NUMBER 17

Chinese Scholar To Lecture Here

Dr. No-Yong Park, who is recognized as an outstanding authority on Far Eastern affairs, will lecture here next Tuesday night in Parker Hall. His lecture will be the third and final one which deal with the global

Dr. No-Yong Park

var situation, the others having been on the Philippines and Germany and his on China.

Dr. Park is a resident of Manchuria who had his early education there and who received a Master of Arts at the University of Minnesota and a Doctorate from Harvard. Since his college days, he had resided in America but has made a trip every two years to China and other Far Eastern countries where he has intelligently observed social and political trends. He is an outstanding authority now on the situation in the Far East.

He is the author of several books, including the "Retreat of the West", which called the turn on practically every development and event of importance in the Far East and "Chinaman's Dance", which is an autobiography.

He speaks forcefully and with good command of English, and his talks are enlivened by a fine sense of humor. His talk will be "The Struggle in the Pacific" or "How to Lick the Japs." A forum or discussion period will follow the former lecture.

The program will begin at 8 p. m. and admission to students will be by activity card. Admission to faculty members and student dates will be, as usual, 25c and to the general public, 50c.

She: If wishes came true, what would you wish for?
He: Gosh, I'm afraid to tell you.
She: Go ahead, you sap. What do you think I brought up this wishing business for?

Homecoming Ball, Cape Miner Clash To Highlight Saturday's Celebration

With the football season in full swing, it is natural for everyone to be thinking of Homecoming around the college campus. The word "homecoming" effects everyone differently; however, the excitement aroused by it is universal.

To some it is the time for fall festivities to be in full sway. A time of sharp winds blowing autumn leaves across the paths and the chrysanthemums blooming in all their splendor. To others it is a football game which is all important to the home team. The game that can win or lose the conference race as is the case of the Miners.

But the longest and most cherished memory of Homecoming is the Homecoming Ball held in the college gym the evening of the game. Here old friends renew almost forgotten friendships. Graduates see Profs. and fellow underclassmen whom they

haven't seen in the past year. This is the part of Homecoming that is remembered.

So here at the Missouri School of Mines, we have our Homecomings, and Homecoming Balls each year in the Jackling Gym. These dances are sponsored by the Alumni Association and the St. Pat's Board, and in the past year have left their impression on our memories.

To help make this year's Homecoming a complete success, the Interfraternity Council is sponsoring an interfraternity sing in Parker Hall at 7:30 p. m. The fraternity whose presentation is the best will be awarded a gold plaque.

Following the sing, the Ball will start at 10:00 p. m. Admission to this dance is \$1.00 pre sale and \$1.25 at the gate. Tickets may be obtained from any St. Pat's Board member from now until the night of the dance.

Interfrat Sing Saturday Night

The Interfraternity Council will present the first annual Interfraternity Sing on Saturday, November 14. The program will be presented in the auditorium from 7:30 until 10:00 before the Homecoming Ball. Everyone is invited to come and bring their dates. Admission will be by activity card or 25c.

Each participating fraternity will present a glee club consisting of not more than sixteen men. These glee clubs will each present two songs one of which will be a fraternity song and the other will be any song of their choice. The judges will be: Rev. and Mrs. H. P. Hunter, Mr. John Scott, Mrs. I. H. Lovett and Mrs. C. H. Black.

The order and songs to be presented by each fraternity are: Triangle, "Triangle Love Song", "Street Urchins Melody", Kappa Alpha, "A Medley of Patriotic Songs", "The Kappa Alpha Rose", and Pi Kappa Alpha, "Pals of the Garnett and Gold" and "Girl Of My Dreams"; Lambda Chi Alpha, "Alpha Delta Zeta" and "Stout Hearted Men"; Theta Kappa Phi, "Brothers of Theta Kappa Phi" and "The Song of the Vagabonds"; Kappa Sigma, "Kappa Sigma Dream Girl," and "Vive L. Amour"; Sigma Pi, "Men of Sigma Pi" and "When Day Is Done," and Sigma Nu, "White Star of Sigma Nu" and "Sleep Kentucky Babes."

Senior: This letter says my dashshund died.
Roomie: Too bad, what happened?
Senior: He met his end going around a tree.

Ken Mooney Weds Virginia Guithues

Kenneth H. Mooney, senior ceramic student at Missouri School of Mines, was married to the former Virginia Guithues of St. Louis on November 7, at 6:00 p. m. The ceremony was performed at the Bethany Evangelical Church in St. Louis.

The groom's half-brother, Mr. Quentin Wood of St. Louis, was best man; Rene Rasmussen and Emer Aschemeyer, both MSM seniors, were groomsmen and usher, respectively. Miss La Verne Sherman of St. Louis was maid of honor.

Mrs. Mooney is a graduate of Beaumont High School, St. Louis, and a member of Phi Kappa Alpha Sorority. She was Maid of Honor to St. Pat from the Kappa Sigma fraternity in 1942. Mr. Mooney is a member of Kappa Sigma fraternity and is active on the MSM campus.

Photo Club Hears Address By Landis

Bruce Landis, president of the Photo Club, gave an illustrated lecture on the technique of miniature camera photography at a meeting of that club on last Friday night. The various methods of handling the small cameras and of getting action shots and the type of development necessary to get the best results from the use of fine grained negatives were explained.

The Annual Photographic Competition which is sponsored by the Photo Club for this semester have been announced and the rules governing the competition are as follows:

1. The contest is open to all regularly enrolled students of MSM for the fall semester 1942-1943.
2. Any number of entries may be made, but they must be in the hands of the judges not later than midnight, December 1st.
3. Prints may be either 5in. x 7in. or 8 in. x 10 in. and must be mounted on 16in.x20in. mounting board.
4. Prints may be turned into any of the officers of the MSM Photo Club or they may be left with the librarian in Parker Hall.
5. Any subject desired by the entrant may be chosen, but the prints must be of such a nature that they can be placed on exhibition on the bulletin board of the Photo Club in Parker Hall.
6. Prints must not be colored or tinted, but they may be toned if so desired.
7. The exhibitor's name must appear on the front of the mounting just under the print and in the lower right corner.
8. The judging will be done by a committee composed of members of the faculty and chosen by the officers of the Photo Club.

St. Louis Section AIME Here For Student Meeting

The St. Louis Section of the AIME and the Women's Auxiliary to the St. Louis Section were in Rolla on Saturday for a meeting of the student associates of the two chapters within the Section, the Missouri School of Mines Chapter and the Washington University Chapter. The meeting began at 1:45 with registration of the visitors in Parker Hall. This was followed by an informal tour of the campus and the school's laboratories. Dean Wilson welcomed the meeting and opened the technical sessions at 2:30.

The subject of the technical sessions was the manganese and bauxite deposits of Arkansas. The principal manganese and bauxite producing areas of Arkansas are confined into a relatively small area. These metals are now very necessary for the war effort.

The Women's Auxiliary to the St. Louis Section joined the Section in a dinner at the Pennant Restaurant. Dr. Isaac Lippincott, Professor of Economics Resources, Washington University, spoke on the subject of "What Have Post-War Conditions to Offer?" Dr. Lippincott expressed the opinion that we have nothing to worry about in regard to a depression in the post-war period because we did not have any depression in the last post-war period. He urged that people face the future with optimism.

Dean W. E. McCourt, Assistant Chancellor, Washington University, presided at the dinner as toastmaster.

The program ended at such a time that the visiting members of AIME could leave for St. Louis on the 9:45 train.

Ellison Is Father Of 7-Pound Boy

A seven pound ten ounce baby boy named Samuel David was born to Dr. and Mrs. Samuel Ellison on Saturday, November 7, 1942. Mrs. Ellison and the baby are in St. Luke's hospital in St. Louis and are doing nicely.

"Doc" Ellison, geology department professor, presented the traditional cigars to his classes on Monday.

A. I. CH. E.

The student chapter of the A. I. Ch. E. will have a regular meeting Wednesday evening at 7:00 p. m. in the old chemistry building. Mailand Strunk, graduate assistant in the chemistry department will speak on the production of titanium pigments. Anyone who is interested is invited to attend this meeting.

THE MISSOURI MINER

The MISSOURI MINER is the official publication of the Students of the Missouri School of Mines and Metallurgy, financed and managed by the students. It is published every Wednesday during the summer term and every Wednesday and Saturday throughout the spring and fall terms.

Devil Dog Miner Writes Dr. Mann

The following letter was received from a former student of this school by Dr. Mann of the Drawing Department:

Dr. C. V. Mann,
Rolla, Missouri,
Dear Sir:

Last night an interesting coincidence happened. I was asked to draw a sketch of a plan of the area in which I am encamped. While I was doing this I thought of my descriptive geometry professor. So here I am, not much, but a real Devil Dog.

They call us "Devil Dogs" but our real name is Marine. We are trained at San Diego, the land that God forgot. Where the sand is 16 inches deep and the sun is scorching hot. Yes, the world would be surprised with what we have to go through. It is incredible. A person would be inclined to doubt a man's word unless he spent a few days with us in our rigorous training.

The main thing is: Tell your students that descriptive geometry is a very practicable, in fact in military circles it is the basis of everything. I use it every day, and so do the thou-

sands of Marines. We must find the true distances of objects, and in order to do this we must revolve a certain distance of ground around so we can accurately estimate the distance. There are other ways we must use it.

My biggest regret is that I cannot finish my education. I know I am leaving for the islands in a few weeks, which means I'll be in the thickest of the war. background I'll be able to take With my training and educational care of myself in the best way.

I want to thank you again for all of the time you worked with me. I assure you it was not in vain, for it was in your class I learned what fellowship as well as studying meant to a man.

Your former student,
Fred Edgar Weisbrod
San Diego, Calif.

While visiting the Hawaiian Islands last year we had a very thrilling experience. We met two hula hula girls who loved the same man, so they pulled straws for him.

"Unfrook a lady and you may find raspberry-colored lingerie—or misty green or dull blue."

—Vogue.

Or a slap in the face.

As a MINER Sees it

Condolences of the week go to Ken Mooney who got himself hitched on Sadie Hawkins Day. Seems to us that you didn't offer much resistance Ken, but then who is to blame you? We can't quite decide whether your style most resembles Lonesome Polecat's or the "Unmentionable's."

Special to Cress Auinbaugh: Realizing the difficulties which beset you when you try to shave while on those crutches, we advise you to do your best and make a try anyway. That demon Requarth has the advantage of two good legs to your one. Under these circumstances the afore said demon is anxious for a showdown. You will either have to get better so you can defend yourself, or else shave.

Along the same line, we sympathize with the Russian Wolf, Si Orlofsky. After two minutes of play he was retired to crutches. I'm afraid Timoshenko would not approve of your leaving the game after having played for one minute (unknowingly) on a broken ankle. The score was only twenty-odd in our favor at the time, and if you had held on for a few minutes more, we might have beaten those soldiers by a really decisive margin.

Flowers, bouquets, corsages (of war-stamps of course) will be accepted at the hospital for those few Miners who managed to escape from Parker Hall on Wednesday afternoon. The melées and contesting claims of the various armed services reminded one of the Pennant on a Saturday night. Many were mangled in the rush to sign up, but the aforementioned few somehow managed to get out while the getting was good. Good practise boys, it will put you in good physical condition for the Jap-ports. We were hoping that a good old gob-doughboy brawl would take place on the stage, but those officers treated each other quite courteously. I guess the officers just don't have the spirit of the enlisted men.

John Moore really carried the ball down the field in the Springfield game. See what you can do when you get some real rations instead of that Tech Club hardtack John? In the interests of the football team, why, don't you quit Larsen's Lunchery and join Ye Olde Shamrocky? Can't you hear the boys cheering for More Moore? (p.m.)

The Theta Kap pledges were a bit confuzzed about their recent basketball game. Somehow the scoreboard kept giving the actives a little bit of a priority (18 points). Since the pledges were outnumbered badly most of them showed their true sportsmanship and admitted they had been fairly beaten. Those fool-hary pledges who persisted in the belief that they had been robbed can, likewise, be contacted at the local infirmary.

The fire in some girls eyes is quenched by the water on their brains.

Absent minded sales girl "after kissing date good night": "Will that be all?"

G. E. Is Training Women Engineers

For years General Electric's famous "Test" course was looked upon as a man's stronghold. Now, under the stress of war conditions and the consequent shortage of manpower, the training course for graduate engineers is opening its doors to women. They will replace Test men on some of the work, and in other cases will give highly skilled assistance to the engineers in laboratories and factories.

Requirements vary. But preference is given to women who have had basic science training with mathematics or physics backgrounds. Already more than 40 women "engineers" have been hired by G. E. and are being rotated in various departments in an orientation course—figuring computations, charting graphs, calibrating fine instruments for machine tools, and doing productive testing work on electric equipment. Also, they attend classroom courses, involving both theory and laboratory work, in the fundamentals of engineering and advanced math.

General Electric "Test" is aiming for 150 trained "women engineers" this year.

"The year 1943 will produce 12,000 college graduate engineers," says M. M. Boring, who employs the company's technical help, "but only 4,000 of these will be available for private industry. In fact, the armed services will draw 250,000 engineers from other sources, so the need for replacements can be readily seen.

"While we do not expect these girls to become full-fledged engineers, no one can predict how important a part their work will play in wartime or in the post-war period."

She: "Don't you love driving?"
He: "Yes, but wait until we get out of town."

Miners Gain Hope Of MIAA Crown by Downning Bears 13-0

Passing Attack Produces Victory

Two touchdown passes from the arm of Al Dick, sparked the Miners to a 13 to 0 victory over the Springfield Teachers at Springfield Saturday. The Miners moved a step closer to the MIAA crown by defeating the league leaders.

While a crowd of well over 100 sat huddled in the stands, the two ancient rivals battled on in terms for the first 25 minutes, and then the determined Miners struck for their first score.

After a quick exchange of punts, the Miners received the ball in their territory on the 30-yard line. On three successive plays the Miners marched for first downs which placed them on the Springfield 21-yard line. Two attempts to run through the line failed, before Dick threw his touchdown pass to John Moore in the end zone. The pass was right into the arms of Moore, who grasped a slippery pigskin tightly for a score. Jim Glover, the boy with the educated toe, converted the extra point.

The Miners second score came after ten minutes of the third period had passed. Radcliffe fooled the STC team with a quick kick that rolled into STC's end zone. STC tried a hovel pass into the line but the play was broken up by Jack Boetjer with such force, that Williams fumbled and the ball was recovered by Englehart of the Miners.

JIM MILLER

This halfback missed the Springfield game because of a back injury. He has a good chance of returning to the lineup Saturday against Cape Girardeau and will certainly be needed.

on the STC 22-yard line. Carafail tried the line for a gain of two yards. The next play Dick tried a pass to Boetjer, but it fell incomplete. On the very next play Dick again passed to Boetjer, this time finding his mark, who went over for the second Miner score. Jim Glover missed the try for the extra point.

The Miners were not able to display their best brand of football Saturday, as the rain had transformed the gridiron into a mass of mud which made the handling of the ball about as easy as a greased pig. While the Miner backs were being held down due to the condition of the field, the Miner line played a stellar role in the victory. It was the Miner line that gave the outstanding performance of the afternoon, which was only overshadowed by the two touchdown passes of Al Dick. The line was charging fast and furiously and literally stopped the STC backs cold. Neal Wood, and Leone jarred the STC backfield with their ferocious tackles. Backing up the line for the Miners, Captain Meredith Kiburz turned in one of the best defensive games of his career. Carafail, Boetjer, and Dick also showed on defense.

Not to be forgotten, is the splendid kicking of Keith Radcliffe. Keith caught the STC team flatfooted many times with his long, low spiraling quick kicks. Time after time he put the Miners deep into ETC territory with his fine booting. His kicks, despite the wet condition of the ball, averaged 45 yards.

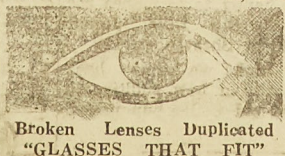

GIL CARAFIL

Many were beginning to become doubtful of Bullman's move when he shifted this lad to the fullback slot. Gil has finally hit "near topnotch" form and has been purchasing the line with rare form. He would probably have made the difference in the St. Louis game had he not missed the tilt due to an appendicitis attack.

"Whoopce, I own Hell!"
"How come?"
"The Dean just gave it to me."

Rolla Optical Co.
209 W. 8th St. Rolla, Mo.

Around The MIAA

BY GEORGE BURKE.

The topsy turvy race in the MIAA continued its dizzy pace, as the lead for the Conference title shifted hands again. The league leaders, Springfield and Cape Girardeau both suffered defeats to topple them from the ranks of the unbeaten and thereby lose their hold on the lead.

The Miners continued on their determined march to a second Conference title in as many years when they overcame the league leading Springfield Bears last Saturday behind the passing of Al Dick, 13 to 0. The Miners continued to play heads-up football after being continually threatened in the first period by the Bears. The line turned in the outstanding performance of the day for the Miners with its exceptionally hard blocking and tackling on offense and defense. Neal Woods and Anton Leone gave excellent accounts of themselves along with Captain Meredith Kiburz who turned in one of the best defensive games of his career. The backs experienced great difficulty in handling the ball due to the sloppy condition of the ball. Besides the stand out passing of Al Dick, Keith Radcliffe turned in one of the best kicking performances ever witnessed in the MIAA. Time after time he succeeded in catching the Bears deep in their own territory with his long kicks. Despite the wet condition of the ball he succeeded in maintaining an average of over 45 yards on each kick from scrimmage.

On Friday night, Maryville pulled another upset by defeating the strong Cape Girardeau Indian's squad, 7 to 6. Having suffered a defeat at the hands of the STC Bears the week previously, the Bearcats were determined to win over Cape. Both blocking and running. Bill Bennett ran back a punt 65 yards to cross the goal line for the Bearcats, while John Griffiths ran 63 yards through the entire Bearcats team to score for Cape. Both teams never threatened much throughout the remainder of the game.

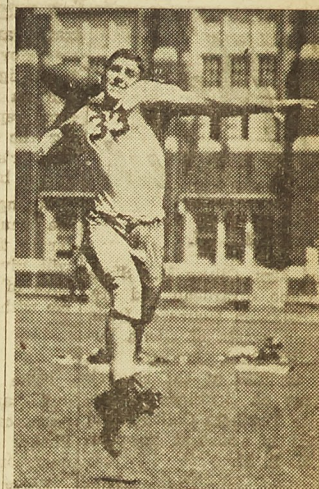

With the change in events that took place this last week in Conference competition, the Miners can be assured of no better than a tie for first place with Maryville, unless Warrensburg can spring the biggest upset this year by beating Maryville, in which case we will take first place. This assumption is based on the assumption that the Miners will beat Cape this week-end.

Conference Standing.

	W	L	T	Pts	Opp
Miners	2	1	0	58	29
Maryville	2	1	0	42	33
Cape Girardeau	1	1	0	33	7
Springfield	1	1	0	14	26
Warrensburg	0	2	0	7	59

Prior to their defeat by the Miners, the Bears were in second place in the MIAA race. Had the Miners been unable to trounce the Bears they could not have stayed in the race for first place in the MIAA conference. They may capture that honor this year by defeating Cape Girardeau here on Homecoming, next Saturday, November 14.

AL DICK

This halfback star threw the two touchdown passes that beat Springfield. Al's excellent play throughout the game aided the Miners very much in their victory drive.

Intramural basketball got off to a flying start last Thursday as Kappa Sig trounced the Seniors 32-18. Theta Kap defeated the Freshmen 17-10, and Sigma Pi won a very close one with Sigma Nu in two overtime periods by a score of 29-27.

Russell Frame stood out on Kappa Sig's team as he scored 17 points against the Seniors. Kappa Sigma has a strong quintet and will be hard to beat.

Sigma Pi's victory over Sigma Nu was a close one and both teams will be contenders for the title this year.

On Friday night the Sophomores defeated Triangle by the score of 31-23 and PIKA handed Lambda Chi a 27-6 defeat.

The Seniors came back from their initial defeat by taking a close one from the Juniors 19-17, on Monday evening. The game was a rough one and both teams missed a great percentage of their shots.

Sigma Nu also came back after an initial defeat to soundly trounce the Freshmen 30-13.

deau here on Homecoming, next Saturday, November 14.

The reason that the Miners won over the great offensive power of the Bears may have been because they were inspired to do so by a telegram from the parents of their former teammate, Bill Waring. The telegram read "Win this one for Bill."

Off the Campus

SIGMA PL

Mr. and Mrs. Oliver M. Skalbeck of Cape Girardeau and Mr. and Mrs. Dlxton Helms of Rolla were dinner guests of Glenn Lufey and Jim Paul, Sunday. Mr. Skalbeck is head of the English Department at Southeast Missouri State Teachers College, and Mr. Helms is assistant librarian here at M. S. M.

Like a tidal wave the brothers poured into the hamlet of Poplar Bluff and the metropolis of St. Louis. Brothers Smothers Sullivan, Shipman, and Paddy O'dziemanowicz went to Poplar Bluff, while Brothers Bottom, Kaiser, Borron, Barker, Fredricks and Hentzel saw the lights of St. Louis. It took a lot of persuasion to get Hentzel off the train at St. Louis, for after carousing with that group of Army nurses who were headed east Ted suddenly decided to visit his Uncle Louie in Trenton.

Lt. Anothany Gonski '42 dropped in on the chapter for a few hours last week whilt on his way to a new assignment at Camp Crowder. A recent letter from ex-sage Lt. Ben Weidle discloses that he is now courtin' the lassies of Erie. Ben complains that

traffic and currency system is a mess over there, but he hopes to straighten them out soon.

From all points of the globe come reports from alumni praising the latest edition of the chapter's chronicle "Screamings" as the best yet.

Judging from the array of feminine beauty present from the chapter at the Military Ball the girls will give the house the appearance of a Ziegfeld Follies—and me without a date, oh, boy!

TRIANGLE

"The Rock House" at Ninth and State is taking on a new appearance as preparations for our Pledge Dance and Homecoming near completion.

Early last week it was announced by one of our brothers that another Triangle pin adorns the person of one of Rolla's lovely young misses. Yes, Brother Locher proudly announced his "pinning" of Beaufetta Wilson.

Sunday's guests were Mr. Wm. Emo, Mrs. M. Schilling, Miss Lorraine Schilling, and Mr. and Mrs. T. G. Buckley all of St. Louis, and Miss Mary Sands of Rolla.

Several of the fellows submitted to their traveling urge over the week-end and journeyed to various places. Brother Coolidge preferred walking, as he joined in on the military hike to Newburg. St. Louis visitors were: Brothers Barnes, Jenneman, and Johannes; and Pledges Lester, White, Smith and Fields. Brothers Bell and Petersen visited

Columbia. Brother J. Smith, and Pledges Kuder and Perry visited their homes in Hannibal, Mo., Springfield, Ill., and Crystal City, Mo., respectively.

THETA KAPPA PHI

Mu Chapter of Theta Kappa Phi takes great pleasure in announcing the initiation of four new brothers on November 1. These new brothers are: Tom Vogenthaler, St. Louis; J. Bernie McGrath, St. Louis; Don Brice, East St. Louis; and Bob Baerveldt, St. Louis.

Because of the graduation of the Seniors sometime in December or January, the election of new officers for the coming year were held November 2. The new chapter officers are: Michael Catanzaro, president; William Henne, vice president; Russell Lohmann, secretary; Albert Thorwegen, treasurer; Dominic Greco, pledge manager; William Herrman, historian; and John Hazelett, sargent at arms.

On Saturday afternoon the pledges played the members a game of basketball in the Gym followed by an outing at the school mine. The members report that the score was 34 to 33 in favor of the members, while the pledges report that the score was 31 to 20 in favor of the pledges. I wonder who is right?

Mr. Louis Bruno, Mr. Louis J. Greco, Mr. Louis E. Greco, Mr. John B. LaMacchia, and Emil Greco were guests of Dominic Greco at the Chapter House Sunday.

Bob Barmeir, Bob Miners, Steve Salarano, Bill Casey, Jim Martine, Glen Jost, Ed Goeteman, Jack McCarthy, and Peter DesJardins, visited in St. Louis this week-end. Leroy Markway Bill Thomas, and Donny Volkmer visited in Jtterson City. Bernie Duffner visited in De Soto, and Edwin Vandeven visited in Cape Girardeau.

Kappa Alpha.

Last Friday the chapter made a journey to Springfield and Saturday afternoon watched the Miners trounce the Bears. We had quite a time with a few Springfield alumni.

Saturday night the chapter was host to Springfield guests at a formal dance at the Colonial Hotel. Members and pledges and their dates were as follows: Dick Schwab and Rebecca Arnold, George Ramsey and Amelia Roberts, Ted Hadley and Julia Campbell, Bart Yader and Gladys Jane Jones, Bill Parkinson and Carolyn Carter, Jim Snider and Anna Ruth Johnson, Walter eGorge and Martha Lou Powell, Dick Ollis and Billie Ann Schaller, Ralph Elsea and Frances Adams, Joe George and Suzanne Schellhardt, Bob Schmidt and Martha Ruth Schellhardt, Frank Beyer and Emily Schmid, Dick Wegener and Katy Moon, George Anderson and Mary Esther Purdue, and Bill Ellis and Sally Camp. Stags were Woody McPheeters, Al Olson and Doug Crow.

We are happy to announce the pledging of Bill Ellis, Junior transfer from Shreveport, La.

Sunday night we came back to Rolla with a new addition, a two month old Collie pup named Pinky.

It pays to advertize

JOKES

The Professor's secretary saw a magnificent blonde carrying some papers enter the office.

"Lissen, ya palooke," snarled the jealous secretary, "if you try to muscle in on by territory, I'll plant you among the potatoes."

"Oh, don't mind me," answered the other. "I'm only the Professor's wife."

She: You say you are going to marry a woman with a \$10,000-a-year income and you try to convince me that it's a love match.

He: It it. I love money.

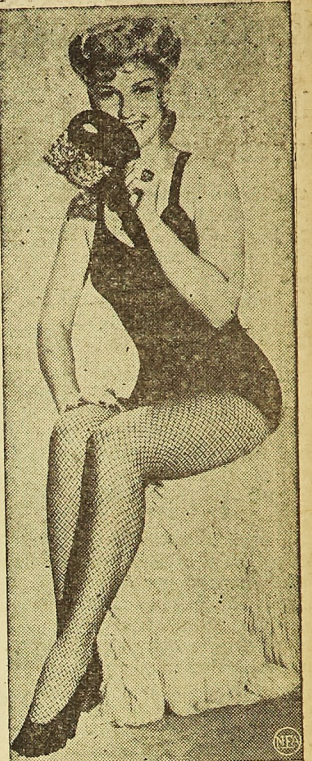

It's most too hot for whiskey Straight.

And it's most too cold for beer.

The melancholy days are here—The saddest of the year!

—Oredigger.

Man, It's Ann!

Hollywood likes them savage—especially if they are like blond, green-eyed Ann Savage, newcomer to films.

THE DEVIL AND MISS JONES

"The Coke's in"

"That's the happy greeting heard today when a new supply of Coke arrives at a cooler. Folks wait for it... wait because the only thing like Coca-Cola is Coca-Cola itself. Customers smile and start moving up to pause and be refreshed.

"There's a cheerful spirit about this way of accepting wartime restrictions. Morale is high."

BOTTLED UNDER AUTHORITY OF THE COCA-COLA COMPANY BY Coca-Cola Bottling Company of St. Louis

I'VE GOT THE INDIAN SIGN ON OVERCOATS!

"This one's 3 years old and it still looks swell"

Want "long mileage" from your coat? Just remember two things ... One—dirt makes fabrics wear out faster. Two—our Sanitone dry cleaning cases out dirt with amazing thoroughness.

For longer wear and better appearance, have us clean your coat several times a season. We'll fix loose buttons and minor rips free.
