# THE MISSOURI MINER

Missouri School of Mines & Metallurgy

ROLLA, MO., FRIDAY, OCT. 15, 1948

NUMBER 5

## Faculty And Students To Welcome Visitors

### PEP RALLY WILL BE HELD TONIGHT AT 10:30

Saturday is Parents-Engineers Day at Missouri School of Mines and the Miners have their first home conference football game. The sound of "YEA MISSOURI—YEA MINERS" will be heard rising from the stands and we know the Miners will roll on to win their second conference game.

In the usual tradition of Parents Day, there will be a Giant Pep Rally and Parade tonight, Friday, starting from Jackling Gym at 10:30 P.M. The torchlight parade will be headed by the new Pep Rally Band and will proceed through the barracks, down State street to Seventh, down Seventh to Cedar street. The parade will then proceed past the high school to Twelfth street where everyone will take off for the Hospital Lot and the Bonfire. The pep rally will be held on the Hospital Lot and it is hoped that many of the Parents and Friends of the students will attend.

At midnight a Free Show will be held at the Uptown Theatre for all Miners, Parents, and Friends. It is hoped that all those attending the rally will attend the free show, which Mr. Rowe Carney has donated for the students.

Don't forget, PEP RALLY PARADE, 10:30 P.M. from Jackling Gym, PEP RALLY, 11:30 P.M., Hospital Lot, FREE SHOW, Uptown Theatre—shortly after Pep Rally is over—about midnight.

### ASME Outing and Student Papers

Members of the American Society of Mechanical Engineers and guests are reminded that student papers will be presented by Student members of the MSM branch of ASME, at the next meeting, Tuesday, Oct. 18, at 7:30 p.m., in Room 204 Mechanical Hall.

The papers will be presented by students and deal with engineering subjects. Cash awards will be presented for the three best papers of the semester.

In addition to the student papers plans will be completed for the ASME Outing to be held in the near future.

### WHAT WHEN WHERE

Friday, Oct. 15

A.S.C.E. Mid-Continent Conference—3 P.M.

Saturday, Oct. 16

"M" Club dance—Gymnasium.

Monday, Oct. 18

Speaker, Mr. O. K. Armstrong

### TOM HERMANN HEADS NEWLY ORGANIZED SCHOOL PEP SQUAD

It begins to seem that the tried and true Miner so much under discussion of late is practically as extinct as the ever-lovin' schmoo. That the degree of finality in the case of the former has not yet reached the lower limit was proven by the 47 solid citizens who attended the organizational meeting of the new Pep squad, Tuesday afternoon.

In spite of a noticeable pessimistic undercurrent, a real start was made toward the type of organized cheering long exhibited by other schools. Murray Schmidt as acting chairman took the initiative by appointing Tom Hermann to fill that position with Fred Springer to assist in the duties. Tom is going to show those dissenting souls that he's willing to back up his words with action.

Organization will not be complete by this Saturday's contest, but the interested members are planning to provide more than their share of support for the team. Are you going to let them do it all?

The Pep Squad is to become a recognized campus organization with a share of school funds and activity credit. With an offer from the Athletic Department to reserve a portion of the stands for the successful execution of its plans, the club seems destined for better days. It is hoped that this small nucleus of men can lead the way to the solution of the problem of school spirit. Excuses and explanations are not wanted. We've always had the spirit and the lung power; now we have organization. Let's don't sit back and criticize; let's get with it and make it work. Watch your bulletin board for further announcements.

### Prof. Schooler New Advisor For AIME

A magnificent turnout of both student members and prospective members filled the lecture room of the Old Chem building. Mr. Dean Wilson spoke on the subject, "The Mineral Industry, and the Education Division of A.I.M.E."

In his speech the Dean brought forth many points of interest concerning the A.I.M.E., emphasizing the fact that the Missouri School of Mines has always played a prominent part. He very adequately covered the historical background of the society.

In closing, the Dean advised all the student members to do two things after graduation. The first was to join their professional society as full members. The second was to recognize the necessity of becoming professional licensed engineers and to take steps to achieve this status.

Professor Schooler was elected as the new faculty advisor, replacing Professor Mullenberg. First social function of the year will be the beer-bust tonight. Watch the bulletin boards for time and place.

## ASCE MID-CONTINENT CHAPTERS TO MEET ON MSM CAMPUS

This week-end of October 14-16 will find MSM host to the Annual Conference of the Mid-Continent Student Chapters of the American Society of Civil Engineers.

The conference, inactive during the war, was reactivated last spring at Kansas University, Lawrence, Kansas.

Member schools are: Oklahoma A. & M., Oklahoma U., Nebraska U., Kansas U., Missouri U., Kansas State, Oklahoma U., Washington U., and MSM. MSM was indeed honored by being selected as host for the fourth annual meeting.

The purpose of the Conference is to "foster desirable relations among the Student Chapters, and to further the knowledge of the standards and ethics of the engineer's profession."

The conference will get under way with registration Thursday at 1 p. m.

The highlights of the program are:

Thursday, 6:30 p. m., Long Hotel buffet dinner and stag get-together. Mr. Gene Northern, Attorney at Law of Rolla, will be the guest speaker.

Friday, 1:30 p. m., 300 Harris Hall. Talk by Mr. George Salter, A. S. C. E. representative. Mr. Salter takes great interest in promoting student chapters and coordinating them with the parent society.

Friday, 2:00 p. m., 300 Harris Hall. Speech by Mr. E. C. L. Wagner, General Manager of the Associated General Contractors of Missouri, and also Senior Contact Member for the MSM Chapter.

Friday, 3:00 p. m., Parker Hall Auditorium. Movie—"Rail Steel in the World Today." This movie was premiered only last week and has been reported as being excellent. As this movie should be of interest to students of every department here at MSM, everyone and anyone is invited to come.

Friday, 7:00 p. m., Pennant Banquet. Mr. Carl Weber, Director of Research and Sales for Laclede Steel of St. Louis will be the speaker. Mr. Weber is widely in demand as a speaker. Those who hear him will understand why!

A. S. C. E. and Civil Department professors are preparing engineering exhibits for Engineers Day, October 16, which should be of interest to the delegates as well as the school's other guests.

MSM's official delegates are Robert Yochum, Bernard Wagner, and Robert Vansant.

MSM extends its welcome to the conference delegates from the various schools and hope they find their visit here an enjoyable one.

## GEOLOGY DEPARTMENT TO HAVE NUMEROUS DISPLAYS FOR VISITORS

The Geology Department will have quite an array of displays for the parents and students to view. Dr. O. R. Grawe, Chairman of the Geology Department, has announced that the following displays will be available to the public on Parent's Day: equipment used in X-Ray Analysis, a Paleontology exhibit, a Petrographic display, and a map and model display.

The X-Ray Analysis display will include such equipment that is used in the study of crystal structures, chemical analysis, and estimation of grain size.

Included in the Paleontology exhibit, will be invertebrate fossils, fossils representing the various geologic periods and epochs, and minute fossils to be viewed under microscopes.

The Petrographic display is so arranged that the public may view thin sections of minerals under the petrographic microscope. It is with this microscope that the chemical composition, mineralogy, texture, mode of occurrence, and origin of rocks are studied.

Relief maps and models will be displayed upon the walls throughout the department. For the benefit of the parents and the unacquainted students, the Geology Department is located on the second floor of Norwood Hall.

Various classes will be in session during the morning hours; thus, enabling the parents to observe the students at work. In addition, the museum will be open to public inspection. The museum possesses one of the most complete collection of rocks, minerals, and crystals in the country.

In the past years, one of the most important displays has been the fluorescent mineral display, however, this display will not be available this year. This exhibit could not be put into operation because of the fact that it was impossible to obtain a fluorescent lamp, which is vital to the exhibit.

Dr. Grawe has stated that because of the remodeling going on in the department, it was impossible to set up the displays to their best advantage. However, in spite of the distractions, the Geology Department will have displays of an informative and interesting nature.

## Alpha Psi Omega Elects New Officers

The members of the Alpha Psi Omega elected officers for the coming year at a meeting held last week. The new President or Director is John Wenrenberg. The other officers include Harvey Spindle, Stage Manager; John Parks, Business Manager; Marion Stanley, Secretary; Ed Skalka, Honorable Prompter; Albert Danz, Inner Guard; and Carl Niles, Faculty Director.

Alpha Psi Omega is the national honorary dramatic fraternity which bestows membership on those members of the local dramatic club, which is the M.S.M. Players, who have done outstanding work in college dramatics. The local chapter is known as the Delta Pi Cast and was founded at MSM in 1933.

## NEW BUILDING WILL HAVE CAPACITY OF 177;

The University of Missouri Board of Curators has given approval to a new and more economical design for the proposed School of Mines Dormitory, and it is expected that the change in design will bring about an agreeable bid from a contractor within the near future. The plan is now for a \$600,000 dormitory.

The Board of Curators at a meeting late last week gave approval to changes in the dormitory design—changes which they believe will lower the cost of the \$660,000 building approximately \$60,000 and will permit the school to go ahead with its building plans with the funds now available.

Previous bids for the building were rejected at a formal meet here several weeks ago.

Dr. Frederick A. Middlebush announced the change in plans. School officials said that they believed the new designs and specifications would bring about a suitable and agreeable bid from contractors within a few weeks.

Middlebush said that the Rolla dormitory will be financed from State appropriations of \$262,500, a bond issue of approximately \$140,000, and from School of Mines funds.

Economics in construction design approved by the Board will keep the cost of room and board to the student occupants of the dormitory to about \$54 a month, he said. He added that changes in the interior arrangements of the rooms will increase the capacity of the building to 177. The earlier plan, which was turned down by the Board, provided for only 155 students.

Some of the economics being considered in order to reduce construction costs are the substitution of plaster for interior walls instead of salt glazed tile and the installation of a heating plant in the dormitory instead of connecting the building with the central heating plant by means of underground lines.

Middlebush said that the money from the School of Mines fund which will be used to help finance the dormitory will be obtained by deferring some items of maintenance and repair by delaying improvements planned for the Athletic Field, and by deferring other improvements.

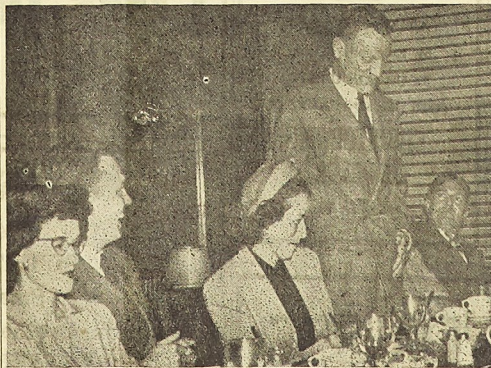

## Captain C. M. Messall Joins ROTC Staff

The MSM Military Department has recently announced the addition of Captain C. M. Messall to the ROTC staff. Captain Messall, transferred from the Engineering ROTC at Michigan University, is a graduate of Oklahoma A & M. The Captain has twenty-five months with the Amphibious Engineers in the Pacific Theater to his credit.

Captain Messall is replacing Major E. C. Richardson, who is leaving for duty with the Far East Command. The Major, very popular with the ROTC men, is leaving soon for Yokohama. He has been with the MSM Military Staff four years. Major Richardson is a CE graduate of Nebraska University.

Also leaving the ROTC Staff is Master Sergeant B. B. Gregory, instructor of infantry training. Sarge Gregory will be on active duty as a major in the Corps of Military Police Reserve. The very best of luck to you, Sarge, on your new assignment.

It's tough to find  
For love or money,  
A joke that's clean  
And also funny.

Guest Speaker at MINER Banquet

Those who attended the MINER banquet on October 2 can easily understand why Coach Gale Bullman is leading his team to victories in the MIAA conference. His talk concerned mostly of the power of the press and was indeed very inspiring. Pictured above with Coach Bullman are from left to right: Fran Porter, Editor Buel, Mrs. Bullman, and Mr. May, MINER publisher.

## THE MISSOURI MINER

THE MISSOURI MINER is the official publication of the students of the Missouri School of Mines and Metallurgy. It is published at Rolla, Mo., every Friday during the school year. Entered as second class matter February 8, 1945 at the Post Office at Rolla, Mo., under the Act of March 3, 1879.

Subscription Price 75¢ per semester. Single copy 5¢ (Featuring Activities of Students and Faculty of M. S. M.)

## Letters to The Editor

Football Player's Answer  
To J. W. Hughes

Dear Friend,

In answer to your Letter to the Editor of last week, I have taken a poll of the approximately forty men traveling squad. In the first place, the average schedule of the men on the team is nineteen credit hours. These men spend on the average of seven hours per week per man on the field training (not including game time and time lost going to games, which must be made up.) As for realistic pursuits, as you put it, over 50 per cent of the traveling squad belong to social frats; over 50 per cent belong to engineering societies; 12 per cent belong to honoraries such as Tau Beta Pi, Alpha Chi Sigma, Theta Tau, and etc.; 75 per cent belong to service organizations such as the "M" club and Blue Key; besides this the team is represented by a man on the student council, two on the St. Pat's Board, one on the Rollamo Board, and one on the Interfraternity Council. Fifteen per cent of the men hold or have held offices in one or more of the aforementioned organizations. This, my friend, is solid proof that these men are leaders and not followers.

As for spirit, I belong to six campus organizations besides being a member of the football squad and I know the spirit in none of these organizations can compare with the spirit shown by the men on the squad in every contest. It takes courage, my friend, and school spirit to take a 61-0 beating and still come back to win a conference championship.

If you think you can find school spirit anywhere on this campus that will surpass that showed by YOUR football team, please contact me. I'm from Missouri.

— Bill Gammon

MSM Players Seeking  
Abbott and Costello

Have you ever had the yen to work in dramatics, either stage work or actual acting? If so, whether you have had any experience or not, you are cordially invited to attend the next meeting of the M.S.M. Players, which will be held Wednesday at 7 o'clock P. M. in room 101 of the Rolla Building.

Membership is open to all students of the Missouri School of Mines, whether a regularly registered student or not. It is also open to any lady resident of Rolla, which naturally includes all student wives.

The Players present one play each semester on the general lectures series for the students of MSM, the production usually being staged two or three nights in Parker Hall. Plans for the present call for production to begin on the fall play in the near future. Anyone desiring to find out more about the organization is urged to contact Mr. Carl Niles of the Humanities Department, or Fred Springer at phone 13.

"Wasn't it disgusting the way those men stared at that girl getting on the train?"  
"What train, dear?"

## Off The Campus

## Theta Kappa Phi

Some of the Theta Kaps got a head start on a very big weekend by taking the trip to Warrensburg and cheering the Miners on their victory. According to latest reports and the stories that were told the following morning it was quite a head start.

By Saturday afternoon all of the wanderers had returned home and all but the boys who don't know how to make out schedules were off from classes, so all put aside the stack of books on their desks and wandered out into the wild woods of Rolla. With them they carried that golden beverage, called by Peons, beer. Of course, there were other things to do at this beer bust, I think. A fair and square football game was held between the actives and the pledges, with two well oiled actives as referees. Of course, the actives won by a score of about, plus of minus, 54 to 0.

After a few hours, all tired of the sport and settled down to more serious things, which resulted in most of them saying, "Never again."

After such a ripping and roaring weekend everyone settled down to adding to the extensive plans for Parent's Day. The house plans to have about fifty guests over the weekend and all of the extensive plans should add up to making it a memorable weekend for all of our guests.

## Pi Kappa Alpha

What a weekend! The big affair started with a hayride which was heavenly with beautiful girls and perfect weather. A wiener roast and song fest took place at the mid-point of the hayride. On the way back everyone was fouling everyone else up by shouting roll call. Ratcliff didn't seem to know his name that night. The party that followed the hayride lasted well into the wee hours of the morning.

Saturday everyone enjoyed the Junior-Varsity game in which the Miners beat Washington U. 20-6. What sweet revenge!

Saturday evening was the big event. It was highlighted by the sweet and dreamy music of Jimmy Katz and his ensemble. Professor and Mrs. Glenn C. Boyer and Dr. and Mrs. A. A. Drake were our gracious chaperons.

Even during the band intermission the party was jumping with more frat songs led by that diversified pledge Will Dare.

All in all we had a full and wonderful weekend. A few questions still remained to be answered; that of why cold

showers don't affect George Bruce, and if Hank Tillewein wants the maid to make up his bunk or the folded chair in the phone booth for him to sleep in?

## Lambda Chi Alpha

The boys are still laughing over the more humorous events of the past weekend which were highlighted by the annual Pledge Dance. Although faced with the competition of two other dances and as many beer busts, most reports classified it a "howling" success. Howling anyway. This writer found some difficulty hearing the music which was supplied by some of the biggest bands in the country via the waxed medium.

Those who felt more strongly the beckon of Lou Town not only are faced with the constant repetition of stories, but also are unable to contribute to their own collection of memorable moments. Foremost among these is the saga of "Broncho" Bob French who has the somewhat dubious distinction of a thrilling ride astride an iron horse model "A" Ford hood. Those Theta Tau's really get into the "spirit" up to their ears, as many enlarged heads will attest. Mike Reilly has literally put both feet forward in the drive for acceptance of the new "bold look for men" on the campus.

These field boots, however, were looked on in disfavor at the K A affair. Much to the surprise of those in the know, Marty Schuster who acquired the beautiful but blonde Paula Fite remained in a somewhat vertical position.

Oh yes, the pledges. Well, other than allowing each one a dance with his date, this writer really can't say much about them having been more or less occupied elsewhere. Whoops, don't get any ideas, he cut himself while shaving. Really.

## Sigma Pi

The actives and pledges of Sigma Pi were as busy as a strip-tease artist disrobing, during the past week-end. Brant Robinson, Ted Dziemianowicz, Bill Greer, Donald Straughan, and Karol Skedzeleski attended the S.M.U.-Missouri game. Late arrivals at the same game were "Prospector" Gallagher, Joe Bushko, and Lauren Choate.

Friday afternoon, three actives from the Alpha Sigma Chapter of Sigma Pi, located at the University of Arkansas, dropped by the house. They extended an invitation for the

(Continued on Page 4)

## MARRIAGE RING

Those of you who heeded our advice had an enjoyable afternoon at the University Dames Tea last Saturday. Among those who helped to make the venture a great success were Mesdames Wilson, Schrenk, Grawe, and Rankin who served as sponsors. Those Dames admirably attired in formal gowns were Frances Grotdefendt, Lorraine Gergeceff, Lucille Romine, Pat Humphery, Mary Babbitt, Pat Hill, Lois Knutson, Joyce Khantz, La Rayne Johnston, Charlotte Scheid, Gloria Lillibridge, Dee Isringhaus, Pat Brassfield, Pearl Toth, and Charlotte O'Brien.

The Joe Seivicks are celebrating the birth of another baby boy; add our felicitations. The rumor about Mo Wilins was substantiated when she was tendered a baby shower at the home of Jean Heath.

Many of you who feel you will never learn to play bridge — take heart! Mrs. Walter Schrenk will notify which evening next week she will instruct you. The other bridge groups will also be notified by mail as soon as last minute arrangements are completed. Anyone who has since become interested in bridge should call Frances Grotdefendt, President of the University Dames.

The annual fashion show presented by the University Dames will take place October 22, at 8 p.m. in Parker Hall. A cordial invitation is extended to the public. (Besides, it's free.) The models participating will be Lucille Romine, Georgia Johnston, Lee Atchison, Norma Lester, Dorothy Jorcke, Charlotte Scheid, Pat Humphery, Peggy Diefengach, Pearl Toth, Rosemary Kreinheder, Lyn Booth, Louise Carty, La Rayne Johnston, Billie Schlueter, and Gloria Lillibridge.

Floyd and Betty Wright saw Missouri triumph over S.M.U. The Huttons entertained guests from California over the weekend. . . Watch out for the flu!

## As A Miner Sees It

Things were really happening last Saturday night at the three successful dances. I met so many pretty dancers that I can't remember them all. The Pikers had a band but the biggest crowd was swinging and swaying at the Sigma Nu House. The boys in the Little Red Schoolhouse had the minimum required lights of three cabarets.

The Old Miner had a great time meeting and greeting Meg Storm, Mary Roberts, Florence Moore, Marcella Steller, June Shoemat, Bobbie Chapman, June Williams (Jenkins date?), Dot Macklitz, Ellen Riley, Susie Brachmier, Mary Lou Marshall, and all the other good looking gals down here enjoying our humble hospitality for the weekend. I was so busy talking to the gals that I failed to remember who their dates were. Who the hell cares anyhow? Too bad we didn't have an even larger turn-out. For those interested there are usually spare bids around for the asking even, for closed dances. The frat dances are a damned good means for getting acquainted around here. Married folks are as welcome as singles. So because of this little pep talk I'll be seeing your faces at campus and social events.

There was a very critical shortage of profs. at the dances Saturday night — whatsa matter, afraid of publicity? How come schmoozings have everything but dates at dances? Hell, I always enjoyed going out with girls; why don't some of you B.T.S.'s try it sometime? It's more fun!

Freedom of the Press — With all the alumni and various other persons associated with this

school who live in and around St. Louis, how come the St. Louis papers can afford not to give our athletic department other than derogatory statements. They don't even print the scores anymore for this school while they do for much smaller schools. I am going to conduct my own personal inquiring and find out what the St. Louis sports editors have to say about this.

Shame Shame — on those students who insist on destroying campus property such as benches, lamp posts and even the water fountain. I don't know where the past classes obtained the necessary do-re-mi to purchase these contributions, but I do have enough sense to appreciate they were placed in their present locations for our use and not for us to destroy. So let's quit shooting at the lamps chewing on the water fountain, and fighting with slats taken from the campus benches. Just be good.

Charlie Arnot and Andy Kastanas seem to think that owning a convertible gives them the privilege of "lording it over" everyone else. They tried to mooch a free meal at the Engineer's Club last week but got booted out. Looks like it takes more than pretty cars, "fel-lahs."

THE MISSOURI MINER

Harry Chapman—Ed.

PAGE 3 FRIDAY, OCT. 15, 1948

## Miner B's. Top Wash. U. B's.

### FRESHMAN SQUAD SHOWS PROMISE

Last Saturday at Jackling Field, the Miner "Bee" football squad trimmed the Washington University Sub-Squad by a handy margin of points, 20-6.

The first half of the game was scoreless but more of the tide of play kept the ball in Washington territory, thereby giving the Miner Bees a boost in moral support. It was through the good punting of Gilbert that they kept the Hilltoppers on their toes every moment of the contest.

The Miner ground game had been effective and then, too, they had had their practice in punting, so an aerial attack became the next topic of importance. Frank Richie, quarterbacking the team, pulled himself out of obscurity in the third quarter by tossing some beautiful passes, two of which scored for touchdowns. Gilbert then came back into the game and after a very few plays pitched one which went all the way to the goal line for another tally, the third touchdown for the Bees in the one quarter.

As there was a fairly secure margin tucked away, it was decided to go back to the ground game and open up a few holes. In a series of plays the ball was brought down to the Bear one yard line—but, there it stayed; Gilbert tried two passes, but met with none of his earlier success. A line buck and an end run were to no avail so the ball went over to Washington who lost no time in getting it out of the danger zone. Later on in the fourth quarter, Washington connected with a long 30 yard pass and coupled it with

## Sports Spotlight

ED KWADAS

In the spotlight this week is one of the members of our Championship backfield.

Ed, who comes to us from Benld, Illinois, entered M. S. M. in the fall of 1946.

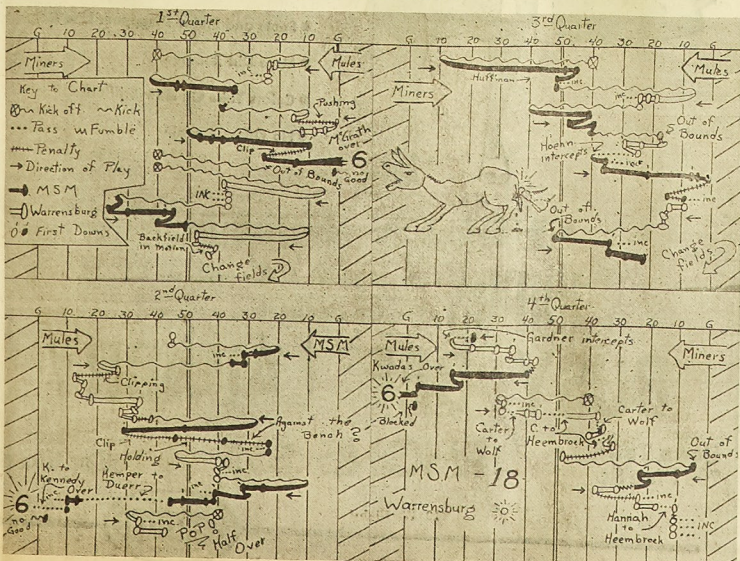

A member of the Mech Dept., Ed expects to leave our cloistered walls in the spring of '50. Studies and sports aren't the only things on his agenda however, as he is a member of various organizations on the campus. He is a member of the "M" Club, Theta Tau, and Sigma Pi. Prior to entry in M. S. M. he spent some time in the Navy.

an eight yard end run to push over their only touchdown score of the game.

"I think the coach is starting to show a little favoritism!"

### PLAY BY PLAY

## Miners Meet Maryville

M. S. M. RATED 2 T. D.'S

by Bob Flore

The spectators will probably see one of the best games of the season this Saturday, when Coach Gale Bullman's fighting Missouri Miners meet the Maryville Bearcat football squad under the direction of Coach Ryland Milner, at Jackling Field.

Maryville, according to Bullman, is about the same strength as Memphis or Washington University. Therefore, the game should be a toss up. Bullman also stated that if Maryville goes through this game undefeated, they will most likely be M.I.A. A. champions this year.

The main strength of the Bearcats lies in their backfield. All four of their starting backs are over six feet, are track stars, and

are good ball carriers. However, their front line is not too strong and that may be "the straw that breaks the Bearcat's back."

Meanwhile, the Miners will open the game in full strength and full of their usual hustle and spirit, out to win one of the biggest games of the season.

The probable starting lineups are as follows:

Miners	vs	Maryville
Teas	LE	Zirbel
Steele	LT	Klang
Chew	LG	Hartness
Cox	C	Gamble
Roerman	RG	Meyer
Shourd	RT	Osborne
Kennedy	RE	Pollard
Kemper	QB	Zuchowski
Kwadas	LH	Butherus
Hoehn	RH	Ritchie
McGrath	FB	Weed

## INTRAMURALS SWING INTO QUARTER FINALS

Harmon and Jare Star for TEKES

Although upset in their first game by the Engineer's Club, Kappa Sig showed they will again be strong contenders for the title as they trounced the KA's. Midway in the first half six points were registered by Kappa Sig on a short pass from Hobbeman to Frank. After an exchange of punts Kappa Sig marched to another touchdown. A reverse with Snyder totting the ball set up the touchdown, with a Olfe to Miller pass reaching pay dirt. Hobbeman kicked the extra point. The score at the half was 13-0. Early in the second half, Kappa Sig made the score read 19-0 on a 25 yard run by Snyder. The final touchdown was made on a Olfe to Bay pass which covered 35 yards.

**Triangle Conversions Win**

The Triangle-Wesley contest was hard fought from start to finish. Triangle scored in the first half and Wesley came back to tie in the second half. Touchdowns were scored by Coolidge of Triangle and Rekeate of Wesley. Both T.D.'s were made on passes. Triangle's winning margin came on two perfect place-kicks by Schrader. The defeat eliminated Wesley, but they put up a fine showing their first year of competition.

**Kappa Sigs Show Fight**

Thursday's results in intramural football found Kappa Sigma rolling over Kappa Alpha 25-0, and Triangle eking out a 7-6 win over Wesley.

## SIGMA NU CONFIDENT TO RETAIN TROPHY

In Friday's abbreviated contests (12 minute halves were played) Sigma Pi defeated Chi Sigma 13-0, and Kappa Sig scored a 7-0 victory over Gamma Delta. Thus the winners have a 2-1 record and the losers were eliminated.

Monday evening J. Terrace kept their perfect record by defeating the PIKA's 7-0, and the Sophomores forfeited to Triangle. The Terrace-PIKA game followed the pattern which many games have formed this year, as the Terrace scored first and then protected that slim lead. The touchdown was scored late in the first half on a pass from Green to Remacle. The T. D. was set up on a pass inter-

ception by Remacle, and a short run by Klaus. Klaus kicked the extra point. The second half produced no scoring threats as defensive play held sway. The victory kept intact Terrace's unbeaten, unscored upon record.

Tuesday's play reduced the number of undefeated teams to four—J. Terrace, Sigma Nu, TKE's and the Frosh. The Engineers Club defeated Theta Kap Phi 7-0, and Sig Nu chalked up win number two defeating Sig Phi Ep 13-0. The Eng. Club-Theta Kap Phi game was a rough battle in which pass interceptions came in quick succession. The only real break of the game came early in the first half when T. K. Phi's punt was blocked on their own 15. Baue scored two plays later on an end run. He also kicked the extra point. Neither team could maintain a steady drive the remainder of the game as hard charging lines on both teams kept the passers rushed. The Eng. Club will play in the quarter-finals Friday against J. Terrace.

The Sigma Nu team, defending champions, scored two quick touchdowns in their victory over Sig Phi Ep. Combining a sharp passing attack with a hard running game, Sig Ep maintained their position as role of favorites in the tourney. They will play the winner of the TKE's-Frosh game in their next encounter.

## Fraternity Bowling Being Organized

A bowling league of fraternity teams is being organized at Deen Airstable lanes, to roll on Thursdays at 9:30 P. M. Interested fraternities should have a representative contact Mr. Gogins at the Airstable immediately.

A somewhat drunk G. I., hailed before his commanding officer, offered this excuse: "I got into bad company. I had a fifth of whiskey and my three buddies didn't drink."

## Miners Take 1st Conference Game

### POOR OFFICIATING MIRE'S ATTACK

by A. Greenberg

In their first MIAA game this year, the Missouri Miners, defending champions, rolled to an easy 18-0 victory over the Warrensburg Mules last Friday night. The triumph, which spoiled the Warrensburg homecoming celebration, was attained through the use of a strong ground attack. The Miners scored in the first, second and fourth quarters. Warrensburg's only scoring chance came late in the final period.

The game opened with the Miners' kickoff being returned to the Mule 25 yard line. Warrensburg failed to gain and punted to the Miner 47. Ed Kwadas, with a nice run, picked up a first down on the Warrensburg 35. An exchange of punts placed the ball on the Mules 47 with the Miners in possession. From that point, the Miners started on their first march for a touchdown. Runs by Jim McGrath and Kwadas gained a first down on the Mule 35. A pitchout to Earl Hoehn made 25 yards to the Mule 10 yard stripe. A clipping penalty moved the ball back to the 25. However, the Miners were not to be denied as two plays later McGrath skirted right end for six points. The play covered 15 yards. The try for extra point failed. The remainder of the first period was featured by several long punt returns by Bob Ward of Warrensburg.

The Mules made their initial first down early in the 2nd quarter on a 17 yard by Orval Stiegemeir off a fake punt. Warrensburg failed to gain further and kicked to the Miner 33, with young Gene Huffman returning to the Mule 49. On the next play, Hoehn gained to the 29. It was at this point that confusion reigned on the field. The Miners were penalized for clipping on Hoehn's run. On the next down, 15 yards were marked off against the Miners for holding, and 15 more for remarks uncomplimentary to the officials. Needless to say the Miners were forced to punt. Ward returned 18 yards to the Miner 40. Four plays later, Bob Reichelt returned a Mule punt to the Miner 24. Big Jim McGrath gained 24 yards on 3 cracks at the line as he sparked the Miners to the Warrensburg 39. With time running out in the first half, Bob (Limp) Kemper started firing passes. He connected twice as he hit Sid Duerer on the 18 and Gene Kennedy in the Mule end zone to make the score 12-0, and climax a 76 yard drive. The half ended seconds later.

Play in the 3rd quarter was centered in Warrensburg's territory. The deepest penetration into Mule territory by the Miners came after a pass interception by Hoehn on the 34. Two running plays put the ball on the Mule 6 yard line. On 4th down a Miner touchdown was called back and a 15 yard penalty assessed. Warrensburg held and took over.

On the first play of the 4th quarter, Harry Dreifus interrupted a Miner threat as he intercepted a pass on the Mule 18. Led by Dreifus, Joe Wolf and Ward, Warrensburg drove to their own 41. However, a fumble was recovered at this point by alert Gene Kennedy. After executing runs of 26 and 13 yards, Ed Kwadas dove over the double strip from the Mule 1 for a 18-0 Miner flavored score. Try for extra point was blocked by Paule. The Warrensburg offense started to click for the first time in the game after the Miner kickoff. With Jim Carter passing and Joe Wolf and Vince Heembrock catching, the Mules moved from their own 30 to the Miner

## AROUND the M.I.A.A

By Bill Sherburne

Last Saturday marked the official opening of the Missouri Intercollegiate Athletic Conference with all of the six teams making up the conference in action.

With Springfield no longer considered a super team, thanks to its surprise loss to Maryville 13 to 14, the M.I.A.A. race was considered an open affair this week.

Maryville started the game off right by scoring in the first few minutes of play. A rush by James from approximately the ten yard line plus the conversion put Maryville definitely in the ballgame. The Bears came back to score in both the second and third quarters, but failed to capitalize on both conversions, leaving the game with a score of 7 to 13. For awhile it looked as though pre game predictions might come true but Maryville tied it up with only a few minutes to play with a pass received by James. The point followed leaving Maryville command of the situation. (As a sidelight I might add that Springfield gained 210 more yards throughout the game than Maryville.)

While Springfield was losing, Kirksville blanked out Cape Girardeau, 12 to 0, and our own Miners shut out Warrensburg 18 to 0. Kirksville scored their touchdowns in the second and third periods. Gorley, the quarterback, scored on a running play in the second, while Sadich carried it over in the third. Cape made more first downs than Kirksville, who also suffered from at least a hundred yards penalization, but it was to no avail. Kirksville, according to their coach, played some of their finest ball last week and, while no predictions were made, assurance was given that they would be just as hot when they meet Springfield this Saturday.

The schedule for this week is as follows:

Warrensburg at Cape		
Maryville at Rolla		
Kirksville at Springfield		
Conference standings as of Saturday, October 9.		
	Won	Lost
Missouri Mines .....	1	0
Kirksville .....	1	0
Maryville .....	1	0
Springfield .....	0	1
Warrensburg .....	0	1
Cape Girardeau .....	0	1

Last week's scores:  
Missouri Mines 18, Warrensburg 0  
Maryville 14, S.M.S. 13  
Kirksville 12, Cape Girardeau 0

31. They were stopped at this point. However, several plays later a Miner fumble was recovered by Warrensburg on the Miner 30. From this point a 15 yard penalty and a Hannah to Heembrock pass moved the ball to the Miner 9. The Miners broke up 3 Mule passes as the clock ran out to end the game.

### Starting Lineups

Teas	LE	Stiegemeir
Steele	LT	Willie
Chew	LG	Mathews
Cox	C	DeHardt
Roerman	RG	Paule
Svejkosky	TT	Goodwin
Kennedy	RE	Murray
Kemper	QB	Carter
Kwadas	LH	Wolf
Hoehn	RH	Ward
McGrath	FB	Gardner

### HIGHLIGHTS

MSM was well represented at the game by approximately 20 cheering Miners who exhibited strong vocal chords. The officiating of the game was not up to MIAA par as both coaches agreed after the game. A total of 145 yards for penalties was assessed during the game. The stopping of Orv Stiegemeir, Mule end, contributed a great deal to the Miner success. Warrensburg had a coach in the press box phoning down plays to the coach on the bench, but to no avail. After the game, Miner footballers were anxious to know the score of the Maryville-Springfield tussle as these teams are expected to furnish the toughest conference opposition. Roy Shourd, Miner tackle, missed the bus to Warrensburg claiming a slow clock. However, he made it to the game on time. The game was broadcast by two stations—KTTR (Rolla), and KDRO (Sedalia). Statistics show the following: 1st Downs—Miners (15), Mules (6). Yards gained—Miners (330), Mules (120); Passes attempted and completed—Miners (13-2), Mules (17-6). Probably the only disappointed Miner at the Mizou-SMU game Saturday was Big Texan, Jack Cox, Miner center.

## WHAT'S HIS NAME

It happens at the beginning of every semester, just as sure as death and hour quizzes. Here are 2700 students drifting from class to class getting their schedules straightened out, and 95 per cent of the instructors will fail to tell their classes what their name is. They seem to think that everyone knows them, so there is no need for it. But this is far from being true, as proven by the fact that students refer to their profs as, "the one with red hair", "the short guy who smokes cigars", or "the one with the shmooskin sport coat," etc. Some students will go a whole semester without learning his instructors name.

It would be such a simple matter in the future for all profs to write their names on the board so the students will be acquainted with them right from the very first day of the semester. Then when asked, "Who do you have for Baloney 102?" one won't have to reply, "Oh, I have Prof. Whatshis name."

## OFF THE CAMPUS

(Continued from Page 2)

members to accompany them to the game at Columbia, but as a intramural game was scheduled, it was impossible. Incidentally, the game was won by Sigma Pi because of some stellar passing and receiving by Bill Greer and "Rabbit" McDaniel.

Roger McCombs presented the house with a mascot. The canine mascot is to be called "Topper." For some unknown reason, the American Kennel Club would not issue pedigree papers for "Topper." We are wondering if it is because he is possessed with Collie, German Shepherd, Norwegian Elkhound, Chow, and Pomeranian.

Hulon McDaniel has set up a dating bureau, in order to provide dates for homecoming. It seems as though he has quite a few contacts at Lindenwood.

Al Brown and Jack Harper spent the week-end in Southern Illinois. Jack going to Cairo, and Al went to Carbondale to visit the future Mrs. Allison Brown.

The pledges have been giving the house quite a cleaning in preparation for Parent's Day. Quite a few parents are expected, with honors going to Mrs. Heitman for traveling the greatest distance, as she is trekking down from New Jersey.

### Tau Kappa Epsilon

The Tekes are glad to welcome Dale Walker to our fold. Dale comes to us from Monmouth College.

Then there's the tale about Dave Whitmer and a complaining lassie named Peggy—one of those Mizou dates. Someone always gets stuck with a lemon on a blind date, don't they Dave?

We received a letter from Frater Sage this week. He is now attending Western Illinois State, and is majoring in Math. Those ping-pong boys Chapman, Shielos, and Mueller are really hot now—as is the football team. Don't stop now, men!

### Alpha Epsilon Pi

Noah may have had two animals of each species on his Ark, but this little ark that Brigham Young built when he was passing through has 21 little eager beavers. All we hear from these poor little orphans of the storm and the American educational system is, curse this and curse that professor, and why the hell can't they get together and scatter the tests instead of giving six on one day. Yeh, why the hell don't they.

Outside of all the moans and groans accompanying the guzzle of beer as it hits the spot, Nu Deuteron chapter is ever mindful of its destiny and is forging ahead amidst the shuffle of cards. What kind of a place is this anyway? Hic, your bet.

This past week saw the initiation of three new procurers namely Jack Bookey, Edward Skalka, and Marty Fine, the brother of that bulwark of Democracy, Lt. Sid Fine. Brother S. Fine, late of M.S.M., left our broad and spacious campus to take up arms against the triple threat from overseas, namely, cigarettes and whiskey and wild women.

The actives to be who were pledged to our noble organization this week are "B. S." Altman and conscientious Paul Hausner from that progressive burg called Cansia City. Third string B-teamer Irv Hutkin, seventh dwarf Ralph Weiss, and Irv Duberg the lover from the place where the white man really swindled the Indians. Twenty-four bucks, huh. Also welcomed to this pig sty were, "French postcards, meester" Dan Tabachnick and tortoise frame Al Greenblatt, who inhabit the cess pool on the Mississippi called St. Looie.

Rabble-rouser Larry Spanier

has been going to hell with himself over the football team even if they don't give a damn for the school as long as they get their \$300 a month and straight E's. The original Rembrandt hanging from the outside of the building and saying that our crummy football team beat a still crummier team from Mules or something, is the handiwork of the afore mentioned L. S. (Honest, fellers, I didn't mean that about the football team even if Shalka is only of the B-team.)

Here is a list of the Gestapo for this semester.

Les Marcus—Master.  
Seymour Megeff—Lt. Master (The Rat).  
Larry Spanier—Scribe.  
Herb Stein—Exchequer.  
Pete Reiser—House Manager.  
Seymour Rosenbaum—Recorder.  
If I left anyone out, tough.

### Sigma Nu

Last weekend, taking advantage of prevailing spring-like weather, and with the aid of amber party material, the Snake house crew withdrew to the farm of C. J. Millar, '20, on Friday evening for a combined wiener roast and a game of "fall off the cliff." This game was excusable for those people in the various stages of discombooberation, but for those who were the models of sobriety, there can be only one explanation, and that is: pin hanging effects people in strange ways, but there is a limit to walking on air. Congratulations are therefore in order for Everett Thrall and his newfound white rose, Miss Dottie Chambers of St. Louis. Bob Means, in a frenzy and not having acquired his five-armed star yet, adorned third finger, left hand of Miss Lorie Dietzschold of Kirkwood, Mo., and June Williams of beration, but for those who were morning with similar attachment, and eyes for no one but blows to be noble order of the "Eagle Birdog," but we still wish all of you the happiness that you deserve.

It was pleasing to note the number of representatives with dates from neighboring Greek houses dropping in throughout the evening, along with several industrial executives, alumni Dave Peterson and Tom Morrow. Gordon Young, distinctive for having attended M.S.M. for five semesters and never having gotten close to an engineering course, was down from Mizou to recapture the torpor and went all out. In fact, almost inside out.

Main topics of conversation over the weekend were the Sigma Nu T. D., Kemper to Kennedy at the Warrensburg game, and how soon Big Jim's Shadow, "Hose Nose," would "leave" the party. We are all very happy and grateful to have had Mr. and Mrs. William Speece, Mr. and Mrs. Allen A. Becker, and Mr. and Mrs. Thomas M. Morris as chaperons, and welcome them to future Sigma Nu functions, whether in that capacity or not.

Six more pledges were added to the ruby eye list in the last two weeks, running the total to fourteen. We are proud to extend warm greetings to the following new pledges: Conley Sanders, Kenny Determann, Jack Riley, Bill Damson, Don Grimes and Bill Oberschelp. After coming through "Fun Week," Don Don McCormick, Ted Reeves and Sid Duerr were seen to noticeably heave great sighs of relief at formal initiation Oct. 3. Those pins look good where they are, and though your trials and tribulations were immense, we are happy to call you brother.

## SCHOOL AUTHORITIES SHORT CIRCUIT ORIS MUSCLE MACHINE

Science received a setback in London, Ontario recently when a machine built by ingenious medical students to measure the intensity of kisses was banned by school authorities before its first public appearance. It had been planned to try it out at a freshman dance in Port Stanley, but students said Dean J. B. Collip turned thumbs down on the proposal.

"The machine is to test the strength of the ordicularis oris muscle (lips to you, Miners)," explained a student. "An electrode is placed between the lips of the couple and the tension during osculation is measured in alpha waves per second."

The student further stated that if any "specialized" type of kissing was indulged in, the machine hoisted a red flag and a sign saying "Tilt."

### Kappa Alpha

Step up, friends, and roll your bloodshot orbs over the newest wonder of the MSM campus! The KA's have a new game room addition to their formidable Kastle. The new room features glass-brick construction and complete modern design. It's good for card games, as a lounge, and uhh, well, when we have a dance. Guess this makes ours the best looking fraternity house on the campus. (Address all replies to 1311 State Street).

We have an entire squad of happy men accounted for this week. He other part of Bill Magruder's pin, Nancy Bailey, came down from the Lindenwood Happy Hunting Grounds for the weekend. And "DDT" Driscoll was gleeful once more when Peggy Mattingly appeared upon the moat of the Kastle. Don't worry, men, you'll be back to normal in a few weeks.

Yet to be received is a formal report concerning the Lindenwood Rat Race last weekend involving "Barnyard" Barnard, Marv Stock, Jerry Shelton, Red Brown, and "Yukon" Moore.

What say, gents? THIS weekend will find a general crusade of KA's from all Missouri marching on Fort Lindenwood. An all-KA dance is the occasion, with a good time indicated for the brethren and their dates.

### Alpha Chi Sigma

Alpha Chi Sigma will have one of their biggest events of the year on Sunday, October 24. On this day the Midwest District Conclave will come together in Rolla for a luncheon, ball game, and a beer bust.

There will be another meeting of Alpha Chi Sigma before this big event. The meeting will be on Thursday, October 21.

## ESPERANTOS PLAN GLOBAL SERVICES FOR FELLOW MEMBERS

The high pay offered in foreign employment is attracting more and more engineers, but the doubtful conditions of overseas work, have presented a difficult problem to the student engineer. Hesitation about accepting a job has been predominant among young engineers due to the lack of unbiased information concerning living and working conditions abroad.

Esperanto members on the campus have licked this problem thru Esperantist all over the world, who are more than willing to supply any and all detailed information available. Such cooperation eliminates the risks that a graduating engineer must take when contrasting foreign employment.

The simplicity of the language and the ease of learning it are the big advantages that Esperanto offers to all classmates, since fluency in it can be attained in only one semester. Obviously, the full benefits of the language do not end here. There being five million Esperantist all over the globe, the asset of even a small understanding of Esperanto will give the student an insight and advantage that most foreign employed engineers want but lack.

All over the world, there are 2300 delegates in 1200 cities in 54 different countries, whose special job is to aid and provide information to an Esperantist. These men will serve as guides, agents, interpreters, etc. and their help and service is given free. They can be contacted through Esperanto organization bulletins, periodicals, etc., or directly through the various national and the International Esperanto bodies. Any Esperantist is easily recognized by the green star pin he wears. Any student desiring to receive the benefits that this vast organization offers, can contact the Esperanto Club on the MSM campus which holds weekly meetings every Tuesday evening.

A businessman had passed away, and his widow was inconsolable. She cried for three days. Then a life insurance representative appeared to help her complete a claim.

She stole a look at the amount—\$50,000—signed, and with a tear glistening in each eye, said soulfully, "You may not believe it, but I'd give \$20,000 of this to have him back!"
