THE MISSOURI MINER

Missouri School of Mines & Metallurgy

VOLUME 34

ROLLA, MO., FRIDAY, APRIL 23, 1948

Number 25

Registration For Fall Semester To Begin May 3

The pre-registration for fall will start on May 3 and will end on May 8. All students including those who pre-registered for summer should go to their department chairman excepting those now registered for first semester work and not going to summer school. These will pre-register through the Registrar's Office.

Advisers are as follows:
All Miners, Dr. Forrester, 101 Mining Bldg.
Metallurgists, Dr. Schlechten, 121 Met. Bldg.
Civil Engineers, Professor Butler, 105a Harris Hall.
Mechanical Engineers, Dr. Miles, 105 Mechanical Hall.
Electrical Engineers, Professor Frame, 107 Norwood Hall.
Chemical Engineers, Dr. Schrenk, 101 Old Chem. Bldg.
Ceramic Engineers, Dr. Herold, 13 Experiment Sta. Bldg.
Short Course Students, Professor Carlton, 100a Harris Hall.
Unclassified Students, Dr. Woodman, 105 Norwood Hall.

Student in the Science curriculum are to report to their major professor.
The purpose of the fall pre-registration is to determine areas of overload in the various departments and thus be able to adjust those overloads before the semester starts on September 13. For this reason, it should be borne in mind that the pre-registration schedule is tentative and may be changed.

If students will observe carefully the sections allotted to the various departments, it will materially help in avoiding overloads at certain hours of the day and result in a minimum of changes after pre-registration is complete.

The students should go to their department chairman and secure from them a schedule of classes and mimeographed sheet appropriate to their classification in school. On this sheet will be outlined the sections in the various courses that have been set aside for that particular classification. Irregular students should adjust their program to these sections with as little change as possible so as to avoid disrupting the allotted sections any more than necessary.

These allotments of sections are on an estimate basis and, particularly toward the end of registration, it may be necessary to close some of the sections and have the students assigned to them go into other sections reserved for other departments, or into sections marked "open" which are available to any student.

TKP WINS INTERFRAT BRIDGE TOURNAMENT

The team from Theta Kappa Phi brought down first place in the annual Interfraternity Bridge Tournament which was held Thursday evening, April 8, in the Parish House of the Episcopal Church. Second place in the tourney went to Pi Kappa Alpha while Lambda Chi and Sigma Pi took third and fourth places respectively. The winning team will be presented with a trophy which has traditionally been given to the fraternity winning the annual tournament.

The tournament was a round robin affair in which each fraternity played the other entrants at least once. Match point duplicate bridge was played and the scores made were out of a possible 200. The teams, in order of their placing in the tourney, and their scores are listed below.

Theta Kappa Phi	129
Pi Kappa Alpha	127
Lambda Chi Alpha	119
Sigma Pi	117
Sigma Phi Epsilon	114.5
Tau Kappa Epsilon	109.5
Kappa Sigma	105
Alpha Epsilon Pi	104
Sigma Nu	93.5
Kappa Alpha	81.5

NEW OFFICERS CHOSEN; RUSH WEEK PLANNED BY INTERFRAT COUNCIL

Bill Magruder of Kappa Alpha was elected to head the Interfraternity Council at their regular meeting held last week. Bill is a Senior in the Met. Department and an officer in the advanced ROTC. He is a member of ASM, SAME, and is currently pledged to Tau Beta Pi.

The other officers elected at the meeting were Vice-President, Charlie Ross of Sigma Nu and Secretary-Treasurer, Bill Gammon of Kappa Sigma. Other business included the admitting of Chi Sigma to the Interfraternity Council membership. This makes a total of 12 recognized fraternities here at M.S.M.

Plans are now underway for the staging of an annual Rush Week, to be held during the first week of school in the fall. During this period no pledging may be done, in order that the prospective fraternity man may have a chance to meet with groups from a majority of the houses.

The council intends to publish a sheet immediately after registration giving the name and address of each new student along with information regarding his interest in fraternities. With this information in hand, it is expected that the fraternities will be able to meet a majority of the interested men and thereby have a larger group of prospects than was heretofore possible.

In conjunction with this rush week, the Interfraternity Council is publishing a pamphlet which will contain pictures of the frat houses on this campus with short notes about the various fraternities. These will be distributed during freshman week so that the new students will have an opportunity to learn the basic facts about MSM frats.

HAMMER THROWERS BEGAN SPRING SEASON LAST SATURDAY

Hear that whistle? Notice that purr—smooth, sweet, exciting? See how she draws everyone's attention with such an easy, graceful style, and check the way she handles, so gently, yet with such reserve.

No, it's not those Stephens College girls I'm referring to, but the new fleet of planes the Hammer Throwers were flying on the golf course last Saturday. The season's flying has begun in earnest. This was shown by the unusually large number of planes flown, with, of course, the usual percentage of crack-ups.

Most outstanding of the day's flying was Jerry Gieger's scale model, control line "Thunderbolt." It took off, flew, and landed with the style and ease of its full-scaled counterpart. It handled perfectly while in the air.

A whip control model was flown until lack of airplane became too great and the parts were scattered all over the flying area. While flying, it had a curious obsession of chasing the flyer when the wind of opportunity blew hard enough.

George Hesse's rubber-powered plane flew well on its test until it received the bad end of a battle with a tree and Bill Netzebrand's hip kissed Mother Earth good-bye.

There will be a meeting of the M.S.M. Hammer Throwers tonight in room 204 in Mechanical Hall at 7:30.

APPLETON AND FIELD, DUO PIANISTS, PERFORM IN PARKER TONIGHT

Vera Appleton and Michael Field, a piano playing duo, will appear under the auspices of the Special Lecture Series in Parker Hall at 8 o'clock tonight.

This is one of the many performances of great artists which Professor Lloyd, chairman of the Special Lectures Committee has brought to the School of Mines within the past few months. The program tonight promises to be interesting with many novelty numbers and classics.

The admission will be free for all students presenting their activity cards, twenty-five cents for students' wives, and all others fifty-cents.

DR. L. L. HIRST TO SPEAK AT ALPHA CHI SIGMA, A.I.C.H.E. MEETING

Dr. L. L. Hirst will speak before a joint meeting of Alpha Chi Sigma and American Institute of Chemical Engineering on "Synthetic Liquid Fuels" Thursday, April 29th, 7:30 P. M. in Room 103, Old Chemistry Building. Dr. Hirst is Chief of the Coal and Oil Demonstration Branch for the Office of Synthetic Liquid Fuels which is located at the U. S. Bureau of Mines, Louisiana, Missouri.

Dr. Hirst is one of the outstanding authorities on synthetic liquid fuels. A subject which is assuming greater importance every year, as is indicated by the following abstract. Dr. Hirst's address is sure to be interesting and educational, so don't miss the joint meeting of Alpha Chi Sigma and the A.I.C.H.E. next Thursday at 7:30 P. M. Refreshments will be served after the meeting.

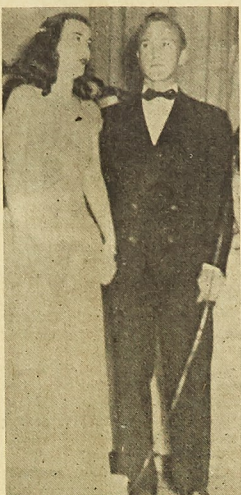

MR. BETZ ADDRESSES ASM ON MAGNAFLUX

Mr. C. E. Betz, executive vice-president of the Magnaflux Corporation of Chicago will address the monthly meeting of the American Society for Metals. Meeting time is 7:30 P.M. Thursday April 29, in room 5 of the Experimental Station. In addition to an informal talk, Mr. Betz will show slides and a 16 mm. movie produced by the Air Force on the application of Magnafluxing.

Mr. Betz graduated from the University of Missouri as a Chemical Engineer. He has appeared before A.S.M. Chapters throughout the country as guest speaker.

There will be two door prizes. Winners will have their choice of a technical book. Refreshments will be served and all are welcome.

Sweetheart!

Bill Herndon of MSM and Eleanor Kramer of Stephens singing "Will You Remember" in last Friday's Special Lectures program. "Blushing" Bill made a big hit with the Miners as well as with the Stephens Coeds.

INTERVIEWS FOR SENIOR GRADUATES NEARING COMPLETION

With the time for Senior Trips nearing, the number of opportunities for future employment interviews for the graduating seniors is becoming limited. However, there are still several scheduled on the calendar in Dean Williams' Office that many seniors may wish to consider.

Those left for the semester include: Friday, April 23, The Oklahoma Steel Casting Company will interview senior Metallurgists; Monday, April 26, The Magnolia Petroleum Company desires to interview future engineers for exploration work; Tuesday and Wednesday, Joseph E. Seagram and Sons for Chems, and Friday, Aluminum Company ME's, EE's, and Civils; Thursday, of America will interview Chem's, Met's, ME's, EE's, and CE's; and on Friday, April 30, United Clay Mines will see Ceramists, Mechanicals, and Miners.

Also on the calendar for sometime before the senior trips is the Oliver Iron Mining Company to see Mining Seniors; however, as yet the date has not been specified. The Bethlehem Steel Company also desires to send an interviewer, Friday, May 21, primarily to interview Metallurgists, and also ME, EE, CE, and Mining.

Applications for these interviews should be made through Dean Williams' Office at the earliest possible date.

INDEPENDENTS ELECT OFFICERS, MAKE PLANS FOR OUTING ON MAY 4

A short business meeting was held by the Independents in Room 204 Norwood Hall, Monday, April 12, at 7:00 P.M., for purpose of electing officers for the year of 1948. After the election a film was shown which gave some little known facts about atomic power and the developments that have been made in its production and use.

Jack Foster was elected to the office of President by acclamation. Joe Crites was elected to fill the position of Vice-President and William Wundrack was selected to fill the office of Secretary-Treasurer.

Plans were made for an outing to be held at 4:00 P.M., May 7. The outing probably will be held at Buehler Park. The outing is to be the final outing here at MSM for the graduating Seniors. There will be a ball game or two and refreshments. All members are invited to come, and bring a buddy. There will be a slight charge of 50 cents to partially cover the cost of the refreshments, which should be paid to Bill Wundrack as soon as possible in order that some idea may be obtained as to the number to expect.

Rollamo Board Will Have Banquet Apr. 24

The annual banquet of the Rollamo Board is to be held at the Pennant Tavern on Saturday, April 24th, at 6:00 P.M. Prof. Boyer of the Mechanical dept. is to be the guest speaker.

Notices have been sent to all board members but should any member fail to receive one he should contact Ed Acheson at Triangle Fraternity (122) for further information.

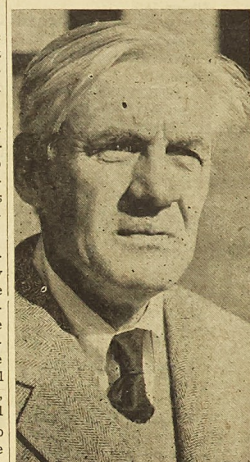

WUNDRACK TO HEAD ENGINEERS' CLUB FOR NEXT FALL AND SPRING

Last Monday night after supper the Engineers' Club membership held their annual elections.

Bill Wundrack was named to replace Ray Juergensens in the office of President, Frank Komoto is the new business manager, taking over from Ollie Stohldier. Ex-Treasurer Bob Reichelt surrendered his books and head-aches to Joe Crites. New Board of Control members are Bruce Miller, Ed Koziboski, Bill O'Connell and Richard Mallon.

The new officers opened their terms with a beer-bust discussion and the appointment of a committee to make it a reality some week-end in the near future.

Jim Conzelman, Noted Coach and Lecturer, Speaks Here Next Friday Evening

Jim Conzelman

MARYVILLE COLLEGE WILL BE HOST TO MO. ACADEMY OF SCIENCE

On Saturday, April 24, 1948 the College Section of the Missouri College of Science will hold its Spring meeting at Maryville College in St. Louis. This meeting is an annual affair sponsored by the college students of Missouri in order to promote co-operation and understanding among the junior scientists of the state.

Many colleges will be represented at this meeting, among which will be Rolla, Columbia, Fontbonne, Maryville, Lindenwood, William Jewell, Westminster, Harris Teachers, and other schools throughout the state. A very interesting program has been planned for the meeting by the President of the section, Nelene Zeis of Maryville College. The business meeting will be first on the schedule at which time the member schools will elect the new officers and vote on some proposed constitutional changes.

The main part of the meeting will be concerned with presentation of scientific papers by various students who have completed some project or research during the past semester. These papers will be bound and preserved in the St. Louis Public Library and St. Louis Academy of Science.

Preceding the regular session of the section, the Board of Directors will hold their monthly meeting. This board consists of four officers, the most recent past president, and a representative from each member school. They set the policy of the organization and nominate candidates for the new board. There are two Miners on this committee, Ralph Johnston, who is Secretary for the section, and Fred Springer, who is the most recent past President.

A number of students from Rolla are planning to attend this meeting among which will be Ralph Johnston, Erv Schowengerdt, Stan Hrach, Richard Ballman, and Fred Springer. They expect the meeting to be very interesting and invite any other interested students to attend.

A man never knows whether he likes bathing beauties until he's tried bathing one.

"Pa, tell how you proposed to Ma," said the young hopeful. "Well, we were sitting on the porch swing and your Ma whispered in my ear. I said, 'The Hell you are,' and we were married the next day."

COLORFUL CAREER HAS BROUGHT COACH FAME IN MANY FIELDS

Jim Conzelman, coach of the Chicago Cardinals football team, will be in Rolla on Friday, April 30th, with a program for the MSM special lecture series. He not only is rated among the top speakers of the country, but is also a writer, a radio commentator, and a musician. A number of his crude articles have been published in the Saturday Evening Post and other national magazines. He led his own orchestra for several years and has composed a number of songs.

At the University of Dayton in 1941 he delivered a commencement address, about the effect of athletics on the future of young men, that became a part of the training program for both the Army and the Navy. Conzelman was awarded an honorary degree for the same address by the Dayton College and is probably the only coach to be so honored.

In 1918 Jim Conzelman and Coach Barnard were on the Navy's Great Lakes football team which played at the Rose Bowl. Three years later he both coached and played on the Green Bay Packers team which won the national championship. For 13 years he played in the professional football league and was an outstanding back for two years. Gale Bullman and Conzelman were coaches at Washington University for seven years and during that period Dwight Hafeli played for Washington under their direction.

Conzelman's talk here will be entitled "Along the Sports Trail" and will undoubtedly be delivered in the same style that has brought him distinction as a lecturer all over the United States. After the main lecture he will show moving pictures of the championship game between the Chicago and Philadelphia teams for those who are interested.

Collection To Be Taken For Student Injured In Tornado

In the recent tornado which destroyed Bunker Hill, Ill., Lawrence Gurley, a Chem. Eng. Junior, suffered a broken pelvis, three fractured vertebrae, and serious internal injuries. He is expected to be in the hospital for several months. In addition to his injuries his thirteen year old brother, Marvin, was killed and his mother seriously injured. Their home was completely destroyed.

A collection will be taken at Jackling Terrace. For those who are interested in contributing, contact Seymour Oregor, Dorm F-2.

Music Notes

Sunday, April 25

Any student of M.S.M. is welcome to Jack Forbes' house at 808 State on Sunday evening at 7:30 P. M. to spend an enjoyable evening listening to the masters. The following selections will be played:

Beethoven: Coriolanus Overture
Mozart: Quintet in G Minor
Puccini: Madame Butterfly "One Fine Day"
Beethoven: Symphony No. 3, E Flat (Eroica)

THE MISSOURI MINER

THE MISSOURI MINER is the official publication of the students of the Missouri School of Mines and Metallurgy. It is published at Rolla, Mo., every Tuesday during the school year. Entered as second class matter February 8, 1945 at the Post Office at Rolla, Mo., under the Act of March 3, 1879.

Subscription Price 75¢ per semester. Single copy 5¢ (Featuring Activities of Students and Faculty of M. S. M.)

Miner Policy For 1948

This is the first issue of the MINER under new editorship. The assuming of our duties has not been a great problem, thanks to the excellent work and cooperation of the retiring staff. However, the mistakes during the first few weeks will probably be many, and we ask that you be tolerant until a workable routine is set up among the new men.

In the next year, our aim is to put out the best possible MINER, one that will be of interest to all. In attempting to fulfill this aim, we adopt the following policy:

1. An unbiased, factual coverage of all campus news which will be of interest to the students.
2. Complete impartiality toward all organizations on the campus.
3. Thorough sports coverage of both varsity and intramural sports.
4. Publication of a MINER of good appearance as well as good reading.

The MINER is written for the students, and we need the cooperation of all students and organizations at all times for the publication of a good MINER. The students are the determining factor in the composition of the paper. All suggestions for improvement will be heartily appreciated and will be complied with to the greatest possible extent.

Bob Buel, Editor-in-Chief

The Senior Spotlight

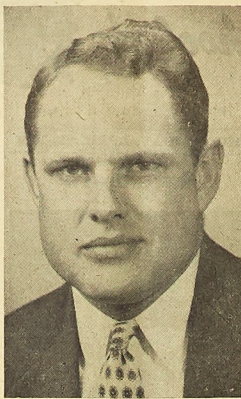

Introducing Don Mathews, an Independent, a resident of St. Louis, and a graduate of Cleveland High School of that city. Don will be graduated this coming June with a B. S. in Mechanical Engineering. He has accepted a position as junior Petroleum Engineer with Stanolind Oil and Gas, Zenith, Kansas, producers for Standard Oil of Indiana.

Don entered M.S.M. in 1942 being sent here for a war training defense course. As hostilities increased, Don was yanked into the Air Force serving as Navigator, seeing extensive service in Europe.

Returning to M.S.M. in '45 he lettered in football that year having since confined his sports to the intramural level. Don excels in tennis, softball, handball and basketball, and was awarded a pennant for participation on the Independents basketball team.

Don is active in many organizations on the campus and has held responsible positions in almost all of them. He is President of the Independents and Blue Key, and Secretary-Treasurer of the Student Council, past Business Manager of the Engineers Club and a member of the A.S.M.E.

Don's favorite hobbies are reading, photography, and sports.

Don Mathews

To Be Or Not To Be

To be, or not to be,—that is the question:

Whether 'tis nobler in Rolla to suffer the tortures of annealing alloys, or

Journey nigh to Loutown, pleasuringly dissipating—To dine—to dance—

And then perchance to woo a lovely lass.

Shall all these pass? Shall weekends few and far between mean nothing more than ordinary days?

Heaven forbid! Taunts of derision mar my sleeping hours and

Impish fellow miners cavort and dance around my bed

Screaming, stamping, shouting, teasing, pointing, staring, louder, louder, and LOUDER you're a Yo-Yo!

In vain I answer back, "Tis not my fault—she sends me invitations."

And they reply—"You're wrong, be strong—forget about your Loutown."

And once again the eternal question...

TO BE OR NOT TO BE—a Yo-Yo?

Letter to the Editor

A person of average intelligence will make mistakes now and then, but that person will not make the same mistake twice. America was unprepared for the last war; to save her from the same mistake, Universal Military Training must be adopted.

In 1939 an alert man, Billy Mitchell, tried to tell the nation that Germany and Japan were far ahead of all other nations in war-implement production. To save ourselves from destruction he recommended that we arm ourselves immediately. As a result of his continued speeches on this subject, he was court-martialed by a body of political-minded officers.

Today we are starting on the same plan of isolationism. If this continues, we will be caught in the same unprepared position we were in at the start of World War II.

One of the best methods of preventing war is to adopt Theodore Roosevelt's famous quotation, "Speak softly, but carry a big stick." If this nation were to

SCOTT'S

OFF THE CAMPUS

Triangle

Being that it's spring, the senior class of Triangle has come into its own with the old fashioned idea of adhesive plastered midriffs, though they are not willing style leaders this time. Seems as though these soon to be graduates (They hope!) were to have their pictures taken on some stairs when, with no warning at all, these stairs collapsed leaving every senior with the same affliction which required the, above mentioned, adhesives on the midriffs. Needless to say, the lower classmen are at a loss to explain this phenomenon nor this story that's a wee bit on the strange side but then that's the story the seniors are telling around.

The chapter has recently had four new additions to its membership when formal initiation was held on April 2nd. The four initiates are Edward Acheson, Neal Dowling, Robert Merkle, and Robert Stinson. Congratulations to these men. We're expecting big things from you in the future.

Repairs are being made at a rapid rate around the house with the advent of the warmer weather. The drive which has so long gone unused in favor of the lawn has become the proud possessor of a new rock border which greatly enhances its worth as well as its looks. Of course the Burma Shave hopefuls can be proud of the few flickers of green that can be seen here and there on the front lawn. Anyway, it can be said that they tried.

Another Triangle outing is in the offing or so its being told about this reporters ears. The date is set at the 8th of May with a picnic taking shape for the afternoon and the height of informality is to reign for the dance which is to follow will find the rugs rolled back, good music (canned), and a friendly gathering of potential Caruso's to enlighten the hearts of those present. Should be a big time from where we stand.

The Marriage Ring

You really missed something if you didn't see the Dame's play last Thursday. I think the gals deserve a big hand... of course, from what I hear they had a swell time getting it ready. I'll bet there is plenty more talent out there among the student's wives... why not join the Drama Club and get in on the fun.

Helen and Johnnie Williams announce the birth of a daughter, Vicky Lynn, born at Waynesville Hospital... also a belated announcement is due Randolph William, new son of Bob and Phyllis Kirk, born on March 16.

Pauline Arnoldi, LaRayne Johnston, and Pearl Toth lost their husbands for a week-end... fishing season, you know.

Iva Balstad gave a very definitely surprise Baby Shower for Jean Penman, Thursday. The 17 guests present enjoyed ice cream, cup cakes, and coffee... and played games most of the evening.

Mr. and Mrs. Robert Cole gave a dinner in honor of Eck and Botsey Jones' 2nd wedding anniversary.

Pat Humphries was given a surprise Baby Shower by Betty Wallace and Mary Babbitt on April 9th.

Marge Ellis and Kathleen Carr had their bridge clubs this week... Mary and Joe Sojo are settled in their new place now... Mr. and Mrs. Damon Snow entertained the Carmody's for dinner Sunday... Eugene and Maxine Copeland spent the week-end in Rich Hill, Mo.

Miss Eloise Elmore is leaving Rolla to spend 3 weeks in McAllen, Texas. When she returns, she will be married to Dick Otto

on June 4th. The lucky couple already have found an apartment.

Lynna and Charlie Mitchell and Treva and Jimmy Minshall had a picnic Sunday down on the Little Piney. They forgot the meat so they ate those poor little perch they caught.

The next meeting of University Dames will be May 13th in 104 Norwood Hall. Maybe the Dame's Glee Club will entertain us then. Let's see how many new members we can get to that meeting.

Anyone with news for this column may drop a card to me (D. Hoopes) at 908 W. 10th... or call Ginny Teas.

"I hear," he said hopefully, "that you have a propensity for petting."

"A dirty lie," she cried. "All I have is a davenport."

Papoose—The prize an Indian maid won for taking too many chances on an Indian blanket.

Three salesmen were talking. The beer salesman said, "I hate to see a woman drink alone."

The food salesman said, "I hate to see a woman eat alone."

"Sir, I came in to tell you that I have a new position," said the secretary to her boss.

"Okay, come in and close the door."

Two old maids were discussing men. Asked one: "Which would you desire most in a husband—brains, wealth or appearance?"

"Appearance," replied the other, "and the sooner the better."

You can lead an engineer to water, but why disappoint him?

SOFTBALL REIGNS KING OVER MSM CAMPUS

The Jr-Sr softball team defeated the Gamma Delta squad Friday, 18-10, as they overcame a nine run lead. The game was marked by big innings, with Gamma Delta getting ten in the fourth, and the Jr-Sr team five in the fifth and twelve in the sixth. In the latter inning the defenders fell apart, making six errors and four wild pitches.

Eissinger homered for Gamma Delta, and Smith hit one for Jr-Sr. Hitting was evenly divided on both teams, as most of the players hit safely one or more times. Gerler, of Gamma Delta, walked four and struck out one. For Jr-Sr, Avery walked two, and Smith whiffed one.

Innings 1 2 3 4 5 6 7 R
G. Delta 0 0 10 0 0 0 10
Jr-Sr 0 1 0 0 5 12 x 18
Batteries: Gerler and Lange; Avery, Smith and Swientek.

Theta Kaps Beat KA's
In a seventh inning thriller a week ago, the Theta Kaps pulled a trick out of their fabulous bag to trip the Knights from the Kastle, 8-6.

The 1st inning started off with a bang as the KA's pashed home 5 runs on 2 hits while the Theta Kaps gathered in 2. In a see-saw battle for the next several innings up to the seventh, the KA's managed to keep ahead at all times. Then, in that fateful inning, things happened; with the Theta Kaps 1 run behind, two of their men out in the last half of the inning, and two men on base Jack Sontag knocked a mighty homer over the head of Charlie Hudson out in left field to bat in the winning run.

For the Theta Kaps, Bill Wisch was the winning pitcher. Sontag's homer gave the KA's the lead, but the Theta Kaps' Dick Smart and Frank Beyer.

Innings 1 2 3 4 5 6 7 R
KA 5 0 0 0 1 0 0 6
TKP 2 0 2 0 1 0 3 8

La Chi vs. PKA
On the other side of the field, another spectacular game was going on between the Lambda Chi's and the PKA's. This game, though, had to go into a 9th inning to break a tie which was bound in the 7th.

With the PKA's leading off a hot 1st inning in which they scored 3 runs against the Lambda's 0, things began to assume a more neutral keel. A couple of runs were pushed over in the 2nd and 3rd innings by the Lambda Chi's to even things up. The seventh inning saw the game tied up, and extra innings coming up. The 8th inning held no score for anyone, thus increasing the tension; but, in the 9th inning, Lambda Chi's tallied 2, finishing the game.

Will Stoecker got credit for the win with Bob Neustaedter backing him up behind the plate. Dave Grimm took the loss.

Innings 1 2 3 4 5 6 7 8 9 R
PKA 3 0 0 1 0 1 0 0 5
LCA 0 2 1 0 0 1 1 0 2 7

"Do they have skyscrapers in heaven, Mommy?"
"No, dear — Engineers build skyscrapers."

She said she felt like a young colt, but she looked more like an old 45.

TOWN BASEBALL TEAMS BEGIN SPRING TRAINING

by Tom Herrmann
From coast to coast the old familiar call of "Play ball" is being heard, starting the season for the great American pastime of baseball. In two weeks this call will be heard from Beuhler Park to officially open the season for Rolla's two amateur teams, the Redbirds and the Bluebirds.

The two teams are entered in a league of two divisions, each division composed of six teams. In a season's play each team plays the other five in its league twice each. The champions of each division then meet to decide a league champion in a three game playoff. Last year Rolla's Beuhler Park was the scene of the "Little World Series" with both its teams winning out in their respective divisions. Winning two of the three playoff games the Redbirds emerged as champions.

Six Miners: Radcliffe, Detjen, Stegmeyer, Rinkensmeier, Russell and Rhodes, who have been present at this year's practice, were instrumental in winning these championships by holding down regular berths. In addition to these six, many more M.S.M. students have reported for practice sessions, and a glance at the material would indicate a good possibility for two more championship teams.

GRAY DEFEATS KEESER IN TENNIS MATCH TUES.

Bill Gray, of Lambda Chi Alpha, defeated Tom Keeser of Gamma Delta in Tuesday night's tennis tournament match, on the rain soaked M.S.M. tennis court.

It looked as though Keeser might win after taking the first set, 6-3. Gray, however, came back to win the second set, piling up 6 points to Keeser's 1. Both boys put all they had left into the final set, Gray managing to nose out Keeser, 7-5, to win the match, thus keeping Lambda Chi in the tourney's singles winner bracket.

REDBIRDS SEEK PLAYERS

Students at MSM who are planning to attend summer school, and who are interested in playing baseball, are invited to try out for a position with the Rolla Redbirds. Those who are interested may contact Ray Russell, at Beuhler Park, at 4:30 P.M. on Friday or Wednesday afternoons.

Teacher way down South: Who gave us this beautiful school-house?

Pupil: The Democrats.
Teacher: Who keeps our roads paved?

Pupil: The Democrats.
Teacher: Who makes the trees and flowers grow?

Pupil: God.
Voice from rear: Throw that damned Republican out!

She: "My dad takes things apart to see why they won't go."
He: "So what?"
She: "You'd better go."

the SPORTS EYE

by CHAPMAN

The Sport's Eye this week presents Martin Hobelman as the "Intamural Athlete of the Year."

Hobie is a member of Kappa Sigma; playing on practically every team they came up with. As captain of their basketball team this past winter, he was instrumental in setting up Kappa Sigs unblemished record. Playing at guard, Hobie was the play-maker for the squad as demonstrated by his snappy passing and rebounding ability. Earlier this winter he captained the Kappa Sigs football team to another championship as a diminutive, hard passing quarterback. Just recently the Kappa Sigs again came out on top coping with another laurel in Volleyball. Hobie as a member of that team aided in clinching another cup. More recently, Hobie plays outfield on their softball team, being switched from second base after a team rearrangement.

However, most outstanding is his prowess as a boxer. For two successive years he claimed the mrown in the 135 lb. class. This year he conquered the 145 lb. class to be named as one of the outstanding boxers of the 1948 bouts.

Martin entered MSM in January 1946 and since has climbed to a top spot in MSM athletics. He was a member of the varsity basketball squad for two years. His home was originally in St. Louis, where he attended McKinley High School. While there he lettered in four sports—football, basketball, baseball, and track. For the 42-43 season he was named All-City honorable mention in basketball. Now married, Hobie claims Rolla as his home. Next year we can expect to see Martin Hobelman again pushing for the top in intramural sports.

SHWARTZ LEADS TEAM TO NEAR DESTRUCTION

By Murray Schmidt
It's a good thing for Al Schwartz that he doesn't have to take orientation labs here in school, or he would be "behind the 8 ball." Last Saturday, at Cape Girardeau, he offered ample proof of this statement; in trying to get to the locker room from the track, in the bus, the possibility of going up a convenient alley as a shortcut was pondered. Al, always eager, hopped out and said he'd investigate, so, out and up the alley he went. A minute later, a faraway voice could be heard, "Come on, it's O. K." So up we went, scraping bushes on both sides and clearing garages and fences by only inches. We thought of the horrible possibility that maybe Al had calculated wrong, but continued on anyway. Nearing a jog in the alley, the driver, Red, became rather hesitant, so decided to investigate it himself. Lo and behold, the corner being much to sharp, there was a steep banking entrance to the street at the other end which would have torn the motor out. So, with the only alternative on hand to back down he long complicated alley, back we crept, Al now in back of the bus yelling, "Come on, it's O. K." But, Red had two mirrors and this time used his own eyes.

The complete standings:
Don Smith 33
Bill Kirk 29
George Bock 29
Dave Ward 24
Gene Guiney 18
Cliff Turner 14
Rob Collier 13
Cletus Voiles 13
Charles Tothill 10
Al Schwartz 10

"I dreamed about you last night."
"Did you?"
"Naw, you wouldn't let me."

ATHLETE OF THE YEAR

MARTIN HOBELMAN

MINERS MEET DRURY AT HOME TOMORROW

Tomorrow afternoon the Miner track team plays host to Drury of Springfield in a dual meet on Jackling Field. Last time they met, in 1946, the Miners took the verdict.

Little is known of the Drury squad, but it is believed that they have taken part in only a couple of meets this year. They are members of the MCAA, and usually meet other members of that association, including Westminster and Missouri Valley.

The usual athletes will participate for the home team. Cletus Voiles, who vaulted 12 feet for a surprise win at Cape, and the other winners of that meet—George Bock, Don Smith, Dave Ward, and Rob Collier—will be in action. Bill Kirk will have an opportunity to atone for last week's disappointment in the dashes. Whitey Hammond, who did not accompany the team to Cape, may be ready for the high jump and low hurdles.

Besides the track events, tennis and golf matches will be played, with Drury furnishing the competition. Coach Bullman released mid-season point totals for the track squad. Don Smith is leading with 33, racked up in distance runs, followed by Bill Kirk with 29.

She: Do you think I go out with every Tom, Dick and Harry?
He: No, I suppose some of them go out with other girls.

Prof. (taking up exam papers): "Why the quotation marks on this paper?"
Student: "Courtesy to the man on my left."

"If my husband doesn't take back what he said last night, I'm going to leave home."

"What did he say?"
"He told me to get out."

Conceited Cus—One kiss from me, baby, and you'll be staggering.
Blonde—Yes, your kisses would drive any girl to drink.

Miners Bow to Washington U. and Cape in Triangle Meet

INTRAMURAL TENNIS IN THE LIMELIGHT

Chi Sigma vs. Sig Ep
In a forfeit, one week ago, the Chi Sigmans gained an advancement in the standings as no representative showed up for the Jr-Sr's. Leonard Kane and Rupert Bullock are the mainstays for the Chi Sigs doubles team.

Lambda Chi vs. Sig Ep
In two sets, 4-2, 4-0, the Sig Eps kept in the race for the cup by defeating the boys from the Lambda Chi House. Jack Stevens and Howie Lester took credit for the win over George Hoffman and Bill Sherburne.

Sig Ep vs. TKP
"Shorty" Voiles, of the Sig Eps, gained a victory at the hands of Bill Murney, of Theta Kaps, in two sets which seem fairly conclusive of just how the match went, 6-0, 6-1.

Gamma Dels vs. AEPI
Larry Spanier, of AEPI, dropped his match to Harild Kesser of the Gamma Dels in two sets, the scores being, 4-1 and 4-0.

MSM TROUNCES CAPE IN TENNIS MEET, 6-1

On the Cape Girardeau tennis courts last Saturday afternoon, our Miner net men won very handsily over the river-town boys, 6 to 1. The MSMites had very little trouble as evidenced by the fact that in the whole afternoon of play Cape was able to stretch only one match into more than two sets, that one being their only victory of the meet.

Doubles Clean Sweep
Both of our doubles teams won over their Cape Girardeau opponents. Axson and Williams won out over Spitsmiller and Dock, 6-4, 6-0. Then, Ross and Rice came on to win their match 6-3, 6-1.

Axson won out in his individual match over Spitsmiller, 6-2, 6-3, while another of his teammates, Williams was beat by Dock's 6-2, 6-0. Charlie Ross provided the only loss of the afternoon as he was nosed out in three sets by an ever improving opponent, 9-7, 3-6, 1-6. Rice and Juenger completed the win roster with wins over their men 6-2, 6-3, and 6-3, 6-2, respectively.

With a good majority of the fellas having odd-hour classes, the Coaches have had to put up with absences, with the result that the full team has not really had a chance to play together as unit. Of course, this early in the season, one could not expect to see definite team take the field as a unit to remain that way throughout the schedule.

The practice did offer many of the boys a chance to show themselves up as future prospects for the varsity first string and also a chance to show the varsity and the coaches just where time will have to spent in whipping the group together to top notch form next fall. One face that won't be seen on the field for some while will be that of Earl Hoen's; he broke his nose recently.

The 120 yard high hurdles saw Harold Corbin and Dave Ward take third and fourth places behind two Washington men, whose winning time was 16.2 seconds. Gunder, of Cape, had his difficulties; he knocked down the first six hurdles and quit after he cleared the seventh one, obviously out of the running.

The 880 yard run saw Ralph Corse, of Cape, take his second expected win of the day in the record breaking time 2:00.8. Cliff Turner finished in fourth behind two Washington men and Corse. The old record was 8.2 seconds slower than the winning time.

Reid, of Cape, captured first place in the 220 yard dash which saw no Miner men finish in the points. His time was a new record, also, being two-tenths of a second faster than the old record of 22.9 seconds.

The high jump went to last years record winner, Lennertson, of Washington, with the winning height this year of 6 feet ¾ inches. His winning height last year was some two inches higher than this. Second place saw two Washington men tied at the same height, and fourth place saw three men in a tie, Bruer, of

FOOTBALL TEAM SLOW IN FIRST SCRIMMAGE

by Murray Schmidt
Last Monday, in a practice game here at Jackling Field, the Varsity in orange jerseys, defeated the white clad Frosh on a last minute touchdown by Jim McGrath, 12-6. Looking far from last years peak showings, the Orange lost the ball numerous times on downs as the Whites stopped them cold. Yet, at other times, they made the White line look like an old sieve as they crashed off tackle and around end for good gains.

Instead of the regular kickoff at the beginning of a game, the Orange took possession of the ball on their own 30. In three mighty plays, the Orange had their first tally as Ed Kwadas came crashing through the line.

Back on the thirty, the Whites took over to try their skill. After an unsuccessful advance in the four downs, the Orange again took over. An Orange fumble gave the pigskin back to the Frosh; they couldn't make their yards, so Jim Tschannen gave it a boot right down to the 8 yard line out of bounds. The Varsity worked it back up the field, but on a 15 yard penalty, were forced to punt. However, the ball never got off as Bob Riechelt fumbled and was smothered as half of the Frosh line came crashing through. In not too many plays, the ball, in possession of the Whites, was down to the 12; Jerry Wilson, on an off-tackle play, carried the mail over the stripe.

The final period of play found both sides see-sawing back and forth with neither side looking spectacular. Tschannen carried a pass from the 30 to the 15 for the Whites where they were checked; they had the ball a very few plays later, though, as "Red" Lodwick intercepted a pass. An offside, a double fumble, a 25 yard loss, a punt, two good Varsity gains through and around the line, 8 yard pass to Teas, and a check in four downs gave the ball to the Whites with their backs against the wall. With Bill Chew offside, the Whites drew charity gain, but it still wasn't enough as they were forced to kick. In just a couple of plays the Varsity again had the Whites down on their goal line, where McGrath took it over.

Charles Tothill, of the Miners, ran the best 440 of his life, but was overshadowed by the spectacular sprinting of Reid and Brown, of Cape and W. U. respectively. At the tape, it was Reid, though, who was first in the photofinish, with the record time of 50.6 seconds, 1.1 seconds faster than the old record. Tothill took third place.

The 100 yard dash saw Washington take the first three places and Cape the fourth. Bill Kirk, of MSM, finished out of the placing, as did Ted Reeves. Run against the wind, the winning time was 10.4 seconds turned in by Guy of W. U.

The 120 yard high hurdles saw Harold Corbin and Dave Ward take third and fourth places behind two Washington men, whose winning time was 16.2 seconds. Gunder, of Cape, had his difficulties; he knocked down the first six hurdles and quit after he cleared the seventh one, obviously out of the running.

The 880 yard run saw Ralph Corse, of Cape, take his second expected win of the day in the record breaking time 2:00.8. Cliff Turner finished in fourth behind two Washington men and Corse. The old record was 8.2 seconds slower than the winning time.

BOCK AND VOILES SET NEW MEET RECORD

by Murray Schmidt
Last Saturday at Cape Girardeau our Miner thincads failed to produce the necessary points at the most critical time, so took third place in the annual triangle meet held between Cape Girardeau, Washington University, and our Miners. Washington U. walked off with first place honors with 75 1/3 points, Cape took second with 45 1/3 points, and we followed closely behind with 42 1/3 points. We had our share of first place honors as we took five of fifteen events held; Cape took six of the fifteen, and W. U. took the four remaining. Although Washington took only four firsts, they made up the bulk of their points in taking 12 seconds and 8 thirds and fourths.

Eight Records Fall
George Bock and Cletus Voiles both set new records in the third annual triangular meet. George put the shot 44 feet 1 1/2 inches, which was 2 feet 9 1/2 inches farther than the old record. Al Schwartz couldn't quite get enough range but managed to capture fourth place behind the other strongarms. Shorty Voiles, in the best vault of his career, cleared the twelve foot bar with inches to spare as he set a record for the meet. Chornak, of Cape, who had held the record, was stopped at the twelve foot mark, his old record was 11 feet 6 inches.

Don Smith Wins Distance Event
In the two mile event, Miner Don Smith outlasted Ratliff in a neck to neck finish to take first place in the time of 10:37.5. Last year, King of the Miners, set the record for that event which still stands at 10:26.3.

Don finished second in the mile run behind the highly talented Ralph Corse of Cape, the pre-meet favorite. In the last lap of the run, it was evident that Corse would win as he had quite a few yards between himself and next in line, Smith. He shattered the old record, 4:41.6 set last year by King of MSM, in the winning time of 4:32.5.

Charles Tothill, of the Miners, ran the best 440 of his life, but was overshadowed by the spectacular sprinting of Reid and Brown, of Cape and W. U. respectively. At the tape, it was Reid, though, who was first in the photofinish, with the record time of 50.6 seconds, 1.1 seconds faster than the old record. Tothill took third place.

The 100 yard dash saw Washington take the first three places and Cape the fourth. Bill Kirk, of MSM, finished out of the placing, as did Ted Reeves. Run against the wind, the winning time was 10.4 seconds turned in by Guy of W. U.

The 120 yard high hurdles saw Harold Corbin and Dave Ward take third and fourth places behind two Washington men, whose winning time was 16.2 seconds. Gunder, of Cape, had his difficulties; he knocked down the first six hurdles and quit after he cleared the seventh one, obviously out of the running.

KERAMOS ELECT NEW OFFICERS; YEARBOOK BEING COMPLETED

The Yearbook of Keramos is practically in its final stages. All the copy is in and all the necessary photographs have been taken. The general purpose of the book of course, publicity. It was decided that too few people knew the true meaning of the word ceramics, so the only thing to do is to tell them all about it. The members of Keramos conceived the idea of a Yearbook which would cover a history of the Missouri Chapter of Keramos since it was inaugurated last July 26, 1947, thus providing both publicity for the fraternity and also in some way describing the field of ceramics. The original plan is to distribute the yearbook throughout the major high schools of Missouri and also several ceramic plants.

Since the practice of a group sponsoring a soda vending machine in one of the buildings on the campus has become so popular, Keramos has decided that the Experimental Station could use an installation of a similar type. A contract has been made with the Coca-Cola Company for a machine which should be delivered soon. Watch the daily bulletin for the "grand opening." The machine will be placed in the basement of the Experimental Station near the foot of the stairway for the convenience of both the lab and the lecture students.

New blood has been tapped into the strong veins of Keramos. The election of officers for the coming year, starting in June was held at a meeting of the fraternity Thursday, April 15, 1948. Here are the results: Clay Brassfield, President; Ed Hyatt, Vice-President; Bob Breitwieser, Secretary; Betty Shroyer, Treasurer; and Roger Grotenfend, Herald. Congratulations and luck to the new corpscles.

Walter Hughes was appointed to the position of Asst. Editor of the MUD SLINGER. R. C. Padfield is the present chief of the sheet.

NEW CHAIRS FOR APO LOUNGE; BUTT CANS TOO

At last week's meeting of Alpha Phi Omega, the national service fraternity, formal pledging ceremonies were held. Arthur Grecke was the only candidate pledged into the fraternity at that time.

Plans were made and discussed for the annual spring outing.

New modern chairs were obtained through Dean William's office and cans full of sand have been placed in the room for cigarette butts.

Out of town papers are put in the room as they arrive and the papers from other schools are to be kept here for anyone who wants to read them.

ODE TO MSM COEDS

She blushes at dirty jokes. She says, "Oh, please stop that."

She wants to marry a football player.

She thinks a college education leads to things social, cultural and academic.

She won't go with a boy who has ever had a drink.

She thinks that things learned in college leave one intelligent. She likes to eat.

She wears his frat pin exultantly.

She reads, "What Every Young Girl Should Know."

IF SHE'S A SOPHOMORE:

She smiles at dirty jokes. She says, "Oh, please stop . . ."

She wants to marry a movie star.

She thinks a college education leads to things social and cultural.

She won't go with a boy who has just had a drink.

She thinks that things learned in college leave one intelligent enough.

She likes to eat.

She wears his frat pin hopefully.

She reads, "How to Win Friends and Influence People."

IF SHE'S A JUNIOR:

She laughs at dirty jokes. She says, "Oh, please . . ."

She wants to marry a capitalist.

She thinks a college education leads to things social.

She won't go with a boy who has had over one drink.

She thinks that things learned in college are intelligent enough.

She likes to eat.

She wears his frat pin doubtfully.

She reads, "The Art of Love."

IF SHE'S A SENIOR:

She tells dirty jokes. She says, "Oh . . ."

She wants to marry a man.

She thinks a college education leads to things . . .

She won't go with a boy who has had less than one drink.

She thinks that things learned in college leave one.

She likes to eat.

She still wears his frat pin.

She reads, "The Care and Feeding of Infants."

(Thanks to the "Rocky Mountaintain Collegian" of Colo. A & M.)

If there is anything more humiliating to a girl than blushing when she shouldn't, it's not blushing when she should.

VETS CUTTING CLASSES IN EXCESS TO RECEIVE PAY CUT AS PENALTY

The veterans guidance center here wishes to announce that veterans who cut enough classes to receive a negative hour will get a drop in pay at the rate of one day's pay for every five cuts. This action is due to the increasing number of cuts veteran students have been taking. If at any time the veterans administration is notified by the registrar's office that a student has unexcused absences over that number allowed by school regulations, it is up to the discretion of the administering officer whether that student shall suffer loss in pay. The administration has the authority to discontinue subsistence payments to those veterans who, during consecutive semesters, incur negative hours by reason of an excessive number of cuts.

Former Student Gets Award At Michigan U

Douglas Reed Stark, of Rolla, who is a student at the University of Michigan, will receive the Jane Higbie award in design, at the twenty-fifth annual honors convocation there tomorrow. He is studying ceramics and architecture there, after having previously attended the Missouri School of Mines.

He is a brother of Mrs. Ray Rucker, 800 West Thirteenth street.

TARZAN BEING SOUGHT ON MSM CAMPUS BY RKO RADIO PICTURES

Dean Wilson has received the following letter from RKO Radio Pictures Inc., Rockefeller Center, New York 20, N. Y., concerning their current talent hunt or a new Tarzan. The letter has been turned over for publication, and in the event any Miner might be interested replies should be sent to the above address.

"Dear Dr. Wilson:

"We would appreciate your cooperation in helping us find a young man who would be suitable to play the role of TARZAN in the world famous TARZAN pictures produced by Mr. Sol Lesser.

"The young man should be between 22 and 25 years old, an excellent swimmer and general all around athlete. He should have broad shoulders, full chest and muscles fully developed yet not to an abnormal extreme. Although acting experience would of course be helpful, a strong face able to project a pleasing personality is even more important. He should approach a MINIMUM HEIGHT OF 6'3" IN STOCKING FEET.

"If you know of some young man who would fit the above description, we would appreciate as much available information as possible and any pictures he may have in his possession. We will be only glad to return them if the individual so desires.

"We thank you for whatever assistance you may be able to give us.

"Yours very truly
"STACY KEACH

COLLIER EDGES BAUER IN CLOSE JAVELIN DUEL

(Cont. from Page 3)

MSM, being one of them.

Dave Ward Wins Lows

Dave Ward came through in the winning time of 26.4 seconds to give us another first in the 220 yard low hurdles. Washington took second and third places and Cape finished fourth.

Bob Collier Wins Javelin

In the Javelin event, Bob Collier took first place with the winning throw of 164' feet 5 inches in a closely contested duel. Bauer, of Washington, on his last throw, winged himself into a number two slot. Winner, of W. U. and Gene Guiney of the Miners, followed in just that order.

The broad jump was almost monopolized by Washington U. They took the first three places while Pete Perino, of Miners, took fourth. Dave Ward, missed Pete's mark by only one-quarter of an inch, but just enough to finish him out of the placing. The winning mark was measured to be 20 feet 11 1/2 inches.

The discus event fell to Bangert of Cape with the winning toss of 124 feet, 7 inches. Gene Guiney took second and George Bock took fourth place with Steenrod of the Bears falling into third place between them. Bangert's throw was 1 foot, 2 inches farther than the old record.

The eighth and final record of the day was set when Cape edged Washington out in mile relay, the last 220 yards being run in almost a dead heat. Cape's time was 3:31 compared to the old time of 3:36. We filled in the third place slot.

Ralph Corse and Reid, both of Cape, tied for point honors in the meet. Each had two firsts and teamed up in the mile relay to account for their 11 1/4 points.

R. J. YOKUM AWARDED FLYNT MEMORIAL PRIZE AT ASCE MEETING

Mr. Frank L. Flynt died in September 1947. At the time of his death, he was Chief of the Hydraulic Branch, Engineering Division of the U. S. Engineer Office, and a past president of the Tri-City Section of the American Society of Civil Engineers. Mr. Flynt was a graduate of Missouri School of Mines and had been engaged in the engineering profession for the past forty years.

To perpetuate the name of Mr. Flynt, the Tri-City Section decided to establish the Flynt Memorial Prize to be awarded annually to the most promising Junior in the Civil Engineering department at M.S.M.

The recipient is chosen on the basis of scholarship, character, personality, leadership, and engineering promise by the student chapter of ASCE from candidates selected by the faculty of the Civil department.

Robert J. Yochum was chosen as the most promising Junior in the department of Civil Engineering to receive the Flynt Memorial Award at the regular meeting of the A.S.C.E. April 14. This is the inauguration of the award and will be something to look forward to in the future for students of Civil Engineering.

adopt Universal Military Training it would be carrying that big stick.

The objections to the adoption of Universal Military Training are numerous, but they all fit into main classifications. Both of these deal with cost: dollar cost and man-hour cost. Congress seems to be of the opinion that the cost of such a large military force would be too high for this nation to support under its present economic set-up. The men directly affected by a bill of this nature state that the year or eighteen months would take too large a slice of their lives at such a critical age.

The dollar cost and the cost of our young men's time is small when one considers just what we would be saving ourselves from as a result of the adoption of this bill. To enter another war unprepared, would mean not only the economic destruction of this nation; but also, possibly, the actual physical destruction of it.

THE YEARLING

NOTICE

As previously announced, the military dept. is now accepting applications for advanced course ROTC. The applicants should have at least two years basic ROTC or its equivalent in military service. The course consists of four semesters of three hours each which are classed as elective hours. The student receives an allowance of \$.79 per day for the total 570 days and is supplied with a complete officers type uniform.

Call or inquire at the Military Building, in back of the gym, for further particulars.
