Number 24

Bob Buel Elected Editor Of MINER For 1948-49

MOVES UP FROM POST OF ASSOCIATE EDITOR TO TOP SPOT ON PAPER

In the annual election of Senior Staff Officers held Wednesday evening, April 7, in the Miner Office, Bob Buel was elected Editor to head the '48-'49 Miner Staff replacing Mike Delany. Bob has served on the Miner board since the summer of '47, being elected to the Senior Staff as Associate Editor, in February of this semester, replacing Don DeBolt. Bob Buel is a member of Theta Kappa Phi Fraternity and is pledged to Theta Tau.

Bill Bennett of Sigma Nu was elected Managing Editor replacing Ed Aubuchon. Bill has been a past Editor of the Miner way back in '44-'45 and '46, being one of the few real veterans of the Miner staff at the present time. Besides being a Sigma Nu, Bill is also a member of Theta Tau and Tau Beta Pi Fraternities.

Joe Strubert replaces Bob Buel as Associate Editor. Joe is another one of the veterans to be found on the Miner Staff, having been elected to the Miner board in '43. Besides his associations with the Theta Kappa Phi Fraternity he is a member of the Inter-Fraternity Council.

The Sports Department is again filled by Val Steiglitz and Harry Chapman acting as Co-Editors. Harry is a member of Lambda Chi Alpha and Val an Independent. Both of these men were appointed to the Senior Staff in February of this semester replacing Tom Wirfs, who resigned.

Joe Reiss also of Sigma Nu replaces Jim Chaney as Business Manager. Joe has served on the Miner board for the past two semesters. He is a pledge of the Theta Tau organization.

Filling the Advertising Manager position and replacing Ivor Pounds is Roger Jenkins of Sigma Nu. Rog was elected to the Miner board in the fall of '47 serving on the advertising staff. Aside from the Sigma Nu's he is a member of the Theta Tau and Blue Key Fraternities, a two-year letterman in basketball and an active member of the "M" Club.

Clarence Isbell replaces Pete Bermel as Circulation Manager. Clarence was elected to the Miner board this past semester after showing real spirit and cooperation in helping to put out the Miner regularly. He is a member of Lambda Chi Alpha and Gamma Delta Fraternities.

Holding down the Exchange Editor position and replacing Fred Springer is Lyman Van Buskirk of Theta Kappa Phi Fraternity. Lyman was elected to the Miner board this past semester serving on the News Staff.

Replacing Jack McCarthy as Feature Editor is Harry Funk of Sigma Pi. Harry was elected to the Miner Board at the beginning of the '47 fall semester serving on the News Staff. Besides his duties with Sigma Pi he is a member of the St. Pat's Board.

Fred Springer of Kappa Alpha (Continued on Page 4)

MUSIC CLUB PROGRAM

April 18

The time is 7:30 and the place is the home of Jack Forbes, across from Triangle House. The next program will include the following numbers:

Mozart: Overture to The Magic Flute
Beethoven: Twelve Contre-dances
Haydn: Cello Concerto
Boieldieu: Overture La Dame Blanche
Dukas: The Sorcerer's Apprentice
Sinetana: The Moldau

Bob Buel

NATIONAL CONVENTION OF ACS TO BE HELD AT CHICAGO APRIL 25 TO 30

The annual speaking contest of the American Ceramic Society is to be held at the National Convention April 25 to 30 at Chicago, Illinois. The representative of the MSM Student Branch of the society will be Milton L. Simmons, who won the local contest held Wednesday evening at 7:30 PM at the Experimental Station.

Three students competed in the local contest, Bob Hughes, Ray Evans, and Milton Simmons. Bob Hughes spoke on "Stabilization of Zirconium Refractories," stating in his talk that two zirconium compounds are applicable to ceramics, zircon and zirconia. These compounds are desirable because of their resistance to chemical action, low heat conductivity, and very small expansion coefficient. However, they possess a very low resistance to heat and shock and have a very high inversion. Calcium and magnesium oxides are found to remedy these faults.

Ray Evans covered the subject of "Surface Solution of Alkalies in Glasses." The problem is that alkaline minerals cause a thin microfilm of sand on the surface of the glass which makes a dull spot or area which is, of course detrimental, especially in the case of high quality mirrors and optical glass. The type and purity of the water used in manufacture is a vital consideration. It was found that acid treated zeolite water followed by a bath of demineralized water was the answer to the problem.

Milton Simmons came through to win the contest with a well presented talk on "Glass and Competition." In his dissertation, Simmons discussed ceramic materials, glass in particular, as a competitor to metals, plastics, and wood, with respect to the properties of elasticity, corrosion and resistance to thermal shock, in the field of implemental and structural products. Simmons' information showed that glass was outstanding in all three properties.

In the interim between the conclusion of the speeches and the decision of the contest judges, a committee composed of four students, Marjorie Spurrier, Dorothy Bradford, Bob Hughes, and Ray Evans was appointed by Bob Mornin to make all the preparations for the annual student branch picnic to be held in May. The meeting of the St. Louis Section of the A.C.S. Friday, April 9 was announced. Any student wishing to attend should see Dr. Herold in due time. The motor convoy is leaving the school at 2:00 PM.

Many senior Ceramic students will be attending the National Convention of A.C.S. in Chicago. This little detail is looked forward to with quite some anticipation.

ALL SENIORS URGED TO MAKE APPLICATION FOR ENGINEER LICENSE

Students of the Missouri School of Mines were offered an opportunity of obtaining some valuable information concerning the benefits of being a professional engineer, and the procedure to be followed in attaining the desired status at a lecture given by Senator A. L. McCawley in Parker Hall Tuesday night, April 6.

Senator McCawley announced that enough copies of his speech would be mimeographed and sent to the Missouri School of Mines within a few weeks to supply each senior with a copy.

The necessity of being a professional engineer is due to the fact that a man cannot call himself a professional engineer or represent himself as such to the public unless he is registered. Since registration laws are in effect in 48 states, it is necessary to investigate the situation in the light of the experiences of the past, the present status, and probable future trends.

Some of the reasons for attaining professional status may be gained from the following excerpts from Senator McCawley's speech.

At present 23 U. S. Departments employ engineers for 115 sub-divisions. Twenty-six states prohibit payment of state money to other than registered professional engineers. In many states it is also required that building plans for public works be O. K'd by a professional engineer.

The Missouri Registration Board was organized in 1941. During World War II any defense work or public work required long questionnaires from all engineers except professionals, who were passed on their registration cards alone.

From the client's viewpoint, registration assures a competent engineer and prevents unethical practices which are a detriment to the profession. Prosecution for unethical practices comes under the jurisdiction of the Criminal Courts and carries the penalty of a fine and imprisonment, in addition to a revocation or suspension of a registered engineers license.

Senator McCawley urged every senior to take the exam before graduation while the fundamentals are fresh. If an engineer is not registered he comes under the Taft-Hartley Law, as labor does. An engineer-in-training is exempt from the Taft-Hartley Law.

Requirements of the professional engineer (Continued on Page 4)

INTRAMURAL ATHLETE TROPHY TO BE AWARDED BY "M" CLUB TONIGHT

On March 23, 1948 the Sigma Pi Fraternity was host to the members of the "M" Club for dinner. The "M" Club held their meeting in the meeting room of the fraternity and there discussed future events for the remainder of the Spring term.

Also, at this meeting the members elected the "athlete" of the month for the month of March. Four men were nominated and Pete Perino was elected after a close race given by Bob Perry, Elmer Breidert, and Ray Williams. Pete was presented with a beautiful hand-tooled leather wallet with his name engraved by Wallace Tucker, owner of Tucker's Soda Shoppe. Each month from now on the athlete who has done the most for athletics at MSM will be presented with a prize donated by a different local merchant. The months for the whole year are already filled by the local merchants.

The members also discussed the presentation of the trophy for the intramural athlete of the year and the members will present this trophy to the winning candidate this coming Friday night during the intermission of the Stephens Chorus Concert.

THETA TAU PLEDGES 25 MEN AT CEREMONIES LAST THURSDAY EVE

Citizens of West Rolla were entertained last Thursday night, April 8, by the distant lulling sounds of soft music provided from the Theta Tau Song Sheet by the members of MSM's Iota Chapter of Theta Tau and twenty-five pledges who received their pins at ceremonies earlier in the evening.

The new pledges included K. E. Short, Bill Shepard, Don Heath, Ed Telthorst, Jack Foster, Jack Stephens, Cliff Turner, Bob Buel, Jack Babbitt, Ivan Bounds, Bill Bachman, Al Hudson, Joe Reiss, Bob French, Murray Schmidt, George Anderson, Dave Grimm, Roger Neidel, Val Steiglitz, Bill Vark, John Jadwick, Ed Daugherty, Harry Chapman, Ivor Pounds, and Ed Kawadus.

Theta Tau is an honorary National Professional Engineering Fraternity, with membership in the Iota Chapter here being limited by national regulations to a total membership of forty members. The large graduating class of this June enabled the formation of this large class and still keep under the membership limit.

The pledge class had its first meeting last Monday when they were given information concerning Pledge Week which is to begin soon and which will be climaxed by the Theta Tau Quiz, with those making the lowest grades giving speeches at the initiation banquet. These men may soon be seen totting wooden replicas of the fraternity emblems, hammer and tongs, around the campus.

The new pledges were called out to actual pledging ceremonies at 11 PM Thursday evening after which the entire assemblage adjourned to the vicinity of the new football field where a supply of pretzels (and the beverage that usually is found with them) were to be had, and the occasion was aptly celebrated in the light of a bonfire that just happened to be there at the time.

EIGHT MORE COMPANIES TO INTERVIEW SENIORS FOR JOB PLACEMENTS

The schedule of interviews, by representatives of companies employing engineers, with the graduating seniors continues to be filled with at least one a day and most of the time more.

The schedule for the coming week includes: Friday, April 16, Ashland Oil and Refining to see graduating seniors from the Mining, Geology, Chemistry, and Mechanical Departments; Monday, April 19, Republic Exploration Company to see engineers for exploration work; Gulf Oil Co., to see ME's, EE's, CE's and Petroleum; Halliburton Oil Well Cementing Company for ME, EE, and Pet.; Tuesday, Pittsburgh Plate Glass for Chems, EE's, ME's, and Ceramics; Ohio Oil Co. to see Petroleum Seniors; Wednesday and Thursday, Carnegie-Illinois Steel will be here to see ME's, CE's, Chem's, Met's, and Ceramic's; Friday April 23, will include a representative from the Seismographic Service Corporation to interview engineers for seismographic work.

More engineering firms are requesting appointments for interviews every day; so seniors should watch their department bulletin boards for those in which they might be interested. Applications for interviews should be made through Dean Williams' office at the earliest convenience.

Young man: I want to buy a diamond ring.

Salesman: Yes, sir. How about one of our combination sets? Three pieces—engagement, wedding and teething.

STEPHENS CHORUS WILL ARRIVE TONIGHT; DANCE IN GYM AFTER CONCERT

A large turn-out on the part of the Miners is expected tonight in the Parker Hall Auditorium when the choral coeds from Stephens College will appear on the stage to entertain the MSM students with well-rehearsed mellow melodies. The girls are good, and there's no getting around it. This chorus is scheduled to appear with the St. Louis Symphony Orchestra, some time this spring, and their touring route will also include cities such as Kansas City, Joplin, and others.

Even though this appearance might be as spectacular as a performance in St. Louis, the girls are looking forward to it with much more enthusiasm. Where else will there be so many men in the audience? And where else will the audience throw a dance for the girls after the concert?

A glimpse at the program tells us we are in for some of our own favorite songs. Merri Fenn will sing Schubert's "Ave Maria"; Marion Mott will swing through "Summertime" from George (Continued on Page 4)

HYDRAULICS EXPERT FROM ALLIS-CHALMERS SPEAKS AT ASME MEET

A record crowd of members of the MSM branch of the American Society of Mechanical Engineers, Faculty members and guests turned out for the April 6, meeting of the Society, to hear a lecture by Mr. J. F. Roberts, Head of the Hydraulics Division of Allis-Chalmers. The subject of Mr. Roberts talk was, "Recent development in Hydraulic Turbines."

A short business meeting was held prior to the speech, at which the members voted to send two representatives to the Regional Convention of the ASME which is being held at the University of Iowa, at Iowa City, April 19 and 20. The members selected to attend are Jack Babbitt, Sophomore and Ed Wunnenburg, Senior. Members of the Society voted to remain active during the Summer semester.

Mr. Roberts has a background that makes him well qualified to speak on turbines, and everyone who was fortunate enough to attend the meeting agreed that this was one of the most interesting, if not the most interesting sessions of the year.

Mr. Roberts graduated from Wisconsin University in 1918 and served in World War I. He then attended Allis-Chalmers graduate school in 1919 and stayed with them for 9 years. Following this he spent six and one half years with the T.V.A. supervising the installation of power units. In 1942 Mr. Roberts took charge of the Hydraulics Division of Allis-Chalmers.

Mr. Roberts made the statement that "John L. Lewis is doing more for the hydraulic industry than all of the salesmen on the road." Frequent strikes in the coal industry are causing manufacturers that have any available water power to investigate the possibility of converting to hydraulic turbines for power. With hydraulic turbines it is possible to increase the power output without the need of additional men to mine coal.

A short outline of the developments in turbines was given and the three main types of turbines discussed after which slides were shown of the three types and some of the better known locations of the turbines. These locations included the Shasta Dam and the T.V.A. Dam in Tennessee.

Mr. Roberts knew his subject cold but did not lose track of the idea that everyone in the room was not well acquainted with the subject as he, and spoke with this in mind.

Piano Duo, Appleton and Field, to Appear Here in Concert Next Friday

Appleton And Field

JIM McGRATH, ST. PAT OF 1948, IS ELECTED PRESIDENT OF BOARD

The identity of St. Pat of 1948 is finally brought to light for those who are still in the dark. The person who portrayed the role of St. Pat so superbly this year was James Byrnes-McGrath, better known as Jim. For the unfortunate ones who were not here, Jim did a good job of "knocking" several people around in his speech and made a superb performance as St. Pat in his several appearances during the celebration.

Jim is a 24 year old senior of the Civil department and hopes to graduate in June of '49 if not sooner. He first appeared on the campus in the spring of '42 and, after a short visit of three years with the Navy, has made quite a name for himself since then. He is probably most well known for his football career than anything else, having played end and fullback for three years with his fourth coming up. Having lettered in football, Jim naturally belongs to the M Club as well as being a member of Theta Kappa Phi, Theta Tau, and Blue Key. Jim's home is and has been in St. Louis for 24 years and plans to continue his residence there or in the vicinity when released from here.

Starting it's spring cleaning early, the St. Pat's Board, at it's last meeting, held it's annual election of officers to rule for the ensuing year. Harold Brehe of Triangle who was St. Pat of 1947 and President of the Board for a year was replaced by Jim McGrath of Theta Kappa Phi. To assist Jim in preparing for next year's celebration Harold Telthorst of Kappa Sig was elected as Vice President to replace Jim Bowman of Lambda Chi. Gene Tyrer of Lambda Chi, and Mike Ditore of Triangle replaced Dick Howell of Sigma Nu and Jim McGrath of Theta Kap as Secretary and Treasurer respectively.

The congratulations of everyone goes to the new officers and thanks for a job well done to the old ones.

CIGARETTES AND CASES FREE TO ALL STUDENTS AT MSM NEXT TUESDAY

On Tuesday, April 20, Mr. William N. Maughs, a representative of the R. J. Reynolds Tobacco Co., will visit the MSM campus. At that time, Mr. Maughs will present free to all students a package of Camel cigarettes in a plastic cigarette case, with the school's initials on it.

Mr. Maughs will maintain a stand at the water fountain in the center of the campus, from 9:00 AM to 5:00 PM on that date. Every student presenting his school activity card will receive the package of cigarettes and the cigarette case.

HAVE WORKED TOGETHER A YEAR AFTER GAINING FAME IN SINGLE ROLES

Vera Appleton and Michael Field a piano playing duo whom the critics hail as "two artists of the keyboard who play and think as one" will appear under the auspices of the Special Lecture Series in Parker Hall, April 23. Although each is an accomplished artist and has played many concerts, they will appear here as a two piano team.

Vera Appleton came from a musical household. Her mother studied piano at the Imperial Conservatory in Russia, and there were always at least two people practicing at the time in the Appleton home. As a child, Vera applied her keen sense of rhythm to dancing and she danced professionally until her high school years. When only eight, she began playing the piano, and she gave her first concert when she was nine. After that, she walked off with first prizes in Oklahoma's statewide contests sponsored by the Federation of Music Clubs. She studied music in Chicago on a scholarship, and after a year, won a fellowship at the Juilliard Graduate School in New York.

Here at Juilliard, Vera Appleton met Michael Field, a lad who had begun to play the piano at four and was playing concerts at nine. Michael came from an unmusical family but even at four years, he frowned at the violin which his father someday hoped he would play and beamed with delight when he was seated at the piano.

Field's varied musical career includes the writing of a popular song within five minutes time. Accepting the challenge of a friend, the young artist wrote "The Same Old Story," which turned up on the Hit Parade. His preference, however, are decidedly classical.

Vera and Michael teamed up and began to broadcast while studying at Juilliard. After graduation, the pianists separated to follow their individual careers. Some time later, they met in New York and decided that they should continue as a duo-piano team. Four months after this decision, they made their debut at Town Hall, and have given concerts there each year since.

Vera Appleton and Michael Field are not Mr. and Mrs. Field in private life. Vera Appleton is Mrs. Alan Bressler, wife of a young business executive who is himself an amateur musician and one of the team's greatest boosters.

Michael Field keeps a bachelor's hall in a New York apartment where he spends his free time with his various hobbies.

Appleton and Field will begin their unique performance in Parker Hall Auditorium at 8 PM, next Friday. Miners will be admitted upon presentation of their Student Activity Card, student wives for twenty-five cents, and all others for fifty cents.

Young gob: "If the Captain heard you call that deck a floor, he'd throw you right out that window."

"Does your sister, the typist, use the Touch System?"
"Well, she certainly didn't buy that fur coat out of her wages."

A pretty woman can open a safe quicker with a kiss than a burglar can with dynamite.

THE MISSOURI MINER

THE MISSOURI MINER is the official publication of the students of the Missouri School of Mines and Metallurgy. It is published at Rolla, Mo., every Tuesday during the school year. Entered as second class matter February 8, 1945 at the Post Office at Rolla, Mo., under the Act of March 3, 1879.

Subscription Price 75¢ per semester. Single copy 5¢ (Featuring Activities of Students and Faculty of M. S. M.)

End Of An Experience

With the new officers of the Miner Board elected and approved, this is our final opportunity to howl and your final chance to gripe at the retiring staff. This marks the end of what was certainly an experience, and now that it is all over, was equally a pleasure. The retiring staff has constantly worked, in the past year, for an ever-improved MINER. Whether we have succeeded remains the opinion of the students at the School of Mines.

The MINER has taken some steps forward. We now have an adequate office, fairly permanent in nature. Rollamo-MINER dark-room facilities are by far the best on the campus. The paper, in the past year, has been improved in appearance to the extent of a better grade of paper and a much clearer impression. Sports coverage, as a whole, has been better than in previous years. The St. Pat's Issue was the biggest, and we hope the best, in history.

There is, without a doubt, much room for further improvement in the paper. Photography during the coming year should be the best and most complete of all time. Definite plans are now being formulated to give the paper a "new look," an appearance more in conformity with the best college papers in the country. A new system of news coverage should prevent unfortunate "commissions and omissions." All in all, we feel that the paper is headed in the right direction.

But in the way of a request for tolerance on the part of the students, it should be kept in mind that the editors and writers on the MINER are students too, carrying the same heavy schedules that seem to be typical of all students at MSM. Their work on the paper means a big sacrifice of valuable time. Those who are inclined to criticize should bear this fact in mind. The quickest and surest way for any student to help improve the MINER is to join the Miner Board and do a little of the work himself.

Speaking for the whole retiring staff, it has been a privilege and a pleasure to work on the MINER. Our interests have been for a better school paper. We hope that, to some extent, we have succeeded.

Student Council Minutes

The regular meeting of the Student Council was called to order at 7:10 PM by President Harvey Leaver.

The minutes of the previous meeting were read, corrected and approved.

Wisdom gave a report on the dance committee for the Stephens College dance, reporting the securing of Rick McGee's Orchestra, tumblers and a Barber Shop Quartette for entertainment. Arrangements were made to contact the Miner Board to correlate plans for a memorial to Keith Goodenough.

Discussion led by Murney on having Student Council members present on talks between Dean Wilson and Coaches concerning athletic physical examinations.

The Council decided to send President Leaver to see Dean Wilson on participation in discussion on such physical examinations.

A discussion was held concerning the payment of Senior Trip expenses by the Veteran's Administration by adding a fee to the Registration Fee to cover such expenses. Objections were voiced concerning hardships worked on civilian students by such a plan.

A tabled motion by Wagner of last meeting concerning enforcement of physical examinations for students was passed by the Council.

A motion was made by Murney that members of any control board must be members of the Student Council. Motion was seconded by Wagner. Wagner proposed an amendment to the motion to read that members of any control board must be active

For our opening edition of the column I would like to present Don Reinert of the Electrical Department. He is twenty-three, single, a resident of St. Louis and a graduate of Cleveland High School. Upon graduation in June, Don intends to start right out in his particular field of endeavor and if the record that he made here at M. S. M. means anything he should have no difficulty at all in making his way in this man's world. Sigma Phi Epsilon, his social fraternity elected him as their "fraternity man of the year."

Considering the above mentioned fact it is evident that Don is, or has been, a member of numerous organizations. We shall start at the beginning to enumerate them. Upon entering M.S.M. in the fall of '41 he was elected to the Board of Control of the Independents, a member of the Shamrock Club (since then discontinued), Student Council, St. Pat's Board and was Treasurer of A. I. Ch. E. in the fall of '42. In the Spring of '43 he joined the Navy and after serving as a AETM 1st class returned to school in the summer of '46. Don is now Vice President of Theta Tau, Vice President of Blue Key and a member of A. I. E. E.

Intramural sports receive their due consideration as Don still finds time to play basketball, football, handball, softball, and table tennis for dear old "Sig Ep."

Hobbies do not take up much of his time now although he still indulges in an occasional hand of bridge. Last but not least on his list of "hobbies" is, of course "la femme."

Next week we will bring more BMOCS.

members or alternate members of the Student Council. Both the motion and the amendment were passed.

A motion was made to adjourn by Hansen, seconded by Stohldrier.

The meeting was adjourned at 7:55 PM.

Off The Campus

Theta Kappa Phi

The majority of the Theta Kaps journeyed to St. Louis last weekend where Delta Nu, a Catholic Fraternity at St. Louis University, was installed in ceremonies Sunday, April 11, as Pi Chapter of Theta Kappa Phi, the National Fraternity. The installation held in the St. Louis University Auditorium, was a result of year's preparation and petition for National membership on part of the local group.

Also inducted as honorary members of Pi chapter were: Rev. Patrick J. Holloran S. J., President of St. Louis University; Rev. John F. Bannon, Faculty Moderator of Delta Nu; Rev. Francis J. O'Hearn, Alumni Head; Rev. James B. MacElwaine, World Renown Geophysicist; Dr. John V. Tillman, Director of the Department of Modern Languages at the University; and Mr. Oliver H. Parks of St. Louis.

The active members of the local chapter include Ed. Macaulay, All-American basketball star at the University and Marv Schatzman, Jack Wrape and Jim Cullen; also members of the St. Louis U's National Champion Squad.

Delta Nu Fraternity was founded at St. Louis U. in the Fall of 1934, as a social fraternity and has been active on the campus ever since. At present there are seventy-nine members in the fraternity and forty-five alumni members. The president is Charles M. Kiely, student in the University Institute of Geophysical Technology and also the Captain of the basketball champions.

Included in the ceremonies were Mike Delany and Bill Weismantel who represented our chapter on the degree team.

We the members of Mu chapter extend our congratulations to our new brothers and wish them the best of luck in the fraternity.

Pi Kappa Alpha

Things are rather calm along the highway except for the rumble of dance preparations. The annual Spring Dance is to be held the weekend of the 1st with a picnic at Montauk State Park during the day and a dance at the Chapter House in the evening. Social Chairman, James Billard, has done a marvelous job even though he can't get everyone a date. Rumors have it that he can't even get himself a date, so don't be too hard on him fellows.

The softball team is ready to go with good hitting and fielding. The pitching staff looks great with "Blackwell" Grimm and "Cuddles" Horst being the backbone of the team. Intra-mural manager, Paul Timbrook, will be riding the bench this year so it seems. A young rookie by the name of "Stonewall" Wetzel has taken over his position at third base. The chapter will miss the pepper of Paul in the infield but we know that he has the team at heart in letting a younger man play. With such a leader, a successful season is expected.

Two more pins have found their way to Dream Girls. We are happy to announce that Ed

Track Team in Top Form For Meet With Cape Girardeau This Sat.

SQUAD'S SPIRITS UP AFTER CRASHING WIN OVER WESTMINSTER

By Ollie North

Coming out of Saturday's convincing win over a favored Westminster squad in excellent condition, the Miner track team looks forward with considerable optimism to the three-way meet at Cape Girardeau tomorrow, in which they engage Cape and Washington U.

Only casualty last week was Carl Krog, who injured his leg shortly after the start of the 440, and may be out. If entered, he will confine his efforts to the relay teams. Otherwise the athletes are in fine shape. According to Miner Coach Gale Bullman, this should be our last hard meet of the season, and he is already training his boys with an eye on the conference outdoor meet next month.

The Miners are favored to win the shot put, javelin, 2-miler, and high hurdles, and are conceded good chances in both the dashes and the low hurdles. Big guns for Rolla should include George Bock, Don Smith, Dave Ward, Bob Collier and Bill Kirk.

Cape is favored in the half-mile and mile runs, which are expected to go to Ralph Corse, track ace who took these events at the indoor meet in record time. Washington U. and Cape should battle for the 440, which pits Brown of Washington and Reed of Cape, both very fast. Also expected to go to Cape or Washington are the relays and pole vault.

This is the third triangle meet between the three teams. In 1946, Rolla won at Washington, as Johnny King took both distance events. Last year, at Rolla, Cape scored as our Miners finished last.

Coach Bullman hopes to have Whitey Hammond ready for the (Continued on Page 4)

LOCAL SOCCER TEAM WINS OVER MU SQUAD

On Saturday, April 10, twelve students from MSM journeyed to Columbia, Mo., to play a soccer game with a team from the University of Missouri. After ninety minutes of hard play, the game ended with the boys from Rolla on the long end of a 5-2 count.

Undoubtedly, almost every player on the Missouri U. team was better individually than any one player on the Rolla team. However, the difference was that the team from MSM worked smoothly as a unit, while the MU team was very uncoordinated.

There were few outstanding players on the Rolla squad. However, Murillo, with three goals to his credit, topped the honors for the day. Yodice and Torres-Calderon each had one goal to their credit.

The win over the highly-touted squad from MU was all the more surprising as the MSM team had had only total of about four hours of practice together. Also prominent were the many spectacular saves made by Gaillard, MSM goalie.

The lineup for the MSM team was:

Center-Forward	Murillo
Left Wing	Torres-Calderon
Right Wing	Shepherd
Left Forward	Yodice
Right Forward	Galavis
Left Halfback	Bird
Right Halfback	Stieglitz
Center Halfback	Rodriguez
Left Fullback	Ramirez
Right Fullback	Jackson
Goalie	Gaillard

Substitutes: Right Forward, Miller.

Goals: Murillo (3), Yodice (1), Torres-Calderon (1).

SIGMA NU'S, KA'S, SIGMA PI'S, TRIUMPH IN SOFTBALL PLAY

On windswept diamonds Thursday, Sigma Nu romped over Sig Ep, 13-0, and the KA's nosed out the Jr.-Sr. representatives, 8-7.

"Yoyo" Davidson, despite three earlier whiffs, beat out an infield hit with two gone in the seventh to spoil Hank Mattes bid for a no-hitter. The whip-armed right hander was never in danger, though quite wild, as his mates staked him to an early five-run lead. He fanned 12 and handed out 9 free tickets. His opponent, Al Hudson, was even wilder, 11 strolling to first; and the Sigma Nu boys racked up the same number to bat in three runs. Sigma Nu committed one error and the Sig Eps 4, three coming on a single play in the seventh, which started with an easy infield hopper.

Score by Innings

	1	2	3	4	5	6	7	R
Sigma Nu	3	2	0	0	1	0	7	13
Sigma Ep	0	0	0	0	0	0	0	0

Batteries: Mattes and Howell; Hudson and Detjen.

KA's Troupe Jr.-Sr's.

On the neighboring field, the Jr.-Sr. nine pushed over 4 runs in the first, only to have the KA's pour 7 across in their half, in a rally climaxed by a home run by pitcher Dick Smart with 2 on. The Jr.-Sr. squad finally tied it up in the seventh, as Smith blanked his opponents. However, with two gone in the last, two men beat out hits and Earl Weber skidded a hit to deep short and beat it out as the winning tally scored. It was a case of history repeating itself, as the KA's decided the Jr.-Sr's last year in almost identical fashion.

For KA the hitting was evenly divided, Frank Beyer and Bob The Jr.-Sr's slammed out 16, Gil Keeley getting 4 for 4, Ted Gosen, and Monte McCord and Heath 2 each.

Erwin Blankenbiller started for Jr.-Sr, giving up 2 walks and fanning 1; Smith walked 5 and whiffed 1; Smart walked one and set one down on strikes.

Score by Innings

	1	2	3	4	5	6	7	R
Jr-Sr	4	0	0	0	2	0	7	13
KA	7	0	0	0	0	1	8	13

Batteries: Blankenbiller, Smith and Swintek; Smart and Beyer.

Sigma Pi Over Engineers Club

Friday afternoon the Sigma Pi team nosed out the Engineers Club 2-1, in a game which both managers, John Bauer of the Engineers and Karol Skedzeleski of Sigma Pi, announced would be finished under protest.

First scoring came in the fifth when Bert May punched a long home run to left. The game was immediately tied up as Bob Isringhaus got the first hit for his team, advanced on an error and a passed ball and scored as Bob Vreeland wild pitched and Bob Franklin swung for a third strike and dashed to first. Bauer protested allowance of the run. In the seventh, Fred Koenig walked, Frank Hequemour was hit by a pitched ball and both advanced on a passed ball. Ken Rudert then lined a drive to left to win the game.

Rudert fanned seven and walked none. Vreeland struck out nine and walked three. May and Bauer led the hitters with a pair of safeties each. May getting a double in addition to the homer.

Score by Innings

	1	2	3	4	5	6	7	R
Engr. Club	0	0	0	0	1	0	1	1
Sigma Pi	0	0	0	0	1	0	1	2

Memories of Bob Hamilton: A pinch of salt can be greatly improved by a stein of beer.

MINER TENNIS SQUAD SWAMPS VISITORS FROM WESTMINSTER: 6-0

Last Saturday, the tennis team from Westminster College came here to Rolla, and engaged our Miner squad in a match. The score however, made it appear that they could have done just as well by staying at home. The final count was Miners-6, Westminster-0.

In the singles matches, only one Miner player was pressed to win. This was Williams, who had to go three sets to beat his man, Raidt.

In the other singles matches, there was no doubt from the outset as to who would win. The Miner players played like professionals, and never once had to go more than two sets to clinch their matches. In these matches, Axson, Rice, and Ross of the Miners, defeated respectively, Schroeder, Griffith, and Kraft, of the Westminster squad.

The Miners also took both doubles matches, with Axson and Williams triumphing over Raidt and Schroeder in three sets. Ross and Younger of the Miners had an easier time as they downed Griffith and Kraft in two sets.

This Saturday, the Miner tennis squad makes an invasion of the Cape Girardeau campus. They should give the Indians quite a battle, as there are no men on their injured list as yet. The complete results of the matches last Saturday are:

Singles

Williams (MSM) over Raidt (Westminster), (7-5) (4-6) (6-4)

Axson (MSM) over Schroeder (Westminster), (6-3) (6-2)

Rice (MSM) over Griffith (Westminster), (6-0) (6-1)

Ross (MSM) over Kraft (Westminster), (6-2) (6-2)

Doubles

Axson and Williams (MSM) over Raidt and Schroeder (West.) (3-6) (6-2) (7-5)

Ross and Younger (MSM) over Griffith and Kraft (West.) (6-3) (6-3)

CYCLERS PLAN TRIP TO MONTAUK PARK

The first meeting of the Rolla Bicycle Association was honored by the presence of some new, and hitherto, unknown cycling enthusiasts. We have hopes of meeting more of you at our next meeting which is to be of a showing of color slides taken by "Americas Cycling Photographer," Bob Jacoby. These slides will be of interest to all who enjoy the great outdoors and all who are interested are invited to be present.

Of special interest to the heartier cyclist is a weekend trip that has been planned for the 24 and 25 of April. We leave Sat. morning for Montauk State Park, about 50 miles south of here, and return Sunday afternoon. With us will be several members of the St. Louis Cycling Club who will, in no small way, make the weekend worth the time away from the books.

If you care to join us contact Bob Ellenson or Bob Settgas at 1006 Rolla St. (8603). We will arrange for the necessary reservations at the State Park.

But don't let the prospect of a 100 mile trip scare those who are not up to that kind of riding. By far the greatest number of our tours will be from 20 to 30 miles on Sunday mornings or afternoons.

Drop in to Room 128 Met Build. Wednesday night, April 21, at 7:00 PM, to see the slides and have your questions answered.

Miner Thinclads in Triumph Over Floundering Westminster

Voiles Goes Over

Cletus Voiles, Miner Pole-Vaulter, caught just as he was clearing the bar in Saturday's meet with Westminster.

Grandstand Seat

By Val Stieglitz

Closing in upon us at a fearful rate are the official openings of the major league baseball seasons. After what has seemed like ages of spring practice, the time has finally come for the teams to really test their wares.

At this writing, the majority of the people in the know say that it will be the Cards in the senior circuit, while it will be a dog-eat-dog affair in the American League between the Yankees and the Red Sox.

No doubt the people who say these things know a great deal more about them than do I, but I still have a feeling that the Dodgers should not, by any means be counted out in the National.

Masters Golf Tournament

Perhaps the biggest upset in recent months in the professional golf world, was the performance turned in by Claude Harmon, usually a sure also-ran, in the recently concluded Masters Golf Tournament in Georgia. Perhaps one could credit his victory to the single fact that, while the other big names were sitting it out, waiting for the rain to stop, Harmon was out on the course every morning and afternoon before the match, familiarizing himself with the many idiosyncrasies of the course. This extra bit of practice, as was shown by the final score, did wonders for both the long and short game of a usually mediocre player.

Derby Favorite Upset

This being a time of upsets, it would be a crime not to mention the biggest upset of them all, Citation, odds-on favorite to win the Kentucky Derby, was beaten out last week in a thrilling race, by a horse many had never even considered as a Derby prospect. Saggy, bought for a song when a yearling, led Citation all the way to the wire, and although he was pressed hard at times by the great colt from Calumet, the final outcome was never actually in doubt. Perhaps this will serve as

notice to a great many of the track-wise crowd, that although Citation is truly a great horse, there will definitely be a few others in the Race to the Roses at Churchill Downs, come May 1st.

To mention a couple of those who could upset the well laid plans of many a bookie, excluding Saggy, Better Self has been getting better and better all the time, and Sagamundi, a rank outsider has been showing some pretty hot stuff on the training oval.

Kramer Outclassing Riggs

There should now be no doubt in the minds of the country's tennis fans as to who is the best of the lot in the pro circles. At the outset of their tournament, Jack Kramer and Bobby Riggs were playing very even, but somewhere along the line, Riggs began to show that time was telling on him. And from that point on, Kramer has had no trouble at all in taking him regularly. The tournament winds up in the very near future, and with his record of defeats, it seems that Bobby Riggs would do well to take a long rest.

ODDS AND ENDS: — Irony?

Joe Louis and Joe Walcott seen in a very heavy conversation over tea and crumpets. They, along with the Democratic and Republican Conventions, meet in Philadelphia this coming June... Bobo Newsom, the "Walking Man" of baseball, signs with another club, his ninth. This time it's the Giants... Ben Hogan still resting out the major tournament because of his ailing back... Seen-Clark Griffith of the Senators handing out his annual season pass to President Truman... Wish-That Byron Nelson would take to the circuit again, and show some of the newer pro golfers what the game is all about.

Sign in service station: "No smoking near gas pumps. Maybe your life isn't worth saving, but gasoline is."

BOCK TAKES SHOT; FINAL SCORE: 81-50

By Ollie North

The Miner trackmen made their first home meet of the season a winner Saturday as they breezed past Westminster by a handy 81-50 score, taking an early lead which was never threatened. Reported not too well prepared for the encounter, our men tallied firsts in 11 of the 15 events to win their second meet of the year.

Stars of the afternoon were George Bock, Don Smith and Bill Kirk. Bock easily set a new local record with the 16-pound shot when he heaved 45 feet, 6 inches. This is not far from the conference record, and George has been improving steadily since first taking up shot throwing last season.

To Kirk went high point honors for the second successive yard dash in 10.3 seconds, and Saturday. Bill scored in the 100-came back to get the 220 in 23 seconds. In between, he placed in the broad jump with a leap of 20 feet, 8 inches.

Smith scored in both long events, in each case going the distance in faster time than he had previously recorded this year. He was an easy victor in the 2-mile run but encountered some difficulty in the 10-mile run, of Westminster, running in his first meet, stayed with Don throughout, leading for two laps and being beaten but a few feet in 44:45. Jack Cox was third.

Bob Collier, last year's javelin star, found the range again with a toss of 160 feet, 10 1/2 inches. Gene Guiney took third. Guiney took the discus with a fling of 115 feet, 11 inches, half of a foot farther than teammate Bock. Charles Tothill came in an easy winner in the 440-yard dash, with a time of 53.7 seconds.

The 120-yard high hurdles found our Dave Ward just lasting to beat Kreitzer of Westminster in 16.5 seconds. Harold Corbin was a close third. The 880-yard run went over big with the fans, though Turner won easily for the Miners in 2:07.9. Interest developed when Don Mahan, apparently hopelessly out of the running, suddenly produced a terrific kick and closed many yards to nose out Fleming for second place. Let's see more of that, Don.

Misfortune overtook the Miners in the 220 low hurdles, when Dave Ward, well in front, fell at the last jump, as a result of which we were completely shut out in that event. Smith took an early lead in the 2-miler and extended it without undue effort. Kelly of Westminster and Shaffer of the Miners ran second and third throughout. Winning time was 10:46.8.

In addition to Bock's record toss, the Miners swept the shot put when Al Schwartz tossed 41 feet, 4 inches for second, and Gene Guiney 39 feet, 4 inches for third.

Cletus Voiles took second in the pole vault and Ken Watts was second in the 100-yard and third in the 220-yard dashes. Whitney Hammond tied for second in the high jump.

The Miners wound up the day with a victory in the mile relay as Cliff Turner carried the baton over with yards to spare in 3:37. Other members of the winning team were Cox, Paul Harrawood, and Tothill.

"The next person who interrupts the proceedings will be sent home," declared the judge. "Whoopie," yelled the prisoner, "where's my hat?"

Then there was the cat who ate the cheese and stood by the mouse hole with baited breath.

OFF THE CAMPUS

(Continued from page 2)

Sinz lost his pin to Miss Pat Keating of Stephens College, and Jim Timlin's pin is in the possession of Miss Marianna Sinz of St. Louis. Rumors have it that Don Peterson is about to drop his also to a certain Washington U. coed. Good luck fellows.

Kappa Sigma

"It looks as if our boy Jim has what it takes," was the opinion of most of the spectators at the game between Kappa Sig and Chi Sigma as they saw Kappa Sig win behind the no-hit pitching of Jim Baker. He seems to have improved since last season, which saw him go undefeated. The team also had an enjoyable day at the plate, gathering in twelve runs. All except Art Scholz, that is, who is losing his race with Carl Olfe no hits to two.

It seems the "connections" some of the boys made in Salem a few weeks ago are paying off. The girls came down last Saturday night armed with almost all the makings of a barbecue. The one constituent missing, that golden liquid which is the life of any party, was gladly taken care of by the fellows. Judging from the noise that issued forth from the barbecue pit, the evening was a howling success.

Another big week end is in preparation, as the fathers of all the boys have been invited down for the 17th and 18th. There's a catch to everything, though; we plan to lay an asphalt tile floor in two rooms and do other jobs around the house for which we will need technical advice and help of some of the dads. Their work shall be well rewarded, as the day will be topped off in the evening with a you-know-what bust.

Chi Sigma

St. Pat's paled in significance after Chi Sigma's Saturday night. Wow, what a week-end! Things started rolling in the afternoon with a cocktail party at the Toomey's. Someone told Slip that the way to keep a party lively was to never have enough chairs to go around. There certainly weren't, but Slip says it only made people angry with him. The high point of the party was the presentation of a gift to "Lollipop" Shute from the girls from St. Louis.

The next stop was the Penant Tavern for a delicious dinner. Besides all the actives and pledges and all those lovely girls, the Sigma Chi members on the campus were present. They are Emil Moscker, Curt Spar, Dr. and Mrs. Schlechten, and Jim Mueller. Our chaperones, Mr. and Mrs. Basile and us for dinner too. Between the main course and dessert, President Kane introduced the guests and presented Alice Brooks with a gift from the Fraternity in appreciation of her help on our St. Pat's float.

While the floor was being cleared for dancing, the crowd adjourned to the Toomey's and to the Rathskeller. It wasn't very long though before the dance was in full swing. Everyone enjoyed himself—even the dateless were doing all right. Moscker was quite surprised to learn Sunday that he pinned Alice. Pin was returned though as her date took a dim view of all proceedings. We hope that all our guests had as nice a time as we did.

Sunday afternoon found most of the gang across the highway in the "Dust Bowl" having a softball game. It was good practice and was made nicer by a cheering section of wives and dates. After the game no one could carry on much further, and so the week-end was officially and socially over.

Sigma Nu

Mid-term has come and gone so we here at the snake house can now settle down to thoughts a little bit aside from those of serious study. At the present time the spotlight is on intramural sports and making a determined bid for a share in the honors. We are still in there pitching in volleyball, and we have one victory to our credit in softball which was attained at the expense of the boys from Sigma Phi. The 13 to 0 victory over the Sigma Phi's may not indicate that we are turning out the best team on the campus, but it does indicate that we are going to be a team to be reckoned with in the race for the softball championship.

In our tour of lover's lane we find that the latest Sigma Nu to join the ranks of the pined is Bob Meyers who lost his pin to Miss Elaine Warren, a little bit of bonnie lassie from Sedalia, Missouri. Congratulations Midge and Bob. From the looks of things there soon won't be any pins available for pinning. Not many of the fellows still have pins left.

The big event on our social calendar for the rest of this semester is our Annual Spring Formal which is to be held at chapter house the weekend of May 8th. The social committee is already rolling on plans to assure the success of this dance. If we may judge from the affairs of the past and allow the record to speak for itself the dance should undoubtedly be one to remember.

Gamma Delta

At the regular meeting last Sunday night, Alphi Phi chapter of Gamma Delta gained ten new members. Initiation ceremonies were conducted by Dick Marting in the Lutheran Church. The initiates are:

Wilbert E. Bach, George H. Bock, Robert L. Basely, Charles Dunn, William Evans, Clarence Isbell, Robert Johnson, William Kieffer, Alvin King, and Wesley Koenig.

The old officers bowed out as the new officers stepped in. Harold Straub was installed as president, Bob Perko as treasurer, and Cal Ochs as secretary.

A. E. Pi

The boys at Twelfth and Pine have recuperated enough from the St. Pat's weekend to start plans for our first birthday dance May 1. St. Pat's proved pretty hectic at times for the boys at the house but we all had a swell time. St. Pat's also brought about the new look in dining rooms thanks to brothers Stein and Gelford.

Wednesday night three new men were pledged, Ken Elbaum, Ed Skalka and Jack Bookey. We are glad to have Jack back with us after his recent appendectomy.

Stephens Concert

(Continued from Page 1)

Gershwin's "Porgy and Bess"; Carline Gauntlett will sing "Jack O' Diamonds," a Kentucky folk song; Dolores Clarity will narrate, and Mary Poling and Pat Rayney will sing the solo parts of "Midsummer Night's Dream" by Mendelssohn; and even the pianists Helen Kelley and Sally White will play the "Arkansas Traveler" as a duet. William Herndon, an MSM student, will be the only male on the program, the lucky stiff. He and Eleanor Kramer will sing the duet "Will You Remember" from "Maytime" by Victor Herbert. "Allelujah" by Mozart and "Medley of Stephens Songs" arranged by Miss Reta von Thurn are among the many selections to be sung by the choral group.

For those who missed last week's issue of the Miner, the program will start at seven o'clock and will last until approximately nine o'clock. After the concert, the girls will go to Jacking Gym, where the Student Council has arranged for a dance. Music will be furnished by McGee's Band and there will be entertainment during the eleven o'clock intermission. Bill Spencer and Roy Scown will do their muscle-straining act for our entertainment and amazement. The barbershop quartette, consisting of Casselman, Padfield, Merritt, and Baker will harmonize on several old songs which made the barbershop quartettes so famous in their day.

To encourage better mixing between the "stag" and "doe" lines at the dance, the Student Council will distribute name tags to all the girls from Stephens College. From such favorable reports on the Lindenwood dance, the Student Council has decided to repeat this procedure

Engineer License

(Continued from Page 1)

sional engineer are covered by a pamphlet prepared by Mr. J. W. Hubler, Chairman of the Committee on Engineers-in-Training, some of which are available in the Mechanical Engineering Department. Examination for registration is required in 20 states at present, Missouri not included. In most of these states any engineer who passes the exam in Missouri will be considered a registered professional engineer merely by application and certification of passage of the Missouri exam.

In addition to the exam, an engineer is required to serve 4 years of actual engineering practice, which is equivalent to the internship of a doctor. There is a \$5.00 fee for taking the exam, and if it is failed, it may be retaken with 90 days without paying an extra fee.

All seniors will be given an opportunity to take the exam sometime in May here on the campus. Roughly it consists of two parts, one that is closed-book, in the morning and the other that is closed-book in the afternoon.

This should give an idea of the steps involved in becoming a registered professional engineer and additional information may be obtained from the department heads.

for these coeds. Well, you bashful stags, there goes your last excuse for not dancing with that cute blonde across the way. You don't even have to ask her name—just use your eyes.

The student activity card is the price of admission for all students for the concert in Parker Hall. Student wives will be charged twenty-five cents, and all others, fifty cents. At the dance, however, the admission for all will be the nominal sum of fifty cents.

VETS MAY NOW CHANGE CURRICULUM WITHOUT APPROVAL OF VA OFFICE

Veterans Administration today simplified the method of allowing World War II veterans training under the G-I Bill to change their educational goals.

Veterans studying in colleges and public high schools no longer will need prior approval of VA before changing their courses. These changes now may be approved by the schools.

The same is true for veterans enrolled in other schools and job establishments which operate adequate counseling service.

Veterans enrolled in those schools and job establishments not authorized to approve course changes will continue to ask VA for approval before they may change their courses.

However, those doing satisfactory work in their training no longer will need counselling by VA before their requests may be approved. VA's Education and Training Sections now may grant this approval on the merits of each application.

Requests for course changes will be referred to VA's Advice and Guidance Sections for recommendation only when the training progress of the applicant is unsatisfactory.

Schools and establishments will notify VA immediately of all course changes they authorize. No training change is to be effected before the end of the term, semester, or other period of instruction for which tuition has been paid.
