THE MISSOURI MINER

Missouri School of  Mines & Metallurgy

VOLUME 28 ROLLA, MO.

SATURDAY, DECEMBER 13, 1941

NUMBER 24

Phi Kappa Phi Honors High Ten Percent

In recognition of high scholastic achievement, the Missouri School of Mines Chapter of the Honor Society of Phi Kappa Phi awards a Book Plate to each student who ranks in the upper 10 per cent of his class for an entire scholastic year. These men are the recipients of the awards for the year 1940-41.

Class of 1941

W. C. Alsmeyer, W. J. Bennet, H. F. Bottcher, J. R. Enoch, A. F. Fick, F. W. Finley, A. G. Hacker, C. O. Koch, J. O. Mack, A. N. Reagan, R. M. Sexton, E. L. Smoot, A. J. Summers, D. D. Wyatt and C. M. Zvanut.

Class of 1942

J. H. Castleman, E. Chernoff, M. C. Flint, R. F. Guilfooy, J. S. Harris, T. A. Hughes, C. T. A. Johnk, W. M. King, F. Kisslinger, G. R. Leland, V. T. McGhee, B. D. Pewitt, J. B. Schmitt, K. A. Schwalter, G. R. Shockley, F. O. Suessdorf, R. F. Summers, M. C. Ullrich, R. G. Van Nostrand and K. P. Wang.

Class of 1943

E. H. Barnett, E. C. Burke, D. N. Christensen, D. J. Coolidge, F. E. Dreite, A. S. Duran, V. E. Flessa, J. C. Johnson, W. E. Klund, H. Kurusz, G. S. Martin, J. H. Olson, K. A. Ozkal, F. J. Radavich, J. A. Reed, J. Schmitz, Jr., and G. G. Skitek.

Class of 1944

W. H. Bassett, A. J. Bush, J. A. Cooper, C. A. Dick, R. O. Dietz, W. G. Eagle, E. C. Goetemann, E. A. Goodhue, W. W. Helberg, W. A. Hubbard, R. H. Kendall, J. M. Lloyd, S. H. Lyle, R. S. Ma-teer, W. E. Mengel, G. J. Miller, J. R. Miller, R. J. Nease, V. J. Pingel, D. J. Stocker, W. F. Weg-ener and C. J. Wright.

The Book Plates may be obtained by calling at the Registrar's Office.

AICHe Hears Talk By Jack Claassen

Jack Claassen, Senior Chemical, spoke before a meeting of the A. I. Ch. E. last Wednesday evening on the manufacture of Portland cement.

Before explaining the production of Portland cement, he outlined the history of cement in general and its importance to civilization. Claassen described the mining of the raw materials and the method of manufacture. He also cited the precautions

\$33.45 Collected For Gold Footballs

The Gold Football collection has to date a total of \$33.45 according to Jack Reed, treasurer of the project.

The contributions of each organization and club are listed below:

Tech Club	\$8.50
Shamrock Club	3.60
Sigma Nu	3.20
Sigma Pi	3.10
Lambda Chi	3.00
Alpha Lambda Tau	2.50
Theta Kappa Phi	2.40
Kappa Alpha	2.25
Kappa Sigma	2.25
Triangle	1.50
Box	.95
Engineers Club	.20
Pi Kappa Alpha (Not Collected)	

TOTAL \$33.45

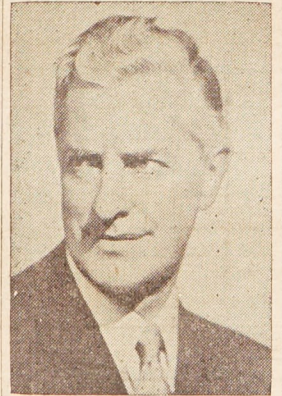

Meredith Kiburz, Miner Center, elected Football Captain for coming year at Banquet last night.

Carveth Wells Says That Japan Is Committing National "Hari-Kari"

By Jean Lloyd

Last Tuesday night Mr. Carveth Wells, prominent lecturer, author, engineer and world traveler, spoke to the Miners in the auditorium of Parker Hall, about, "The Battle for Tin and Rubber" in the Far East.

Mr. Wells, a graduate Civil Engineer from the University of London, began his lecture by describing the experiences he had

while working on the Grand Trunk railway for the Canadian government, and while working for the British government in Singapore and Malaya. On the latter job, as chief engineer on the construction of the vital railway into Singapore, Mr. Wells had the opportunity of learning about the importance of raw materials in that part of the Far East. It is

W9EEE Asks To Become A Defense Network Station

At the meeting of the Radio Club Wednesday night the possibility of keeping the school radio station, W9EEE on the air as a defense network station was discussed. In order to obtain permission to operate the station during the amateur radio ban, letters were written to the American Radio Relay League, Missouri Defense Council, Army Net Liaison 4th Corps Area of Omaha, and McDonnell, the F.C.C. Inspector in Kansas City.

In these letters was explained the club's desire to help in an emergency and their qualifications to do so.

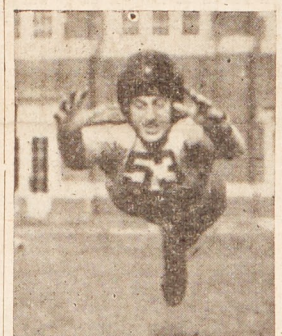

Professor Ranes said that a crystal of any desired frequency would be purchased by the school if the station could be used in a defense network system. Seven amateur operators, who are students of MSM are willing to work on the station.

The meeting was presided over by President McClain in room 108 of Norwood Hall.

Ed Kromka On A. P. Little All-America Grid Team

Ed Kromka, captain of Bullman's 1941 grid squad, and tackle on the strong side of the Miner line for the past four years, was given the highest honor that can be bestowed upon a small college football player, when he was named tackle on A. P.'s Little All-America football team a few days ago. It is the first time in history that a School of Mines gridman has made the number one small college team selected by Associated Press.

Ed well deserved the recognition, for he is judged one of the best players that has ever hit the School of Mines. He has never missed a football game during

his four years of play here, and although he missed out on some of the glory, everyone who saw Ed on the field readily recognized the fact that he is an outstanding tackle.

Writers, Coaches Polled

The Associated Press team was selected by a poll of coaches and sports writers throughout the country. The fact that Kromka was considered one of the 11 best "small college" players in the country heaps honors not only upon him, but upon his coaches, Gale Bullman and Percy Gill.

Bullman picked Kromka on his Little All-America selection, and when he heard the news, said,

"Kromka is not only a great player but a fine man as well. He is an easy man to coach, for he seldom, if ever makes the same mistake twice and he plays the game for all there is in it."

Gill Praises Highly

Coach Percy Gill, Bullman's aide-de-camp, also praised Kromka as a man, and then added, "He is a great player and he richly deserved the honor. I consider him one of the best small college linemen in the country both offensively and defensively."

His teammates were equally ready to praise their captain, and, to get a consensus of opinion, three members of Kromka's fraternity, Pi Kappa Alpha, and three other men with other affiliations were interviewed.

Veale called Kromka, "Absolutely the best tackle I've ever seen and much superior to most of the Big Six tackles I've seen."

Keith Cook said, "I honestly believe that Kromka could make the tackle position on any team in the country. He not only is a great player, but a wonderful fellow."

Harold Krueger called Kromka, "My best friend," and then added, "He's a real man and he has more love for football than any man that I have ever seen."

Gene Hammann, who played alongside him, said, "He is the finest play diagnoser I've ever played beside. He is so strong defensively that he certainly makes it easy on the end who plays next to him."

Theo Hoby also praised him highly. "He was the best line man we had last year, but his improvement this year is what impressed me most. He was far better this season than last in all departments of play."

Meredith Kiburz followed suit by saying, "I could talk all day about how well he plays football, but the important thing as far as I'm concerned is that he is the finest man I've ever met."

Rose Now Heads St. Pat's Board

Art Rose, senior independent, took over the office of St. Pat's board president at the meeting held last Wednesday. He was formerly vice-president of the board, but automatically took over the chief executive's office when Jim Kirkpatrick, former president, was forced to leave school because of bad health.

A new vice-president will be elected at the next meeting.

Lt. Doll Tells S. A. M. E. Of Blackout Importance

A social meeting was held by the American Society of Military Engineers last Thursday evening. The meeting was highlighted by a talk on the subject of "Blackouts" by Lt. Doll. In his talk Lt. Doll stressed the importance of blackouts in civilian defense and gave statistics regarding their effectiveness in modern warfare.

University of Texas geologists predict a peat industry for Texas from recent extensive finds of the substance throughout the state.

As a MINER Sees it

Motto: All the gossip that's fit to print.

Probably the most amusing incident of the past few days happened to Stubby Krueger. He had the privilege, honor—be what it may, of spending 40 minutes in the immortal halls of the ladies room of the Pennant.

It certainly seems good to see those ruddy faces of the football team around the table of the Pennant again. You did a wonderful job fellows and deserve something for your colds.

Can't pass over the fact that the boys of the rear house at Lambda Chi put Sam Kurtz on scholastic probation for not being home two nights in one week all of last month.

Traveling is educational and the shoveling, striving, hardy Miners have a world of knowledge ahead of them in the prospects of a Senior trip to San Francisco.

A medal to the sleepiest man in school—John Rayl—the detested geologist of the mining department.

Prof. Orten was tremendously surprised to find that Reid DeFrost had actually been to a turkey dinner on the eve before Monday's session. Wrong observation that time, but your batting average is good.

One result of the A. S. M. E. and A. I. E. E. banquet at the clay pit was the acquisition of hunting rights for quail on 200 acres of local property. Charles Morris was chairman of the acquisition committee and is to be

After passing flying tests, George A. Whiteman sent his inscribed picture to his mother in Sedalia, Mo. Upon becoming a full fledged pilot, Whiteman was transferred to Hawaii, where he became a second lieutenant in the Air Corps. The Army has announced that he was one of the First American casualties in the Japanese attack on the air base at Hickman Field, and is believed to have been the first Missouri killed in this war. Whiteman was a student at the School of Mines in Rolla in 1935, 1936, and 1937. (NEA Photo)

complimented on his achievement.

Looks like we'll have to build a covered football field for all these contests of grudges between departments. Why not settle it at the Club Oasis; or can't you get the referees there?

Quote Dean Wilson: "Keep up your social activities, and if anything, increase them. Quote Brackbill: "That's going to mean going to the Pennant on afternoons then. Quote the g. p. boys of the Shamrock: "We're going to take in the rest of the free Miner shows."

To the inquirer of the Rollamo investigators, no amount of their filthy green stuff can alter our purpose. At present, we are patiently awaiting Mr. Lawler's explanation to the Council which has been very cleverly stalled.

INTRAMURAL Sports

By Charlie Mitchell

The Intramural basketball play-offs are running off smoothly at the rate of three games a night.

On Tuesday night the Juniors nosed out Kappa Alpha 18-15, while Triangle bowed to PiKA to the tune of 16-11, and Theta Kap walked over the Lambda Chis 30-14.

On Wednesday, Sigma Nu sank the Sophs 20-14, the up and coming Frosh trounced ALT 27-9, and Sigma Pi was nosed out by Kappa Alpha by a margin of 21-30.

The Juniors, still in stride, walked over Triangle 28-12, as did the Kappa Sigs in their 31-12 victory over Lambda Chi. The Seniors sank Theta Kap 24-20.

Three games were also scheduled for last night.

Sigma Nu, Juniors, Seniors, and Kappa Sig are thus far standing out in the battle. These teams seem to be the ones to watch.

These playoffs are bringing out some good basketball material. Kiburz, Miner football star, is pacing the Juniors. The Kappa Sigs with Frame, Dick, Aschmeyer, and a wealth of substitutes also seem to have their share of basketball talent. The Sigma Nus are likewise well supplied with good eagemen in the form of two good forwards, Joe Keller and Jack Boetger, and a fine center, Marion Stoops.

Who Does?

With a bottle or two
Of rare old wine,
And a maiden with features
And form divine,
On a night just made
For love and laughter,
Say: Who gives a d—
For the morning after?

Older wife: (Indignantly) Why, I'd rather commit adultery than be seen smoking a cigarette.
Younger Wife: So would I.

Gill's Men Will Play First MIAA Game At Warrensburg Saturday

By Ed Goetemann

The Miners open their MIAA basketball campaign Saturday night at Warrensburg when they meet the Mules on their home court. The rangy Mules, out to retain the crown they shared with Maryville last season should have little trouble in offsetting the Miner attack. In their first two starts Coach Scott's charges swamped the Camp Robinson quintet 53 to 21 and breezed by the Westminster Jays by a score of 44 to 30. These same Jays sunk the Miners 51 to 24 in a one-sided battle that is the only game the Miners have had up to the present.

With all the squad back from last season Coach Scott did not have to worry about replacements when the season began. Every one of his starting lineup gained either first or second team all MIAA recognition last season. Richardson and Helm were on the first team, while Martin, Gibbs and Conyers gained second team berths. At the intercollegiate tournament held last year in Oklahoma City, Martin, the Mules' six-foot-nine center was voted the outstanding player in the tournament.

The Mules boast of a starting lineup well over a six-foot average. Richardson, the shortest man in the lineup—a mere six-foot-two, will be one of the forwards when the Teachers take the floor. Percy Gill believes that Richardson is the fastest man he has ever seen on a basketball court. Helm, six-foot-five all conference nominee, will start at the other forward. The pivot post will be ably handled by Martin, the six-foot-nine giant. Gibbs and Conyers, six-foot-seven and six-foot-eight respectively, will begin at the guards.

Coach Gill has been working the Miners hard in practice trying to find the winning combination. Gill is some happier about the way the Miners have begun to connect with their shots. This was the big fault with the Miner offense against Westminster when they attempted 64 shots while connecting with only nine.

Hampered by a decided lack of height the Miners will never be

able to keep the Mules from scoring. Their only chance of winning will be in outscoring them. Gill is going to start Spinner and Moore at the forwards. Spinner, although only five foot eleven, makes up for his height by his speed and fight. Moore, still inexperienced, should develop into one of the mainstays of the team. Keith Cook, the only veteran on the squad, will be shifted to center for this game. Isenmann and Main will start at the guards. Eddie Isenmann only five-foot-eight is the best shot on the team.

Starting Lineup

Hgt.	Mules	Position	Miners	Hgt.
6-1	Richardson	F	Spinner	5-11
6-5	Helm	F	Moore	6-0
6-9	Martin	C	Cook	6-1
6-7	Gibbs	G	Isenmann	5-8
6-8	Conyers	G	Main	6-2

Engineers are baffled by the fact that streamlined figures sometimes offer the most resistance.

Dr. Wilson Talks at A.S.M. Meeting

At the pre-Christmas meeting of the American Society for Metals, Dean Wilson gave a talk on "The Importance of Preliminary Investigations in Ore Treatment." The methods and importance of preliminary research were particularly stressed. After the talk the meeting adjourned for refreshments in the fire assay laboratory of the Metallurgy Building. There high capacity men swung into action against wieners, coffee, donuts, and ice cream. The dishwasher broke all existing records for efficiency—his name will be withheld—the Army would immediately call him!

Bolz Talks To Ceramic Society

The Student Chapter of the American Ceramic Society held its meeting last Wednesday night. A talk was given by Leonard Bolz on his experiences while working for the Robertson Clay Products Company of Dover, Ohio. He spoke on the thermal analysis of fire-clays.

The American Ceramic Society is sponsoring a technical paper contest for students enrolled in ceramic engineering course. The winner of this contest will be determined at the annual meeting of that society in Cincinnati, Ohio. Several students have expressed their desire to enter this contest and it is possible for others to enter papers.

Alumni News

John V. Cramer '39, who is now living at 2708 Tenth Avenue, Sheffield, Alabama, has announced the arrival of a son, Martin Stuart Cramer, on October 28th.

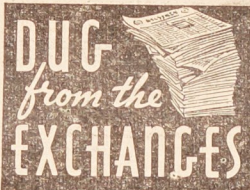

Bob Simmons '36, is now in the Patent Department of General Electric and is located at Washington, D. C.

Sam Post '37, is First Lieutenant, 14th Ordnance Company, 5th Ordnance Battalion, 5th Army Corps at Camp Livingston, Louisiana.

Edwin H. Borgman '40, formerly with Sheffield Steel, is now with the U. S. Bureau of Mines and is located at the Rolla station.

Gordon Gillis '34, is now with McQuay-Norris in their St. Louis office.

Clarence W. Hangosky '31, formerly on the teaching staff of Michigan State College at East Lansing, Michigan, is now Chief Metallurgist of the Propellor and Aircraft Engine Division of the Nash-Kelvinator Corporation in Lansing, Michigan.

New Glider From Minn.

The NX 34222 is a new glider with two seats instead of the usual one. It weighs 500 lbs., takes off and lands at 30 mph., has reached speeds of 75 mph., in a dive and is expected to go faster. The maneuverability and durability of the craft made it especially desirable.

"You have a wonderful form, dear"
"Must you go all over that again."

Chemist's Analysis of a Woman
Symbol—woo.
Atomic weight—120 (approx.)
Occurrence—Can be found wherever man exists. Seldom occurs in free and natural state.

Physical Properties:

1. All color and sizes.
2. Always appears in a disguised condition.
3. Boils at nothing—freezes at any point.
4. Very bitter if not used correctly.
5. Chemical Properties:
 1. Extremely active in the presence of man.
 2. Great affinity for gold, silver, platinum, and precious stones.
 3. Able to absorb expensive food at any time.
 4. Undissolved by liquids, but activity is greatly increased when saturated by a spirit solution.
 5. Sometimes yields to pressure.
 6. Turns green in the presence of more perfect specimens.
 7. Ages rapidly—the fresh variety has a greater attraction.
 8. Highly dangerous and explosive in inexperienced hands. (Experienced hands are rare.)

WELLS (Continued From Page 1)

Germans were planning to locate troops in Western Africa in preparation for attacks on America. The admiral also stated that he had seen fifty German submarines located in an African port.

Several members of the audience became indignant in their disagreement with Mr. Wells' views. In discussing Mr. Lindbergh, controversy arose regarding his true ideals, plans, and patriotism. Mr. Wells' stated emphatically that Mr. Lindbergh was a national hero but that as long as he retained his German sympathies and isolationist policies he was endangering American safety and morale. Great controversy arose regarding these points. Although there was disagreement in student views the audience gathered on the platform after the lecture and asked more questions and desired to argue further.
