SATURDAY SEPTEMBER 12, 1942

NUMBER 1

Hafeli Comes To MSM With Great Record

With football season rolling around again, we welcome to M. S. M. a new assistant football coach, Dwight Hafeli. "Hafe" is replacing Coach Gill who is going into the armed services. "Hafe" is not only taking over the duties of assistant football coach but will also reside as head basketball coach. He is well qualified for these positions due to his five years of coaching experience.

Dwight Hafeli hails from Johnson City, Illinois. In 1933 he entered Washington University in St. Louis and graduated in 1937 with a Bachelor of Arts degree. He majored in economics and sociology. Throughout his four years of college "he" was an outstanding athlete.

"Hafe" lettered in football three years at Washington University making All-Conference two years at end and one year at fullback. In 1937 he played with the College All-Stars in Chicago against the Green Bay Packers. Incidentally this was the first year that the All-Stars defeated a professional team. Because of his very brilliant record that year he was given All-American rating by the All-American Board. Gale Bullman was line coach at Washington University all four years that Hafeli played there.

Besides football he was active in several other sports, among them basketball. He lettered in basketball three years and was nominated on the All-Conference team for two of those years.

In his senior year he won the Decathlon Championship in track and he won his letter. This championship is given to the man who has the highest score in the ten events of intermural track competition.

All four years of college he was heavyweight boxing champ. In 1937, Hafe fought his way to the finals in the A. A. U. boxing tournament, but was defeated in his final bout.

One year of Hafeli's experience in coaching was received at Washington U. as Freshman football and basketball mentor. The next year he was given an offer to play professional football with the Chicago Cardinals but instead accepted the position as coach at Kenyon College at Gambier, Ohio. There he was head football and basketball coach and assistant track coach. He held this position for four years.

Hafe is a member of the Kappa Alpha fraternity and while at Washington U. was an active member of various clubs and organizations including the "W" club.

Senior Cadets Pay Visit to Fort Wood

The senior cadets of the Reserve Officer's Training Corps visited the Engineer Replacement Training Center at Fort Leonard Wood Thursday. At the post Bus Depot the cadets under the direction of Colonel Herman met Captain Adams, who conducted the inspection trip.

The students first visited the training in preliminary rifle marksmanship in which the 32nd Battalion was engaged. Captain Cundra explained the training given on the 1000 inch range. On the "A" ranges where the 33rd Battalion was firing for record Lieut. Vogt, MSM '31, met the groups. Forty-five minutes was given to the inspection of fixed bridges and the explanation of the training methods by Lt. Hammar.

Before mess the students visited the barracks, company office, and storeroom. The group was divided in halves, the first messing with the 28th Engineer Training Battalion which is commanded by Major Campbell, MSM '24 and the second messing with the 31st Engineer Training Battalion commanded by Major James Stogsdale, MSM, '26. Here the cadets also met Lieut. Hassler, MSM '31.

After mess at which the students enjoyed excellent food, the motor pool, chemical warfare area, grade area, and bayonet training area was visited. The bayonet expert, Sgt. Benavides, gave a demonstration in running the bayonet course. In the demolitions Area the cadets inspected various anti-tank obstacles and demolitions being carried out by the colored troops of the 34th training battalion. They had seen the General Grant Tank in the morning. In the ponton area instruction was given on the heavy ponton bridge which was being dismantled. After an inspection of the new combat range and a visit to the Post Exchange the trip was ended.

This was the first of a series of trips the senior cadets will make in an effort to make their course of study as practical as possible. This afternoon they will visit the Vichy Airport to inspect airfield construction under specific arrangement with the District Engineer, St. Louis. This visit will show the methods and requirements for any airdrome construction, an important function of army engineers.

Next week a visit to the Rolla Municipal Sewer Plant will be made to illustrate a typical small sewer treatment plant, similar to which is often constructed by army engineers. A later visit with the U. S. Forester, Mr. J. J. Barry, will give the students some information as to forest trees and forest protection, and a trip to inspect the State and County Highway work will demonstrate maintenance of county roads and road equipment, very similar to military road work. Arrangements are not yet completed for trips to the U. S. Survey Office where the students will see drafting and multiplex work, to a local lumber yard to become acquainted with sizes and grades of lumber, and to the Army Motor Repair Shop in Rolla. A trip to the School Mines will also be made to familiarize the cadets with tunneling methods.

Freshmen: Read And Obey or Else

RULES AND REGULATIONS FOR FRESHMEN

1. Freshmen must wear regulation caps and suspenders at all times until notified by the Student Council to remove same.
2. All Freshmen must be present at all local athletic contests, mass meetings, and any other meetings of the entire student body.
3. All Freshmen must carry and provide matches for upper classmen at all times.
4. Freshmen must not wear high school letters.
5. Freshmen must not wear belts or M. S. M. Jewelry.
6. Freshmen must keep off the grass of the campus.
7. Freshmen must "button" their caps to all SENIORS when requested by same.
8. Freshmen must not wear any silk garments or loud socks.
9. Freshmen must know the following facts about M. S. M. and be able to recite to upper classmen at all times:
 1. When was M. S. M. founded?
 2. Who was the first Director of M. S. M.?
 3. Who were the first three graduates?
 4. What are the graduating departments of the school?
 5. Who is the head of each of these departments?
10. Freshmen must know the words to "The Silver and Gold" and "Mining Engineer," and the new school song when published.
11. Freshmen must not throw cigarette butts, paper, or trash on the campus.
12. Freshmen must keep their

See FRESHMEN RULES Page 2

Gentle Frosh Humbled Again By The Indomitable Sophs In Class Fight

When the green-hatted Freshmen, scum-of-the-earth, or whatever their lords and masters the upperclassmen wish to call them landed in Rolla, few, if any, of them knew the ordeal awaiting them. There were ordered to report on Monday evening, September 7, to the gym "to be taught school songs." On arriving at the gym, they were herded out to the clay-pits by the student council, that seemingly being the ideal place to learn school songs. At the clay-pits they were informed of the sad news—the Sophomore class was awaiting them in the battle-scarred field across Nagogami Road to relieve them of their pants and to toughen them up for the morrow by camping out over-night.

The Freshmen, 250 strong, advanced boldly, though not with any great rapidity, uttering loud threats, upon the seemingly vacant field. When they reached the center of the field they were set upon by organized groups of guerilla warriors (the Sophomores) and were scurrying back in the direction from which they came, clad in shorts, within five or ten minutes. The brave, bold, tough Freshmen of the earlier part of the evening were magically transformed into meek, mild, and complaint slaves ever willing to do their over-lords bidding.

790 Register For Fall Semester at MSM

MSM To Have A Glee Club

MSM needs a Glee Club! Let's get behind the idea, fellows, and push! When all the bathroom baritones and whisky tenors of MSM meet next week and form a musical organization to be known as the MSM Singers it will be the fifth time in the history of the school that such an attempt has been made. This time let's make a GO of it!

Representatives of each of the nine social fraternities and the four Independent classes will form the nucleus of the organization, but it is hoped that many besides this group will come out. To this end a corial invitation to attend the first meeting of the singers next Thursday evening at 7 o'clock in the auditorium of Parker Hall is extended to all those who find themselves harmonizing in Dr. Mann's drawing classes, lending local assistance to Bing Crosby on Thursday night, or otherwise trying to give out with a torrid beat.

Because the School of Mines does not have a department of music nor any regularly employed instructor of musical education, there have been frequent complaints in recent years from newcomers to the school. It is hoped that the present organization may help to ease off this situation.

20 Less Than Last Year's Enrollment

Late registrations have boosted M. S. M.'s fall enrollment to a total of 790 which is about 20 less than that of last year. The latest figures show that the enrollment by classes is: Seniors 171; Juniors 197; Sophomores 168; Freshmen 242; Graduates 2; and Unclassified 10.

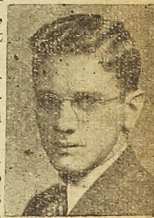

A survey of department registrations indicates the mechanical department has the highest enrollment of 162; chemical 121; metallurgy 101; mining 95; electrical 94; civil 81; ceramic 21; engineering 99, unclassified 9; science 6; and special 1.

According to Mr. Noel Hubbard, registrar, the freshmen registration of 242 is normal compared to last year's low figure of 192. The second largest number of transfer requests in the history of the school was made, but the number of transfer students who actually enrolled has not yet been determined.

Mr. Hubbard stated that the summer session was partly responsible for the small decrease from last year because some seniors graduated and other students who would normally have enrolled now, attended the summer semester.

Prominent Campus Leader Dies

Art Rose, prominent campus leader and member of the Class of 42, died at St. John's Hospital in St. Louis, Missouri, last Wednesday afternoon of pancreatic poisoning. His death terminated an illness which forced him to leave his studies in April of this year.

Art, a member of the Independents, was on the Varsity Football team in 1938-39; he was an NYA Assistant in the Physical Education Department in 1938-39 and 1939-40. He held three offices in the Engineers Club: Board of Control, Secretary - Treasurer 1940-41, and President 1941-42. He was a member of the 1938-39 Freshmen Dance Committee. He held the office of Master of Ceremonies of Alpha Chi Sigma and Treasurer of the Student Chapter of the A. I. Ch. E.

Art was very active in athletics and won the wrestling title in his weight in 1939-40. He represented the Independents on the St. Pat's Board and held the office of Vice-President in 1939-40 and was elected President of that Board in December of 1941, and to the Trusteeship in 1941-42. He was a member of Blue Key, National Service Fraternity.

He is survived by his parents, Mr. and Mrs. J. A. Rose of St. Louis, and two sisters, Gladys and Virginia. Burial will be held this morning at 9:30.

THE POLICY OF THE MINER

The Missouri Miner is a newspaper paid for and published by the students of the Missouri School of Mines and Metallurgy printing what it believes to be right and opposing what it believes to be wrong without regard to politics or pressure. We, the Miner staff, pledge ourselves to bring to the students complete news coverage, to present to others a true picture of the Missouri School of Mines, to make every effort to strengthen our country in the war and to continue to be a credit to the great school whose students we represent. The freedom of the press is one of the most important points of the Bill of Rights and a privilege which shall never be relinquished as long as the blood of America is free.

FRESHMEN RULES (Continued From Page 1)

ands out of their pockets.
13. Freshmen must keep their hair reasonably cut.
14. All Freshmen must walk on the east side of Pine Street from 12th to 12th Street.
All Freshmen violating these rules shall be subject to disciplinary punishment.

Roll shall be taken at all the above specified occasions and you SHALL be present. These rules and regulations are to be enforced by the Sophomore class, backed up by the Junior and Senior classes. Tough freshmen will be handled in a typical Miner fashion, which may mean almost anything.

By order of the Student Council.

Dean Welcomes Students To MSM

On behalf of the faculty and staff of Missouri School of Mines and Metallurgy it is a pleasure to extend to you a cordial welcome to this institution of learning. We enter upon the fall semester with the world still in the throes of war. You have come here to continue your engineering training in order that you may serve God and Country more effectively, either in military service and war industry or, should the war be over by the time you graduate, then in the reconstruction of a battered world. Destiny has laid its finger upon you and chosen

you to emerge from your training at a critical and challenging time. To fulfill your destiny it will be necessary to study more ardently than ever and to apply yourself to the work before you.

I pledge you the facilities of Missouri School of Mines and Metallurgy to aid you in your work here. During the past summer we have endeavored to renovate the buildings and classrooms to provide an atmosphere conducive to learning. We are constantly adding to our scientific equipment in spite of the difficulties of priorities. Our faculty has renewed its zeal for helping you educate yourself.

This year you will meet some new members of the faculty. The call to active military service and several resignations of former faculty members have brought about these changes. I can assure you from close personal knowledge that the number of changes in our own faculty as compared with those of other colleges is relatively small. We are indeed fortunate to have secured such highly qualified men to replace those who have left us. These new faculty members add prestige to our present faculty and will make it possible for us to carry on our educational program as smoothly

Your Patronage

In The Eyes Of The Campus

We would like to introduce to the Freshmen our Patron Saint of last year, John Mazzoni as the typical "Miner".

John Mazzoni comes to the School of Mines from St. Louis. He is a Senior this year and will graduate in January with a Bachelor of Science degree in Mechanical Engineering.

Mike has been very active during his four years here. He is a member of the Triangle Fraternity and in 1941 was Steward of that fraternity. This year he holds that position of Vice President of the Triangles.

Last year Mike was St. Patrick. His outstanding goodwill and fellowship made him well-liked by all fellow students. He has been on the St. Pat's board for two

and efficiently as ever.

Although we cannot shut out the rhythm of marching feet, the roar of planes and tanks, and the crash of bursting shells and bombs, I nevertheless urge a concentration upon the duties immediately before us. The greatest evidence of patriotism which you can exemplify is to continue your training so that in a surprisingly short time you will be ready to meet the tasks which you will be asked to perform.

CURTIS L. WILSON
Dean

years and is Utilities Chairman this year. Besides being on the St. Pat's Board he is on the Rolla board and is a member of the A. S. M. E.

Mazzoni has been very outstanding in the field of sports. He has played varsity football for four years. He is one of the hardest working men on the squad, never having missed a practice for two years. He plays guard and will be in action this fall. Last year Mike was singles handball champ and this summer he had charge of the intramural sports

INTRAMURALS

Summer Results

This summer once again found the Kappa Sigs predominating in intramural activity about the campus. In the golf tournament El Persons and John Nicholson advanced to the semifinals on one side of the bracket with Nick Rehfield after a long hard fight.

In the tennis tournament it was Neil Steuck and Elmer Shmeyer in the semi-finals, never this time neither were able to get into the finals, but they were in there fighting all the way in order to supply the competition in intramurals which makes this school's athletic program one of the best in the county.

The softball league found the Kappa Sigs Number one all the way. Under the fine pitching of St. Scholz and freshman Warren Meyer, along with the good all round hitting and fighting spirit of the Kappa Sigs took on all opposition. The Kappa Sigs won seven out of nine games including a three game series with the

Bullman Out To Cop MIAA Crown

Coach Gale Bullman, is now in his seventh year as head coach at the School of Mines. Last year he led his team to a title for the conference championship.

The odds are in his favor that his boys will win the conference title. Despite the fact that twenty of his thirty-six men of last year are gone, he will be able to put a team on the field this year that has more reserve power and be better balanced than ever before. "Bull" is as usual pessimistic, but the sports staff of the Miner figures this is the Miners year to take St. Louis University and their first undisputed conference championship.

Football In The Air

By The Sports Editor

The crack of bat against ball no longer gives quite the thrill as it did several weeks ago, and the cries of the baseball fans are losing their enthusiasm as King Football comes thundering in for his part in the sports carnival.

By this time every college in the United States has held its first practice. Anxiety is great as to just how football will fare under the present conditions.

I feel that football will go on this year with its usual success. In fact, here at the School of Mines things at present are looking better than they have in many years.

If one views the success which the baseball season encountered, and the great crowds that the preseason Army - Professional games have drawn, there can be little doubt that the American public wants the sports program continued, war or no war. It is true however, that the various services have drained the best blood from the gridiron and other fields of competition. Hence, one will not see the same brand of play that other years have offered when he takes to the stadium this fall.

Transportation will play havoc with the teams. Tires are cutting bus and car travel to a minimum. Railroads are being forced to give

priorities to service men, which is of course as it should be.

Equipment will be hard to purchase. Besides, there are many persons who object to various "privileged" boys being able to play games safely here on good old U. S. soil while other lads just like them are playing another game which is much more serious and the stakes are much larger.

Yes, it is true that football will have plenty of opposition this fall, but still the competitive, athletic minded public will put it over.

Any normal person can see the great part it plays in the physical conditioning of the American youth, to say nothing of the effort it will have on American moral.

Yes, football is a King and there is no reason for its suffering any setback just because this nation is at war. It is an important part of the Victory drive.

"These are sateen bloomers," said the clerk.

"Well, I want some that have never been used before," said the customer.

On the Bench

With the cancelling of the Arkansas A. & M. game, the Miner's opening game of the 1942 season is moved up to October 2, when the Miners face their arch rivals, St. Louis U. Although this move will give the Miners a better chance to prepare for the boys from St. Louis, it will not give the coaches any idea how the team appears against an outside eleven, and enable the coaches to correct the team's flaws in time for the big game.

The squad this year is one of the largest ever to turn out for football. From some 78 candidates, there are only five regular varsity men returning, namely, Kiburz, captain of the team; Johnny Moore, end; Jim Miller, back; Carafail, guard; and Theo. Hoby, tackle. Carafail has been shifted from his position at guard to the backfield thereby leaving just Moore, Hoby and Kiburz as regulars in the line. There is some consolation in the fact that most of last year's squad has returned and that some of the boys that

saw action in a few of the games last season, may prove themselves good enough to fill in the gaps in the line and backfield. Since there is no definite idea whatsoever as to who will be in the starting lineup, there is still plenty of opportunity for all of the candidates to fight for a berth in the starting lineup.

The weakest point in the team at present appears at center. With Don LePere, second string center, lost to the team for the season due to an attack of appendicitis, the team has only captain Kiburz, regular varsity center, to fall back on. However, it is apparent, Coach Bullman will try out a few

of his linemen at center and remedy this weakness.

The team has been going through a period of conditioning with only slight body contact work. This afternoon the team will get into contact work with earnest when the squad is divided into four teams for a regular scrimmage. The scrimmage will take place on Jackling field at three o'clock. This will be the first real workout the boys will have undergone and will not necessarily produce the starting lineup. The season is still too young to make any predictions and in football, anything is liable to happen.

On September 19, two teams will be selected from the squad to play in a regulation game against one another on Jackling field. This game should pretty well settle the question as to whom the varsity will be. From the large number of freshmen candidates there is a great possibility that some of them will be called on by the varsity for replacements.

Tomorrow, Sunday, the entire football squad will report to Jackling field in uniform to have their pictures taken. All candi-

perclassmen. Makeup for the skits was generously donated to all the Frosh by the magnanimous Sophomores. The highlights of the afternoon was Sophomore Harry Gilliland's rendition of "Minnie the Moocher" and the "...Bird", Frosh and Casey and Seidl's jam session.

After the indoor entertainment bricks were issued to the little green men to cleanse the sidewalks of certain class numerals, that strangely enough were executed in a style resembling that of Doc Mann's lettering class. The Freshmen failed to realize that here was their golden opportunity to fight their way to the depot and get back to civilization & they ardently scrubbed the walks to a state resembling cleanliness. The afternoon ended in a shake-dance to the corner of eighth and Pine, much to the dismay of the local gasolinewasters.

MILITARY STUDENTS NOTICE
Field Manuals 5-15 will be available for first year advanced course students, R. O. T. C. at the following hours: Saturday 8-10, 11-12, and 1-2 in Room 10, Parker Hall.

MODERN FOREIGN LANGUAGES

Students with two semesters of High School French, Spanish, or German may take second semester college classes; those with three or four high school semesters in these subjects may enter intermediate college courses.

Alpha Chi Sigma Plans Dance And Jamoree

At a regular meeting of Alpha Chi Sigma, professional chemical fraternity, Tuesday evening, plans were made for the coming dance and jamboree to be held on the weekend of September 19th.

Jim Johnson also have a brief report on the meeting of the conclave which he attended in Chicago this summer.

Frosh, Sophs, Juniors, and Seniors: remember MSM Glee Club, Thursday 7 o'clock Parker Hall.

MINERS:

MSM has a bunch of fellows who CAN sing; other schools have vocal organizations and we can have one too if WE will just get behind it. We have the singers, we have the director, we have the pianist—let's have a Glee Club.

We need one to sing for mass meetings, commencement, baccalaureate, and get-togethers. Get behind the idea! A Glee Club for MSM. Talk about it and for it!! It can mean a lot for MSM now and also in the years to come. Let's GO!!

EYES OF CAMPUS

(Continued From Page 2)

program. He is a member of the M club as a result of his letters in football.

We are presenting you this portrait of Mike because we think that he is representative of the true Miner. A man who wouldn't back down from any fight and who wouldn't want to be pulled from a fight just because he was getting the worst end of it. It is men like Mazzoni who will keep the School Spirit of M. S. M. alive and not let it become a panty-waist school attended by molly coddles whose right are protected by kindly old men.
