholarship honorary).

This year Yoelit will start specializing in the communications emphasis area of electrical engineering. Her ultimate goal is a law degree—she hopes to attend Notre Dame because of its overseas study program, and then practice corporate law with an international firm so she can travel.

Yoelit vows she is going to cut down on outside activities after this year. "I don't want to completely drop out of organizations such as SUB," she says, "but I think it's time for someone else to take the chairman positions."

Homecoming, however was only the beginning for her this year. Awaiting her and her committee's attention are Casino Night, the SUB Recognition Banquet, the Christmas Decorations Contest, Christmas decorations at the University Center, a spring session of College Bowl, SUB dance lessons and hosting various events on campus.

Alumni Achievement Awards

The Alumni Achievement Award is presented for outstanding service to areas of business or academic accomplishments and for civic affairs achievement or recognition.

WILLIAM W. COLLINS, '50
Metuchen, New Jersey
Vice President, Citibank, N.A.

Bill Collins, originally from Harrisonville, Missouri, earned two degrees from MSM—a bachelor of science in mining engineering (petroleum option) in 1950, and a master's degree in the same area in 1951. He began his career with the firm of Keplinger, Wanenmacher, Consulting Engineers, Tulsa, Oklahoma. One of his original bosses, Joe Wanenmacher, Class of 1923, attended the award ceremony. After several years in the petroleum industry in the Southwest, Bill joined the petroleum department of First National City Bank of New York. He is now a vice president of that organization, whose name has been changed to Citibank, North America. We are pleased to recognize Bill's professional accomplishments.

DAVID L. FENTON, '63
Chesterfield, Missouri
Vice President, Energy Applications
Sverdrup & Parcel and Associates, Inc.

A native of Illinois, David L. Fenton spent a number of years in Rolla—earning his bachelor of science degree in civil engineering in 1963, a master's degree in 1966, and a doctorate in the same field in 1967. He joined Sverdrup/ARO, Inc., in Tullahoma, Tennessee, following the receipt of his Ph.D., transferred to Sverdrup & Parcel and Associates, Inc., in 1975, and moved to St. Louis in 1976. Dr. Fenton has served Sverdrup & Parcel as project manager and director of technology development (industrial division), vice president in charge of corporate business development and marketing, and, since May of this year, as vice president for energy applications. He is currently chairman of the Missouri/Illinois St. Louis Regional Energy Council and is a member of the Technical Advisory Committee of the St. Louis Regional Commerce and Growth Association. We honor him for his professional accomplishments and service to his community.

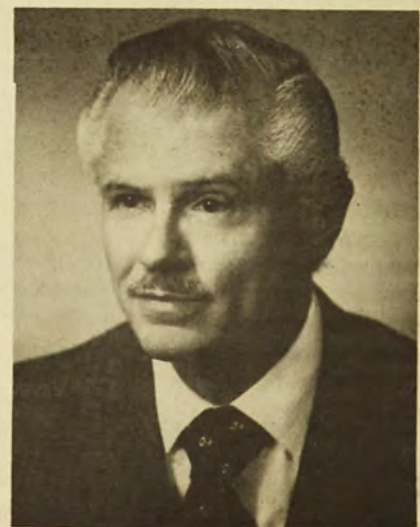

LLOYD E. REUSS, '57
Bloomfield Hills, Michigan
Director of Engineering, Chevrolet Motor Division
General Motors

Another native of Illinois, Lloyd E. Reuss received his bachelor of science degree in mechanical engineering from MSM in 1957. After a period of service with the U.S. Army, he joined General Motors in 1960. He has held a number of engineering positions with that organization, including chief engineer—Chevrolet (in 1975) and chief engineer—Buick (in 1976). Since November of 1978, he has held the title of Director of Engineering for the Chevrolet Motor Division. Lloyd is also a frequent visitor to the campus. He is the head of GM's Key Executive Program for UMR. In this capacity, he works closely with the campus to develop and administer programs of mutual benefit to GM and UMR. He was awarded the professional degree, Mechanical Engineer, by UMR in 1978 and the Alumni Association is proud to add to his honors with this citation.

CARL J. WEIS, '43
Frontenac, Missouri
President
Bank Building Corporation

St. Louisian Carl J. Weis earned his bachelor of science degree in civil engineering from MSM in 1943 and went directly to the U. S. Army, serving with the Air Corps. Following his discharge, he worked for a year with Veteran's Administration Construction, a year with Ditmars-Pickens Construction Company in Oklahoma, and a year with Mo-Pac Railroad. In 1949, he began his career with Bank Building Corporation in St. Louis, starting out as a buyer. Twenty-seven (27) years later (1976) he became president of that organization—the position he currently holds. The celebration of his 30th anniversary with BBC featured a photo of Carl lifted from the 1943 Rollamo...and he still wears the same hair style. The only change in his appearance is the addition of a moustache! We are honored to recognize Carl's professional accomplishments.

Alumni Merit Awards

The Alumni Merit Award is presented for outstanding service to UMR or the Alumni Association, or for recognition of some outstanding achievement in academic or business pursuits.

KEITH E. BAILEY, '64
Tulsa, Oklahoma
President
Williams Pipe Line Company

Keith Bailey, originally from Carrollton, Missouri, received his bachelor of science degree in mechanical engineering from UMR in 1964. He began his career as a project engineer with Continental Pipe Line in Ponca City, Oklahoma. After working in various locations throughout the West, Southwest, and South, and being promoted to various managerial positions, he joined Williams Brothers in 1973. He became executive vice president of Williams Pipe Line Company in 1978. The first of November, he was named president of the company. Keith was to have been honored with this award last year, but had to decline temporarily because he was attending Harvard Business School and didn't feel he could cut classes. We are pleased he could accept this year and are proud to give him this recognition for his professional accomplishments.

HUGH R. BERRY, '25
Rolla, Missouri
Shell Oil Company (Retired)

Hugh Berry received his bachelor of science degree in chemical engineering in 1925 from MSM and joined Roxana Petroleum Corporation in Wood River, Illinois. Roxana was renamed Shell Petroleum Corporation in 1928, and a year later Hugh was transferred to the company's Arkansas City, Kansas refinery as chief chemist. After moving back to Wood River as chief chemist, he joined Asiatic Petroleum Corporation (owned by Royal Dutch/Shell affiliates) and later, Shell Caribbean Petroleum Corporation. He became general manager—sales operations for both and retired from that position in 1963. At the time of his retirement, he returned to Rolla and has lived here for the past 16 years. Incidentally, his two sons and his son-in-law are all UMR graduates. We are pleased to honor him for his professional accomplishments and his loyalty to his alma mater.

DR. HAROLD Q FULLER
Rolla, Missouri
Dean Emeritus, College of Arts and Sciences
and Emeritus Professor, Physics

Harold Q Fuller—no period after the Q, please—received his physics education at Wabash College and the University of Illinois. He joined the MSM physics faculty in 1947, served 23 years as the physics department chairman, and became the first dean of UMR's College of Arts and Sciences. He retired as dean emeritus and emeritus professor of physics in 1977. One of the many citations Dr. Fuller has received reads, in part, "For his outstanding work and service as a teacher of physics, his deep interest in his students, his performance as an outstanding physicist and science administrator and for his influence on the lives of his many friends and associates in the physics community..." We can do no more than to echo these sentiments and present our own award in recognition of this distinguished educator.

STEVEN M. GARDNER, '70
Ballwin, Missouri
President
Times Companies of Missouri, Inc.

Steven M. Gardner received his bachelor of science degree in mechanical engineering from UMR in 1970. Following graduation, he joined the computer marketing division of IBM in St. Louis and, this year, became president of Times Companies of Missouri in Jefferson City. A resident of Ballwin, Missouri, he was elected representative from Missouri's 92nd District to the General Assembly in 1974, and was re-elected in 1976 and 1978. In the past two years, he has been cited as one of the ten (10) best Missouri legislators by three separate groups. He is a member of the house Governmental Review Committee, the Appropriations Committee, the Revenue Committee, the Economics Committee, and is chairman of that body's Ethics Committee. The Association is pleased to recognize his outstanding service to the State of Missouri.

ROBERT P. SCHAFFER, '52
Dallas, Texas
Partner, Petroleum Consultant
LaRue, Moore & Schafer

Robert P. Schafer, a native of Edwardsville, Illinois, earned a bachelor of science degree in mining engineering with a petroleum option from MSM in 1952, and his masters degree in the same field in 1953. He was awarded the professional degree, petroleum engineer, by this institution in 1975. Bob began his career with Shell Oil Company and worked for that organization for a number of years before joining Lewis Engineering, Inc., as a vice president. In 1973, he became a partner in LaRue, Moore and Schafer, Dallas, Texas, and serves as a petroleum consultant in that firm. Bob, incidentally, is developing another career as the new owner of a Texas ranch with good bottom land, plenty of pecan trees, scenery and wildlife—but no cows. The Association is pleased to honor Bob for his professional accomplishments and service to his alma mater.

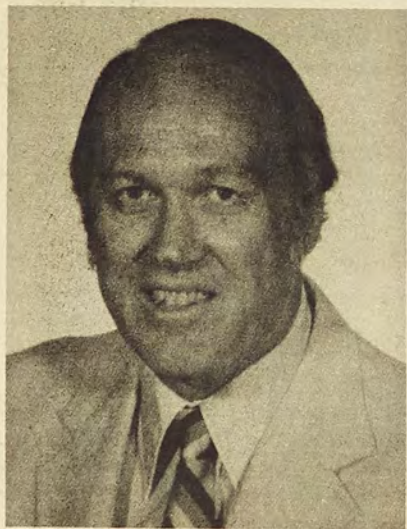

DR. WEI-WEN YU
Rolla, Missouri
Professor of Civil Engineering
University of Missouri-Rolla

Wei-Wen Yu is a native of China. He earned his degrees at National Taiwan University, Oklahoma State University and Cornell University. Following receipt of his Ph.D. from Cornell, he served as a research engineer with the American Iron and Steel Institute for seven years, then as a staff engineer for TRW Systems for a year before joining the UMR civil engineering faculty in 1968. In addition to his teaching, Dr. Yu has conducted considerable research in the behavior and optimum design of cold-formed steel structures and allied problems. He is the author of a textbook and numerous published technical articles. He conducts short courses and directs symposiums on cold-formed steel structures. He is internationally recognized for his work in the field. We honor him for his contributions to this campus as teacher and researcher.

Alumni Service Awards

The Alumni Service Award is presented to individuals for outstanding contributions to UMR through service to UMR or to the Alumni Association.

THOR GJELSTEEN, '53
Denver, Colorado
Executive Vice President
Ferret Exploration Company, Inc.

Born in Norway, Thor Gjelsteen was awarded a bachelor of science degree in mining engineering by this institution in 1953 and the professional degree, geological engineer, in 1978. Early in his career, he was with Superior Oil Company and has since served as president of Frontier Resources, Inc., which was sold to Marathon Oil, and is executive vice president of his present organization, Ferret Exploration Company, Inc. He has also served five years as a member of the board of this Association. We are pleased to recognize his professional accomplishments and service to UMR.

ROBERT B. LEWIS
Rolla, Missouri
Director of Admissions
University of Missouri-Rolla

A native of Lebanon, Missouri, Robert B. Lewis received a bachelor of science degree from the University of Missouri-Columbia and a master of science degree from North Carolina State University. He joined the staff at UMR in 1958 and has been director of admissions since 1960. He is a member of several national and state professional organizations. Through the years, he has been active as an adviser to many student groups on campus and as a counselor and friend to countless individual students. He travels an average of 20,000 miles each year to talk with high school and undergraduate students at other colleges in Missouri and adjacent states about the programs and activities at UMR. We are pleased to recognize his professional accomplishments and service to UMR students.

EDWIN K. "TOOTS" SCHUMAN, '20
 Rolla, Missouri
 President
 Tootsizer Plant Fertilizer Company

A native of Rolla, "Toots" Schuman earned his degree in civil engineering from MSM in 1920 and also has a law degree from UMC. He has been a merchant, an educator (he taught mathematics at UMR for six years), a chemist (with the U.S. Bureau of Mines in Rolla), and an inventor and manufacturer of the patented plant food, "Tootsizer." Just 60 years ago, he was elected St. Pat at the annual MSM St. Pat celebration, and has been an unofficial historian and supporter of St. Pat Board's activities through the years. He serves annually as honorary St. Pat parade marshal. We are honored to acknowledge his extraordinary service to the institution and its students.

On Sunday, November 11, less than a month after receiving his Alumni Service Award, Edwin K. "Toots" Schuman, '20, died at Phelps County Memorial Hospital.

Honorary Life Memberships

The Alumni Association reserves to itself certain privileges and considers the highest of those privileges that of conferring Honorary Life Membership in the MSM-UMR Alumni Association. The first presentation was originally scheduled to be awarded last year, but the recipient was unable to attend. Through her enthusiasm, charm and the force of her personality, this lovely lady has greatly enhanced the quality of life on this campus and in this community. It was an honor to call forward—this year—MARGARET McCRAW LLOYD to receive her Honorary Life Membership.

The second presentation was made to an individual who has earned his reputation as historian, distinguished scholar and outstanding administrator. It was an honor, indeed, to call forward DR. JAMES C. OLSON, President of this great university, to receive his Honorary Life Membership.

Nominations Invited

The Awards Committee of the Alumni Association is always pleased to receive suggestions of people who should be considered for the Merit, Service and Achievement Awards. The three types of awards cover most areas of individual effort which should be recognized by the Association. It is not necessary for the suggestor to pre-select a type of award to be considered, as the committee will judge in the appropriate category according to the supporting information on hand. Regulations of the committee which are important to the person making nominations are these: (1) Awards are not normally made to a person during his reunion year, and (2) No nominations are discarded; they are carried forward from year to year. Just recently, past awardees were asked to make suggestions and have brought forward some excellent names, many new to the files of the committee. We ask that you consider forwarding your suggestions to the Alumni Office. Following is a list of those who have been honored in past years.

Mid-Florida Section

Saturday evening, November 10, alumni and friends from central and west coast Florida gathered at the Passe-A-Grille Yacht Club. The facility was available through the good offices of alumni association director Belding McCurdy, a past commodore of the club.

John and Barbara Olsen handled the arrangements. The chef outdid himself with a superb meal—all present ate too much. The program was provided by Frank Mackaman, and his remarks were amplified by those of Belding and John.

A beautiful site, fine food and good companionship were shared by: Elmer and Mrs. Tomlinson, '32; Richard and Elizabeth Taylor, '34; Don and Janis Feaster, '59; Lou Schaefer, '53; John and Barbara Olsen, '42; Belding and Ruby McCurdy, '38; Harry and Florence Smith, '51; Frank and Nancy Mackaman; Lee and Mrs. Ousley, '63; Bob and Mrs. Rasche, '53; Bill and Mary Lou Kruse, '64. Gerry and Jeannie Stevenson had to cancel due to a business conflict that took Gerry to California.

"Rolla Night" Was Oct. 18 At St. Louis Engineer's Club

A panel of University of Missouri-Rolla students from the St. Louis area told high school students, their parents and teachers about "Engineering—The Rolla Way" at "Rolla Night," 7:30 p.m., Oct. 18, at the Engineers' Club of St. Louis, 4359 Lindell Blvd. About 450 guests attended.

Students on the panel were: Bonnie A. Boland, daughter of Mr. and Mrs. Richard Boland, 14325 Millchester, Chesterfield, Parkway Central High School graduate, UMR junior in civil engineering; Morris E. Hervey Jr., whose parents live at 8120 Blueberry, Berkeley, Berkeley High School graduate, senior in mining engineering;

Bill Spencer Jr., whose father lives at 107 Greenview St., East Alton, Ill., Roxana High School graduate, junior in mechanical engineering; and Brad Wibbenmeyer, son of Mr. and Mrs. Leo Wibbenmeyer, 129 E. Donaldson, Oakville Senior High School graduate, senior in computer science.

There was also a multi-media slide show on UMR and a question and answer period. An informal reception followed the program. UMR faculty from all departments, students and representatives of such offices as admissions, financial aid, minority program, housing, athletics, cooperative program, ROTC and placement were on hand to answer questions.

UMR Professor to Edit New Mathematical Modelling Journal

Arrangements have been completed for publication of a new mathematical modelling journal which will be edited by Dr. Xavier J. R. Avula, professor of engineering mechanics at the University of Missouri-Rolla, and Dr. Ervin Y. Rodin, professor of systems science and mathematics at Washington University, St. Louis.

The "International Journal of Mathematical Modelling" will be published quarterly by Pergamon Press. The first issue will be available in the spring of 1980.

Mathematical models, which are mathematical descriptions of systems or ordered patterns of arrangement, are

used in a wide variety of fields, and the new journal will use a 50-member editorial board with expertise in engineering, biological, environmental, social and behavioral sciences.

Dr. Avula has organized two recent international conferences on mathematical modelling and has edited or co-edited the proceedings of both. Journals currently accepting papers on mathematical modelling are overcrowded, he found.

"There was a delay of six months to a year between the time the paper was submitted and the time it was published," he said. "With the new journal, the lag time should be no more than three months."

A treat for any age.

Indian Dancers Perform At Homecoming

As a special attraction during the UMR homecoming festivities, a contingent of the Oklahoma Warriors Society Dancers gave two performances of songs and dances of the plains Indian tribes.

Six dancers and their lead singer appeared in full regalia at The Silver and Gold Reception Friday evening and again Saturday morning at the Hockey

Puck just north of the University Center-West.

Winners of championships at major Indian gatherings, the group has performed in London, Tokyo, Kyoto and throughout the United States, including Madison Square Garden in New York City and for 10 days in Washington, D.C.

Head singer for the group is Jack Anquoe, a full-bloded Kiowa and one of the leading authorities on the music of the plains Indians tribes of Oklahoma. Dancers are students from Oklahoma schools and colleges and have grown up in the traditional ways of the Kiowa, Osage, Sac Fox and Pawnee. Their songs and dances are authentic, handed down from generation to generation,

and are so old that no one is certain of their origin.

The troupe's appearance at UMR was arranged by alumnus Ed A. Smith, class of '24, and by Sylvester J. Tinker, principal chief of the Osage Indian Nation. A petroleum engineer, Smith assisted the Osage Nation in developing its oil fields and was made an honorary chief of the Osage.

Chancellor Marchello introduces Sylvester J. Tinker, Principal Chief of the Osage Nation, and Mrs. Tinker.

Leader singer, Jack Anquoe (Kiowa) chats with the crowd.

Football Miners Post 7-3-1 Season—Defense Sets Record

Homecoming Football Game—Miners vs. Kirksville Bulldogs.

Rebounding with three straight wins, the 1979 University of Missouri-Rolla football team ended the season with a fine 7-3-1 record. The Miners also captured their final two conference games of the campaign to even the MIAA slate at 3-3.

After starting off with four wins and a tie early in the season, head coach Charlie Finley's crew bogged down on offense and dropped three straight games...all to conference opponents.

The Miners dropped a heart-breaking 3-2 decision to Northeast Missouri State on the Oct. 13 homecoming game, and found it hard to bounce back the next two weeks.

MIAA champion Northwest Missouri State came to town the next weekend, and promptly flattened the Miners 26-0 to knock them out of the chase for the conference crown. The slide continued one week later, when the UMR contingent fell 27-3 at Southwest Missouri State.

But the Miners were far from finished and gave the fans something to cheer about in the final trio of ballgames.

The rebound started with a 49-6 triumph Nov. 3 over Central Methodist and set the stage for the final two conference games of the season. UMR traveled to Jefferson City the next weekend, and clipped an explosive Lincoln University squad 24-7, as sophomore running back Bryan Paris gained a season-high 161 yards rushing.

The winning streak carried into the last contest, as UMR side-stepped a stubborn Central Missouri State team and blanked the Mules 9-0.

UMR coaches had plenty to smile about in 1979, especially the play of the team's defense. Miner defenders allowed only 94 points, and that effort set a modern-day school record.

For much of the season, the UMR defense was nationally ranked. Teams found it hard to run against the Miners, as only six touchdowns were scored on the run all year. UMR allowed only an average of 103.9 yards per game on the ground.

Only three touchdowns were scored against UMR in the air, as opponents could muster only an average of 125.9 yards per game versus UMR's secondary.

Miner defensive backs picked off 25 passes on the season, with Bill Grantham and Hal Tharp leading the team with five interceptions each. Grantham and Craig Heath (who had four interceptions) tied a school record this season with three interceptions in one game.

Coaches and fans around the league were impressed by the play of UMR linebackers Morris Hervey and Kevin Wolf, who were among the leading tacklers in the MIAA. On the line, stalwart Jim "Bo" Decker bounced back from an early injury and did his usual fine job at his tackle post.

On offense, three quarterbacks saw some duty in 1979, with junior Jeff Walters starting the first six games. Freshmen signal-callers Dennis Pirkle and Chris Nesbit shared the duty during the last half of the season, and showed the coaches some impressive arms.

Rolla prep product Jimmie Lee led the team in rushing with a 57.4 yards-per-game average. He scored four touchdowns on the ground, and had one pass reception for a score. Paris was next in rushing with a 56.7 average, but paced the team in scoring with 7 rushing touchdowns and two in the air. He was the leading scorer in the NCAA Division II early in the season.

Paris scored four touchdowns in UMR's 37-0 romp over Evangel, and that performance set a new school single-game scoring record.

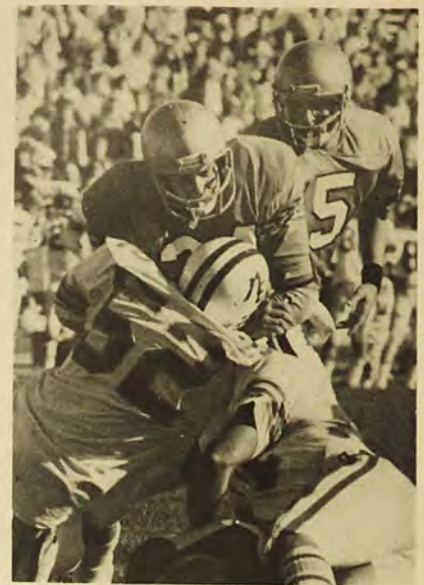

Rolla native Perry Harris led the team in receiving, grabbing 22 passes for 299 yards and one touchdown. Walter Johnson was right behind, with 17 receptions good for 209 yards and three scores.

Heath put the Miners in good field position many times with his exciting kickoff and punt returns. The junior was among the nation's leaders all year long, and ended the season with a 27.0 average on kickoffs, and an 8.6 mark on punt returns.

Although it was a season filled with heart-breaking plays, the Miners still came away with a sound record and a .500 mark in league play. Only seven of the players were seniors, so Finley, and assistants Bud Mercier, Joe Keeton and Chuck Broyles are looking for a strong crew to return for the next campaign.

Varsity Soccer's First Year

Soccer, UMR's newest varsity sport, was a big hit this year for both the team and the fans. The Miners finished 7-7 in their initial campaign, and some good crowds turned out to see the squad in action.

"We are happy about the way things turned out," first-year skipper Lon Pearson said. "There were some close games that could have swung to our advantage and didn't, but overall things went well."

UMR had some potent scoring punch in St. Louis natives Don Anselm and Pat Becker, and the Miners blasted their way past many MIAA foes. Southwest Missouri State had as much success against the Miners as anyone, winning two out of three games with the silver and gold opponents.

Pearson, who will not be coaching the team next year due to a sabbatical leave, is optimistic about the future of soccer in the area.

"I think once someone comes out and sees a ballgame, it kind of grows on them," he said. "Soccer is a very good spectator sport, with a great deal of action and excitement."

"I think UMR will have a successful team for some time, as we have a good location for talent. Many St. Louis players want to get the quality engineering education available here at UMR, and the players from that area are usually very talented."

Pearson added one statement with a smile, "We may have had a .500 record this year, but we were 4-0 at home."

SHORT SHOTS—Miner Sports

Water Polo Wins

Coach Bob Pease's UMR Water Polo Club won its third straight Mississippi Valley Conference Championship Nov. 3, besting Principia, Southeast Missouri State and SIU-Carbondale.

The team finished 12-4 on the season, and won three tournaments.

Darian Dickinson paced the team with 48 goals and 47 assists.

At one point of the season, the UMR team had an eight-game winning streak. Now many of the players will make the switch over to the UMR Swimming Team, and assist Pease in the 1979-80 season.

Cross Country Advances

The UMR Cross Country team sent one player to the NCAA Division II National Tournament, gained regional ranking for the first time in the school's history and made a happy coach out of UMR's Dewey Allgood.

"It was the best team I have ever had here," Allgood said. "We gained a fifth-place regional ranking early in the season and then sent Glenn Heeter to the nationals in California...it was a great year."

Heeter finished 127th out of 176 runners in the nationals, and ran his best-ever time in the big event. His 10,000 meter time was 32:43.

Allgood loses only three players from the squad, so look for more big things to come from the cross country team next season.

Billy Key, left, athletic director at the University of Missouri-Rolla welcomes Gene Green, new sports information specialist at UMR. Green is the first full-time sports writer for the Rolla campus, and supplies the material for the Alumnus sports sections.

Swimmers Sharpen Their Strokes

With some of the top swimmers in the conference returning, UMR Swimming Coach Bob Pease thinks the Miners may be very strong this season.

"We have a lot of talent back from last year, and the conference race will probably be between Southeast Missouri State and ourselves," Pease said.

The season will be climaxed by the MIAA Championships March 6-8 at Cape Girardeau, Mo., and with the NCAA Division II Championships March 20-22 at Youngstown, Ohio.

Wrestlers Grapple With Road Trips

Coach Joe Keeton and UMR Wrestling Miners get on the track of the 1979-80 season, as another campaign begins.

Keeton's crew has only one home match this season, so they must get used to doing well on the road. The team started practice in mid-November, and started competition Nov. 30 when they journeyed to Lamoni, Iowa for the Graceland Tournament.

1979-80 Miner Men's Basketball Team

Basketball Season Begins —Miners Field Two Teams

With football finished for another season, the focus at UMR turns to basketball.

Coach Billy Key will again lead the men's team, and will be helped by third-year assistant Jim Dinsdale. The Miners will be trying to improve last year's 9-15 mark, and have four returning starters back to lend a hand.

Derek Nesbitt, who paced the team in scoring and rebounding last year (16.8 ppg, 8.6 reb.), will man a forward post. Nesbitt will be counted on to carry a large part of the scoring burden, along with 6'1" senior guard Calvin Horhn.

Six-foot seven Jeff Kipp will play one of the other forward spots, and big things are forecast for this talented junior. Key feels that Kipp has the

talent to do a fine job for the UMR team and be a real MIAA force. Rick Fuerman, also a junior, will be counted on for rebounding strength, as he stands 6'6".

Other returning lettermen are 6'5" senior Jerry Watkins, 6'6" senior Gary Riechmann and 6'7" sophomore Dan Hilbrich. Hilbrich could have aided the Miners underneath, but illness may have him on the shelf for the entire season.

After hosting their own tournament and traveling to two others early in the season, the Miners start MIAA regular season action Jan. 14, when they play at Jefferson City against Lincoln University.

The UMR women's team will be coached by Annette Caruso, and the

mentor feels her team has the quickness to have a fine season.

Last year the Miners were 15-6, and lost only starting center Dallas Kirk through graduation. Her position will be filled by freshmen Barb Berry and Dolly Johnson.

Senior co-captain Karen Williamson will lead the team at guard, and the tenacious veteran is a good one. She will be helped by co-captain Karen Peacock, Carmen Baker, Tina Walker, Becky Ommen, Val Lewis and others.

"We will be quicker than last year's team and have more depth," Caruso said. "We need to be more aggressive going after the second offensive shot. If we do that, I see no reason why we shouldn't have a real good season."

Jerry Berry, '49

Jerry Berry Joins UMR Staff

Jerome T. (Jerry) Berry, '49, has formally joined the UMR staff as a part-time assistant in the athletic department. Jerry, who has served the Miner sports programs in a variety of unofficial positions for the past 30 years, accepted the official designation after he retired this fall from a 35-year career with the federal government.

In his new position, Jerry will work with Coach Billy Key, UMR athletic director, and Gene Green, UMR's first sports information specialist. He will continue to handle the statistical reports and will help Coach Key with public relations work and alumni relations. As an official member of the athletic department staff, he will receive some compensation at last for work that he has done for so many years for free.

Jerry has always been an active and supportive alumnus. In 1973, he was dubbed an Honorary Knight of the Order of St. Patrick, and he received the MSM-UMR Alumni Special Achievement Award in 1977.

Cape Girardeau Meeting

Vibrant colors, brisk weather and football games are a feature of autumn, and October 6 was a perfect example of what Missouri can be in the fall of the year.

The plane looked small and the pilot very young, some of us thought, but we flew safely to Cape Girardeau in time to meet a group of alumni and parents and their families at Howard Johnsons.

There we had lunch and much talk of past years in Rolla. The participants came from southeast Missouri, central and southern Illinois and, of course, Rolla.

A bus took us to the stadium where everyone soon knew we were present. It

could have been that the shouts, cheers and groans from our section helped the team to win, 9-7. Gale Bullman showed her "football knowledge" by calling for "fumbles" three times and Cape obliged twice—not a bad average, 66 and 2/3 percent

After the game, we went back to Howard Johnsons' to discuss the game and celebrate the victory.

The flight home was very calm and we had another small celebration to acknowledge the Chancellor's birthday—which he hoped we had forgotten.

The day was delightful and the spirit of MSM-UMR really lives in every alumni get-together.

Hub Section Outing

The most puzzling foul-up in postal service history and an inclement day did not prevent the Northeast Alumni from enjoying a cookout at the Chelmsford, Massachusetts, Elks Picnic Grounds on 29 September.

The afternoon was spent reminiscing, pitching horse shoes, throwing a frisbee and batting a softball around.

The cookout consisted of hamburgers, hot dogs and Iris Ruenheck's

tasty baked beans and potato salad, which were enjoyed by all. Beer, soft drinks and coffee were served during the afternoon.

John Enochs received a color picture of Joe Miner for being the senior alumni, as did Dave Grimm for traveling the furthest distance.

Those who were there this year are looking forward to the 1980 outing and hoping to see more of their friends in attendance.

Attendees included: Ray ('50) and Iris Ruenheck, Chelmsford, Mass.; Bill ('50) and Charlotte Hollis, Groveland, Mass.;

Darryl ('71) and Joy Peetz, Newington, Conn.; William ('71), Dorothy & Mike Bartley, New Britain, Conn.; Bill ('43) and Jeanne Flood, Acton, Mass.; Ed ('63) and Joan David, Mystic, Conn.;

UMR students talk with Dr. Thomas A. Flaim, '68, center, member of the General Motors Research Laboratories' metallurgy department and also a member of General Motors' key executive team for UMR, about the company's programs on campus, job prospects for the future and news about the automotive industry. The students are: left to right, Keith Townsend, junior in electrical engineering who worked for GM last summer; Susan Payne, senior in chemical engineering who is a GM Scholar; Mark Ewers, senior in engineering mechanics and also a GM summer employee; and Roger Arbuthnot Jr., junior in mechanical engineering who spent last summer working with the Chevrolet Division.

General Motors Comes to UMR

General Motors came to the University of Missouri-Rolla campus recently bringing gifts and good news.

Lloyd Reuss, Class of '57, director of engineering at GM's Chevrolet Division and key executive heading up the eight-man GM team for the Rolla campus, brought with him checks for \$13,323 for the support of 12 GM Scholarships and \$30,000 as the third installment of GM's five-year commitment to various UMR development programs.

In the good news department, Reuss told a group of UMR faculty and staff that the company is in the process of hiring a significant number of engineers. "Despite current interpretations by national media, General Motors is in sound condition," he said. "In the next five years, the company will introduce more new products than in any other five-year period in the company's history—the largest number scheduled to come out in 1982.

"The automotive industry is undergoing a period of change, and this is an exceptionally active period for engineering," he explained. "We are now implementing design for our new products and we need UMR engineering graduates."

UMR is one of 42 universities throughout the country which General Motors considers a major supplier of technically trained graduates.

Dick Bachelor, senior staff assistant—administrative services, product engineering, Buick Motor Division, is the lead contact to UMR for the GM key executive team. "Team members visit the UMR campus several times each year to keep in touch with various campus programs and help coordinate all GM activities," he said.

"GM has openings for 3,500 technical people this year," he said. "We would like to fill many of these positions with UMR students."

University of Missouri-Rolla civil engineering students, Harold Lasley Jr., Kansas City, and Robert Wille, Florissant, center, were honored recently as recipients of UMR Academy of Civil Engineers—Fruin Colnon Scholarships. From left are Frank Gerig, professor of civil engineering; Joseph Senne, chairman of the civil engineering department; Lasley; Wille; Joseph Marchello, UMR chancellor; and Vernon T. Loesing, assistant professor of civil engineering. Lasley and Wille, both seniors, are planning careers in the construction industry. The Fruin-Colnon scholarships are two of four recently awarded by construction firms and organizations to UMR students in that field.

Time to Think GREEN!

Here's an opportunity to buy your GREEN! Yes folks, it's that time again. A time of craziness and wildness that formed some of your best memories of dear old Rolla, Mo. Help renew those memories by purchasing your 1980 St. Pat's Green.

If you're staying at home this year, wear your 1980 Green to the local Irish pub, and show the patrons how St. Pat's ought to be celebrated. If you are coming down to Rolla, you will want to buy your Green so that you won't be the only person without a 1980 sweatshirt at the parade.

This year, the St. Pat's Board will be selling the usual sweatshirts, buttons and garters. In addition, there are baseball caps, stocking caps, flying discs and a really sharp-looking green-tinted glass mug.

Any questions or orders can be sent to the Alumni Sales Chairman at the following address:

St. Pat's Board
University Center
University of Missouri-Rolla
Rolla, MO 65401
Attn: Alumni Sales

So remember, whether you will be making the long trip back to Rolla or staying at home this St. Pat's, you won't want to miss the GREEN for 1980.
