Number 5

## HOMEcoming HUGH SUCCESS

Homecoming this yyear was without doubt the best attended that we have ever had. There were over one hundred old men back, not including those who live in Rolla.

The dance Friday night was given by the Kappa Alpha fraternity and the Alumni Association with the faculty, seniors and alumni as guests.

At the banquet Saturday night at the Bus Terminal W. W. Weigel, '00, was toastmaster. Interesting talks were made by Dr. Fulton, Director; J. W. Pack, '74; W. K. Schweickhardt, '28; Neal Ham, '23; E. E. Ashlock, '20; Barney Nuddelman, '21; William Ehlers, '13; and Fred Schneeberger, '25.

The class of 1923 takes the prize for the largest attendance, there being nine representatives at the banquet. These were: G. V. Martin, E. R. Tragitt, H. S. Pence, M. N. Bedell, Neal Ham, E. J. Wendell, D. F. Walsh, A. A. Boyle, E. F. Chapin.

The Pi Kappa Alpha fraternity entertained at their new home Saturday night in honor of the visiting alumni. The following Pi Kappa Alphas were house guests for the meeting: Harry Pence, W. W. Weigel, R. W. Hunt, B. S. Cornwell, Art Berry, W. K. Schweickhardt, E. L. Miller, Jr., H. G. Halsey.

Next year in honor of the sixtieth anniversary of the School of Mines and Metallurgy the homecoming will be a much larger affair. The alumni are urged to watch for the announcement of dates and make preparations to come back. The celebration will be some time in October, 1931.

### Courageous Fight Merits Little For Drury. Miners Backfield Runs Riot.

#### PHI KAPPA PHI ACTIVITIES

The Missouri School of Mines Chapter of Phi Kappa Phi has started with zeal its activities for the school year. At the first meeting, held early in September, officers were elected for the current year, as follows: President, Dr. G. A. Muilenberg; vice-president, Dr. W. T. Schrenk; secretary-treasurer, J. M. Willson; corresponding secretary, Dr. L. E. Woodman.

In the first it has been the policy of the local chapter to elect members from the senior class at the beginning of the second semester. Last spring it was decided that the best interests of the society would be served to have two elections during the year—one at the beginning of each semester, with the majority of new members to be elected at the fall election. It was

#### PI K. A.'s INAUGURATE

##### NEW HOME

Last week the Pi Kappa Alpha fraternity had one of the most successful home-comings in its entire history. Alumni as far back as 1910 were here to enjoy the new home with the active chapter. The affair had been widely advertised to all alumni and officers in the district. About twenty-five of the "old timers" returned and all expressed their delight in the chapter's new home.

Saturday evening the chapter entertained with a banquet and dance given in honor of pledges and visiting alumni. The banquet followed the regular M. S. M. alumni banquet, as most of the old grads were desirous of attending both functions. Joe Sheehan of St. Louis, and princes of this

Continued on page ten.

The Miner eleven snapped out of the sluggish playing so evident in the Kirksville game in a way to warm the hearts of the Miner backers. The Drury representatives displayed a brand of sportsmanship and fight which would be a credit to any school but their best efforts proved to be of little avail against the steam roller attack staged by the Miners throughout the entire game.

The Miners outweighed the Drury eleven by almost 15 pounds per man. The light, hard fighting gridmen from Drury were soon out by the incessant line charges directed at them by the hard hitting Miner backfield.

Drury tallied their only touch down in the first quarter after a series of passes had placed them within scoring distance. Most of the breaks favored the Miners who were in possession of the ball for the most part of the game. The Drury eleven was forced to be on the defense to such an extent that the Miners were not forced to kick even once during the first half. Numerous fumbles and several blocked kicks speaks favorably for the charging ability of the Miner forward wall. The chief weakness evident in this game on the part of the Miner gridsteers was their inability to complete a reasonable number of passes.

The Miner star backfield including Thornton, Hassler, Schofield, Kelly, and McDonald took turns in battering the Drury forward wall for substantial gains. To such an extent was the Miner line holding that Drury made only 3 first downs from actual scrimmage.

Handley, Decker and McManemy

**ESTELLE GRAY-LHEVINNE TO START GENERAL LECTURE PROGRAM SATURDAY NIGHT, OCTOBER 18TH, 1930**

**World-Famous Violinist to be first on Winter Program.**

Estelle Gray-Lhevinne, well known violinist, both in this country and in Europe, will fill the first number of the general lecture program at MSM Saturday night, at 8 p.m. in the auditorium of Parker Hall. This noted violinist is appearing at many of the colleges in Missouri, and had to be taken on Saturday night at MSM on account of other engagements. The student body will have an opportunity to hear a truly great violinist in her appearance here Saturday night.

The student activity ticket will admit the student and his girl friend. For those not holding tickets the admission price will be \$1.00.

**GENERAL LECTURES PROGRAM  
1930-31**

The 1930-31 General Lectures Program at the School of Mines is now practically complete with an even better arrangement of talent this year than the school presented last year when many of the attractions were among the outstanding events of the season.

The school program will open on October 18, with the Gray-Lhevinnes. Madame Lhevinnes is an internationally known violinist and is coming to the school most highly recommended. Her attraction will be one of the outstanding numbers.

On October 30 the Betty Harlin

Dancers will appear on the program. Miss Harlin's Dancers last year drew a standing-room only crowd, and with the larger student enrollment this year it is expected that even a larger crowd will attend.

From the standpoint of popular science, the lecture by Dr. Harlow Shapley, Director of the Harvard Observatory on November 4, promises to be the big number on the program. Dr. Shapley's lecture, "Measuring the Milky Way," should easily compare with the lecture of last year by Dr. Millikan, which also drew a capacity house. Dr. Shapley was one of the astronomers concerned with the discovery of the new planet popularly

known as "Pluto" which was extensively featured in the public press last winter.

November 13 Miss Lorna Doone Jaxon, a contralto of the Chicago Civic Opera, is scheduled to appear. Miss Jaxon has appeared five times before the boys at Notre Dame University, and for two weeks took the role played by Mary Garden in the Chicago Civic Opera while Miss Garden was away on a tour. Miss Jaxon is one of the outstanding contraltos in America and the school is fortunate in being able to engage her to appear.

Other numbers that will appear on the program include Vachel Lindsay, the internationally known poet; Dr. Sutton, the famous African hunter of Kansas City who appeared here two or three years ago and drew a capacity house; Dr. Herman Schlundt, head of the Chemistry Department at the University of Missouri, a recognized authority on the subject of radium, who will talk on this interesting subject; The William Woods Dramatic Club, who will present a play here on January 29; Chandra Gooneratne, high caste Indian, who will lecture on the subject of India Today; The community Club of Rolla will present a musical program such as last year, which drew a full house; also, the Women's Clubs of Rolla are sponsoring a lecture recital by Dr. Ernest K. Kroeger, a well known figure in the musical world in St. Louis; and there will be the usual concerts by the Glee Club and the R. O. T. C. Band; the play by the M. S. M. Players, and a lecture sponsored by Phi Kappa Phi. From the campus, Dr. H. A. Beuhler is scheduled to deliver a lecture, and also Prof. Eugene L. Johnson and Dr. L. E. Woodman. The program will close on April 9, with a concert by the Berger-Steindel-Aster Trio with Gloria Randolph, dancer. This trio, consisting of a violin, cello and bass, is one of the popular musical numbers of America. They have made over eight hundred appearances in various parts of the United States. It should compare easily with the Russian Cossack Chorus of last year's program.

Season tickets for the program will be on sale at the door on the first night of the program and at Followill's Drug Store and Scott's Drug Store during the week preceding the beginning of the program. A \$2.50 ticket entitles the holder to admittance for himself and one guest to all numbers, and in the case of numbers listed at the minimum price of 25c, the ticket will also admit the members of the holder's family who are under 17 years of age.

### KAPPA ALPHA CHAPTER ENTERTAIN ALUMNI.

Through the courtesy of the Kappa Alpha fraternity the alumni of M. S. M. were delightfully entertained with a dance at Jackling Gym last Friday evening.

The regular pledge dance of the K. A.'s had been scheduled for that date, but they knidly consented to make it a combined homecoming and pledge dance.

The entire affair was a huge success. (This must be said in favor of Kappa Alpha. They certainly have good taste. More beautiful girls graced the floor of old Jackling gym than one usually sees at any time other than St. Pats).

The alumni came out in great numbers, and enjoyed to the fullest extent the hospitality of their hosts. Everyone took advantage of the opportunity to renew old friendships and partake once again of that fine old thing known as the Miner spirit.

Reeves Varsity orchestra furnished excellent music for the occasion.

The dance was most ably chaperoned by Mr. and Mrs. Hudson, Col. and Mrs. Woods, Prof. and Mrs. Lloyd, Lt. and Mrs. Hardin and Prof. and Mrs. Johnson.

### PHI KAPPA PHI ACTIVITIES

Continued from page one

felt that this policy would give the student members more intimate contact with the society.

In accordance with this plan, the first annual fall election was held. The newly elected members were presented before the student body on Oct. 3 for formal pledging ceremonies. The pledges are: From the senior class: A. R. Baron, B. R. Elliott, E. R. Epperson, B. S. Followill, H. R. Herron, R. S. Park, G. L. Traband, R. T. Wade, W. J. Ware, R. Z. Williams. From the faculty: Dr. O. R. Grawe, Prof. J. B. Butler.

Formal initiation will be held at a later date, at which time the initiates will be honored by a banquet.

A laudable activity of the local chapter is the establishment of a loan fund, which, it is hoped, will eventually result in a permanent Phi Kappa Phi scholarship. Loans are made to worthy senior or

graduate students who have a scholastic average equal to or better than the average of his class. Loans are made in units of \$50.00; two units being the maximum loan to be obtained by one student. The loans, which bear 4 percent interest, become due one year after graduation. It is hoped that additional units will become available for use during the present school year.

The M. S. M. chapter has been honored by the National Chapter by the appointment of Dr. C. E. Bardsley as secretary of the South Central Province, embracing chapters in Missouri School of Mines, Kansas State Agricultural College, Oklahoma A. and M. College, University of New Mexico, Colorado College of Agriculture and Louisiana State University.

### THOROUGHMAN MADE JUNIOR PRESIDENT.

#### Seniors Headed by McCracken

For one brief day, all friendships and long associations were disregarded while streams of both our "political parties" filed by the voting room in Parker Hall and exercised that divine privilege of mob rule. In other words, victory at the polls, as usual, goes to the persevering salesmen. And also as usual, there is the cry of excessive campaign expenditures.

By a strict division of about 65 to 55, the Junior Class elected F. M. Thoroughman, president; H. T. Gibbons, vice-president; A. J. Williams, treasurer; and A. W. Kassay, secretary. These men have the power of making or breaking St. Pats as their primal duty. (And it might be mentioned that the juniors' pocketbooks enter into the later factor). To judge the success of this administration, we must, as it were, watch and wait, or perhaps, hope and pray.

The seniors chose W. L. McCracken, president; R. L. Haffner, vice-president; E. G. Walter, treasurer; G. R. Throgmorton, secretary. Their honor is supreme, their duties nil; all power and reverence to the senior class.

### THRU THE TRANSIT

Axe says that he is sure there was something crooked about the school election. He says he only got to vote three times and there were four names on the ticket. Bugs didn't go to vote because he's from Kansas. In Kansas no one votes unless the candidate gives them first a shot of Jamaica ginger and it seems that the best they could do here was give him a free ride to the polls.

Axe said he would like to pledge Phi Kap but he couldn't stand the old grind. (One of the year's worst).

It was brought out in P. chem. class the other day, during a discussion of curves, that some people often got hold of beautiful curves and didn't know what to do with 'em. We didn't think there was any one that dumb left in the world.

### MASS MEETING

The second mass meeting of the year was held last Friday morning. At this meeting Tau Beta Pi, a national engineering honorary society, presented its pledges to the school. Dr. Fulton made a short talk on the value of Tau Beta Pi and the honor that goes with it. He stressed the fact that they do not pledge on a scholarship basis alone.

Several old grads were present. Among them was Mr. Pack of the class of '74. He was in the first class to graduate from this institution. Mr. Nuddelman, another grad, spoke during the pep meeting that followed the Tau Beta Pi pledging.

Thornton Dresser, a sophomore, was presented with a slide rule as recognition of his excellent work in his freshman year.

Quite a bit of spirit was shown

in the pep meeting. The yells were given in a way that makes one proud of such a student body.

## MA AND PA

Dear Daisy:

I suttinly wus glad to hear from you. I never will fergit that time at the church picnic when we carved our inishals on that there big tree down by the spring.

We played agin some collight called Dreary, Saturday. Hit kinda recollected to me of that time we had a runnin meet down at Shantyville. The boys didn't do nuthin but jest run up and down the apolectic field. The man which was keeping the big fence where they put the score sed that he darn nigh run out of numbers.

I went to a dance in the house of Mr. P. E., Friday night. I never seen sech dancing before in all my bahn days. The band didn't even have no fiddler in it. I stayed until eleven o'clock and they never had called no square dances, so I left. They don't do nuthin but jump up and down. Hit sure do look funny.

They was some kind of election hear the other day. I ain't old enough to vote but I know that some of the boys that voted ain't no 21 years old. I never could find out wheather the Democrats or the Republicans won. I sure hope the Democrats won.

I sure do miss you Daisy. There ain't no girls hear as nice and pretty sa you as fer as I kin sea. Won boy told me that all the pretty girls hear that didn't die young had all moved away. I will beglad when Christmas comes so I kin sea you. We kin go back down to the spring and look at our inishals on that there tree, only

I hope I won't fall in agin. Next time you send me some of them preserves and cake don't send them by mail. The last wons that you sent were good cause my roommate sed so. But if you send anymore I want to eat a little. Wright to me when you get a chance to go to town.

your "sweetheart,"

SI

## SENIOR COUNCIL MEETING

The members of the Senior Council met Tuesday, Oct. 7, for the purpose of voting on the petitions of nominees for the class election held Thursday, Oct. 9.

All the petitions turned in were passed on. There were two candidates for each office, with the exception of the freshman class, in which there was only one man nominated for the three minor offices.

## SEVEN MINERS ATTEND TULSA OIL EXPOSITION

Six petroleum geology and engineering students and Prof. E. A. Stephenson returned early last week from Tulsa where the party attended the A. I. M. M. E. sessions and the International Petroleum Exposition. During the six days which the group spent in the city, two days were spent attending the technical sessions of the American Institution of Mining and Metallurgical Engineering in the Mayo Hotel. Topics of interest to the M. S. M. petroleum students discussed at the meeting were the unit operation of oil pools, improved methods of repressing oil sands, the uses of air and gas lifts and new developments in computing the correct size and strength of well tubing.

Several of the group stayed a longer period, although Prof. Stephenson returned after attending the petroleum exposition two days. This year's exposition is said to have been the finest, most complete and the best attended

since its institution in Tulsa several years ago.

The six students attending were Jack Conley, G. R. Throgmorton, Ralph Graham, J. F. Frewer, Ray Haffner and W. Powers. These went to Tulsa by car. Outside of the exposition, they said their most vivid impression of the trip was the "ghastly, drizzly" weather.

It is planned that a larger delegation from M. S. M. attended the A. I. M. M. E. sessions and the exposition next year.

## MISSOURI VALLEY DOPE

The Miners make their first trip of the season next Friday when they play a night game with Missouri Valley College at Marshall, Mo. Missouri Valley, last year conference champions, are considerably weaker this year, having lost a large number of lettermen. Two weeks ago they were beaten badly by Emporia College of Kansas by a 49-0 score, and last week fell before Warrensburg Teachers to the score of 7-0. This week they meet Wentworth Military Academy, the latter being favored to win. Missouri Valley was not on the Miner schedule last year, but recent comparison points to a Miner victory.

## A GOOD REASON

A professor tells this story at his own expense:

He was instructing a class of boys about the circulation of the blood and to make sure that they understood him he said, "Can you tell me why it is that if I stood on my head the blood would rush to my head, and when I stand on my feet, there is no rush of blood to the feet?"

Then a small boy after pausing for a short time answered, "It is because your feet are not empty, sir."

## CAGG HIGHLY HONORED

The Meaning and Influence of the Idea of Virtue in the Italian Renaissance (1924).

The Attitude Toward Lawyers and Principles of Justice in the Late XIV Century England. Based on the two hitherto untranslated works of John Gower: The Mirror de L'homme (a looking glass for men) in Anglo-Norman dialect; and the Vox Clamantis (a voice crying) in Latin hexameter verse (1925).

College Journalism (1925).

Translation from Early New High German of Martin Luther's Fabeln (Fables) (1926).

A Discussion of Some of the Principal Characters and Their Motives in Shakespeare's King Lear (1928).

Twenty Years of Education in Journalism by Sarah Lockwood Williams: A review, published in The St. Louis Post-Dispatch, May

14, 1929.

Cultural Reading for the Technical Student (1930). This paper has been discussed recently before Missouri School of Mines. It lays certain groups of students in the emphasis on the thought that the technical and scientific student's reading should be done largely in the field of the history of science in particular and in the history of civilization in general.

Recently Mr. Cagg received notice of his eligibility, after seven years of progressive membership as a teacher, student, and literary man, to a key from the Phi Delta Kappa Fraternity. This is an educational and literary fraternity similar in these fields to Phi Kappa in the field of science.

The Miner Board joins the student body and faculty in congratulating Prof. Cagg on his achievements in this field. M. S. M. is indeed fortunate to have such a man on her staff of instructors.

## CLOSE TALLIES DECIDE FRESHMAN AND SOPHOMORE OFFICERS IN ANNUAL ELECTION.

Members of the two lower classes elected their class officers last week in the annual general class election. A good poll was made by both classes and election spirit and competition ran high in the contest for the higher offices.

Gilmore conquered Ted Hunt by a 52 to 47 count in the contest for sophomore president. An even closer race was the voting between adherents of W. L. Berry and Parker. Berry became the new class vice-president by a 51 to 49 count.

Miller was beaten by Messersmith for class treasurer by the small margin of 52 to 48. McKinley beat his opponent, Hesse, 51 to 49 for the office of class secretary.

Herbie Hahn easily carried the freshman class for the presidential vote with 56 votes to the 20 votes of his opponent, Berry.

The other freshman officers were elected without opposition. Hale is the new vice-president. Bim Bemberg becomes the secretary and Jack Zell is treasurer.

## HOW HERCULES EXPLOSIVES ADVANCE CIVILIZATION

**EXPLOSIVES**  
BRING  
**ELECTRICITY TO YOU**

**P**RESS a button—snap a switch—and modern industry moves forward with electric power, light, and heat. When you tap electricity you are tapping a force that surges through wire nerves from giant dams or huge turbines perhaps hundreds and hundreds of miles away.

In all the important phases—generation, transmission, and distribution—electricity depends on explosives.

Explosives blast dam foundations and help to drive miles of tunnels for hydroelectric projects; wrest from the earth the metals and other materials used in millions of miles of wire and cables and in other electrical equipment; and mine the coal that supplies energy which operates steam generators.

Not only in electricity but in almost limitless ways, explosives contribute daily to the comfort and convenience of living. In these achievements, Hercules explosives have played, and will continue to play, an important part.

As an engineer you should know more about explosives. Write for a sample copy of *THE EXPLOSIVES ENGINEER*, a monthly magazine which records the growing use of explosives in modern civilization.

## MINERS 67-DRURY 6

Courageous Fight Merits  
Little For Drury

Continued from page one.

appeared to be carrying much of the burden for the visitors in the game.

In the first quarter Drury ran Kerchoff's kickoff back to the 32 yard line but fumbled on the first play. The Miners took the ball and started a march which netted them a touchdown in less than three minutes of play. The Miners kicked off again and soon had possession of the ball again, but Drury intercepted a pass and started an aerial attack which soon placed the ball in easy scoring distance for the sole counter credited to the visitors. The Miners received and march down to the Drury 9 yard line but were penalized and the quarter ended with the ball in possession of the Miners on the Drury 14 yard line.

In two successive plays Thornton countered the second touchdown for the Miners. The Miners kicked off to Drury but the Miner line held fast. Drury punted to Schofield who took the kicking on his own 30 yard line and ran 70 yards for another tally for the Miners. History repeated itself with McDonald carrying the ball much of the time the Miners scored again. The Miners kicked to Drury but gained possession of the ball after which Thornton carried it to the 3 yard line but a total of 70 yards of penalties prevented the Miners from scoring further.

At the start of the half the Miners kicked to Drury who attempted to punt out of danger but no less than three Miner linemen were in front of the punt for a perfect block. Successive plays by Hassler and Schofield tallied again for the Miners. A thirty yard sprint by Schofield, a 15 yard pass, Thornton to Hassler and McDonald carried the ball the remaining 20 yards in one play for another touchdown. Drury kicked to Hassler who ran the ball back to the 42 yard line from which place Thornton broke through the line and ran for a touchdown. Drury again kicked and the Miners scored again without losing possession of the ball. Hassler made the final yardage. Drury kicked again and the quarter ended with the ball

in mid field and the Miners leading 54 to 6.

Drury again kicked and the Miners started another march down but were delayed in scoring by a 15 yard penalty. Kelly carried the ball in the next score. A pass over the goal line accounted for the final score and the Miners win with 10 touchdowns and 7 kicked goals.

Lineup and summary:

Kerchoff	L. E.	Wright
Koch	L. T.	Wakeman

### NEW BOXING EQUIP-

#### MENT ORDERED

Herbie Hahn, boxing instructor, announces that because of the size of his rapidly growing class it has been necessary to order more training equipment. The articles which will arrive this week include a new sand bag, punching bag, striking mitts, teeth protectors and several pair of 16 ounce training gloves.

The enrollment of the class has now reached 43 and others have signified their intention of coming out to the tri-weekly classes. The squad was doubled in size last week.

#### PI K. A. INAUGURATE HOME.

Continued from page one.

district, acted as toastmaster. He served this position with his unusual wit and dug up many a piece of past history on some of the boys. A short address of welcome was extended to the visiting alumni by W. R. Towse, president of the chapter. Prof. M. D. Orten was then called upon for a talk, which was delivered with his usual good taste, and was not at all lacking in wise and sound advice to both active members and alumni.

The crowning event of the evening was the presentation to Prof.

Zeuch of a beautiful white gold watch. Prof. has been very earnest and devoted to the fraternity, having given his entire summer to caring for and supervising the building of their new home. It was with much pleasure that the boys presented to him this gift as it indicates their sincere gratitude and appreciation of his work.

Short talks, which were greatly enjoyed were forthcoming from most of the returning alumni. Mr. B. D. Simon, contractor on the building, was a guest of the chapter over the week end and his history of the building was most interesting and enjoyable.

Following the dinner came the first dance to be held in the new-

est fraternity house on the campus. The great influx of beautiful girls did wonders to liven up and put across one of the best pledge dances of the year. The orchestra was at its best and everyone of the hundred and twenty guests voted it one of the finest parties ever.

The dance was given in honor of pledges Hale, Miller, McDonald, Hoyt, Taylor, Vinning, Brock, Kew, Welsh, Wiegel and Hubbard.

The affair was most ably chaperoned by Mr. and Mrs. E. D. Williams, Mr. and Mrs. V. X. Smith, Lieut. and Mrs. John Hardin, Prof. and Mrs. Zeuch and Prof. M. D. Orten.
