Volume 31

(Featuring Activities of Students and Faculty of MSM)

Number 6

### PROF. HANLEY GIVES TALK AT AIMME

Upon graduation from MSM his introduction to the mineral industry was through the chemical laboratory to service a copper smelter under process of construction in Northern California, the Bully Hill Copper Mining and Smelting Company.

The ore, high in copper, gold, and silver, was to be smelted as it came from the mine in a blast furnace. Concentration was unnecessary due to the quality of the ore. Because of the complex nature of the substances present the ore was difficult to treat—barite, zinc, and silicates predominated.

Mining was also complicated because of clay layers between the edge of the ore body and the walls of the ore zones.

The slag, being composed of an unusual aggregation of minerals, added more difficulties.

The first slag analyzed indicated 40% SiO<sub>2</sub> by the established method of analysis, but when special tests were made the true value of 28% was obtained. This detail was stressed in the talk

since the first technical act demanded a checking of results before making a report.

During part of the several years of enlarged mining and smelting operations, diamond drill prospecting was conducted in search for additional copper ore; the spectacular result being the discovery of a large body of zinc ore of 25% grade. This discovery changed the status of the mine from copper to zinc with no developed process to treat the zinc ore.

During the past few years of operations it became increasingly important to take steps toward the removal of the solids from smelter to smoke. Two neighboring plants had made installations to do this—a bag house filtration at one and the first application of the Cottrell precipitator at the other. Since practical development of these smoke treating processes required much time and were very costly, it was finally decided to close copper operations and devote full time to the development of a process that would commercially treat the new zinc ore body.

### STUDENT COUNCIL FINANCIAL STATEMENT

At a recent meeting the Student Council voted to purchase \$170 in government bonds to be held until the war is over and then be used for a war memorial for the dead of the second world war.

The fund was originally started in 1942 at which time the Student Council voted to donate \$50 to such a fund to be added to by each succeeding Student Council. The original motion stipulated that some kind of plaque be included with the names of students of MSM who have been killed in the war to be engraved on it.

Following is a financial report of the Student Council which, according to school rules, must be published in the Miner at least once annually:

#### Credits

Sept. 10, 1944—Cash on hand.....	\$155.11
Sept. 30, 1944—Freshman Dues.....	55.00

### Curators Appoint Committee To Prepare For 75th Anniversary

#### PENNANT OWNER WILL GIVE FREE CIGARETTES

"Last week the Miner printed the plea of Diehl Montgomery—Mr. Pennant—regarding his property which has been annexed by the sundry organizations on the campus. To date there has been no response. This is not surprising as the Interfraternity Council discussed the same request, made through the Dean's Office, several months ago.

It was humorous pathos that Mr. Pennant added the oil to the pop-corn and poured the salt. "Whenever I ordered anything new for the Tavern in the old days, I first checked up on the enrollment at school to see how many to order. If I need a dozen ash trays and there were 900 Miners, I ordered 912 ash trays. I've had dinner at several of the fraternities and have sat on my chairs, used my cutlery, and drank from my tumblers. I know where I can get four chairs that originated at the Pennant. I could set up another table. Surely there aren't that many in the houses these days to require my chairs."

As mentioned last week, receipts will be given for the stuff so that future Miners can present same in exchange for chairs, silverware, ash trays, butter dishes, sugar bowls, napkins, or what have YOU?

For those who believe one in the hand is worth two up in smoke, Diehl offers free cigarettes as an added incentive. He didn't mention how many, but a gent who can be so generous as to bypass lawful procedures to recapture Miner booty certainly won't merely pass the makins.'

Come on, kiddies, send it back. It ain't yours and you know it.

### CVA TO HAVE SHOW FOR SERVICE FLAG

A benefit show will be given in the near future to raise money for a service flag that is to be presented to the school to honor all the students that have been in the service. It is hoped that enough money might be left to

The Board of Curators at the University of Missouri, upon the recommendation of Dean Curtis L. Wilson, has appointed a committee of ten faculty members to prepare a program for the 75th anniversary celebration of the School of Mines and Metallurgy. The school was established in 1870 and the first classes met on November 6, 1871. The committee, under the chairmanship of Dr. W. T. Schrenk, will prepare and supervise appropriate programs, ceremonies and events to be held some time during the fall of 1946, as close to the date of November 6, as is appropriate in order to fit in with the general school program.

Various alumni have been advocating an extensive homecoming program following the close of the war and it is hoped by school officials that the war will be over by that time and that the 75th anniversary celebration can be tied in with such a homecoming program.

The members of the committee, in addition to Dr. Schrenk, are Professors J. B. Butler, F. E. Dennie, H. R. Hanley, Paul G. Herold, W. J. Jensen, S. H. Lloyd, I. H. Lovett, A. J. Miles, and R. Z. Williams.

### FOOTBALL PRACTICE STARTS TUESDAY

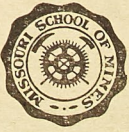

In a short meeting last Thursday, Coach Hafeli outlined plans for summer football practice and discussed MSM's pigskin prospects for the coming fall. According to Coach Hafeli, MSM will not meet any teams represented by Naval personnel. Games have been scheduled with Springfield Teachers, St. Louis U., Kirksville Teachers, and Cape Girardeau. Physical fitness and football fundamentals will be worked on most this summer. Practice will probably be held three times a week at 5 p. m. Equipment may be checked out in the stockroom. With only nine fellows showing up at the meeting, the coach would like to see some new faces out for practice.

## As a MINER Sees it

The "Miner" is going high falutin'! Just as syndicated columnists have guest writers, even as "A Miner Sees It" has a busybody fill up two columns of tripe for the ungastronomical Miner circulation.

To begin, we were told to make some reference about one D. Eason who reads, believes, and follows the advice of certain pharmaceutical house ads, whose names we do not mention only because they don't advertise in the "Miner." Mr. Eason was caught short while strolling on the golf course and made a bee-line for Mr. Sand's Snack Bar where he was accommodated in the little space behind the ticket office. We were told to tell Mr. Eason that many articles—paper towels and such—are not easy to obtain and that he should go home—or even stay home—on such future occasions.

And talk about being caught with the trousers akimbo, we wonder how Coach Hafeli felt the other day when talking of football possibilities with Stu LaBrell. The Coach had asked all who had any football experience whatsoever to make themselves known and Little Stu answered "Present." "No, I haven't played but when I was a senior in high school I had the same locker that the star half-back on our team had the year before."

The Coach's reply was not recorded.

For that matter I lay a saw-buck on a football parley now and then. Can I play too?

Hafeli would certainly have been up a tree if the Theta Kappa-Triple aggregation had won over the Independents last Tuesday. Each house on the campus had one representative on the Th. K-Triple team.

The Lamper Ki's didn't put the two bits in their water meter again. Hordes of the dirty little fellows from across the tracks made the long trek to Mr. Jackling's Gym in the name of Godliness. But we understand that they and the Pikes have a dance in a week and are preparing already. The Pikes, however, merely wade in their basement.

Dick Wiese had a hard decision to make about his date for the dance until Don Branson gave him documentary evidence that Mr. Wiese's lolly expected an invite. "What could I do?" he asks. We'll have to get a gander at her before we answer that one.

APO woke up with a start last week and gave everybody cut rates on the 15¢ per sale price they put on their Student Directory. And don't say it isn't right on the beam. "Pop" is properly listed as having moved from the Sigmanews, only minutes after the ceremony. Copies of this imitation red leather mound volume are available from any APO at a dime a throw. It even lists the names of all the secretaries of all the Offices and Departments though 667R (just tell the Butcher who you want—he'll call 'eh) has possibilities for a great play.

The Independents claim they never receive any blurbs in this column. Here 'tis:

## INDEPENDENTS

Satisfied?

"Uncle" R. A. Mathews, the little guy with the straw hat and his tongue in his cheek, gives us information about a conversation with Howie Fowler, regarding one Dean Brands. Fowler, nice mans that he is, insists in giving every sucker an even break. So, taking heed of "Uncle's" advice, we won't even mention that Brand's is a sucker for a right, and then a quick right and left from a couple of mere females.

"Give me eggs," Murray, it is reported, is shining the shoes of one Wee Willy Rutledge. Bill followed "GME" all the way to the Blackberry Patch and saw him do away with two chocolate sundaes, in opposition to Ginny's orders that he limit himself to two a week. Two at the Patch would have been OK if they hadn't been the sixth and seventh that week. Never fear, Robin, we won't squeal. Won't even say anything about how you throw thumb tacks around.

The gals of the town are amazed by the premium that Miners are putting on personality these days. Typical of a description of a blind date these days goes, "Nice face, nice figger, and a heck of a swell personality." Wonder how that personality got in there, all of a sudden?

Could be that the epidemic of draft board calls is persuading us to seek the finer things of life.

See you next week, Maybe. Don't raise the bridge boys—just lower the liver.

### CVA BENEFIT SHOW

(Continued from Page 1)

start work on a monument to honor those students that have been in the service. It is hoped that enough money might be left to start work on a monument to honor those students that have made the supreme sacrifice. We hope to secure not only the help of the student body but the faculty as well. An announcement will be made later as to the date of the benefit.

## INTRAMURAL Sports

### INDEPENDENTS ROUT THE BUREAU FOR CHAMPIONSHIP

The Independents kept their undefeated standing intact last night and won indisputable claim to the summer Intramural softball title. They trounced the second place Bureau of Mines team by the score of 18 to 0. Johnk, the winning pitcher, allowed only three hits and let only two Bureau players past second.

In the third inning, the Independents scored nine runs. After Wagner had made a great catch of Kuwamoto's liner into center, Eriv walked. Nomi doubled to left scoring Eriv. Broderick's Texas league double to left scored Nomi. Then, Spencer let Johnk's grounder through short for an error; Broderick going to third. Hayase got on first when White, the Bureau pitcher, taking Mush's grounder at the mound, failed to make a play. White fanned Eason, but Buchanan came through with a triple to center scoring three runs. Schaffer walked and scored after Buchanan on Gillham's double to left field. Kuwamoto, batting for the second time in the inning, doubled to center scoring Gillham, and he came home when Eriv singled through short. Nomi, attempting to bunt, was thrown out by Wells, the Bureau catcher.

They scored two runs in the first after Gillham had lined out. Kuwamoto beat out a hit to the pitcher. Eriv singled through second, and Nomi hit the first ball pitched for a long triple into deep left field scoring Kuwamoto and Eriv. The Independent's run in the fourth came after two were out. Broderick, who had gotten on base on Fine's error at third, scored on Buchanan's infield hit. Three Bureau errors, a long fly to center field, and three hits accounted for their final runs in the fifth inning.

The Bureau got men to third in both the second and fourth innings but failed to score. In the second, Kenworthy got on base after Johnk's error. After forcing Kenworthy at second, Starliper reached second base when Nomi, trying for a double play, overthrew first base. Wells singled to center, but Starliper stopped

at third. Eriv threw out Williams.

Kenworthy got on again in the fourth on Johnk's second error. Starliper lined out to Broderick, but Wells got his second hit, a single to center. The runners advanced on a passed ball, but Williams lined out to Nomi to end the inning.

White struck out six men; Johnk fanned one.

The box score:

Independents	AB	R	H	E
Gillham, lf	4	2	1	0
Kuwamoto, 1b	4	3	3	0
Eriv, 3b	3	3	3	1
Nomi, ss	4	1	2	1
Broderick, scf	4	3	1	0
Johnk, p	4	1	0	2
Hayase, cf	4	2	1	0
Eason, 2b	4	1	1	0
Buchanan, rf	3	1	3	0
Schaffer, c	3	1	0	0
Bureau of Mines	AB	R	H	E
Fine, 3b	3	0	0	2
Crabtree, rf	2	0	0	0
Wagner, scf	2	0	0	0
Spencer, ss	2	0	0	3
White, p	2	0	0	0
Kenworthy, 2b	2	0	0	0
Starliper, cf	2	0	0	0
Fitzgerald, cf	0	0	0	1
Wells, c	2	0	2	0
Williams, lf	2	0	0	0
Gorski, 1b	1	0	1	0

The runs per inning:

Independents	2	0	9	1	6
Bureau of Mines	0	0	0	0	0

#### SOFTBALL

The standings:

	Won	Lost
Independents	6	0
Bureau of Mines	4	2
Theta Kap-Triangle	4	2
Pi K A	3	3
Sigma Pi	3	3
Sigma Nu	1	5
Lambda Chi	0	6

Last week the summer softball schedule was completed. One

postponed game between the Bureau of Mines and the Independents will be played next week, and this game will decide the championship for the summer. The Independents have already cinched a tie for first place, because the Bureau team lost a 1 to 0 game to Theta Kap-Triangle early in the season.

The Bureau of Mines won their fourth game Monday night beating Lambda Chi 7 to 4. The Bureau got all their runs in the first two innings. The entire team batted in the first and jumped to a four-run lead. They pushed across three more runs in the second. Lambda Chi scored two runs on four hits in the first. In the third inning they scored two more off White, the Bureau pitcher, and that ended the scoring for the evening. Meenen pitched for Lambda Chi.

Tuesday, Independents ran away from the Theta Kap-Triangle team by the score of 8 to 1. The Independents scored two unearned runs in the first on a couple of walks, an error, and a long fly. They scored five more runs in the second inning. Two hits and a walk filled the bases.

## LAMBDA CHI - PI K A

The biggest weekend of the summer is coming up on July 20 and 21. The "Big House on the Highway" and the "Little Red Playhouse" are getting together to throw the "Summer Swing," what we hope will be a miniature of the St. Pat's celebration thrown by the two houses last spring.

The weekend will get off to a rousing start Friday at the Lambda Chi house with a dance from 9 to 1. The next night, Saturday, operations will switch to Pi K A for a continuation of the party.

Naturally all Miners with dates are welcome. Both dances will be informal so you can enjoy yourself to the utmost despite the hot weather.

Rustle up a girl for the weekend and come prepared to enjoy yourself.

## INTRAMURAL SPORTS

(Continued from Page 3)

Shaffer's fly to right field, and Gillham's hit to center scored two runs. The other three runs were scored on an infielder's choice and two errors made by the pitcher and catcher of the Theta Kap-Triangle team. Two hits and a walk resulted in the Independents final run in the fifth inning. Theta Kap-Triangle got their only run in the second on a walk and two singles. Every fraternity on the campus except Pi K A was represented on the TK-T team. Johnk was the winning pitcher, and Tappmeyer was the loser.

The Independents ran into some trouble Wednesday night when they took a close game from Sigma Nu by the score of 3 to 2. They won the game in their half of the fifth after two were out. A walk, Nomi's single, and Broderick's hit was enough to give the Independents team their fifth straight win.

Battling it out for last place, Sigma Nu won a close game from Lambda Chi Thursday evening. Sigma Nu won the game in the fourth inning when they scored

seven runs. The inning started with Fuldner popping a high fly in the infield. Confusion among the Lambda Chi infielder resulted in an error, and Fuldner reached first base. A couple of walks, a few hits, and some sloppy Lambda Chi fielding scored the seven runs for Sigma Nu. Sigma Nu scored their other run in the first when Kohrs walked, and Hechinger, playing for the Sigma Nu team, doubled to left. Lambda Chi's scores were registered by a couple of timely hits and three "fluke" home runs. In the last of the fifth, with two out and the tying and winning runs on the second and third, Daniels struck out to end the game.

## TENNIS

The standings:

SINGLES		Won	Lost
Pi K A		5	0
Sigma Pi		4	1
Theta Kap-Triangle		3	2
Sigma Nu		1	3
Lambda Chi		1	3
Independents		0	5
DOUBLES		Won	Lost
Pi K A		5	0
Sigma Pi		4	1
Sigma Nu		2	2
Lambda Chi		2	2
Theta Kap-Triangle		1	4
Independents		0	5

The activities on the tennis courts were nill so far as Intramural Tennis was concerned last week. The only two games scheduled were forfeited by Independents to Theta Kap-Triangle and Sigma Nu. A postponed game between Lambda Chi and Sigma Nu, rescheduled for Friday afternoon, was rained out. This is the only remaining game to be played in the summer schedule.

With Rutledge playing singles, and Sisk and McKelvey playing doubles, the Pi K A team went through the season undefeated to win both championships. Sigma Pi lost only one match in both singles and doubles; these matches going to Pi K A.
