Miners Lose To Warrensburg 7-6

Early Fumble Proves Costly To Engineers

After one minute of play the Warrensburg Mules scored on a pass which spelled defeat for the Miners here last Saturday by the score of 7 to 6. The Miners who were seeking the M. I. A. A. crown fought an uphill battle but were repulsed after four attempts.

Warrensburg kicked off, the ball going to Schumacher on the ten who returned the pigskin to his own twenty. On the next play as Schumacher was about to flash over right tackle he fumbled and the Mules recovered. Before the crowd knew what had happened, Gooch passed to Conners in the end zone completing the only pass of the afternoon. Baultusaitis kicked the extra point and the score read Mules 7, Miners 0.

The game then became a saw affair with the Miners piling up good gains but hampered by penalties and fumbles, until late in the third quarter when after an exchange of kicks the Miners came to life.

With the ball resting on the Miners 28 yard line Schumacher kicked up a two yards. Then Cunningham took the ball, and by Hancock's excellent blocking galloped 70 yards for the Miner's score.

Bruce attempted the extra point but it was wide and low and the scoreboard read Mules 7, Miners 6.

Schumacher then intercepted a pass on the 49 and it seemed the Miners were on their way for an-

Radio Club Offers Training Course

Morse code practice for those interested in obtaining an amateur radio operator's license will begin this afternoon with Dan Lynch, W9VNO, Radio Club President in charge. Practice will be held from 4-5 this afternoon in Room 108 Norwood Hall.

This is the beginning of a series of practices to be held each Tuesday from 4-5, and Thursday and Friday from 5:00-5:30 o'clock.

In addition to the code practice will be theoretical radio instruction designed to aid the beginner in answering the questions on the written amateur examination.

Those aiding in this training program are Noel Reagan, W9YTW, Bob Seigle-W9UCL, Louis Pfau-W9BGG, and Wayne Kennethsen-W9NJM in addition to Professor Ranes of the electrical engineering department. The program is sponsored by the Radio Club of the Missouri School of Mines. All those interested are invited to participate.

Dr. St. John to Speak At Parker Hall

A man who can tell an unbelievable number of true life stories which far surpass the old "Sink or Swim" stories of the

Horatio Alger times, Dr. Charles St. John, famous superintendent of the Bowery Mission will speak in Parker Hall tomorrow night, at 8:00 p. m. while on a special tour through eight Missouri college towns.

A number of interesting sidelights on Dr. St. John's work were told by Dr. St. John as he appeared as out-of-state speaker at the State Baptist Student Convention at Springfield this past week-end. Among them was this incident: A famous writer appeared before Dr. St. John and asked him if he might write his life story for a prominent fiction magazine. With Dr. St. John's consent, the story was written and presented to the publisher. The story, being non-fiction, was unsuitable for the magazine, but the publisher asked if he might run the story in the "True Story Magazine," which has a reputation for low-class stories.

Dr. St. John gave his consent, and has received testimonials from 952 persons who have had their lives changed by this story, and has received over 10,000 letters of appreciation and admiration for the man and his work. Said, he, "If you can find me a magazine with a worse reputation, I'll run the story in that!"

The "Bowery" is a street about a mile long in New York City which is the home of between 30,-

See DR. ST. JOHN, Page 4

Kirkpatrick Speaks To Students

Dr. R. A. Kirkpatrick, nationally known lecturer, last night described various vacation spots of the west to a large group of students assembled in Parker Hall.

His lecture was illustrated by several color slides made from photographs taken on some of his recent trips through the pictured places.

Among the places described were Bryce Canyon and Grand Canyon National Parks, Cedar Breaks National Monument, Kaibab National Forest, and the Utah-Arizona National Parks.

The appearance of Dr. Kirkpatrick was made possible through the co-operation of the Union Pacific Railroad and the Student Chapter of the A. S. C. E. at the Missouri School of Mines.

Late Flash!

Senior Class Election

Returns were so close in the Senior Class Election that no one candidate held a majority of the votes. Therefore, a meeting will be held today, October 22, at 12:45 in Parker Hall to decide what course to follow on this matter.

Miner Begins "Willkie For President" Campaign

With this issue the MISSOURI MINER opens its editorial campaign in honor of Wendell L. Willkie for the next President of the United States.

Last week the MINER printed the results of a poll taken from ten percent of the student body, in which Willkie was the students' choice two to one. Following this trend in student opinion, the MINER notified Mr. Willkie of its editorial support, and the first of a series of editorials is printed in this issue.

The MINER is also organizing a Willkie club" at the College Inn of the Hotel Edwin Long Wednesday evening at 7:30. All Miners, regardless of his ability to vote, are urged to attend.

Don't miss the Miners' "Willkie Club" rally at the College Inn of the Hotel Edwin Long at 7:30 Wednesday evening. Willkie buttons for everybody, and it will only take you away from your studies a half hour or so.

Really, now, don't you think Eleanor makes too much noise?

The MINER Said to Willkie

Believing that, from the viewpoint of the engineer and business man, the salvation of the economic and industrial system of our country, as well as the preservation of democracy from the viewpoint of the citizen, lies in your election, the MISSOURI MINER will henceforth direct its editorial policy to aid your election in every way possible...

Willkie Said to the MINER

Mr. Fred W. Finley, Editor, MISSOURI MINER, Rolla, Mo.

Dear Mr. Finley:

Your telegram is acknowledged with sincere thanks.

It is encouraging to have your support of my campaign, and I will do everything in my power to justify the faith and confidence in me which it expresses.

My every effort will be to make the people of our great country realize that this is not merely a political campaign but a crusade for the restoration of economic progress.

Sincerely yours,
(Signed)
Wendell L. Willkie.

500 Parents Visit MSM for Observance of "Parents Day"

Dr. G. P. Woollard Lecture Tomorrow

Dr. George P. Woollard of Princeton, who is one of the country's leading geophysicists, will give a talk on his work in gravitational measurements and what they expect to learn from these measurements in Parker Hall Wednesday evening at 7:30. Everybody is invited to attend.

Dr. Woollard has done some very extensive work in the field of geophysics. He is credited with a great deal of oceanic seismic work. This involves setting of dynamite charges at the bottom of the ocean to study the geological formations measurements at the bottom of the sea.

Last summer Dr. Woollard was engaged in making gravitational measurements of the United States from San Francisco to Boston. Measurements were made at intervals of three miles for this entire distance. During the last month he has been making a gravitational survey of the state of Missouri.

Dr. Woollard's lecture will be accompanied by slides which will help show the type of work he does.

In addition to the general lecture Wednesday, Dr. Woollard expects to meet the senior and junior mining and petroleum students at least twice in their classrooms.

Football Game and Banquet Highlight Day

Five hundred parents and guests registered in Parker Hall Saturday, setting a record attendance for that day in the history of M. S. M. Three hundred and seventy-five were present at the banquet, one-fourth of which were students, it was estimated.

During the morning the parents were conducted about the campus by members of Blue Key, and shown how classes and labs are conducted. Many boys took it upon themselves to be good hosts, and took their parents on personally conducted tours of the buildings. This proved to be very interesting to some parents because the first month's grades were still posted in some buildings, and they received firsthand information on the work that their sons had done thus far.

Attend Football Game

As noon drew near the parents and boys began to disperse for lunch. All the fraternities and both Independent clubs were open to the parents of the members. The afternoon was spent at the Miner - Warrensburg football game.

Immediately after the game a meeting of the Association for the Advancement of the Missouri School of Mines and Metallurgy was held in Parker hall. Many of the parents attended, and a business session was held.

Banquet in Evening

In the evening the annual Parent's Day banquet took place at the Pennant Hotel. Humor was abundant during this party. Rev. Jackson said grace at the meal, and Dr. Chedsey acted as toastmaster for the evening. Armin Fick, president of the student council, gave a short address which was followed by the principal speaker of the evening, Dr. C. Q. Smith, District Superintendent of the St. Louis district of the Methodist church. Afterwards, the parents were invited to attend the "M" Club dance at the gym.

Lieutenant L. D. Warwick New Instructor at MSM

Reserve Second Lieutenant Lewis D. Warwick recently was appointed to active duty as instructor with the M. S. M. Department of Military Science and Tactics.

Lt. Warwick is a graduate of M. S. M., having received the degrees of Bachelor of Science and Civil Engineer from the school.

He has received a leave of absence from the U. S. Geological Survey, with whom he is regularly employed, while he is on active duty.

THE MISSOURI MINER

is the Official publication of the Missouri School of Mines in the interest of the Students. Published every Tuesday and Saturday during the school year. Entered as second class matter April 2, 1915 at the Post Office at Rolla, Mo., under the act of March 2, 1879.

Subscription price — Domestic \$1.50 per year, Foreign \$2.00 per year. Single copy 4 cents.

Parents' Day

Parents Day has again come and gone leaving it as just a memory. But in passing a word of praise is due to the Association for the Advancement of the Missouri School of Mines, whose efforts were largely responsible for the program.

The day was a huge success and enjoyed by all who attended. The Miner therefore takes this opportunity to express its gratitude for the day and the hope that it will become an annual affair on the campus of the Missouri School of Mines.

Our Justification

A short time ago the MINER sponsored a poll in which a 10% cross-section of the student body were asked to express their stand on the coming presidential election. The results of this poll, published last week in the MINER, were two to one for Willkie. With such a majority of the student body for Willkie, we feel it our duty to use the official publication of the students to further his cause.

"We Want Willkie"

Eight years ago Franklin D. Roosevelt was elected President of the United States to take charge of the executive branch of our government during the emergency brought about by a great depression, an aftermath of the first World War.

He immediately took drastic measures to remedy the situation . . . measures based upon an enormous spending and lending program. At the present time, eight years later, this extravaganza of spending and lending still goes on. Eight years, with an annual deficit of three billion dollars a year. Eight years, with total expenditures of some 60 billion dollars. Eight years, and our problem of unemployment is still unsolved. Eight years, and our "emergency relief" program is still functioning.

Mr. Roosevelt has persistently attempted to dominate the judicial and legislative branches of our government with his own executive branch. The attempted packing of the Supreme Court and his numerous party purges and interference in state elections of Congressmen are sufficient evidence of this. The identifying characteristic of a dictatorship is the concentration of supreme authority in the executive branch of the government.

(This editorial attack on the Roosevelt administration will be continued in the next issue of the MINER.)

Splashes of Ink

From the Pen of Ye Ed
IF YOU DON'T BELIEVE

that we have a letter from Wendell L. Willkie (he's the next president, you know) just come around to 1003 Park, where we have it nailed to the wall behind the door. Don't crowd, folks, and bring your nickles for the 5-cent service charge.

ANOTHER CLAIM THAT we have to greatness is the fact that our roommate, Sock McKee, has a little brother who shook hands with Mrs. Wendell Willkie last week in St. Louis.

IT WILL BE INTERESTING to see the rain of condemnation and complaint that will fall on the MINER for taking a stand in politics. Most of the MINER staff, however, are so inured to complaints that a few more won't make any difference.

PHYSICAL CONFLICT is nearing between Ye Ed and the mental monstrosity whose ravings we print, when we have nothing better, under "Wanderings of a Soph's Mind." So far we have been unable to corner him, but our honor cannot be besmirched as in his illiterate scribbles this week without someone suffering the consequences.

THETA NU EPSILON, the secret society that is banned on every campus in the United States, must still be a live organization, for their pledge insignia are listed on the circulars that are put out by various fraternity jewelers.

In The Mail

Dear Bennetsen:

If someone hasn't already done so—please do the following for me. Fix me up a subscription for that lousy Missouri Miner. Also if you have any you might send me a copy of those that have already been published this semester—not the last 60 years. I believe you have something to do with the damn thing, don't you?

I'm working here in the Magna mill of the Utah Copper Co., (40,000 tons per day — 38,000 tons per day in the Arthur Mill.) worked all summer until the 16th of Sept. in the mine at Bingham. Writing to you reminds me—at Bingham (one of the largest electrified mines in the world) there is not a single electrical engineer. We have a couple here at the mills—one is from Rolla. Besides Engleman the Superintendent of Mills and Johnson the Chief Metallurgist there are about five other Rolla men here. Hoping to get the Miner soon.

Sincerely yours,

Bill Burgin.

P. S. Please win that game with STC in Springfield. Will cost me if you don't.

MSM BAND PRESENTS NEW AND ENLARGED PERSONNEL

The ROTC Band will be one of the best in the history of MSM according to John Scott, the musical director. Mr. Scott bases his statement on the fact that this year the applicants were more than double the number of vacancies.

The personnel of the band has been increased to thirty five members this year with the addition of seven new instruments. Among these instruments is a Bell Lyra, the first to be used or heard in Rolla. The Bell Lyra, is the property of Mr. Scott and has been loaned to the band for all parades and other public appearances.

The band performs for the military department of the school at drills and parades. It also plays at all home football games as well as the two St. Louis games.

Instrumentation and personnel of the ROTC Band of MSM-1940:

Members: Piccolo: Norbert Batterman.
Clarinets: D. J. Coolidge,

band corporal, J. P. Katz, Richard Wheat, J. V. Heddell, band corporal, Wm. Hubbard, L. E. Pierson R. G. Couch.

Trumpets: K. E. Meyers, band corporal, L. L. Spence, E. Goodhue, Robt. Dunham Robt. Balin, James Nuestadter, J. K. Kratz.

Altos: T. R. Beveridge, J. R. Barton, band corporal, J. C. Johnson.

Trombones: Chas. Faulkner, Robt. Schmidt, J. H. Dunn, band corporal, A. L. Peterson, R. S. Mateir, J. L. Krall.

Baritones: G. A. Engle, and corporal, A. W. Wilson.

Basses: R. L. Stowell, band corporal, R. E. Miller, Jos. Keller.

Drums: F. C. Rehfeld, band corporal, W. E. Eater, Don West, Edw. Wunnenberg.

Saxophones: J. Lowrey, G. Al-lison.

Bell Lyra: Daniel McLean.

Officers: Capt. H. B. Moreland, Manager; J. H. Fox, Drum Major; Cadet Sergeant, Jno. W. Scott, Musical Director.

Several Miners At BSU Convention

Among the students of Missouri who attended the annual State Baptist Student Convention, held at Springfield the past week-end, were 15 students from the Missouri School of Mines. The convention was presided over by Carl Goodson, of William Jewell College at Liberty, who was president of the group for 1939-40.

Out-of-state speaker for the convention was Dr. Charles St. John, of the Bowery Mission in New York City.

Among the new officers elected for the coming year in the State Baptist Student Union was Tom Jones, of Rolla and the School of Mines, who was elected Devotional Leader.

Approximately 1200 people attended the opening session of the convention and the last session, merged with the Sunday morning church services, overflowed the church with about 2000 people in attendance.

St. Louis, Mo.
October 18, 1941

Dear Box No. 13:

I am a girl, 17 years old and am anxious to correspond with a boy near my own age or preferably a little older. I am a student at Hadley Vocational School in my senior year. I am a brunette 5 feet 6 1-2 inches tall, and have blue eyes.

I live in St. Louis, Missouri. I you answer this letter, Box 13 please enclose a full description of yourself.

I have a girl friend, 18 years old, who would also like to correspond with someone. If ye know a boy who is interested, sh is blond, 5 feet, 6 inches tall, and has grey green eyes. Her name . . . She lives at . . . Avenue.

Yours, truly,

Send your answer to—

St. Louis, Missou

A Suggested Answer:

Dear Miss . . .
I am a boy, I think. I am nineteen years old, and am a student at the Missouri School of Mines. am four feet eleven inches tall, and weigh 214. A more detailed description is as follows: chest, 43 waist 54; I. Q.-75 slide rule, 1 log duplex complexion, none general appearance, disgusting.

I have 956 frinds and at least professors here who would al like to correspond with you—

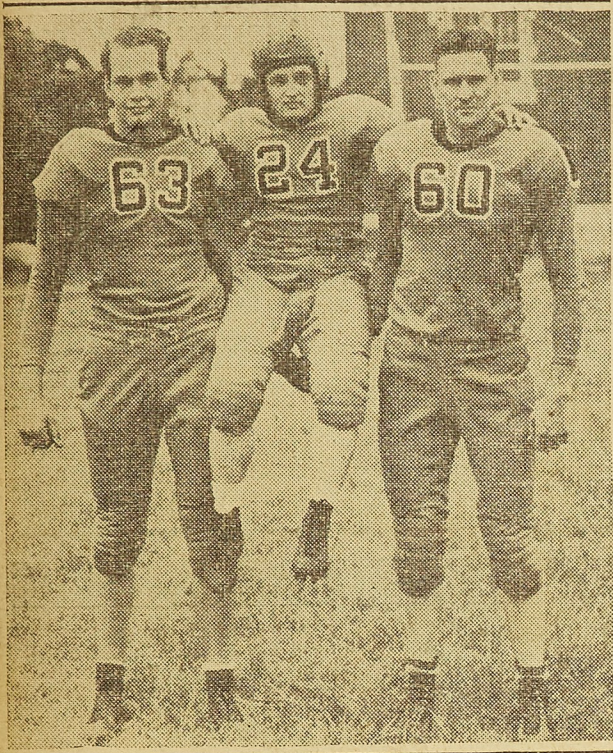

I can't dance very well, but I willing to learn. Would be hap to have you come down for one our brawls (dances to you) if y culd arrange for our tickets.

Please answer soon as I w have to know whether you a coming before I write my wife.

Yours Sincerely,
Joe Miner.

lars use outa the papir is f thim to print it in narrer stri and send it out all rolled up perferatid rolls.

Long and Short Of The Miners

From left to right Al Kallmeyer, tackle, Walter Koziatek, half-back, and Joe Strawhun, end. Both Strawhun and Kallmeyer stand well over six feet in height, while Kozy, the "Pup" is a bare five foot four inches tall.

Kung-Pin Wang Comes To Missouri Mines

Among the many students who are coming to MSM from far and near the one who probably came the greatest distance and

who has a most unusual background is Kung-Pin Wang of Peking, China.

Living right in the war zone of his country, Wang's family had to abandon their home in the North and move to the South suffering great losses. In order that he might bring his year book to this country, Kung-Pin had to smuggle it out of the Japanese governed territory.

Kung-Pin received a B. S. degree in chemistry from Yenching University and he intends to graduate with a mining and metallurgical degree from this school next year.

He is not the first of his family who has come to America to study. His father, a mining engineer, is an alumnus of Columbia University, his mother went to school at Wellesley with Madam Chaing-Kai-Shek; and his uncle who was the Chinese Ambassador to the United States two years ago, is a Yale man.

To Kung-Pin Wang, America typifies a land of freedom where ability and opportunity go hand in hand, and is a country of very sociable people.

Round The MIAA

By Ed Vogelsang

After the week's surprise and upset the conference presents a more complex situation. A single point dampened the hopes of the Miners, for they bowed to the Warrensburg Mules 7-6. The upset was presented by the Cape Girardeau Indians who handed the Kirksville Bulldogs their second defeat 12-0 while the Springfield Bears gained their second victory over Maryville 13-0.

Springfield took to the air lanes in their conquest over the Maryville Bearcats thereby puncturing the Bearcats hopes of repeating as M. I. A. A. champions. The Springfield Teachers gained their 13-0 victory largely through the passing of Dwight Bumpus, one of the most effective passers of the conference.

Bumpus completed three aeri-als to end Lechner on alternate plays early in the second quarter for a touchdown and Bob Griden booted the extra point. Those three passes were good for 47 yards. Laterals one from George to Brashear gained 17 yards and another, Brashear to George earned 25 yards and a touchdown. The kick was blocked.

Maryville threatened in the first quarter by driving to the six yard line after blocking a punt. The closest they got in four line plunges was to the two yard stripe. Kurtright's attempted field goal from the 25 failed earlier in the period and never again was the Bear's goal line in danger.

Springfield has won four straight games and hasn't been scored on this season.

George Hails, freshman half back, personally conducted the Cape Girardeau Indians to a 12-0 victory over the Kirksville Teachers.

Hails scored on 5 and 3 yard plunges in the second and third quarters after sustained marches.

Bonta of Kirksville ran 45 yards to the Cape 14 yard line in the closing minutes, the nearest the Bulldogs came to the goal all during the game. He was pulled down from behind, and then the Indians held.

This week the conference will be idle but on November 1 the Miners will face the Springfield Bears in the feature game at Springfield. The conference standing:

	Games			Points		
	W	L	T	Opp.		
Springfield	2	0	0	41	0	
Warrensburg	2	0	0	20	6	
MINERS	1	1	1	31	7	
Cape Girardeau	1	1	1	12	13	
Maryville	0	2	0	38		
Kirksville	0	2	0	40

FOOTBALL
Continued from page 1

other score, but the Mule's forward tightened and a punting duel started again.

The Miners made one more bid in the fourth quarter when Gooch was run out of bounds on the Warrensburg's 24 yard line when he attempted to kick and fumbled. Cook's pass to Fullop near the goal line rolled from his arms and the Mules kicked into the Miner's territory. A last attempt was made with Koziatk and Fullop carrying the ball to mid-field. The game ended with the Mules "freezing" the ball.

The starting lineups:

Miners	Pos.	Warrensburg
Nevins	L.E.	Conyers
Kromka	L.T.	Coffman
Rogers	L.G.	Baltrusaitis
Kiburz	C.	Elliott
Koerner	R.G.	Hensgen
Hoby	R.T.	King
Strawhun	R.E.	Linehan
Hancock	Q.B.	Blanke
Cunningham (C)	L.H.	Gibson
Schumacher	R.H.	Gooch
Cook	F.B.	Appleman

Substitutions: Miners—Koziatek, Bennetsen, Fullop, Bruce, Domjanovich, Krueger, Veale, Kane, Murphy and Leone. Warrensburg—Newsham, Grebowiec, Richardson, Redford and Haynie.

Score by quarters:
Miners 0 0 6 0—6
Mules 7 0 0 0—7
Officials: Referee, "Poge" Lewis
Washington; Umpire Otto Rost, Kansas; Linesman, R. C. Lewis, Missouri.

Scoring: Touchdowns—Conyers (pass from Gooch); Cunningham. Extra points—Baltrusaitis (place-kick). Yards gained from scrimmage: Miners 194, Warrensburg 18. First downs: Miners 10, Warrensburg 2.

Penalties: Miners 4 for 20 yards, Warrensburg 8 for 50 yards.

Passes attempted: Miners 8, Warrensburg 5.

Passes completed: Miners 0, Warrensburg 1 for 20 yards.

Passes Intercepted: Miners 1, Warrensburg 1.

Kicks: Miners 9 for 380 yards; Warrensburg 13 for 504 yards.

Average yards on kicks: Miners 42, Warrensburg 38.

Fumbles: Miners 4, Warrensburg 2.

Fumbles recovered: Miners 3, Warrensburg 3.

A Sad, Sad Tale About Some Frosh

On the uneventful day of October 16th, three freshman were walking to school at noon hour. As they passed the Lambda Chi house a car stopped, three mountaineers rushed out and took the hat of one of the unfortunate freshman. Another freshman rushed into the Lambda Chi house for reinforcements, but alas, it was too late. The moonshiners had stolen the green cap and had fled in their vehicle.

This was the mere beginning of this sad tale. One of the more alert freshman caught a glimpse of the license numerals, and being unforgetful as all freshman should be, remembered them. These numbers were checked through the state police and the owner discovered. The residence was located due to the efficiency of our local post-office. That fateful night the three freshman, having aroused much sympathy from their fellow students, started upon the chase three car-fuls strong (about twenty including upper classmen).

They drove about six miles southwest to a typical Ozark farmhouse. There they stopped. After having bolstered their courage they approached the farmhouse. They were greeted by the shouts of warning of a young member of the family. Undaunted, they advanced. They asked this boy where the cap was. He replied that he did not know, and before you could say "Jack Robinson" the older brother, father, and "mammy" rushed out of the house, and one of the cars left.

They stopped for a moment to look over the situation, then attacked. This was too much for the remaining 16 or 17 fellows who were at a disadvantage since they did not know the art of mountain warfare. They retreated in confusion and fright to their cars and drove off. There were only two casualties reported.

DR. ST. JOHN

Continued from page 1

000 and 50,000 bums. At the present the street is filling up again with the added numbers which come for the winter. The men are drunken, hungry, penniless, in rags, using the few pennies they can panhandle for buying "smoke."

"Smoke" is so called because, when it is diluted with water, for drinking, it turns a milky white and gives off white fumes. It is so potent that it paralyzes a man for 10 to 16 hours after it is drunk and the only temperance lecture Dr. St. John has ever given is to immerse a piece of beefsteak in some "smoke", and after leaving it a few minutes, show the remainder of the meat to the men.

Unbelievable are the things that happen on this street of lost men, and there is no man who knows them better than Bowery St. John. His lecture will be open to the public Tuesday night, starting at 8:00 P. M. in Parker Hall.

Ruble E. Burns '40, is now living at 125 Jones St., Maryville, Tennessee.

Charles (Chuck) Herbert '28, Chief Engineer of the Safety Engineering Department of the Bituminous Casualty Corporation, Rock Island, Illinois, was in Rolla on September 25. Don Bradley '40, is with the same company at Rock Island, and L. E. Sears '40, and John R. McCloskey '38, are with the company in their Kansas City office.

Miss Ruth C. Huelsmann, daughter of Mr. and Mrs. Edward B. Huelsmann of 4968 Winona Avenue became the bride of Mr. Michael J. Klingler, son of Mr. Michael Klingler on August 10, 1940, at St. Mary Magdelene Church, Kingshighway and Sutherland Avenues, St. Louis, Mo. The newly married couple are now residing at 3900 Utah, St. Louis, Mo. Klingler is a graduate of class '34 and belonged to the Kappa Alpha, Blue Key, ASME and St. Pats Board. He is employed at Busch-Sulzer Bros. Diesel Engine Co., as an assistant service manager.

Rex Alford '40, has gone to South America, where he has employment with the Mene Grande Oil Company, at Maracaibo, Venezuela.

F. M. Stewart '40, was in Rolla on September 26, en route home where he intends to recuperate for a few days from a badly sprained ankle sustained as a result of a minor accident at his employment with the Standolind Oil Company, Midwest, Wyoming. His address is Box 532.

S. R. Moore '30, attended the American Mining Congress, Western Division Convention, at Colorado Springs, September 16-20. He is stationed at Wilborn, Montana, where he is Manager of the Standard Silver Mining Company.

Clark Romine '40, is employed as chemical engineer with the General Petroleum Company, 12-18 South Ash St., Casper, Wyoming.

Howard Katz '40, is in the Flotation Department of the Magna Mill of the Utah Copper Company. He is living in the Arthur Dormitory, Garfield, Utah.

John L. Bulger '22, has returned from Bolivia and is now at 171 Clinton St., Gouverneur, N. Y.

John R. Post '39, is working as junior engineer, doing principally mine and quarry work for the U. S. Gypsum Company in Southard, Okla.

Roy Erwin Swift '34, has accepted a position with the college of engineering at Louisiana State University, teaching a course in metallurgy and an industrial management course for

mechanical engineers. A graduate of the Missouri School of Mines, Mr. Swift recently completed work for his master's degree in mining engineering on a research fellowship with the U. S. Bureau of Mines in co-operation with the University of Washington. He was actively engaged in the mineral industries for several years before he began with the Bureau in Seattle. He has also done graduate work at the University of Chicago and had training by the LaSalle Extension University, of Chicago.

Max Bolotsky '39, has taken a job as junior metallurgist at the Watertown Arsenal, Watertown, Mass. He received his M. S. degree in metallurgical engineering in June of this year from the Virginia Polytechnic Institute where he held a research fellowship in the ceramic engineering department. He received his B. S. degree in metallurgical engineering in May 1939 from the Missouri School of Mines.

Wm. M. Rodgers '33, is now employed by the Vega Aircraft Company of Burbank, California. His home address is 1032 Linden St., Glendale, Calif.

Alex Rubin and W. F. Kaufman of the class of '40, are both with Curtiss-Wright Airplane Co., at the St. Louis plant.

James Parker '39, is living at 357 South Island Avenue, Rocky River, Ohio.

C. E. Peterson '16 may now be reached at 580 Fifth Avenue, New York City.

P. T. Dowling '40, has left Jones and Laughlin to accept a position with the Granite City Steel Company at Granite City, Ill.

Edmund Hunze '26, Chemical Engineer with the Aluminum Ore Company, East St. Louis, Illinois, was in Rolla on October 3, returning from his vacation.

M. L. Yrey '23, formerly with the Republic Steel Company in Detroit, is now employed by the Aviation Division of the Packard Motor Company, Detroit, Mich.

Really, now, don't you think Eleanor makes too much noise?

DO YOU SMOKE THE CIGARETTE THAT SATISFIES

*It's the
Smoker's cigarette*
**COOLER...MILDER
BETTER-TASTING**

Chesterfield has all the qualities that smokers like best — that's why it's called the **SMOKER'S** cigarette. Smoke after smoke and pack after pack, they give you more pleasure.

*Chesterfields are made of the RIGHT COMBINATION
of the world's best cigarette tobaccos.*
