THE MISSOURI MINER

Missouri School of Mines & Metallurgy

ROLLA, MO., WEDNESDAY, MAY 7, 1947

NUMBER 29

VOLUME 33

ROTC Unit To Have Federal Inspection

The Federal Inspection of the ROTC Reserve Officers Training Corps of the School of Mines will take place here, Thursday and Friday, May 22 and 23. The whole two day period will be devoted to extensive inspection of the unit as a group as well as to inspection of the individual cadets. There will be four inspectors from the Seventh Service Command, Headquarters, Omaha, Nebraska, including one senior officer. All basics and advanced students will be excused from all other classes for this inspection. The inspectors will judge the proficiency of the unit and report their findings to Headquarters.

There will be some change in inspection procedure this year from previous methods. This year tests will be written except field problems, one of which will be in Military Sketching.

Advanced Corps Students (M1) and the other being closer order drill by the entire unit, including the ROTC Marching Band.

Close-order drill, which will be a formal parade, will take place on the football field Thursday afternoon.

Participate in Drummer's Convention Parade.

Friday afternoon the unit, with the Band, will participate in the summer's Convention Parade.

Will march through downtown Rolla. This Drummer's Convention is a meeting of this organization for this whole section of the state, also being held here in Rolla the entire weekend.

Following this event, the unit will return to the drill field to participate in a "Compet" being sponsored by the Rolla Reserve Officer's Association. This competitive period will include contests between companies, platoons, squads, and also between the individual cadets. Awards consisting of streamers, ribbons, and medals will be given for the winners in the matches.

The unit meets with favorable approval from the inspecting officer. Each man will be entitled to wear the blue star on the sleeve of his uniform, signifying that the ROTC Unit of MSM is a standard.

Leather Park was the scene of a typical miner fiesta at 4:30 p. m. last Wednesday when Theta Tau held their annual "spring out."

Prof. Butler, in the role of a tender, provided the versatility of the Civil Department. He demonstrated the versatility of the Civil Department's new methods of mining bottles, recently developed by "night hydraulics lab" students after long and diligent research.

Highlight of the afternoon was the football game, in which the act and the umpire were opposed to the pledges. The pledges won 26, in spite of heroic efforts of the part of "hificals" Collins, who officiated as chief band-o-pis on the ground before going to the ball. Some of the pledges found it difficult to catch the drive while holding a hot in their hand.

The usual miner songfest followed the game, and continued right to the last case, with Bob and Don Griesedieck leading the group through the entire "Penny Taven" repertoire. The harmony may have been a bit rusty, but this slight drawback was more than compensated for by the volume and enthusiasm, which were somewhat more than efficient.

Time o'clock saw the end of the night, the "spring tonic" and list of songs, so the remaining Theta Taus regretfully took leave of Leather Park, and went home to the soft muscles, hoarse throats, and a wonderful "springtime

Pianist Receives Ovarions From Miner Audience

J. F. McCarthy
Jesus Maria Sanroma, one of the greatest pianists in America, played before, fascinated, and completely entertained a large part of the student body Monday evening at the Uptown Theatre. His program, difficult, to say the least but very well executed, ranged from the tedious "Rhapsody in G Minor" by Brahms to the tricky Polichinelle by Villa-Lobos. At times Mr. Sanroma's fingers faded into a blur, and it seemed as if the piano could not keep up with him. He responded to the enthusiastic applause with encores of Clara de Lune and the greatest American classic, Rhapsody in Blue — which he played in its entirety. The classics came to a halt, and apparently there are longhairs enough among us to appreciate it!

In an interview earlier in the day, Mr. Sanroma confided that he was a "little uneasy" about appearing in Missouri because of competition. He said, "Yes, Missouri is the home of one of the most famous of pianists — Mr. Truman."

Very fond of statistics, he stated that he has played over sixty-five concerts since last October and has but three to go to complete his present tour before he can return to his home in Boston. He doesn't mind the tours however, and is almost fond of bus travel because he "gets to know the people better."

Strangely enough he carries no music with him on these tours but commits all of his work to memory. And this is only one of five concert groups that he is currently playing!

Mr. Sanroma will return to St. Louis next January to appear with the St. Louis Symphony Orchestra, so that those of us who enjoy him so much this time might get the chance to see him again.

Frosh To Finance Free Dance With Benefit Picture

Charlie Faulkner's orchestra will play from nine to one Friday night, May 16, as this year's Freshman Class follows an old pre-war custom of the school by sponsoring a dance for the student body. The dance is to be informal and free to miners and their dates.

"We don't have quite enough in freshman dues to pay expenses, but didn't want to have to charge an admission," said Ivan Bounds, the class president. "To make up the deficit, we hope, we are having a benefit show Wednesday and Thursday nights before the dance."

"It's going to be a good show and a good dance," continued Ivan. "We're expecting to have entertainment of some kind at intermission, but haven't quite decided yet what it will be. I don't think anyone will regret attending either function."

The benefit show is at the Uptown Theatre Wednesday and Thursday, May 14 and 15. The feature on the program is "The Man I Love," starring Ida Lupino and Robert Alda.

The freshman class has been quite active this year in intramural sports as a group and in the other activities of the school individually.

Since there will be 1000 veterans interrupting their training for the summer semester, it is requested that you give this directive your immediate attention in order for the Guidance Center to get these forms properly executed and forwarded to the St. Louis regional office in order to enable the May and June subsistence checks to be mailed on time.

These VA forms and instructions also apply to veterans who are leaving this institution due to graduation or to those veterans who are requesting a transfer to another training institution.

All veterans are urged to check their receipts carefully when purchasing books, supplies, and other items from the local book stores. The veteran should be sure that he receives all items that are listed on the purchase slip before he signs the receipt. This will cause the veteran's entitlement to be charged with an item which he has not received. Therefore, he would not be permitted to purchase the omitted item at a later date. Be sure you know what you sign and you check your purchase slip closely.

Photo Club Election Held Friday Night

The MSM Photo Club met last Friday night, May 2, 1947, to elect the officers who will serve for the coming year. After due discussion and much confusion due to the absence of so many members, the following men were elected to hold office: Al Deichmann, President; Ralph Jurgens, Vice President; Ralph Padfield, Secretary-Treasurer; and Bob Hansen, Darkroom Custodian.

The members were reminded to have their salon prints in by May 10, 1947. The exhibition will be held in the halls of Parker Hall the week beginning May 12, 1947. As many pictures as possible are desired so as to make the exhibition worth while.

VA Warning On Transfer Plans For Summer

With the end of the 1947 spring semester rapidly approaching, veterans attending college under the G. I. Bill should begin to make necessary arrangements with the Veterans Administration if they plan to transfer to another school for the summer session.

Those who intend to continue their education at a different college this summer should apply to VA immediately for a supplemental certificate of eligibility. It is necessary that applications be filed with VA well in advance of the end of the spring semester, in order to insure receipt of the certificate by the veteran before he enrolls in the new school.

VA emphasizes that the veteran MUST have his supplemental certificate before he enters another school.

A veteran may obtain an application for a transfer, or training officer at the school he is now attending, or from any office of the Veterans Administration. When he has filled out the application, he should send it to the VA regional office having jurisdiction over the school he is now attending. That office is the only one authorized to issue the supplemental certificate.

Cooperation by veterans planning to move to other schools will help to eliminate delays in receipt of subsistence checks, VA points out. In addition, the veteran will find the process of transferring to another school considerably simplified if he has obtained his supplemental certificate well in advance of the contemplated transfer.

Releases Must Be Obtained From VA Before Summer

All veterans who plan to interrupt their training at the close of the spring semester on June 3 for the summer are directed to report to the Veterans Administration Guidance Center before May 20 to execute VA forms in order to leave the veteran in good standing with the Veterans Administration. These forms must be filled out prior to the time the veteran leaves school in order for him to receive his May and June subsistence checks.

The veteran is allowed 2 1/2 days leave for each month he has been in training. However, a maximum of 30 days may be requested at any one time. This leave time is deducted from the veteran's total time of entitlement should he request to be paid for this accrued leave. Request for leave must be made at the time the veteran clears with the training office prior to his interruption of training.

Since there will be 1000 veterans interrupting their training for the summer semester, it is requested that you give this directive your immediate attention in order for the Guidance Center to get these forms properly executed and forwarded to the St. Louis regional office in order to enable the May and June subsistence checks to be mailed on time.

One Reason For Our Newspaper

This is merely a brief memo to the organizations on the campus. The MINER exists for students; it is the organ by which all events and trends of thought of the student body are expressed. Are you making the most of it? There are several extra-curricular groups that are, and they are progressing. If the attendance at your meetings is low, have you thought of getting your events before the student body through the MINER?

The enrollment at the School of Mines is so great now that the spreading of news via the campus grapevine is not efficient. If, when organized news or remarks, they may be assured that they will be given complete coverage. However, we can only write the news, not make it.

Does your organization have a publicity director? Are reports of your past events and notices of your future plans appearing in print in time to assure a good turnout? A lot has been said about the power of the press, and if you want to see results, investigate the attendance and interest in the organizations that consistently have news for the MINER.

Again, let the MINER help you. If your group is planning an event, or if you are trying to increase your membership, interest and attendance, try a little publicity. It may seem like a small matter, but here is the invitation to give it a try.

If the papers representatives haven't been seeing you, that is our fault, but a word to us on that will remedy it instantly. Remember that this paper starts to press over the weekend, and the Friday before the week of the event is the time to have your news ready.

Inconsideration On The Campus

A service fraternity on this campus is at present conducting a "Keep off the Grass" campaign. Every student has surely seen the numerous signs placed in unsightly spots around the school. This organization is contributing a real service to the school by this campaign.

However, it has been observed that many of these signs have been pulled up, broken, or defaced. It is difficult to visualize what goes on in the minds of the students who are responsible for this damage, and what their motives are. Are they half-baked morons who rebel at the sight of a little constructive effort? If this is the solution, there is little that can be done; but we think that there must be other reasons than this. It is that a group of students have such a hatred for MSM that they don't care to see any effort toward improvement accomplished. The solution may lie there, the damage being done by the same fellows who support the school activities "so well". It can't be due to a resentment of the sponsoring organization; it just isn't logical that supposedly intelligent fellows would kill a good project for this reason.

Whatever the reason is for the damage done, let's cut it out! In the past, this same project was well-received and enforced by the students themselves. There is no logical reason why anyone has to carry out his urge to destroy at the expense of a good idea like this. If you do happen to be a moron, pursue your moronic past-times in a less destructive way.

The foreign exchange credits of the United States dropped off sharply over the weekend as a result of heavy importations from Scotland by miners. The efforts of the purchasing agent of one of MSM's, fraternities to provide the wherewithal for a fine weekend led to his nomination for Knight Commander Of The Garter, a word of admonition from the Assistant Secretary of State, an anxious enquiry from the New York Board of Exchange, and a case of samples from a big firm handling exclusively domestic merchandise. What a close knit world we live in.

Hurray for our side! During the past few weeks prices here in Rolla have started downward. Let us keep them going downward. Forget all this honey put out by the press agents for the National Association of Manufacturers for high prices. The NAM broke the back of the OPA, crying that supply and demand would establish just prices. That is where we come in. We are the demand and if we refuse to buy any merchandise priced too high, we can establish just prices in a short while. In our competitive society, the buyer determines the market price. Buy with discretion and watch the prices drop.

The War Assets Administration has listed as surplus at Fort Leonard Wood a number of small desks suitable for study desks. Would it be possible for some student organization to purchase these desks for resale to the student body at a small margin of profit? Desks are a very scarce item. Think it over.

Blue Key, how about a report on the progress of our students union?

To the high command: Is it possible to change our school curricula slightly, placing more emphasis on the training of the miner in the exercise of logic and reason and less emphasis on the accumulation of knowledge through rote, cook book, and substitution in formula?

Here it is, the seventh of the month only, and I'm badly bent already. Where the hell does the money go?

Now there's even a short gossip item: Those folks who are looking down their noses at Bill Nesler should realize that there's no cure for being given the air by a woman like another woman.

Off the Campus

Pi Kapa Alpha
The final dance of the Spring semester was held at the House on the Highway last past weekend, and a big time was had by everyone attending. The festivities for the week-end began with an informal party at the house Friday night. The big news of the party was released when Rich Sartorius, the present House Manager, announced that he had completed negotiations for securing a new house manager by hanging his pin on Ruth Bringer, a ZTA at Washington University. Ruth's home is in St. Louis.

Saturday afternoon the house was deserted in favor of Montauk State Park, where the fellows and their dates relaxed and enjoyed the beautiful scenery and sunshine. Harry Kuhn had the first mishap of the afternoon when he started to go wading and ended up doing a beautiful but untimely swan dive in the middle of the stream. After this slight mishap, big "H" rejoined the party attired in a sarong and a sunhat. Perry Aubuchon also had a similar accident when he tried to cross the stream and was caught in the terrific current. How he managed to salvage the drink in his hand will never be known.

Saturday night everyone return-

Second Pair Of B.M.O.C.'s At M.S.M.

Peter P. Vaida

The Captive Poet

(with apologies to Francois Villon)

If this weren't spring,
Ah Love, if this weren't spring,
I know you wouldn't have that ring.
I wouldn't sit here at your feet
Adhering, humble and let you treat
Me like you do, my Sweet.

I'd be away with bosom friends
Searching where the rainbow ends.
A lift to find it, still such lends
For life's elusive jest
Is nothing if it's not the best.

Oh but it is Spring! And here
I rest enraptured and cheer
At every word of love or jeer.
Nor ever "No" do I reply
To any uttered wish or lie
You use to forge more tight that tie.

But just one word of caution, Love,
Push not too hard. To shove
Is sweet. But, Dove,
A new-placed yoke is tossed
Aside and quickly lost
By one who WON'T be bossed.

ed to the house and danced to the music of Charlie Faulkner's band. Brief intermissions on the lawn under a full moon and a gentle breeze, balanced a perfect evening.

According to the latest information available, the number one man of the fraternity, Wayne Golub, has completely lost his heart to a certain little Alpha Gamma Delta at Missouri University and from all indications last week-end it seems as though the feeling is mutual. Juanita Steiner's favorite expression over the week-end seemed to be "Where's my date?" However, Juanita's man "Sneaky" Fuller, wasn't really trying to ditch his gal but his absence was due to the fact that he was social chairman and spent a lot of extra man hours making all the plans and last minute preparations for the week-end, in order that everyone could enjoy themselves.

The chaperones for the dance Saturday evening were Mr. and Mrs. V. A. C. Gevecker, Mr. and Mrs. K. E. Born, and Mr. and Mrs. G. C. Boyer.

Gamma Delta
The Alpha Phi Chapter of Gamma Delta (social organization of Lutheran students) will be host on May 18th to the Alpha Chapter from Washington University. The St. Louis group will arrive for the morning service, which will be followed by a tour of the campus. The afternoon will be spent at Green Acres Park, with a banquet

One MINER selection for B.M.O.C. this week is Peter P. Vaida. "Pete" was born in the far off place called Milan, Italy some 25 years ago. He came to the States in the early 1930's and lived with him family in High Bridge, New Jersey.

Pete entered M. S. M. in September of 1940 and stayed until he joined the Army Air Force. While with the Air Corps he flew in B-26 and A-26 aircraft and participated in some 44 combat missions over Germany. He reentered M.S.M. in January of 1946 and will receive his B. S. in Mechanical Engineering this June.

Pete's activities are many and varied, but some of the more outstanding ones follow: Associate Editor of the MINER for 1946-47 and in this capacity he wrote over 50 per cent of the editorials bringing about such improvements as the traffic light at 12th and Pine and the Abolition of advertising at one of the local theaters. While holding this office he also held the office of Business Manager of the Rollamo for 1946-47, and as such, he was instrumental in the production of the 75th Anniversary edition of the Rollamo, which is the largest to date. He was also instrumental in the reactivation of the Rollamo-MINER Board of Control. Pete is also an active member of the Lambda Chi Alpha Fraternity where he has held the positions of House Manager, Business Representative, and Social Chairman; also participating in Intramural Boxing, Track, Basketball, and Baseball.

Besides all of this, Pete managed to carry 25 hours last semester and earn 49 grade points. After graduation Pete will work for the Exact Level & Tool Mfg. Co., of High Bridge, New Jersey. The other selection is J. Hartley Locher. Little did his parents realize that on October 30, 1921 they were bringing a B.M.O.C. of M.S.M. into the world. At that time, they were living in Cushing, Oklahoma but a short time later moved to East St. Louis, Illinois where he lived the remainder of his childhood.

In September of 1940 J. started his college career here at M.S.M. but after his freshman year he left to work in the Aluminum Research Laboratories in East St. Louis. J. returned to his alma-mater in June 1942 but the following June he was required to leave once again, only this time joining the Aviation Division of

in the evening at the church. An invitation is extended to all Lutheran students. Those interested in attending please contact Wilbert Stoecker, phone 232-J before May 15th.

There will be no meeting of Gamma Delta on Mothers' Day.

Kappa Alpha
Beta Alpha Chapter of the Kappa Alpha Order celebrated its forty-fourth year on the campus of Missouri School of Mines by presenting its Forty-Fourth Anniversary Dance last Saturday night. This was one of the first dances to be held at the Pennant Tavern in many years and all agree it was a great success. Dave Lane and his orchestra supplied the music for the dance in their first local engagement since their formation several months ago. Everyone at the dance will agree that this band and their theme, "More than You Know" will become very popular in Rolla and its vicinity. Kappa Alpha presents laurels to this band.

The weather Friday night prevented the planned hayride, but an excellent house party took its place and everyone had a grand time. Dates were present from Lindenwood College, Washington University, Missouri University, St. Louis, Kansas City, Springfield, and Rolla.

By the time the KA's have their next dance they hope to be occupying their new house at Fourteenth and State.

-- The Marriage Ring --

April Showers!

All April showers lately haven't been rain. Betty Novotney and Betty Tracy gave a shower for Marian Cappellet. Those who participated in the OH and AH-ing were Mrs. Cappellet, Sr., Sue Bennett, Mrs. Jelinek, Micki Beverage, and Jane Applebaum. Games and Tripoli were played before enjoying Angel Food Cake with Whipped Cream, ice cream and coffee.

The regular bidge club given by Mrs. Frank Hequemberg for her group turned into a pleasant surprise shower in honor of Mary Lou Hepp. Four extra guests were invited. Beautiful gifts were unwrapped and exclaimed over before the girls settled down to win the prizes offered for the night. Strawberry Short Cake and Whipped Cream, and Coffee were enjoyed by Fran Hoey, Betty Brixius, Ann Mae Burzewski, Betty Tracy, Betty Novotney, Sue Bennett, Flo Gardner, Iris Wicker, Ginny Snider, and Betty Todd. Course Mary Lou and Ginnal liked it too!

Rolla Visitors!

Gibby Blake of Webster Groves, Mo., was an overnight guest of the Bob Applebaum's. Gibby is Bob's best friend and was Groom's man for his wedding. He dropped in unexpectedly Monday night, but Jane said she managed to turn out quite a supper. The honor of becoming their first overnight guest is also his.

Weekend guests of the Slyde Stauffers were Major and Mrs. Rife, who are stopping in Rolla en route to their home in Idaho. Major Rife was a member of the Army Intelligence General Staff, while his wife was Mrs. Stauffer's

friend in their native Salt Lake City.

Cards 'n Chatter

Alice Stauffer played hostess at another event recently when she entertained three tables of bridge. Among those present were Helen Smith, Virginia Martin, Dotie Lamb, Fay Vaughn, and Betty Wilks. Others guests were Ruth Sax, Fern King, Mary Frances Berry, Katie Wickizer, Dottie Eck, Frances Bennett, and Barbara Nelson. Everyone braved the Tuesday evening thunder storm to enjoy Staff's hospitality and the company of one another.

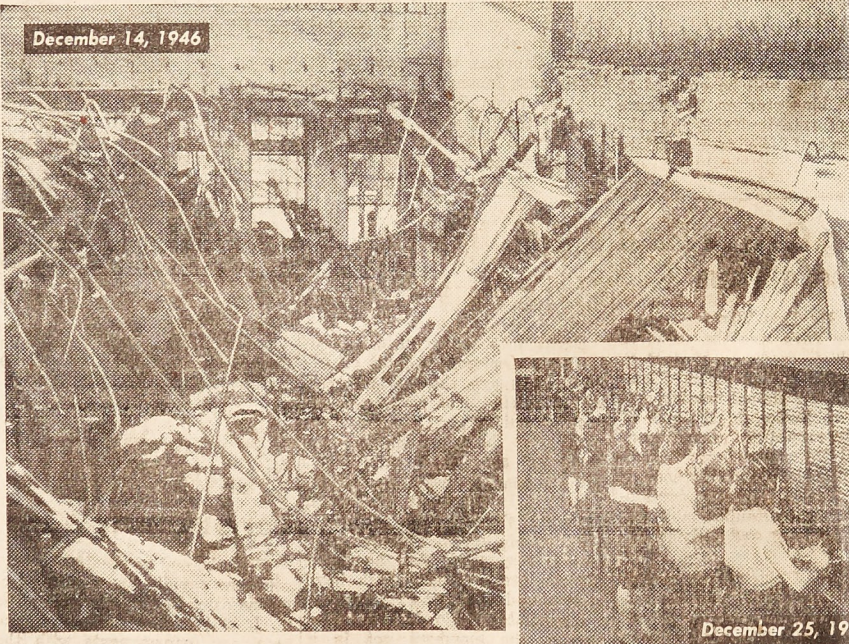

Another bridge party was thunder-showered on Tuesday when it met at Pat Gooding's for an evening of bids 'n banter. Gloria Walter, Ann Pufforet, Ruth Eadie, Betty Todd, Dorothy Zurheide, and Jean Parks were on hand for the coffee and Pat's special concoction, "Angel Supreme." The party ended with a discussion of the coming picnic.

Micki Beverage played hostess for her group last week. Sue Bennett, Janie App, Audrey Christa, Lois Fullop, Justine Merritt, Isabel MacCormack, and Pat Brasfield were served angel-food cake and coffee after a fatiguing hour or two of the Rolla pastime bridge.

The Bob Phillips left their young son long enough the other night for a bit of gallivanting. They were among the Junior Ch guests to enjoy the buffet supper and dance at the Pennant. The completed the evening by entertaining a few friends for coffee.

MODERN DRY CLEANERS

How a city's voice was restored!

Early on December 14, 1946, flames gutted the Central Office at River Grove, Illinois. Telephone service for 10,000 families ceased to exist.

Even as the fire burned, restoration work was begun. Emergency telephone headquarters was set up. Mobile equipment arrived to handle calls of first importance.

Telephone men from distant points came to aid the local forces. Bell System standardization proved itself again for all men were able to use the same methods, the same tools, the same Western Electric equipment. From Western Electric plants

hundreds of miles away the needed supplies—the right kinds and amounts—were started toward River Grove.

In a matter of just 11 days... a record accomplishment... two Quonset huts were erected, new switchboards installed, splices and connections made. River Grove's communications system was restored.

Planning well in advance for both emergencies and normal growth, is a task of telephone management. The many and varied problems presented offer a stimulating challenge—promise adventure and opportunity—to men who choose telephony as a career.

Tracksters Tops In M.I.A.A. Meet Sat.

by G. E. Raymer

Last Saturday MSM defeated Springfield and Kirksville in a triangular track meet held at Springfield Field. The Miners outdistanced their opponents with 76½ points as compared to 51½ and 46 points, respectively.

The surprise of the meet was the defeat handed King of MSM the mile run. King had been undefeated this season in both the one and one mile runs. Dehe Porte of Kirksville followed King closely for three laps and went ahead in the last lap in a time of 4:57. King, however, continued his winning ways in the two mile run.

Garcia, Springfield, who is probably the fastest man in the MIAA conference pulled a muscle in the pole vault and wasn't able to compete in any races, thereby unseating points.

Springfield, a freshman from Springfield, is going to be a man to watch the next three years. He cleared 12 feet in the pole vault, winning the event. This was the first time he had vaulted over 11 feet.

Burke, one of the finest hurdlers MSM has boasted in many a year, failed to take a first when he stumbled over the last hurdle and was given a second. He actually hit the tape first but was disqualified for first.

RESULTS

100 Yd. Dash—1st, Bleigh, (K); 2nd, Kirk, MSM; 3rd, Allen, (S); 4th, Place, (K). Time 10.3.
200 Yd. Dash—1st, Kirk, MSM; 2nd, Bleigh, (K); 3rd, Allen, (S); 4th, Pink, (K). Time 23.1.
400 Yd. Run—1st, Glazier, (S); 2nd, Bush, MSM; 3rd, Carlton, (K); 4th, Gourley, (K). Time 2:30 p. m.

800 Yd. Run—1st, Turner, MSM; 2nd, Rae, (S); 3rd, Tothill, MSM; 4th, Calhoun, MSM. Time 2:00.
1 Mile Run—1st, Dehe Porte, (K); 2nd, King, MSM; 3rd, Ruff, MSM; 4th, Mann, MSM. Time 4:57.
2 Mile Run—1st, King, MSM; 2nd, Martin, (S); 3rd, Cates, (K); 4th, Mann, MSM. Time 11:00.
400 Yd. Hurdles—1st, Osbourne, (S); 2nd, Burke, MSM; 3rd, Holt, (K); 4th, Sloan, (S). Time 28.0.
800 Yd. Hurdles—1st, Whalen, (S); 2nd, Liddel, MSM; 3rd, Kenyon, (S); 4th, Sloan, (S). Time 1:12.
1 Mile Jump—1st, Rice, (K); 2nd, Kirk, MSM; 3rd, Liddel, (S); 4th, The between Place, (K). Time 21'8".
2 Mile Jump—1st, Winning, MSM; 2nd, Hall, (S); 3rd, The between Place, (K); 4th, Height, (S); 5th, Stig, (K). Height 6'0".
3 Mile Vault—1st, Anderson, (S); 2nd, Volles, MSM; 3rd, Shelton, (S); 4th, Grimley, MSM. Time 12'0".

Three Miner Gridiron Stalwarts For 1947

JIM McGRATH

GEORGE EADIE

BOB KEMPER

Bob Kemper, George Eadie, and Jim McGrath pictured above are making strong bids for starting berths on next year's football team. Bob is a left handed passer, and was regular quarterback last year. Eadie is a candidate for starter at end. George played lots of ball last year, but with McGrath and Hazelett gone he should play lots more this year. Jim, popular president of the "M" Club has been moved to end to fullback. He is expected to be one of the leading ground gainers for the Miners next year.

No Credit For Summer Duty

Army and Navy Reserve personnel will not obtain added credit toward G. I. schooling by reason of being recalled to active duty for 15-day training periods, according to a decision of the Veterans Administration.

The VA holds that these training periods do not constitute active duty for purposes of entitlement to increased educational benefits under the G. I. Bill, nor may such periods be counted toward establishment of the qualifying period for educational benefits.

This ruling, however, would not apply if the call to duty were for an indefinite period and the veteran served for 30 days or more. In general, an eligible veteran of World War II is entitled to one

The man had just saved the little boy from drowning and was being questioned by the boy's father. "Are you the man who saved little Johnnie from drowning?" "Yes, I am."

"Well, where the heck is his hat?" A crude fellow was pouring abusive language upon a Quaker who stood enduring it meekly. But the reason that But, when the vigor of the invective was doubled, he approached the other and said gently but forcefully, "Take care, my friend, lest thou runneth thy face against my fist."

year's training or schooling at government expense, plus an additional month's training for every month of active duty up to a maximum of four years.

SPORT SHORTS of ALL SORTS with BERRY

Johnny King, Miner trackster, finally met defeat. He lost to Kirksville's great miler, De La Porte, in the meet last Saturday. De La Porte was the Missouri State Champion in high school and set a pace that King just couldn't keep up with. King easily won the 2 mile however and promises a victory over De La Porte in the conference meet Saturday.

Moose Carafiol, ex Miner star, and Prof. Speece are helping out during spring football. Carafiol played fullback here last year and played during the war at Iowa State. He also coached the Navy junior varsity at Annapolis. Speece is a former guard from Cornell University of Ithaca, New York.

Not all footballers are bums — which is the belief of many. Warren Ambling, all-American from Ohio State, is setting up shop as a veterinary at Ann Arbor, Michigan.

Sol Strauss, acting director of the 20th Century Sporting Club, is denying rumors that the club has fallen apart during the absence of Promoter Mike Jacobs. He also mixed reports that Joe Louis would appear in an exhibition at Ebbsfield Field for Andy Neidermeyer, a rival promoter.

Lots of absences have been noticed in spring football practice.

Too many 4 o'clock classes, quizzes, and home work again are keeping potential footballers away from the gridiron.

The results of the Kentucky Derby didn't surprise a few sports writers. Jerry McNeerney, of the Louisville Courier, not only picked the winner, he picked one, two, three, and four. That's hitting it right on the nose — P. J. O'Donnell of the Chicago Sun, Heggy Dent of the Louisville Times, Hugh Fullerton of the Associated Press all picked the No. 1, 2, and three horses. Don't look for Jet Pilot to win the Preakness though — he is a mudder and won't go so well. Phalanx will be the favorite.

The prettiest race of the meet last Saturday was the mile relay. The lead changed several times and only in the last 200 yards did the MSM relay team surge ahead.

Several other results made the picture more rosier for the conference meet next Saturday. Winning jumped 6' in the high jump, Bock placed first in the shot with his best heave of the year, and Volles cleared the bar at 11' 0" easily in the pole vault. Burk was far out in the 220 yard low hurdles only to trip on the last hurdle and made a nasty spill. He was disqualified for finishing in the wrong lane.

MSM Tennis Team Ties Springfield

The MSM tennis team remained undefeated in conference play when they held the Springfield team to a 3-5 tie last Saturday. Glaves of the Miners defeated his man by 6-0, 4-6, 6-2; Weber of the Miners defeated Martin of Springfield by 7-8, 6-3; and the doubles team of Glaves and Weber defeated Cheek and Martin of Springfield by the score 6-3, 6-4. Canning and Osborne of the Miners met defeat in both singles and doubles play.

ATTENTION VARSITY TRACK, TENNIS & GOLF TEAMS!

Group pictures will be taken for the 1948 ROLLAM Thursday afternoon, May 8, at the gymnasium.

Track Team 4:30 p. m.
Golf Team 4:45 p. m.
Tennis Team 5:00 p. m.

Univ. Dames Meet

The University Dames will meet Thursday, May 8, at 7:30 p. m. in room 104 Norwood Hall. The program for the evening will be given by the MSM Glee Club, and Mrs. Ivan Fuller will entertain with different types of readings. There are also several important announcements to be made during the meeting which will be of interest to all Dames.

All members are asked to please be on time, as the first part of the program, given by the Glee Club, will begin promptly at 7:30. This promises to be a grand evening of entertainment . . . so don't miss it.

ASCE Meeting Tonight; Will Elect Officers

The Student Chapter of The American Society of Civil Engineers will hold an important meeting tonight at 7:30 p. m. in Harris Hall.

The speaker of the evening will be Mr. Van Hess, an instructor in the Civil Department. Mr. Van Hess will speak on "Engineering Overseas". He served overseas as an engineer with the Army and gained practical knowledge and experience which will surely be of interest to Civils.

Election of officers is to be held at the end of the meeting. All Civils interested in ASCE are urged to attend and guests from all other departments are invited. Refreshments will be served at the conclusion of the meeting.

FOR SALE — Frying Chickens. Write or call L. J. Lukrefka, Box 259, Vichy Road. Phone 2803.

Thinclads Journey To Cape For Championship Meet

Intramural League Admits New Teams In Sports Program

The Intra-Mural Sports Managers met last Thursday night to form a program for the Summer and Fall semesters. At the meeting, it was decided to admit two more teams for intramural competition: Vet Village, representing students living in the barracks on the upper football field, and McFarland Dormitory. Starting this summer, these organizations will enter teams for intramural competition.

It was also decided by the meeting that, hereafter, no organizations will be considered for intramural competition that do not have a membership of at least 25 men. Applications by new organizations wishing to enter the program will be considered only at the start of the Fall and Spring semesters.

During the summer and the fall, there will be sixteen teams in competition. Coach Hafeli has worked out the schedule so that it will no longer be necessary to run single and double-elimination tournaments. All sports will be conducted as round-robins.

"So you claim you can tell a woman's character by her clothes. What can you tell me about that girl over there?" "Insufficient evidence."

"Maxine, do you know how the East Indians get down from an elephant?"

"Don't be silly, Mary, they don't get down from an elephant. They get it from a goose."

The on and off MSM track team will journey to Cape Girardeau next Saturday in hopes of pulling an upset victory over the favorites, Cape Girardeau's Indians. The Miners will be at full strength and if the boys will equal their best performances of the season just past, the Indians will have a battle. For the first time in years the Miners will not be woefully weak in the field events. The Miners have uncovered some potential point makers in Swartz, Beck, Guiney, and Winning. Turner should have little trouble winning the 880 yard run and King might take the mile as well as the two mile. Burke is hoping for a win in the 220 low hurdles.

The conference tennis championships will be run off during the day also. The MSM boys won last year and are pledging to bring home the bacon again this year. The golfing team is making the trip this year and will participate in the conference golfing tournament.

Grandmother (looking at her grand-daughter's new bathing suit): "Mary, if I had dresses like that when I was a girl, you'd be six years older today."

Then there's the girl who wouldn't go up to the Miner's apartment because she heard it was furnished with knotty pine.

Lawyer (to beautiful blonde witness): "Answer Yes or No!" Witness: "My, you are a fast worker aren't you?"

Music Notes

The MSM Music Club will have its regular Sunday night session of recorded classics and semi-classics May 11 at 7:30 p. m. in Room 104 Norwood Hall. The evening program will be: "Piano Concerto No. 3," by Beethoven; "Prelude to the Afternoon of a Faun," by Debussy; "Symphony No. 4," by Tchaikovsky, and De Bussey's "The Clouds."

All members and others interested in an evening of relaxation and enjoyment of better music are cordially invited to come.

Policeman Aids Victim

BOSTON (UP) — When Richard D. Rogers was felled by a bullet from the gun of Patrolman David Ahearn during an attempted burglary, doctors sent out a call for blood donors. The first to respond was the policeman who fired the shot.

E. L. Clark On New Research Group

According to an announcement received from the Missouri State Chamber of Commerce, Edward L. Clark, State Geologist of the Missouri Geological Survey has been named on the Committee on Industrial and Scientific Research of the Missouri State Chamber of Commerce. Dan W. Snyder, Jr., of Jefferson City, Chairman also announced that selected members will meet in Jefferson City May 13 to plan a meeting of the full committee in June. The purpose of the group is to aid and coordinate all phases of research in the state of Missouri.

"Did you get his number?" asked the cop of the hit and run driver's victim.

"No, Officer, but I'd recognize his laugh anywhere."

"Open the door lady. Your husband was crushed in an accident and we have him out here."

"I'm dressing. Just slide him under the door."

A Rare Scene - Scott Gets Serious

Henry L. Scott, piano humorist who appeared here last week, displays his amazing ability in a serious vein. Scott entertained an overflow crowd in Parker Hall on April 29.

Armstrong Elected Head Of Honorary Chem. Fraternity

Alpha Chi Sigma
The Beta Delta chapter of Alpha Chi Sigma, chemical fraternity, has recently concluded a very successful week of activities. On Thursday, May 1, the chapter held election of officers for the coming fall semester. The fraternity feels assured of great progress under the guidance of these capable men. The election results are as follows:

Master Alchemist — Paul Armstrong.
Vice-Master Alchemist — R. A.

Wilks.
Reporter—Jack Sjöberg.
Recorder—Charles Hudson.
Treasurer—Herb Sachs.
Master of Ceremonies — Sam Martin.

Historian—Fred Roderique.
Alumni Secretary—Stanley Bye.
On May 4, nineteen new brothers were initiated into Alpha Chi Sigma. Membership is restricted to men who intend to make chemistry, or its related subjects, their life's profession. The chapter is proud and happy to welcome the following new initiates: Robert Stahl, Robert Booth, Schuyler Kingsland, William Carter, Hampden Banks, James Walker, George Purdy, Joseph Miazga, Fred Crossman, Bernard LaRose, Don Detien, Maurice Wetzel, Glenn Brand, Earl Hoehn, Gene Tyrer, Walter Knecht, and Jorge Jackson. In addition to these men, Bill Bernard and Ed Busche from Alpha Epsilon Chapter of Washington University in St. Louis, were initiated.

Following the initiation, a banquet in honor of the new initiates was held at the Edwin Long Hotel. After a delicious dinner, the gathering heard from several men representing the profession: chapter of St. Louis in addition to Mr. Weideman, Past Grand Master Alchemist and also a member of the St. Louis professional chapter. Other guests included faculty members of Washington University's chemical department and members of the Alpha Epsilon chapter. Countless humorous incidents were related to the obvious pleasure of all in attendance. Master Alchemist Maitland Strunk was the toastmaster.

Cherry Sundae By Wally Tucker

Where Oh Where Did The Grade Point Go?

Johnny came home that afternoon with that tight drawn feeling between his eyes. There'd been just a little too much covered that afternoon in his lectures. That Calculus shotgun coming back with a goose-egg on it didn't help prevent his distress either.

He threw his books on his desk and lay down across the bed. He closed his eyes and tried to sleep. His weary body embraced the bed with a sigh of glad relaxation, and called to his whirling brain to let the shattered screaming nerves gain the healing influence of slumber.

The mental drive was too strong. No sleep.

He got up and drew a hot bath. That usually worked. The pile of work, five Calculus problems, six Physics problems, a Physics Lab quiz, that accursed English report, he must do that night kept interposing a barrier of worry. He came out of the bath clean, but in body only.

He sat down at his desk and started on the Calculus. His physical tiredness interfered. He couldn't concentrate.

His roommate came in. "I saw Larry down the street just now. He said something about coming up tonight for a beer and poker session."

Johnny looked up. Suddenly the tightness between his eyes disappeared. He was still physically tired, but his nerves had relaxed. The Calculus assignment started melting like magic.

Mother Goose M. S. M. Style

This thing's not written by a crank. Tho' at times the rhyme's Not far from blank. But to say in verse The things around The school that amuse Or sometimes wound.

Once upon a time, so the story goes, the fence between Heaven and Hell broke down. St. Peter appeared at the broken section and called out to the devil: "Hey, Satan," he said, "since all the engineers are over in your place, how about getting them to fix this fence?"

"Satan," replied St. Peter, "my men are all too busy to go about fixing measly fences."

"Well, then," replied St. Peter. "I'll have to sue you if you don't."

"Oh, yeah," countered the devil, "where are you going to get a lawyer?"

"I've finally reached the age where if a girl says 'No,' I'm grateful," admits the old Miner.
