Rolla, Missouri

Saturday, 3-8-41

## Armsby Accepts Temporary Federal Service Call

### Will Leave MSM For Position Of "Field Coordinator"

Professor H. H. Armsby, Registrar and Student Advisor of the Missouri School of Mines and Metallurgy, has accepted a temporary call to Federal service in Washington, D. C. until July 1, as Field Coordinator in the Federal Security Agency Defense Training Program. Professor Armsby will be an Assistant to Dean R. A. Seaton, Director of Engineering defense Training Course under the United States Office of Education.

The position of Field Coordinator involves the responsibility of representing the Director of the Engineering Defense Training Program in the field; consulting with the Regional Advisers in respect to means and procedures for determining the needs of defense industries and federal agencies for individuals with particular types of professional engineering training; of enlisting the cooperation of engineering schools in providing courses to meet these needs and of working with Regional Advisers in preventing and eliminating friction between different schools in matters relating to the program.

The position will involve work in the U. S. Bureau of Education in Washington and a large amount of traveling in the field to assist the Regional Advisers in their relationships with cooperating engineering schools.

## More Seniors Interviewed

Southwestern Bell, represented by Mr. J. P. Anderson and Mr. J. W. Creasey of the Long Lines Telephone Co., interviewed about 20 graduating seniors in all departments last Tuesday. Neither one arrived at any definite conclusion as to which men they would send offers but it is expected that offers will arrive in a few days from the main office after the representatives' reports have been checked by the officials there.

Frank Rogers came back on Monday and announced that he has a job with the Aluminum Company of America. He had gone to have further interviews with the chief metallurgist in Pittsburgh.

On March 11 and 12, Mr. L. G. Andrews, personnel director of the Carnegie-Illinois Steel Company, will be here to interview all graduates from any department who would like to work in the steel industry. In past years Carnegie has always taken several men each year from this

## Senate Committee Approves Funds For MSM Dormitory

Another step towards the construction of a dormitory for the Missouri School of Mines campus was made March 7 when a bill providing, among other things, \$150,000 for construction of such a dormitory, went to the state Senate. The funds are part of a group allotted from a \$4,000,000 omnibus bill which has several steps to go through before being completely passed.

Senator Allison of Rolla, a member of the Senate appropriations committee, said that the new dormitory at Rolla was necessary to meet the increased housing demand. He said that if it were not built, the students returning to school next fall would be unable to find places to live.

If the bill containing the dormitory amendment is passed by the Senate, House, and is signed by Governor Donnell, it is understood that the building will be rushed to completion in time for the opening of school next year.

## Blue Key Hears Mr. H. Shifrin

Mr. H. Shifrin, consulting engineer of the city of St. Louis was guest speaker at the Blue Key luncheon held last Wednesday noon at the Parish House. Mr. Shifrin was here to consult with Rolla city engineers on plans for the expansion of this city.

Mr. Shifrin related some of his experiences of the first World War. It seems that he and our own Professor 'Spike' Dennie became acquainted and served together as first lieutenant and captain respectively. The famous Rainbow Division had preceded the division that Mr. Shifrin and Professor Dennie were in, and had been given the freedom privileges of Paris to honor them as the first American soldiers on French soil. Their hilarity caused the overturning of several streetcars and various other pranks, which resulted in orders for the 68th division to remain in a rest camp.

## Chem. Bldg. To Be Complete April 1

The north half of the new Chemical Engineering and Chemistry building will be completed April 1. The announcement was made by the architects, Klipstein and Rathmann who inspected the building on Wednesday, March 5th.

At the present time the installation of the tables is being carried on. The hoods will arrive the later part of this week and will be installed immediately. Part of the painting is being done.

The completion of the building is six weeks late due to the serious labor situation.

## Many Civil Service Positions Open To Engineers

Because of the increasing need for engineers in national defense work, the United States Civil Service Commission has again announced an examination to fill junior engineer positions in any branch of engineering. The salary is \$2,000 a year less a 3 1-2 percent retirement deduction. Applications will now be rated as received at the Commission's Washington office until December 31, 1941. Qualified persons who do not have eligible ratings under previous junior engineer examinations held by the Commission within the past year are urged to file their applications at once.

Appointees will perform professional engineering work including assisting in experimental research, design or testing of machinery, and testing and inspection of engineering materials. Separate employment lists will be established in each recognized branch of engineering.

Competitors must have completed a 4-year engineering course, except that senior students will be admitted under certain conditions. They will not have to take a written test, but will be rated on their education and will be given additional credit for graduate study in engineering or for engineering experience.

Further information and application forms may be obtained from the Secretary of the Board of U. S. Civil Service Examiners, the Rolla post office, or from the U. S. Civil Service Commission, Washington, D. C.

## "M" Club To Elect New Members

At the meeting of "M" Club last Thursday night several football and other lettermen who have won their monograms this year were suggested for membership. A committee was appointed to check the records of these men and a final decision will be made at the next meeting.

Final plans were made for the "M" Club banquet to be held on April 5 at the Parish House. About 50 persons are expected to be present. Movies of last season's football games and other sports will be shown.

## Symphonic Music Club Meets Sunday

Symphonic music will be played during the meeting of the newly formed music appreciation club this Sunday, March 9.

The purpose of this new organization is to bring together those interested in listening to classical music, which in this case will be recorded music. The club will meet every Sunday evening at 7 o'clock in Parker Hall.

The club has not yet chosen a name or completed its organization.

## St. Pat Holiday Well On Way; Shillalah Contest Begins Monday

### Tau Beta Pi Hears D. J. Peery Of Curtis Wright

Mr. D. J. Peery from Curtis-Wright aeronautical corporation in St. Louis was the guest speaker at the Tau Beta Pi banquet that was held Thursday from 7 until 9 o'clock. Mr. Peery outlined the work of the engineer in times of peace and war, and advocated that, in the future, engineers should work toward having some authority over the use of their products.

He cited that in the near future there will be a business depression as there was after the last war, and that machines will be blamed for unemployment as before. He pointed out to the youthful group of Tau Beta Pi actives and initiates that they should prepare themselves for places of leadership, and work toward acquiring them, in order that industry might have capable and efficient management. "For engineers," he said, "make the most capable industrial managers. We have designed machines and have invented methods of manufacture that we alone, it seems, are capable of managing so that industry will not stifle itself."

Faculty members present at the banquet were Mr. R. M. Rankin, Mr. R. W. McCloy, Mr. H. B. Hanley, Mr. J. A. Short, Dr. A. J. Miles, and Dr. C. V. Mann. Mr. H. D. Dallmeyer of Curtis-Wright was also here with Mr. Peery. Both men are graduates of this school.

The banquet was held in honor of the initiates, shortly after the initiation of the 15 Tau Beta Pi pledges who were elected recently.

## Lucille Stimson Tea Dance Today

A tea dance will be given by Miss Lucille Stimson, this afternoon at the parish house from 3:00 until 6:00 o'clock. About 200 guests have been invited.

The parish house will be bedecked in green and white, in true St. Pat's style. Miss Stimson is expecting a huge crowd to make a gay event of this pre-St. Pat's social.

The following ladies will be assistant hostesses: Mrs. C. D. Ward, Mrs. J. N. White, Mrs. S. M. Shelton, Mrs. Don Farquharson, Mrs. Gale Bullman, Mrs. Harry Allen, Mrs. C. J. Millar, Mrs. Robert McCaw, Mrs. Robert Heller, and Mrs. S. C. McMeekin. Mrs. Shelton and Mrs. Bullman will serve tea.

### Prizes To Freshman With Most Unusual Shillalah, Costumed Upperclassman

Things in general are all ready for MSM's annual St. Pats celebration, THE event of the year. Henry Busse and his band is on the way, and the passage of time is the only element holding back the start of the gala affair.

#### (Shillalah Contest)

The Student Council has announced a Shillalah Contest to begin next Monday, as a lead-up to the holiday. The freshman who carries the most unique shillalah next Monday, Tuesday and Wednesday, March 10, 11, and 12 will be awarded a one-night ticket to the St. Pat's celebration. The cudgels are not to be over five feet long and twelve inches in diameter on the large end and

#### St. Pat's Tickets

Tickets for St. Pat's will be on sale in Parker Hall on next Monday, Tuesday and Wednesday afternoons from 1:00 till 5:00. Townspeople as well as students and faculty members may obtain tickets during this time.

Admittance to either the costume or formal ball will be granted only upon the presentation of tickets or invitations to buy tickets.

not smaller than four feet long and three inches in diameter on the small end. The final award will be made by the judges at 12:45 before Parker Hall, next Wednesday, March 12.

In addition, the upper-classman who wears the most appropriate or gaudy costume pertaining to St. Patrick and the Emerald Isle will be awarded a one-night ticket to the celebration which honors the Patron Saint of the engineers.

The contestants will be judged during all three days of the contests and final selections will be made at 12:45 p. m. on Wednesday, as stated above. The judging will be done by a committee from the Student Council and the St. Pats Board.

#### Procession Order

The following order of the Maids of Honor in the procession at the Ball next Saturday night was decided by the St. Pat's Board at its meeting last Wednesday evening:

Lambda Chi; Alpha Lambda Tau; Kappa Sigma; Sigma Nu; Independents; Pi Kappa Alpha; Kappa Alpha; Theta Kappa Phi; Triangle; Sigma Pi.

The concession of the cloak room has been voted to Fred Finley and Seymour Orlofsky for the three nights of St. Pat's. Tickets for both nights of dancing will be \$5.50 and \$3.00 for one night. Spectator seats in the balcony will be available for fifty-five cents.

## THE MISSOURI MINER

The MISSOURI MINER is the official publication of the Students of the Missouri School of Mines and Metallurgy. It is published every Tuesday and Saturday during the school year. Entered as second class matter April 2, 1915, at the Post Office at Rolla, Mo., under the Act of March 3, 1879.

Subscription price — Domestic \$1.50 per year, Foreign \$2.00 per year. Single copy 4 cents.

### Coming ..... One REAL Holiday

Let's make this a real St. Pat's. Let's make it a holiday that will only have good points with which to be remembered. According to all plans made it should be one of the best. All of the events leading up to it indicate that. Actually the success of the affair is not up to a particular group, but lies in the hands of every participating individual. It depends upon whether each of us goes into the thing wholeheartedly and makes his own plans to give it only the best. Shall we do that?

### Off The Campus

#### Kappa Alpha

During a regular meeting of Beta Alpha of Kappa Alpha last Monday night, the officers for the coming term were elected. Jim Kirkpatrick was elected I, Ted Hadley was elected II and Curtis Hubbard was elected to fill the office of III.

This week Kappa Alpha announces the pledging of a very promising Junior, Valyn Harrington. Val is well known as a member of the Miner wrestling team.

Several of the boys are bringing out-of-town dates to Rolla for the St. Pat's celebration.

#### Kappa Sigma

Ralph Bank and Dick Brackett, who went with the swimming team to Murray, Ky., apparently had a good time. Kentucky is a dry state, but Brackett managed things alright. Al Sindel, junior petroleum, who has been in Barnes Hospital in St. Louis for the last two weeks, is not expected to return to school this semester. Al was suffering from a severe case of pneumonia.

The freshman are getting the house ready for St. Pat's, and everybody is preparing for one big celebration.

#### Pi Kappa Alpha

A Founder's Day banquet was held last week-end with Leo Hoegh, National Secretary of Pi Kappa Alpha, speaking briefly before the dinner. Unfortunately Mr. Hoegh had to leave immediately in order to be in Iowa the following morning. Guests at the dinner were Professors Orten and Gevecker, and Charles Freeman and Bruce Harlow. Freeman is the District President for the fraternity.

An eight page St. Pat's issue of the MINER will be issued next week.

## In The Mail

Dear Editor:

The recent letter which appeared in this column reprimanding you for your joke column has just been read. I would like to express my opinion on the subject.

For my part, I sincerely hope that you continue the column as it is. The jokes are a bit more subtle and clever than campus 'smut.'

And, my mother and fiancee neither read nor have reason to understand any joke which might be called "dirty."

Name withheld by request.

### Mr. Hubbard Heads Rolla C of C

Mr. Noel Hubbard of the Missouri School of Mines registration office was recently elected president of the Rolla Chamber of Commerce. Mr. Hubbard has been MSM's assistant registrar and student advisor for the past seventeen years and has been active in aiding the progress of Rolla.

#### Triangle

With St. Pat's nearly here excitement begins to rise to a holiday pitch at the Angle house. Everyone is hard at work preparing for the deluge of home sweet-hearts and girl-friends who will help us enjoy the holiday to the fullest. Most of the girls live in the vicinity of St. Louis with the exceptions of Miss Toni Coon from Iowa State and Miss Patty Dean from Murphysboro, Illinois.

We are pleased to announce the pledging of Mr. David J. Peery of Ferguson, Missouri, who comes as an associate member. Mr. Peery teaches on the National Defense program at Washington University and fills the capacity of Aeronautical Engineer at Curtis-Wright. He was guest speaker at the Tau Beta Pi banquet on Thursday night.

## Eyes Over The Campus

AMONG 75,000,000 ADULTS IN THE UNITED STATES THERE ARE 1 1/2 TIMES AS MANY COMPLETE ILLITERATES AS COLLEGE GRADUATES!

### Splashes of Ink

By the Pen of Ye Ed

INTERESTING NEWS ITEM: Bob Topper and Bob Schmidt, Kappa Alphas, spent the last week-end in the county jail at Pontiac, Michigan. It's not as bad as it sounds, however. Their girl-friends are sisters, and their paw is a sheriff, and lives in the jail, or something.

A CONFESSION: Did you read that letter to the Editor in the last issue of the MINER complaining about the shady jokes in the paper? Well, I wrote it. We had a space just that big to fill, and nothing to go in it.

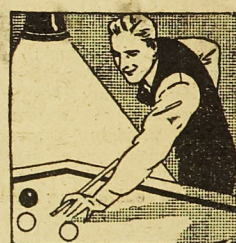

CORRECTION: At the suggestion of Librarian Gil Campbell, we hereby officially change the statement in the last issue that sixty books were added to the library during January. It was really 200, so we'll say now that it was 340, which will make the average 200. OK, Gil?

## Intramural Fights Begin; Finals In Gym Tonight

The intramural boxing and wrestling preliminaries began yesterday in the Jackling Gym. Finals will be fought tonight which time Lou Thesz, professional wrestler, will give an exhibition wrestling holds as an added attraction to the program. The results of yesterday afternoon wrestling and boxing are as follows:

### Boxing

45-lbs. Gehr, Sophs, versus Baum, Frosh: In the first round both boys sparred for an ending before mixing. In the second Schaum got the range and began throwing hooks with both hands. With Gehr definitely edged in the third, Schaum piled his advantage and the fight ended with a decision for Schaum. 55-lb. class — Balmat, Sigma versus Holland, Seniors: The fight began with slugging by both lads. In the second Balmat went down to a count of six and later to a count of seven. With

Holland hitting Balmat in both body and face Balmat went down for a technical knockout.

155 lbs. — Gimple, Frosh, versus Elsea, Kappa Alpha: The fight moved fast in the first round. In the second both were landing hard and solid punches. In the third, Gimple was too tired to fight and Elsea was on the offensive. Decision for Elsea.

155 lbs. — Fris, Soph, versus Paul, Pi Kappa Alpha: In spite of Paul's advantage of reach Fris threw a left jab that landed often in the first. At the end of the second the fighters were trading punches. In the third Fris was on the offensive landing solid blows.

Fris won by a decision.

### Wrestling

155 pound class — Henderson gained the decision by an eight to four point advantage. Buckner, Senior, in the 135 pound class pinned Locher of the Triangle frat in the opener in 35 seconds. Kirkpatrick, of the K. A. house defeated Byron, Freshman, in one minute and forty two seconds in the 135 pound division. Brown, 135 pounder of the junior class, gained a fall over Wicker of Sigma Nu. Time for this match was five minutes and fifty two seconds.

## More Victories For Rifle Team

The Missouri School of Mines rifle team extended their string of victories to thirteen straight last week by out-shooting Kansas University, Texas A and M, Georgia Tech, Western Kentucky Teachers, and Montana State.

Shooting a five man team, Texas A and M scored 1,822 points, and Montana State 1,861 points, while the Miners rang up 1,885 points.

In a ten man match, the University of Kansas scored 3,652, Georgia Tech 3,663, Western Kentucky State Teachers 3,623, to the Miners 3,705 points.

The way the Miner Riflemen finished were as follows:

R. E. Fields	384
A. E. Fick	382
E. G. Johannes	374
F. W. Finley	374
W. E. Mengel	371
M. G. Ulrich	371
E. M. Schultz	368
J. H. Fox	365
J. E. Burst	363
E. A. Schill	353

Notice in Scotch Church: "Those in the habit of putting buttons instead of coins in the collection plate will please put in their own buttons and no buttons from the cushions of the pews."

## Track Men Now Working Out Regularly

With the weather having loosened up a bit during the first of the week the track team was able to get three good workouts, only to be chased back into the gym during the last two days.

Bullman has been spending a great deal of time with the team in attempting to bring out some undiscovered talent. As yet there has been no timing or any endeavor whatsoever to try the fellows out. The boys are just taking exercises and laps to get in condition.

One event the Miners should do well in this year is the mile relay. The team placed in the conference meet last year and these fellows are back this year with the exception of Eads.

Joe Van Pool, who lettered last year in the half mile, has been working extremely hard and reports he will be in good shape. Joe may prove valuable to the team this year.

Coach says the team has some men who look pretty fair and lists the following fellows as possibilities:

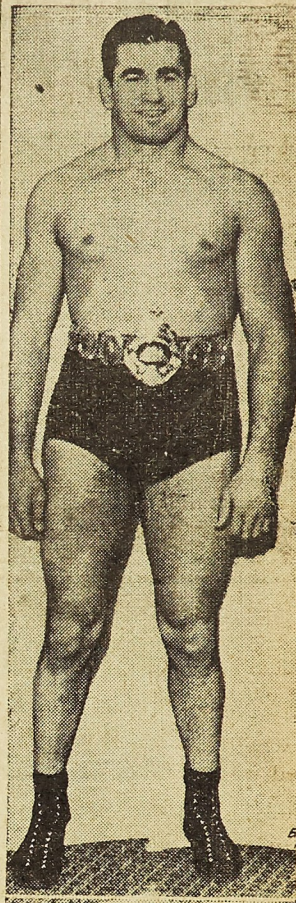

Hessman, in the disc; Bisher, in the javelin; Randall, in the weights; Smith in high jump, Perkins, in the javelin and broad jump, and Hendersen in the sprints.

Incidentally the team has nine meets, and this is the toughest schedule the team has ever had, says Bullman.

### MUSIC

Continued from page 1  
tion. Professor Cagg is the faculty sponsor and has extended an invitation to everyone who likes classical music.

Lou Thesz

Pictured above is Lou Thesz, former holder of the World's Wrestling Championship. Thesz will put on an exhibition match in Jackling Gymnasium tonight in conjunction with MSM's intramural matches.

### "Army On Wheels" Movie Shown

"The Army On Wheels" was depicted by a motion picture shown at a mass meeting held in Parker Hall yesterday.

The film gave a brief review of the mechanized units of the army and their functions in moving troops from Georgia to Louisiana. Construction of pontoon bridges, hasty erection of mobile anti-aircraft guns, and the movement of trucks and troops over rough terrain was shown as it was done in the maneuvers, and as it will be done in time of war.

A short part of the reel showed Shakespeare.

modern army methods of setting up means of communications. Switchboards were set up in the field, a hand generator supplied power, and voice communication was possible over distance of 35 to 40 miles.

Modern aerial attack warning sending equipment, range finders, and huge microphones or "ears" were shown in operation. These are but a few of the means and methods by which the mechanized army has overcome the elements of time and distance.

A jest's prosperity lies in the ear of him that hears it, never in the tongue that make it.

### FIGHTS Continued from page 3

Kiburz, Soph., had full command over Gollup, of Pi K. A. whom he defeated by a fall in 2 min. and 53 seconds. Mooney, K. Si., gained a fall over Hadley, K. A., in 3:40.

In the 135 pound division, Buckner received a bye which will pit him against the winner of the Brown-Kirkpatrick tussle on Saturday evening. Mooney, 155 pounder, was also awarded a bye and will meet the winner of the Kiburz Henderson match in the finals.

### Debaters Here

Over fourteen teams of debaters, composed of four students each will debate here today, March 8.

### Student Council Replaces Keys With Sweaters

The Student Council, at its last regular meeting, decided to purchase sweaters this year for members to wear about the campus. The sweaters are something different for the first time in a number of years, they will replace the customary keys.

### SENIORS Continued from page 1

Mr. A. M. Rupkey of Bethlehem Steel is scheduled to interview on April 14. Mr. Rupkey stated that students would be interviewed for the purpose of selecting men for the "Loop Course," which is a training program carried on by them.
