MINERS 20, DRURY 13

GORMAN BODY ARRIVES FROM CHILE.

Funeral of Young Mining
Engineer Held Thursday.

The body of Eugene J. Gorman, young Davenport mining engineer, who was killed on September 12, at Rancagua, Chile, South America, when he was crushed against a wall by a locomotive, arrived in Davenport this morning at 5 o'clock, and was removed to the Stapleton mortuary.

The funeral will be held from the family home, 825 Pershing Avenue, Thursday morning, at Sacred Heart cathedral, of which he was a member, at 9 o'clock. The Very Rev. J. T. Flanagan will celebrate a requiem high mass. Burial will be made in St. Marguerite's cemetery. Members of Loras Council, K. of C., are requested to meet at the home this evening at 8 o'clock.

On Oct. 28, the body was taken from Valparaiso, Chile, on the steamer Santa Luisa, which docked in New York at 10 o'clock Monday morning of this week. From there it was shipped to Davenport, arriving here this morning. The body was contained in a metal casket, and covering, weighing 990 pounds.

Mr. Gorman, who was popularly known as "Bud" Gorman, would have been 23 years old yesterday. He was born in Davenport Nov. 17, 1902, and received his education in St. Ambrose college, from which he graduated. After completing his education here he attended the Missouri School of Mines at Rolla, Mo., completing the course and accepting a job with the Braden Mining company in Sewell, Chile, near Rancagua. He had been working there but a few months, when he figured in the accident which smothered out his young life and a promising career.

This afternoon the body was taken to the home of his father, Matthew Gorman, 825 Pershing avenue, who survives besides three brothers,

LITTLE ROCK COLLEGE OFFERS POST-SEASON CONTEST.

The M. S. M. Athletic Association received an offer from the Little Rock College of Arkansas, to state the terms on which they would consider a post-season game December 5, at Little Rock.

Little is known about the Arkansas team, except that their elevens are usually strong, and Coach McCollum is seriously considering the feasibility of making the trip to Arkansas to battle the Little Rock College eleven for a post-season game.

MINE RESCUE CLASSES HELD.

The Bureau of Mines, in order to carry out its national program of minimizing mine accidents, maintains eleven cars especially equipped for demonstrating mine rescue apparatus and first aid treatment. Each of these cars in charge of a Foreman Miner and First Aid Expert, visits periodically the mining localities within its zone, giving practical instruction to mine employes and students interested in mine operations.

For the past two weeks C. P. Dempsey and T. F. Brown, of car No. 10, have been in Rolla putting out first-hand information to Junior and Senior Miners. They have proved themselves capable instructors and good sportsmen and we would like to see them return with the car to Rolla next year. They left Rolla on No. 3, November 20, for Springfield.

MINING AND MET. SMOKER.

V. H. McNutt, '10, Consulting Petroleum Geologist of Tulsa, Okla., was the guest of the Mining and Met. Association at a smoker held in his honor Friday evening, Nov. 20. Mr. McNutt, whose reputation as a successful oil geologist is nationally known, gave a very interesting discussion on the general trend of the oil business in the United States. About twenty-five were present. Other good speakers will be here as guests of the Association. Don't fail to hear them.

S. E. CRAIG, Sec'y.

ALLEBACH NAILS PASS AND RACES 85 YARDS FOR TOUCH- DOWN.

In a wierd contest replete with sensational plays, and good, bad and indifferent football the golden jerseys added another victory to their string by downing a fighting Panther at Springfield last Saturday. When the Miners' line attack failed to function the McCollum clan refused to be daunted, and opened up an aerial attack that had the boys in red bewildered.

An 85-yard run for a touchdown by Allebach, after nabbing an aerial toss by Nolen from behind the Miners' goal, featured the contest, which fairly busied with spectacular dashes. After being held on the Drury 4-yard mark by a clawing Panther defense the Miners garnered another touchdown by a 20-yard pass, Nolen to Sharp, for the second score.

Early in the fourth quarter Lemon weaved his way thru the Drury defense for a 30-yard sprint, and Thomas followed with a 15-yard gain that paved the way for Ragland to plunge over for the winning six-pointer.

Mehrle, the Drury quarterback luminary, speared a Miner pass in the third quarter, and threaded his way thru the entire Miner team for 60 yards and a touchdown after a sensational dash. Dow followed with another touchdown after failing to dent off-tackle and circling the end to the Miner goal by a 35-yard sprint.

Mainly thru the ability of Allebach, Sharp and Ragland at spearing passes, the wearers of the gold scored eleven first downs to the Panther's six.

Because of a knee injury early in the first stanza Lee was prevented from performing with his usual brilliancy. Lemon's 30-yard run in the final quarter was an outstanding exhibition of brushing aside expectant tacklers, and Ragland uncovered a real ability at grabbing passes out of the air. Thomas failed to get off even one poor punt in his first try at the kicking position, but gave a very consistent performance, besides carrying the ball with dexterity. Nolen

Continued on Page Seven.

had the Panthers at a loss to fathom his mode of attack as quarterback, and his passes when behind his own goal caught the Drury defense napping.

Mehrhle's brilliant dashes kept the Drury team in the running, and time and again left a string of tacklers behind him when he set off for gaining yardage.

Captain McBride, G. C. Johnson, Sharp and Allebach performed well in the Miners' forward wall, and threw the Drury backfield for a number of losses.

PLAY BY PLAY.

First Quarter.

Drury won toss. Mehrle received McBride's kick-off on his 5-yard line, and ran to 47-yard line, being stopped by Thomas. Johnson threw Dow for 5-yard loss, and McBride threw Dow for 10-yard loss. Mehrle kicked to Thomas, who ran outside at Miners' 23-yard line. Lemon and Thomas made 6 yards on successive line bucks. Lee made first down on 34-yard line, but was thrown for 8-yard loss on attempted pass. Pass, Thomas to Sharp, netted Miners 30 yards to Drury's 43-yard line. Thomas' 10-yard gain recalled, and Miners received 15-yard penalty. Lee hit line for yards. Mehrle intercepted pass and ran 20 yards to Miners' 43-yard line.

McBride threw Dow for 7-yard loss. Pass, Mehrle to De la Carte, gained 18 yards. Dow hit line for 4 yards. Neitzert failed to gain. Pass failed, and Mehrle's drop kick was wide of mark, Miners taking ball on 20-yard line. Lemon's two line bucks failed to gain, and pass to Allebach was grounded. Thomas punted to midfield. Neitzert no gain. Bowman made 2 yards, but Mehrle lost 3 yards on fake kick. Mehrle kicked to Miners' 24-yard line. Miners fumbled and recovered, and Lemon was thrown for 5-yard loss. Ragland for Lee. Thomas kicked out of bounds on 50-yard line. Bowman and Neitzert failed to gain. Bowman hit line for 4 yards. Thomas caught Mehrle's punt on Miners' 9-yard line. Thomas lost 2 yards. Pass by Nolen failed, and Thomas kicked from behind goal to Miners' 28-yard line as quarter ended.

Second Quarter.

Two Drury line bucks failed, and Johnson threw Mehrle for 11-yard loss. Mehrle's spiral returned 5 yards by Thomas to Miners' 9-yard line. Miners fumbled and recovered for no gain. Nolen, from behind goal line, tossed pass to Allebach on 20-yard line, and Allebach sprinted down the gridiron 80 yards for a touchdown, aided by fine interference. McBride's placement perfect. Miners 7, Drury 0.

Young for Hodgdon. McBride kicked to Neil, who was downed on own 27-yard line. Neil made 1 yard, but Mehrle failed to gain on end run. Thomas returned Mehrle's punt to Miners' 43-yard mark. Pass by Nolen failed. Pass, Nolen to Allebach, was good for a 30-yard gain, placing

oval on Drury's 30-yard line. Thomas skirted end for 9 yards, and Nolen hit line for first down on Drury's 18-yard line. Thomas made 15 yards, but rumbled, and Drury recovered 4 yards from their goal.

Mehrhle failed to gain, and Thomas returned his punt 10 yards to Drury's 33-yard line. Nolen lost a yard on line buck, but passed to Ragland for 9-yard gain. Lemon plunged thru for first down on the 19-yard line. Thomas shot off-tackle for 8-yard gain. Miners offside. Thomas made first down on Drury's 9-yard mark. Ragland failed to gain. Nolen made 5 yards thru line, but Thomas and Lemon were stopped for no gain, and Drury received ball on downs 4 yards from goal line. Nolen signaled fair catch of Mehrle's punt on Drury's 20-yard line. Two passes failed, but the third attempt, Nolen to Sharp gave Miners 20 yards and touchdown. McBride chalked up extra point on placement. Miners 14, Drury 0.

Couch for Allebach. Gammeter for Sharp. Drury took ball on 20-yard line, when McBride's kick-off went over goal line. Fogarty broke thru for 10 yards, but Bolen stopped Mehrle for 3 yards loss as half ended.

Third Quarter.

Allebach for Couch. Sharp for Gammeter. Mehrle returned McBride's kick-off 20 yards to own 25-yard line. Dow and Bowman made first down on 36-yard line. Dow made 4 yards, but Mehrle failed to gain on two line smashes. Thomas returned Mehrle's punt 20 yards to Miners' 36-yard line. Miners realized 5 yards, backfield in motion. Pass, Nolen to Ragland, netted 6-yard gain. Lemon and Nolen failed to gain. Thomas punted to Drury's 30-yard

line. Drury fumbled for 2-yard loss. Mehrle made 6 yards on fake punt. Bowman no gain. Thomas ran back Mehrle's punt to Miners' 31-yard line. Lemon smashed off-tackle for 13 yards. Thomas lost 1 yard. Mehrle intercepted Nolen's toss, and threaded his way thru Miner team for touchdown after a 60-yard sprint. Mehrle drop-kicked extra point. Miners 14, Drury 7.

McBride kicked off over goal line. Drury's ball on 20-yard line. Fogarty gained 1 yard, and lost 3 on next attempt. Drury penalized 15 yards to own 5-yard line. Mehrle no gain. Thomas received Mehrle's spiral on Drury's 34-yard line.

Thomas and Nolen smashed for first down on Drury's 19-yard line. Thomas no gain. Pass, Nolen to Allebach, gained 5 yards. Nolen thrown for 10-yard loss on pass attempt. Miners penalized 5 yards for stalling. Nolen's pass grounded, and Drury took oval on downs on own 30-yard line. Mehrle failed to gain as quarter ended.

Fourth Quarter.

Dow fumbled, and lost 1 yard. Drury penalized 5 yards for stalling. Pass by Mehrle failed. Thomas received Mehrle's punt on Miners' 44-yard line. Lemon smashed thru defense for 33-yard gain to Drury's 22-yard line. Thomas pierced line for 15 yards to Drury's 7-yard line. Nolen plunged thru for 6 yards. Ragland smashed over for touchdown. Drury blocked McBride's placement. Miners 20, Drury 7.

McBride's kick-off returned 23 yards by Mehrle to Drury's 33-yard line. Bowman pierced the line for first down on two line smashes. Pass failed, but second attempt. Mehrle to De la Porte, gained 5 yards. Pass blocked. McCauley for Nolen. Mehrle's punt returned to Miners' 20-yard line by Thomas. Miners penalized 5 yards for stalling. Ragland 2 yards. Thomas fumbled and lost 12 yards, and pass attempt was grounded. Mehrle ran back Thomas' punt to Miners' 34-yard line. Dow hit line, was thrown back, and circled left end for 34-yard sprint over Miner goal. Mehrle failed to make extra point. Miners 20, Drury 13.

Lee for McCauley. Lee returned Mehrle's kick-off 20 yards to Miners' 36-yard line. Thomas 1 yard. Lee's pass nabbed by Allebach for 11-yard gain. Pass, Lee to Ragland, 4 yards. Bowman intercepted Lee's pass on Drury's 45-yard line. Pass failed, but Mehrle smashed thru line for 5 yards. Dow made first down on Miners' 44-yard line. Second pass, Mehrle to De la Porte, gained 4 yards. Mehrle passed to Buchler for first down on 34-yard line. Miners offside. Sharp recovered Drury's fumble on Miners' 38-yard line. Drury penalized 15 yards for coaching from side line. Lee lost ten yards on attempted pass. Couch for Allebach. Lee smashed line for 5 yards. Miners 20, Drury 13.

WHAT'S YOUR PERCENT?

As an experimental measure, the roll was taken at the Junior Class meeting, Thursday night, November 19. Final results showed that at least fifty per cent of the brethren were lost, strayed, or lacking in enthusiasm.

Now these meetings are not held as exclusive pow-wows for the class officers and committeemen, but to encourage close association between all members of the Junior Class, to knit ourselves into one live-wire organization, acting as a single unit, whose paramount objective is the staging of the greatest St. Pats in M. S. M. history.

It might be added in passing that henceforth the roll will be called at all Junior Class meetings. There are several positions of honor connected with St. Pat's to be filled, and—well, men showing the most interest are usually chosen.

TEAM GETS SEND OFF.

Instead of having the mass meeting at the usual hour Friday, it was postponed and held at the "Grand Central Station" at twelve-thirty in order to give the football men a rousing send-off on their departure for Springfield to whip hell out of Drury.

A goodly representation turned out and, under the leadership of Harry Birchard, did some real cheering. There was pep in the cheer and the team must have felt it. It was the kind of a meeting to make the boys go out and fight.

DAVE WALSH SPEAKS
TO IRA REMSEN SOCIETY.

The Ira Remsen society met last Monday night and heard an unusually interesting lecture by Prof. Dave Walsh on his experience while studying in France the past year. His lecture consisted of an excellent discussion of the facilities and methods of technical instruction in European schools and an account of numerous of his personal experiences while abroad. After the lecture came the eats and a general discussion concluded the meeting.

DISCUSSES FAMILY
IN THE SOCIAL ORDER.

Professor S. P. Bradley, at the Thursday general lecture, presented an interesting discussion on the relation of the family to the social order.

Contrasts in the development of the family in various parts of the world and under different social conditions were pointed out. In some of the ancient families, the male was the absolute head with all the power of an autocratic ruler. In others, similar to conditions existing today, there was more freedom from restraint. Marriage was a later development in raising the family to a higher plane and marked the beginning of the present social order.

The family is the great social force; it works for the promotion of social welfare, or for the destruction of social welfare, according to the condition within the family. It is in the family that the child learns all the fundamentals of society, and the family training determines the status the child will assume in society.

Three vocational Highway Engineering students, Hazelwood, Howes, and Kilmer, were on the sick list last week.

FACULTY TALKS.

After due consideration we have decided to publish this week, as the next article in our series of "Faculty Talks," a continuation of the first "talk" by Judge J. B. Scott, former member of M. S. M. faculty. Judge Scott has the floor:

Consider this a continuation of my previous talk on Productive Thinking. The lack of efficiency in the business of the student, productive thinking, is due largely to the methodology of the teacher's presentation of the subject matter of the course of study and the student's failure to do independent thinking, that is, productive thinking, as a co-laborer with the teacher. Remember that I am speaking in the abstract and not in the concrete, that is, I am not speaking of the teachers and students of the Missouri School of Mines, but of schools in general.

In my previous talk I referred to the fact that most of us as teachers and students in our teaching of facts (principles to be included and emphasized) and our efforts to acquire facts spend 90 per cent on memory-cramming, to 10 per cent on matters of reason.

The method of teaching known as the pouring-in process, called among educators the centripetal method, has always characterized all teaching from the primary school to the college, inclusive of both. I know of no explanation of this except the fact that it is like pouring molasses into a jug. The teacher is the pourer and the pupil or student is the passive recipient. This is the job for a mental-

ly lazy student and an equally indolent teacher. You are insulted, are you, and say that I am discussing a matter that belongs to mediaeval history? Well, the mental, moral, and physical hookworm is with us to stay. I concede, however, that the methodology of teaching and learning is rapidly developing into a science, and that the centripetal method of teaching, unaccompanied by the centrifugal, is only in spots in our present-day schools. It behooves every teacher and student to see to it that he or she does not, to any dangerous extent, form a part of the spots to which I have referred.

MINERS CLASH WITH BEARS.

Thanksgiving will see the Miner eleven journey to Springfield to invade the stronghold of the Springfield Bears in the final game of the 1925 season. This fracas will be the Bears' homecoming game, and is billed as the feature game thruout Southwest Missouri for 1925.

Coach Walker's eleven has an impressive record, with only one defeat and two ties out of seven scraps this year. Warrensburg defeated the Bears by a lone touchdown, which was the only one chalked against the Springfield College this season.

The Miners are out to revenge a 13-10 defeat last year by a team generally considered weaker than the Miner 1925 gridiron warriors. If the Miners can turn in a victory they will have polished off the season with success, and the Bruins are in for a tough Turkey Day battle, according to the present outlook.

This will also be the final appearance of Captain McBride in a Miner uniform.

V. H. McNUTT SPEAKS.

The petroleum geology class, Friday morning, heard Mr. McNutt, graduate of M. S. M., and now a successful consulting petroleum geologist, tell of the application of geologic principals in the discovery of a new oil field in Western Kansas. Mr. McNutt's talk was timely and informative, coming from a man of wide practical experience.

DO YOU KNOW?

"HOW TO STUDY"

The Students' Hand-Book of Practical Hints on the Technique of Effective Study

by

WILLIAM ALLAN BROOKS

A GUIDE containing hundreds of practical hints and short cuts in the economy of learning, to assist students in securing **MAXIMUM SCHOLASTIC RESULTS** at a minimum cost of time, energy, and fatigue.

ESPECIALLY RECOMMENDED for overworked students and athletes engaged in extra curriculum activities and for average and honor students who are working for high scholastic achievement.

SOME OF THE TOPICS COVERED

Scientific Shortcuts in Effective Study

Preparing for Examinations.

Writing Good Examinations.

Brain and Digestion in Relation to Study.

How to Take Lecture and Reading Notes.

Advantages and Disadvantages of Cramming.

The Athlete and His Studies.

Diet During Athletic Training.

How to Study Modern Languages

How to Study Science, Literature, etc.

Why Go to College?

After College, What?

Developing Concentration and Efficiency.

etc., etc., etc., etc., etc., etc., etc.

WHY YOU NEED THIS GUIDE

"It is safe to say that failure to guide and direct study is the weak point in the whole educational machine. Prof. G. M. Whipple, U. of Michigan.

"The successful men in college do not seem to be very happy. Most of them, especially the athletes are overworked." Prof. H. S. Canby, Yale.

"Misdirected labor, though honest and well intentioned may lead to naught. Among the most important things for the student to learn is how to study. Without knowledge of this his labor may be largely in vain." Prof. G. F. Swain, M. I. T.

"To students who have never learnt "How to Study," work is very often a chastisement, a flagellation, and an insuperable obstacle to contentment." Prof. A. Inglis, Harvard.

"HOW TO STUDY" will show you how to avoid all misdirected effort. Get a good start and make this year a highly successful one by sending for this hand-book and guide Now.

"FEENEY" LA CLASS DE '41.

An even thirty of U. S. Veterans Bureau trainees are now enrolled at M. S. M. This includes twenty-two non-collegiate men taking the course in Highway Engineering and eight men pursuing work in the regular collegiate curricula. Three of these eight will graduate this semester and five next June. Of the Class of '41, a few will finish in April, the remainder of the class completing their course in June.

June, 1926, will see the completion of all vocational training under the supervision of the Veterans Bureau, Congress having decided thus to cooperate with the President in curtailing Government expenses. Many disabled veterans who have not completed their courses will endeavor

to finish school at their own expense. Others who are now in hospitals, or who have spent considerable of their training time in hospitals, will be unable to finish their studies and will suffer the most because of the present governmental policy of economy.

There will be no Vocates in Rolla next fall. In fact, there will be no Vocates anywhere in the United States after next June. Only a Vocate can realize what the battle has been: The "Battle of Paree" can not compare with the "Battle of Monthly Reports."

VISITORS TO THE BUREAU OF MINES STATION.

On Thursday and Friday of last week the following officials of the U. S. Bureau of Mines visited the Mississippi Valley Station here at Rolla:

Dr. D. A. Lyon, Acting Director; Mr. O. C. Ralston, Ass't. Chief Metallurgist, Mr. G. A. Bole, Supervising Ceramist, and Mr. E. C. Sims, Supervising Electrometallurgist.

Messrs. Lyon and Ralston consulted with members of the Faculty and the station staff relative to the work of the station. Mr. Bole discussed the refractories investigation with staff, who have been working on this problem. Mr. Sims is interested in the electrothermic metallurgy of zinc, and will later return to be present during the furnace runs.

THETA TAU INITIATES.
