## American Foundrymen To Meet Here

Regional Convention of A.F.A. Present Extensive Program Here Friday and Saturday

The Regional Convention of the St. Louis District Chapter of the American Foundrymen's Association will be held at M. S. M. this week on Friday and Saturday, October 8 and 9. The foremost authorities of the land on foundry practice will be here, including Hyman Bornstein, president of the A. F. A., who will deliver an address as a special feature of the program.

The conference will involve about six technical sessions, where papers will be presented and consequent discussions led by chairmen. A luncheon, dinner, and "points of interest" tour will round out the schedule.

The conference should be of interest and benefit to all students, faculty members, and alumni of the school acquainted or desiring to become acquainted with foundry practice.

The complete program is as follows:

### Friday, October 8th

A. M.—9:00-10:00: Registration, (Club Room of the Met. Building). 10:00-12:00 SANDS — Chemistry Lecture Room. Chairman: T. C. Hamlin, U. S. Radiator Corp., Edwardsville, Ill.

Speakers: Harry W. Dietert, Harry W. Dietert Co., Detroit, Mich. L. B. Knight, Jr., National Engineering Co., Chicago, Ill.

Dr. H. A. Buehler, State Geologist, Missouri School of Mines.

C. F. Bunting, Southern Malle-

## Rally at Practice Thursday

The student body held a spirited pep rally Thursday night on the upper football field. The students, aided by the M S M band, gave a good account of themselves under the floodlights. While the team charged up and down the field in their final workout before the game, the boys on the sidelines sent up cheer after cheer in response to the cheer leaders. The "Mining Engineer" and "Silver and Gold" were sung to the accompaniment of the band. Late arrivals kept straggling in to swell the frenzied, cheering throng which finally numbered about two hundred. One late arrival reported the cheering was heard all the way down to the Gym. Keep it up boys! You'll soon be drowning out your cheer leaders.

The closing feature of the rally was a short pep talk by Coach Bullman, in which he asked the boys to give a goodly account of themselves at the St. Louis U. game. "If you have a strong cheering section at St. Louis, it will be the first one that I can remember, and I've been to all of those games for a long time," Bullman said. "So let's get out there tomorrow night and make them know we're there." Following this talk, the boys gave Bullman a cheer which could really be heard. After another yell for the team, the group disbanded to get ready for the free show.

## Miners Lose to Billikens 32-6

nant Dining Room.

Presiding: Geo. W. Mitsch, American Car & Foundry Co., St. Louis.

Speaker: Hyman Bornstein, president, American Foundrymen's Association, and Director of Laboratories, Deere & Co., Moline, Ill.

Entertainment—Arranged by C. R. Culling, Carondelet Foundry Co., St. Louis.

**Saturday, October 9**

A. M.—9:30-11:30 — Gray Irons and Alloys, Room 123 Metallurgy Building. Chairman: Hyman Bornstein.

Speakers: David B. Roeder, Electro Metallurgical Sales Corp., Chicago, Ill.

V. A. Crosby, Climax Molybdenum Corp., Detroit, Mich.

Carl Morken, Carondelet Foundry Co., St. Louis, Mo.

Steel Foundry, Chemistry Lecture Room. Chairman: Lee Everett, Key Company, East St. Louis, Ill.

Speakers: John W. Porter, American Steel Foundries, Granite City, Ill.

L. F. Bartholic, St. Louis Steel Casting Co., St. Louis, Mo.

T. N. Armstrong, International Nickel Co., New York, N. Y.

Carter Bliss, Scullin Steel Co., St. Louis, Mo.

**Saturday Afternoon**

A "Points of Interest" tour will be arranged. The A. P. Green Fire Brick Co., has extended a plant visitation invitation.

Other items of interest will be offered.

The Billikens found that the Miners were not exactly a setup in the game Friday night at Walsh Stadium. However, in the last half their weight advantage told over the tiring Miners and they consistently ripped through the line for four more touchdowns while the Miners came through for one lone counter. More than 8000 fans saw the Miners go down fighting to a heavier eleven.

Both teams started off playing hard safe football and the Miner defense brought more than one cheer from the fans. They repeatedly held off the Billiken attack until just before the end of the first quarter. After Otis Taylor punted to Walker on the 45 yard line and who ran the ball back to the 41 yard line, Denny Cochran took matters in his own hands and gained three yards through the line and came back to make 14 more for a first down. Harris then took the ball and picked up 3

## Blue Key To Sponsor Homecoming Parade

Prize To Be Awarded For Best Float; Decorations and Signs Wanted

Blue Key, honorary fraternity and service organization, is sponsoring the parade and the erection of signs for Homecoming, to be held October 23.

The parade, consisting of floats entered by the business men of Rolla, student organizations, and fraternities, is to be held in the afternoon preceding the game. A suitable cup is to be awarded to the student or fraternal organization having the best float.

To insure proper representation, all organizations are urged to make plans for the entrance of a float as early as possible and report to Jack Glatthaar at the Triangle fraternity before October 16. It is the hope of Blue Key to make this year's Homecoming the best one MSM has ever had, and it is necessary to have the fullest co-operation of every organization to attain this end.

Committees were appointed at the last Blue Key meeting to take care of the trophy selection, parade, and sign erection. It was decided that on the first Wednesday of each month there will be a luncheon in conjunction with the meeting.

M.S.M.

## Photography Club's First Meeting

At the first meeting of the Photography Club last Thursday evening, Dr. Cook, the temporary chairman of the organization presented several ideas that were favorably accepted. Among his proposals was a plan to secure and equip a dark room for the use of club members. There are already five darkrooms on the campus, but these are in use at the present time and so the club will have to find another location. If they are successful in obtaining a darkroom they intend to purchase two enlargers. One will be able to handle plates approximately 5x7 inches and larger roll films. The other will be for the use of the club members who are candid camera fiends.

After the club is formally organized it intends to subscribe to several good magazines in photography which will be placed on file in the library for the use of anyone that is interested. The club is also going to make an effort to secure several good books on the fundamentals of photography which will also be placed in the library.

Dr. Cook appointed a committee headed by Prof. Duncan to draw up a set of By-Laws and a Constitution. Another committee headed by Prof. Goodhue has charge of arranging lectures for the club. They plan to have one lecture a month by someone that is a member of the club or a resident of Rolla. Twice a year they intend to have someone who is recognized as an authority in the field to give a lecture on some phase in which

## AN EXPENSIVE AMUSEMENT

In past years the attendance at our home football games has been deplored as showing little interest on the part of the townspeople in our varsity athletics. The crowd at the games consists mostly of students, with a slight sprinkling of their dates, faculty members, and high school boys and girls. Yet football is, next to baseball, the most popular sport in America. The Rolla people are no exceptions; they like to watch football games as well as you or I. There are several other large towns in the neighborhood of Rolla with at least a few football lovers in them.

We see and hear of the large crowds at the university games, and though we realize the impossibility of them here, we still feel that it would add considerably to our fame and prestige could we muster more of a crowd than what our present stands will hold. Seating facilities can easily be increased to where Jacking Field will begin to look like a stadium instead of a field with a concrete wall on one side.

The reason for the predominance of the students in the attenders is not that townspeople are uninterested, it is that it costs too much for most of them. Eighty cents is simply more than most of them wish to spend on what is, to them, another form of amusement. It may sound reasonable enough compared to university prices of \$1.10 and up, but a different class of people attend the games here.

A lower price is justified economically on the basis that the increased attendance would increase the net profit. The Athletic Association would not lose.

Let us make it possible for more people to see our games.

E. L. C.

THROUGH THE  
TRANSIT

by homer bru...

Boy could I put names and places together at this present—and set this column on fire. Wow... was I surprised to see some people at some places... that river is sure beautiful in St. Louis isn't it. (o-

is it the river that attracts Miners? . . . tsk, tsk). Working my way up town a few of the bar-ettes were noticed to be cluttered up in the Smith Townhall Style . . . meaning the 'timbered bar type'. Some

## PAY DIRT

By C. Sharp

Rumor has it that we are about to be blessed with a new chain pill factory. Local apothecaries do not feel kindly toward the idea. (Homer'll have plenty of trouble figuring that out). Two stray greeks recently added a wrinkle, but not to their visages. Conspicuous by their absence were the Freshman demonstration and dynamite at the last football game. The pressure is really on boys. Much consternation is felt by the Faculty due to the fact that a student was seen actually smiling, and right out in the open on the campus. Three fires today, but they went out before the volunteers got there, consequently very little damage was done. It seems that the first one there gets to drive the truck. Last year the boys were in such a hurry they forgot to find out where the fire was. Sympathy for a certain Junior Mechanical who is doing much of his sitting and all of his sleeping on his stomach. One thing we have got in this column is a monopoly on typographical errors, and a revolving feeling in the stomach at the mention of Homer's tripe.

## Swingins

Starting this week most of the old programs return including Jack Benny, Crosby, and Fred Allen. "Cabin of Dreams" tops the list this week with a total of fifty-three plugs. Lousy listening lately is the hickory hitting Red Norvo. His "smooth subtle swing" is anything but that. Next time you're in Louie town hear Del Courtney's band at the Chase. Nice, and the tax is not excessive. Cheaper fun is the trio at Candlelight with Wayne King's former pianist. And how the Gilmore aggregation has improved! Harvey's hash house has graduated to six-bit discoids, for the better. Fall asleep to Wayne King around mid-night, and listen to the landlady howl at the electric bill. Ain't it awful?

—C. S.

crowd at the old ball game. . if we could fix it so that a trip was necessary to attend a game up by our own gym we could have crowds up there too. With this same team coming back next year I'd be willing to bet that the St. Louis coach will mean what he says about being a bit leery about the Miner game. Between you and me (leaving out that C. Sharp) I have checked up on a few of his tips on good 'waxes and ether programs' and (still between you and me) he has a fair knowledge of such stuff . . . Rumor has it that certain individuals (meaning only one) has a bad habit of 'yelling' a certain peoples (meaning only one, still) name when 'he' has had too many of the Brothers From St. Louis. Better stay away from things marked to be left alone by parental consent. Poet laureate of the past week, C. Sharp, will submit further bits to the N.P.T. (National Poets Tripe) for criticism. Space and censorship will not permit criticism in this sheet.

Homecoming should be a bit on the plus side this year . . . St. Pat broke down and plans to have a 'better' orchestra . . . After all that is the second best occasion of the year . . . a nice rythm in the old gym this month will be swell. With the freshmen swarming the local stuff (thanks C. S. M.) the other three terms will have to pass custom and pay import tax. Speaking of distasteful things . . . (overheard in the Followill fill-up . . . "Ain't it terrible that the transit doesn't carry dirt anymore". Knowing the speaker, it will be arranged to have the name put in the paper each week . . . we aim to please . . . 'digits please'.

## ALUMNUS EXCHANGE

By  
Clyde Cowan  
(By Interview)

News from another quarter was obtained when an old grad, Schwartz of Class of '33, visited the campus last Thursday. Mr. Schwartz is now employed by the Monsanto Chemical Co., Monsanto, Illinois, and is in charge of the phenol manufacturing plant there. This department covers a city block and is three stories high, producing C. P. phenol for commercial use. Mr. Schwartz worked for the Monsanto Co., before graduating from M. S. M. thus finding an immediate opening in '33.

Carrying on a research, Schwartz in conjunction with another chemist has developed a radically new lubricant for machinery. This lubricant consists of a powder, which, when added to a high grade oil, produces a mixture which so far has never failed under extreme conditions of heat and pressure. The oil burns out, leaving the mixed ingredient adhering to the parts with unsurpassed tenacity and endurance. Furthermore, a piece of steel coated with this lubricant is absolutely impervious to deposits of carbon.

Mr. Schwartz has promised to pay us a more extended visit, during which he will address the chemists on his experiences since graduating. His appearance here holds interesting possibilities and will certainly be welcomed by all.

## Miners Lose to Billikens

Continued from page one

yards and Cochran then made it a first and 10 on the Miner five yard line. Totsch made 2 yards and Harris then went through left guard for the Billikens lone touchdown in the first half. Axthelm broke through and blocked the kick for extra point.

The second quarter was scoreless as the determined Miner defense again and again turned back the Billiken thrusts. The Miners consistent punting held back the heavier Billikens and kept them from scoring.

The second half opened with the Miners kicking. Denny Cochran took the ball on his own 10 yard line and ran it back to the 37 yard line before he was stopped. On the next play he again took the ball and made 14 yards thru the Miner line. His brother, Bill, then took over the job and picked up 6 more yards. Bill Cochran then passed to Harris for a first down on the Miner 28 yard line, and Denny Cochran again went through for 11 yards. He again took the ball and picked up 3 yards but was thrown for a 2 yard loss on the next play. Walker on a reverse from Harris took the ball to the Miner one foot line and Denny Cochran scored to second Billiken touchdown. Walker's kick for the extra point was no good.

The Miners received but the offense could not make the first and 10 and Otis Taylor punted to Walker on the 45 yard line from where the ball was returned to the 41 yard line. D. Cochran again took the ball and gained five yards and

then passed to Totsch on the Miner 2 yard line. The pass was good for 27 yards. Walker in another reverse scored and Totsch converted on the extra point to make the score 19-0, St. Louis.

The Miner offense got under way in the last period and Cunningham passed to Nevins for a first down on the Billiken 17 yard line. Then came one of the extra bad breaks that dogged the Miners through the entire game. Cunningham fumbled the pass from center and the ball rolled to the Billiken 40 yard line before Koziatsek recovered. Koziatsek then took the ball over left tackle for 2 yards. Cunningham tried a pass on the next play but D. Cochran intercepted it and stopped the Miner drive. McGonnigle picked up 7 yards and D. Cochran ripped through the tired Miner line and just before he was brought down lateralled the pigskin to O'Sullivan, St. Louis reserve tackle, who ran 55 yards for a touchdown. Hartle made his first kick for the extra point good but the Billikens were penalized for holding and his next try was wide.

The Miners received but failed to run the ball back and on the next play tried a pass which was knocked down. Otis Taylor poured on the speed and picked up 10 yards before he was brought down. Hart followed suit and gained 6 more yards for the Miners. Hart tried a pass but Foehr intercepted and ran behind beautifully formed interference for the touchdown. Both sides were offside on the first try for point but Hartle made it good on the second try and the score stood 32-0 with only a few minutes remaining.

The Miners then took the ball after the kickoff and opened up an aerial attack that had the Billikens standing on their heads. Ladd and Baumstark got together on their passes and brought the ball to the St. Louis 3 yard line. Otis Taylor then took the ball over for the Miner's lone touchdown. The try for extra point was no good and 30 seconds later, the final gun ended the game, score: 32-6.

the club is interested. The committee is also going to make an effort to secure a speaker from one of the large camera companies.

### —M.S.M.—

BOB ZUPKE, PRAISES

GEORGE IMLAY, '14

AS SECOND GREATEST BACK

Mark one more down for the School of Mines in athletic achievement as George Imlay, '14, was named second greatest back by Bob Zupke of Illinois. Quotes Zupke in a recent newspaper article, "The grandest football player I ever saw, next to Grange, was a kid named Imlay on the Missouri School of Mines team the day we played 'em in 1914. We beat 'em 75-7 but he ran through my team for those seven points, and, though we made 75, he never yielded a minute or an inch and actually had us on the defensive a quarter of the hour.

Zupke's 1914 team was the best he ever had and it seems that our 1914 team was about the best we ever had, but the annuals don't seem to tell anything about a 75-7 licking from Illinois. The records give Imlay's superlative playing

## Glider Club Plans Activities

Charter members of the newly-formed Glider Club gathered in Mechanical Hall Thursday night to discuss plans for the coming year. A program of worth-while enjoyment is in prospect, and the fellows are eager to start the ball rolling.

Present plans call for a 2-passenger secondary type glider, equipped with dual controls and up-to-the-minute safety features. The model most favored by the Club is a highly efficient job of exceptionally clean design, and the boys are looking forward enthusiastically to putting her in the air.

Cost of membership is \$10, plus three payments of \$1.00 a month, making a total cost of \$13 per member. Fees are now being paid in, and the Club plans to buy the equipment in the near future.

One or two of the boys were forced to drop out of the Club because of failure to obtain permission from their parents. The constitution requires that each candidate furnish written permission signed by his parent or guardian before being

happening in 1916 when he was the only star of the '15 and '16 teams. Someone needs to be put aright, but nevertheless Imlay was a great football player and more people than Zupke remember that day and the great uphill battle Imlay gave the Illinois team.

Another ex-Miner to hit the spotlight is James J. Offutt, '32 of Mexico, Mo., who just won the championship of the Mexico Country Club by defeating Frank Korda in the annual fall handicap, 4 & 3.

admitted to membership.

Membership in the Club is limited to a definite number per glider by provision of the constitution, and to date a few more can be accepted for membership before the limit is reached.

## Highlights of the St. Louis-Miner Game

Even though the final score of the game was 32 to 6, everyone agreed that it was the best game that the Miners have shown in many a season. The score at the half would be a better indication of the whole trend of the game as the Billikens had scored only once at the middle of the game.

Probably the outstanding player of the whole game was Denny Cochran who passed, punted, and kicked St. Louis U to a victory. Although only a sophomore, he played like a veteran and indicated that he will give the Miners plenty of trouble in the future.

Cunningham, Miner back, set St. Louis back on their heels more than once with his long punts. The Miners averaged 42 yards on each kick to 36 yards for St. Louis. One of Cunningham's boots went 65 yards which is not a bit bad in any man's football game.

Wilson, Miner end, will probably be out of the game for quite a while as he left the field with a fractured left wrist. Several more Miners were hobbling around before the game was finished. Playing against a team that averaged about 14 pounds per man more than themselves, the Miners took quite a beating physically before the final gun sounded.

There must be something to this thing called "school spirit" and the M.S.M. Alumni seem to have plenty of it. One contingent of Alumni drove all the way from Memphis, Tenn., to see the game while some of the Miners in school could not beg, borrow, or steal a ride from Rolla.

For a bunch of invalids, the St. Louis U backs seem to be pretty spry. McGonnigle was supposed to have had an infected foot, Harris, a broken toe and injured knee, and Totsch an injured neck.

Either the Billiken pass defense was poor or the Miner passing attack just began to click in the last minutes of the game because it was the Miners passes that brought them their lone touchdown. Ladd and Baumstark got together on their passes and put the ball in a scoring position from which Otis Taylor carried it over.

Coach Bullman is still looking for more beef to get into the entire Miner lineup. Giving a team a 14 pound advantage is quite a handicap to make up in a game where weight plays an important part in the closing minutes of the game.

### RADIO CLUB

The feature of the September 27, meeting of the Radio Club was a very interesting talk on "Push Button Radio Tuning" by Mr. Clarvel Curnutt. Mr. Curnutt accurately described the construction of different types of these units and told of their affect on the sales appeal of the 1938 model receivers.

It was announced that the automatic code machine has been placed in the library and that anyone interested in the use of it should see the librarian in charge.

The next meeting of the Radio Club will be held October 10, at Room 104 Norwood Hall. All

amateur operators and students interested in radio are urged to be present.

Tessie—Would you kiss me even if I told you not to?  
Lloyd—I certainly would.

Tessie—Oh, good, goody! Then I can actually keep my promise to mother.

*You might be*  
standing right next to the most attractive person you ever met, but you don't know it until you are introduced... until you get acquainted.

And you don't know how much pleasure a cigarette can give until somebody offers you a Chesterfield.

*Certainly this is true: Chesterfields are refreshingly milder... they've got a taste that smokers like.*

*refreshingly Milder  
more pleasing Flavor  
and Aroma*
