Committee Approves Dorm Funds

Thursday the Senate appropriations committee approved the bill introduced by Senator Emery Allison to appropriate \$150,000 for a dormitory for the School of Mines. The bill now awaits action by the Senate and House of Representatives.

In receiving the approval of the appropriation committee the bill was brought over a barrier that proves fatal to many legislative proposals. Chances of receiving the appropriation are materially increased by the approval of the committee.

NOTICE

Students desiring loans from the Jackling Loan Fund should make applications before the conclusion of the present semester. This will insure consideration of applications before next September.

K. K. Kershner, Chairman
Faculty Loan Fund Committee

Ceramic Society Hears Blackmer-Post Ceramist

Mr. Kimberling of the Blackmer and Post Pipe Company of St. Louis spoke to the American Ceramic Society at its meeting in the Bureau of Mines Experiment Station Wednesday night. He told the story of sewer pipes, tracing their history back to 3500 B. C. Mr. Kimberling, who has had eighteen years of experience in the ceramic industry and who is now in charge of research for the Blackmer and Post Pipe Company told of the steps in the manufacture of sewer pipes by his company.

Mr. Kimberling spoke of the antiquated non-technical methods used in the ceramic industries, and especially in the manufacture of sewer-ware. He stressed the fact that only the movement of well trained engineers into the industry could develop the much needed technical methods. He was accompanied on his trip by Mr. Wood, a ceramic graduate of Albert Institute who is now employed by the Pacific Borax Company in St. Louis.

NOTICE

We, the junior mets, accept the challenge of the senior mets to participate in a softball game on Sunday, May 4, at 2:00 p. m., with the understanding that the losers are to furnish the liquid refreshments and the winners the sandwiches, etc. for the outing to be held on Wednesday, May 7.

Bill In Senate Seeks To License Engineers

On April 22 a committee of the State Legislature approved a bill, that if passed, will provide that all engineers and architects in order to work as professional engineers and architects or architects, will be required to obtain a professional license.

According to the bill, anyone who has 5 years of experience in the branch of engineering in which license is desired, and who has a Bachelor of Science degree in engineering, is eligible to take a licensing examination. If the examination is passed, license is obtainable.

This measure would affect mainly civil engineers, mining engineers, consulting engineers, and architects. State and federal employees are exempted from license requirements. It would have little effect on most engineers who work in factories.

The introduction of the bill was brought about by the Missouri Society of Professional Engineers of which Professor Black of the drawing department is president.

Four A. I. Ch. E.'s Convene In Kansas

Four delegates of the Missouri School of Mines student chapter of the American Institute of Chemical Engineers are attending the Regional Convention of the organization which is being held today at Kansas State College, Manhattan, Kansas. The delegates from Mines are F. Edwin Johnson, Charles A. Schaeffer, Ed Schneider, and Bailey W. Hagar. Johnson will present a paper on "The Theory of Grinding Aids" which is based on research work being carried on in the Chemical Engineering department under the direction of Dr. F. H. Conrad.

Delegates from the University of Missouri, University of Kansas, Washington University of St. Louis, Iowa State College, and the University of Nebraska will also be present. Effort will be made to have the regional convention for the spring of 1942 meet at the Missouri School of Mines.

W. A. Enderson, graduate student at Mines last year, won the first place for the best paper presented at the 1940 regional convention.

Senior Mechanicals

If the senior mechanicals think they are physically fit and not too far in the groove, the junior mechanicals would be delighted to beat them in a softball game May 17, preceding the fourth annual "Spring Outing," the loser serving the winner refreshments—naturally.

Alpha Chi Sigma Initiation Today

At the meeting of the student Sigma held last Tuesday night plans for the coming week-end were completed. This afternoon there will be an initiation for eighteen pledges followed by a dinner for the new initiates which will begin at 7:30 Saturday night.

Members from professional and collegiate chapters will meet here Sunday for a picnic dinner at Dr. Schrenk's home. After the picnic there will be a baseball game between the students and the professionals. Last year in a similar game the students were defeated.

Reagan Presents Paper At AIEE Convention

Last Tuesday at the annual convention of the southwest district of American Institute of Electrical Engineers held in Columbia, Noel Reagan presented a paper on "Design of Radio Frequency, Coils and Transformers in Super-heterodyne Receivers." The paper was written by Reagan and Wayne Bennetsen, senior electricals.

Twenty-two students of the School of Mines attended the convention. The program consisted of the presentation of technical papers, an inspection of Missouri University's engineering college, a luncheon, a banquet, and a dance.

Papers were presented in the library auditorium of Missouri University during the regular time for classes all day on Monday and on Tuesday morning. 16 papers were presented and 15 schools were represented at the convention.

At the luncheon held Monday noon Mr. J. L. Hamilton, vice-president of the southwest district of AIEE, and an engineer at Century Electric Co., was guest speaker. Stephens College girls entertained with tap dancing and singing at the evening banquet.

Charley Fisk's student orchestra played for the dance which was held at the Tiger Hotel from 9 until 12 o'clock Monday night. Dates with Stephen's College girls were arranged for those who wanted them.

Bottcher's Paper Takes Fifth Place

Herman Bottcher's paper on "Permeability - Porosity Correlation of Unconsolidated Sands" won fifth place at the regional convention of the American Society of Mechanical Engineers. The convention was held at the Rome Hotel, Omaha, Nebraska.

First place was won by a student from Washington University, second and third place was won by Missouri University students, and fourth place went to Kansas State College.

Nine engineering colleges were represented at the convention. Next year the affair will be held in St. Louis.

Dr. Hammond Says Engineer Shortage Will Be Acute

STATE COLLEGE, Pa. — (ACP) — Engineering schools in American colleges and universities will graduate this June fewer than one-third of the number of engineers required to play important roles in ever-expanding defense industries, according to an estimate by Dr. H. P. Hammond, dean of the school of engineering at Pennsylvania State college.

Emphasizing that the expected 12,500 or slightly more engineers to receive June diplomas will be woefully inadequate to fill industry's needs, Dr. Hammond concluded the situation is so critical that "the most patriotic course which a student of engineering can adopt is to complete his education without interruption and as quickly as possible."

The dean praised the government proposal for speeding up the education of engineering students by eliminating summer vacation. "The engineer's place is so important in the whole picture of defense production, and so vital to its speed and efficiency, that every practical means should be taken to insure a growing supply of trained engineers," he said.

Wright Tells of Carbonate Industry At A. I. Ch. E. Meeting

At the meeting of the student chapter of the American Institute of Chemical Engineers held Wednesday night, April 31, R. C. Wright, senior, gave a talk on calcium carbonate company at Carthage, Missouri. He also discussed grinding processes carried on at the Carthage Marble Company.

It was decided by the A. I. Ch. E. chapter that their annual spring outing will be held on Friday afternoon, May 9, at 4:30 at the clay pits north of Nagogami Road.

"M" Club Gives Seniors Farewell

The meeting of the M club Thursday evening was a farewell meeting for the senior members. They were commended for the interest they have shown and the services they rendered the club.

Plans were discussed for the M club show to be held next year. A committee was appointed to investigate the purchase of a trophy case for the school in conjunction with the Athletic Committee.

The M club will have one more meeting before school closes. At this meeting there will be a report on the financial status of the club.

NOTICE

Frosh will burn their caps and suspenders Tuesday night at 10:00 on the upper Athletic field. Roll will be taken.

The Student Council.

Dr. Ravold Speaks At Assembly

Former MSM Student Now Doing Leprosy Research

Dr. Amand Ravold, a former student of MSM, past president of the St. Louis Association of American Medical Society, and an outstanding figure in modern research on leprosy, spoke to the student body at a mass meeting yesterday at the request of the School of Mines chapter of Phi Kappa Phi, national honor society.

The subject of his talk was the work of Sir Roland Ross, an Englishman, who was instrumental in discovering that the mosquito is the carrier of Yellow Fever. He told of Ross' work in the painstaking work of dissecting mosquitos under a microscope in the heat of the Panama region, and of the first discovery of the parasitic bodies in the stomach of the insect.

He accredited to Sir Ross the achievement of saving more human lives than any other one person in the history of the world.

Before his account of Ross' work, Dr. Ravold humorously told of some of his travels in England and Austria. One indication that he is a former School of Mines student was brought out when he described visiting a tavern in Scotland with an English nobleman to see "the beautiful barmaid." He declared that this woman was "the most beautiful woman he has even seen," and that he has seen many women whose beauty has achieved world fame.

After his talk he requested that the students present give him a school yell because "there was no school yell when he attended school here." The students responded with "Yeah, Doc! yeah, Ravold!"

Ravold Made Honorary Phi Kappa Phi Member

Dr. Ravold was made an honorary member of Phi Kappa Phi last night. This ceremony was followed by a banquet held at the Presbyterian Church.

Freshmen Decide To Pay Rollamo Board

A meeting of the freshman class was held Wednesday, April 30, in the auditorium. Suggestions for a spring outing were proposed, but it was decided that the money now on hand would be given to the Rollamo Board in payment of the class picture.

As You Were!

Apologies to Lieutenant V. A. C. Gevecker. He was referred to as "Sergeant" in a previous issue of the MINER.

THE MISSOURI MINER

The MISSOURI MINER is the official publication of the Students of the Missouri School of Mines and Metallurgy. It is published every Tuesday and Saturday during the school year. Entered as second class matter April 2, 1915, at the Post Office at Rolla, Mo., under the Act of March 3, 1879.

Subscription price—Domestic \$1.50 per year, Foreign \$2.00 per year. Single copy 4 cents.

Dormitory Bill Past A Major Hazard

We are now waiting for action by the Legislature on two bills pertaining to the School of Mines. As far as is known to the public, all controversy on the matters is dormant at present.

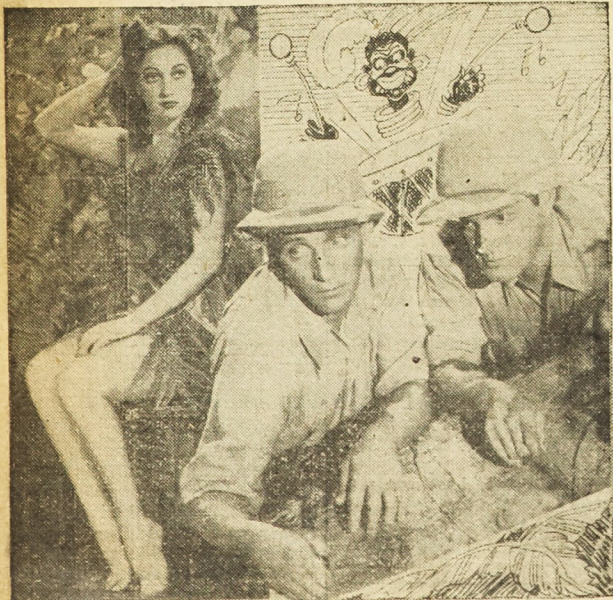

In receiving the approval of the appropriations committee the dormitory bill has gone over a large hurdle. The State Legislature has been told of the injustices that have been done to the School of Mines, and should know by now of the handicap that has been placed on this institution.

Any observer can see that this school has been allowed to deteriorate while no expense has been spared in improving Missouri University. This unbalance, present since MSM was founded, may be adjusted soon. The bill's now before the Legislature are the most important in the history of the School.

Coming To The Rollamo

Bing Crosby, Dorothy Lamour and Bob Hope in a melodic mood. Bing and Bob in the new picture are a couple of carnival men barnstorming their way thru Africa in an act which features Bob as Fearless Frazier, performer of terrifying stunts. Instead of her famous sarong, Dorothy wears a snappy little jungle creation made of ferns. On the Rollamo Theatre screen Sun. and Mon. May 4 - 5.

Sgt. L. B. Johnson Transferred To Omaha, Nebraska

Sergeant Luther B. Johnson, who has been attached to the military department at the Missouri School of Mines since 1938, left Thursday night for his duties in the ROTC office of the 7th Corps Area Headquarters at Omaha, Nebraska. He has been promoted to Staff Sergeant and will be in charge of coordinating the supply and finance for all ROTC units in the Seventh Corps Area.

Sergeant Johnson, a native of Minnesota, had served in the United States army eight years yesterday. He holds a commission of second lieutenant in the 106th Infantry Reserve. His family will follow him to his new post the first of June.

Oklahoma Ags Take All Seven Tennis Matches

The Oklahoma Aggies' tennis team played here Thursday afternoon to soundly trounce the Miner netmen by winning all seven matches. The Aggies were on a week's trip on which they played matches with Springfield, Arkansas, Missouri School of Mines, St. Louis, and Washington University.

Results:

Karlovitich, Oklahoma, defeated Mooney, Miners, 6-2, 6-4.
Pickins, Oklahoma, defeated Bradley, Miners, 6-4, 6-8.
Williams, Oklahoma, defeated Miners, 6-0, 6-0.
Winterringer, Oklahoma, defeated Heddell, Miners, 6-2, 6-3.
Heller, Oklahoma, defeated Fleischli, Miners, 6-1, 6-0.
Karlovitich and Winterringer, Oklahoma, defeated Mooney and Bradley of Miners: 6-2, 6-2.
Williams and Heller, Oklahoma, defeated Aschemeyer and Fleischli of Miners: 6-1.

Springfield Drubs Miner Golfers

The MSM golfers lost a rather one-sided meet at Springfield Monday. Webb of Springfield turned in the best performance of the day, going around in 75, one stroke ahead of Clarkson of the Miners, and his own teammate, Stewart.

The results:
Clarkson (76) of Miners lost to Webb (75)—3-0.

Beard (82) of Miners lost to Stewart (76)—3-0.

J. Nevin (88) of Miners lost to Lore (85)—2-1.

Westwater (89) of Miners lost to Kimensky (86)—2-1.

Clark (91) of Miners lost to H. Ramsey (85)—3-0.

Nicholson (93) of Miners lost to J. Ramsey (93) Springfield—3-0.

If every boy in the United States could read every girl's mind, the gasoline consumption would drop off 50 per cent.

She: "Am I the first girl you ever kissed?"

He: "Now that you mention it, you do look familiar."

Triangle Track Meet Will Be Held Here Today

Mules, Bulldogs, And Miners Compete In Last Pre-MIAA Tilt

The Miners will be host to the Warrensburg Mules and the Kirksville Bulldogs in a triangular meet here today, May 3. This three-way meet should provide plenty of action, for this will be the final meeting of the three teams before the M. I. A. A. championship encounter. The Miners have one other meet before the outdoor, and that will be with the St. Louis Billikens on May 7.

The probable Miner entries for Saturday's triangular meet will be as follows:

100-YARD DASH, La Barge.
220-YARD DASH, La Barge and Mitchell.

440-YARD DASH, Pierce and Kalish.

880-YARD RUN, GaNun and Van Pool.

220 LOW HURDLES, Corneau.

120 YARD HIGH HURDLES, Itterman and Kendall.

MILE RUN, Ga Nun.

2 MILE RUN, Battermann and Brown.

HIGH JUMP, Spinner.

SHOT PUT, Woods and Randall.

BROAD JUMP, Perkins and La Barge.

POLE VAULT, Hessman.

DISCUS, Hessman, Leone, and Self.

JAVELIN, Bouchier, Perkins, and Mengel.

MILE RELAY, Busch, Kalish, GaNun and Pierce.

Off the Campus

Lambda Chi

The Alpha Delta Zeta of Lambda Chi Alpha will celebrate its twenty-fourth anniversary this afternoon at a cabin on the Gasconade River.

Everett Birch returned from Springfield, Mo., last Tuesday, without his fraternity pin. He announced his engagement last Thursday to Miss Modeane Edmonson, Miss Edmonson whose home is Harrison, Arkansas, attends Drury College in Springfield.

Lieutenant Stuart Dods announced his engagement to Miss Edna Evens, of Little Rock, Arkansas. They plan to be married the latter part of this week. Mr. and Mrs. Dods will make their home at Fort Belvoir, Virginia.

Pi Kappa Alpha

The Alpha Kappa chapter of Pi Kappa Alpha held its annual spring formal last Saturday night. Music was supplied by the Varsity Orchestra, and chaperons were Mr. and Mrs. Littlefield, Mr. and Mrs. Leeson, and Mr. and Mrs. McQueen. Powell Dennie, '40, returned to Rolla for the occasion.

Election of officers for the first semester of next year took place last Monday. Harold Krueger, junior miner, was elected President, succeeding Harold Nicholas. Gilbert Blankenship and Robert Eck were elected vice-president and treasurer respectively replacing Randle Egbert and Bob Westwater.

Ed Kromka, junior mining student, pledged Pi Kappa Alpha recently.

Next to a beautiful girl, what do you consider the most interesting thing in the world?

When I'm next to a beautiful girl, I don't bother about statistics.

Horace: Help me pick up this student. He's drunk.

Homer: No, he isn't. I just saw his arm move.

Airport Swarming With CAA Planes, Reporter Finds

By Neil Stueck
All clear — Switch off — Swing that prop — Contact — Switch on — Whurr — Pull those blocks-drones in your ears. Ye gods what kind of lingo — where are you? Oh! out at the airfield of course.

With 30 students in the primary course and 10 in the secondary course out to get their ratings the field is a hub of activity. Hour after hour the trim Cub trainers roll in, gas up, change hands, and taxi out again. Lets take a birds eye view of one of these ships.

Standing no higher than you are with a wing spread of only 22 feet and weighing only 600 pounds they look pretty frail. But can

they take it, and what that 50 or 65 horsepower motor will put out is really amazing. They call them the flying broomsticks. But wait! There goes one of the boys up to make his solo hop. Lets follow him with our magic eye.

He climbs in all decked out in his chute, and buckles his safety belt. "Contact" the prop boy calls and "Contact" the pilot calls back. The prop boy swings high his right foot and pulls down on the propeller, starting the motor. Inside the cockpit the pilot kicks hard on the left rudder bar and swings the tail around. A little pressure on the throttle, and up jumps out the R.P.M.'s. The ship begins to roll, up comes the tail, on a few feet more and it's off the ground. He eases back on the stick and before you know it he is up 2000 ft. At first he looks a little pale and nervous, but then he sort of gets the feel of the ship, and he completes his maneuvers and comes in for a nice landing.

Primary and Secondary Stages

It sounds easy doesn't it — however there's more to flying than just climbing in a plane and soloing. In the Primary C. A. A. Course offered here at the School of Mines it is necessary to complete 72 hours of ground training and 8 hours of flying instruction before soloing. Also before you get your rating you have to log a minimum of 35 hours of flying time and pass a series of tests in the handling of a plane. Along with this you have a cross country flight.

After primary flight training the secondary course is offered to those students who have been recommended from the primary. For this purpose the C. A. A. uses a Waco Biplane trainer equipped with a 220 horsepower motor. With this ship more difficult maneuvers as slow and half rolls, lazy 8's or wingovers, falling leafs, vertical reverses or cartwheels, Pylon 8's, Immelmans, and Cuban 8's are possible. These are included in the instruction and must be accomplished before a secondary rating may be attained. Supplementary work in cross country flying and a little night flying is also included.

They say if this flying gets in your blood its got you for life and you can well believe them if you've ever been up.

"C'mon, let's go to a movie."
"S'no use, I've seen all the Roosevelts before."

Alumni News

Lt. Arthur Dennis, Jr., MSM '40, stationed at Fort Bragg, N. C., was in Rolla yesterday, having been in command of a train transporting more than 230 troops from Fort Bragg to Fort Leonard Wood. The detachment included about 210 Negro soldiers. Lt. Dennis is visiting his wife in Springfield this weekend, and will return to Fort Bragg.

Jack Teide '40, visited Rolla Thursday. He has been called in to the Naval Reserve as an Ensign and will be stationed at Washington, D. C. He was formerly with the United States Rubber Co., in St. Louis.

Charles Hall '40 was in Rolla yesterday. He has just completed a three months inspectors course in Philadelphia and is now a government inspector of the Western Cartridge Company. His home address is 134 Goulding Ave, East Alton, Ill.

Ed Ballman, '38, has been called to active duty as an ensign in the United States Navy. He is at present in New York City, having no permanent address as his unit has not been formed.

Lawyer Tells Why Husbands Desert Wives

Dean John G. Harvey of the Temple university law school says that 71,500 American husbands deserted their wives last year because wives:

Talk too much about their operations.

Came down to breakfast in curlers and negligee.

Told in detail of children's misdeeds.

Tried to keep up with the Joneses.

Were too critical.

Had no sense of humor.

He made these disclosures at a women's club luncheon. Among the members listening was his wife.
