# THE MISSOURI MINER

Missouri School of  Mines & Metallurgy

VOLUME 29

WEDNESDAY, OCTOBER 21, 1942

NUMBER 11

## Labs To Remain Open To Visitors On Parents' Day

This Saturday the Missouri School of Mines will observe Parents-Engineers Day to better acquaint the parents and friends of the student body with the institution. To this effect a complete program of events has been prepared, in order to entertain the visitors during their day in Rolla.

From 8-9 a. m. there will be registration of the parents in the lobby of Parker Hall where every registrant will be given a program outlining the work of the departments to be visited on the campus. The Blue Key and Alpha Phi Omega service fraternities have selected student guides who will conduct groups of visitors to the various departments. The laboratories will be open for inspection and all the departments have arranged special exhibits of interest.

During the noon hour the parents will be served dinner at the fraternities or eating clubs to which their sons belong.

The MSM vs Warrensburg football game at 2 o'clock is one of the main features on the program. This game is the Miners second MIAA clash of the season.

In the evening the annual Parents Engineers Day Banquet will be held at the Hotel Edwin Long, where Dr. Oscar C. Johnson, pastor of the Third Baptist Church of St. Louis, will give the main talk. Dean Curtis L. Wilson and members of the faculty will also be present.

## M Club Completes Plans For Dance

The "M" Club of the Missouri School of Mines will sponsor its third annual dance on Saturday evening, October 24. This will be in connection with Engineers-Parents Day which is also on Saturday.

The dance will be held in Jackling Gym. Dancing will start promptly at 9 o'clock; the music will be furnished by the Varsity Orchestra.

The members on the committee in charge of the dance, have been putting an all out effort in order to make this a most successful affair. Judging from past "M" Club dances this one promises to be one of the best on the campus this year.

Tickets may be purchased from any member of the "M" Club at a pre-sale price of 75c. The price at the gate will be \$1.00. These prices include all taxes.

Don't forget the date, Saturday, October 24; the place, Jackling Gym; and the time, 9 p. m.

## Bataan Survivor To Speak At General Lecture

Col. Carlos P. Romulo

Colonel Carlos P. Romulo of the Philippine Army, who fought side by side with General MacArthur as his aide de camp and friend and who was the last man to leave Bataan before the surrender of that territory to the Japanese Army, will speak here on Monday night, October 26, under the auspices of the General Lecture committee. His subject will be "The Last Man Off Bataan."

In his lecture here, Colonel Romulo will describe from the inside and as a participant, the fighting in the Philippines. He will tell, too, how the Filipino guerrillas are still fighting in the islands today and of President Manuel L. Guezon of the Philippines, who lived for days in the tunnel at Corregidor and then, weakened and ill, went on to Australia and America.

Colonel Romulo's escape from Bataan in a decrepit old plane that had literally been fished from the bay and his flight to Mindanao and from there to Australia to join MacArthur is one of the most exciting stories to come out of the war in the Pacific. He was the last man to get away from the islands before the surrender of the American and Filipino forces, and his low flying plane was shot at time after time by the Japanese anti-aircraft guns. He escaped Mindanao only a scant two hours before the arrival of the Japanese on that island.

It is not his own story which Colonel Romulo wishes to tell, but the story of the American and Filipino soldiers who died on Bataan and on Corregidor. As their comrade in arms, he was exposed to the same dangers and privations, and describes in his lecture their courage and heroism against insuperable odds.

Colonel Romulo was born in the Philippines, and educated at the

## Civil Service Men Interview At MSM

Dr. Carl R. Hall, Civil Service representative of the 9th Region, and two assistants, came the School of Mines on Tuesday of this week to seek applications for the service.

The purpose of their being here is to obtain Civil Service recruits for engineering and science service.

The method of interviewing used by the Commission is as follows: the board takes 6 or 8 students at a time and explains the Civil Service to them. They stress the opportunities of their becoming officers. When this interview is completed the students are given applications which they may fill out if they wish to do so.

In a letter to the school Dr. Hall stated the Civil service Commission is interested in physicists, chemists, and geologists, both male and female. A considerable number of jobs are open for men who are interested in the Civil Service Commission.

## Mets Return From Senior Trip

The Metal Congress at Cleveland, Ohio, was the objective of the Senior Metallurgists of MSM on their annual Senior trip. Twenty-one seniors accompanied by Professors Clayton and Walsh made the trip to the convention, which lasted from October 11 to 16.

The Metal Congress was under the direct supervision of the American Society for Metals and the United States Ordnance Department, the latter being responsible for the convention. Other technical organizations affiliated with the A. I. M. E. are: the American Welding Society, the American Foundrymen's Association, and the American Wire Association.

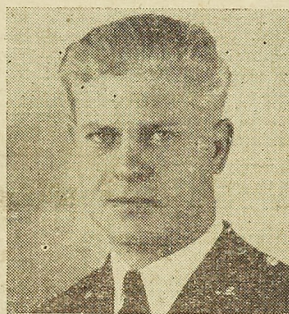

The Seniors were required to attend a five lecture series on tool steels, a lecture on magnesium and aluminum in modern industry, and a lecture on improvements in metal fabrication. Other addresses attended were: address by Rear Adm. Clarke Howell Woodward of the Navy who stressed the importance of the industrialists on the home front; an address by Nathan Lester, President of Lester Engineering Co., Cleveland; and an address by Col. Glen F. Jenks and David Arnott of the Ordnance Department.

The Metal Show at the Auditorium in Cleveland was attended and points of interest in Cleveland were also visited. All in all the trip included little pleasure but was very instructive to the Mets.

Professor Walsh remarked after returning that the boys and himself were impressed with the speed that modern war industry

(Continued on Page 4)

## Cadet Officers Chosen For School of Mines R.O.T.C.

Cadet Col. Coolidge

## Coolidge Named Cadet Colonel

Appointments of the cadet officers in the Missouri School of Mines regiment (Senior Division, Engineer, R. O. T. C. unit) were made known today by Col. Fred W. Herman, Professor of Military Science and Tactics at the Missouri School of Mines and Metallurgy.

The appointments made were only for the senior students taking military training and become effective on October 28, 1942. Following is a list of the cadet officers with their rank and duties:

### REGIMENTAL COMMAND AND STAFF

Regimental Commander: Cadet Colonel D. J. Coolidge  
Regimental Adjutant: Cadet Captain B. R. Landis  
Regimental Supply Officer: Cadet Captain W. R. Anderson  
Regimental Staff: Cadet 2nd Lt. I. L. Perkins, and Cadet 2nd Lt. C. S. Martin.

### BATTALIONS COMMANDS AND STAFFS

First Battalion  
Battalion Commander: Cadet Major S. Stueck  
Battalion Adjutant: Cadet 1st Lt. J. P. Berndt  
Second Battalion  
Battalion Commander: Cadet Major S. Heneghan  
Battalion Adjutant: Cadet 1st Lt. H. L. Magee

### COMPANY HEADQUARTERS

Company A  
Company Commander: Cadet Capt. R. C. Andrews  
Company Executive Officer: Cadet 1st Lt. E. H. Barnett  
Platoon Leader 1st Platoon: Cadet 2nd Lt. J. W. Griffiths  
Platoon Leader 2nd Platoon: Cadet 2nd Lt. J. C. Schilling.

### Company B

Company Commander: Cadet Capt. R. L. Kackley  
Company Executive Officer: Cadet 1st Lt. F. C. Rehfeld  
Platoon Leader 1st Platoon: Cadet 2nd Lt. K. H. Mooney  
Platoon Leader 2nd Platoon: Cadet 2nd Lt. E. L. Key

### Company C

Company Commander: Cadet Capt. J. A. Reed  
Company Executive Officer: Cadet 1st Lt. G. G. Skitek  
Platoon Leader 1st Platoon: Cadet 2nd Lt. E. T. Ruhle  
Platoon Leader 2nd Platoon: Cadet 2nd Lt. J. L. Shafer

### Company D

Company Commander: Cadet Capt. J. A. Requarth  
Company Executive Officer: Cadet 1st Lt. A. L. Peterson

(Continued on Page 4)

## Seible Speaks At AIEE Meeting

At the meeting of the AIEE Friday morning, Robert C. Seible, of the Caterpillar Tractor Company and a graduate of MSM in 1938, addressed the members about his experiences with Caterpillar Co.

Mr. Seible's talk was principally about the electrical equipment in the laboratories of the Caterpillar Co. At the beginning of his employment with the company, he had to work in all the departments for a period of training. He was then in the engineering office working on specification for diesel-electric sets being developed by the company. His work included experiments with generators, mainly of alternating current types, and with marine work generators, generators put into parallel operation 180 degree out of phase, and with fans for cooling various types of generators.

Mr. Seible told also about his work with sound level meters and the stroboglow for studying stresses by apparent stopping of the motion of a mechanical parts.

In describing Caterpillar Tractor as a whole, he said that the company employs electrical engineers for sales work as well as research work. He revealed that in 1939, the production of tractors reached 40 per day.

## Alaska Troops Kept Informed on Home News

The Office of War information will broadcast a minimum of eight hours daily of news and entertainment to the armed forces in Alaska to keep them in touch with the Home Front. Beginning about Oct. 1, the programs will be piped from San Francisco to radio stations at Fairbanks, Juneau, Ketchikan and Anchorage and re-broadcast on medium waves.

## THE MISSOURI MINER

The MISSOURI MINER is the official publication of the Students of the Missouri School of Mines and Metallurgy, financed and managed by the students. It is published every Wednesday during the summer term and every Wednesday and Saturday throughout the spring and fall terms.

## Technical Bulletin Tells Of Work Of MSM Ceramists

The latest technical bulletin of the school of Mines, issued recently, features the work carried out in the Ceramic Department on insulating refractories by Dr. P. G. Herold, Leonard Stearns and W. J. Smothers.

The permeability of insulating refractories is very important because at high temperatures a considerable amount of heat can be lost if improper refractories are used, due to passage of hot gases from the furnace through the pores of the refractory to the outside. Not much research has been done on this property in the Ceramic field.

Permeability determinations were made on many samples submitted by all manufacturers of insulating refractories. Since this property is not so quickly determined, correlation was made between this and the bulk density which may be quickly and easily determined.

On the basis of this correlation, industry may easily test the refractories to be used in building furnaces, kilns and boilers to obtain maximum efficiency.

## Oil Well Cuttings Received By The Geology Dept.

During the past month the department of geology received a substantial addition to its collection of oil well cuttings from Mr. Kurt H. DeCousser (MSM '22). The recent shipment from Mr. DeCousser contained samples from 15 wells in the Michigan basin and augments the already impressive collection donated by him during previous years from about 50 wells scattered through 16 counties in the State of Michigan.

Each suite of well cuttings has on the average 400 separate samples in small glass vials. Each vial contains the rock sample for each five foot penetration by the drill bit. In all Mr. DeCousser has made about 20,000 samples available to the department of geology for teaching purposes in petroleum geology.

Mr. DeCousser's activities as a geologist have permitted him to examine the cuttings and interpret the geology on most of the important wells drilled in Michigan. As a result, he has selected the best and most typical suites of samples and forwarded them to MSM after they were of no further use to his company.

Microscopic examination of these samples by the trained petroleum geologist enables him to interpret the kind of rock through which the drill penetrates. Examination of several wells gives a fairly clear picture of the rock sequence below the surface of the ground. This type of training is obtained in the petroleum geology laboratory course and Mr. DeCousser's generous contributions actually form the nucleus of the well log studies at MSM.

"I'm a fast woman" shouted the elderly matron as she tried to rise from the gluesmeared bench.

Prof: "Gentlemen, I am dismissing you ten minutes early today. Please go out quietly so as not to wake the other classes."

The game of love is paradoxical inasmuch as it is amusing until played for money.

## As a MINER Sees it

Hats off to Ed Eisman, Harry Sloan, and that "King of the Beer Bust" Requarth for the pains they took in instructing those chorus cuties in the history and layout of the campus. Fine showing of school spirit boys; they even took the gals up to the roof of the gym at 3 a. m. for a better view of the campus.

Sincere congratulations to Jim Nevins, Class of '42. Reverend Hunter sure had a field day, what with giving away his daughter performing the ceremony, and taking movies of the affair. . . . Congratulations also to "Boss" Kasten on pinning Dotty Muilenberg. The old GP's ought to start rolling in again, eh "Kass"?

The Sigma Nu dance was unusually dry for the Varsity Caphonists; not so on Saturday night when they turned out to growl at the new rival group of noise makers that made with the music at the Theta Kap dance. . . . Dan Stocker suffered from an upset stomach at the Theta Kap brawl; after abstaining for two years, too. That sort of stuff may be all right for Frosh like Jim Sage, who pitched his cookies all over the Club Peanut that same night, but a Junior bottle-washer like you, Dan, should be able to control his denatured . . .

The Tech Club men were out there pitching for their Buddy, Bill Hoffman, at the Peanut, Saturday. Pete Bolonovitch had a date with Bill's June, who works down at Bone's "Ptomaine Domain," and a whole slew of Tech Clubbers, including Cueto, Gus Ginzberg, "Little Ceaser" Monte, "Minnie" Gilliland and others, ganged up on Pete and June. Pete gave up his futile attempt to beat off the wolves, and "100 men and a girl" all had a swell time (all except Pete).

We hear that "Sharpie" Peterson has adopted "Ah Dreamt That Ah Dwealt In Harlem" for a theme song.

## JOKES

WHY FRESHMAN FLUNK  
Prof. in Engineering Class:  
"What is a dry dock?"  
Frosh: "A physician who won't give us prescriptions."

"A quart of champagne, says I, has launched many a gal on the Sea of Matrimony."

One of them was the town belle. Yeh, her family gave her enough rope and she rang a million-aires.

It is written in the Temple of Ataboy that many a man has gone through Hell for a flame.

"I must confess, honey, I married you for your money."  
"That's okay, baby. I married you for a fancy figure."

Nowadays mother's little pet is known as mother's little petter.

A puncture in the baby's bloomers is worse than two in the auto tire.

Many a bathing girl has gotten into deep water.

## With the ALUMNI

Elbridge A. Goodhue, ex-'44, son of Professor Goodhue of the Department of Mathematics, is now taking pilot training at Scott Field, Illinois.

He was drafted in Decatur, Illinois, where he worked in an ordnance plant during the summer months. About two weeks ago he received his notice to report to the induction center at Decatur from where he was sent to Scott Field.

At M. S. M., Elbridge played the trumpet in the R. O. T. C. Band. Previous to his induction, without appeal, he had been in both the R. O. T. C. and C. M. T. C. for two years.

Woodrow L. Burgess, graduate Geologist, Class of '40, who this summer married Ruth Ann Beckman of Rolla, is now working at the Norfolk Dam near Mountain, Home Ark. He is employed by the U. S. Army Engineer Corps under a Civil Service rating of Junior Geologist.

At present he is an inspector of the grouting and foundation phases of construction at the huge hydro-electric project being built twelve miles from Mountain Home.

Previously, he had done similar work at the Clear-water Dam

located near Piedmont, Missouri.

James R. Nevin, Jr., graduate Chemical Engineer, class of '42, who just recently married Miss Ruth Hunter of Rolla, Mo. is now working at the North American Aviation Corp. of Kansas City, Kansas.

John W. Nevin, graduate Metallurgist, class of '42, was in Rolla recently to act as best-man at his brother James' wedding. John is at present working as a metallurgist at the Small Arms Plant in St. Louis, Mo.

James R. Nevin, Sr., graduate Mining Engineer, class of 1917 is now convalescing at the Edward Hines Hospital in Hines, Illinois. He is the father of M. S. M. graduates James R. Jr. and John W., and Junior Mechanical, Frederick Nevin.

At M. S. M., just twenty-five years ago, James, Sr. (nick-named 'Ollie' then) was captain of the basketball team, and a star at football.

Previous to his illness he was plant superintendent at the Elwood Ordnance Plant in Elwood, Illinois.

Co: Do you like nuts?  
Ed: Is this a proposal?

WAAC: Colonel, where do we eat?

Colonel: why, you girls mess with the officers, of course.

WAAC: We knew that, — but where do we eat?

# Maryville Teachers Down Miners In Rough Game

## Both Scores Made Passing Attack

The "Fighting Miners" lost their first conference tilt of the season to Maryville last Friday at a score of 22-to-13. Much to our disadvantage, the contest held at Maryville. It seemed throughout the entire contest the breaks could not fall our way through no fault of our own. It was the second victory of the season for Maryville and the second straight defeat for the Miners.

In the first quarter of the game, a serious attempt was made by our team. However, in the second quarter, both Maryville and the Miners exhibited strong offenses. Maryville was the first to score as a result of a fumble by K. Boetjer. The Miners, however, came back in the same quarter to score on a beautiful pass from Al Dick to Ira Perkins. Then a result of another fumble in our own territory, Maryville took possession of the ball and drove down the field for another victory. The score at the end of half was Maryville 13, Miners 0.

Early in the third period, the Maryville eleven opened up with an aerial attack which netted them another touchdown. Pedilla, Maryville's candidate for All-MIAA fullback, heaved a long fifty yard pass which was completed. The attempt for the extra point was good. Then the Miners came to life again and advanced the ball deep into Maryville territory. From here we scored our second and final touchdown. Taking the ball from center, Al Dick faded back and tossed a bullet pass to Charles Counts, who with three Maryville men covering him, made a sensational running catch in the end zone.

Throughout the fourth quarter, the battle was nip and tuck. Then in the waning minutes of the contest, Pedilla made a sensational coffin-corner punt of 70 yards which went out of bounds on our own 5 yards line. Radcliffe's attempted kick out of the end zone was blocked and Maryville recovered for a safety.

By far the outstanding athlete of last Friday night's game was Al Dick, a junior, who is playing his third year of football at M. S. M. His accurate passing, which gave the Miners their only two touchdowns of the contest, supplemented his brilliant defensive play. Captain Kiburtz played his usual bang-up game at center, accounting for more than his share of tackles. The performance of a newcomer to the Miners squad, Freshman Englehart, was also noteworthy.

The game was marred by an unusual number of serious injuries, all of which were suffered by the Maryville men. A broken nose, a broken leg, and a fractured vertebra clearly indicate that the game was rough.

The age old Miner weakness, poor pass defense, still predominates. Something must be done before Saturday's game with Warrensburg. The students as well as the players are hungry for a victory. Let's try to correct this glaring weakness and insure a victory over Warrensburg.

Pappy says a lazy man is a guy who marries a widow with five children.

Overheard the other night — She: "Swell party tonight." Fonda: "Yes, I'd ask you for the next dance, but all the cars are taken."

Cop (bawling out Roy MacDonald): "Don't you know what I mean when I hold up my hand?" Mac: "I ought to. I was a school teacher for 10 years."

Advertisement: "You get the girls, we'll do the rest." Youthful groom: "That's hardly fair."

"I've just taken a shine to your wife," said the stork to the negro when leaving the house.

Which brings on this one—Visitor: "Why, Eliza, why are you naming the baby 'Morphine'?"

Eliza: "Well, honey, de doctor done tole me Morphine am de wild poppy, an' if ever a child had a wild Poppy, dis am him."

It Pays to Advertise ! !

## Around The MIAA

The outlook for the Miners in the MIAA conference at present doesn't look too encouraging. There will have to be no lagging this season on the part of the Miners if they expect to retain their conference title, for the outcome of the MIAA games Saturday showed the opposition is tougher than it was supposed to be.

It was a successful homecoming for Maryville especially when it gained a victory over the Miners, 22-to-13, giving Maryville a good start in the title race and eliminating their most formidable obstacle in their title dash. Maryville showed considerable strength in overpowering the Miners, gaining large yardages on a well coordinated ground attack. Taking advantage of the numerous Miner fumbles and capitalizing on a blocked punt in the Miners end zone, Maryville succeeded in doing up their homecoming game in good order. The greatest single threat that Maryville had to contend with from the Miners was the accurate passing arm of Al Dick. It was on bullseye passes from Al Dick to Charley Counts and Ira Perkins that tallied points for the Miners.

The Cape Girardeau Teachers won their first game in the MIAA Conference by walking to a 27-0 victory over the Warrensburg Mules. The attack was paced by the accurate place kicking of Marty Martoglio. Cape led Warrensburg by three touchdowns in the first quarter and waited for the second stringers to score again in the fourth period. Warrensburg's ground attack failed to give them any yards so they resorted to the air for the gains they did make.

This coming week end finds Maryville meeting the STC Bears, who were idle last week in the Conference. The outlook for an STC victory over Maryville is slight for two reasons, first is that Maryville is now the number one team in the Conference, and second, STC is now suffering its longest losing streak of many years with four straight losses. However, on the record, Springfield shouldn't be too much of an underdog against Maryville—but Coach Blair is still a little optimistic about the outcome.

The other half of the Conference doings will be the game between the Miners and Warrensburg this Saturday. From all indications shown by these two teams in their Conference games last week, it should turn out to be a pretty even ball game, with the Miners gaining the upper edge if there is any at all. The Miners have a team that has great possibilities, but as yet has not developed or proven to the satisfaction of all concerned that they are going to walk over their Conference opponents. Warrensburg has been given an even chance of finishing in the cellar this year since Kirksville has dropped from MIAA competition. In the past they have always provided the Miners with some tough opposition. Last year they succeeded in tying the Miners 0-0, a game which if the Miners could have won would have given them undisputed possession of the title. So, from all angles, it looks like this Saturdays game will be a pretty even affair with the team making the best advantage of its breaks winning the game.

Suggested motto for recruiting "Join the Navy and ride the Waves."

## INTRAMURAL Sports

By MORRIS SEIVERT

Competition in the consolation division in touch football has held much interest in the past few days as the season draws near its end, and we find just four teams remaining in the brackets.

Thus far Kappa Sig rides the top of the heap, being as yet undefeated, while the Seniors, Pi Kappa Alpha and Sigma Nu, each once defeated, are left to compete in deciding which shall play Kappa Sig for the championship. Sigma Nu will engage Pi K. A. on Tuesday evening and the winner will have the opportunity to play the Seniors on Wednesday. The winner of this battle is "Consolation Champ"; and they are, in turn, given an opportunity to win the title by defeating Kappa Sig in two straight games. However, if Kappa Sig can win once more the championship is theirs.

In order to gain the position they now hold, Sigma Nu defeated the Juniors 8-7 and the Theta Kaps 30-13. In each of these contests it was again the passing of Jack Faser and the sticky fingers of "Stretch" Meyer that figured prominently in the victories.

Pi K. A. rose to their position in the playoffs by defeating Triangle by a score of 18-13 and then rolling over Kappa Alpha 27-0. The game with the Triangle was one of the most thrilling contests of the season. Both teams played a fine game and the outcome was not certain until the final whistle. Pi K. A. had little trouble with K. A. as the score betrays.

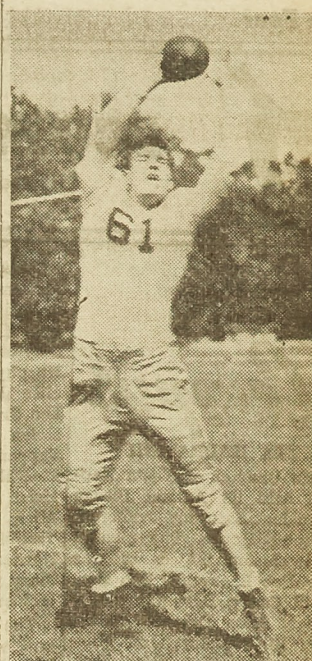

"These short skirts are rather bewildering." "Yes, It isn't safe any more to offer to take what you think is a little girl on your lap."

I hear he drinks something awful.

Yeah, I tasted it.

What sort of a part does Bill take in the play?

A very emotional part. In the last act he has to refuse a drink.

John Hazelett

John Hazelett, a sophomore from St. Louis, is playing his second year as reserve end. He has seen action in the games this year. He is big, lacking in coordination, but has demonstrated pass snatching ability.

## THETA KAPPA PHI

The Mu Chapter of Theta Kappa Phi held its Annual Pledge Dance on last Saturday evening at the Chapter House. The pledges in whose honor the dance was held are Bob Baerveldt, Bob Barmeir, Bill Casey, Dave Clark, Joe Dosenbach, John Driscoll, Bernie Duffner, Bill Kealey, Jim Huechan, Jim Hoelscher, Glen Jost, Leo Kaempf, Bob Knittel, Jack Leahy, Don Volkmer, Leroy Markway, Walter Mathews, Jim McGrath, Bob Meiners, Ted Olenburg, Joe Strubert, Joe Sullentrop and Alberto Olivaras.

The dance was notably successful thanks to the Intermission Party at the home of Mr. and Mrs. O. I. Rauch.

The out-of-town dates were Miss Dorothy Kimberlin of Richmond

Heights, Mo., Miss Mary Ellen Christman of Webster Groves, Mo., Miss Joan Rozier of Ferguson, Mo., Miss Mary Dowling of Clayton, Mo., Miss Rose Mary Murphy of University City, Mo., Miss Jane Durham, Miss Mary Lee Gratz, Miss Betty Baker, Miss Helen Rogers and Miss Claudine Sappenfield all of Jefferson City, Mo., Miss Anna Marie Jacha, Miss Helen Bauer, Miss Regina Ryan, Miss Marjorie Prevallet, Miss Virginia Stellah, Miss Grace Noonan, Miss Pat Aleander, Miss Mary Kay Lane and Miss Marie Meiners all of St. Louis, Mo.

The Rolla dates who were present were Mary Kathryn Donahue, Betty Marlowe, Jean Stair, Eunice Mitchell, Margie Boulware, Arylene Thomas and Arylene Comstock.

Brother Joe Dusza, '40, former president of Mu Chapter now employed by the Harbison-Walker Refractories Co. of East Chicago, Indiana, Brother George Ditenhafer ex-'41, and John Schwaig '41, both of St. Louis, were in Rolla for the Pledge Dance. Others present at the dance were Joe Zundel of St. Louis, Mo., and Charles Natsch of Jefferson City, Mo.

The chaperones for the dance were Dr. and Mrs. Day and Mr. and Mrs. O. I. Rauch.

Brother Bill Mathews, ex-'42, now a Lieutenant in the Naval Air Corp visited the Chapter House on Monday. Lieut Mathews has been stationed at Corpus Christi, Texas, where he is as Flying Instructor.

Brothers Hoby, Gregory, and Pracht returned from the Senior Trip of the Metallurgy Department in Cleveland, Ohio, on Sunday afternoon. All were tired but had somehow found Cleveland a very nice place.

Johannes, and Bob Underhill along with Pledges Johnny Cox and Raulin Wight were guests at the Mid-Fall Formal at Stephens College in Columbia. Pledges Don Fink, Norton Lester, and Ronald Emo spent the week-end in St. Louis.

is attaining without loss of efficiency. He also remarked that the steel industry is producing one hundred and two percent of its theoretical capacity.

Due to transportation difficulties caused by the war, this is probably the last Senior trip for the duration.

## GENERAL LECTURES

(Continued from Page 1)  
University of the Philippines and at Columbia University. He holds an honorary LL. B. degree from Notre Dame University. Until the Japanese invasion, he was the Editor and Publisher of the DM-HM newspapers and was managing director of two radio stations. He was an outstanding figure in the social, intellectual and political life of the islands. When the war broke out in the Pacific, he had just returned from a tour through China, Burma, Thailand, French Indo-China, British Malaya and the Dutch East Indies. He had written a series of articles on his observations and experiences on this tour, predicting that war in the Pacific was imminent, and exposing fifth column activities in the countries he visited. These articles have since won for him the Pulitzer Prize for the best interpretative correspondence of 1942, the first time this coveted journalistic award has ever gone outside continental America.

The lecture, which is the first on the General Lectures series this season, will be given in the auditorium of Parker Hall Monday night and will begin at 7:30 p. m. Admission to students is by activity card. Student dates and faculty members will be admitted for \$.25, while admission for others will be \$.50.

Mary had a little lamb,  
They loved to run and frisk.  
Now wasn't she a foolish girl  
Her little \*.

Then there's the one about the absent minded professor who kissed the train goodbye and then jumped on his wife and went to town.

Only two thoughts will keep a cad awake after a date—why he didn't try to.

And Sally Rand was once heard saying, "The zipper broke and I couldn't get my dress off . . . I was never so embarrassed in my life."

And there was the Scotch girl who was expecting her first born. She moved out to the country to take advantage of rural free delivery.

Most fellows never come to life until their engines go dead.

## Cadet Officers

Platoon Leader 1st Platoon:

Cadet 2nd Lt. F. R. McKnight

Platoon Leader 2nd Platoon:

2nd Lt. F. L. McCutchen

Some girls I know are just like snowflakes, They're soft and white, but, gee, cold as ice!"

Some husbands are like bell bottoms. They only work when you push them.

But, then, everything would be all right, if gals could only remember to keep to the rite on the Matrimonial Road.

## TRIANGLE

At this writing many of our wandering brothers have returned from parts unknown to continue their education once more. The house is happy to welcome Pledge Larry Jamboretz back once more. Larry has just recovered from an appendicitis operation. Pledge Jamboretz, together with the pledging of Lester Fields, Bob Vogt and Cliff Damerson brings our total of pledges to 19, after a recent decree which may be attributed to last week's initiation. Lester, Bob, and Cliff are all from St. Louis high school where they participated in varsity athletics. Lester and Bob are from Beaumont High and Cliff is from Southwest High School.

Captain and Mrs. Hoean, Missouri Mines '32, and their daughter, Betty, were dinner guests at the Chapter House this past Sunday. Also present as guests were Miss Louise Barnes, Shirley Livingston, Bill Rodger and Warren Sukow, all of Springfield, Ill. Brothers Jim Carroll and Lew Rosser returned from their senior trip to Cleveland, Ohio, where they attended the Missouri School of Mines Alumni Banquet at the present at the National Metals Exposition.

During the past week-end Brothers Don Coolidge, Gent

"How about a Coke date?"

Drink Coca-Cola  
Delicious and Refreshing

5¢

"We've been 'goin' steady' a long time, you and I. You see, I'm a symbol of the life and sparkle of Coca-Cola. Therefore, I speak for Coke. I like your company. I offer something more than a thirst-quenching drink. It's refreshing. Yes sirc...it's got that extra something you can't get this side of Coca-Cola itself. Let's get together. Make it a Coke date."
