NUMBER 12

Student Council Asks Rollamo To Make Changes

October 23, 1941

To: THE ROLLAMO BOARD
MISSOURI SCHOOL OF MINES
ROLLA, MISSOURI
Resolved by the Student Council:

In a regular meeting of the Student Council on October 23, 1941, it was resolved that the present constitution of the Rollamo Board be repealed. It is urged that the Rollamo Board dissolve the present constitution and have a new one incorporated to be approved by the student body.

Briefly, the changes proposed are:

- (1) The Staff be elected by the Board.
- (2) The successful candidates for the Rollamo Board shall be elected on a merit system. A merit system should be established to include all members of the Board. This will in turn make all members of the Board active.
- (3) The membership of the Board shall not include over 30 per cent Independents and 20 per cent individual fraternity members at one time.

The investigation was brought before the Council by three students. This action was taken according to Article IV, Section 2 of the Student Council constitution which reads:

"It shall be the duty of this Council to act as a regulatory body in all matters which pertain to the student body as a whole and to perform such functions as may be deemed necessary to bring about regulation."

A decision on this issue is requested to be brought before a regular meeting of the Council on November 6, 1941.

THE STUDENT COUNCIL.

Music Club Will Give Initial Program Sunday

The Music club of M. S. M. is having its first meeting next Sunday night at 7:00 o'clock. It will be held in the auditorium in Parker Hall. There will be a recorded musical interlude and the following records will be played: The Grand Canyon Suite, Rhapsody in Blue, and The Peer Gynt Suite.

Records will be furnished by Prof. Weber of the English department. All students are invited to attend.

Tau Beta Pi Holds Banquet And Initiation

Eleven seniors and one Junior, representing the outstanding scholars of the campus, were initiated into Tau Beta Pi, national engineering fraternity, Friday afternoon at 5:00. The ceremony took place in the Club Room.

The eleven seniors are: Edwin Jack Claasen, Mark Beard, James Crookston, Carl Johnk, Vernon Loesing Norman Loesing, Vernon McGhee, Kenneth Showalter, Gilbert Schockley, Robert Stowell and Jack Witt. The honor Junior, Don Coolidge, Jr., topped his sophomore class scholastically last year.

In honor of the initiates, a banquet was given after the initiation at the Colonial Village. Prof. D. F. Walsh was toastmaster. Dr. W. Spencer Hutchinson, Professor of Mining, Emeritus, of M. I. T. gave a very interesting description of his various experiences encountered as a consulting engineer in South Africa, New Caledonia and South America. His address was preceded by short talks by Mel Ullrich president of the local chapter, Dean C. L. Wilson, Robert Stowell, Jack Witt and Edgar Rassinier.

Stueck Will Be APO President This Year

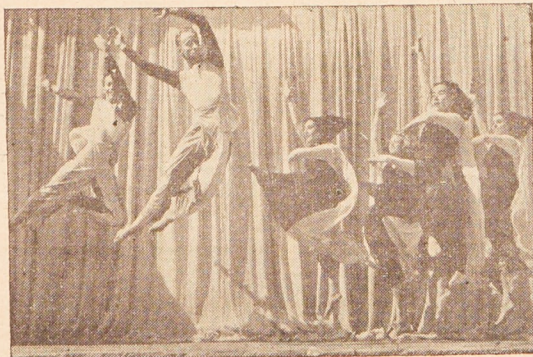

Neil Stueck was chosen President of Alpha Phi Omega at an election of officers held last Tuesday night in the Club Room. Other officers chosen were Ghent Johannes, Vice-President; Edward Gygas, Secretary; Bill Goodwin, Treasurer; Edward Chernoff, Alumni Secretary; Norbert Batterman, Historian. Final plans were made for occupying the new chapter room in the Power Plants building.

A smoker was held Friday night in the Club Room of the Metallurgy Building. Faculty advisor Professor Guest gave a talk on the importance of Alpha Phi Omega to the campus. Chapter officers explained the service program of the fraternity on the campus, in the community, and the policies of Alpha Phi Omega. Refreshments were served upon completion of the program.

NOTICE

Entrants for the Cross Country race to be held November 1st must be in by 6:00 P. M. Wednesday, Oct. 29.

Coming Next Wednesday

A Strictly American Ballet Will Be The Next General Lectures Feature

The next number on the current General Lectures series will be the well-known and popular Graff Ballet. This company is directed by Grace and Kurt Graff, internationally famous dancers. The members of the group are all, significantly, American born and bred, thus destroying European influence from the ballet. It is strongly American and promises

to be unique and entertaining. On the Riviera in France, they gave special performances before the Emperor of Siam, King of Sweden, the Prince of Wales, and other royal personages, thus proving their skill and excellence. The program will be presented in Parker Hall on Wednesday night, October 29, at eight o'clock.

Educators And Business Men Here For Minerals Conference

Cowgill Blair, MSM Curator will Attend Parents' Day

One of the features of the Parents'-Engineers' Day program will be a banquet given at the Sinclair Pennant Hotel on Saturday evening at six o'clock. At this banquet the principal speaker will be Mr. Cowgill Blair of Joplin, Missouri, a member of the Board of Curators and the executive committee for the Missouri School of Mines.

For many years Mr. Blair was active on newspapers in Southwest Missouri and for thirty years he was with the Joplin Globe Publishing Company of which he is now the General Manager. He is interested in farm work and for several years operated a large stock farm. This led to his founding the first Farm Department to be carried by a daily newspaper. He has been an active stockholder and director in other enterprises contributing to the development of Southwest Missouri.

Mr. Cowgill Blair was born in Carthage, Missouri, November 11, 1889. He attended public schools there and became a student in Ohio Wesleyan University for a year. He then attended the School of Journalism at the University of Missouri shortly after its organization, where he was a member of the Sigma Nu Fraternity. For three years he was a member of the Board of Visitors of the University and during that time he inspected the Missouri School of Mines.

In 1912, he married Miss Rebekah Harris, also of Carthage, Missouri. He has three children: Cowgill Jr., Miss Rebekah, and David Blair. All three of his children are University graduates. The two sons are members of the Sigma Nu Fraternity and the daughter is a member of Kappa Kappa Gamma.

Veale Elected By "M" Club

Gené Veale, Miner football star has been chosen the new vice-president of the "M" Club. This vacancy occurred when Ed Kromka assumed the presidency after Nelson GaNun failed to come back to school this fall.

The athletes will sponsor the Engineer's Parents Day dance to be held on this campus next week. It will be held in the gymnasium November 1st from nine until one.

This year MSM has been honored by having on the campus the national meeting of the Industrial Minerals Division of the American Institute of Mining and Metallurgical Engineers.

The conference included, among nearly one hundred out-of-town guests, faculty members from the Universities of Missouri, Illinois, Ohio, and Maryland, and Washington University. Some of the major firms represented in the audience were the Aluminum Co. of America, Republic Mining and Mfg. Co., Western Cartwright, Harbison Walker Refractory, Shell Oil Co., Atchison-Topeka and Santa Fe R. R., Mo., Pacific R. R., and the A. P. Green Fire Brick Co. Notables in attendance were F. G. Cottrell, inventor of the Cottrell Precipitator, of Washington, D. C.; M. F. Goudge, of the Canadian Bureau of Mines, Ottawa, Canada; Nathan C. Rockwood, editor of "Rock Products", Chicago, Ill.; and D. C. Wysox, Geologist of General Chemical Co., New York.

Registration was held Thursday morning, and the guests were taken on an informal inspection of the buildings of the Missouri School of Mines. An informal get-together luncheon was held at 12:30 at the Edwin Long Hotel.

At the first general and technical session, held at two o'clock in the Auditorium, the general subject of magnesium refractories and magnesium supplies was presented. Paul G. Herold and P. M. Tyler were co-chairmen of this session.

The relatively new process of extraction of magnesium from sea water, and its present important relation as a source of magnesium for the defense industries, was discussed. It was pointed out that the known reserves of magnesite, the former chief source of mag-

Scribner's Is Sponsoring \$1500 Essay Contest

"George Washington's Foreign Policy Today" is the subject of the \$1500 prize essay contest being conducted by Scribner's Commentator magazine, Lake Geneva, Wisconsin. The first prize is \$1000. There are also prizes of \$200 and \$100, each, and eight \$25 prizes. The contest closes December 1, 1941.

Scribner's Commentator is the national magazine planned and edited solely for the safety and future of America. It is obtainable by subscription only and is not available on newsstands.

Full details of the contest may be obtained by writing to Scribner's Commentator, Lake Geneva, Wisconsin. All manuscripts should be addressed: Contest Editor, Scribner's Commentator, Lake Geneva, Wisconsin.

Heavy Schedules Cause College Boys To Fail Physicals, CAA Officials Say

Too many boys try to do too much.

This is one explanation by officials of the Civil Aeronautics Administration why 12 per cent of applicants for CAA pilot training fail to pass the entrance physical examinations.

It is believed that there are three principal reasons for failure to pass the physical examinations, the first being the tendency of the boy who wants to fly to crowd his school life with too much activity. The average boy cannot work his way through college, go out for athletics, belong to the Glee Club, keep up the required scholastic standard and still take the CAA pilot training course. While the boy who will try to do all this is usually a high type, and his ambition deserves commendation, his body and mind

will not stand the strain. Some curtailment is imperative.

Second, many applicants come to the medical examiner with a psychological complex, feeling that the examiner is a hurdle to get over and not a starting block to help them get going. This state of mind, added to the physical strain of a period of hard study, or of hard play in athletics, may result in certain manifestations of physical deficiency like double vision. Many such conditions are frequently transitory but this cannot be determined easily in an examination.

Third, a combination of many variables will prevent acceptance. Most of these, Mr. Criley believes, are avoidable and he advises students to rest and relax thoroughly before applying for physical examination.

No MIAA Activity This Weekend but All Six Teams to Play Outside Foes

Missouri	Intercollegiate	Athletic Association	Standings.		
	W	L	T.	Pct.	Pts. Opp. Pts.
Springfield	2	0	0	1.000	32 21
Maryville	1	1	0	.500	27 20
Kirkville	1	1	0	.500	34 26
Warrensburg	0	0	2	.500	0 0
Missouri Miners	0	1	1	.250	7 20
Cape Girardeau	0	1	1	.250	7 20

There is no conference action in the Missouri Intercollegiate Athletic Association this week-end but all six teams are playing outside games. There was enough action in one game last week to make up for some time, however.

Kirkville's improving Bulldogs came within a minute and a half of snapping Springfield's winning streak, but the Bears pushed over a touchdown at the last to win 19 to 14 and stretch their string to 18 straight. They'll be trying for number 19 Friday night against the Tallequah, Okla., Teachers, who may be tougher than their mediocre record indicates. Tallequah's boys emerged with a 13 to 13 tie against the powerful Pittsburgh, Kans., Teachers and they have a good running backfield.

In other games involving MIAA teams, Kirkville plays Iowa Wesleyan at Mount Pleasant, Ia., Maryville goes to Kansas City to meet Rockhurst, Warrensburg opposes Central at Fayette and Cape plays Evansville, Ind.—all on Friday night. Rolla's Miners, who have declined after a strong start, will try to get back on the winning side against the

Jefferson Barracks Army team at St. Louis on Sunday.

In the MIAA standings, Warrensburg, without a victory, occupies the unusual spot of being tied for second place with Maryville and Kirkville, because tie games count as half won and half lost. Warrensburg, in two appearances, has had scoreless ties with Rolla and Cape Girardeau. Maryville regained stature by defeating the Miners, 20 to 7, after losing its conference opener to Springfield. Cape and Rolla share last place with one defeat and one tie apiece. Each had a scoreless tie with Warrensburg and each was defeated 20 to 7, Kirkville turning the trick on Cape and Maryville on the Miners.

Farmer's Daughter: How'd it happen that you got home so late last night?

Hired Girl: It was that horse of Bill's. The dumb thing didn't know the difference between "Oh" and "Whoa."

Then there was the woman who wouldn't buy her husband trousers with zippers on them because he was always tearing his ties when he wore his zipper sweater.

INTRAMURAL Sports

The second phase of the Intramural campaign went into full swing this week as the tough football classics got underway. These contests were delayed until this time so that the playing field might be kept in as good condition as possible for the varsity tilts.

All the teams have been having their practice sessions and a few practice games were held. The actual contests started on Wednesday of this week.

The rules for the game are much the same as regular varsity rules with the following modifications.

The playing field is but 40 yards long, so that two games may be played at once. The ball must be moved 10 yards in three downs. There are two 20 minute

Cross-Country Run Scheduled At Parent's Day Game

The cross country run will be held this year as a "between halves" feature of the Springfield-Miner game, which will be held Saturday, November 1st.

The race will be run over a new course this year, so the time of the winner will be considered the course record.

All varsity track lettermen are barred from the race. Any organization may enter as many men as they desire, but any entrant failing to start will force ten points to be taken from his team's total intramural points.

Entrants must be in by Wednesday, so that the fellows' names may be put in the program and numbers assigned.

halves with a five minute rest between. The runner must be tagged with both hands at once, and all blocks must be thrown with both feet on the ground.

The scoring is the same as varsity football except that points after touchdowns are made from the ten yard line by a free kick. This weeks tilts found the PKAs and Sigma Pis deadlocked in a grueling battle Wednesday, from which PKA emerged victorious by a slim margin of 38-0.

The Juniors likewise handed Lambda Chi a 27-7 beating.

Thursday the Sophomores were set back in their first game 16-7 by Sigma Nu. Kappa Alpha in the meantime was being defeated by Triangle 13-0.

Friday here was a clash between Kappa Sig and ALT.

Pi K. A.'s Cop First In Table Tennis

The results of the ping pong tournament, which has now been completed have been compiled by the athletic department.

PKA is again off to a flaming start in the intramural contests, since they won first place in this event.

The freshman class also made a fine intramural start by conquering second place, and may give the older fellows some good competition. The athletic ability of this class as a whole seems to be outstanding as shown by the wealth of fine football material Bullman has on his varsity squad.

Kappa Sig, Sigma Pi, and Triangle came in third, fourth and fifth respectively, while Kappa Alpha and the Juniors tied for sixth. There was a five-way tie for eighth place between the Sophomores, Sigma Nu, Seniors, Alpha Lambda Tau, and the Theta Kaps.

Lambda Chi took the honor position of last.

Senior Mets And MSM Alumni Attend Banquet

On Wednesday evening at the Benjamin Franklin Hotel in Philadelphia, a special luncheon-smoker was given for M. S. M. men attending the National Metals Congress of the American Society for Metals. In addition to Professor C. Y. Clayton and his nineteen met. students, who are on their senior trip, thirty graduates of the School of Mines participated:

"Are you positive the defendant was drunk?"

"Positive," growled the officer.

"How are you so certain?"

"Well, I saw him put a penny in the patrol box on Broadway, then look up at the clock on the G. N. depot and yell, 'Hey, I've lost six pounds?'"

Two tramps.
One quart.
Silence; then—

"Bill, tomorrow I'm going to buy all the railroads, steamships, and automobiles in the country. And some in other countries."

"Impossible."
"Why?"
"I won't sell."

Miners Meet Blue Raiders At St. Louis Tomorrow

By Ed Goetemann

The Miners seeking their second triumph of the season will travel to St. Louis today where they will meet the Jefferson Barracks Blue Raiders at Walsh Stadium Sunday afternoon.

The Raiders, coached by Lt. James Wernli, former "Little All-American" griddler at South Dakota, are back in the winning column after three successive defeats. They will be seeking to bring their record for the season to .500 when they meet the Miners. The Raiders apparently found the right combination among a squad that abounds with stellar high school and collegiate football material and defeated the Fort Riley Cavalry team 13 to 6. The Blue Raiders had little trouble in checking the attack of the Centaurs all-star backfield that included Ben Sheridan, formerly of Notre Dame; Fred Trosko, Michigan; Albie Litwak, Western Reserve and Bobby Nowell, Georgia University.

In their first game the Raiders rolled past Northeastern Junior College of Miami, Okla., in grand style winning by the score of 32 to 6. Bob Cone nabbed the opening kickoff and dashed 95 yards for a touchdown. The former Wisconsin flash followed that with three more touchdowns to gain scoring honors. The Raiders lost to Maryville 13 to 0, while the Miners lost 20 to 7 to the Bearcats. The Raiders lost to the Rattlers of St. Mary's University, 6 to 0. This game was played in a sea of mud and neither team was able to launch an attack of its particular type of football. The biggest disappointment for the Raiders was the 25 to 0 defeat suffered at the hands of Southwestern University.

The new combination that promises plenty of trouble for the Miners includes: Lawrence Owens, shifty halfback and former Iowa State star; Bob Cone, captain of the air corps team and former grid standout for the University of Wisconsin; Pat Howlett, a back who formerly played for DePaul University; George Bernhardt, back from the University of Illinois; Chester Chesney, center, DePaul U.; Lroy Baggett, Austin-Peay College; and Ralph Scharff, tackle, Fordham University.

The Miner mentors, still trying to find a winning combination after the poor showing made against Warrensburg and the defeat suffered against Maryville, may make some changes in the starting lineup. Sophomore fullback, Al Dick, who made a very impressive showing last week, or Lattrel Jones, Miner quarterback, may start at the fullback position. Paul Fullop and Jim Miller will again be at the halves, with Jones or Radcliffe at quarter.

On the Miner line, John Moore, who is the best pass snatcher on the squad, may get the nod for right end. Nick Muschovic will be at the other end. Captain Kromka and Theo. Hoby will start at the tackles, with Kreuger and Veale at the guards. Meredith Kiburz will start at center.

nesium, are definitely limited.

Two technical sessions were held Friday, at 9:00 a. m. and at 2:00 p. m. The morning session, in which bauxite and diaspore were discussed, was conducted by R. S. Bradley and N. L. Shepard. H. S. McQueen gave a talk on the diaspore and flint clay industry of Missouri.

The session Friday afternoon, presided over by R. E. Mays, and W. M. Weigel, was a general technical session. The papers presented were:

1. The Chert Deposits of Georgia, by S. Furcron.
 2. Proportioning Ray Materials for Cement Manufacture Under Modern Conditions, by H. S. Ponzer.
 3. Light-weight Aggregates from Slate Waste, by John Conley.
 4. Missouri Marble, by Norman Hinchey.
 5. Relation of Permeability and Specific Gravity of Insulating Refractories, by Paul G. Herold.
- In the topic, Missouri Marble, the process of mining carried on by four of Missouri's largest marble mining firms was discussed. Slides showing views of the mining operations were offered.

General Lectures Committee Striving For A Varied Program

The General Lectures Series, with which most every student is familiar, is presented to the student for his enjoyment, education, and entertainment. The General Lectures Committee, which tends to the business of choosing and buying the numbers presented, takes utmost care in attempting to select programs which will be accepted and enjoyed by the student body. This, of course, is no easy task, and the committee has received criticism in the past for its choices. This year, however, the committee, realizing the effect certain programs have on the audience, has taken great pains to choose appropriate programs.

Numbers which have been chosen for the coming season by the committee are very appropriate. John Metcalfe, prominent spy and saboteur ace, will lecture here during the winter. His exposures in his field of detection have led to Dies Committee investigations.

Corveth Wells, will present movies and lecture on "The Coming Battle for Tin" in South America. His lecture will be on December 8, and if more timely, he will present an equivalent lecture on the battle for Rubber in the Dutch East Indies.

The Graff Ballet will be presented on October 29, as announced in this issue.

John Mulholland, world famous magician, will be presented on the series again this year, after making a very memorable success of his last year's performance. He will be here in January.

Kent Sagendorph, leading civilian authority on aviation, will talk here in February on aerial strategy, and will show models of

the latest military planes.

The popular and excellent duo-pianists, Fray and Braggiotti, will appear on the series in April. These pianists are well-known and acclaimed by music-lovers.

Local talent will also be presented on the program. The Alpha Phi Omega, dramatic organization, will present its annual play in December. The MSM ROTC band will present two concerts, one in the fall, and one in the spring.

Programs which have been purchased, for which dates have not been set, will appear at some time on the lecture. Margaret Bolke-White, Life Magazine photographer, who has just returned from filming war scenes on the Russian front, will lecture here using movies to accompany her lecture.

Dr. Thomas, Westinghouse Research Engineer, will again demonstrate the latest developments in the field of electrical engineering.

Members of the committee are Professor S. H. Lloyd, Chairman, Professors Williams, Ahlsmeier, Herold and Henning.

OMEGA (Continued From Page 1)

green stockings at the weddings of her younger sisters. After having worn these queer colored limb coverings for two different weddings, Older Sister decides that it is time to do something for herself. Faking an engagement, she runs into innumerable difficulties, one of which is the faked death of her fiancé.

A drunken aunt livens up the action with her antics, and offers a starring role.

All interested in acting, stage or business work are invited to tryouts.

Colorado Reviewed By Dr. Kirkpatrick

Approximately 100 gathered in the Parker Hall auditorium Thursday evening as guests of the A. S. C. E. to be taken on a mythical trip through the Colorado Rockies by means of word pictures and color slides explained by Dr. R. A. Kirkpatrick, nationally known lecturer and traveler.

All the slides seen were made from photographs taken by the renowned educator. This lecture may easily have been called "a one-man show" for Dr. Kirkpatrick even operated the projector while he explained the marvels of nature and places of interest.

"In Colorado," Kirkpatrick stated, "there are 83 peaks ranging from 12,000 to 14,000 feet above sea level and although we often think of Pikes Peak as being the taller of the group, there are numerous others that surpass Pikes Peak (14,100 feet) by as much as 300 feet. An explanation was given of the action of glaciers and their destructive work in the formation of mountain ranges.

Some of the beautiful scenes, which caused the audience to catch their breath were: Bear Lake near Notchtop Mountain, Mummy Range, Iceberg Lake, Specimen Mountain, Dream Lake and the Never Summer Range. The slides, each and every one a masterpiece of photography, included shots taken of the wildlife, crops, and the beautiful buildings of Colorado. On the west side of the Continental Divide, Mount Elba rises to a height of 14,481 feet. Colorado Springs, the vacationists' city, and the Garden of the Gods added their beauty to the pictures of landscapes to make Colorado, "America's Vacationland."

R. A. Kirkpatrick was sponsored through the courtesy of the Union Pacific Railroad Company.
