Eighty-Three Per Cent of Seniors Have Positions

Enoch R. Needles To Deliver Commencement Address; Will Also Receive Doctor's Degree

The graduates from M. S. M. this year are finishing school at a time which seems to be the most prosperous in the last eight years. Eighty-three percent of the class of '37, has been successful in obtaining definite employment, in most instances, in their own field of Engineering. As early as the first part of March, employers and engineering concerns began to come to our school to interview seniors for prospective jobs. Ever since January calls came for graduates that could be located applicants. The following men will graduate with a B. S. degree in the indicated curriculum and have been placed with the following companies:

M. S. Alexander, M. E., with U. S. Naval Reserve at the Great Lakes Training Station.

F. C. Appleyard, Mining, U. S. Gypsum Co., Chicago, Ill.

A. H. Barclay, Min., U. S. Gypsum Co., Chicago, Ill.

T. L. Baxter, E. E., Aluminum Company of America, New Kensington, Pa.

J. J. Beinlich, Metallurgy, American Steel and Wire Co., Cleveland, Ohio.

C. F. Benner, Metallurgy, General Electric Co., Pittsfield, Mass.

H. R. Bently, C. E., Illinois Highway Department.

H. C. Berger, Chemical, American Rolling Mill Co., Middletown, O.

D. S. Bishop, C. E., Illinois Highway Dept.

A. F. Bochenek, M. E., Babcock and Wilcox, Barberton, Ohio.

T. J. Bommer, C. E., Illinois Highway Department.

W. F. Breuer, C. E., Missouri Highway Dept.

B. W. Brown, C. E., S. G. Hays Construction Co., Chicago, Illinois.

W. C. Busch, E. E., Westinghouse Electric Co., East Pittsburgh, Pa.

R. J. Cardetti, Chemical.

R. R. Carrola, C. E., Illinois Highway Dept.

R. P. Cherry, Chemical, National Lead Co., St. Louis, Mo.

W. W. Culbertson, Metallurgy, American Steel and Wire Co., (summer); Case School of Applied Science, (next winter).

J. M. Dewey, C. E., Illinois Highway Dept.

G. W. Dickinson, Mining, U. S. Gypsum Co., Chicago, Ill.

R. L. Elgin, C. E., Phillips Petroleum Corp., Bartlesville, Okla.

P. B. Ellis, M. E., U. S. Naval Reserves, Pensacola, Florida.

C. L. Fenwick, C. E., U. S. Gypsum Co., Chicago, Ill.

J. W. Frame, Metallurgy, Carnegie-Illinois Steel Co., Pittsburg, Pa.

E. P. Gould, C. E., Illinois Highway Dept.

L. E. Grafft, C. E., S. G. Hays Construction Co., Chicago, Ill.

M. E. Green, Ceramics.

O. E. Grewis, C. E., S. G. Hays Construction Co., Chicago, Ill.

R. D. Grimm, Petroleum, Phillips Petroleum Corps., Bartlesville, Okla.

C. H. Harris, C. E., Carnegie-

M.S.M. BAND WON SECOND IN STATE WIDE CONTEST

At the Lions Club state-wide convention held in Rolla on May 17, MSM Band won second place in the music contest. Due to the untiring efforts of Director John W. Scott, our band of twenty-nine talented members has developed into an organization that has attracted state-wide attention. We often fail to recognize the virtues of our local organizations and depend upon outsiders to discover their outstanding features. In their remarks, the judges said our score would have been higher if the members of our band had worn uniforms of more attractive appearance. It is hoped that another year our organization will be provided with more distinctive-looking uniforms.

The members of the MSM ROTC Battalion wish to express their appreciation to the Lions Club for the complimentary theater passes given them.

Illinois Steel Co., Chicago, Ill.

G. A. Harwell, C. E., Illinois Highway Depart.

A. P. Hausmann, Chemical, American Rolling Mill Co., Middletown, O.

C. G. Heslet, C. E., Cotton Belt Railroad, St. Louis, Mo.

O. K. Holman, Petroleum, Texas Company, Houston, Texas.

W. L. Holz, M. E., Gulf Oil Co., Tulsa, Oklahoma.

W. R. Jarrett, E. E., General Electric Company, Chicago, Ill.

P. A. Jenni, Chemical, Soconog-Vacuum Oil Co., Augusta, Kansas.

R. R. Kaley, M. E., Caster Oil Co., Tulsa, Okla.

W. A. Kopp, M. E., Aluminum Company of America, New Kensington, Pa.

R. C. Lange, Chemical, Phillips Petroleum Co., Bartlesville, Okla.

E. W. Logan, E. E., Emerson Electric Co., St. Louis, Mo.

J. L. McGregor, Science, Western Electric Co., Chicago, Ill.

J. W. McLaughlin, E. E., Union Electric Co., St. Louis, Mo.

W. G. Maloney, M. E., A. P. Green Fire Brick Co., Mexico, Mo.

F. S. Millard, Petroleum, Schumberger Well Surveying Corp., Houston, Texas.

W. T. Moore, M. E., Stanolind Oil and Gas Co., High Island, Texas.

A. L. Mueller, E. E., Aluminum Company of America, Alcoa, Tenn.

J. W. O'Neal, M. E., General Electric Co., Schenectady, N. Y.

N. H. Ottinger, C. E., Cotton Belt Railroad, St. Louis, Mo.

E. V. Porter, E. E., Westinghouse Electric Co., East Pittsburgh, Pa.

S. S. Post, Metallurgy, General Electric Co., Schenectady, N. Y.

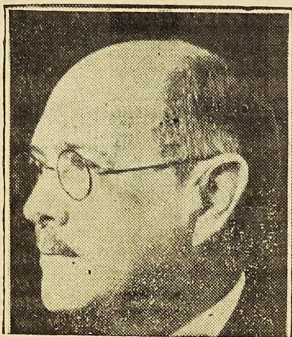

S. R. Price, M. E., Ingersoll-Rand Co.

G. R. Reading, Chemical, Graduate Assistant at M. S. M., (winter), Atlas Powder Co., Webb City, Mo.

G. W. Schaumburg, Chemical, Carnegie-Illinois Steel Co., Chicago, Ill.

J. C. Settle, E. E., Kearney, Corp.,

TO THE SENIORS:

DR. C. H. FULTON

I wish to extend to each individual of the Senior Class my heartiest congratulations on the completion of your student's career at M. S. M. I know that you have given your very best effort to your studies and education while here and that the faculty members have used their very best endeavors to make budding engineers of each and every one. It is a matter also of congratulation that industry and business have returned to practically their former prosperity and that 64 out of a class of 94 have definitely secured jobs and that the other 30 are all considering offers of employment. Be sure to join the Alumni Association, and when you get out work hard and loyally for your alma mater, M. S. M.

Best wishes to all of you.

Signed: Charles H. Fulton,
Director of the School of Mines
—M.S.M.—

SPECIAL NOTICE

On Thursday evening, May 27, the Faculty will give the Annual Commencement Dance in honor of the class of 1937. Jimmy Gilmore and his orchestra will furnish the music from 10 to 2. Blue Key will decorate the gymnasium for the occasion. All students, alumni and friend accompanying them will be admitted without invitation. All others are asked to present their invitation at the door.

St. Louis, Mo.

K. F. Sheckler, Ceramics, A. P. Green Fire Brick Co., Mexico, Mo.

A. K. Shores, Chemical, Union Electric Co., St. Louis, Mo.

H. D. Stogsdlil, C. E., Illinois Highway Dept.

J. F. Vahle, E. E., Union Electric Co., St. Louis, Mo.

J. A. Vincent, C. E., Illinois Highway Depart.

F. K. Vogt, Chemical, Titanium Pigment Co., St. Louis, Mo.

E. W. Volz, Chemical, Carnegie-Illinois Steel Co., Pittsburg, Pa.

The following students completed their work at an earlier date, but are receiving their B. S. degrees this year:

W. J. Barr, Mining, Phelps-Dodge

Eloquent Sermon and Elegant Program By Rev. Walter Mitchell Well Attended

SIGMA XI MEETING

On the 30th of April the Honorary Scientific Society of the Sigma Xi elected new officers who will take office at noon, Commencement Day, and serve for one year. These newly elected officers are:

President, Dr. O. R. Grawe
Vice-President, Dr. S. R. B. Cooke
Secretary-Treasurer, Mr. J. B. Clemmer.

The new Nominating Committee consists of: Chairman, (ex-officio) Mr. J. B. Clemmer, Professors Clayton, Stephenson, Monroe, Cooke.

Mr. Walter Duncan, Research Fellow with the U. S. Bureau of Mines at Rolla was elected a member of the Society of the Sigma Xi, and was initiated at Columbia Friday evening, May 20.

—M.S.M.—

Dr. Mann Addresses St. Louis Section Alumni Association

A Direct Appeal to the Citizens of the State to Provide the School of Mines with Necessities for Benefits Which Are Returned Many Times to the State.

The annual meeting of the St. Louis Section of the Alumni Association of the Alumni Association was held Wednesday night, May 19, at the Century Boat Club, 5500 South Broadway, St. Louis, Missouri. A feature of the evening was an address on "The History of the School of Mines from 1804" by Dr. C. V. Mann, Professor of Engineering Drawing and Descriptive Geometry.

Dr. Mann brought the history of M. S. M. down from 1804 to now, telling of its origin and construction. The State decided to have the agriculture and engineering schools at different locations. They were both established under the Land Grant Act passed by Congress in 1862. The Location Commission, made up of the Board of Curator's, permanently located the School of Mines at Rolla by authority of the Constitution of Missouri of 1875; and the school of agriculture was located by the same commission at Columbia by the same authority. Thus ROLLA HAS THE ONE LAND - GRANT ENGINEERING COLLEGE IN MISSOURI.

The School of Mines has had an unfair deal from the very first. In the whole period 1875-91, it did without a professor and department of geology and a professor and department of physics, which led to Director Eckles in 1891 to address a fiery letter to the Legislature complaining that the administrative body for the school had failed to follow demandant instructions of the Legislature in providing these wants. Since early times, there has been a lack of class room area. A particular want and need in this

Continued on Page Three

A large audience, completely filling the lower and part of the balcony seats of Parker Auditorium, were wearing their best smiles (that only such a day as last Sunday, May 23 could inspire), gay hats, and spring suits. With a balmy May day outside and the auditorium beautifully decorated with flags and flowers inside, the complete audience was in their best spirit to receive the elegant program and eloquent sermon.

At 10:45 A. M. the Seniors in their long, flowing gowns led a procession from Norwood Hall followed by the Faculty. Before its arrival, the audience were entertained by the prelude, "O, Fair Dove," by Schlepegrell, played by the Rolla Orchestra under the direction of Mr. John W. Scott. After the prelude, in marched the Seniors followed by the Faculty to music, "March Militaire," by Huff, to their prescribed seats in the center of the auditorium. The invocation was given by Rev. O. V. Jackson, Rector of the Christ Episcopal Church of Rolla, by first repeating the Lord's Prayer followed by his own prayer. The audience were then favored by the anthem, "Praise the Lord, O My Soul," by Michael Watson, sung by the chorus composed of Mesdames I. H. Lovett, H. P. Hunter, Paul Winter, Fern Crull, E. D. Williams, and Miss May Keeney; and Messrs. H. P. Hunter, H. D. Thomas, Paul Fague, and R. M. Rankin.

Following the anthem was the Baccalaureate Sermon, "Freedom Through the Truth," by Reverend Walter Mitchell, Bishop of Arizona, Phoenix, Arizona. Reverend Mitchell was a student at the School of Mines several years ago. The highlights of his sermon were as follows:

"Commencement is an ending, yet a beginning. The open door is ahead. There are new activities and possibilities of glories in life ahead. What a life to be for you (Seniors of '37)? A foundation for life, made us, and put us here. It was so important that we know what those foundations are that He sent His son to reveal to us by living the kind of life we should live.

"You shall know the truth and the truth shall make you free." Wars will not free us as we have had several wars and are not free. Our forefathers said education would free us. After the War, schools began training for efficiency and specialized training for the hours of labor. Education has come to mean a job and money. The criminals in our prisons are gradually getting closer to the college age. We are eliminating the cultural subjects in our schools. We are teaching students how to work efficiently, but are not training them how to spend their leisure time. Shorter hours makes more time in which to live, but we don't know how to use it. When we are trained only for the hours of business, what are we going to do with our leisure time? Broken homes are caused largely by either of the parents not having time for the home. We have all lost the reason of

AS WE LEAVE—

As the student looks over the campus this week the accomplishments of cooperation stand out in the beauty of the campus. This last spring has witnessed the first successful campaign toward campus beauty ever waged at M. S. M. Now as we leave for three months the cooperation of those left in charge is asked in order to insure the continuity of the work that has progressed with such rapidity this spring.

To Blue Key I extend the appreciation of the student body for their interest in the beauty of the campus and the erection of 'PLEASE' reminders. I also apologize to the student body for the childlike actions of those who attempted to destroy the signs. May they grow to be men this summer in ways other than size. Society overlooks the faults of many of its creatures, but to some it administers punishment. In September, if they continue, we can better judge their case.

—M. S. M.—
TO THE CLASS OF 1937

You men have completed a course of study here at this school which has taken you four years to complete. In a way you have been cheated out of part of your training for what is to come by the fact that you have let your minds think along very narrow channels rather than upon the broader things. This is, of course, through no fault of your own making, but rather upon the circumstances into which you have been forced. You men are going out of here rather ill-equipped, so far as the niceties of life are concerned. That is, beyond a question of a doubt, going to be your biggest liability and the greatest obstacle which you must overcome to make the success of life that each and every one of you sincerely hope to have. So far as the theoretical training is concerned, you have had as good as 95 per cent of the men graduating all over this country can boast. You have, however, been permitted to attain and it is in this respect that I say that you have been cheated of part of your training. Taken as a whole you men have not been permitted to attain a personality which will get you over many of the rough bumps that you are going to encounter along your way. As I have said, you have the jump on the rest of the men so far as theoretical training is concerned but you will have to get out of that rut, broaden your background, and in general acquire an individual personality which is suitable to each of you. This is your own problem and, I think that I am safe in saying that this will be perhaps the biggest thing that you will ever tackle. In closing permit me to offer you my most sincere congratulations and to each one of you may I wish the best of everything in life.

Guest Editorial.

MEMORIAL DAY
MAY 30TH

Shortly after the close of the war between the states, the people of the South inaugurated the beautiful custom of decorating the graves of both the Union soldiers and the Confederate soldiers who slept side by side in their cemeteries.

In 1868, this widespread custom was permanently adopted as a result of the proclamation of General John A. Logan, Commander-in-chief of the Grand Army of the Republic, who designated May 30 as "Decoration Day." State enactment and national proclamation followed and today Decoration Day has become Memorial Day, a sacred and a country-wide observance.

It is in conjunction with this observance of Memorial Day that the Veterans of Foreign Wars of the United States conducts its annual nationwide distribution of the copyrighted Buddy Poppies, made by disabled veterans, for the benefit of disabled and needy veterans and the widows and orphans of veterans. Inaugurated in 1922, the Buddy Poppy sale has become one of the most widely popular of public philanthropies in the United States.

Memorial Day ceremonies will be held by Veterans' organizations at the various cemeteries throughout the country.

"On this day, forever consecrated to our heroic dead, we are assembled once more to do them reverence.

By our presence here we recognize their devotion to duty, their courage, their patriotism and their comradeship."
(As American students let us remember the significance of Memorial Day.)

By Carr

It is only customary at the end of the school year when seniors are hearing "Tonight We Sail; Where Shall We Anchor," to pick a list of the high spots of the year. Without the services of a Literary Digests poll, we've found this task to be about as easy as getting out of the chem lab with money in your pocket; but, nevertheless, we've tried to select a good list of the five outstanding campus activities.

After much deliberative meditation we have awarded first place, the Zenith of Campus activities to the Thanksgiving, Washington's Birthday, and Christmas Vacations. Without a doubt these activities hit a high spot in the school year.

St. Pat's must be placed near the top on anybody's list. Because of its ruggedness, speed, and all-round versatility we've picked it as second on our campus-high-spots parade. If all the sleep lost during St. Pat's were placed end to end, it

would be quite sufficient to put every Miner to sleep in every class every day of the next semester.

The third stellar feature of the year on our list is the pantsing of freshmen. (Except for the three times ye columnist lost his.) Pants were so thick on the campus during Freshmen Week that had a person had the insight to gather them up he could have started a business a la Kelley's.

The last two places on the list were the hardest to choose. We had everything from Bud Fulson's leaving school to the Miner-St. Louis football game to choose from. By tossing a coin, however, we've decided that Home Coming merits the two times two position on this important list. Fifth place will be told only on request.

Next fall on special request of both of our readers we may be persuaded to pick another all star list; but until then, dear readers, Au Revoir.

place in life. The life of mankind has been meaningless. Man has found new ways of being lost. Old paganism believed in some kind of God, so it was easy to bring them to the right God, but the modern paganism believes nothing and isn't tied to anything. "God will show us why he brought us here if we are willing. You (Seniors of '37) will find yourselves working among many different kinds of people; remember that they are men like yourselves. Only freedom will satisfy you, which means knowing the truth and being the truth."

The chorus next sang the anthem, "O, Praise the Lord, Ye Nations," by Clifford Demarest.

The benediction was given by Rev. O. V. Jackson, after which the orchestra played "On to Victory," by F. J. St. Clair, and the Faculty marched out followed by the Seniors.

Rev. Mitchell proved to be a very eloquent speaker and greatly inspired his audience. About 56 Seniors were present.

present period, which has been refused, is a building for the Departments of Geology and Ceramics. Even if the present Legislature should provide such a building, the trend of increase in student attendance seems to indicate that even another building might be required to provide the necessary class area before the next Legislature would end its sessions.

The value of the School of Mines to the State of Missouri is shown by the many prominent places held in the world by the sons of Missouri who graduated from the School of Mines. An item of great interest in connection with the School of Mines is that the research work, which has been done for mining companies in and adjacent to Missouri auspices of the United States Bureau of Mines and in its Mississippi Valley Experiment Station located on the Rolla campus, has resulted in savings and recovery of minerals, supposedly lost, that total well over \$5,000,000. This is approximately the amount of money that the School had cost the citizens of Missouri up to 1930. This one thing, if there had been no other advantages to Missouri, would

justify the existence of the School of Mines and the expenditure of public funds for Missouri as appropriated for the support of this school. This takes no account whatever of the fact that the results are of the greatest value to the people of Missouri—the education and the successful pursuit of happiness of her native sons is a benefit the school has returned to the state on which it is impossible to place any money value. The citizens of the state ought to see that the School of Mines are provided with every necessary building and appropriations to enable her to grow into the institution which the state in founding it intended; that it should be **MISSOURI'S ONE LAND-GRANT ENGINEERING COLLEGE.**

About 75 people attended the meeting including Professors Kirshner, Zeuch, Miles, and Walsh; Thornberry, who is now in St. Louis; four boys from Alton, Be-Dell, B. S. '23, Boyle, B. S. '25, Diers, B. S. '23; the School's oldest living alumnus, Dr. Ravold; Mr. Helm, the man who designed Parker Hall, Ray Rucker, B. S. '06, Superintendent of the Aluminum Reduction Company of St. Louis, Neal Hamm, President of the St. Louis Section of the Alumni Association; Goldman, Secretary of the St. Louis Section of the Alumni Association; and other of the older alumni and several of the younger men. The civis, who were on their trip, also attended.

MARRIAGE ANNOUNCED

St. Louis, Mo., May 21 (St. Louis Post-Dispatch).

The marriage on Dec. 23, 1934, of Miss Viola Ries, 5469a Ashland Ave. and Charles F. Benner, a senior of the Missouri School of Mines, Rolla was announced today. The ceremony was performed at Union, Mo.

Mrs. Benner was formerly employed by the Standard Underwriters' insurance agency here. Her husband is about 27, is now in the senior class of the School of Mines. After his graduation next month, the pair will leave for Pittsfield, Mass., where Benner will work in the engineering department of the General Electric Co.

PLUMP GIRLS ARE
FAVORITES IN KY

Lexington, Ky.—(ACP)—Plump girls with blue eyes are the favorites of males at the University of Kentucky.

Boyish-girls with slim, athletic figures may be in demand else-

where, but not at Kentucky.

A survey conducted by Dr. Jesse E. Adams of the College of Education revealed that the ideal girl is 5 feet 5 inches tall, weight 125 lbs., combs light brown hair, blinks blue eyes, and powders a fair complexion.

They Satisfy

Up-to-the-minute trains and modern planes make travel easier ... more pleasant.

And wherever you see folks enjoying these modern things of life you'll see them enjoying Chesterfield Cigarettes.

Up-to-the-minute methods and finer ingredients... pure cigarette paper... mild ripe aromatic home-grown and Turkish tobaccos, aged and mellowed for two years or more... make Chesterfield an *out-standing* cigarette.
