INTERSCHOLASTIC MEET

A SUCCESS.

Approximately 700 people attended the Fourth Annual Interscholastic meet at Jackling field, with 125 athletes from 14 surrounding towns competing.

Led by Panhorst, who scored 4 firsts to give him the individual honor cup; St. Clair won by scoring 24 1-3 points. Steelville was second with 23 2-3, Pacific third with 23 points, and Rolla fourth with 19. The final standing of the meet depended upon the half-mile relay. A first for Steelville would have won for them, but they placed second, losing out by 2-3 of a point.

Three records were broken, the time in the 220-yard dash, the 120-yard high hurdles and the 220-yard low hurdles.

Summary:

100-yd dash—Dulany (Steelville) 1st; Terrell (Rolla) 2nd; Whitlock and Everett (Pacific) 3rd; time 10:6.

120-yd high hurdles—Panhorst (St. Clair) 1st; Shoop (Steelville) 2nd; Strobach (St. James) 3rd; time 16:6. New record.

Shot put—Price (Pacific) 1st; Terrell (Rolla) 2nd; McIntosh (Sullivan) 3rd; distance 42 ft. 9 in.

440-yd dash—Carpenter (St. James) 1st; Terrell (Rolla) 2nd; Phillips (University High) 3rd; time 55:0.

Pole vault: Everett (Pacific) 1st; Bushey (St. Clair) 2nd; Shoop (Steelville), LaDassar (Sullivan) and Romines (Houston) tied for 3rd. Height 10 ft. 7 in.

220-yard dash—Delany (Steelville) 1st; Whitlock (Pacific) 2nd; Everett (Pacific) 3rd; time 24 flat. New record.

880 yd run—Gravatt (Steelville) 1st; Blankenship (Houston) 2nd; Fort (Rolla) 3rd; time 2:17.4.

Discuss throw—Terrell (Rolla) 1st; Volkman (Sullivan) 2nd; McIntosh (Sullivan) 3rd; distance 107 ft. 2 3-4 in.

220 low hurdles—Panhorst (St. Clair) 1st; Fletcher (Pacific) 2nd; Coghill (Rolla) 3rd; time 27.5. New

COMMENCEMENT MAY 24.

The School of Mines and Metallurgy will grant seventy-six degrees at its commencement on May 24. Included in these are three professional engineers degrees and the degrees of Doctor of Engineering (honoris causa) to be conferred upon John A. Garcia of Chicago, of the class of 1900 at the School of Mines. Two of the class have already signed contracts for foreign service, one in Mexico and the other in Chile. Others are negotiating with foreign companies.

On Sunday, May 20, the Rt. Rev. Irving P. Johnson of Denver, Bishop of Colorado, will preach the Baccalaureate sermon. On the afternoon of May 23, will be the Director's reception to students, faculty and visitors, held at the Director's residence. In the evening, at Jackling Gymnasium, will be the commencement ball. The commencement address will be delivered by Dr. Daniel W. Moorehouse, President of Drake University, Des Moines, Iowa, his day subject being "Science, What of the Day."

Those who are candidates for degrees follow:

Mine Engineering.

Karl Anson Allebach, Springfield, Mo.

Charles Wilson Ambler, Jr., St. Louis, Mo.

Arthur Powell Berry, Washington, Ind.

Philip John Boyer, St. Louis, Mo.

Robert William Couch, Hannibal, Mo.

James Gerald Donaldson, East St. Louis, Ill.

Myron Norman Dunlap, Monett, Mo.

Harold Kline Ewing, Macon, Mo.

Henry Emmett Gross, Webster Groves, Mo.

John Paul Harmon, St. Louis, Mo.

Charles Frederick Herbert, Vincennes, Ind.

Howard Histed, Kansas City, Mo.
Nicholas Luke Kozlinsky, Vladivostok, Siberia.

Mark Breckenridge Layne, Hig-

MINERS WIN SECOND

IN TRIANGULAR MEET.

It was a fighting Miner track team that got up out of the sick bed and made Westminster put forth their best to beat us. Just before the Arkansas U. meet the 'flu' epidemic began to take its toll among the track men and several of the point winners had just one days practice between a week of sickness and the triangular meet. Those who claim there is no school spirit at M. S. M. had better remain silent forever more; there can be no finer example of school spirit than that shown by the track men last Wednesday.

The Miners took five first and scored in every event to run up a total of 43 points against Westminster's total of 70 and Central Wesleyan's 29. Westminster had an exceptionally fine track team, the track was fairly fast, and the meet more closely contested than the score shows. Central Wesleyan was especially strong in the distance races, taking first in the half-mile, the mile, and the two mile.

Captain Johnson of the Miners led his team in the scoring by taking two first, one second and one third for a total of 14 points. "Johnny" tossed the discuss 134 ft. 6 in. to take first place and incidentally this mark is a foot farther than the conference record mark. He obtained his second first place when he threw the javelin 165 ft. 2 in. to beat Howell of Westminster. In the shot put "Johnny" took a second place; in the broad jump, third place with a leap of 20 ft. 6 in.; and he sighed for more worlds to conquer but "Spike" wouldn't enter him in anything else.

Tamm also proved to be a versatile man, taking second place in both the high and low hurdles, a third place in the 100 yard dash, and a tie for second in the high jump. Tamm added 9 points to the total. Dave Moulder had little difficulty in winning first in the pole vault and was good for a much greater height than he was forced to go. Phil Mudgett cleared the bar at 6 feet with a beautiful jump to win first place. The mile

Continued on Page Eight.

Continued on Page Three.

relay team gave an excellent display of team work and broke the tape ahead of Westminster, averaging 54.9 seconds per man per quarter mile. The team was composed of Harkes, King, Osterwald, and Clark and each man had run in a race before the relay.

Green took third in the mile and an untimely box formation ahead of him on the home stretch was probably all that kept him from winning his letter. The team was determined to score in every event and they were successful. Lentz took third in the 880, Clark third in the 440, Harlan third in the 220, and Jones a third in the two mile. Schultz, a two miler, was unable to make the trip because of sickness.

Sheets of Westminster, was high point man of the meet, scoring 15 points with a first in the 100, the 220, and the 440. The feature of the meet was the half mile relay, which was won by Westminster's team which made a strong bid for the same race in the Kansas Relays last Saturday. The team clipped off the half mile in 1 min. 34 sec. without being pushed in the least. The Miners didn't enter the half mile relay.

The summaries:

100-yd dash—Sheets (W) 1st; Kruger (W) 2nd; Tamm (M) 3rd; time 10 flat.

One mile run—Crain (C. W.) 1st; Crain (C. W.) 2nd; Green (M) 3rd; time 4:50.

440-yd dash—Sheets (W) 1st; Daly (W) 2nd; Clark (M) 3rd; time 51.4 sec.

120-yd high hurdles—Talbot (W) 1st; Tamm (M) 2nd; Hoffman (C. W.) 3rd; time 15.9 sec.

880-yd dash—Schuette (C. W.) 1st; Bosman (W) 2nd; Lentz (M) 3rd; time 2:06.9

220-yd dash—Sheets (W) 1st; Kruger (W) 2nd; Harlan (M) 3rd; time 22.6 sec.

2 mile run—Crain (C. W.) 1st; McKnelly (W) 2nd; Jones (M) 3rd; time 10:34.5.

220-yd hurdles—Talbot (W) 1st; Tamm (M) 2nd; Winters (C. W.) 3rd; time 26.5 sec.

Pole vault—Moulder (M) 1st; Bollman (C. W.) and Strode (W) tied for 2nd; height 10 ft. 9 in.

Shot put—McNoly (W) 1st; Johnson (M) 2nd; Boyd (W) 3rd; distance 43 ft. 3 in.

High jump—Mudgett (M) 1st; Tamm (M) and Broulett (W) tied

for 2nd; height 6 ft.

Discuss—Johnson (M) 1st; McNoly (W) 2nd; Beare (W) 3rd; distance 134 ft. 6 in.

Broad jump—Daly (W) 1st; Cabanne (C. W.) 2nd; Johnson (M) 3rd; distance 21 ft. 0 3/4 in.

Javelin—Johnson (M) 1st; Howell (W) 2nd; Parks (W) 3rd; distance 165 ft. 2 in.

Mile relay—Miners 1st; Westminster 2nd; time 3:43.7.

One half mile relay—Westminster 1st; time 1 min. 34 sec.

TAILINGS.

The dream of the fairer sex of Rolla has at last come true, they have seen Red Grange in person. We wonder if the thrill was as great as expected.

The blessing of being famous is that you can sit behind a glass wall and no one will throw stones.

Rumors have it that two of our professors will leave immediately after school closes for Birch Tree, Mo., to assist a young lady in hunting 'thirty pony loads' of gold and silver buried there by Captain Kid himself.

We thought nothing of Prof. Dean breaking blackboards, or hurling erasers at cringing students, but it seems only right that the geology department should reimburse the C. E. department for damages caused when one of their pets became unruly and dashed against the floor with such force as to shake the plaster loose from the ceiling of the C. E. office room.

Last Words of the Great

"I don't believe I'd better hear the sixth verse, boys."

The pen is mightier than the sword. Therefore two pens would be mightier than two swords. Hence we come to the conclusion that the "Dual a Plume" in progress at present is going to be good.

The seniors got away with their annual "Bust" last week, but were defeated in their purpose,—it got away with some of them.

If scholastic standing was determined by phenological reasoning, some of our students might have a scarcity of grade points at graduation.

Skip Young is the most recent recruit of the C. E. department. He was rescued from a state fossiliza-

tion, just before he started the weary journey across the T-H-I-R-T-Y-F-O-U-R miles of overthrust.

INTRAMURAL BASEBALL.

Rain he'd up the Intramural Base- ball games the first part of the week, but the schedule was brought up to date by playing three games on Sun- day.

The Triangle-Bonanza game was the first game on this week's sched- ular. The game went three and one- half innings, and then the Triangles decided to forfeit. The score was 10-0 up to this inning. Bremmer and Eaton, both Bonanzas, hit for a cir- cuit clout each.

The Prospector-K. A. game went off in fast fashion with the Pros- pectors emerging with the long end of a 10-0 score.

The Lambda Chi-Triangle game was another one of those race track affairs. 17 Lambda Chi batters pounded the old horsehide for a total of 14 runs the first inning. After the smoke cleared away the Lambda Chi team had 29 runs and the Triangle team had 5 tallies. Three Lambda Chi batters, Fields, Mc- Clusky and Foreman, hit home runs.

The Pi K. A.-Sigma Nu game was the last game of the week. The Pi K. A. batters had little trouble in finding Schofield, the Sigma Nu pitcher. The game would have been an easy shut out victory for Maune had it not been that Berry and Mc- Fann pitched the last inning for the Pi K. A. nine and allowed 3 runs. The final score was Pi K. A. 21; Sigma Nu 3.

Clubs	Won	Lost	Percent
Bonanza's	4	0	1000
Pi Kappa Alpha	4	0	1000
Mercier's	3	0	1000
Independents	3	1	750
Prospector's	2	2	500
Kappa Sigma	1	1	500
Lambda Chi	1	4	200
Sigma Nu	0	3	0000
Triangle's	0	5	0000

AMERICAN CHEMICAL SOCIETY CONVENTION

The 75th annual convention of the American Chemical Society was held in St. Louis, April 16 to 19 and was attended by the following men from our chemistry department: Dr. H. L. Dunlap, Dr. C. J. Monroe, Dr. W. T. Schrenk, H. H. Kaveler and R. W. Duff. Over three hundred papers on various specialized lines of chemical work were presented, and among the speakers were Prof. W. J. Parr and Dr. W. J. Mayo. Quite a sensation was caused by the demonstration of the use of potassium salts, particu- larly KClO₃, in extinguishing oil fires.

A STATE OF AFFAIRS.

The St. Pats celebration was a success—that's history. The St. Pats celebration isn't paid for yet—that borders on tragedy. If the Junior Class could collect what is owed to them they could pay every cent they owe, but a sense of obligation and responsibility is decidedly lacking among about 33 1-3 per cent of the Junior Class. There is a considerable sum outstanding in ticket money, raffle tickets, Glee Club Concert tickets, play tickets, and Masque Ball tickets. The tickets have been sold, paid for and used, but the Junior has pocketed the money and left the Junior Class "holding the sack". These tickets were Junior Class property and anyone holding out ticket money is stealing it from the Junior Class. That is hard language but looking at it from every angle, it remains the same.

We hate to keep harping on the question of Junior Class dues, but there is something radically wrong when a man won't turn in the money he has collected. There must be a reckoning right away because the

class can't pay the bills without the money.

AN URGENT PLEA.

Those of you who have watched our track team the last few weeks might well be proud of the fellows who are putting forth every effort to make M. S. M. a winner. A very attractive series of meets is still ahead and "Spike" Dennie is working hard to put the "chamois pushers" into the pink of condition.

Yet despite the fact that the team is doing its share for the school, the Athletic Association has apparently fallen down on the job. Ever since St. Pats, there has been a crying need for men to give rub-downs and take complete charge of the field equipment. Surely the Athletic Association doesn't contend that its duties are at an end when the football season is over?

The coach and team are willing to go the limit for the school. They will give all they have to add more glory to M. S. M. All they ask is a bit of aid on the part of the student body.

Editors Note: This editorial was not written by a member of the Varsity Track Squad. We appreciate the help of "Spoo" Walker, but there is too much work for one man.

AN R. O. T. C. BAND?

Recently there has been an undue amount of discussion as to why M. S. M. has no military band. Other colleges appear to have their R. O. T. C. units equipped with a first class band. Why can't we do likewise?

The question is very easily settled with the revealing statement that only 192 men are taking military at M. S. M., whereas the U. S. government will not organize a band in any university with less than 250 in the unit.

However, it is highly probable that within the next year or so, the Miners will be provided with instruments for a band, assuming, of course, that registration increases to the required standard. When that time comes we can safely predict a much snappier and vigorous drill period on Wednesdays.

Next fall we are planning on having 100 percent attendance at the football games, which includes the entire faculty.

Less than ten percent of the faculty have athletic tickets. We

wonder why the faculty isn't classified as a part of M. S. M.? Instead of charging the faculty the same as an outsider, why not enumerate them as a student. It doesn't seem like a square deal to the faculty to put them on the same basis with persons who have no connection with the school.

From an economic standpoint we would have instead of \$120, \$600 and 100 percent attendance at the football games.

With all track men back in condition the Miner track team is preparing for the Washington University meet Friday in St. Louis. Although Washington defeated Arkansas by a large score, the Miners are preparing to bring back a bear skin.

On May 12 the Miners resume athletic relationship with the Springfield Teachers at Springfield. Little is known of the Springfield track team but dopsters can do a little calculating after the Teachers meet an Arkansas team this week.

MINER BOARD BANQUET.

Banquets in celebration of various occasions are not, nowadays as common or numerous as in the olden days of which our alumni tell us. The banquet given by the Miner Board last Thursday evening, however, was such a success from every viewpoint that it closely rivaled any similar affair that has ever occurred in Rolla.

Of course the primary requisite of any banquet is good food. A wonderful feast that assured the success of the affair was provided the members and guests who formed an attendance that was declared one hundred percent.

C. A. Freeman, former editor, filled the office of toastmaster very ably. Speeches by many of the members and by the guests proved very interesting and entertaining. Especially interesting were the speeches given by Dr. Barley and Col. Woods.

TRANSCONTINENTAL

RUNNERS IN ROLLA.

Along a trail with thousands of spectators, ploded a small group of weary runners on their run from Waynesville to Rolla. Twice that number of aching feet welcomed the limits of Rolla. Rolla was the end of the day's journey and well it was for the seventy. As each runner dragged himself through the lane of people, a sigh of sympathy and pity came from the midst of the crowd,

almost inaudible to the ear.

The graceful, agile, and springy step of an athletic had long ago disappeared from this group of athletes. Instead, one saw drawn muscles, dark skin, browned by many days in southern sun, aching joints, and a drawn and tired expression showing out from under the brawny tan of their faces. Surely, only the will of an indomitable spirit could urge them ever onward on a seemingly unending journey.

Heralding the approach of the runners was the official coaches, cars, trainers cars, and a caravan of side shows and other appendages that compose a carnival. This parasite of the major interest was the mecca of the crowd that gathered in town that night.

A notable visitor in the person of Red Grange, of Illinois University, was the principle speaker, on several occasions, to a large group of Miners this same evening. Red seemed to fall right in step with the Miner spirit and we all hope that he can return for a more lengthy visit with us some time in the future.

A night's rest and the runners were off again. Along with them went all semblances of their having spent the night here. They were beginning their last twelve hundred miles of running.

ST. LOUIS SECTION OF AMERICAN CERAMIC SOCIETY MEETS IN ROLLA.

The St. Louis Section of the American Ceramic Society met in Rolla last Saturday, April 28th. The program was opened by an inspection of the school grounds and visits to the laboratories. A get-together luncheon followed, with Dr. H. A. Buehler as host. Prof. Johnson of the English Department gave a very interesting and entertaining talk on "The Relation of English and Ceramics."

About 2:00 o'clock the members of the Section and students in Ceramic Engineering met in Norwood Hall for the technical session. Dr. Fulton, Director of the School of Mines, was the first speaker. He related some of the past history of M. S. M. and also some of its present conditions. Dr. Fulton was followed by Mr. Foster Holmes of the Evans and Howard Brick Co. Mr. Holmes spoke on "Mechanical Engineering in Brick Making." He impressed, especially on the minds of the students, the problems which they must solve, and also the responsibility

which they must assume in actual practice. The next talk was given by Mr. Crawford, of Laclede Christy Clay Products Co., who spoke on raw materials in Missouri, and the opportunities in sight for future Ceramists. Next Mr. W. K. Schweickhardt told of the great advancement in the Department of Ceramics since its origin several years ago. He also thanked the manufacturers of Missouri in behalf of the students, for their financial support. Mr. Schweickhardt was followed by Dr. H. A. Buehler, who told of the work the U. S. G. S. was doing regarding clay deposits in Missouri.

Following the technical session the entire group went to Prof. Forbes diasport pit where a very instructive lecture was given by Mr. H. S. McQueen. Mr. McQueen's lecture was so interesting that Chief Buehler had a difficult time dispersing the crowd. When he succeeded, some of the men visited Meramec Springs, while others played golf. The entire body left for St. Louis about 6:30 o'clock.

IRA REMSEN MEETING.

One of the most interesting gatherings of the year was held by the Ira Remsen Society last Monday evening. Prof. Goodhue gave a clear and accurate summary of the recent A. C. S. Convention held in St. Louis. He emphatically stressed the theory and application of alkali-metal salts as a fire extinguisher. It is impossible to estimate the value of this new and tremendously effective chemical in fire-fighting.

A four reel film on gasoline production showed the various stages of manufacture in detail. After the "show" hot coffee and sandwiches were indulged in "a la crucibles and flasks". And how!

TENNIS TOURNAMENT.

A great deal of interest has been aroused by the impending tennis tournament. The schedule for the elimination can be observed and studied on the bulletin board in Parker Hall—in case anyone is interested.

At the present time there are 13 entries, and it appears that this will be about all of them. Burgoa, Treman, W. J. Barry, Zell, Hiller, Thomas, Moreland, McLaughlin, Meeka, Baumgartner, R. S. Martin, Brockman, and Jones are the entries. These men were paired by drawings from the proverbial hat, and they will proceed to eliminate the losers

until the singles champion has been determined. An elimination tournament will also be held in the doubles matches and the winning doubles team together with the singles champion and the runner-up will represent M. S. M. in the state meet at Fulton, May 17 and 18. In the elimination contests it will be necessary to win two out of three sets and all matches must be played before May 10.

Due to the unusually bad weather nothing has been accomplished in the process of elimination. The courts have been muddy and not fit to play on, but now that they are in tip top shape the tournament will be carried out immediately.

The men who attended the recent track meet at Warrenton report that both Westminster and Central Wesleyan will enter teams in the state tournament. We look for some stiff opposition from these schools but feel that the winners of our elimination tournament will be capable of disposing of all rivals.

GEOLOGISTS DENY CONNECTION WITH TREASURER HUNT.

In the "Tailings" column of this issue of the Miner reference is made to a treasure hunt to be conducted near Birch Tree, Mo., by a certain Miss Rymer assisted by the geologists of the Missouri School of Mines. The statement made in this column was based on an article appearing in a recent issue of the "Springfield Daily News" in which considerable stress was laid upon the fact that several geology profs from this school were to assist in the search for "30 pony loads" of gold and silver which is rumored to have been buried near Birch Tree by the early Spanish explorers.

Investigation in the Geology Department has revealed that the assistance of M. S. M. geologists in the forthcoming treasurer hunt is the mere "pipe dream" of some ambitious reporter. One professor stated that he was well aware that the rumor of buried treasure existed but that the department has never, at anytime, intimated that they would assist in a treasure hunt.

I had rather be bright than the President of some college.

Au revoir, I go to the arms of Morpheus.

Go ahead, I hope he slaps you down.
—Gold Pan.

Blindfolded . . . in scientific tests of leading Cigarettes, Mrs. Morgan Belmont selects **OLD GOLD**

"In my travels here and abroad I have often wished that I might find a cigarette of pleasing flavor which would not rasp my throat or bite my tongue.

"The blindfold test has proved to me that I need seek no further . . . For one of the four cigarettes given me to smoke had just the qualities I've always desired.

"The pleasant, smooth cigarette I named as my choice turned out to be an OLD GOLD . . . No wonder so many of my friends prefer this brand. I too find OLD GOLD the most delightful cigarette of all."

Mrs. Morgan Belmont

© F. Lorillard Co., Est. 1760

Made from the *heart-leaves*
of the tobacco plant

"Because they're
made from the *heart-
leaves* of the tobacco
plant"

In case after case, where the leading cigarettes have been compared by blindfolded smokers, OLD GOLD has been selected as the most appealing cigarette. Because they're made from the *heart-leaves* of the tobacco plant . . . Nature's finest tobacco. That's the reason for OLD GOLD'S *honey-like smoothness*. That's why you can pick them, even in the dark.

Ceramic Engineering

Graduate Courses leading to the degree of Master of Science are also
offered in these curricula.

GRADUATES with from three to five years, experience, depending up-
on the curriculum followed, may receive the professional degree
of Engineer of Mines, Civil Engineer, Metallurgical Engineer,
Mechanical Engineer, Electrical Engineer, or Chemical Engineer,
upon presentation of an acceptable thesis.

(Box 253) Lawrence, Kansas.

JUNIOR CLASS DANCE MAY 5.

Bring on your springtime, your
moonlight night, and the young
man's fancy, for the Junior Class is
throwing a gay frolicsome "shindig"
next Saturday evening at Mr.
Jackling's playhouse. Music by
Schweickhardt's ensemble—grab a
date.

record.

High jump—Panhorst (St. Clair) 1st; Shoop (Steelville) Busley (St. Clair) and Keller (Rolla) tied for 2nd; height 5 ft. 6 in.

Javelin—LaDassar (Sullivan) 1st; McMurphy (Sullivan) 2nd; Terrel (Rolla) 3rd; distance 148 ft. 8 in.

Broad jump—Panhorst (Pacific) 1st; Schmitt (Sullivan) 2nd; Shoop (Steelville) 3rd; distance 21 ft. 4 1-2 in.

Half mile relay—Pacific, 1st; Steelville, 2nd; Rolla, 3rd; time 1:41.

He who laughs last is trying to think of the dirty meaning.

An opportunist is a man, who upon finding himself in hot water, proceeds to take a bath.

Statistics.

"Statistics show that women live longer than men—preserve the surface and preserve all."

Knee-length skirts have reduced street and automobile accidents 50 percent. Wouldn't it be fine if accidents could be prevented altogether?

Stude: How dumb is Dora?

Prof—Not very, but she thinks a gar'er snake is someone who can't be trusted. —S-W Bu'l.

Some girls are like chewing gum, Wiggly in traffic. Easy to park. —Ex.

A chicken in the car is worth two walking home.

Hell hath no fury like a woman corned.
