Missouri School of Mines and Metallurgy, Rolla, Missouri.

Vol. 11, No. 5.

Monday, October 20, 1924.

Price, 8 Cents.

## OKLAHOMA A. AND M. 23, MINERS 0.

### CAST FOR CLARENCE CHOSEN.

At the tryouts held last Wednesday night, Oct. 8th, the following were chosen for the cast of "Clarence," Booth Tarkington's most recent play: Misses Billy Farris, Josephine Bowen, Dorothy Julian, Lorraine Love and Margaret McKee, Messrs. Tom Eagan, Stewart McKelvie, Fred Matlack, Creighton Hendrickson and Bill Schwickhardt.

It will be noticed that Messrs. McKelvie, Hendrickson and Schwickhardt and Misses Julian, McKee and Love are new entrants in the ranks of the Players, however their newness at the game will be more than compensated for by their exceptional abilities in the dramatic art.

Miss Farris and Miss Bowen are "old timers" with the Players, and the student body is looking forward with pleasure to the play in which they will see these two in action again.

The competition for parts in the play was very keen at the tryouts, and in view of the fact that the cast was picked from a great number of competitors, the patrons of the Players are assured of the best acting that can be produced in the school.

The proceeds of the play will be donated to the Booster Club. The cause is a good one, and the students are urged to attend this affair, both for their own pleasure, and indirectly for the good of this institution. This play will be presented at 8:15 p. m. Nov. 7th, and the admission price will be fifty cents. Everybody is cordially invited to attend, and it is hoped that the student body will turn out strongly.

### JUNIOR CLASS DANCE

The Junior Class will give a "kid's" dance in the Gym on Nov. 10th as a St. Pat's benefit.

By special permission of Bill O'Brien, children may wander the streets after the curfew on the night of the kid's party. Going to have all day suckers and everything. Educated kids please pass the word along to the kids who can't read.

Beg, borrow or steal a dollar and show up.

### MINERS BATTLE WASHINGTON UNIVERSITY.

Once a year every red-blooded Miner digs out the old B. R. and buys a round-trip ticket to St. Louis to see the annual fracas between the Miners and Washington University. This year's contest is scheduled, as everyone knows, on Saturday, October 25.

Barring any further injuries, the Miners refuse to consider themselves as the under-dogs in this year's game. The Miners give themselves at least an even chance to win. Washington U. has entered but one contest this season and that resulting in a 14-0 victory for Grinnell College. Between this contest and that with the Miners, Washington has been taking it easy, playing only their freshmen team.

The Miners on entering the game will have played three games and at least two of these games with strong appetizers for the Miners before meeting Washington U. It will undoubtedly be a fine battle and the Miners can be depended upon to fight sixty seconds of every minute.

### SPECIAL RATES FOR WASHINGTON U. GAME.

The Athletic Association has received special rates from the Frisco for everyone going to St. Louis to see the Washington U. game. The price will be four ducats and tickets may be used going to St. Louis on all trains Friday and Saturday morning until noon and returning Saturday night and including the last train Sunday night.

The tickets will be on sale Friday, October 24, at the Rolla Depot and can be purchased only on that day. Line forms on the right, don't crowd and don't push.

### PIPE AND BOWL PLEDGES.

Pipe and Bowl have pledged the following men: Jack Gage, T. Smith, Mike Jamison, Sam Hodgdon, Lucky Luckfield, Freeman and Gloeckler.

The Oklahoma Aggies proved too strong for the Miners, already handicapped by the loss of such capable backfield men as Lee, Thomas and Tucker. The Aggies scored a clear cut victory, but the Miners undoubtedly felt the absence of these three men.

In Perry, Mason, Walker and Piggs the Aggies showed a quartet of backfield material that was hard to stop. On one occasion Piggs received a kick-off on his own 5-yard line, and eluded the Miners' tacklers for a 50-yard run past midfield. He also pierced the Miners' line for a 20 and 30-yard dash before he was downed.

Perry was also versatile, gaining yardage by well-placed punts and line smashes. Walker and Mason also proved valuable ground gainers for the Aggies.

The Aggies' first score was due to an unfortunate fumble by the Miners on the initial kick-off. The Aggies recovered the fumble on the 2-yard line. The Miners held gamely for two downs, but Mason succeeded in pushing the pigskin over on the third down. The Aggies were forced to drop-kick for their next score when the Miners held them on the 28-yard mark. In the second quarter the Aggies reached the 3-yard line, but were halted there by the Miners' forward wall.

Toward the end of the second session the Miners smashed their way from their own 20-yard line marker to the Aggies' 34-yard line, but were halted by the half ending at this point. Line smashes by Fisher, McDuff and Hasselman, and a pass, Hasselman, to Ledford, aided materially in their 46-yard march.

The Aggies' next score came indirectly as a result of the Miners' tackling a man signalling for a fair catch. This resulted in a penalty bringing the ball to the Miners' 5-yard marker. The Miners staved off a touchdown for two downs, but Perry's line smash on the third down carried the oval over the last chalk line.

The last score of the game was made in the last stanza, when Perry circled the end for a touchdown. An end run for 14 yards by Piggs placed

the oval in position for the Aggies' final marked.

The playing of Lemon, Modaff and Hasselman were the redeeming features for the Miners. The Aggies appeared to be previously prepared for "Hass," and the result was that he was unable to display his usual brilliance. Lemon and Modaff succeeded in breaking thru the Aggies' line for considerable gains.

Captain Ledford at end, and Buck at tackle once more proved their worth by doing good work in the forward line. Ledford nabbed several passes, and played his usual steady defensive game, while Buck shone even in defeat by breaking up the Aggies attempted line smashes.

#### PLAY BY PLAY.

##### First Quarter.

Ledford won the toss, and chose to defend the west goal. The Aggies kicked off, and the Miners fumbled on their own 5-yard line. Aggies recovered the fumble on 2-yard line. Walker made 1 yard through the line. Walker took ball again, but failed to gain on an end run. Mason smashed through for a touchdown. Walker's try at the goal failed. Aggies 6, Miners 0.

McBride kicked off over the goal line. Aggies' ball on their own 20-yard line. Perry punted out of bounds at Aggies' 48-yard line. After two end runs and a line smash failed to gain the necessary yardage. McBride punted to Perry. Perry punted. Miners' ball on own 34-yard line. Lemon made 2 yards through the Aggies' line, but failed to gain on the next play. A forward pass failed, and McBride punted to Aggies on 30-yard line. Perry smashed thru line for 5 yards, Mason added 1 yard, and Piggs circled end for a 6-yard gain and first down. Mason made 2 yards, and Piggs broke thru the line for a 30-yard dash, bringing the ball to the Miners' 32-yard line. Piggs hit the line for 1 yard, Perry added 4 yards, and Walker 1 yard more. On the last down Walker dropped a field goal over the bar from the 30-yard mark. Aggies 9, Miners 0.

Perry brought McBride's kick-off to the 20-yard line, but Aggies received a 15-yard penalty, bringing ball to 5-yard line. Perry punted from behind his own goal, and Miners took the ball on Aggies' 45-yard line. Hasselman bucked the line for 2 yards, Lemon added another yard, and Fisher failed to gain.

##### Second Quarter.

McBride punted to Aggies' 10-yard line to Perry, who returned the ball 15 yards. Figgs went around end for

a 6-yard gain. Miners were penalized 15 yards, bringing the ball to Aggies' 46-yard line. Perry punted outside at Miners' 3-yard line. Two line smashes failed, and McBride punted. Aggies' ball on Miners' 37-yard line. Piggs smashed thru for six yards, and Mason repeated, adding 11 yards more. First down for Aggies on Miners' 20-yard line. Aggies penalized 15 yards. Walker pierced the line for 8 yards, and a pass, Perry to Walker, netted Aggies a 16-yard gain. Here the Miners held the Aggies, when Piggs and Walker made 2 yards apiece thru the line. Another line smash resulted in a 3-yard loss, and a pass over the goal failed. Miners' ball on 20-yard line.

Fisher hit the line for 7 yards, and Modaff broke thru for 11 yards additional. Fisher went around end for 3 yards, Modaff added 2 more, and Hasselman made 8 yards for first down. Modaff gained two yards, but Hasselman failed to gain thru the line. Aggies penalized 5 yards for offside. A pass, Hasselman to Ledford, netted the Miners an 8-yard gain. A pass and a line buck failed to gain, and the half ended with the ball on Aggies' 34-yard line.

##### Third Quarter.

McBride kicked off to Piggs, who returned the ball to the 18-yard line. Perry punted to Modaff. Miners' ball on own 31-yard line. Hasselman 1 yard, and Lemon 2 yards. Lemon circled the Aggies' end for 12 yards. Lemon 4 yards. Modaff failed to gain, and Miners received a 5-yard penalty for offside. Miners' pass intercepted by Aggies on 44-yard line. Piggs carried the ball to the 25-yard line on a line smash. Piggs failed to gain. Walker 1 yard. Two passes grounded. After Lemon made 3 yards thru line, Hasselman failed in two attempts to pierce the line. McBride punted to Perry on Aggies' 40-yard line, who sifted through to Miners' 48-yard line. Figgs pierced line but fumbled. Aggies recovered fumble on 30-yard line. Esslinger 1 yard. Walker went around end for 4 yards. Miners offside. Walker circled end for 7 yards, and hit line for 4 yards and first down. Piggs bucked line for a gain of 6 yards. Miners held Aggies for down on 1 yard line. McBride punted, and Aggies' back, who signaled a fair catch, was tackled by Miners, resulting in the penalty which brought the ball to the Miners' 5-yard line. Walker made 1 yard, but his second attempt failed.

**BEAT WASHINGTON!**

Wonder how a rhyme would seem  
Dedicated to the team!  
You, with forty tons of steam:  
Beat Washington!

Make 'em fight, don't let 'em stall;  
All they have is lots of gall;  
Treat 'em rough, but keep that ball.  
Beat Washington!

Take 'em for a little stroll,  
Push 'em backwards to the goal,  
Put 'em in an awful hole.  
Beat Washington!

They can't fool you—call their bluff,  
Show 'em that you've got the stuff.  
Make 'em yell, "Enough, enough!"  
Beat Washington!

Use that wicked forward pass,  
Roll the pikers in the grass,  
Knock 'em for a row of glass.  
Beat Washington!

Wash 'em with their dirty blood,  
Squash 'em in their slimy mud—  
This is not a game of stud.  
Beat Washington!

Hold 'em like you would a flapper  
All dolled up in evening wrapper;  
Hold each picayunish sapper.  
Beat Washington!

**TAU BETA PI AN-  
NOUNCES PLEDGES.**

The mass meeting last Friday was conducted by Tau Beta Pi. The following seniors were pledged: D. R. Baker, B. L. Browning, J. E. Couch, T. E. Eagan, J. N. Foster, G. D. Gaines, J. N. Harris, A. L. Heitmann, C. H. Linsley and P. K. Meng. E. H. Griswold was pledged as honor man of the junior class and Prof. C. E. Bardsley was pledged from the faculty.

Ned Kraft was announced winner of the slide rule offered by Tau Beta Pi to the member of last year's freshman class attaining the highest scholastic standing.

The Tau Beta Pi scholarship trophy awarded to the organization each semester having the highest average in scholarship was presented to the Grubstaker Club for the fourth time.

**AT THE MINER BOARD MEETING.****Too Late To Classify.**

Gentleman, 37, alone, works in overalls, would meet lady of like qualifications; matrimony. Box 1, T192, Denver Post.

**It Died Hard.**

"It's clear," remarked one Miner

to another, as they sat at dinner in a farmhouse not far from Rolla, "that the man who raised this spring chicken was very tender-hearted."

"How do you make that out?" asked the second.

"Because he hesitated so long before striking the fatal blow."

Kind Friend—"I did what I could, Tony, I told her you had more money

than sense."

The Victim—"And what did she say?"

K. F.—"She asked if you had any money."

The following men have pledged by the Satyrs: McGraw, Freeman, Fruit, Babb, Jamieson, T. Ackman, Kraft, Seydler, Walters, Joyce and McCauley.

**Handling Explosives Safely**

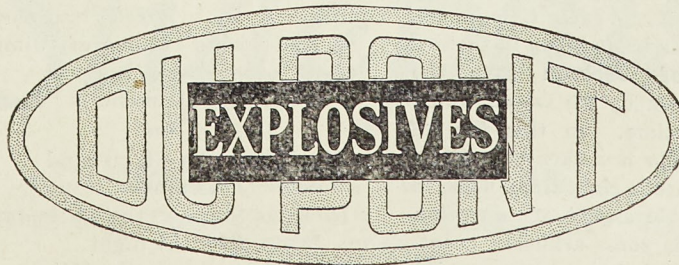

**E**XPLOSIVES are safe to handle when treated with due respect for their qualities. The laws and good blasting practice require that certain safeguards surround the handling, transportation and storage of explosives. And if these requirements are conscientiously observed, accidents will be avoided.

The careful handling of explosives and the use of superior blasting accessories for detonation or ignition are the two chief precautionary measures to be observed in blasting operations.

The regard for one's personal safety is the most potent factor in the elimination of careless handling of explosives. Safety in the use of explosives means only the application of reasonable knowledge of the product plus ordinary common sense.

The du Pont Company will be glad to send to college students the "Blasters' Handbook"—an authoritative work on the most practical and efficient blasting practices—mailed free on request.

**WHISTLE TIME! BUZZER TIME!  
BELL TIME! TRAIN TIME! AND  
A HELL OF A TIME!**

Just as Dr. Fulton must dig down into his files the first of the school year and get out the "Advice to Freshman" lecture, so must the Miner get out the "Buzzer Editorial" for the approval or disapproval of the readers.

Just as too many cooks spoil the soup so does too many time keepers spoil the peace and harmony of every one connected with the school. The situation is this, the clock in the library runs the buzzers, since one's watch regulates the whistle and some other watch is used to ring the bell. All of these time pieces keep the "right" but not the same time. When the subject was brought up in faculty meeting, Prof. Jackson says the whistle is blown by his watch which is the right time. In this far off locality of Rolla it makes very little difference what is right time. Time is the measurable aspect of duration measured from some arbitrary point. The selection of this arbitrary point makes little difference to us. What

we want is the same arbitrary point from which to measure, and the library clock will be much handier than Prof. Jackson's watch. If two more buzzers are added to the system, one located in the power plant and the other in the Rolla Building, we may not have right time, town time, or train time, but we will have the same time—and what more should we ask.

**KEEP OFF THE GRASS.**

Despite the numerous requests for students and professors to keep on the walk, some persist in treading the green. In fact some do it so much that they now believe that certain paths worn across the campus are recognized thoroughfares. This is especially true of the path from Parker Hall to the walk in front of the Metallurgy Building. However well recognized it may be, it is not a walk and does not beautify the campus. Therefore, the safest procedure is to keep to the walk in order to avoid the proverbial "wrinkle".

Our campus is well supplied with walks. They are so located that it is usually easier and quicker to use them. The path from the south door of Parker Hall to the Metallurgy Building is the only place where walking across the grass is a short cut. Therefore, it seems to us that the best way to remedy the situation and improve the campus at the same time is to build a walk where the path now is. In the meantime it might be well if everyone "Keeps off the Grass."

**THE POOR OLD EDITOR.**

The Editor, he sits around  
And wonders what to write;  
He's got to think up something good,  
But must not start a fight.  
The Editor, he wants the dope;  
He wants the news and stuff;  
'Most any little joke will do,  
Though it mustn't be too rough.

The Editor, he wants to know  
When folks go for a frolic;  
'Bout marriages or even dates)  
Or a cure for baby's colic;  
Promotions, transfers, and the like,  
And what's become of "Jimmie";  
And for anything original—  
Why, say, his name is "Cinamie"

The Editor, he sits around  
And wonders what to write,  
He looks for news the whole day long,  
Prays for it at night.  
Well, let's all help the Editor  
With the contribution stuff;

Let's deluge him with Miner news  
Until he cries E-n-o-u-g-h.  
—J. H. Hynes.

**LET'S HAVE SOME YELLS.**

The contest announced by the Dynamiters last week to obtain some new M. S. M. yells has been progressing very slowly, only a few yells having been deposited in the box placed at the H. & S. for that purpose. Because of this seeming lack of interest on the part of the students, the Dynamiters are extending the contest until Wednesday, to give the students an opportunity to wake up to the fact that this lack of interest is a very poor demonstration of the Miner spirit.

The Dynamiters have nothing personal to gain from this other than their desire for organized backing of all school athletics on the part of everyone.

Unless all the students really show an interest and contribute yells, the contest will be a failure, for neither can any good choice be made, nor any enthusiasm developed, with only a dozen yells to pick from. Remember, fellows, that not only are there the two prizes of three dollars, and two dollars to be won, but it is also an opportunity for you to show how well you are in accord with the Dynamiters' object and the true Miner Spirit of everybody's getting together and putting things across. Now for those YELLS!

**PLANS FOR NEW  
HOTEL IN ROLLA.**

Plans have been drawn for a new hotel which may be built in Rolla. According to the drawings the hotel will be a fifty-four room building. The general structure is L shaped embodying both beauty of design and economic principle. There has been nothing definite take place in regard to the construction of this building, but it is hoped that sufficient subscribers to the stock to be issued will be obtained to put the proposition through.

The city will be benefited both from the economic as well as decorative point of view.

**LAMBDA CHI ALPHA DANCE.**

The Lambda Chi Alpha Fraternity entertained their pledges Tuesday, Oct. 14 with a dance given in their honor. The dance was chaperoned by Lieut. and Mrs. Wanamaker, Mrs. M. E. Smith, Dr. and Mrs. Turner and Mr. and Mrs. G. E. Joslin.

## VOCATES.

James A. Lagon is employed temporarily at King's garage until he locates something in the oil fields.

Charles "Capital" Tooth is selling automobiles in Kansas City. We judge that they are Rickenbackers, since we knew him so well here in Rolla as a Rickenbacker fan.

Ed Smith is now employed as inspector with the City of Tulsa and has just recently moved into his new home in that city. Another old Miner is making good.

The many friends of William Epperson, '41, will be pleased to learn that he is opening up a new cigar and candy store here in Rolla. He will be located at the old Capps jewelry store and will carry a complete line of cigars, tobaccos and candies. In addition to the store, Epp is fitting up the rear room as a reading room, with tables, chairs, etc., making it a place for students and other customers to meet and enjoy themselves. The store will be ready for business on or before November 1.

## JUNIOR CLASS MEETING.

The first business meeting of the Junior Class under a new regime was held Wednesday night. Several steps were taken to insure the support of the class, and a motion was made to the effect that all men indifferent to the class activities would be dropped from the class roll, thus being ineligible to be knighted in their senior year.

Several ways of raising money for St. Pat's were discussed and adopted. It was decided that the class would raffle five shot guns, the raffle to begin in a few days. A novelty dance to be held in Jackling Gym was arranged for November 10th, and a turkey shoot lasting one week is to be held in the near future.

It is hoped by the class of '26 that the entire student body and also the twonspeople will cooperate with them in every way possible to make this St. Pat's one that will long be remembered in the hearts of all those who will pay homage this year to the Patron of Old Erin, and also the Engineers.

## THETA TAU HELD

## OPEN MEETING.

Theta Tau held the first of a series of open meetings last Wednesday night in the Metallurgy building. The program of these open meetings consists of talks given by members of Theta Tau on subjects with which they are familiar.

Leo Burnett, who spent the last two summers, and a year before coming to M. S. M. with the Iowa State Highway Commission, gave a lecture on highway construction.

D. R. Baker spoke on the mining methods employed at Morenci, Arizona. He was employed the last two summers by the Phelps-Dodge Corp., at Morenci and Bisbee.

Joe Hunt lectured on the manufacture of dynamite. He spent the

summer of '23 and a year and a half before coming to M. S. M. at La Motte, Mo., where he was employed by the E. I. DuPont Co.

Smokes were furnished, and after the program eats were brought forth. A large number of students took advantage of the invitation offered by Theta Tau. It is hoped that even more students will attend the future open meetings.

#### JUNIORS! JUNIORS!! JUNIORS!!!

To the thirty-seven Juniors who failed to attend the Junior Class meeting last Wednesday night: Greetings and potent words of advice. First, note well the following questions:

Do you realize that this is by far your biggest year in school?

Do you realize that in years to come you will be either proud or ashamed of your record as a Junior?

Do you realize that your class is small and that to make the year a success your help is needed?

Do you realize that everybody expects the Junior Class to put on a successful St. Pat's Celebration?

Do you realize that this means days and weeks of hard work?

Do you realize that a fund of several thousand dollars must be raised to pay expenses?

Do you realize that in order to keep the individual members of the class from "digging down" EVERY JUNIOR must do his share of the work?

Do you realize that owing to unavoidable circumstances the class is two months late in getting started?

If you had realized all this a week ago, undoubtedly you would have been at that class meeting. Now that you see things a little more clearly it is only necessary for you to ask some member of the executive committee (Seifert, Mills, Schooler and Murphy) for a job. You will be given the kind of work for which you are best fitted. Remember, it is dependability more than ability that is required.

And don't cut the next class meeting. You have no more right to stay away than any other Junior. Be

there!

#### CHINA CONTRIBUTES TO M. S. M.

Mr. Lih Yien Lee, of Chaotung, Yunnan province, China, is one of China's representatives at Missouri School of Mines and Metallurgy who is extremely interested in his work. Mr. Lee, who is now a senior, chose metallurgy as his profession and entered M. S. M. two years ago as a sophomore. His first year in college was spent at Ohio Northern.

Mr. Lee speaks English exceptionally well for one who did not know the language upon his arrival in America. In fact, his use of the language is much better than that of a great many Americans, including college freshmen and not a few upper classmen.

Tennis is a favorite outdoor sport of Mr. Lee. Several Chinese outdoor games of which we as Americans know little are also in Mr. Lee's sport curriculum. Mr. Lee was much amused at our suggestion that perhaps his favorite indoor sport was Mah Jong. He was of the opinion that Mah Jong is more American than Chinese. At least, more Americans fall for it.

Mr. Lee plans to return to China after graduation this spring. He will enter his chosen profession in the rich ore regions of south China where a number of M. S. M. graduates have already located.

#### A NEW GIRL CHEMIST.

Hugh Berry, '25, is wearing a brand spanking new, fatherly smile, due to the arrival of the stork last Monday at his home. Mrs. Mary Snail-Berry, the mother, a former student at M. S. M., and tiny little Helen are reported to be doing well.

#### Slick headwork

Getting the right tailor, trailing with the right crowd, keeping the "profs" properly complainant all come under this heading. But a tousled, untidy mane and dandruff on your "tuck" collar are always bad form.

Getting a bottle of "Vaseline" Hair Tonic and using it regularly keeps the scalp healthy and makes stiff hair look silky. It prevents dandruff and puts on the finishing touch of slick headwork. At all drug stores and student barber shops.

Every "Vaseline" product is recommended everywhere because of its absolute purity and effectiveness.

### WATCHMAKER & JEWELER

All Work Promptly Done

**SUCCESS.**

When you're down on your luck and  
things look blue,  
When your cares seem heavy and  
your friends untrue,  
Just stop and ponder with all your  
might,  
If you've ever learned to think just  
right.

Everything is a state of mind;  
The day's success or a business find  
Just show the tone of your mental  
pitch;  
'Tis the mind that makes the body  
rich.

Look up, not down. Look out, not in,  
Expect success and you're sure to  
win.  
It isn't the man with the weakling's  
doubt  
That's trusted to get the tangles out.

"What a man thinks" is the way he  
grows;  
The pessimist scoffs; Ah; he little  
knows  
His mind is a magnet and as it veers,  
Draws success he expects or failure  
he fears.

J. H. Hynes.

**HALLOWEEN DANCE.**

The Miner Board will entertain  
Friday night, October 31st, with a  
dance. The Gym will be decorated in  
true Halloween style. Ghostly sounds  
and weird wails to be furnished by  
the Varsity Orchestra. The usual ad-  
mission price will be charged, name-  
ly, one buck. Bring a girl and get  
prepared for a large evening.

**ATTENTION FRESHMEN.**

The Senior Council has been un-  
able to secure the green suspenders  
which were ordered for the Freshmen  
so the Frosh will be permitted to  
wear the suspenders of any color. The  
above mentioned harness may be pur-  
chased at any clothier and must re-  
place the belts not later than sun-  
down, Thursday October 23.

**MONDAY, TUESDAY AND  
WEDNESDAY**

YOUR CHOICE OF OUR

THE REGISTRAR, Rolla, Mo.

Continued from Page Two.

Perry broke thru line for a touch-down. Walker kicked goal. Aggies 16, Miners 0.

Figgs received McBride's kick-off on 5-yard line, and dodged thru to the Miners' 45-yard line, where Modaff stopped him. Walker hit line for 8 yards. Aggies penalized 15 yards. Ball on Aggies' 48-yard line. Perry punted over the goal line. Miners' ball on 20-yard line. Two line bucks failed.

**Fourth Quarter.**

Pass, Fisher to Hasselman, netted 12 yards. Lemon lost 3 yards on a fumble. Miners lost 7 yards more on a fake kick. Hasselman 2 yards. McBride punted. Aggies' ball on 46-yard line. Perry fumbled, and Fisher recovered on 47-yard line. Hasselman 5 yards. Fisher added another yard on an end run. Pass failed, and Hasselman lost 4 yards hitting the line. Aggies got the ball on downs. Figgs hit the line for 3 yards, and Mason made 7 yards for first down. Perry hit line for 12 yards and a first down on Miners' 27-yard line. Figgs circled the end for 14 yards. Lookabaugh smashed the line for 5 yards. Figgs failed to gain, but Mason made 5 yards and first down on 2-yard line. Perry swept around end for a touch-down. Figgs kicked goal. Aggies 23, Miners 0.

McBride kicked off, and Perry returned ball to the 20-yard line. Mason 1 yard. Miners offside. Perry went around end for an 8-yard gain. Mason made 3 yards on a line buck. Figgs circled end for 5 yards. Miners penalized 15 yards. Aggies' ball on 40-yard line. Mason pierced the line for 6 yards, and Perry added another yard. Aggies penalized 10 yards. Pass incomplete. Figgs punted. Miners' ball on 27-yard line. Fisher failed to gain, and a pass was incomplete. Miners offside. Another pass failed. McBride punted to Mason, who ran ball back to Miners' 46-yard line. Figgs hit line for 8 yards, and Perry added another. Mason bucked line for 4 yards, Figgs went around end for 4 yards, and Perry repeated, gaining 2 yards. Game ended with Aggies in possession of the ball on the Miners' 28-yard line.

**ALUMNI NEWS.**

Kirk H. deCousser, '22, was married to Miss Erma L. Happle at Alphine, Texas. Miss Happle is from Sanderson, Texas. Kirk is employed as a geologist by the Transcontinental Oil Co., at Ft. Stockton, Texas. Kirk will be remembered as H. & S.'s right hand man.

V. G. Joslin, B. S. '23, was married to Miss Viola Alexander, of Bourbon, Mo., September 30th, at the home of the bride's sister, Mrs. H. D. Crumpler of Rolla. After a brief honeymoon in Eastern parts, Mr. and Mrs. Joslin will reside in Rolla, where Mr. Joslin is a junior partner in the Rolla Creamery Co.

Clarence Woods, '04, is in a hospital in Chile recovering from injuries received in rescuing a man from drowning at Huanchaca, Bolivia.

Bob Alquist, B. S., '24, who was with the Westinghouse Electric Co., at Pittsburg, suffered a nervous breakdown this summer. He was sent to Wankesha, Wis., where he is now recovering.

H. C. Buser, B. S. '23, is now in the Engineering Department of the Western Coal Mining Co., at Bush, Ill.

Roland Lapee, B. S. '22, is with the Anaconda Cu. Co., at Great Falls, Montana, as chemist and assayer.

Walter Gammeter, B. S., '15, is an instructor in Cleveland High School St. Louis. His address is 3322 Wyoming.

"Wattie" Watkins, B. S. '23, is employed by the Pure Oil Co., headquarters at Tulsa, Okla.

"Hank" Zoller, B. S., '23, is employed by the Valerius Oil Co., Russell, Kans., with headquarters at Tulsa, Okla. Must be making progress, as he recently purchased a new Ford coupe.

Mrs. Harold L. Bailey and little son, "Billy", of Peoria, Illinois, are the guests of Mrs. Bailey's mother, Mrs. Carrie Spradling.
