ROLLA, MO., TUESDAY, MAY 7, 1946

NUMBER 30

## STUDENT CHAPTER OF A.S.C.E. HONORS NATIONAL PREXY AT BANQUET FRI.

At 6:15 last Friday, May 3, the Mid-Missouri Section of American Society of Civil Engineers, with the Student Chapter of A. S. C. E. participating, held a banquet in honor of the National President, Wesley W. Horner.

The banquet started off with a delicious club steak with all the trimmings. After the dinner, Prof. E. W. Carlton, Toastmaster, introduced life members, Past Presidents of the Society, Student Officers and Advisors. He then introduced the newly elected president of the Mid-Missouri Section, Garvin H. Dyer of Springfield, Mo. A short business meeting was held after which Prof. Carlton introduced National President, Wesley W. Horner.

Mr. Horner discussed the various advancements that the combined efforts of all Engineering Societies have made to increase the value of Engineering as a public service. He also pointed out that the joint committee of the five major professional engineering societies presented to the Senate, a plan for the complete de-industrialization of Germany. Those who were in charge of this work in Germany say that it was the only tool given them they could use. This result has banded the five societies together working for the common cause of all Engineering.

President Wesley W. Horner of St. Louis held an open discussion with student members on the current problems of Engineers, and those problems confronting the students graduating from Engineering schools. The discussion proved to be very interesting and informative. President Horner says, the demand for Engineers will not be met for three to five years, being very conservative in his estimate. This is the first time in the history of the Student Chapter, that it has been honored by a visit of the National President.

President Horner also put it clearly to the older member of the Society to aid the younger engineers in the ways of advice, opportunities and type of work to be undertaken, thus starting the young engineer in the right direction. After informal discussion the meeting was adjourned.

### CARLTON NEW PRESIDENT OF ASCE

Election of officers was held at the last meeting of the ASCE on April 30th, at Harris Hall, and plans for a proposed picnic to be held in the near future were discussed. The new officers to serve for the coming semester are: President, Paul Carlton; Vice-President, James Snowden; Secretary, Ken Vaughan; Treasurer, Walter Lidell.

An interesting film was shown on the dispersion of cement mix by the addition of a chemical compound. The film was followed by a short talk and demonstration by Mr. Lang from the Master Builders Company of St. Louis.

Plans for the picnic were left up to a committee, and will be announced soon. All members and their dates are invited to attend.

## Engineer Logan Speaks At A.I.E.E. Meeting Wednes.

Mr. E. W. Logan, Chief Electrical Engineer of the Emerson Electrical Mfg. Co., spoke to the MSM AIEE Branch last Wednesday night. Mr. Logan, a '37 graduate of MSM covered the viewpoint of the employer in selection and hiring an inexperienced engineer, and pointed out that the best way for a potential employee to meet the men who do the hiring is through AIEE contacts that start here in school. The employer assumes that the ones who are really interested in the work and would make the most profitable employee are the ones who keep abreast of progress in the professional field, and this is centered in the AIEE.

As a representative example of the average EE's work which at times has no apparent connection to electricity, Mr. Logan presented a coverage of the activities which he is now directing, namely, development research in the armament field. In conjunction with his report, he gave a brief demonstration of four types of electric strain gauges and presented a movie of the type used in analysis and design work.

Mr. Logan expressed his pleasure at returning to MSM for a visit, brief as it was, and stated his gratification so that many of the EE students here are interested in the AIEE. This meeting had the biggest Student attendance of any previous meeting.

## Graduate Gerber Receives Citation

The Legion of Merit has been awarded by the War Department to Colonel Theodore C. Gerber, a graduate of M.S.M., for his extraordinary record in preventing loss of life, property and war material in the manufacture of explosives while he was field director of ammunition plants at St. Louis, and chief of the Safety and Security Division, Ordnance Department, with headquarters in Chicago. The citation recites that the safety record of Government-owned explosives installations under Colonel Gerber's supervision was "the best for all manufacturing industries in the United States", and, it added, "his splendid performance of duty was an important factor in the maintenance of a continuous flow of explosives and ammunition to all combat zones, and a real contribution to the successful prosecution of the war."

Colonel Gerber is a graduate of McKinley Manual Training High School, Washington, D. C., and of the University of Missouri School of Mines, Rolla, Mo. He entered the Army in 1917 as a second lieutenant, Engineer Reserves, but served in the infantry during World War I. In 1920 he transferred to Ordnance and was engaged chiefly as a specialist in the manufacture of explosives and heavy ammunition. He was Division Ordnance Officer of the Philippines Division in 1929 under General MacArthur. He terminated his service as safety chief in August 1945 and resigned from the Army to accept an executive position in Certain-Feed Products Co., Chicago.

## Student Council Demonstrates New Life

### 150 Students Witness Frosh Bonfire; Show Sponsored By The Students Council

Around 150 students went to the upper football field last Thursday evening at 10:15 to take part in the annual freshman bonfire sponsored by the student council.

A small number of people were accountable by the fact that it was raining. Activities were held up for about a half hour, while the eager freshmen awaited a member of the student council to come and take charge. Lou Moore, Bob Fritzie, and a few other upperclassmen started the ball rolling with a few songs and cheers.

Together the freshmen and upperclassmen started the traditional fire. After various "sacred" ceremonies, the freshmen were allowed to burn their green beanies.

At 11:30 the aggregation of students proceeded to the Ritz theater where the freshmen performed a few more antics before seeing a free movie "Show Business." Many more students attended the free movie than attended the bonfire.

## Federal Housing Units To Arrive Here Finally

The ground is already being broken in back of the water tower on the campus for sewage facilities to 150 housing units supplied to M.S.M. by the Federal Housing Authorities.

A telegram Dean Wilson received last week read essentially as follows:

"Mr. O. R. Olmsted, Regional Director of Federal Public Housing Agency informs me that 150 temporary housing units have been approved for the School of Mines at Rolla, Missouri."

It is not yet definitely known when the units are to arrive, but installation fixtures are being made immediately so that when the units do arrive they can be erected without any unnecessary delay.

### New Book Store Rumors Arouses Interest Among Students On The Campus

The Campus Book Store, located at 205 West Twelfth St., next to the Engineer's Club, will open June 1. The building is being constructed by Mr. Raff, who also owns the present Sigma Nu house.

The store will carry a complete line of books and supplies.

The Campus Book Store is a unit of the Missouri Store Company from Columbia which has supplied the University of Missouri with supplies and books for thirty-eight years.

It is not known whether the store will be authorized to sell books to veterans under the GI Bill.

Doctor, taking Green's pulse: "What do you drink?" Green: "Whatever you've got with you Doc!"

### Weil Kallmeyer Elected New Prexy; Council To Petition For New Time System

Probably the most important organization, as far as the students are concerned, met again last Tuesday p. m. in the Club room to elect officers for the coming year of '46-'47. The

new officers are as follows: President, Niel Kallmeyer; Vice-President, Bob Johnk; Secretary-Treasurer, Paul Henning. On the general lectures committee, Chas. Stephens, Bob Johnk, John Masterson and Jim Kelly were elected to serve. Alternates were N. Mefford and B. Becker.

In the order of new business, a petition was drawn up asking that the time be set up one hour for the summer semester. This petition will be submitted to the faculty for their approval.

The intramural set-up as it stands now is doubtful, so the council is now taking steps to see just how much the students themselves have to say about intramural sports. More will be known about this in the near future. For the benefit of the golfers and tennis players suggestions were made to have new markers on the golf course and to have the tennis back stop on the west courts repaired.

The retiring officers were Jack Rother, Dick Mitchell and Rodney Schaefer.

## Alumnus Gerwin Awarded Citation

Harry L. Gerwin, an M.S.M. graduate, of the Office of Research and Inventions, Navy Department, has recently received a commendation from the Secretary of the Navy for research in, and development of, naval fire control equipment, while attached to the Naval Research Laboratory, Anacostia, D. C. His citation reads, in part, as follows:

"For outstanding performance of duty as Leader of a Fire Control Research Team at the Naval Research Laboratory from January, 1944, to September, 1945. A forceful leader of unusual technical ability, Lt. Gerwin was responsible for the initiation and development of a modern target designation system known as the Radar Mark 40 and he rendered service of inestimable value in an investigation which definitely established the limitations and capabilities of present Navy Fire Control radars in locating mortars, thereby contributing materially to the progress of the war. His initiative, energy, devotion to duty throughout reflect the highest credit upon Lieutenant Gerwin and the United States Naval Service."

Mr. Gerwin received his bachelor's degree in mechanical engineering from the Missouri School of Mines in 1938, and was an active member of the Engineer's Club. He entered the Naval service in September, 1941, and during 1942 attended radar school at Bowdoin College and the Massachusetts Institute of Technology. For one year he served aboard the U.S.S. NEVADA, and participated in the invasion of Attu.

## Daylight Saving Time At M. S. M.?

(AN EDITORIAL)

The student council at M. S. M. is a body elected by the individual organizations to represent the general opinion of the individual organizations from which they were elected. In that manner the students should have a representative opinion in the policies governing student action and affairs.

There is prevalent at this moment the matter of the Student Council submitting a petition to the faculty in order to run the school schedule on daylight saving time for the summer semester. The council has decided to submit a matter of this kind to the faculty without first ascertaining the majority opinion of the students.

Does the council realize the confusion that was caused in Jefferson City by having half of the city on standard time and the other half on daylight saving time? The solution to the problem was that the city council of Jefferson City made it obligatory for everyone to be on standard time. Wouldn't the same confusion prevail here in Rolla?

The school's daylight saving time, if it goes through, would mean to some men who eat in Rolla restaurants, who would have a seven o'clock class scheduled for the summer semester, that such men would have to attend class without their breakfast meal. We live here—eat here—go to the movies here—do our shopping here. We feel all these

things should first be considered before thinking of the extra hour of golf or tennis in the evening.

On page three is a ballot for unofficial vote conducted by the MINER to determine the majority opinion on whether the school should move the schedule of summer classes up an hour. Results of the poll will be published in the next issue of the MINER and they will further be submitted to the student council for their inspection. The ballot box will be in Parker Hall beside the MINER paper stand from Tuesday morning until Thursday evening.

## Tennis Team Loses Matches At Wash.

In the tennis matches with Washington University's squad, the Miners were not as fortunate as in the track meet. Washington took all six of the matches played Saturday, May 4, in St. Louis.

The MSM team offered little competition to the more experienced Bear netsters. George Hendry won the only love match, defeating Fred Canning, 6-0, 6-0.

The team's next appearance will be in the MIAA tennis tourney to be held in conjunction with the Conference track and field meet next weekend in Cape Girardeau.

Results:  
Singles—Bill Ziervogel, Wash. defeated Subramanyam, Rolla, 6-0, 6-3; George Hendry, Wash., defeated Fred Canning, Rolla, 6-0, 6-0; Bob Pearson, Wash., defeated Bill Fishma, Rolla, 6-0, 6-1; Bob Copeland, Wash., defeated Charles Ross, Rolla, 6-0, 6-1.

Doubles—Ziervogel and Hendry, Wash., defeated Subramanyam and Canning, 6-4, 6-3; Pearson and Bill Muenz, Wash., defeated Ross and Paul Henning, Rolla, 6-1, 6-1.

## Camera Club To Meet Friday to Discuss Future

At the regular monthly meeting of the Camera Club, Friday night, President Walter Liddell called a very special meeting of all old and new members for this Friday, May 10, at 7:00 p.m. Room 2, Parker Hall, to discuss future business of the club. All members are urged to attend.

## LECTURE PROGRAM BACK

For the information of the students of pre-war days who are back at MSM, and to those who may be interested, another peace-time feature of school life here is scheduled to return next semester, namely the General Lectures program. This program, which consists of a series of lectures, demonstrations, or performances by personages in the entertainment field, was discontinued in 1942 because of low enrollment. The Board of Curators has just approved the appropriation of funds for this purpose and the program will be resumed next fall.

The General Lectures Programs of the past have been the entertainment highlights of the school term, with the exception of St. Pat's and the Winter Carnival. Selection of the programs, which range from art or music to scientific demonstrations, and presentation of the programs are handled by a board composed of five faculty members and four students. Professor S. H. Lloyd, chairman of the board, Profs. V. A. C. Gevecker, J. B. Carpenter, C. A. Johnson and W. J. Jenson, compose the faculty membership, and Stephens, Johnk, Masterson and Kelly are the student members. In this way a cross-section of the student body is obtained, and with the capable direction and assistance of the faculty members a program of interest to all is assured, as attendance in the past has shown.

## UNIVERSITY DAMES

The M. S. M. chapter of the University Dames will hold their monthly meeting this Thursday evening at 7:30 p.m. The Dames organization is a group formed from wives of men on the campus and any student's wife is welcome to attend their spirited meetings.

## Blue Key Holds Spring Election; Initiation Thurs.

The Missouri School of Mines chapter of Blue Key, national honor fraternity, held its spring initiation banquet and election of officers at the Pennant Tavern on Thursday evening, May 2. Pledges formally accepted into the organization are William W. Bishop, Paul F. Carlton, Harry C. Dameron, Jr., Paul Henning, Jack Rother, and James R. Snowden.

Chapter officers elected for coming year are Paul M. V. President; Kenneth W. Vice President; Robert E. Jr., Secretary-Treasurer; Neuman, Corresponding Secretary; and Ralph Feldhaus, Secretary.

Following the banquet and initiation ceremonies Dr. Cur Wilson, Dean of the School of Mines, addressed the group. Members of Blue Key were Professor Frank E. D. who is also Chapter Faculty Advisor, and Mr. Noel Hubbard.

## Undeclared Trackmen Win Fourth Meet In St. Louis

The Missouri Miners, led by Johnny King, swept their fourth consecutive track and field meet last Saturday, May 4. Held at Francis Field in St. Louis, the meet was a triangular affair with Washington U., the host school, Cape Girardeau Teachers, and Missouri School of Mines. The final score read: Miners, 52, Cape Girardeau, 43½; and Washington, 39½.

King took both the two-mile and mile runs on a day that was anything but favorable for a track meet. A strong wind hampered the runners all day. Walter Lidell was again the scoring star as he ran up a total of 13 points for the day. This included a first place in the high hurdles, a tie for first in the pole vault, second in javelin throw, and third in the discus. Lidell's 11 feet 3 inches climb in the pole vault was the best mark he has reached thus far this year.

Other Miner firsts were: Fullop in the 100 yard dash and Stone in the 220 yard low hurdles.

This victory further enhanced

the Miner chances in the MIAA conference meet to be held at Cape Girardeau next Friday and Saturday, May 10 and 11. The team has an excellent chance of taking the meet and the victory would certainly be a fitting climax to a very successful cinder campaign.

### Results:

Mile run—Won by King, Rolla; Duncan, Wash., second; Tothill, Rolla, third. Time: 4:41.6.

440-yd. dash—Won by Reid, Cape; Clayton, Rolla, second; Jostes, Wash., third. Time: :51.7.

100-yd. dash—Won by Fullop, Rolla; Reid, Cape, second; Bergesh, Wash., third. Time: :10.9.

120-yd. high hurdles—Won by Lidell, Rolla; Stone, Rolla, second; Allmeyer, Wash., third. Time: :17.

High jump—Won by Forbey, Cape; Koenig, Wash., second; Launni, Cape, third. Height: 5 ft. 6 in.

Shot put—Won by Stewart, (See UNDEFEATED page 4)

## Engr. Club Takes Intramural Golf

The Engineers Club team won the intramural golf tournament, Sunday, on the school's course, with a total of 192 strokes for the thirty-six holes. Hogan stroked ninety times while traveling eighteen holes, while his teammate required one hundred and two strokes.

Jantolio, of Triangle, was the winner of the medal awarded for the low score, with a seventy-seven. Faser (Sigma Nu), Aubuchon (Pi K A) and Hogan (Engineers), shot good games but their teammates Mann, Phillips and Cooper, respectively, all stroked over a hundred. Hobelman (Kappa Sigma) was the T.S. man of the tournament, coming in with a score of one hundred and twenty-five.

The scores and team ranking are as follows:

First, Engineers Club; Hogan, 90, Cooper 102.

Second, Sigma Nu; Faser, 89, Mann, 104.

Third, Sigma Pi; Hequembourg, 96, Scholl, 98.

(Tie) Fourth, Pi Kappa Alpha; Phillips, 104, Aubuchon, 91.

(Tie) Fourth Triangle; Wilzer, 118, Pantolio, 77.

Sixth, Kappa Alpha; Carroll, 101, Bogart, 99.

Seventh, Lambda Chi Alpha; Gokenback, 103, Heineck, 107.

Eighth, Kappa Sigma; Hobelman, 125, Krath, 104.

"Say, Sarge, you've been up here in Alaska a long time. What is this Kee-Kee bird I've heard so much about?"

"Why, that's the bird that sits on the North Pole and keeps crying, 'Kee-Keerist it's cold!'"

## Slants On Softball

By Gene Tyrer

The intramural softball season was slowed down considerably in the last week with only three games scheduled. Thursday, May 2 found a doubleheader on the program and on Friday, May 3, a single game was to be played.

In the first game on Thursday, the Veterans Association shelved the Kappa Alpha team, 15-1. Kappa Alpha was completely outclassed as the Veterans held the game in hand throughout. The Veterans advanced to the semi-final round with the victory and will meet Sigma Pi in their next game. The winner of this game will be one of the participants in the final and championship game.

The other contest Thursday was between the Engineers Club and Pi Kappa Alpha. The Engineers, with Walt Lidell hurling, took the game, 6-2. Phillip's wildness cost Pi K A the game as the Engineers advanced to the semi-final stage in the consolation bracket.

A single game on Friday with Kappa Sigma opposing Lambda Chi resulted in a forfeit to Kappa Sigma. The losers were unable to present a team.

## Veterans Win Close Intramural Track And Field Meet

The Veterans track team today took the intramural track meet defeating the Pi Kappa Alpha team by a score of 29½ points to 29 points. The meet wasn't settled until the last event, the 440-yard relays in which the Vets outdid Pi K A by a margin of ½ second. The time was 46.5 seconds, which ties the record set by Theta Kappa Phi in 1942. Another record broken was the 880-yard run, which Turner of the Vets ran in 2 minutes, 8.9 seconds, bettering the mark set by Bush of Pi K A in 1941.

The Engineers' Club was third in the meet with 20 points.

The results of the finals are as follows:

50 yd. dash: Reeves, Engineers Club; Doelling, Sigma Nu; La Piere, Sigma Pi; Whitney, Vets. Time: 0:5.8.

100 yd. dash: Reeves, Engineers Club; La Piere, Sigma Pi; Clay-

unanimous vote for Meramec Springs as the site for the picnic.

Activity groups are in the making for the purpose of overall acquaintance within the organization. These will probably be divided as to those interested in sports, dramatics, bridge, sewing, music, and literature of various kinds.

Committees were selected; one to plan the contacting of new students wives, and another for the purpose of selecting a "homier" atmosphere than the bare walls of the Met. Building for future meetings and social gatherings.

this section of Missouri, this month. Dean Wilson will speak at Newburg, Union, Owensville, and Potosi; Dr. Paul G. Herold at Somerville and Jackson; and Prof. E. W. Carlton at Myrtle, Mo.

The large number of requests for commencement addresses by the faculty of this school is a pleasing reflection upon the reputation and prestige of the school and its components, and is an indication of the growing education-consciousness of the people of Missouri.

# Off the Campus

## Independents

Last Monday evening, April the twenty-ninth, the Independents Organization of Missouri School of Mines elected officers for the coming school year. The

president of the organization is Bob Johnk, a junior in the Chemical Engineering Department. The Vice-President is Earl Hogan, and the Secretary-Treasurer is Rodney Schaefer. Eight men were elected to represent the Independents on the Student Council. These men are Melvin Kallmeyer, Paul Henning, Earl Hogan, Charles Carlberg, Bob Johnk, Don Mathews, Bob Schuler, and James Kelley. Alternates for these men are Rodney Schaefer, John Fishman,

John Buchanan, Bill Jacoby, Herb Stein, and Joe Roberts.

On Saturday, May eleventh, the Independents will hold their spring outing. The place has not been definitely chosen as yet, but it will be held somewhere in the close vicinity of Rolla. The time of the outing will be 2:30 Saturday afternoon.

## Sigma Pi

The Alpha Iota Chapter of Sigma Pi held their first annual "Inside Out Dance" last Saturday night, May the fourth. The dance, which was held at the Alpha Iota Chapter House, was acclaimed a grand success. A lawn party was held outside while dancing was being conducted within the house. This was the first dance of its kind to be held at Missouri Mines,

and the Sigma Pi boys are planning to make it an annual presentation.

A large number of both Rolla and out-of-town dates attended as guests of various Sigma Pi's. Some of the local belles who attended the dance with Alpha Iota men were Arlene Comstock, Katy Harris, Jenette Beckman, Marilyn Comstock, Rosemary Williams, and Helen Haigravis. Out of town dates included Helen Traver, Roberta Onby, Mrs. Audrey Collier, Mrs. D. Hecquemburg, Mrs. J. Hepp, Mrs. R. Hall, Mrs. R. Livingston, and Mrs. N. Wood. Prof. and Mrs. R. L. Whiting and Dr. A. Marsh were chaperones.

## Pi Kappa Alpha

This coming Saturday night, May eleventh, the boys from Pi Kappa Alpha will present their annual spring pledge dance. The dance will be of semi-formal nature, music being supplied by Charlie Faulkner's band. The hours for the dance have been set from ten until two. Pi Kappa Alpha cordially invites all Miners with dates to come by the Chapter house this Saturday night and join in the fun.
