ST. PAT'S ISSUE THE MISSOURI MINER MISSOURI SCHOOL OF MINES AND METALLURGY

VOLUME XXII

ROLLA, MO., WEDNESDAY, MARCH 18, 1936

NUMBER 23

THREE DAYS OF HILARITY FOR MINERS YOUNG AND OLD

St. Pat To Arrive Friday Morning at 9:00; Folsom and Nations To Lead Parade To Knighting Ceremonies on Cow; Coronation at Midnight Friday, Formal Saturday.

Beginning with the Independent dance on Thursday night at 9:00 o'clock, the twenty-eighth annual St. Pat's celebration of the School of Mines is to get officially under way.

A dance given by the Pi K. A., Kappa Sigma and Mercier fraternities is to help the program along at the Pennant Tavern from 10:00 till 2:00. Other fraternities, Sigma Pi, Lambda Chi, Triangle, and Alpha Lambda Tau are to have a dance beginning at 1:00 at the Gym and lasting until 5:00 a. m. which will complete the first night.

Friday morning at 9:00 St. Pat will arrive, via hand-car, at the Frisco depot, and, accompanied by the parade, journey to Parker Hall, where he will knight the Seniors into the Royal Order of "Erin Go Bragh". Bud Folsom and Sonny Nations are to lead the parade on the Saint's personal and private bovine. Jim Vincent, president of the St. Pat's Board, will drive immediately behind St. Pat's maneuver-wagon chariot to the knighting ceremonies in his ancient but impressive town car. The other members of the Board will follow in various modes of transportation, followed by the student body and guests.

On Friday afternoon, Alpha Psi Omega will present the play "Some Baby." Friday night, Joe Sanders will present his Nighthawks in their first appearance on the M. S. M. campus at the costume ball, at the Gym, where, at midnight, the queen, Miss Jean Campbell, will be crowned, at an impressive ceremony, by the retiring queen, Miss Dorothy Fort. The queen will be attended by the Maids of Honor from the different fraternity houses and the independents.

Saturday afternoon Sigma Nu will entertain with a tea dance at the chapter house, and Saturday night Joe Sanders will again officiate at the formal ball at the Gym.

The parade with St. Pat, and the Friday afternoon play are being used this year as a renewal of old customs of St. Pat's in the past.

The enormity of the 1936 program far overshadows the celebrations of the past, and the list of reservations indicates that the attendance will be in proportion. With Joe Sanders' music the St. Pat's Board has completed a master stroke in making possible the finishing touch in entertainment.

FRATERNITIES HOSTS TO MANY GUESTS THIS YEAR

Alpha Lambda Tau

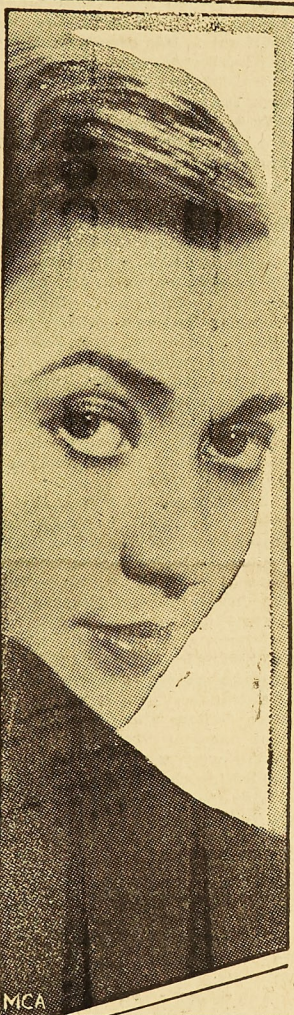

Eleanor Allen, Rolla; Ruth Jeffries, Rolla; Maxine Lotheridge, Rolla; Melba Johnson, St. Louis; Grace Stricker, St. James; Mary Stephenson, St. Louis. No chaperones to date.

Triangle

Margaret Timberman, Rolla; Mikki Bardsley, Rolla; Dot Sands, Rolla; Jean Campbell, Rolla; Pat Thompson, Cape Girardeau; Mary Friselli, Cape Girardeau; Clara Crump, Cape Girardeau; Ruth Brown, Knoxville, Tennessee; Marie Sisson, East St. Louis, Ill.

Chaperones: Mr. and Mrs. Pickle, Mr. and Mrs. W. J. Finley, Mr. and Mrs. E. T. Regenhart, Mr. Perry

BARBARA PARKS
Featured With
JOE SANDERS' ORCHESTRA

When Joe Sanders, 'the ole left hander' comes to Rolla, he will, for the first time in his eventful career as an orchestra leader, present a female vocalist as a featured member of his Nighthawks.

The young lady is the charming Barbara Parks who has been rendering her distinctive vocal offerings for the past eight months at the Blackhawk Restaurant in Chicago as a featured attraction of the loop spot's floor show.

"I have always," declared Maestro Sanders, "had a distinct aversion to female singers, and have never had one with our orchestra. But when we heard Miss Parks for the first time upon coming back to the Blackhawks, we knew then and there that if we ever decided to use a girl with the Nighthawks, Barbara would be the girl.

"Not that I haven't wanted a girl with the Nighthawks," continued the ever-smiling and over-exuberant 'left hander', "but I have never been able to find a girl whose vocal qualities coincided with our style of 'happy music'.

"In Barbara we found just such a girl who embraced all of those qualities in her vocal styling and

BLARNEY STONE TO REAPPEAR FRIDAY

Mysterious Rock Has Baffled Scientist Since Discovery Long Ago

Early in the nineteenth century during the process of excavation for a public building in Dublin, a rock of the most extraordinary characteristics was unearthed. It was colorless, yet not transparent. It was somewhat lighter than nothing, was shapeless, repelled all things near it and attracted everything a distance from it. It gave off radiations which caused the hands of the city clock to turn backwards until the mainspring snapped, tearing the upper portion of the dome off. A mule, standing near at the time, was uncovered kicked loose from the street-cleaners cart, dashed up four flights of stairs and kicked the skylight out of Pat McGuide's studio. A thoughtful policeman, grasping the situation and realizing something must be done immediately, seized the rock, in spite of the fact that it froze to his hands, and rolled it into a nearby cave, where it ceased activities. Here it could be studied. Geologists and astronomers from all parts of the world studied its properties and were dumfounded. At last the country engineer got out his drawing instruments and after projecting it on three different planes decided that it answered the description of the mythical Rock of St. Pat's time. The inscription, "Erin Go Braugh" was enough to convince everyone that this was true. So in honor of Blarney, St. Pat's wife, they named the stone Blarney. The following night the stone mysteriously disappeared. Nothing was seen of it for years, but in the spring of 1909 during the month of March the stone was again sighted on the Missouri School of Mines campus and since that time this mysterious Blarney stone has reappeared on the campus shortly after the arrival of the Patron Saint.

CELEBRATION IN 28TH YEAR

Precedent Set In 1909 By Senior Class; Miss Baysinger First Queen In 1915

In anticipation of the twenty-eighth anniversary of St. Patrick's Day Celebration, it is well to look back and see how this event has grown from an impromptu stag party to the biggest social event of the M. S. M. school year.

The celebration in honor of the Patron Saint of Engineers had its beginning by the students of Civil Engineering at the University of Missouri, Columbia, in 1903. It is still an annual event of the Engineering School there.

Early in March, 1908, the students of the University of Missouri extended an invitation to the School of Mines, inviting one delegate to Columbia for that year's St. Pat's celebration. At a meeting of the entire student body at the Frisco Depot, John H. Bowles was elected delegate and a collection was taken up to pay his expenses.

This was an incentive to the student body of M. S. M. to have a celebration of their own. After much skepticism of the student body and objections of the faculty, March 17th was declared a holiday in honor of St. Pat. D. F. Forrester, '09, Clay Gregory, '10, and George Easley, '09; were the committee chosen to arrange the affair and George Menefee was elected the first St. Pat. St. Pat arrived at nine o'clock via the Frisco and was greeted by a crowd armed with shillalahs. A parade was formed at the station and St. Pat was escorted to Norwood Hall, where he lectured to the students on the merits and character of the Blarney stone. He then knighted the members of the class of 1908 and Director E. L. Young. After these ceremonies, a band concert and much hilarity followed. The Miners had caught the spirit of the season and vowed that St. Pat's visit to M. S. M. should be an annual event. And thus it was.

The spirit of St. Pat's celebration has become too firmly rooted in the hearts of the M. S. M. students to abandon these festivities.

W. M. Holm was elected the second St. Pat and in addition to, knighted all the seniors, he knighted Prof. Copeland.

At this time, although it was illegal to sell intoxicating liquor to students, enough beer was secured from the Mayor of Rolla to provide refreshments for the entire student body at an all day party at the school mine.

In 1910, the frosh began the custom of going to the woods on the Sunday preceding St. Pat's and gathering shillalahs. This custom was abandoned in 1932. In 1911, Mrs. F. C. Green, nee Eva Hirdler, was the first and only woman ever to be admitted to the Order of St. Patrick.

Later the affair became more elaborate with the addition of a picture show, carnival, and a Masque Ball.

In 1915 a new era in the celebration began. A queen was chosen and the celebrations began to take the form of dignity instead of that of ridiculousness, which had prevailed before.

Miss Helen Baysinger was crowned the first queen of St. Pat's at the grand ball. It seems that this was the first time that a queen was chosen for celebration in any

ST. PATRICK WAS AN ENGINEER!

That's nothing, who isn't? But there must be some other reason for this guy having become so famous. He couldn't have gotten where he is today (that position, attained by few, which permits a celebrity to ride into town on his own private hand car) without having something more on the ball than a few tricks with a slide rule and a notebook full of Physics phormulas.

Some say he's a big-shot because he chased the snakes out of dear old Ehrland; others say poeey, nothing to it; and then still more say all he did was read a lot of books and write more, and try to teach Irish brats how to read 'n 'rithmetic, and how to be a cop and have flat feet and still be able to talk the cooks along the beat out of an apple pie.

Whoever he was, he was the Patron Saint of dear ol' Ehrland, and now holds the same job with us engineers. Who suggested it, we can't find out, but the ol' boy has had too much living in his time (born in 372 A. D.) so we won't argue with him, and will wander right on down to the Frisco Terminal Friday and see him come in in his glory, because who knows? this may be two different guys. That was a long time ago.

WHO WANTS TO WORK?

As the notorious Townsend Plan sweeps across the country, taking with it every person within thirty years of 60, either way, it is given its due amount of space by the college press, and generally passed off with a wave of the hand. Some of the more clever aspiring staff members (not editors), of course, have to get off a bit of ribaldry about the fact that youth should come first, etc., and then again some try to point out the faults and favors of this 200-dollars-a-month-for-everybody plan.

Hoover was going to put two cars in every garage, but that was small potatoes compared to the gravy train Papa Townsend is going to put the American Populace on. He wants two garages in every family. Every one in the family over sixty gets \$200 a month with the condition that they spend it before the next check comes in, and not hold any sort of job.

Mr. Townsend says it's just a breeze. All we have to do is pass a few laws, tax the workingman 2 percent and this fine old 80 year old couple and their 60 and 61 year old children have \$800 a month with which to make whoopee.

That 2 percent is right where the plan flies apart, according to noted economists. 2 percent of what? Not 2 percent of the retail price of an article; it's 2 percent of every article changing hands, or a transactions tax. As M. S. Rukuyser says, "a 2 percent tax on taking the iron out of the mine, plus 2 percent on smelting the iron into steel, plus 2 percent on converting the steel into a semi-finished product, plus 2 percent on the finished product as it moves from the manufacturer to the jobber, plus another tax as it moves from the wholesaler to the retailer, plus a final tax on the complete product—be it automobile, or safety razor, etc., and would finally amount to a tax of from 25 to 50 percent.

LOVE FOR MUSIC OVERCOMES "OLE LEFT-HANDER'S" PLANS TO RETIRE FROM FIELD

When Joe Sanders closed an extended engagement of almost four years at the Blackhawk Cafe in Chicago, he had no intention of ever returning to this famous loop restaurant.

Having been engaged in the orchestra field for almost twelve years without more than a week's vacation at any one time, the ole left hander decided it was time he gave his 'southpaw' a rest from his strenuous baton waving duties.

He hid himself out to Beverly Hills, California, purchased a home in a secluded section of the film colony, and there for the first time since entering upon a musical career, he was able to live a life of comparative ease, and reflect upon the glories that had been heaped upon him during his eventful career with the Nighthawks.

But as is usual in cases such as this, Joe could not resist the lure of motion picture offers for some original compositions to be used in musical productions, and needless to say, his rest period was cut short when the producers baited him with very tempting offers. A few of the ole left hander's tunes found their way into pictures before Joe decided that he'd rather have his own orchestra together again to play his music in his own distinctive manner.

A true son of the West (Joe was born in Kansas), Joe let action speak for him, and hastily reassembled his crew of musicians for his return to Chicago.

Having played baseball and starred at it before turning all of his attention to music, Joe learned that a team was only as strong as its weakest player.

Applying this same logic to his music, Sanders, or as he is more familiarly termed, 'the ole left hander', gathered around him what he considered to be the finest musicians possible for his flexible style of playing.

While most of the credit for the brilliant records established by the Nighthawks must naturally fall to Sanders, still he realizes the value of the men behind him and refuses to allow them to be left out of the limelight when honors are being distributed.

The personnel of the Nighthawks is as follows:

DEAN STEVENSON, drums—Calls Boone, Iowa home. Has been with Joe for over two years following two at the University of Iowa.

CHARLES BALDWIN, guitar—Native of Chicago, with Joe for more than two years. Does some of the arranging.

EDDIE EDWARDS, bass—A little fellow for such a big horn, but has been handling the job with Joe for almost six years. Born in Washington, Indiana, was in the Navy for a spell—also does some of the band's arrangements.

JACK CATHART, trumpet—Versatility personified—Came to Joe from Indiana University by way of Michigan City. . . . Wears an S. A. E. pin and does some of the band's arranging.

JACK GILLESPIE, trumpet—Comes from the 'show-me' state, attended the University of Nebraska where he was a member of Beta Theta Pi.

GARY NOTTINGHAM, trombone—From the great Northwest and the University of Oregon he came to slide his horn for Joe, and has been doing so for over two years. Does some of Joe's arrangements.

REX DOWNING, trombone—Believe it or not, he's from Weiner, Arkansas. Sanders picked him up at Notre Dame 12 years ago and hasn't been sorry.

HAROLD THIELL, saxophone—Another old timer with Joe, with him for 12 years. Also from Missouri, Joplin is his home town.

BILL McDOWELL, saxophone—Still retains some of his Nashville accent despite his two years in Chicago with Joe.

DALE STODDARD, saxophone—Born in Palo Alto, California, attended the University of Southern California. Has been with 'the ole left hander' for over two years.

HARRY SAPIRO, saxophone—Left Davenport, Iowa to make his way in the big city two years ago. Joe heard him once and Harry has had a job ever since.

JACK SWIFT, vocalist—Jack was a potential All-American football player, but garnered his education in spurts at four different middle western universities, thus losing his chances for gridiron glories. Native of Columbus, Georgia, but now calls Danville, Illinois, his home. Has been with Sanders for four years.

BARBARA PARKS, vocalist—Barb'ra came up from Memphis, Tennessee and has been doing 'all-right vocally'. Has been with Joe since he opened his last engagement at the Blackhawk.

A recapitulation reveals that besides Joe, there are five arrangers in the band, each of whom is absolute monarch of the tune which has been handed him to arrange. Sanders brooks no interference from anyone in the matter of his musical offerings, and accordingly, he gives his arrangers free rein in allowing them to proceed as they see fit.

Chicago critics and public alike were dubious about the return of their one-time favorite, but all their doubts were cast aside as Joe proceeded to smash record after record during the course of the first week of his return to the Blackhawk Restaurant, his old stamping grounds.

THRU THE TRANSIT

Well here it is, we were out last week-end trying to dig up a little dirt but it seems that the reporters (us) fell by the wayside. We did make the Base Ball dance though. Usual thing, half uptown, and half way down town; most everybody half happy and the rest didn't know enough to care. Don't know whether the local club found very many ball players at their dance, but they sure produced one fast pitcher. The local high jump champ (Lange) certainly had a lot on the old ball. It seems that he picked up one of the local bells (fire alarm) and really paraded her (or sompin' for everyone to see.

Several of the boys made the "rat races" down at Mittendorf's; coupla the boys from down at the "Pika" house were around at the back door staggering at the screen, but otherwise it must have been fairly quiet. They might have gotten by without any comment but they had to go up to "Happy Hollow" looking for a dance. They say that that used to be a pretty hot spot, five years ago, but they have been out of business since then, better luck next time fellows, try "Pop Eyes Place," you'll just be two years late there.

All the boys seem to be getting ready for the big celebration. We see, every now and then, some bulky burlap-wrapped packages being passed out to the more noted "pitchers," but the surprise comes when we see guys like old Major

Pistol Woerheide on the receiving end of the burlap sacks. He was getting in a few practice licks at the baseball dance last week, and should have gotten in perfect condition.

And then Ni Adams, at about the close of the batslingers hop decided to bat off to Wisconsin for a week without saying boo nor nothin' to his St. Pat's date at Columbia. Must have gotten sentimental over that Wisconsin gal.

Arnie K. P. Hermann, after bumming a ride with Mr. Scott to St. Louis and boring the passengers all the way in with his idle chatter, was embarrassed when he found that he didn't have enough money to get home on the street car. Well he stammered around for a while, and finally got it across that he wanted to borrow a dime. Mr. Scott loaned him the dime, and we think he murmured, "Well it's worth it."

During the Rifle Team's stay in Boonville the boys attempted to carry the old Miner spirit right into Dan'l Boone's stomping grounds. Price and Kiser lost a coed or something in the hall of the hotel and spent the rest of the night chasing it around the halls in their unmentionables, and Paris must have found her, cause he spent the rest of the week with her, and we're not sure whether he's gotten back to Rolla yet. Think maybe Price is back though. He can't miss the

LONG TRACK SEASON

Cindermen Open Season at
Columbia March 27, in M.I.
A. A. Indoor Meet

A longer track schedule than usual is facing the Miner cinder stars this year, because of the M. I. A. A. indoor meet to be held at Columbia on March 27, and Drake Relays to be held at Des Moines, Ia., on April 25. Coach Harold Grant is also planning on entering several men in the Kansas Relays at Lawrence on April 18.

Thirteen letter men from last year's squad have been working out as well as several freshmen who have been looking good in pre-season practice. Robert Lange, holder of the state high jump record, has hit well over 6 feet in workouts, and only recently took that event in the St. Louis indoor relays with a mark of six feet three inches.

Only One Dash Veteran

Jim McGregor is the only dash man back, but Joel Loveridge, a freshman from Kirkwood, Mo., has been coming along nicely and will probably make the trip to Columbia for the conference meet in two weeks. Ed Ballman, and Al Worhide, letter men, will take care of the 220 and 440 yard dashes for the Miners, while Kenneth Tuckett, a freshman, has shown speed in the

celebration. Guess one of the town boys was pretty well sat on when a Sigma Nu pledge late-dated his red-headed gal.

Hold ya hats boys, the races are beginning tomorrow, and the traveling will probably be rough for the inexperienced wayfarer.

440.

Jack Hall, a three-year letter man, has turned in the best time for the mile and two-mile run, although Red Brown, a veteran from two seasons ago, is not far behind. Roger Tittle, is shining in the two-mile run and is expected to give Hall and Brown a battle throughout the season.

The Miners do not stack up so well in the field events, as most of the winners of last year have graduated. Coach Grant will probably have trouble replacing such men as Eager Nixon, Elmer Spotti and Andy Aylward, who took first place in the shot put, discus and javelin throws. Herman Pfeiffer, veteran football, basketball and track star, will take care of the javelin and shot put, and Oscar Grewis is also one of the outstanding candidates for the javelin.

Heslet in Shot Put.

Charles Heslet, a newcomer, has shown promise in tossing the shot and may make the trip to Columbia. At present Blick Blish is the only veteran working out on the pole vault, although several freshmen have shown promise.

Joe Murphy is the only experienced man running the hurdles and Ray Yungbluth, a freshman, is promising.

The Schedule:

March 27—M. I. A. A. indoor meet at Columbia.

April 11—Westminster at Fulton (tennis and golf).

April 18—Kansas relays at Lawrence, Kansas.

April 22—Springfield Teachers at Springfield (tennis and golf).

April 25—Drake relays at Des Moines, Iowa.

April 27—Missouri, Warrensburg and Miners triangular meet at Columbia.

May 8—M. I. A. A. outdoor meet at Springfield (tennis and golf).

CHEMICAL SOCIETY PLANS PROGRAM

An important meeting of the Ira Remsen Society was held last Wednesday night. After a bit of gee-hawing as to the small attendance in the past, it was decided that the reason for the small attendance at the meetings was due to lack of interest. Then all the members present scratched their heads and did some extra heavy thinking, for chemists, and really produced a swell program for the remainder of the semester.

The speakers to be heard on the program are: Dr. Sidney Calvert, Professor of Organic Chemistry at the University of Missouri; Dr. E. A. Doisy of St. Louis University, and C. W. Rippie of Shell Petroleum Corporation. The exact dates that these speakers will be heard will be announced shortly. Their subjects not only pertain to chemistry, but will be of general interest to all engineering students. We want to see most of you chemists at the meetings; this is your society so make it a REAL one.

It may not be known to all students that the Ira Remsen Society is an organization for chemists and chemical engineers and that its prime purpose is to stimulate interest in chemistry and good fellowship among the chemists. The meetings are general "get-togethers" open to all those interested in chemistry and chemical industries. Come on fellows let's have a big turn out at our meetings. The next meeting is Wednesday, March 25, 1936.

Each Puff Less Acid A LIGHT SMOKE

OF RICH, RIPE-BODIED TOBACCO

For twenty-five years the research staff of The American Tobacco Company has worked steadily to produce a measurably finer cigarette—namely, a cigarette having a minimum of volatile components, with an improved richness of taste—"A LIGHT SMOKE."

We believe that Lucky Strike Cigarettes embody a number of genuinely basic improvements, and that all these improvements combine to produce a superior cigarette—a modern cigarette, a cigarette made of rich, ripe-bodied tobaccos—A Light Smoke.

Luckies—"IT'S TOASTED"

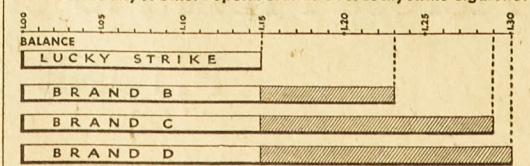

Your throat protection—
against irritation—against cough

Luckies are less acid

Recent chemical tests show* that other popular brands have an excess of acidity over Lucky Strike of from 53% to 100%.

Ellis Stars as Independents Defense Spikes Big Guns of Sigma Nu Scoring Attack; Murphy and Hoener High Point Men With Six Markers

By B. C. Compton

The guy that wrote the lyrics for "I'm putting all my eggs in one basket" had nothing on the Sigma Nu basketball five, for the Snake House crew put all their scoring punch in one player last week in the playoff for the intramural title.

However the smooth-working Sophomore quintet successfully "spiked" the punch and defeated their rivals for the second time in two weeks, 22 to 15, to gain undisputed possession of the 1935-1936 flag.

The "Gas House Gang," more commonly known as the Sophs advanced into the title game by eliminating the hard-pressing Freshmen crew earlier in the week, 28 to 19, after the three teams had tied for first place at the end of the regular season.

In both games the Sophomores showed an airtight defense, their cause helped considerably by six-foot Craig Ellis, pivot man, who held Strait, holder of the Intramural scoring record, to seven markers, and Gene Holliday, the only Sigma Nu scoring ace, to one lone free throw.

In the championship game, both teams opened play rather wildly as Curtis and Ballman hit to give the Sophs a 4 to 0 lead. Stella came back with a charity toss and Hoener sank the first of three field goals for the Sigma Nu's.

Undaunted, the second-year crew shook Kiesler loose under the basket and Stooze had nothing else to do but hit the hoop for two more points.

Hoener came back with a short shot from the side and when Folsom made good on a free throw, the score was tied. With three minutes left to play in the half, Katz tossed in a free throw when fouled by Ballman, and the Snakes went into a one point lead.

As the half ended Ellis took Curtis shot off the backboard and followed up with a setup. The score at the half was, Sophs 8; Sigma Nu's 7.

Adams come through with a setup to give the Sigma Nu's a lead at the start of the second half, but Murphy regained the lead for the Gas House Gang with a short shot and they never relinquished it.

Play became wild at this point as both teams ran up and down the floor, kicking the ball, batting it around, and in general doing everything but playing basketball.

Gradually however, play steadied down and as the result the Sophs were able to score several points. Only in the last few minutes did the Sigma Nu's threaten, but new blood in the Sophs lineup as several men were ejected on fouls, successfully overcame the sudden uprising.

Allen Hoener was high point man for the fraternity team with six markers while Murphy led the Sophs with six.

In the Sophomore-Freshman battle, the first-year men were unable to cope with Eddie Ballman, and the half pint forward hit six field goals and a charity toss for a total of 13 points.

Freshmen	6
Seniors	4

By Jimmie Evans

The finals of the wrestling tournament last Wednesday night brought out one of the largest crowds of the season, to witness an intramural sport of any sort, and during the evening they saw a card packed with lots of excitement. Wrestling under the national intercollegiate rules the matmen gave plenty of action to the cheering audience and as a result brought on a varied finale for there were four falls, two decisions, and one draw. Under the intercollegiate rules if both opponents are not off of their feet in the first two minutes they go to the mat in the referees position with the more aggressive of the two men behind with the advantage and they then wrestle for two three minute periods. At the beginning of the second period the two men change places in the referees position. If either man wins a fall during the first period the bout is not at an end for if the other man can pin him in an equal time in the second period the bout is called a draw. Only one of the seven matches was run in this way, it was the bout between Bishop and Gregg in which Bishop pinned his opponent in the first three minute period.

With the completion of intramural wrestling we find that the Sigma Nu house walked off with the larger share of the honors and won the cup for team supremacy as a result of their having three men as weight division champions and two men as runners up. The honors for second place will have to be split between the Pi K. A's and the Sigma Pi's for both ended up with a total of thirteen points.

The grand finale of the evening came when the final windup on the night's card brought together those two great wrestlers, "Ivan the Terrible Turk" Boorky and "Daniel Boone Savage" Kiesler for the Hillbilly Championship of the World. The Stooze waltzed into the arena with his red wig and coon dog and proceeded to clip the

Turk, twist his head in the ropes, and body slam him all over the place while he himself was being spun, tossed out of the ring and kicked back into it until they both turned upon the referee, that ex-football captain of the Miners, Dick Thornton, and proceeded to manhandle him.

With the great amount of interest shown in the sport this year it will make it possible to have a much better season next year and to also begin work outs earlier in the year so that the matmen may be in much better shape.

Finals

126 Pound Class
Dorse Bishop pinned Robert Gregg in the first three minute period in 2 minutes 21 seconds.

135 Pound Class
Howard Sherman pinned Fred Hoener in 21 seconds.

145 Pound Class
Harry Tushman won a decision from John Soult with a time advantage of 4 minutes, 16 seconds.

155 Pound Class
George Dickinson and Jim Wilson wrestled through two overtime

periods to a draw.
165 Pound Class
Joel Loveridge pinned Ed Simpson in 1 minute, 57 seconds.

175 Pound Class
Tony Plummer won a decision from Ed Roy with a time advantage of 2 minutes, 6 seconds.

Heavy Weight Class
Bud Folsom pinned Herb Harris in 1 minute, 29 seconds.

HISTORY OF ST. PAT'S

Continued from page one

school.

Since then, it has expanded into the present-day affair with House Dances the first night, the Masque Ball on the second night, and the Formal Ball, the third night.

In 1931, the Junior Class was relieved of the duty of running St. Pat's and the present St. Pat's Board took over the management of the affair.

From a humble beginning, St. Pat's has grown to be not only the most elaborate and most noteworthy at M. S. M. but also to be a festive occasion in many engineer-St. Pat's. It is logical because St. Pat's should continue to grow and become better each year. It is necessary in order to maintain the prestige of the school with the alumni, and with other universities.

St. Pat's have been elected and queens crowned in the following order:

- 1908—George Menefee; no queen.
- 1909—W. M. Holmes; no queen.
- 1910—D. L. Forrester; no queen.
- 1911—A. W. Hackwood; no queen.
- 1912—H. H. Nolan; no queen.
- 1913—A. F. Truex; no queen.
- 1914—F. L. Johnson; no queen.
- 1915—J. J. Doyle; Helen Bay-singer.
- 1916—J. C. Reilly; Mary McCrae.
- 1917—H. S. Clark; Olive Scott.
- 1918—M. McCarthy; Mrs. Fred-erick D. Gardner.
- 1919—E. K. Schuman; Edna Kiel.
- 1920—A. B. Needham; Nancy Love.
- 1921—J. E. Jewell; Hazel Dent.
- 1922—David F. Walsh; Margaret Sally.
- 1923—C. E. Stover; Mrs. C. E.

Stover.

1924—W. S. Stack; Eva Under-wood.

1925—Ray Kollar; Helen Under-wood.

1926—Ralph Hilpert; Dorothy Kiesler.

1927—Gerald Roberts; Lorraine Love.

1928—B. L. Ballard; Lucy Kies-ler.

1929—J. Richardson; Elizabeth Long.

1930—A. J. Tiefenbrun; Madge Lenox.

1931—Jim Offut; Marion Mc-Kinley.

1932—R. A. Parker; Emily Mc-Caw.

1933—M. H. Murray; Sybil Powell.

1934—J. C. Settle; Mickey Coff-man.

1935—F. W. Arnold; Dorothy Fort.

BARBARA PARKS

Continued from page one

we are, needless to say, very happy to have her with us."

Miss Parks, who was born in Cleveland, Ohio and reared in Mem-phris, Tennessee, has been singing professionally for only three years, but in those three years she has emerged as a definite personality in the world of vocal entertainment.

Prior to her arrival in Chicago, Miss Parks was featured at the Palais Royale and Marden's Riviera in New York. While at the Black-hawk with 'the ole left hander' Miss Parks was featured over WGN and the Mutual network, as well as in the floor show.

THE BRAIN TEASER

Last week's brain teaser was based upon the law of probabilities. Since there are 8 letters in all, the total number of ways of drawing 3 letters of any kind is $\frac{7 \cdot 6 \cdot 5}{1 \cdot 2 \cdot 3} = 56$ similarly, the number of ways of drawing 3 capital letters is $\frac{4 \cdot 3 \cdot 2}{1 \cdot 2 \cdot 3} = 4$. Hence the desired probability is $\frac{4}{56} = \frac{1}{14}$.

A few years ago a man built a square swimming pool and placed at each corner a tree. After some time the number of patrons in-creased to such an extent that this man desired to double the size of his pool. Since he had expended a lot of energy and money on the trees at the corners and also be-cause he liked the square shape of the pool, he wanted to double the size without moving the trees or changing the general shape from that of square. How did he do it?
