VOLUME 28

ROLLA, MO. SATURDAY, NOVEMBER 8, 1941

NUMBER 16

## MSM ROTC To Participate In Armistice Parade

The Missouri School of Mines R.O.T.C. Regiment will assemble at 10.00 a. m., November 11, to participate in the Armistice Day ceremonies. The regiment will be commanded by Cadet Colonel Witt.

The regiment will form on the lower athletic field, proceed to 6th Street and Main and march back up Pine Street to the M.S.M. campus. The regiment will be reviewed by Colonel Ryder from the reviewing stand at the State Bank.

After the parade the regiment will continue in formation to the lower athletic field where a competition drill will be performed. After this the men will be addressed by Colonel Ryder. A return of the colors will be executed and the regiment dismissed.

A detachment from Fort Wood will also participate in the ceremonies.

## ASME Hears Colonel Bliss

Lieutenant Colonel Carter C. Bliss, director of the O.P.M. in the St. Louis area, gave an address before a meeting of the A. S. M. E. last Tuesday night.

The theme of his discussion was the various processes which are connected with the manufacture of iron castings.

Lieutenant Colonel Bliss also gave those present some idea of the problems with which the O.P.M. is confronted. At present he said, it is the task of the O.P.M. to purchase 1,000,000 lbs. of coffee and to find a manufacturer in St. Louis to produce 20,000,000 incendiary bombs. An average of 50 contracts pass over his desk each morning.

As an illustration of how the O.P.M. lets contracts, he cited a common practice at manufacturer's meetings in Chicago. The O.P.M. displays the articles it desires on long tables for inspection by the manufacturers. If the manufacturers think they have the necessary equipment to produce the articles, they submit bids to the O.P.M.

Mr. R. W. Erwin, of the St. Louis Steel Castings Co. accompanied Lieutenant Colonel Bliss on his trip from St. Louis. About 50 members of the A.S.M.E. attended the meeting.

## Historical Society Holds Banquet

About 120 persons attended the banquet held last Thursday evening, November 6, at the Parish House, 10th and Main, commemorating the seventieth anniversary of the opening of the first classes at M.S.M., Nov. 6, 1871. Reverend Jackson, of the Episcopal church, acted as toastmaster. Professor Butler represented the M.S.M. faculty, ten students represented the student body.

The program was highlighted by the presentation of a copy of M.S.M. History, which was compiled by the Phelps County Historical Society. Doctor Ravoid, a graduate of M.S.M. was one of the recipients of the book.

Major Jones, Lieutenant Doll, and Professor Cagg were a few of the faculty members taking part in a recital which depicted events which have taken place at M.S.M. Mrs. N. Sease of the M.S.M. English Department, was in charge of the recital.

The song "School of Mines, Our Alma Mater" was sung by the gathering, Mrs. C. H. Black leading the singing. The meeting was adjourned with the singing of "America."

## Dr. Henry Bent To Speak Tuesday

Dr. Henry E. Bent, Dean of the Graduate School at the University of Missouri will speak on "The Use of Absorption Spectra in the Invisible in Studying Certain Chemical Problems," at a joint meeting of Sigma Xi and Alpha Chi Sigma to be held Tuesday night at 8:00 in Parker Hall.

All interested are invited to attend.

## Detonators Divided Into Two Groups; One Drill And One Engineer Platoon

It was decided at a meeting of the Detonator Company, Cadet Captain Ben F. Weidle, commanding, held last Tuesday, November 4, that the Company would be divided into two units, an engineer platoon and a fancy drill platoon. This action was taken because of the difficulties arising in drilling two platoons simultaneously. The trick movements used by the company must be executed with concerted movement, and it has been found that two platoons are not flexible enough for the trick drills.

Thursday, November 6, a competitive drill was held, at which time the men were chosen and assigned to the respective platoons. Captain Moreland and Lieutenant Doll of the Military Department, acted as judges.

## John Metcalfe, Spy Sabotage Agent Next On G L Series

John Metcalfe, prominent spy and sabotage agent, will lecture here on the General Lectures' Series Wednesday night in Parker Hall at 8:00 p. m. His talk will be "Gravediggers of Democracy."

Mr. Metcalfe's newspaper revelations have been instrumental on several different occasions in opening up Die's Committee investigations.

Admission to students will be by activity card.

## Mr. C. L. Sadler Speaks to ASCE

C. L. Sadler, division engineer of the United States Geological Survey, spoke on "The Story of Topography" Tuesday at the meeting of the A.S.C.E. Mr. Sadler has been a member of the American Society of Civil Engineers for 42 years, having joined the organization in 1899. Mr. Sadler described the work of the U.S.G.S. of earlier times.

"The U. S. G. S. was organized in 1897. The origin of surveying in the United States can be traced to Captain John Smith who mapped Chesapeake Bay."

At the present time approximately 55 per cent of the United States has been mapped, 25 per cent was mapped many years ago but in a crude and obsolete manner. "Topographers of old were artists before more accurate methods became prevalent." They made crude sketches, and distances were determined by "bug-

## Miners Take To Air To Defeat Cape 20-0

### MSM Group Attend Sectional ASCE Meeting

On Tuesday, November 3, Professors J. B. Butler and W. C. Alsmeyer and the student officers of the American Society of Civil Engineers journeyed to Columbia, Missouri, to attend the mid-Missouri sectional meeting of A. S. C. E. The meeting was held at the Tiger Hotel.

At this meeting, reports were made by various members of the society at which senior members of Missouri University and Missouri School of Mines officers were guests.

Professor H. W. Wood of Missouri University and chairman of the Sectional Defense Program outlined the activities of the program. Mr. Wood stated that the beginning brackets of civil engineering have a higher wage scale than in 1929, but on the whole, civil engineer's wage is low. Post-war planning was also discussed, and numerous towns have submitted plans of expansion projects.

Colonel McIntyre of Missouri University R.O.T.C. spoke on the war situation as he sees it. He stated that he believed that Hitler's statement of his non-interest in the United States is the only truthful statement uttered by the Nazi dictator. Other world problems as England's lack of participation in war were also clarified by the speaker.

Mr. Wagner's discussion pertained to the newly formed State Council of Defense of which he is a sectional chairman. The plan of this group of volunteer men, is to form county and city councils to protect our state in case of war.

### Miners See Two Free Shows This Week

The management of the Rollamo and Ritz Theaters gave free shows for the Miners this week because of the football victory of last Saturday. The shows were well attended despite the fact that the halves of the Miner-Kirksville mid-semester quizzes are in progress, Saturday, November 15, res.

The following Thursday, November 20, the platoon will give an excited by the hearty singing and thehibition of fancy drill maneuvers many remarks from the audience at the Washington University which helped to keep everyone awake.

### Dick Throws Two Touchdown Passes

The Miners overcame a traditional jinx of playing a good game and then a poor one yesterday afternoon when they made it two straight by trouncing the Cape Girardeau Indians 20 to 0 at Houch Field at Cape.

On a muddy field that held driving power to only a few sizeable gains, the Miners rallied their passing talent in downing the Indians. Both the Miner fullbacks, Al Dick and Keith Cook, were at their peak and made some beautiful tosses with Mushovic and Moore on the receiving end.

The initial touchdown of the game came in the first quarter. Radcliffe, Miner quarterback, kicked out of bounds on the Cape ten yard line. Golliday, Cape quarterback, attempted a pass which was fumbled by Goldwin, and nabbed in mid-air by Cook, putting the ball on Cape's 8 yard line. On the first play the Cape line smothered Glover and threw him for a two yard loss. Al Dick then faded back and passed to Mushovic, who lateraled to Moore and the Miner end crossed the goal line standing up. Krueger converted the extra point. The quarter ended with the Miners leading 7 to 0.

Cape's only threat during the first half was made in the latter part of the first quarter. Golliday passed 32 yards to Dee Hadway, putting the ball on the Miner 15. Golliday smashed the line for no gain. Goodwin then made five yards on a spinner play putting the ball on the Miner 10. On the next play Crews fumbled and the Miners recovered on the 11 yard line to end the Indians' threat.

The Miner's next score came in the third quarter. Starting on their own 17, the Miners began to march. Cook tossed a 30 yard pass to Mushovic, to put the ball on Cape's 33. Dick then tried the aerial route, and completed a long pass to Cook, putting the ball on the four, first and ten with goal to go. A line smash by Fullop was stopped on the line of scrimmage. A pass by Dick was knocked down, but on the next play Dick passed to Moore in the end zone. Krueger again converted.

The Miner's final tally came in the fourth quarter. The Indians unable to gain any ground elected to kick on about the 50 yard

## In The Campus Spotlight

Modestly assuming his outstanding accomplishments as a matter of course,

Vernon T. Loesing, the man of the week, quickly impresses one with his mild but firm manner. This senior, a mining engineer, hails from Ferguson, Mo., having been graduated from Jennings High School in 1938.

In addition to being outstanding in scholarship, Vernon is a prominent figure in extra-curricular activities. He has been a member of S.A.M.E. for two years and is vice-president of this organization at present. He is Cadet Major in the School of Mines R.O.T.C. being in command of the first battalion, and he attended R.O.T.C. camp at Fort Wood in '41. He is a member of Blue Key, and was recently elected to Tau Beta Pi honor fraternities. He is an active member of Theta Tau, professional fraternity, and a member of A.I.M.M.E. He has been a member of The Engineers' Club for four years.

Despite his many activities he holds a student assistant job in the petroleum lab. He worked during '40 vacation in the Illinois oil fields for the Hughes Petroleum Co.

Upon graduation next spring Vernon plans to go into the army as a second lieutenant; and, as he puts it, "I think I'll stick to it." Whenever he has spare time he gets quite a kick out of hunting and fishing.

Newsy Items from N. Car. State  
Roadway Signs: Soft shoulders, dangerous curves, men at work, danger, look out for children. The custom of kissing first began between kinsmen and kinswomen so the men might know whether or not their women had been tasting wine; science is not the only part of civilization that is making progress. Don't start your romances on a gallon of corn... you might end up with a full crib.

## Fort Wood-St. Louis Armistice Column To Cover 100 Miles

The detachment from Fort Leonard Wood to St. Louis for Armistice Day will form a 100-mile column according to information given the Trachoma Hospital authorities when they requested the time the column would pass that institution.

Below are both the question asked by the institution and the reply.

### The Question

"Would it be possible to calculate the approximate time the detachment, which moves to St. Louis, might arrive at the junction of Highways 66-63 on November 10th? This question is asked in order that the children at the Trachoma Hospital might see the column as it passes by the hospital, which is adjacent to the junction of Highways 66-63?"

### The Reply

"The head of the column going to St. Louis on Monday morning will leave Fort Wood at 7:00 a. m. It is scheduled to travel at a speed of thirty miles per hour, but this, of course, will be governed by the type of traffic encountered. All things equal the head of the column should arrive at the junction of U. S. Highway No. 66 and U. S. Highway No. 63, in Rolla, at approximately 8:15. It may, of course, be as late as 9:00 before it gets there. For your information there will be a total of approximately eight hundred and fifty vehicles in the convoy. The convoy will be divided into four serials, fifteen minutes apart. Each serial will be divided into several march units two minutes apart. From twenty-five to thirty-five vehicles will comprise a march unit. The first serial will contain approximately one hundred and five vehicles, the second serial approximately seventy-five vehicles, the third serial approximately two hundred and ninety vehicles and the fourth serial approximately

## DEATHS

Harry Nelson Carrol, 55, manager of commercial and industrial sales for the Pacific Gas and Electric Company died October 30 in his home in San Francisco. Mr. Carroll was born in Carthage, Mo., and attended the Missouri School of Mines where he was a classmate and fraternity brother of A. Emory Wishon, vice president and general manager of the P. G. and E.

Ronald B. Wills, 44, Chief Designing Engineer in the Planning Department of the Kansas Highway Commission, died October 31 in Kansas City. Mr. Wills was graduated from the Missouri School of Mines with a Bachelor of Science degree in Civil Engineering in 1920. He was a member of the Bonanza Club.

### Consolation

From "sunny" California comes the news that students are making rain coats from tapaulin, and wearing knee length boots.—Los Angeles Collegian.

three hundred and ten vehicles. The entire column, with the intervals mentioned above, will be strung out over approximately one hundred miles of road, and will take probably in the neighborhood of three hours and a half (longer if delayed by traffic) to pass the aforementioned road junction in Rolla. I have gone to some length in explaining this so that the school children can be adequately informed. It might not be a bad idea for Rolla to publish a warning to children, and to motorists to avoid Highway No. 66, and especially that junction, as well as the junction of the eastern city route with Highway No. 66, as much as possible between the hours of 8:15 a. m. and noon on November 10th. On November 12th the column starts coming West through Rolla at approximately 10:45 a. m. (again if not delayed too badly by traffic conditions). The same conditions will then exist in reverse order."

## Eyes Over The Campus

YALE UNIVERSITY HAS THE ADDRESSES OF ALL BUT 80 OF ITS 31,003 GRADS!

PROF. COCHRAN USES NO MAKEUP AND BY INTONATIONS AND ACTIONS LETS HIS AUDIENCE RECOGNIZE THE CHARACTERS...

PORTER HOUSE TAVERN A FAVORITE WITH HARVARD STUDENTS IN THE EARLY 1800'S WAS FAMOUS FOR ITS DRINKS AND STEAKS. HENCE PORTER HOUSE STEAKS!

## MSM Cagemen Play Rolla High

The cagemen got their first taste of rival competition when they battled the Rolla High School squad at Jackling Gymnasium Wednesday after 25 minutes the score was 28-28 and action was stopped. The Miners used only first-year men.

Percy Gill has announced after seeing that the high school boys could offer more than a little competition that the Miners will again meet the high school on Tuesday of next week at Jackling Gymnasium at 7:45 p. m.

This will be a full game with referees. It will be the first time we will get a look at the 1941-42 basketball team.

## College Coed Lost Without Sweater

The college girl and her sweater-skirt ensemble is fast becoming a traditionally American as the cowboy, his boots and saddle. DESIGN FOR LIVING'S C. B. I. campus bureau of investigation) agents reported today.

College women spend 75 per cent of their waking hours in a sweater-skirt outfit, they further elaborated. Cardigan or slipover, long short sleeves, "V" or crew necklines, one rule is steadfast—quivers must be plain.

Querying coeds at Cornell, Tennessee, U. of Syracuse, Bryn Mawr, Texas U., Smith, U. of Vermont, Oregon State, Michigan State, Iowa State, U. of Colorado, Kansas State, Iowa U., and Barnard, B.I. agents discovered that Miss average College Girl spends \$40.33 a year on clothes. Texas beauties, however, have the farthest pocketbooks—they spend \$68.

Campus feet are the same as ever in saddle shoes. But moccasins are owned by 40 per cent of the girls. Saddles, pumps and the underella "evening" slipper compete a collegian's shoe shelf.

## A Partial List of New Library Books

On the October list of new library books, we find that six psychology and 8 economics books have been added to the stacks. They are as follows:

**Psychology**  
Allport, G. W. Personality. 1940.  
Ennever, W. J. Your mind and how to use it. 1938.  
Freud, Sigmund. Basic writings of Sigmund Freud. 1938.  
Overstreet, H. A. About ourselves. 1927.  
Freston, G. H. Psychiatry for the curious. 1940.  
Rosenstein, J. L. Psychology of human relations for executives. 1936.

**Economics and Business**  
Brown, W. A. The international gold standard reinterpreted, 1914-1934. 1940.

Daggett, Stuart. Principles of inland transportation. 3rd ed. 1941.

Eddie, L. D. Stabilization of business.

Harwood, Sumner. How to work with people. 1940.

Knoepfel, C. E. Managing for profit. 1939.

Montgomery, R. H. Federal income tax handbook, 1939-40.

Plummer, Lehigh. Getting along with labor. 1939.

Simons, A. G. Production management. 1939.

**Engineering From Case Tech**

Too often the average engineering student thinks of Chrysler or General Motors cars when the words "fluid drive" are mentioned. He shouldn't, because liquid couplings have important industrial uses besides those in automobile transmissions, and are made in far larger sizes. Some units regularly fabricated by American Blower Corp. measure over seven feet in diameter and thirty inches through the hub. Of course, modern welding technique is responsible, for the fins are about a half inch thick and must have a machined surface. Units like this weigh upwards of five tons—without the oil. Incidentally, clutching and de-clutching is accomplished by admitting and letting out the oil. This is said to be a rapid process, but imagine doing that in your Dodge!

## FOOTBALL (Continued From Page 1)

line. Mazzoni and Ruwwe broke through and blocked the kick. The ball bounced high into the air. Moore speared the ball in mid-air and sprinted 45 yards for the touchdown. Krueger missed the extra point by inches, which is only his second miss this season.

His arm encircled her waist. He was only a clerk. She seemed so young, so pure. Her very goodness frightened him. It had taken him an hour to get this far. She was not of the world and her wholesome goodness he feared to touch. But one kiss from her and he would be in HEAVEN. Still, she was a good girl. He finally collected his strength.

"Alice, dearest, for one kiss I'll buy you the world."

"Hell!" said she, "and back on the farm I did it for apples."

A sailor was cast away on a desert island. After he had been there for nine years, he awoke one morning and saw a lovely young woman floating toward the beach on a barrel. The barrel washed ashore and the woman approached.

"Heigh ho," said she. "And how long have you been here?"

"Nigh on ten years," said the sailor.

"Gracious," said the woman, "Then I shall give you something you certainly haven't had in a long time."

"Bust my leg!" said the sailor. "Don't tell me you got beer in that barrel-?"

## INTRAMURAL Sports

The football playoffs again were stalemated and little accomplished in intramural activity this past week due to old man weather.

Kappa Sigma managed to get in a rout over Kappa Alpha Tuesday 16-0, and since then no games have been played and a rearrangement of the playoff schedule was necessary.

Ken Mooney, Miner racquet star, and Bill Grey were the point harvesters for KS. This gentleman Grey was also a "star" in Kappa Sigma's last game it will be recalled.

The run offs will continue Monday and the following games are scheduled:

### Monday

Pi Kappa Alpha vs. Sophs. and Theta Kappa Phi vs. Lambda Chi Alpha.

### Tuesday

Juniors vs. Triangle and Sigma Nu vs. Seniors.

Choice game of the week will probably be the Senior-Sigma Nu tilt. Here we again will get a glance of the flashing Seniors and such standouts as Rose, Elisman, and the Nevin twins.

The Intramural swimming meet will be held next Wednesday and Thursday nights.

### How . . .

In closing, we couldn't help but pass along a little comment we overheard one of our "dashing young Lochinvars" make. "A girl that swears she never has been kissed has a right to swear."

### Advice . . .

According to the Geo. Washington Hatchet, you can never learn the love secrets of an amoeba by copying the pictures from the books. Moral: Don't copy the pretty pictures from the books instead of looking through the little glass hole! Natchery, this applies to other things besides courses in Biology.

### From The Bear's Home Base

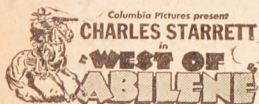

One of the features of the next meeting of the Dairy Club will be a milk-drinking contest between Wayne Glascock and Curris Kelley.

## Off the Campus

### Triangle

Parents' Day we had the pleasure of entertaining the following parents and guests: Mr. and Mrs. Bowin, Mr. and Mrs. Brown, Mr. and Mrs. Carroll, Mr. and Mrs. Coolidge, Mr. and Mrs. Gygax, Mr. and Mrs. Kloeris, Mr. and Mrs. Jenneman, Mr. and Mrs. Mayer, Mrs. W. H. Morse, Mrs. A. G. Petersen, Mr. and Mrs. R. Wagner, Mr. and Mrs. Webers, Miss Ruth Priebe, Miss Celeste Gilpin, Mr. Lawrence Gammeter, Miss Betty Hill, Miss Jean Jordan, Miss Elizabeth Shanley, Mr. Donald Petersen, Miss Barbara Tilley, and Miss Margaret Wagner.

We finally rescued "Little Joe" Salvo from the Hospital where he had spent five days suffering from a heavy cold. We're glad to have Joe back with us again.

### Sigma Pi

The Alpha Iota of Sigma Pi is proud to announce the pledging of John Leming, Junior Electrical Engineer.

Parent guests of the house for the past week end were Mr. and Mrs. Bottom, Mr. and Mrs. Fredericks, Mrs. Ortig, Mr. and Mrs. Shaver, Mrs. Schilling, Mr. Makay, Mr. and Mrs. Benear, and Mr. and Mrs. Avery. Dates for the same week-end were Miss Ruth Hiltbrandt, Miss Uldene Bottom, and Miss Joan Brandt. Guests had lunch at the fraternity house and then attended the game, where they were overjoyed by the good spirit shown by the Miners.

### Lambda Chi Alpha

The Alpha Delta Zeta of Lambda Chi Alpha will initiate eight men into its bond this afternoon. Mr. DeVere Joslin, of Rolla, will be made an honorary member. The others to be initiated are Louis Bartels, of Clinton, Ill.; Robert Franz, of Newark, New Jersey; Robert Mellis, of St. Louis; George Tatoian, of Naugatuck, Conn.; Nicholas Mushovic, of Greenfield, Mass.; Fred Radavich, also of Greenfield; and Paul Rothband, of Kansas City.

A banquet will be held at the Pennant Hotel at 8 o'clock P. M., in honor of the new initiates and Mr. Joslin. Col. H. Ryder, Post Commander at Fort Leonard Wood, will be the guest speaker. Other guests will be Mrs. Joslin,

Mrs. Ryder, Mr. and Mrs. E. D. Williams, Mr. Dave Rush, Mr. Rex Williams, Mr. and Mrs. H. D. Thomas, Lieut. and Mrs. LeCompte Joslin, Mr. and Mrs. Frank Powell, Mr. and Mrs. R. Walker, Mr. and Mrs. M. Proctor, and dates of the members.

### Music Notes

M. I. T. had Claude Thornhill's band for their Annual Field day. Purdue plans to have Russ Morgan play for a Dad's Day mixer Nov. 7.

### SADLER (Continued From Page 1)

gy wheel," foot or horseback traverse.

"My first sketching was in Salem, Missouri, and I was expected to sketch 5 square miles a day," Sadler stated. Today the average is 15 to 20 miles a month which shows how much more accurate methods of the present time are.

The uses of maps have expanded due to this increase of accuracy. Sadler remarked that Missouri is a little ahead of other

states in the amount of control run, and that since 1933 the U. S. G. S. here have run 1200 miles.

The responsibility of photo mapping is growing by leaps and bounds, and it is getting so that a topographer does not want to do topography of a certain quadrangle without having airplane photography.

The multiplex machine was explained and following his lecture the various steps in the making of maps was discussed by men in the various offices. Refreshments were served.

Lend me  
a Minute  
and I'll give you back 15 seconds

Says PAUL DOUGLAS,  
well-known radio announcer

Somebody whistles a few bars of a catchy tune.  
Others pick it up.  
Soon the whole country's whistling it. *It's a hit.*

Somebody lights up a cigarette.  
Likes it. Passes the word along.  
Soon the whole country's smoking it.  
*It's a hit. IT'S CHESTERFIELD.*

The big thing that's pushing Chesterfield ahead.  
Is the approval of smokers like yourself.  
*Chesterfields are definitely Milder,  
Cooler-Smoking and Better-Tasting.  
They're made of the world's best cigarette tobaccos  
Blended just right to give you more smoking pleasure.*

But even these facts, wouldn't count  
If smokers didn't just naturally like them.  
Once a smoker finds out from Chesterfield  
What real smoking pleasure is, nothing else will do.  
Yes, fellow smokers, *IT'S YOUR APPROVAL  
THAT'S PUSHING CHESTERFIELD AHEAD.*

Everywhere you go *They Satisfy*
