NUMBER 4

45 Attend First Glee Club Session

It seems at last that MSM is destined to have a Glee Club. The first practice held Thursday night in Parker Hall was attended by over 45 members of the student body and many more have indicated that they intend to join. It is hoped that a chorus of 70 or 75 voices may finally be organized. The next practice will be TONIGHT at 7:15 o'clock in the AUDITORIUM — practices will continue to be held at the same time and place on Wednesday evenings until further notice.

Any fellows who have not yet attended a practice and who are interested in singing with the Glee Club are invited to attend one of the next few meetings. No new members can be taken after October 15th. There is a special need for tenors at the present time.

Mrs. I. H. Lovett who is director of the chorus has taken charge of the purchase of some new music including some popular arrangements and some negro spirituals. It is hoped that the new music will be here in time for this week's practice.

Photo Club Will Sponsor Contest

At its first regular meeting of the fall semester held last Friday evening in Norwood Hall, the M. S. M. Photo Club voted to hold its annual photographic competition this semester. This contest will be open to all members of the student body. A committee was appointed to work out the rules for the competition and they will be posted at the earliest possible date on the various bulletin boards over the campus.

About fifteen freshmen attended the first meeting and it is hoped that the membership of the club can be built up to 25 or 30 members before the end of the month. Any person on the campus who is interested in photography and who is not at present a member of the club is urged to attend the next meeting of the club in October and to share in the benefits which the club has to offer including its large and well-equipped dark room. Those who are interested in the club may join any time between meetings by getting in touch with Bruce Landis, Harold Amlie, or George Tuer.

Several pieces of new equipment were authorized at the last meeting including a new copying attachment for the enlarger and a timer for the dark-room. After the meeting the prospective members were taken through the dark-room.

Some folks reform and some just get too old to act up.

Tau Beta Pi Will Hold Smoker

The fall Tau Beta Pi smoker will be held Friday, September 25, to introduce prospective pledges to the members of the fraternity. These men consist of the upper fifth of the Senior class, the upper eighth of the first semester junior class, and the upper fifth of the second semester juniors. The election of pledges will be held sometime next week.

At a meeting held September 15, it was decided that the Tau Beta Pi scholarship cup will not be awarded for the summer semester since the eating clubs were not organized. It will be awarded again in 1943 for the present fall semester.

A. S. M. E. Shows Movie At Meeting

A sound film entitled "Production Lines of Defense" was presented before a meeting of the A. S. M. E. last Friday night. The film was a story of the design and construction of Chrysler's new Army tank plant and gave a good idea of what is being done on the home front in our all-out fight with the Axis.

Following the showing of the film a regular meeting of the A. S. M. E. was held at which plans for a fall outing were discussed. John Requarth was appointed chairman of the new membership committee.

A suggestion was made to hold an essay contest in which all members would be eligible to present their essays before the A. S. M. E. in competition for a worthwhile prize.

There is to be another meeting this Thursday night, at which time plans for the fall outing will be completed. All sophomore, junior and senior mechanical students are urged to attend.

Selections For ROTC Band Made

Wednesday, with the emotion filled bugle tones of "Rip" Balin's "Assembly," the M. S. M.-R. O. T. C. band officially opened another year. This unit performs during drill periods, football games and rallies. It has been partly responsible for the blue stars we so proudly wear on our sleeves.

Director Scott has carefully selected the instrumentation to give the most powerful military band possible of thirty-five men. The strong brass effects he obtains from this compact unit is the effect of counterbalancing seven trumpets against six trombones, plus the forceful drive of three bass horns. The six clarinets feature in concert work. Each year Director Scott accomplishes the miracle of transformation.

AIMME To Award Annual Scholarship

The Woman's Auxiliary to the American Institute of Mining and Metallurgical Engineers announce a limited number of Scholarship Loans for the year beginning September, 1943.

These Scholarship Loans are open to student of American citizenship who desire to take a degree in Mining or Metallurgy, or in the allied subjects of Geology, or of Chemistry as applied to Metallurgy. A candidate must make honor grades in college and must signify his intention of completing the required college courses and taking his degree.

These scholarships consist of one-half an outright scholarship and one-half a loan to be repaid without interest as soon as possible following graduation. Applications must be submitted by November 10, 1942.

Awards will be based on scholarship, character, leadership, personality and need.

Send letters of application to Mrs. Gilbert W. Noble, 609 W. 11th St., Rolla, Mo.

AXE Jamboree Well Attended

The Alpha Chi Sigma Jamboree closed Sunday afternoon with an appetizing lunch on the front lawn of Dr. Schrenck's residence. After the meal proper was over, the usual after dinner discussions started and gradually gathered momentum with a final rather defined separation into two groups — the male and female! In the male group some of the usual fine anecdotes were introduced to the college men by the professional members. Mr. "Weedy" Weideman, a former national officer of AXE, was as always, the ring leader of the jokesters.

The Jamboree program went off according to schedule, with a good turnout of professional members from the St. Louis professional group. Five Washington U. AXE members were also present. Included among the guests was Gil Shockley, who came all the way from Tennessee for the meeting. Gil won second prize in the national design contest for college seniors in chemical engineering courses sponsored by A. I. Ch. E. annually.

The dance held Saturday night was well attended. Music was furnished by the Varsity orchestra.

Due to the war situation this was probably the last AXE Jamboree for the duration.

She (coily): "you bad boy. Don't kiss me again"

Engineer Ike: "I won't. I'm just trying to find out who has the gin in this party."

Science Academy Elects Officers

The election meeting of the College Academy of Science was held last Monday at 7:30 in Norwood Hall and the new officers for the coming year were chosen from the Freshman class. Ed Mochel was elected president. The other offices were filled by Kermit Rasmussen, vice-president; James Wilson, secretary; and George Wolpert, treasurer.

After last year's president, John Van Os discussed the purpose of the Academy of Science and Art Feinburg mentioned some of its activities, the meeting was turned over to the new president. E. Mochel who made plans for the next meeting to be held three weeks later.

A. I. Ch. E. Will Meet Tonight

The M. S. M. student chapter of the A. I. Ch. E. will have its first meeting of the fall semester Wednesday evening at 7:00 p. m. in the lecture room of the old chemistry building. Professor Delano who is Assistant Professor of Chemical Engineering will relate his experiences during the construction of the Fort Peck Dam in Montana.

All chemical engineering students and anyone interested are invited to attend the meeting. Refreshments will be served.

Get Tickets Now For Miners Night

The "Miners' Night" dance, from all appearances will prove to be another enjoyable evening similar in Miner spirit to the well remembered M. S. M. Admiral excursion this last summer.

The featured orchestra, Jan Savitt and his Top-Hatters, will be an extraordinary treat for M. S. M. student as well as alumni now in St. Louis. The orchestra is considered one of the top-ranking bands in the country.

Since the Casa-Loma Ballroom will hold only a limited number of persons, students are requested to purchase their tickets in advance and not chance the probability of being turned away at the door.

Dancing will begin at 9:00 p. m. and will conclude at 1:00 a. m.

Tickets are now on sale by the S. A. M. E. advanced R. O. T. C. members at fifty cents each. Tickets will be also placed on sale in Parker Hall next week.

ATTENTION

All students intending to go to St. Louis U. game on train put their names in the box in Parker Hall.

Miners To Play M. U. Reserves

With the all-important St. Louis U. game less than a scant two weeks away, the "Fighting Missouri Miners" will be able to gain much needed experience from the game with the Missouri U. Reserves this Saturday night. The game will be played on the high school field under lights, and the contest is scheduled to start at 8:00. The cancellation of the Arkansas game would have placed the Rolla men at a serious disadvantage for the Billiken game, but the encounter scheduled by Coach Bullman against the fast, deceptive offense of the Tiger squad will enable our boys to add many a trick to their defensive repertoire besides giving our highly vaunted "T" a chance to do its stuff.

Until last Saturday, this contest was held a secret. It so happened that "Bull" scheduled the game with Faurot over a week ago, but told no one of his plans. Even the players had only received rumors that a game had been scheduled for September 26, but they had no idea with whom it would be. This was just another one of "Bull's" tricks, put forth to arouse the enthusiasm of the entire campus.

This week Bullman will put his charges through the usual paces, with emphasis placed on his aerial attack. An unexpected raid from the air is predicted to take place Saturday.

Con. on page 4

D. R. Schooler Is Faculty Addition

The latest addition to the M. S. M. Faculty is Mr. D. R. Schooler, a new instructor in the Engineering Drawing Department. Mr. Schooler received his B. S. in Mining Engineering here at M. S. M. in 1926. While in school, he was a member of the Rollamo Board, a member of the Independents, and President of the Student Council.

After receiving his degree, Mr. Schooler worked for a short time for the Union Colliery in Dowell, Ill.; after that he was employed by the Bell and Zoller Coal and Mining Co. in Zeigler, Ill., first as a Mining Engineer and later as Chief Engineer. From 1929 to 1935 Mr. Zoller was the Engineer of the Centralia Coal Co. in Centralia, Ill., and from 1935 to the present he was their plant superintendent.

University Dames To Meet Thursday Night

The University Dames will have a reception for new members Thursday evening, September 24, at 8 p. m. at the home of Mrs. C. D. Thomas at 203 E. 11th.

This organization is composed of the wives and mothers of students of M. S. M. who are not permanent residents of Rolla.

"I'll be frank with you," said the young man when the embrace was over. "You're not the first girl I ever kissed."

"I'll be frank with you too," she answered, "You've got a lot to learn."

R. O. T. C. Band
Con. from page 1

ing this outfit into a first class concert team, without any change in instrumentation.

Perhaps the most remarkably thing about this band is that it can really march. Even while executing a difficult piece, it keeps formation in a manner to put many of our platoons to shame.

Cadet officer Don West shines as Drum-Major. For two years he has beaten the bassdrum, but now has reformed and blows the whistle. No more will we marvel at the ear-splitting trumpet solos of "Stretch" Meyer. An eleven o'clock class prevented him from joining the band.

The following men were selected as a result of last Thursday's tryouts:

TRUMPETS — D. Crow, J. Salvo T. J. Commerford, W. N. Senneff, E. M. Casey, R. E. Schaeffer, R. E. Balin.

TROMBONES — J. G. Young, R. E. Schmidt, C. M. Faulkner, G. L. Staley, R. S. Mateer, R. F. Waring.

CLARINETS — W. U. George, C. P. Anton, G. E. Meyer, R. D. Wheat, R. L. White.

BASS HORNS — L. E. McWhorten, J. Sisk, John Mann.

BARITONES — G. E. Henry, M. F. Matzel.

ALTO — G. F. DuBois.

PICCOLO — S. Johnson.

TENOR SAX — J. D. Sheppard

The Engineer Is Vital In The War Effort

Modern war is complicated; it presents more problems in a shorter space of time than any other of the many undertakings of man. To the United States the war was even more complicated than it was to other more aggressive countries who were prepared for an international conflict.

As an example of the work of the engineer and his contribution to the war effort we can single out the amazing story of the progress of airplane building in our country, the arsenal of democracy. This same story could be written of the tank, the cargo vessel, the numberless guns, or of other vital war equipment for the story is the same in all of industry. Every where progress has been made; enormous barriers have been surmounted and the goal of production draws steadily near.

At the beginning of the war (Dec. 7, 1941) and even sometime before the war the need for large, almost astronomical, numbers of aircraft was apparent. We did not have the facilities necessary to produce the required number of machines so we set to work to create the factories in which they could be produced.

Our factories were not created of nothing; hours of labor over drafting boards; weeks of design, calculation, and checking were necessary. New plants had to be built and old ones had to be improved. The burden was placed on the engineers.

To stop the Axis bullets, new super-strength armors were developed; chemical factories began to produce explosives by the thousands of tons; high-powered, mighty motors were produced overnight to speed the planes high over enemy territory. Our engineers are on the job and are giving our armed forces the planes they need.

Every branch of Engineering plays an important part in the "Keep 'em Flying" program. The civil engineer provides hangers for our death-dealing planes, fields from which to attack the enemy, and railroads and ships to carry the maintenance equipment. The electrical engineer gives the pilot his eyes and ears and guides him straight to his goal.

The ceramic engineer provides the linings for the many hungry steel furnaces; the Metallurgical engineer tailors the metal; the Mechanical engineer uses this metal to build giant motors; the Chemical engineer provides the high explosives for use on enemy factories.

A single bomber has 30,000 parts which must be precisely built to fit somewhere in one of the 650 minor sub-assemblies. But that did not stop the Engineers of America.

In 1938 we were producing 1200 planes per year; now we are producing over 2400 better and fast-

As a MINER Sees it

Last week there wasn't enough room for the completion of this column but what was said still remains way up on top of my list.

A couple weeks ago Joe Adams, without the consent of the St. Pats' Board, contracted the manager of the Casa Loma ball room to have a dance. Then when he got back he had the tickets printed and finally informed the Board of his activities, but the only catch was that the Board wouldn't hold still for his hijacking deal. That was a lousy business deal Joe but perhaps if you started carrying a gun with you your associates might swallow some of that —stuff.

The new school song, written by Fred Waring last spring, has finally arrived. Remember Freshmen this is one of your duties—to know the school song. That goes for the rest of the classes too, what you say well know it for the St. Louis U. game.

Cold weather must have made the Pennant the thing of the past this last weekend. Saturday night found Dave Feldbaum and George Meyer just outside the door of the Tavern walking for strips, trying to prove to each other the extent of their condition. Also in the "Blue Room" we found Kealy and Gilliland teaching several of the newcomers the correct way to spend a typical Miner Saturday night. The boys seem to be catching on very fast.

That one waitress is either terribly dumb or else she really cleans up the cash. I believe she's the one they call Dorothy or Dot but anyway she always seems to collect more than once for the drinks she serves.

When Kiburz was knocked out for the second time in one quarter in that inter-squad game Sat. he still wanted to keep on playing. After he was dressed and out watching the game again anything you asked him was "fine" but he still couldn't, for the life of him, remember which side he was on. That's the kind of fellows you've got risking their necks for you this year, let's give them all the support we can muster.

The Alpha Chi Sigma's had a swell dance Saturday night but those uninvited guests in the name of Clayton, Auinbaugh and Moeller seemed to have made themselves mighty unpopular. Not only

er pines. Our production now exceeds the Axis by 27 per cent, thanks to the American engineer.

JOKES

Gal: "The jury awarded me \$50 for my head injury and \$5,000 for my legs."

Guy: "What was wrong with your legs?"

Gal: "Not a thing, brother."

All good schools have glee clubs—why not MSM? Remember, next Thursday—7 o'clock ! !

Let's go all you fellows who sing! ! Next Thursday night a 7 in Parker Hall.

MSM will have a Glee Club you'll be proud of if YOU will pull for it.

were they uninvited but none of them were dressed for the occasion. Just what's the Stupid Council doing these days or have they dispensed with rules about dance crashers.

High on the S list of the Navy flyers here on the campus is Jack Fleischli, who found one of them very badly in need of a shave and before the poor guy had a chance to say anything Jack had the job done. That's the spirit Jack but let's try to keep our own clan cleanly shaven.

Jim Wigge seems to be having trouble breaking into the Rolla Social Register. He claims that now that he has finally begun to get somewhere there is a certain young lady in the telephone exchange who is impeding his progress. In fact the boys down a Scotts last night were all wondering what the present procedure is for getting rid of these impetuous women.

What is this persistent rumor going around the campus of a certain Hartley Locher recently becoming a member of the "Henpecked Husbands Association."

Now fellows here's a left-over from late last summer. Mr. J. Schmitz attention please; there's still quite a few of the boys who were here last summer who would like to know just how you manage to corner strange women into paying for your milkshakes—and just how long has this been going on My, my what a horrible example for John.

MSM Should Have Strong Forwards

Last Saturday's Inter-squad game, although played under unfavorable conditions, demonstrated that the forward wall of the Miner's Eleven is ready to meet all comers. With the front line well filled with returning veterans of the '41 season a wealth of reserve material among the ranks of the Sophomore and Freshman classes, Coach Bullman need not acquire any gray hairs worrying about the line positions.

This is expected to be a very successful season for the Miners, and it is essential that in order to have a winning team, the forward line should not only be big and powerful, but should be perfectly coordinated with the backfield. Teamwork is the key to success, and for the past two weeks "Bull's" line has been cooperating perfectly.

This is going to be one season that Bullman won't have to worry about the end positions. Returning this year is big John Moore, veteran and star end of last year's championship team. Johnny is not only a demon on defense but has been rated as one of the best ball snatchers in the conference. Alternating with Moore will be Kratz, a Junior end, who is fully capable of taking over the end duties at any time. At the other end position we see two new faces, Hazlett and Guiney. Hazlett played some ball as a freshman last year and has shown prospects of being a first string end. Hoever, Guiney has shown up equally as well, so at the present time it is debatable as to who will start at this end.

The tackle positions will be well taken care of this season with the return of Hoby, Woods, and Leone, all veterans of previous seasons. Hoby, who played weak side tackle last year, was rated as one of the best in the M. I. A., and it is predicted that he will be even better this season. However, he is still handicapped with a bad shoulder which he received last year. Leone and Woods, both lettermen of two years ago, will alternate at the other tackle position. On the reserve list we will find such capable men as Reader, Hartmann, and Wolf.

The center of the line also seems to be well taken care of. Returning as a veteran is "Mike" Mazzoni, a guard with three good years of experience and capable of being alternated at center if necessary. Mike is a hard hitting guard who knows the tricks and can execute them with expert ability. Sueme, a Senior this year, has shown good prospects, and probably will alternate with Mazzoni. At the other guard will either be Fulgrum or Caine. Fulgrum, a Sophomore, has been playing very good football in practice. Caine, a former end, has been shifted to guard, mainly because of his excellent blocking ability. Also playing guard is Dave Feldbaum. A Sophomore this year, Dave has demonstrated that he will make good reserve material.

At the pivot spot is Captain

PASTEURIZED
MILK**

Miner Backfield Shows Promise

The Miners have probably their greatest combination of backfield material in years. With eleven sparkling backfield men together with our dependable line, the Miners should retain the M. I. A. A. Conference title this year.

Playing our quarterback position will be Radcliffe or Catanzaro. At fullback will be either "Moose" Carafail or Bob McGrath. The halfback positions can be filled by Al Dick, Jim Miller, Jim Glover, "Slappy" Boetjer, Charlie Mitchell and Jim Stover.

Al Dick has had three years of football experience here. This boy from Tennessee will again demonstrate his ability in passing and ball carrying. He is an impressive halfback who can easily shift to fullback.

"Whitey" Radcliffe has had three years experience with the Miners. His punting, passing and blocking at quarterback has been fine. Radcliffe did some beautiful kicking Saturday.

Jim Glover has been giving a fine exhibition of kicking and running. He has had three years of experience on the team. He is dependable at offensive as well as defensive playing, and much is expected of this halfback.

Jack Boetjer has had one year of experience here. He has started at halfback in the scrimmages and has done some good running in these games.

Charlie Mitchell has two years of experience on the field. Charlie will be there when fast and shifty ball toting has to be done.

"Steve" Fris is doing great work at halfback in his first year out for the team. "Steve" can hold his own when it comes to passing and running.

Jim Miller has shown his value by his blocking and running. Jim is an outstanding defensive halfback who has also made some long runs in scrimmage.

Mike Catanzaro has had three years of Miner football experience. Mike can block in great

Kiburz, a veteran of three seasons. "Kib" is rated as one of the best centers in the conference, and is the life of the team. He is noted for his vicious tackles in backing up the line. Kiburz is without a doubt one of the best tacklers on the team. However, the reserve strength at center is very weak. Miller, a Junior this year, is capable of relieving Kiburz, but is lacking in experience. If necessary, Mazzoni could be shifted from the guard position and take over temporarily.

These are the men who will compose the forward wall this season and who will lead the Miners on to victory. They will be backed up by backfield men who are equally as good in their positions. Let's show the true Miner spirit this year and cooperate in every possible way. If we back our team and cheer for them, there isn't a team on our schedule who will be able to complete with us.

Rolla Optical Co.
209 W. 8th St. Rolla, Mo.

Broken Lenses Duplicated
"GLASSES THAT FIT"

Intersquad Game Results in 18-0 Victory For Reds

In the scrimmage game, Saturday, the Miner football squad was divided into two opposing teams, the Reds and the Whites. The game was played in the rain, making both the ground and ball slippery. The Reds defeated the Whites, 18-0. The starting lineup was as follows:

REDS	WHITES
Counts	L.E. Kratz
Englehardt ..	L.T. Reader
Fulgum	L.G. Mazzoni
E. Miller ..	C. Kiburz (c)
Sueme	R.G. Cain
Haleski	R.T. Waring
Hazelett	R.E. Guiney
Radcliffe ..	Q.B. Catanzaro
J. Miller ..	H.B. Glover
Dick	H.B. Stover
Carafail	F.B. McGrath

Al Dick scored on a short buck over the line ending a fifty yard drive. Jim Miller scored on a pass from Dick. A poor pass from center on a fourth down resulted in a blocked kick, which accounted for the other six points. The blocker of that kick is still unknown.

Jim Stover of the Whites made a forty-yard run, the longest of the day. The regular tackles were not there, probably because of draftboard fever. The line men, Hazelett, Fulgrum, Sueme, Cain, Perkins, Mazzoni and Kiburz deserve special mention for their good, hard playing. Coach Bullman said that nothing new could be told of the team because of the absence of the tackles. The players are doing their part for

style and will see much action at quarterback this year.

Gil Carafail has done some fine plunging this year. He was "All-State" in high school and is continuing his good work here at fullback. He was the only freshman to letter last year.

Jim Stover made some fine end runs at the scrimmage Saturday. He is a sophomore halfback and was "All-Oklahoma" in high school.

Fumbling has always been too prominent in the Miner backfield. However this is being reduced at each practice. These backfield men should be in top condition for their first game. The school has been trying for thirty years for a victory against St. Louis U. So fellas, "let's see you go out there and FIGHT!"

Extensive Program For Intramurals To Be Continued

Even though the school shall miss the services of Coach Percy Gill during the following year, the intramural program which he has had a large part in during his stay at M. S. M. shall continue under the supervision of the new coach Dwight Hafeli and Coach Gale Bullman.

The intramural program here is recognized as one of the best in the country. During the past year there were 1142 entrants in intramural sports. Of course it is seen by this number that one man competes in more than one sport and is counted as an entrant each time. The records show, however, that of the 900 enrollment of last year about 500 competed in intramurals. The percentage, with the exception of Military schools, is one of the highest in the country.

The exact date of the beginning of each sport has not yet been decided upon but the sports shall follow the same order as last year. That is: September; Table Tennis, October; Touch football, November; Touch football, cross country, December; Basketball, January; Basketball, Handball, Swimming, February; Basketball, handball, March; Boxing, wrestling and volley ball, April; volley ball, horse shoes, tennis, golf, track, softball, May; Softball, horse shoe, tennis, golf, and track.

As in the past there will be awards for the winners in each sport and there will be points given for each contestant entered.

New School Song To Be Arranged For Band.

The Student Council has agreed to pay for the band arrangement of the new Fred Waring song, "Fight, Missouri Miners." The song is now being arranged by John Scott, Director of the regimental band.

the school, and now it is up to us, the student body, to show our support of the team. Let's see you out there in the stands, Oct. 2, in St. Louis "en masse" and we can feel certain of sing a good game.

ANTONE LEONE

Titanic tackle who played and lettered here at MSM two years ago. He was not in school last year, but has returned for this year's team. A great defensive and offensive player, he will be heard from often this year.

He was determined to pass his favorite tavern on his way home. As he approached it he became somewhat shaky, after plucking up courage he passed it. Then after going about fifty yards he turned and said to himself, "Well done, Pat, me boy. Come back and I'll treat ye."

ALPHA LAMBDA TAU

Many of our fellows spent a highly successful summer in school and August graduates Robert Dunham and Roger Butler are now employed by the Phillips Petroleum Co. in Texas and the Carnegie Steel Co. in Gray Indiana respectively.

Many improvements have been added to the chapter house and many more are being contemplated. Plans are already underway for a dance to be given by Phi on November 6th. A part of the activities this semester will be the initiation of several pledges into active membership within the next few weeks.

Latest reports from our members serving in the armed forces show Lieut. K. Kyle serving with the Army in Australia and Lieut. W. Friesell serving with the Navy Air Corps somewhere in the Pacific. Many of the fellows now attending school will be in some branch of the service upon completion of the Fall Semester.

Phi's new pledges this year so far are: Bill Heister and Art Mann, of Pinckneyville, Ill.; Max Austes, of Carthage, Mo.; and Billy Kanehl, of Lockport, N. Y. These men are all from the class of '46.

Dinner guests Sunday were Mrs. D. Kennedy and Miss Pat Kennedy, wife and daughter of Capt D. Kennedy, one of Phi's Advisory Council. Capt. D. Kennedy '26, is connected with the

Engineering Corps in Washington D. C.

Phi Chapter is going ahead with plans to stage an elaborate banquet in St. Louis the night of the Rolla-St. Louis University football game. Many alumni and all present members and pledges now going to school are going to attend the reunion.

SIGMA PI

Mr. and Mrs. R. P. Sullivan, of Poplar Bluff, were guests of the chapter last week end. Accompanying them was Jim's brother, Ensign Roy Sullivan of the Naval Air Corps.

The chapter was pleased to have Dr. Paul G. Herold, the chapter comptroller, as its dinner guest this past week.

Sigma Nu

The start of a new semester finds Gamma Xi preparing for another school year. Everyone has plenty of that "ole Miner spirit" and all are looking forward to a bigger and better year.

Gamma Xi is pleased to announce the pledging of the following fellows: Bill Lenox, Lake Springs, Missouri; Don Young, Dick Brust, Bill Goldwasser, and Gerald Driy, Webster Groves, Missouri; Warren Suckow, Springfield, Illinois; Bill Jones, Eldorado, Arkansas; Harold Dodge, Richmond Heights, Missouri; and Bill Meyers, Joplin, Missouri.

We regret to announce that Dave Lomasney of North Aulbaro, Mass., had to leave school to enter the army.

KAPPA ALPHA

Beta Alpha of Kappa Alpha takes pride in presenting the following men as pledges as the school year begins: Walter George, Jimmy Wilson, Donald Nelson, Joe George, Douglas Crow, Bart Yoder, Jim Stover, Woody McPheeters, Dick Schwab, Alf Olson, George Anderson, Bill Siegel, and Al Steinbeck. With the exception of Stover and Steinbeck, these boys are all freshmen and will make a valuable addition to our ranks.

Jim Hutchison, the "sleek Greek" from Drury who finally saw the light and came up to MSM, has also been added to our roll this semester.

With the week ends so inviting, many of the fellows elect to

go home, leaving, however, the old faithfuls at every dance. Even Ralph Elsea decided to stay in Rolla for a change.

The Navy is well represented at the K A house this year with Bob Schmidt, Jim Bock, Ted Hadley, and Al Steinbeck in V-7. Look out Japs!

KAPPA SIGMA

Beta-Chi of Kappa Sigma to announce the pledging of twenty-seven men for the fall term of 1942-43. This constitutes the largest pledge class in the history of the chapter and with the twenty-eight activities returning brings our chapter strength to fifty-five men.

Our pledges as in the past come from all parts of the country, representing eight states. We feel justly proud in presenting a list of their names and addresses. Bill Rule, Parsons, Kansas; Bob Bruns, St. Louis, Mo.; Pete Cozzi, Tulsa, Oklahoma; Chuck Wheeler, University City, Mo.; Earl Shanks, Carthage, Mo.; Warren Meyer, Chicago, Ill.; Jim Terrill, Belle, Mo.; Walter Shute, Ossining, New York; Don Smith, Rolla, Mo.; Elden Marquardt, Bloomington, Ill.; Marvin Englehart, Anna, Ill.; Charles Reed, Montgomery, Mo.; George Clark, St. Louis, Mo.; Bob Israel, Clayton, Mo.; Bob Bodine, University City, Mo.; Art Tapperson, Maplewood, Mo.; Pete Collieran, Massapequa Park, New York; Art Frentrup, St. Louis, Mo.; Don Koch, St. Louis, Mo.; Robert McDuff, Paduca, Kentucky; Calvin Duke, St. Louis, Mo.; Jim Albritten, St. Louis, Mo.; Jim Stone, St. Louis, Mo.; Harold Telthorst, St. Louis, Mo.; Robert Yochum, St. Louis, Mo.; George Burke, Morristown, New Jersey; Joe Jenkins, Maquoketaw, Iowa.

This coming Sunday, September 20 formal initiation will be held for Earl Shanks of Carthage, Mo. and Worth McCowan of St. Louis, Mo. Immediately following the initiation the chapter and alumni in town will have a steak fry in the rear of the chapter house. Alumni to be present include: District Grand Master, Norman Stupp; Lee Schumacher; Frank Kohlbray all of St. Louis, Mo.; Prof. F. H. Frame; Albert Long; Luman Long; Frank Hughes; Kenneth Aid; and Coach Gale Bullman all of Rolla, Mo.

JOHN MAZZONI

A guard with one letter and three good years of experience. "Mike" is a St. Louis boy who played high school football with Soldan for three years. He is a hard hitting lineman who knows the tricks and can execute them with the ability of an expert. Mike was a member of last year's championship team and received a well earned letter. This will be his final season of college football, therefore, great things are expected of him.

What women escape: Statisticians estimate that a man shaves twenty square miles of face during a lifetime.

Miners to Play Con. from page 1

As usual, Coach Bullman's starting eleven is a deep, dark secret, but following is a guess at the probable line-up.

Perkins orGuiney	L. E.
Hoby	L. T.
Mazzoni	L. G.
Captain Kurburtz	C.
Caine or Fulgrum	R. G.
Leone or Wood	R. T.
Hazelett	R. E.
Radcliffe	Q. B.
Dick, or Glover	L. H.
Stover or Miller	R. H.
Carafail	F. B.

The squad will leave here on Saturday morning by special bus. The same afternoon they will attend the Missouri U.-St. Louis U. game where they will be the honored guests of Don Faurot.

One of the patients coming "out from under" groaned, "Where on I?" as he felt loving hands making him comfortable. "Am I in Heaven?"

"No, Darling," whispered his wife, "I'm still with you." — Norfolk Dam Safety News.

The first little pig said to the second, "My, I never sausage heat," and the second replied, "Yes I'm nearly bacon."
