NUMBER 2

New R.O.T.C. Officers Named Last Tuesday

THOROUGHMAN TO BE MAJOR

KAY, STEVENS, MONROE,
KLESATH, GAST, AND
SCHWARTZ WILL BE CAP-
TAINS.

Last Tuesday the members of the advanced R. O. T. C. were notified of their appointment to the various positions which they will hold for the ensuing years.

A new idea is being tried this year in that the members of the advanced course will assist in instructing the freshmen in the rudiments of drilling. The system, as is being planned, will be very beneficial to both the officers and the freshmen in that it will be very instructive experience for everyone concerned.

This years enrollment, in the junior class, exceeds the one of last year by about ten men. A large percentage of the juniors attended camp this summer and it is obviously true that the officers are quite well informed as to military tactics.

Last Wednesday was the first meeting of the R. O. T. C. unit, as a whole, and at that time the battalion was organized. The three (See Cadet Officers Page Six)

Glider Club To Have New Wings

The Miner eaglets will soon be flying high once again and, according to latest dope, in bigger and better ships. At their first meeting of the season Tuesday night, Prof. A. Miles was re-elected president and Molloy succeeded Wyrick as secretary-treasurer. With a record of over five-hundred flights last year, the club is planning a more extensive program this year and has decided to increase their limited membership of 20 by admitting students from all departments. Anyone wishing to try their wings in such a novel manner should make known their desire to Prof. Miles.

THIRD BENEFIT DANCE

The third benefit dance of this month, given by the St. Pats Board, was held in Jackling Gymnasium Saturday night, Sept. 19. Dancing started at 9:30 and ended at 1:00, at which time all those in attendance left for the various haunts so common to Miners. (The Pen-nant Tavern, Missouri Cafe, Russ, and thence to their abodes or other peoples front porches.)

This dance was the last gym dance to be given this month and a crowd estimated at 40 couples (and the usual number of stags) was in attendance. The proceeds of this dance go for a bigger and better St. Pats in 1932.

The chaperons for this dance were Mr. and Mrs. X. Smith, Mr. and Mrs. Perry Love and Lieut. and Mrs. Hardin.

Diamond Ball Contests Start This Week

ELEVEN TEAMS TO COMPETE

Coach Brown has announced that a Round Robin schedule will be played in Diamond Ball or Play-ground Ball between nine fraternities and two Independent teams. The Independents are to be divided alphabetically, A to K inclusive, and L to Z inclusive. Play shall start Monday, Sept. 21st.

The general rules for the games are: 1. Seven innings shall constitute a game. In case of rain, if play is called after four innings have been played, it shall be considered as a game.

2. No games shall be protested on account of the official judgment.

3. Students on probation are not eligible.

4. Graduate students are not eligible for intramural competition.

5. All men who are pledges or members of their respective fraternities at the time of the game, Sept. 21, shall be eligible to compete.

6. Any team playing ineligible players shall forfeit all games in which the ineligible players took part.

7. The Independents shall not be allowed to substitute Independent players from the other group.

Continued on Page Six

Miner Gridmen Primed For Pittsburg Clash

Squad of 30 Will Leave Thursday For Kansas

Coach Grant's gridmen are showing much improvement in their practice this week. With the exception of a few minor cuts and bruises the squad is devoid of injuries. Tomlinson's finger is getting along fine and will be taken out of the bandage Monday. He is expected to play in Friday's game. McCoy, a back, who was a star in '26, has returned and is showing up well in the practices.

Kauffman, a freshman, is a real find as an end. He is a very good pass receiver and his punting ability makes him very valuable. He has been averaging 60 yards on his punts.

Coach Grant has not as yet selected his first team. It will be determined by the Saturday afternoon scrimmage and workouts at the first of the week. The squad of 75 men dwindled to 40 during the week.

The Pittsburg team is as strong this year as they were last year so they will be a formidable foe. Coach Grant stated that although the game will by no means be a cinch, he expects to see the Miners come out victorious.

A squad of 30 men are leaving by bus early Thursday afternoon. They will stop in Springfield for a night practice and then go to Carthage, where they will spend the night and next morning. The team will arrive in Pittsburg late Friday afternoon. The game is scheduled for 8 o'clock.

A. S. M. E. Plans New Program

The first meeting of the A. S. M. E. was called Thursday evening, September 24. The meeting was well attended and an interesting program for the ensuing year was mapped out by the entertainment committee. It is planned to have many interesting speakers who will appeal not only to the Mechanical Engineers but to students in other branches of engineering as well. These meetings are open to the entire student body.

FOOTBALL SCHEDULE

Sept. 25—Pittsburg Teachers; Pittsburg, Kas. (Night)
Oct. 3—Missouri U. (B team); Rolla
Oct. 9—Oklahoma City U.; Oklahoma (Night)
Oct. 16—St. Louis U., St. Louis (Night)
Oct. 23—Maryville Teachers; Maryville (Night)
Oct. 31—Central College; (Home Coming); Rolla
Nov. 14—Drury College; Springfield
Nov. 26—Oklahoma North-eastern Teachers; Rolla.

M.S.M. Songsters Begin Practice

Glee Club to Make Two Trips This Year

The last years members of the MSM Glee Club met in Parker Hall, Wednesday, Sept. 9th and began immediately to prepare for the coming concerts of the year. No new men were present at this meeting and the old members spent the evening singing songs and discussing plans for the new year.

At the Monday and Tuesday rehearsals of last week, several new men put in appearance and they were given tryouts. There are still openings for new men in the Glee Club in certain sections of the club. The final selections will be made at an early date so if there should be any golden voiced warblers of the male species who haven't been given tryouts it is high time they are putting in an appearance.

Prof. J. S. Cullison, the director, announced at the Wednesday night rehearsal that the Glee Club would give at least two out-of-town concerts and one local appearance on the regular general lecture course. One trip will be made to Springfield Teachers College and the other to William Woods College at Fulton.

THE CLASS ELECTIONS

In another week or two the campus will be buzzing with the activities of various individuals, who will be endeavoring to get the necessary number of signers on their pet ticket for class officers.

Until last year the election of the Junior class officers was one of the important events of the year. Formerly one of the chief functions of the Junior class was to raise funds and to sponsor the annual St. Pats celebration. Now all of that is handled very capably by the St. Pats Board.

Nevertheless the election of officers should not be passed over lightly. Gibbons, president of the Senior Council, announced that a meeting of the Council would be held within the next few days and at that time a date for the elections would probably be set.

The elections are usually held about the middle of October but now is the time to start working for your candidate.

Any number of tickets can be submitted for any class but at least 25 men from that class must sign the ticket before it can be turned into the Senior Council.

The elections are usually close races and it is not improbable that some of the tickets will be split by the voters when they reach the polls on election day.

Former Miner**Editor Marries**

William R. Towse, former editor-in-chief of The Miner, and Miss Alice Williams of Macon, Mo., were bound by the holy bonds of matrimony early this month. The romance of these two popular young people of Macon dated back to childhood school days and lasted through the years of high school and college and finally terminated in the wedlock.

The very charming Mrs. Towse, who was graduated from Hardin College last year, has been a frequent visitor to Rolla, where she has many friends. She was the Pi Kappa Alpha house queen at the last St. Pats masque ball.

Towse, who graduated with the class of '31 last spring, was one of the outstanding men of the class. He was president of Pi Kappa Alpha, editor of The Miner, organizer and first president of the inter-fraternity council, a member of the Rollamo Board, Satyrs, and the Senior Council. At present he is employed by the Missouri Public Utility and is located at Moberly.

We join the many friends of the happy young couple in wishing them continued happiness and success.

THRU THE TRANSIT

By Old Squint Who Is Glad
He Can See Yet

Just when it looked like there was nothing to do but sit in the shade, in a deck chair and watch the froth and foam blow off the schooner we are called from our retirement to help fill space, nothing else. Friday nite Axe says we have a yen to go to St. Louis that will not be denied and will we give a look for him and being big hearted we says yes we will give a look and write his column for him.

Business is very bad in these United States. So bad that Limburger cheese don't smell like it used to. We knew it was coming these past two years on account that the traveling salesmen never knew any new nasty stories. However, the crisis has past because Joe Zilch of Paduca, Ky., writes in and says he has heard a new story about the traveling saleslady and the farmers son. The plot is not so new but the characters have changed so that indicates a marked change for the better. Personally we believe that Will Roger's Plan of Thirds is the only solution for the present slump. The latter part of his plan calls for the shooting of every third person. If most of these third persons are taken from the Congress it might help a little.

If the eighteenth amendment is even appealed there's lots of other ways of making money. Ohio now has cigarette bootleggers.

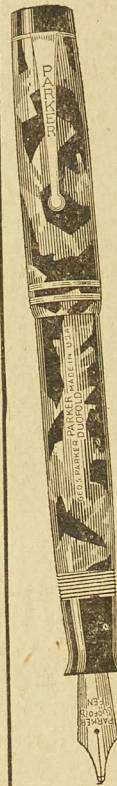

Since the state tax of 20 cents on the carton went into effect bootleggers are bringing in cigarettes and making 28 cents on the carton.

"The Engineer"

After the Lord made the earth in six days, and before starting for the Country Club to rest on Sunday, He turned the plans and specifications of the earth over to an engineer; which, by the way, is the first record we can find of the existence of a gentile. And since that day, engineers, although paid on the six-day basis, have continued to work seven days and nearly as many nights a week. An engineer can be identified by his trusting look, the resigned expression on his face, and a table of sines and cosines carried near his heart.

Through the ages, the engineer has continued to function, until now our technical schools yearly turn upward of 10,000 young hopefuls on to the American public, each armed with a slide-rule, two handbooks and a bad case of brain fatigue due to four years of unremitting toil. Some of the remaining souls, after working incessantly, as engineers, gain success by becoming advertising

managers, accountants, salesmen and managing executives. But alas, some fail and become Assistant Chief Engineers, Chief Engineers, and, if complete failures, become Consulting Engineers.

Our government has had two famous engineers who gained fame by ceasing their chosen occupations and becoming Public Servants—George Washington and Herbert Hoover. An engineer with the temperament of a grand opera star is an inventor and can be recognized by long hair and flowing bow tie.

There is only one engineer on record who has become rich. He recently died in Colorado and left a fortune of \$50,000, which he amassed through unceasing toil, superhuman perseverance, remark-

able ingenuity and the death of an uncle who left him \$49,995.00.

Engineering is a good deal like golf. Those who are good drivers become managing executives; for those whose best shots are brassie, the advertising profession offers a good opportunity in case of a good lie; those who approach well find salvation in salesmanship, and those good on the green become cashiers and investment brokers. The duffers remain engineers.

—GAS SERVICE JOURNAL,
JUNE, 1931.

About the Campus

(Printed by permission of the publishers of the MSM Alumnus).

Work Plus

It has been rumored that a fellow once said that he was going to school for a rest, but you can bet he never came to old MSM, for "believe it or not" (attention Ripley) a senior was seen on the campus the other day with a book under his arm and when a senior carries a book you can bet your pile that there's trouble brewing.

Booooo-Miners-Rah!

Yea! Miners, only a few more days until the first football game of the 1931 schedule, and boy, are

those Miners strong this year. It is well worth your time to drop over to the field some afternoon and watch that OLD MINER SPIRIT in action, and as a bit of a warning to the Pittsburg Teachers—WE'RE OUT TO WIN.

Progress

It looks like a bigger and better year for old MSM. Her walls echo with the treacherous wailing of two hundred new Miners, a group of fellows any school should be proud of; and especially the sophs. More power to '35.

Frosh Caps

The campus is decorated in an amazing color scheme this year due to the selection of the Freshman Caps. The beautiful green of the caps is set out by a glowing yellow button adorning the top. The fellow who thought up that

At The Theatre

Again that powerful actor, Edmund Lowe, will be seen on the screen. This time he plays the part of a light-hearted, light-fingered gentleman of chance in "Transatlantic." With Lois Moran as his leading lady this picture is sure to furnish plenty of entertainment.

"This Modern Age," provides Joan Crawford another vivacious type of role which first brought fame to this star. This picture is a story of Paris and many of the actors are actually French. Plenty of action is assured in any of Joan's pictures. She is assisted by Pauline Fredrick, Neil Hamilton and others.

"Always Goodbye" is slated to be one of the best of pictures. Elissa Landi, a new comer to the screen, is playing in her second production. She assumes the role of a delicately bred girl who seeks the easy way out of poverty. Of course she saves a valuable gem for her gentleman host who happens to be none other than the popular Lewis Stone.

Plenty of laughter has to be present when the famous comedy pair, Laurel and Hardy, step forth in their first feature-length comedy. Plenty of jails, riots, and other things give these comedians a chance to show their wares.

ABOUT THE CAMPUS

(Continued from page three)

idea should be awarded a degree in Artistic Designing—will Prof. Mann please act at once.

Freshmen Exit

It seems that the freshmen just haven't become perfect Miners yet, at least some of them, for the road between S. Louis and Rolla was just lousy with them. It was told they were riding on top of cars, underneath, on spare tires and even some were walking. Say! fellows, can't you remember when we used to do that—but, well that was before we grew up. Oh, they'll get used to not seeing their mammas before long.

Hard Times

I don't believe the sophs are having very much luck collecting socks this year as the freshmen

seem to be mighty wise and stick to cotton. From the wails around the campus the depression must be a real thing, for the sophs sure do gripe about the frosh not wearing silk or because some lowly junior had already removed them for himself.

We wonder if a freshman wrote this column.

THRU THE TRANSIT

Continued from page two.

That was a very nasty crack about the seniors' mustaches in last week's Miner. It is rumored that some of the boys are starting chin whiskers just to show people its possible. We wouldn't be a bit surprised to see high wheel bicycles on the campus before long.

Its a crime that some adventurous young man don't start wearing shorts to school this hot weather. Its really too hot to wear pants. We hate to be disloyal to the sex, but it seems to us that women show much more judgment in the matters of dress than men do. Either men are too modest or no one has the nerve to go against convention enough to start wearing less clothes. Think of the time saved if one could appear in an eight o'clock in pajamas. If this hot weather continues it will make a nudist out of us. And that's not such a bad idea either.

Hickman, H. S. (co. D)

Gaddis, W. F. (co. D)

DIAMOND BALL FROM PAGE 1

even though it is agreeable with the opposing teams captain.

"Special Students" are eligible. The Independents shall play only those men who are Independents at the time of the opening of the season, Sept. 21st.

CLUB CHAMPIONSHIP GOLF TOURNAMENT

Those interested in entering the club championship tournament should turn in an attested score for 18 holes to Mr. O'Brien.

The best 16 players will play in the Championship Class, the next 16 in Class A and the next 16 in

Class B.

All members and associate members of the Athletic Association are eligible.

Match play will start Tuesday, September 29th.

A LESSON IN GRAMMAR

You see a beautiful girl walking down the street. She is of course, feminine. If she is singular, you become nominative. You walk across to her changing the verbal and then becoming dative. If she is not objective, you become plural. You walk home together. Her mother is accusative and you become imperative. Her brother is an indefinite article. You walk in and sit down. You talk of the future and she changes to the object. You kiss her and she becomes masculine. Her father becomes present and you become the past participle.—Ohio Northern Review.

NOTICE

I will take care of all alterations and mending of clothing for M. S. M. Students at my home, 706 Main St.
MRS. C. T. HOWERTON.

Laundry
That Glows With
Spotlessness

Many of the shirts you see men wearing aren't new at all—they've simply been laundered by Busy-Bee. Men know that shirts sent to us are laundered with care and expertness. Phone 555 for a Shirt Laundry Service that will meet your expectation.
