Alpha Phi Omega Holds Formal Pledging for Two

Last Tuesday night A. P. O. formally pledged two students. They were Bernie Duffner, member of Theta Kappa Phi who has been quite active in various inter-mural sports such as basketball, tennis, and softball, and Bill Barnett also a member of Theta Kappa Phi. Miner Board, Alpha Phi Omega, Interfraternity Council, and A. I. M. E. The small number pledged indicates that students are losing interest in campus activities and as a result it is becoming increasingly difficult for service organizations such as A. P. O. to plan many projects during this summer term.

A meeting was held after the pledging and plans were made to have the keep off the grass signs up by the time the army men come in. The idea of helping the soldiers to become acquainted with the campus the first few days was also discussed.

Due to the fact that Harold Miller, vice-president of the chapter, was called up by the army, election of a new vice-president was held and Bob Barneier who was initiated last fall was elected.

Also plans were made for a winter roast for the members this coming Sunday, at 6 p. m. at the Fairgrounds. All members are urged to attend.

Student Council Votes ASTP Two Alternates

The last meeting of the Student Council was held at 7 p. m., July 22, in the Met building. The chief purpose of this meeting was to discuss the meeting held the previous week at which the Dean made certain recommendations to the Student Council. Plans were also discussed concerning an assembly to be held in the auditorium.

The new members of the Intramural Board of Control and the Miner-Rollamo Board of Control were appointed. The appointments were: Intramural Board, Fuchs, Ike, Presnell, and Dampf; Miner-Rollamo Board, Kick, Rust, and Moniac.

During this meeting, it was also decided to make available to the Army Student two positions on the Student Council.

Tau Beta Phi Pledges Five Seniors, Three Juniors at Assembly

The Beta Missouri Chapter of Tau Beta Pi pledged five seniors and three juniors at a meeting held Thursday, July 22 in Parker Hall. The men pledged were Warren Larsen, John W. Brodhacker, Lloyd C. Schuman, Fred W. Schmitz, Glen L. Staley, Francis S. Nelsen, Donald Steininger, and Ivan P. Kinder. These men were formally pledged at a mass meeting held in Parker Hall on Friday, July 25. At this meeting Professor Dave Walsh of the Metallurgy Department, and treasurer of Tau Beta Pi, announced the pledges and awarded a set of handbooks to Hackman Yee for having the highest scholastic average during his freshman year. The Scholarship cup, awarded by Tau Beta Pi to the organization having the highest grade point average, was presented to the Tech Club.

To be eligible for membership in Tau Beta Pi, a student must be in the upper fifth of his class scholastically and must possess qualities of leadership and integrity.

Warren Larsen is a senior Met, a member of the Glee club, in which he now is serving as president, a member of the A. S. M., A. I. M. E., Miner Board and Music club.

John Brodhacker, a senior Chem, is past president of the Academy of Science, member of the A. P. O., A. I. Ch. E., and is treasurer of Alpha Chi Sigma.

Glen Staley, a Civil, is a member of the R. O. T. C. and of the A. S. C. E.

Francis Nelsen, senior Mechanical, served on the Tech club Board of Control, and is now president of that organization. He is also secretary of the Photo club.

Lloyd Schuman is a senior Mining student, a transfer from Wisconsin School of Mines, and a member of A. I. M. E.

Fred Schmitz, a junior Chem, is secretary of the Alpha Chi Sigma, member of the Miner Board and the A. I. Ch. E.

Don Steininger, a junior Petroleum is a member of Lambda Chi Alpha.

Ivan Kinder, junior Chem, is on the Board of Control of the Shamrock club, a member of the A. I. Ch. E., an alternate on the Student Council, and member of Alpha Chi Sigma.

These men will have to take the Tau Beta Pi quiz and pass it before they can be fully qualified for initiation. The initiation will take place on Sunday, August 8, followed by the banquet.

Music Club

The Music club's program for Sunday, August 1st, will be made up of Beethoven's Symphony No. 6, the "Pastorale," played by Dimitri Mitropoulos and the Minneapolis Symphony. This will be followed by Mozart's Sinfonia Concertante for Woodwinds and orchestra, played by the Philadelphia Symphony orchestra with soloists from its organization.

Strauss' Waltzes from Der Rosenkavalier, Tchaikovsky's Hamlet Overture, and several operatic recordings will complete the evening's recordings.

The club will meet at 7 p. m. on the lawn west of Norwood Hall. All Miners are urged to attend.

Seniors and Theta Kaps Lose Ground, Sigma Pi Still Leads in Softball

By RAY JUERGENS

This week of intermural softball still saw the Sigma Pi team on top of the heap with Sigma Nu next and Triangle close behind while the Faculty remained on the bottom and the Sophs just above them.

It was a bad week however for the Seniors and the Theta Kaps who each dropped from higher positions to fourth and sixth places respectively. The Seniors lost two games this week at the hands of the PKA team and Triangle while the Theta Kaps pulled the same stunt by losing to the Seniors and the Kappa Sigs.

On Monday in the first game the PKA team took a surprise game 3 to 2 from the Seniors due to the lack of material on the Senior side while in the latter game the Faculty lost its fifth straight to the Sigma Nu 20 to 8. Tuesday the Seniors dropped another close one to the Triangles 10 to 11 while the twilight game developed into a slug-fest with the Lambda Chis finally out-running the PKAs 21 to 15. The Seniors ended their two game losing streak Wednesday by defeating their close rival the Theta Kaps 7 to 2 in the late game while the Theta Kaps lost another to the Kappa Sigs Thursday afternoon 2 to 1. In the late Thursday encounter the Faculty made it six straight by losing another game to the Triangles 5 to 11.

The early Friday game between Sigma Pi and Sigma Nu, which might have decided first place in the league, was postponed because of lack of players on both teams while the Frosh took the Faculty in a friendly battle 17 to 7 to make it seven straight losses for the Frosh.

Standings:

	Won	Lost	Pct.
Sigma Pi	3	0	.100
Sigma Nu	4	1	.800
Triangle	4	2	.666
Seniors	5	3	.625
Kappa Sigs	3	2	.600
Frosh	3	2	.600
Theta Kap	3	3	.500
PKA	3	4	.428
Lambda Chi	2	3	.400
Sophs	1	4	.200
Faculty	0	7	.000

Spotti and his wife had been located on the island of Cebu, in the Philippines, before the outbreak of the war. He was being employed as an engineer for a large mining company. Immediately after the war broke out he enlisted in the army and was commissioned a captain. When Cebu was taken by the Japs Spotti undoubtedly was taken prisoner as no word was received from him since that time.

Spotti, a metallurgist, graduated from M. S. M. in 1932.

C.C. Singleton Speaks at ASCE Meet

The American Society of Civil Engineers held its second meeting of the summer last Tuesday evening, at 8 p. m.

The guest speaker of the evening was M. C. C. Singleton, structural engineer for the Portland Cement Association of Chicago. His talk was titled "Concrete Structures in the War Program," and was clearly illustrated with slides which he brought with him.

The talk and slides covered in great detail the different types of concrete structures, both reinforced and plain, which included roofs, floor slabs, beam and column arrangements, and foundations. Mr. Singleton was accompanied by Mr. Kennedy, from the St. Louis office of the Portland Cement Co.

The A. S. C. E. plans to remain active on the campus through out the summer, as always. Advisor E. W. Carlton, says that he has more speakers lined up for meetings to come—some of them as good as Mr. Singleton.

Refreshments were served after the meeting.

The next American Society of Civil Engineers meeting will be held next Tuesday, August 3rd at 8 p. m.

The theme of the meeting will be centered about steel construction, at which time two sound films will be shown. The first film is being supplied by the United States Steel Corporation, of Chicago, and is titled "Steel for Victory." The second film is titled "The Backbone of Progress," and is being supplied by the American Institute of Steel Construction, of New York City.

Refreshments will be served after the meeting. All A. S. C. E. members are urged to attend the meeting, and anyone else who is in steel construction—faculty member or student—is cordially invited.

Shangri-La Girl

Boosting the nation's July drive to raise \$130,000,000 for a new aircraft carrier is Ester Williams, dubbed Hollywood's "Queen of Shangri-La."

LETTERS TO EDITOR

The Editor of the "Missouri Miner," Rolla, Missouri.

Dear Sir,

My friend, Mr. E. D. Lynton ('12), who was formerly with the Standard Oil Company of California, now writes me that he is in United States Government service in North Africa. He has asked me to write and inform you of this, for your paper, as he feels sure that there must be other Rolla boys now on that Continent, and he would like to get into touch with some of them if possible. His address, however, can only be given through the New York Postmaster, as follows:

E. D. Lynton, N. A. E. B. civilian A. P. O. 512

c/o Postmaster, New York City

I would add, for your information, that I myself am in Chicago, at the address above, where I am in charge of inspection of war materials (metallurgical) for the Inspection Board of the United Kingdom & Canada, for the mid-

AICHE Shows Technicolor Film In Auditorium

The A. I. Ch. E. sponsored a technicolor sound film in the Auditorium last Wednesday evening entitled "A New World Through Chemistry". The movie was a review of recent chemical wonders, particularly plastics and synthetic rubber, which have been developed by the Du Pont Company.

The film showed the resistance to solvents of neoprene synthetic rubber and the advantages of synthetic sponges over the natural products, and explained the various steps in the manufacture of these commodities. It also demonstrated how clothes treated with Zelac, a water repellent dressing, could be cleaned while on the person by merely pouring water on the soiled portions.

The extensive use of Lucite, which is a transparent plastic, in such fields as dentistry, furniture, and household objects was explained. Lucite possesses the quality of bending light around corners as water flows through a pipe. Dentist flashlights made of Lucite enable a beam of light to be "piped" through a small Lucite rod into any corner of the patient's mouth. Furniture and household articles made of this material are light in weight, durable, and easy to clean.

The production of Nylon and its extensive uses in clothing, brush bristles, and fish line were also shown. It is advantageous where moisture resisting properties and toughness are desirable. The movie also depicted the dying of yarn with synthetic dyes and the careful control of color which may be obtained with these synthetic dyes.

During the business meeting the organization decided to hold another picnic on Saturday, August 7.

Refreshments were served after the meeting.

western States area. I also have an office in Detroit, and would be glad to hear from any of the old M. S. M. boys who may remember me.

Yours sincerely, R. H. B. Butler, '09

This is the time of year when our only regret is that we have but one vacation to spend in our country.

Today's Headline Events in a Nutshell for Our Busy Readers.

ROOSEVELT TO SPEAK TOMORROW.

WASHINGTON—The White House announced today that President Roosevelt will make a nation wide radio address of "major importance" at 9:30 EWT tomorrow. The President will speak for 30 minutes, White House secretary Early said.

EXPECT PEACE OVERTURE SOON.

LONDON—The first peace overture from Rome may be expected within 48 hours, by the way of Switzerland, the British Press Association diplomatic correspondent, who sometimes reflects foreign office opinion, said today. "It would cause no surprise if the official peace overture from Rome were put out within the next 48 hours through Switzerland—the protecting power—rather than through the Vatican," the correspondent wrote.

Allies Nip Supplies To Sicily

ALLIED HEADQUARTERS IN NORTH AFRICA, July 27.—(UP)—Allied airmen shot down 40 Axis planes, including 21 big transports carrying troop reinforcements, over Sicily during the last 48 hours against loss of only three of their own aircraft, it was announced today.

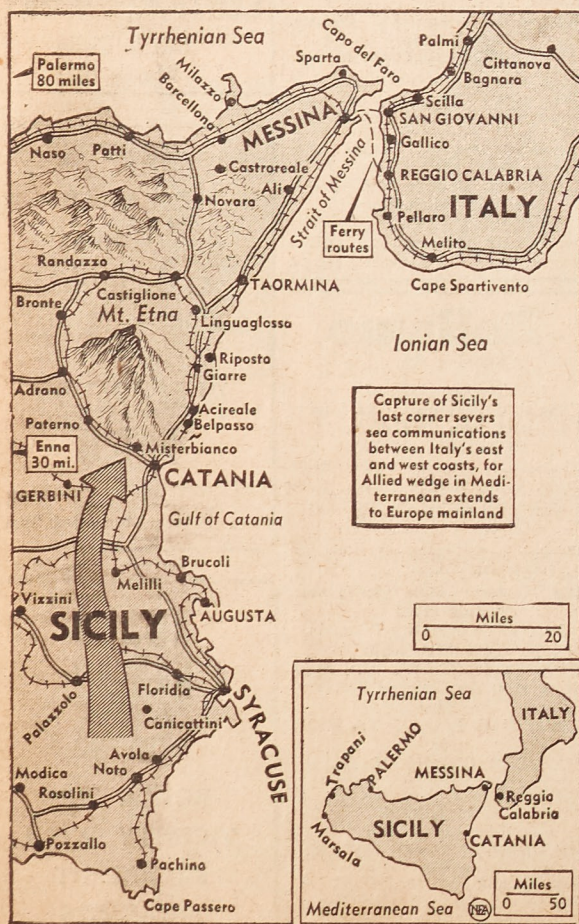

American and Canadian troops, forcing the Italian and German armies estimated at less than 100,000 men back toward the Sicilian northeastern tip meanwhile were advancing from the west and southwest, the Allied communique revealed.

The American Seventh Army racing along the northern coastal road toward Messina, was proceeding "according to plan" while the Canadian units, striking northeast from Enna, were reported to have made "limited gains" in a sharp engagement.

(The London radio reported that the Americans had occupied Cefalu, mid-way between Termini Imerese and San Stefano on the northern coast.)

Troop Planes Downed
The victory of British Spitfires over the lumbering German troop-carrying Junkers-52's was described in a dispatch from Richard D. McMillan, United Press cor-

Last Stand Area in Sicily

In this mountainous northwest corner of Sicily the Axis is making its last stand. Mt. Etna blocks the smooth advance of Allied forces toward Messina, and the foothills are full of fortified positions. But Americans advancing along the north coast may outflank the Axis and force a retreat to Messina.

Churchill Spikes Italy 'Peace Talks'

War's Biggest Air Offensive Pounds Europe

By WALTER LOGAN
(United Press Staff Correspondent)

LONDON, July 27.—(UP)—Fast twin-engine Mosquito bombers attacked flaming Hamburg last night in the fifth raid in 60 hours on Germany's greatest port to round out the third day of the war's biggest aerial offensive.

The planes roared in through clouds of smoke rolling up from Hamburg's smashed war factories, battered day and night by British and American bombers which have dropped more than 6,000 tons of explosives on the continent since Saturday.

The Mosquitos presumably aimed at the few Hamburg objectives untouched in previous assaults. Unescorted Flying Fortresses had bombed pin-pointed targets in the port in daylight yesterday.

It was estimated unofficially that from 2,000 to 2,500 bombers and hundreds of fighters and fighter-bombers participated in the continuous attacks timed to coincide with the fall of Mussolini and Germany's reverses from the Russian front.

The Fortresses were guided over their targets by columns of smoke curling 20,000 feet into the sky. A dispatch from Stockholm before that raid occurred said the city already was a sea of fire with debris piled in the streets throughout factory sections.

Retaliatory Raids Weak
Enemy planes made weak retaliatory attacks that caused a 30-minute air alarm in London last night and slight damage in some east Anglian and southeast English towns. No enemy plane was shot down.

The Fortress sweep over Hamburg was only part of American operations yesterday. They also attacked Hanover, 112 miles west of Berlin, and the important harbors of Wilhelmshaven and Wesermunde. Twenty-three bombers and three fighters were missing.

Our Losses "Normal"
More than 50 enemy planes were shot down by the Fortresses, bringing the toll of enemy planes credited to Americans since the three-day offensive began to more than 100. Brig. Gen. Frederick L. Anderson, chief of the Eighth Air Force Bomber command, said the U. S. part in the operations had been carried out with only normal losses.

The Fortresses brought the tonnage of bombs dropped on Hamburg in the five attacks to nearly 3,000. They picked as their targets the Blohm Voss submarine works and the Clockner aero-engine works.

Refusing to give the Germans a single hour of rest, RAF and U. S. Air Force fighters and bombers swept over the coasts of France and Holland steadily yesterday and bombed the Cottrai, Belgium, and the Abbeville and St. Omer, France, airfields. Four enemy fighters were shot down.

Eugene Chaffin, who resides 10 miles south of Rolla, will hold a public sale Friday, July 30, it is announced today.

Chaffin lives on Missouri "O" Highway, and 1 mile west on De-tour Road used while building and paving Highway 63, known as the old Bonza place.

He offers several work animals, cows, hogs and poultry and quite a large assortment of farm machinery and tools.

Enters Barnes Hospital in St. Louis
Miss Thelma Lanning entered Barnes hospital in St. Louis yesterday for treatment.

Miss Lanning is the daughter of Mr. and Mrs. Leslie Lanning. She taught the Perkins school, near Newburg, during the past year.

Succeeds Ousted Mussolini

Marshal Pietro Badoglio, former chief of staff, who was called out of retirement by Italy's King Victor Emmanuel to succeed Mussolini as head of Italy's military government. The 71-year-old premier, never a Fascist enthusiast, had been dismissed as chief of staff by Il Duce December 6, 1940. (NEA TELEPHOTO.)

Posse Hunts Army Deserter In Hills Around Newburg

Highway troopers Hoevelman and Arnold have an organized posse combing the countryside south of Newburg today to find Ray Yowell, about 19, army deserter, who has larceny and assault charges against him together with army desertion charges.

Yesterday Yowell was apprehended by Dan Watson of near Newburg for stealing roasting ears from his field of corn. Watson managed to get the gun from Yowell, but Yowell cut Watson in the back and he is in a serious condition. No statement could be obtained yet from him as to more particulars of the incident.

Leaves Trail of Crime
Three weeks ago Yowell broke into the home of a distant relative Charlie Yowell, a farmer and took odds and ends. A grand larceny charge was filed then by Prosecuting Attorney Lynn Bradford for the court of Justice of the Peace Fred King, but Yowell could not be found. Troopers together with Constable J. H. Weber combed that part of the country, but were unable to locate him.

With the heavy underbrush and numerous caves, a person could hide out for sometime and not be found, according to reports.

He Is Probably Armed
About a week ago Yowell broke into the home of Clifford Snyder, a farmer in the same vicinity. There he stole a 38 calibre pistol and some food.

Yowell is a native of the vicinity around Newburg. He has been considered an army deserter for several weeks. The exact location of the camp from where he left could not be learned.

An Ohioan arrested for intoxication blamed mince pie he had eaten. Pie-eyed?

We are still wondering if, at their recent meeting, Hitler and Mussolini were able to hold their tempers as well as they're holding their lines.

Some Italian troops in Sicily have turned against the Germans. It's revolting—but not to us.

Reverend Jackson Attends Luncheon At Ft. Wood

The Rev. O. V. Jackson, rector of Christ Episcopal church, was the invited guest at a luncheon given for speakers of the National Conference of Christians and Jews at Ft. Leonard Wood yesterday.

Father Hart of the Catholic University of America, Washington, D. C.; Dr. Crossland, pastor of the Rogers Park Congregational church, Chicago; Dr. Rosenblum, Rabbi of Temple Israel, New York City; and Dr. Sterling Brown, St. Louis, were guests of honor.

Col. A. R. Duvall, post commander, was host to the group.

Salvation Army Drive On This Week

Through the co-operation of the American Legion, Lions Club, Rotary Club, Veterans of Foreign Wars and auxiliaries, funds will be solicited this week in Rolla for the Salvation Army.

Money collected will be used for the maintenance of the Salvation Army Maternity Hospital and Home (Marine avenue, St. Louis, Mo.) which has been of considerable aid in helping to solve one of our great social problems: unmarried mothers.

The funds from this drive in Phelps county will be used in caring for these mothers from this area, who are increasing in number as a result of present war-time conditions.

As occasion demands, these cases receive as much as four to five months pre-natal care and from six to eight weeks later care during which time the mothers are instructed in the care of the child and are helped to obtain employment and a wholesome environment, according to the committee. In certain cases the home provides for adoption.

Solicitation on Now
Representatives of the above-mentioned organizations aim to call on all Rolla and Phelps county folks during the week to receive contributions to this worthy cause.

"In case the representative should miss contact with you, leave your donation with Frank Germann at the Rolla State Bank," urged D. F. Walsh, V. F. W. member of the committee.

Besides Mr. Walsh, others on the committee are: E. A. Goodhue, American Legion; Dr. J. E. Smith, Lions Club; Frank Germann, Rotary Club; and Rolfe M. Rankin, chairman.

Governor Signs School, Other Appropriations

Gov. Forrest C. Donnell signed three appropriation bills yesterday including the state school, state prison and penal institutions and state hospital appropriations. None of the figures were changed by the governor but were signed as the legislature had set them.

The new bill assures the School of Mines \$695,000 for the coming year.

While the entire state school fund was less than last year's allotment by \$31,000, the largest slash was in the budget of the University of Missouri.

The bills signed allot \$9,035,225 to finance state schools; \$8,746,480 for state prison and other penal institutions; and \$145,000 to repair some deteriorating buildings at state hospitals.

This latter amount does not cover any repairs to the Trachoma hospital situated here. According to Dr. J. E. Smith, doctor in charge of the hospital here, repair work costs are allocated in their budget each year to take care of emergency needs. This budget is received through the State Board of Health.

Allied Generals Are Ordered to 'Pour It On'

By JOSEPH W. GRIGG
(United Press Staff Correspondent)

LONDON, July 27.—(UP)—Prime Minister Churchill warned Italy today that she will be "vaded" and "seared, scarred and blackened from one end to the other" unless she surrenders unconditionally immediately.

The Allies have received peace approaches from the Italian government. He told Commons in a fiery speech, and they fore no decisions are called for the Allied governments except bring "the maximum avalanche of fire and steel on all targets of military significance throughout the length and breadth of the land."

"From the North and the South, from the land and from the air, and by amphibious descents, we shall endeavor to put the utmost rigors of war increasingly upon them," he said. "Orders to this effect have been given all Allied commanders concerned."

Churchill acknowledged that might take the new Italian government under Marshal Pietro Badoglio some time to make up its mind on withdrawing from the war, but said it would be the Allies' task the meantime to let the Italian "stew in their own juice for a while and hot up the fire to utmost order to accelerate the process."

News May "Break" Soon
He hinted strongly that further developments might come at any time with chances good that it might be able to make a further illuminating statement next week. Britain and the United States will make no attempt to exert influence on the Italian government except through the pressure of "relentless war," he said.

Churchill made only brief references during his 36-minute speech to Germany, but did assure that German hopes of turning the tide of war through their submarine campaign were "sinking as fast as their U-boats themselves."

He forecast that the whole outlook on war would be disturbed and broken by the events progressing in Italy with "the overthrow and casting down in shame of the first of the dictators and aggressive war lords striking the death knell of impending doom in the ears of those who remain."

Want Surrender of All Italy
The Prime Minister said that the Allies hoped to obtain surrender of all Italy at one time rather than piecemeal and also have the Anglo-American armies enter the country as "rescuers" rather than "tyrants" who would have to "ice the Allies."

The Allied armies already at the portals of the Italian mainland, said, can bring "if the Italian people so decide, relief from war as freedom from servitude and, after an interval, a respectable place in the new and rescued Europe."

Britain is acting in concert with the United States, Churchill said, and he personally is in daily contact with President Roosevelt. Russia is being kept regularly informed of the decisions, he added.

Churchill received one of his greatest ovations from Commons when he entered the chamber smiling broadly, at the end of the question period.

The speech was interrupted frequently by cheers and laughter and another ovation followed at the end. Every seat in the chamber was filled and all galleries packed. Mrs. Churchill sat in the distinguished strangers' gallery and high United States officials and diplomats from many other countries also were present.

WAR BULLETINS

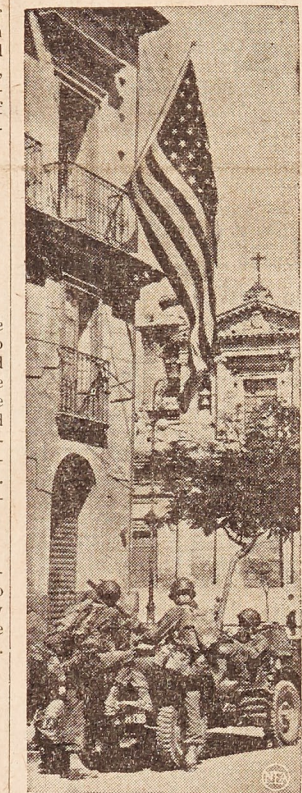

YANKS ADVANCE AGAINST JAP MUNDIA DEATH-STAND.

ALLIED HEADQUARTERS IN THE SOUTHWEST PACIFIC July 27.—(UP)—American forces in an all-out tank-led assault on Munda are advancing against a death-stand by the reinforced Japanese garrison, field dispatches reported today.

REDS CLAMP OREL.

MOSCOW, July 27.—(UP)—The Red Army has immobilized the last German main supply and reinforcement road to Orel, Nazi south-central front bastion, and breached Axis defenses 16 miles south of the city, front dispatches said today.

Sign of Freedom
There's an emblem of freedom flying in Sicily today—the Stars and Stripes—seen here above a group of American soldiers and jeeps in Gela.

Men Needed To Help on Piney Bridge

Laborers are needed to help finish the bridge over the Big Piney river west of here, according to Charles Maxwell, superintendent of construction there for the Hannibal Contracting Co.

Maxwell was in Rolla Monday afternoon recruiting labor for the job.

"We hope to complete the bridge this year," he said.

The bridge is on Highway 66 over the Big Piney near Devil's Elbow.

The plans are to complete the bridge and the deep cut and fill on either side of it, connecting with previous construction on Highway 66's widened road in that area.

Much construction has already been done west of the bridge, and a big cut completed east of it. When the bridge is completed and the highway ready for use on both ends of it, the construction will shorten the drive from Rolla to Fort Wood by some two miles and many sharp turns.
