NUMBER 3

Mechanicals Give R. O. Jackson Farewell Dinner

Thirty-three seniors of the Mechanical Engineering Department met last Wednesday at the Pennant Tavern for a farewell testimonial dinner in honor of Professor R. O. Jackson who, after more than twenty years of service, plans to leave the faculty of MSM.

Following the dinner, John Mazzini gave a short speech reflecting the sentiment of the group and presented Prof. Jackson with a handsome pen and pencil set. The surprised "guest of honor" rose and quietly expressed his appreciation.

After a round of songs, the delegation adjourned to the "blue room."

Council Revises Dance Dates

The Student Council held a meeting Wednesday at 7:00 P. M., in the Club Room to discuss the dance dates. Most every representative, or his alternate, was present and a great deal was accomplished. The results, although still mostly in the dark, have brought forward a definite resolution to publish the correct dance dates. This, at least, is a great help to Campus Social Activities.

M Club Makes Plans For Parent's Day Dance

The "M" Club held a special meeting Wednesday night to discuss the dance that they will sponsor on Parent's Day, October 24. The plans discussed were of a general nature and nothing very definite, excepting the date, has yet been decided upon. M. K. Main, president of the Club, appointed a committee which will make more specific arrangements for the dance.

Inter-frat Council Completes Plans For Sing Feste

The Interfraternity Council met last Tuesday night and completed plans for their Interfraternity Sing. The program will probably be given Nov. 14 and will include Glee Clubs from each of the fraternities consisting of 14 or 16 men each. The winning glee club will receive a three year traveling plaque. This new activity of the Interfraternity Council will take place annually.

A committee was also appointed to make arrangements for the Interfraternity Dance to be held Oct. 10.

MSM Offers War Training Program

The second Engineering, Science, & Management War Training Program to be held on the campus of MSM will begin on next Monday, September 21. This program, which was offered on the campus during the summer session under the name of the Engineering, Science and Management Defense Training Program—With the cooperation of the U. S. Office of Education, is designed to furnish men and women to vital defense industries.

Six different courses will be offered in the present program. They are as follows: Drafting, both basic and advanced, Materials Inspection and Testing, Machine and Tool Design, Radio Technician Training, I and II, Topographic Mapping and Photogrammetry, and Economic Mineralogy, I and II.

There will be approximately twenty staff members necessary to conduct the courses; five of the staff will be employed full time. The remaining staff will consist of members of the faculty and other assistants. Approximately \$8000 worth of radio equipment will be installed in the Electrical Engineering Department laboratories.

During the past summer session of the program 108 men and women registered for these courses and most of them are now working in vital defense industries. Those who have received this training are very much in demand by many corporations engaged in war production.

Prof. E. W. Carlton of the Civil Engineering Department is the coordinator of the War Training Program.

Blue Key To Have Directory Out Soon

The Blue Key National Honor Fraternity held a meeting in the Club Room last Tuesday, September 15. The members discussed plans for publishing the student directory. This directory is put out annually by the members of this fraternity. In it are the names and telephone numbers of all students at the School of Mines. This service is a valuable aid to the students.

Other business was discussed and the meeting was adjourned about 8:00.

Roughneck at boarding house: "Brigham Young married four wives in one day, two in the morning and two in the afternoon."

Refined sweet young thing: "Goodnight!!!!"

Roughneck: "Yes, lady, it must have been."

Miners Work From Coast To Coast

From New York to Texas, Tennessee to Colorado, and all points intermediate, our Missouri Miners have returned to School after a successful summer in the nation's industries. This was probably the last summer for the duration in which Miners will be able to work out during their vacations. Wages showed the war-time trend, but varied over a wide range. Lowest weekly salary was \$28; highest, \$63. The following list is by no means complete, yet serves to give a bird's-eye-view of the Miner's role in industry this past summer.

Richard Hansen of Webster Groves, Mo. worked for Horner, Wyatt, Tanner, and Mitchell, Contractors, as a rod and chainman at the Sedalia Glider Base near Knob Noster, Mo.

Dick Matcer of Rolla worked in the Granite City Steel Company's Metallurgy laboratory as a test-runner and driller at the Granite City Illinois plant.

Jerry Kendall of Potosi, Mo. worked in Tooele, Utah as a chairman for the Intermountain Contracting Co.

Bill Goodwin of Ferguson, Mo. spent the summer in Niagara Falls, New York as a laborer in

Government Appropriates \$19,846 For Student Loans

Frosh Fling To Be September 26th

The annual Frosh Fling given by the St. Pat's Board will be held on September 26 from nine to one in Jackling Gym. This is to introduce these men to the Miner's "famed" gym dances.

The music will be furnished by the Varsity Orchestra, and from latest reports the boys have actually been practicing, so the music should be both hot and sweet. The slight service charge is sixty cents in advance, and seventy-five cents at the gate either stag or drag.

This is your dance! If we are to have our two St. Pat's celebrations as planned, the Board must have the school's support at the smaller dances. So come on fellows, we'll see you "hep to the jive" a week from tonight.

"I had to change my seat several times at the movies."

"Gracious, did a man get fresh?"

"Well, finally."

Missouri School of Mines and Metallurgy announced yesterday the receipt of \$19,846 from the Labor-Federal Security Appropriation Oct., 1942. This amount was given to the school for loans to students in technical and professional fields.

Congress recently passed a bill for \$5,000,000 to help students in the accelerated program who are majoring in Engineering, Physics, Chemistry, Medicine, Veterinary, Dentistry, and Pharmacy. This amount is to be given out as \$500 loans which are available to students who will complete their course in two years and maintain standards of scholarship.

Those students who receive these loans are required by the War Manpower Commission, "to participate, until otherwise directed by the Chairman, in the accelerated program, & to engage, for the duration of the wars in which the United States is now engaged, in such employment or service as may be assigned by officers or agencies designated by the chairman of the War Manpower Commission."

The money received through this program is to be paid back within four years after graduation. One-fourth of the principal plus 2 1-2 per cent interest per annum is due one year after graduation. This is to continue over a period of four years until all of the loan has been repaid.

In case of call by the draft or of death all debts and interest will be cancelled.

Advanced Cadets See Vichy Airport

On Saturday, September 12th, the senior military students, under the auspices of Colonel Herman, visited Vichy airport. They were driven to the airport in private cars and were escorted around the field by the commanding officer of the post. The inspection included runways, hangars, equipment, and sanitation. This is one of a series of trips sponsored by the military department for members of the senior class in the Reserve Officers Training Corp.

Little bank roll, ere we part,
Let me hug you to my heart;
All the year I've clung to you,
I've been faithful, you've been true!

Little bank roll, in a day,
You and I will start away,
To a good vacation spot;
I'll come back, but you will not.

JAN SAVITT

Jan Savitt and his Top-Hatters, one of the outstanding musical attractions of the country who has been broadcasting over the three major networks, will be featured at the casa-Loma Ballroom in St. Louis on Miner's Night, Saturday, October 3.

COUNTRY, COLLEGE, AND YOU

Every college student of today must soon know what his part in the war will be. Each student must be in the Air Corps Reserve, the Signal Corps Reserve, the Advanced R. O. T. C., or training as a Deck Officer or Flight Officer in the Naval Reserve. Having definite purpose to insure continuation of his college work. It is not obligatory for selective service boards to defer men merely because they are engineering students. The Army, Navy and Marine Corps under the College Procurement Plan offers the opportunity for every student to apply for enlistment in the Army, Navy or Marine Corps Enlisted Reserve. Enlistments are governed by quotas assigned in each branch to accredited colleges. The present enlisted reserve quota for the Missouri School of Mines is less than 500. When a student is accepted for enlistment he is ordered by his military command to continue his education at college. Here are the four conditions of his enlistment:

- (1) Regardless of scholastic standing, he is subject to military orders and may be told to leave college and report for duty elsewhere if and when military exigencies demand it. The Army Enlisted Reserves who are in the Advance Course R. O. T. C. category will not be called as the R. O. T. C. is to be enlarged and developed.
- (2) His curriculum may be modified — from his regular college major — as to prepare him for the particular service he has chosen.
- (3) If his scholastic standard becomes unsatisfactory, he may be ordered into active service at once as a private or apprentice seaman to make way for better material.
- (4) At the end of one and one-half calendar years of college, the Army and Navy Reservist is given a national competitive examination to determine whether he should complete his college education. If he passes it he will be ordered to finish his college course. Upon graduation the Navy and Marine Reservists enter immediately upon training or the Marines or for Deck and Flight Officers as designated upon their enlistment, the Air Corps Reservist will be inducted and trained for commission as soon as vacancies exist. The Signal Corps Reservist will be inducted and after completion of basic training may apply for Officer's Training.

With the present draft age of 20 and the evident necessity of lowering it to 18 this means that definite progress must be shown by every student in his chosen branch to insure his completion of college. To freshmen in particular should go the word **BE A LEADER!**

Experience is what you have left when everything else is gone.
Golf Pro: "Now use your brass."
Miss Vacante: "But I don't wear any this hot weather!"

Housewife—Have you had any experience taking care of children?
Maid—No, ma'am, you see I've only worked for the best families.

C. A. Ellet '41 Reported Missing

After many months of anxious waiting, word has been received that C. A. (Chuck) Ellet, class of '41, has either been killed or taken prisoner by the Japanese, or still may be among the few remaining guerrilla fighters left in the mountains of Luzon.

Ellet left school in June, 1941, to accept a position as Mining Engineer with the Suyoc Consolidated Mining Co. of Manila. When the war became evident, his parents received a letter in which he expressed his intentions of joining the Corps of Engineers of the Army. Since that time, no other word has been received but his parents have received four allotment checks of \$200 each. While at M. S. M., Chuck was a member of Lambda Chi Alpha Fraternity, Blue Key Service

Off the Campus

The dawn of a new school year brought twenty-two pledges to the Mu Chapter of Theta Kappa Phi. The present members believe that they will make good material both in Engineering and as future members of this Fraternity.

The pledges are as follows: Bob Baerveldt, Bob Barneier, Bill Casey, Dave Clarke, Joe Dosenbach, Bernard Duffner, Jim Heuchan, James Hoelscher, Glen Jost, Leo Kaempf, Bob Knittel, Jack Leahy, Jack McCarthy, Bernie McGrath, LeRoy Markway, Walter Mathews, Bob Meiners, Ed Mooney, Ted Oldenburg, Joe Strubert, Joe Sullen-trop, and Don Volkmer.

Bob Roos, a present member, left for St. Louis Wednesday afternoon to reach an agreement with his draft board as to his standing and the possibility of a deferment.

Another pledge, Jack McCarthy, is leaving for St. Louis, Saturday to see about his chances for V-7 Specialist.

Fraternity, and was Sec.-Treas. of the Student Council. He also won the Phi Kappa Phi scholastic book plate award his Freshman year. Chuck had many friends among the Miners as well as among the citizens of Rolla who sincerely express hopes of his safety and well being.

He's A Wolf

If he parks in his little flivver,
Down beside a moonlight river,
And you can feel him all aquiver,
Baby, he's a wolf!

If he says you're gorgeous looking,
And your eyes set him cooking,
But your eyes ain't where he's looking,
Baby, he's a wolf!

When he says you are an eye-ful,
But this hands begin to trifle,
And his heart pumps like a rifle,
Baby, he's a wolf!

If by chance when you're kissing,
You can feel his heart amissing,

Round The MIAA

As usual, the attention of all sports minded people is turned this time of year to the commingled season. Here at the school of Mines our attention is focused on the MIAA Conference, of which the Miner's football team succeeded in becoming champions along with Maryville last year.

With the first conference games scheduled for the 16th of September, the conference teams have been drilling daily in order to polish off the rough spots in offense and defense so that in the opening of the season come around, the teams will be ready to go.

The conference will start with Kirksville this year, leaving Rolla, Maryville, Warrensburg, Springfield, and Cape Girardeau to battle for the championship. The Kirksville withdrawal came as a surprise when President Walter H. Ryle announced that Kirksville had abandoned football for the duration of the war. This move automatically cancelled all of their A games. Coach Mal Eiken said that the prospects for Kirksville this year were the same as since 1938. The team lost lettermen from last year's squad, which won only one out of five conference games.

The Springfield Bears under Coach Howard Blair have been through drills twice a day, as soon as school begins, will shift to one practice a day. Coach Blair is counting on freshmen to fill his gaps this fall. He has several prospects in Glenn Rodman and Richard Elliot at the line positions. Si Grantham, a former tackle, has been alternating at the center post with Pottenger, another hold-over from last year. Coach Blair is having a bit of trouble filling his guard posts. His only prospect of worth at the moment is Mont Adamson, a newcomer. According to an article which appeared in the Springfield Daily on September 14, the Miners are given an even chance to win the title they won last year. This statement is not out of order, for the Miners forward should be as good or better any in the circuit. The Miners backfield should be as expected as any in the conference.

A little information available on the other teams of the conference indicates that Maryville should be one of the top contenders for the title again with the Miners. The Miners lost to Maryville last year by a 7 score but managed to do enough in their remaining games to share the title.

ATTENTION: ALL THOSE GOING TO THE ST. LOUIS U. GAME

It will not be possible to get a train for transportation to the game, however, it will be possible to have extra coaches on the Fort Wood Train that leaves around 2:15 p. m. Before asking for extra coaches, we know how many will go in this train and so will everyone who plans to go in on this train or would like to, please our name on a slip of paper drop it in the box in Park Hall. We must have this information by next Wednesday, or forget to do this... please. The Student Council.

INTRAMURAL Sports

By MORRIS SIEVERT

There was a meeting of the Intramural managers on Thursday evening, at which time the plans for the first sports on the program were discussed.

First on the intramural calendar is Table Tennis which will begin on Monday, September 18. The first week will be devoted entirely to practice for all those who intend to complete this year. The matches are scheduled to begin on Monday, Sept. 25, and they will take place between 4:00 and 6:00 p. m. The rules are to be the same as those followed last year. Each organization represented must enter a seven man team and must have all members of the team present at the time of competition. Entries must be in before. It has been decided this year that all objections to existing intramural rules or conditions, suggestions toward improving the program, and statements of dissatisfaction of all kinds must be brought before the Intramural committee and not before the coaches. The members of the committee are Smith, Fris, R. and Wray.

Because of the fact that the Seniors will no longer be with us at the end of January, there has been a desire expressed to have the swimming meet this fall instead of in late winter as has been customary to date. Managers of the various organizations intramural activities are requested to see the committee about this proposed advance in the date of the swimming meet.

It was also decided Thursday evening that Touch Football would start about the first of October. The various teams are urged to begin practice as soon as possible so that the teams will be in better shape and there will be less chance of injury.

Alpha Chi Sigma Jamboree Today

Alpha Chi Sigma's jamboree presents itself as one of the high light events at the School of Mines this weekend. It begins with registration at 9:00 a. m. Saturday morning, climaxes with the annual dance Saturday evening, and finishes strongly under the hammering blows of bat versus leather.

After the Saturday registration, a tour of the campus will be made, the home chapter providing the guides for the visitors from St. Louis University, the University of Missouri, Washington University, and the University of Kansas. One member is expected from distant Tennessee.

Saturday evening, starting at 9:00 p. m., and stopping at 1 A. M., the chemical brothers will give, jam, and swing to the synopated rhythms of the Varsity orchestra. The swing session will be big, no doubt. Women will be there- Escorted, of course!

Sunday afternoon at 2 P. M., the sandwiches, beer, and all the other delicacies, will feed the hungry Alpha Chi men. The feature of the day, will be the softball game between the active members and their elder brothers, the professionals.

Many Freshmen Out For Football

By MORRIS SIEVERT

In spite of the fact that Uncle Sam has thinned the ranks of this year's football crop somewhat, the team is expected to make a good showing partly because of the freshmen prospects this year.

Giving their support to the team this year will be about 20 freshmen. The end positions will be bolstered by Cliff Dameron, of Southwest High School in St. Louis, Bill Seneff who hails from Marionville, Missouri where he lettered for 2 years, and Charles Nohavee of McKinley High in St. Louis.

Wayne Bolitha, Earl Shank, of Carthage, Missouri; Pete Collier, who lettered 2 years at Amityville, N. Y., and C. B. Davis, of Beaumont High in St. Louis, will lend their aid at tackle this year.

In the guard positions will be Marvis Englehart who lettered 4 years in high school at Avon, Illinois, Ray Siabagh, 3-year letterman from the Perryville, Missouri high school, and Tom Buckley who played 2 years of football at Cleveland High in St. Louis.

To aid in bolstering the center position there will be Marvin Portmann, of Soldan high in St. Louis, and Harold Telthorst of Cleveland.

The backfield shall be aided by several freshmen this year. Among them is Elden Marquardt of Bloomington, Illinois, Bob Riley, 3-year letterman from Pana Township, Illinois, Raiser, 4-year letterman from C. B. C. High in St. Louis, and Warren Meyer from Oak Park, Illinois where he lettered for 2 years.

Many of these freshmen may see action this year because of the lack of experienced reserves in every department.

MSM Grad. Weds Miss Ruth Ann Beckman

Woodrow Burgess, M. S. M. '40, graduate Geologist working for the U. S. Engineers stationed at the Clearwater Reservoir near Piedmont, Mo. married Miss Ruth Ann Beckman, daughter of Mr. and Mrs. Henry Claus Beckman of Rolla, Missouri at the Methodist Church, Rolla, on August 23.

Bullman To Test Eleven In Intersquad Game

THEO HOBY

Declared by opponents last year as the best weakside tackle they have ever met, Hobby has returned this year and is even more brilliant looking. He is a cinch starter on Bullman's team.

A WOLF (Continued from Page 2)

And you talk, but he won't listen, Baby, he's a wolf!

If his arms are strong like sinew, And he stirs the gypsy in you, So that you want him close agin you, Maybe, 'you're the wolf!

This afternoon at three p. m. on Jackling field, the Miner's football squad will engage in an inter-team game. From the looks of things there will be plenty of action from the aerial standpoint this afternoon.

In last Saturday's scrimmage neither team could get its pass offense to working and as a result neither team scored. This week it is a different story. The entire squad has been drilling on pass offense and defense and should furnish plenty of action. Al Dick will be the one to watch when it comes to taking to the air. Al has shown his ability to remain calm under fire and find the mark with his accurate passes.

Passing will not be the only department that will be working. Jim Stover, former All - Oklahoma back in high school will be at one of the halfback positions, along with Jim Glover and Jim Miller, to take over the line plays. Miller and Glover put on quite a show in last Saturday's scrimmage with several nice runs along with their excellent defensive playing. Stover has shown quite a bit of promise in practice and should be counted on to give a very good account of himself this afternoon.

This is a good opportunity to see the Miner team in action. All students are welcome to attend as are the townspeople. The starting lineup will be as follows:

In The Campus Spotlight

Kent Comann is one of the most outstanding Seniors on the MSM campus. Kent came to school from St. Louis in September, 1939. He will graduate in January with a Bachelor of Science degree in Mining Engineering.

Kent has been on the Student Council for three years and is President of the Council this year. He is a member of the Engineer's Club and in his Sophomore year was on the Board of Control. Kent has been very active in school and his record is very impressive. He was elected to Theta Tau during his Sophomore year as well as to the Blue Key, of which he is now President. He was President of the Sophomore class during 1940-41.

Besides the organization mentioned above, Kent is an active member of the AIMME.

He was a member of the Detonators during his second year in school and he was also active in Intramural Swimming.

During the summer of 1941, Kent worked for the Pittsburg Coal Company in Pennsylvania; he attended school during the past summer session. He is a Student Assistant in the Mining Department.

MINERS WORK

Continued From Page 1

the research laboratories of the Electro - Metallurgical Company located there.

Allen Riechert of St. Louis, Mo. was a machine maintenance man at the Century Electric Co. in St. Louis.

Jack Mueller of St. Louis, Mo. worked at the Briner Electric Co. as a coil-winder.

Allen Lindberg of Cuba, Mo. was with the U. S. G. S. in Leadville, Colorado as a seismic crewman.

Seymour Orlofsky of Hartsdale, N. Y. worked as a shipfitter for the Shipbuilding Division of the Consolidated Steel Co. at Orange, Texas.

Don Reinert of St. Louis was assistant to the Resident Engineer at the new Jefferson Barracks Bridge.

Mike Monte, Highland Falls, N. Y. resident, worked for the U. S. Highway Division as a levelman near West Point, N. Y.

Bill Thomas of Jefferson City, Mo. worked for the Missouri Highway Department in Jefferson City as a rodman and inspector.

Gene Weber of St. Louis, Mo. worked as a foreman in the production laboratories of the V-Jon Co. in that city.

Gus Savu of St. Louis, Mo. was a paint sprayer at the Curtis Wright Aircraft Plant at the Lambert-St. Louis Airport.

Charles Faulkner of Rolla worked in Galena, Kansas as a chemist at the Eagle-Pitcher Smelter.

John Brodhacker of Springfield, Mo. was a chemical operator with the Monsanto Chemical Co. of Columbia, Tennessee.

Philip Fishman and Ralph Feldhaus of St. Louis, Mo. worked as rod and chainmen for the U. S. Engineers at Jefferson Barracks, Mo.

Frances Nelson of Kansas City Mo. worked for the Kansas City Ticket Co. there as a pressman.

Dave Hoff, Eugene Allen, Bill Howard and Dominic Greco of St. Louis worked as draftsmen at the Federal Bldg., St. Louis for the U. S. Engineer Corps.

Chuck Brockmeyer of Webster Groves, Mo. worked for the H. B. Deal Co., Contractors of St. Louis, Mo. as a rod and chainman.

Robert Balin of St. Louis, Mo. worked as a draftsman for the U. S. Engineers located at the Clearwater Dam Project near Piedmont, Missouri.

Robert Kendall of Webster Groves, Mo. was a rod and chainman for the U. S. Engineers located at the U. S. Engineer Boatyards in St. Louis, Mo.

Tom Baugher of Springfield, Mo., and Hank Holliday and Edmund Waltenspiel of Rolla worked at the Norfolk Dam near Mountain Home, Arkansas, for the U. S. Engineer Corps.

Freddie: "That girl you picked up at the dance was from Ireland, wasn't she?"
 Charlie: "No, from Iceland."
