NUMBER 29

## Dr. A. C. Magill Addresses ASME at Annual Banquet

### PROFESSOR G. C. BOYER PRESENTED AWARD FOR OUTSTANDING WORK

### Dean Wilson Outlines Plans for Mechanical Laboratory Building

Tuesday night, May tenth, the student chapter of the American Society of Mechanical Engineers held their annual banquet in the College Inn of the Edwin Long Hotel. Professor Lloyd was Master of Ceremonies, and as usual kept up his reputation of being the outstanding toastmaster on the M.S.M. Campus.

Dean Wilson, Ed Mengel, Professor Boyer, and Doctor Miles were the impromptu speakers on the program, while Dr. Magill of Cape Girardeau gave the major address of the evening.

Dean Wilson gave a short resume of plans for the Mechanical Engineering Laboratories Building and stated that they were very pleased with the bids that were received. If contracts are made by the Board of Curators in today's meeting, Dean Wilson said that he felt that construction would possibly be started this month. When construction of the building is started, the contract calls for completion in 260 days, which means that if the building is started this summer, it would be ready for use by the fall of 1950.

After completion of the building, it is estimated that installation of equipment will take several months. This equipment has been under consideration by Dr. Miles for some time. He stated that for the past semester he has been talking with salesmen and reading company catalogs in an effort to plan for as completely equipped mechanical laboratory as possible. Dean Wilson said that he has compared equipment plans for the new mechanical laboratory with those now in use at the University of Alabama and at the Illinois Institute of Technology, and that the equipment plans compare very favorably with the ones from those two engineering schools.

At this point in the program, Ed Mengel, President of the ASME, presented Professor Boyer with an award for the tremendous amount of work which he has done in furthering the scope and plans of ASME on the campus. Ed also presented Miss Anna Lee Wynn, Secretary in the Mechanical Engineering Department, with a cocker spaniel puppy in appreciation for the work she has done for the chapter during the past year.

Professor Boyer then announced that a group of faculty members and students had chosen Ed Mengel as the year's most valuable member of ASME.

The principal address of the evening was given by Dr. A. C. Magill, Head of the Science Department at Southeast Missouri State College in Cape Girardeau, Missouri. Dr. Magill's topic was concerned with "As an Outsider Sees It". He started his talk by covering the three principal phases in the evolution of man; the appropriate stage, the adaptive stage, and the creative stage. The appropriate stage was when man used only what nature provided him with, while the adaptive stage was the period in which he adapted such things as fire, stone axes, and the like to his use. The creative stage is the period when man began to make things which did not occur in nature.

He used this to prove that until man reached the creative stage he did not have material wealth. With this in mind he brought out the corollary that

(Continued on Page 2)

### LAUREY H. CHAPIN COMES TO MSM, ENTERS PHYSICS DEPARTMENT

Lawrey H. Chapin, head of the Huron College department of physics since 1946, has resigned to accept a position at the Missouri School of Mines and Metallurgy at Rolla, Missouri.

Chapin, a native of Winfred, South Dakota, is a graduate of South Dakota State College where he was a member of Sigma Tau, honorary engineering society, and Sigma Pi Sigma, physics fraternity. He is also a member of the South Dakota Academy of Science.

Upon completion of his junior year at SDSU, Chapin worked for some time at the University of Iowa as a junior physicist. There he was engaged in war research in the field of armament developments. While at Iowa he had a part in the development of proximity fuses and other technical weapons. Chapin then entered the United States Navy where he served for two years as a radar and electronics specialist.

Upon being discharged in 1946, he returned to South Dakota State College to complete the work for his bachelor of science degree. He graduated in September, 1946, and became a member of the Huron College faculty during the same month. He has done graduate work at South Dakota State College and at the University of Colorado.

At the Missouri School of Mines and Metallurgy, Chapin will do full-time teaching in the physics department and, in addition, he will work toward his master's degree. He plans to attend the summer session at Rolla before assuming his teaching duties in September.

### APO INITIATES SEVEN; CLARENCE RADFORD IS PREXY FOR FALL TERM

Last Sunday afternoon, Alpha Phi Omega initiated the members of the Clifford H. Black Plunge Class. They were: Frank Plunkett, John Ashley, John Richichi, David Gillen, Russell Chapman, Professor John Burger, and Professor Carl Miles.

These are the men, who as a pledge project placed the "Keep-off The Grass" signs about the campus.

Following the initiation, Professor C. H. Black, the former Senior Faculty Advisor of APO, installed the newly elected fall-term officers. Clarence Radford, as President, will guide APO this semester. The other officers who will assist him are: David Macdonald, First Vice-President; Bob Stark, Second Vice-President; Wayne Hahne, Secretary; Earl Linkogle, Corresponding Secretary; George Knight, Treasurer; Edward Roster, Historian; George Fish, Alumni Secretary; Bill Harper, Sergeant-at-Arms; Professor John Burger, Senior Faculty Advisor; and Professor Carl Miles, member of the Faculty Advisory Board.

At the banquet at the Pennant which followed the installation of officers, Dean Wilson, the guest speaker, gave a very interesting talk on "Engineering and Inventions". Dean Wilson listed five inventions, the steam engine, the generation of electricity, the airplane, radio, and atomic energy, which he placed as the most important inventions since the Renaissance because of the vast fields of technology which developed from them. During his discussion of atomic power, the Dean made a startling statement about a new principle of atomic

(Continued on Page 2)

### DR. AND MRS. FRIZZELL SPEAKERS AT DAKE GEOLOGICAL SOCIETY

The Dake Geological society held its first open meeting last Friday, with a large crowd attending. The guest speakers for the meeting were Dr. and Mrs. Frizzell, who presented very informative talks of the Negritas District of Peru. Dr. Frizzell spoke on the geology of the area, while Mrs. Frizzell's talk was concerned with the biology of the area, with special implications on the Arachnids (better known as spiders).

The Dake Society was organized this semester for the students who were either majoring or minoring in geology. The purpose of the organization is to sponsor field trips to areas of geological interest and to present meetings, such as was given last Friday night.

The society was named in honor of Dr. Charles Lawrence Dake, who was an outstanding geologist and professor of geology, here at MSM, for many years.

The officers of the organization for the past semester were Kermit Rowley, President; Dan Miller, Vice President; Betty Jeanne Birch, Secretary-Treasurer; John Wehrenberg, Corresponding Secretary.

### McNULTY, SPINIELLO, AND MEYER WINNERS IN SPEECH CONTEST

May 5th, final speeches were given in the annual Enoch Needles Speech Contest in the Rolla Building. The winners were Patrick J. McNulty who received the first prize of \$25; Virgil R. Spiniello, who took the second prize of \$15; and Harlan L. Meyer, who won the \$10 third prize.

Funds for these yearly prizes have been provided by Dr. Enoch R. Needles, who graduated from MSM in 1914 with a Bachelor's degree in Civil Engineering. Since that time Dr. Needles has become one of the top civil engineers in the country and one of our most outstanding alumni. In 1937 he received an Honorary Doctor of Science degree from this school, and at present he is national president of the American Roadbuilders' Association.

The Needles Speech Awards are open to any under-graduate of this school and are intended to promote better speaking and writing among the students. The only requirement is that the speeches deal with the subject of engineering and its relations to society. Titles of this year's winning speeches were: "Is the Engineer Failing Society?", "Is the Engineer Socially Fit?", and "More Pay and Shorter Hours."

These winners were chosen by a committee of judges appointed by the Dean. They were Dr. J. D. Forrester, Prof. J. J. Jelinek, Prof. J. W. Rittenhouse, and Prof. S. H. Lloyd.

### JIM KOCH CLUES ACS ON WHAT IS EXPECTED OF JOB APPLICANTS

The monthly meeting of the American Ceramic Society was held on Wednesday, May 4, at 7:30 PM, in room 102 of the Experiment Station.

The speaker of the evening was Mr. Jim Koch of the Humanities Department. Mr. Koch spoke on "What the Interviewer Expects of the Job Applicant." He brought out the fact that interviewers place the greatest emphasis on personality, with the grade-point taking the second place of consideration, and the third point is personal appearance. Mr. Koch also stated that a minimum grade-point is required by many interviewers, merely to limit the number of students to be interviewed.

The ACS will sponsor lectures of a non-technical nature in the future, with the idea in mind that Keramos will supply the [technical] lectures.

### HONORARY COLONEL

Miss Irene Mathews, being awarded the title of honorary cadet colonel by Colonel C. K. Harding at the Military Ball last week Saturday. Miss Mathews was chosen by the members of SAME for the coveted role in their annual celebration.

### ASCE ELECT OFFICERS AND PRESENT AWARDS TO OUTSTANDING C'E'S

Last Wednesday evening, the members of A. S. C. E. held its annual election of officers. Robert Schmidt will succeed Dale Carney as President. The other newly elected officers and their respective offices are as follows: Vice president—Harry Chapman. Secretary—Tony Edgington. Treasurer—Phil Averbach.

Professor Carlton we again unanimously elected as faculty advisor, as were also the Junior and Senior Contract Members of the organization. Inst. Kent Roberts was elected as Asst. Faculty Advisor to Prof. Carlton. These newly elected officers with the assistance of their advisors have a very interesting program planned for the coming year.

**A. S. C. E. Makes Annual Awards**  
At the regular meeting of A. S. C. E. last Wednesday night, the recipients of the Annual Awards which are given to students of Civil Engineering were announced. The first presentation was the Kennedy Award made by M. J. Hardin, Topographic Engineer for the U. S. Geological Survey. This award was given to the three best papers submitted on the "Value of a Topographic Map to Construction." First Prize of \$25 was awarded to R. F. Tindall; second prize of \$15 was awarded to J. F. Findlay; and third prize of \$10 went to F. E. Winters. Mrs. Daniel Kennedy, the originator of this award, is the Division Engineer of the Central Division for the U. S. Geological Survey.

The next award, presented by Professor Carlton, was made by the Kansas City Section of A. S. C. E. to the outstanding graduate member of the local chapter. This award was presented to Donald Dean and will afford him a Junior Membership in the parent society.

Ralph Andreason, who had been chosen as the recipient of the Flynt Memorial Award was presented with a certificate acknowledging him as the receiver of this award and also a selection of Engineering handbooks of his choice. This award is made to the outstanding Junior in the Civil Department.

The recipients of these awards will be stated on the commencement program of their respective year's of graduation.

### THREE LITTLE WORDS

(From High Points)  
According to a recent survey, the sweetest trios of words in the English language are:

I love you.  
Dinner is served.  
All is forgiven.  
Sleep till noon.  
Keep the change.  
Here's that five.  
And the saddest:  
Buy me one.  
Out of gas.  
Dues not paid.  
Funds not sufficient.  
External use only.  
Rest in peace.

### DR. YOUNG, NATIONAL PRESIDENT OF AIME TO SPEAK HERE SAT.

The student section of the American Institute of Mining and Metallurgical Engineers is privileged this weekend in having Dr. L. E. Young, national president of the organization on the campus. Saturday afternoon at 2:00 P. M. in Parker Hall, Dr. Young will address a combined meeting of the local chapter and visitors from other chapters in Missouri and neighboring states. Having spent many years in the engineering field, his talk holds promise of being extremely interesting, and an attendance of some 300 is expected.

As an added attraction, door prizes will be presented at the gathering. These have been donated by local merchants, and have a total value of some \$45. All visitors, as well as members, are eligible for these.

Saturday evening Dr. Young will address a combined meeting of the St. Louis and Rolla sections of the AIME at the Pennant Tavern at 6 P. M. His subject will be "Potash Mining," and should also be very informative. Tickets for this dinner may be obtained from Mr. Scholler in the Mining Department.

### INTERFRAT. COUNCIL PLANS RUSH PROGRAM FOR SEPT. FRESHMEN

A rushing program was drawn up by the interfraternity council at their last meeting. According to the new plan freshmen will be given a rushing pamphlet at the time of registration. This pamphlet will contain information about each fraternity on the campus and serve to introduce the new students to the fraternities. Along with the pamphlet each freshman will be given a card on which he may list his preference of fraternities or his desire to join a fraternity. In order to acquaint the incoming freshmen with fraternities before they arrive in Rolla the interfraternity council will send an informative letter to them this summer.

In order to give the new students a chance to look over all the fraternities and for the fraternities to look over the new students, it has been agreed that no formal pledging of first semester freshmen will take place before Thursday, September, 15.

It is felt that such procedure will greatly facilitate the rushing program.

### APO BOOK EXCHANGE OPEN FOR BUSINESS

The APO Book Exchange has reopened its doors. Everyone with books to sell is urged to bring them to the Exchange located in the APO Lounge in the Old Power Plant. For those who are not going to summer school, the money obtained from sales and unsold books will be held until fall.

The Exchange is merely a means by which students can buy and sell books among themselves. The student with books to sell sets his own price, and then leaves them at the Exchange. Students interested in buying books can select as to price and condition those they wish to purchase. After a sale, the former owner's account is credited with the value of the sale. The account can be closed out any time at the student's convenience.

The girls of the Stephens College Concert Chorus Cordially invite the men from the School of Mines at Rolla to attend their Spring Concert to be held in the Stephens College Assembly Hall, Columbia, Missouri, on Friday, May twentieth, at eight o'clock.

## Missouri Miner Rated Tops Among College Papers

Milton Rehag, Director Lindenwood College Choir

### LINDENWOOD CHORUS TO ENTERTAIN MINERS SATURDAY EVENING

With one week before 'finals' the Special Lecture Series is presenting on Saturday evening, May 14th, the Lindenwood College Chorus in a program which resembles the recent concert presented by the Stephen College.

The chorus, composed of 74 girls, will be joined in their program by the M. S. M. Glee Club in a group of four songs: The Italian Street Song, Roman Life, Let Thy Blessed Spirit, and the Heavens are telling. The remainder of the concert is unknown since the program will not be distributed until shortly before the concert begins at 7:30 P. M. in Parker Hall tomorrow evening. However, if last year's performance is any criterion it will be a program that no one should miss.

Preceding the concert, the girls will be the guests of the social fraternities for dinner. At 9:00 P. M. there will be a dance in their honor in Jackling Gymnasium. There is to be a contest of some sort, with prizes awarded, but the details will remain a dark secret until the dance. Music will be provided by Dick McGee and his six-piece orchestra. The admission will 50 cents per person, stag or drag.

The mystery which APO, the sponsors of the dance, has built up around their contest, adds intrigue to the evening of entertainment and relaxation which needs no call for attendance, especially since it will be the last chance to relax until those dreaded finals are over. Once again, the time is 7:30 P. M. for the concert in Parker Hall and 9:00 P. M. for the dance in Jackling Gymnasium.

### Dean Wilson Made Honorary St. Pat at U. of Alabama

Dean Curtis L. Wilson was the principal speaker last Thursday morning at the engineering convocation of the St. Patricks Celebration at the University of Alabama. Dean Wilson was in Tuscaloosa studying the mechanical engineering department there so that he could compare the plans for the new mechanical laboratory with the one now in operation at the Alabama school.

While at the University of Alabama, Dean Wilson was, for the third time, made a Knight of St. Patrick and was then accorded the high honor of being made an Honorary St. Patrick.

A history teacher was lecturing her class. "Now James, if the President of the United States should die, who would get the job?"

James thought a moment and then replied: "A Democratic undertaker."

### Miner Staff Members Honored in Climax To Journalism Week

In a contest of Missouri College newspapers held last Friday, May 6, climaxing Journalism Week at the Missouri University School of Journalism, the MISSOURI MINER was judged tops in Class A competition, second only to STUDENT LIFE of Washington University. Included in the judging were such college newspapers as the CAPAHA ARROW of Cape Girardeau and the UNIVERSITY OF KANSAS CITY NEWS along with papers from most of the larger colleges in the state and several junior colleges. The contest, an annual affair of the Missouri College Newspaper Association, was open to all members of that organization. Judging was done by the faculty of the School of Journalism on the relative journalistic merits of the papers. Class A competition was designated as those schools with an enrollment of over 1000, and Class B included schools with student bodies under that figure.

Announcement of the ratings and presentation of awards in the form of the MCNA gold key was made at a banquet at the Tiger Hotel in Columbia. Guest speaker at the affair was A. A. Clayton, chief editorial writer for the GLOBE DEMOCRAT, who spoke on the power of truth in the press.

Staff members of the Missouri Miner also placed high in individual competition. Honorable mention for the best news story was given to Cornelius Buermeyer, Bob Peppers, Roger Neidel, Bob Buel, and Dean Shopper. The photographic work of Coy Breuer was recognized as excellent. Bill Bennett and Bob Bue were cited for their editorial work. Feature stories by Fred Springer, Roger Neidel, Ralph Johnston, and Dean Shopper were given honorable mention.

In the competition for best sports story, Frank Marquis, Tom Wirts, and Gail Weinrich were cited. Murray Schmidt and Ralph Johnston were mentioned for their special columns, and Roger Jenkins' advertising work was acknowledged.

This recognition assumes greatly increased importance under the consideration that the MISSOURI MINER is the only college newspaper in the state that is not operated as a laboratory course for a journalism course. It is strictly a student enterprise, planned, written, and published by them. Therefore, miners may be justly proud of the fact that their "voice" is a good one.

The staff is of the opinion that they are now in a position to publish an even better paper, having an idea of what is desirable in that line. Renewed effort is being put forth to bring the Miner up to the prize winning class next year.

### ROLLAMO TO COME OUT THURSDAY MAY 19

The 1949 edition of the Rollamo will be ready for distribution next week Thursday. Due to some slight difficulties, the schedules as previously announced have been recinded, and the books may be obtained at Parker Hall from 8 to 3 on May 19, 20, 23.

It will be necessary to show a student card in order to receive a copy of the book, so all students are urged to bring their's along in order that there be no delay in distribution. Seniors who will be on their senior trips at this time may obtain a book by contacting Roger Neidel at the Lambda Chi house.

## THE MISSOURI MINER

THE MISSOURI MINER is the official publication of the students of the Missouri School of Mines and Metallurgy. It is published at Rolla, Mo., every Friday during the school year. Entered as second class matter February 8, 1945 at the Post Office at Rolla, Mo., under the Act of March 3, 1879. Subscription Price 75¢ per semester. Single copy 5¢ (Featuring Activities of Students and Faculty of M. S. M.)

## STUDENT COUNCIL

## ELECTS COMMITTEEMEN

With the new president presiding the Student Council got off to a fast start by electing men to serve on the various committees. Committee positions filled are as follows:

Publications Committee—6 men  
Faculty ..... Steinbac  
Jelnek  
S.C. Council ..... Stevens  
Boehm  
Miner Ed. .... Neidel  
Rollamo Ed. .... Bach

General Lectures Committee:  
Mabie, Gelford, Parks, Bookey.

Constitutions Committee:  
Bookey, Schwaig, Zupan.

Dance Dates Arrangements:  
Tynman.

Representative at Rolla City  
Council Meetings: Mallon.

Freshman Book Committee:  
Zupan, Mallon, Parks, Kunz.

The Student Council may have  
one more meeting this semester,  
but if not let us say now that  
they have done a fine job this  
year.

Sigma Nu Dance is  
Square; Stephens  
Captures Two Pins

The Sigma Nu house was flowing with lasses and excitement last weekend as the annual Spring Formal was held. Music for the Friday night dance was very capably supplied by the Rip McGee Sextet. The dance went off in good fashion, and a good time was had by all.

Saturday afternoon a picnic was held at the North Spring Creek. There were many water fights and several premeditated drownings. Joe Reiss held the revelers in amazement as he executed a daring high altitude act on the supports of a broken down bridge. Saturday night a square dance was held at the chapter house. It was complete with callers and fiddlers. Everyone joined in and discovered that it was great fun.

The weekend instigated several pinning incidents. Eugene Kennedy pinned Miss Marilyn Seymour, and Donald Grimes pinned Miss Carman Pollack. Both girls are from Stephens College. Roger Jenkins has announced that he will be married to Miss June Williams in Springfield on June 4. They have been engaged for several months. Congratulations are in order for all three couples.

## MEN'S FASHIONS - HA!

She who laughs last laughs best is the rule this year as the femmes turn the tables on the fashion ridiculous males of 1949. Judging by the facts stated in the spring publication of the New York Men's Fashion Guild, the males are going to have a hard time holding their own against the avengers of the "New Look."

The keynote of clothing purchases should be "rugged masculinity" or "that lusty look." Patch pockets, at least four per coat comprise step one in achieving "the look." The pockets may be accented by handstitching on coats and suits.

Suits are to be in pastels—robins egg blue, pea green, or egg shell, all for the sake of ruggedness.

Socks must have a bold design. Ankle-area embroidery is not frowned upon in the least, making the man about town come to look more and more like a needle-point mannequin.

The last touch in creating the all-out lusty look is . . . a cigar. It's the ultimate indication of the man who truly enjoys life.

## LETTER TO THE EDITOR

Dear Sir:

I understand that action is being taken to require students living in the barracks to eat at the school cafeteria. The reason given is that the cafeteria needs more patrons in order to operate.

Any state or government run institution, operating on a non-profit basis, which cannot compete freely with business institutions should be topped, NOT SUBSIDIZED. In a country which is fighting communism and debating socialism, both forms of super bureaucracy, this action by the school appears to be an in-sidious creeping growth, the self-perpetuating bureaucracy.

The Engineer's Club, the Tech Club, the Pantry, and downtown restaurants have drawn the larger part of the Jackling Terrace business. Now, in effect the school has said that for the privilege of living in government built dormitories at low cost, a student is compelled to pay to the school an extra price for his food.

It seems to me that while this action may be technically legal it is highly debatable both ethically and politically.

Sincerely Yours,  
John S. Hegwer

## APO Initiates Seven

(Continued from Page 1)  
energy which was recently stated by one of the leading Physicists of the University of Chicago. He explained this principle, the Breeding Principle, in an example. If 100 pounds of uranium were available, it would be possible, with the proper equipment, to supply all the power needs of the United States for one year and have 110 pounds of uranium at the end of year.

The banquet ended with the traditional singing of the APO toast song.

## As A Miner Sees It

Another week has rolled by and it's beginning to look like spring is here to stay. Proof of this statement comes from all the spring dances and formal which were held recently.

Last Friday night the Snakes held their annual spring formal with McGee's band supplying the music. It was really a swell affair, although it was so crowded I could hardly get in. Speaking of getting in, I almost didn't make it to the front porch. As I came up the walk a beer can came flying past. Oh, well—such is the life of a party.

Saturday afternoon the Sigma Nu's held a picnic, and then had a square dance Saturday night. One thing of note at the picnic was the number of swimmers in evidence. I doubt if they would have shown such enthusiasm if they had known free beer was being served upstream. When these Sons of Neptune found the beer, they must have dived head first into the keg for they were still reeking of the stuff at two in the morning. The square dance was really fine, although it took a couple of hillbillies like Kennedy and Holmgren to show the rest of the group how it's done.

Claiming first spot on the program of events Saturday night was the Military Ball held in Jackling Gym. Miss Irene Mathews was very beautiful and I think the ROTC boys picked the best Honorary Colonel yet. Of course the "Crack" Drill Squad, known as Pershing Rifles, put on a little show, and I must say that they are an improvement over the Detonators. Maybe they learned something about waxed floors from last year's affair.

Award of best looking man of the week goes to Dr. Cooley of the Chem department who really looked sharp in his uniform Saturday night. I don't think I have seen so much gold braid since John Scott wore his Civil War uniform. I guess you all know that John Scott was chief aide to General Lee and was one of the chief causes of the downfall of the Confederacy. Speaking of the Confederacy, where is Private Gum of the Humanities Department these days? Still teaching History 160, I guess. By the way, Prof, did you ever get to St. Louis last weekend?

Not to be outdone by the Sigma Nu's or ROTC, the boys from Triangle also held their spring formal and picnic over the weekend. The picnic was held at Maramee Springs Saturday afternoon. Bob Wood tried to cross the creek several times, but always managed to fall down in the middle. Better try cokes next time, Bob, they don't affect you quite as bad as beer. The dance Saturday night was really an affair, with Don Dowling (Thelma of the follies) serving as Bar Maid. I wonder how many passes were made at "her".

Tomorrow night the Lindenwood Choir will be here and no doubt the Miners will turn out in force to see if they can increase their acquaintances. The dance after the concert is being sponsored by Alpha Phi Omega in lieu of their annual B & B Dance, so it should really be a fine affair.

For a long time I have proceed-

to run down profs around the campus, but with the end of the school year coming up I think it is about time to make some awards as Profs of the Year. Topping the list is Prof. Boyer of the Mining Dept., Ted Planje of the Ceramics Dept., Wheat of the EE Dept., Spike Dennie of the Math Dept., Adams of the Physics Dept., Hendley of the Chem. Dept., Christianson of the Drawing Dept., Larson of the Geology Dept., Brewer of the English Dept., Hofstaedter of the Mechanics Dept., Schlechten of the Met. Dept., AND Private Edwards of the Military Department. That about covers all the departments and I only hope my awards are justified. Any complaints should be carefully addressed to me and dropped in the ash can.

The other day I heard about a beer soaked Miner that walked or staggered into a swanky Kansas City hotel bar and planked down a thin dime.

"Gimme a ten cent whiskey," he said.

"I'm sorry, sir," said the polite bartender, "but we do not serve ten-cent whiskey here."

"Then gimme my dime back. I don't want none of that nickel stuff. It makes me sick!"

Next week will be the last issue of the MINER and I will try to bring out all the undercover facts that I can find about the graduating seniors.

See you next week.  
— The Old Miner

## Dr. Magill Speaks

(Continued from Page 1)

the application of engineering to the natural resources of the world has increased the material wealth and as a result the engineer is responsible, directly and indirectly, for the material wealth, culture, traditions, and everything we associate with today's civilization. He concluded by stating that he believed, as an outsider, that the engineer contributes more to the development of America than any other group of individuals.

MEM  
MINER MEMOS

—by Ralph Johnston

For a long time at MSM, there was a fraternity known as Quo Vadis. It was one of the most unusual college outfits ever to hold meetings on our campus. In many respects it was similar to Blue Key fraternity as it exists today, in that Quo Vadis elected members showing campus leadership. But this organization purposely called themselves the "society of hoboes." The primary requirement for initiation into Quo Vadis was that the prospective member "ride the rails" for at least 100 miles.

Quo Vadis was a national fraternity, and had its first chapter at MSM. Its active years on the campus were from about 1910 to 1930. Charles Y. Clayton, late professor of Metallurgy at MSM, was a member of Quo Vadis. His famous nickname, "Boots," was attached to him by the men of Quo Vadis, who made a point of nicknaming every "fellow hobo." Such names as "Oyster" Doster, "Slitz" Schneeburger, and "Jelly" Edison were used by members.

The fraternity's colors were black and blue; their flower was the dog fennel, a common weed. Naturally enough, the motto of Quo Vadis was "Please, Mum." Enoch R. Needles, well-known School of Mines alumnus, recalled his initiation into Quo Vadis in his 1948 Homecoming Address. Since there was no railroad

from Rolla to Jefferson City, Needles and a buddy walked to the state capital. Upon returning by a different route, "a railroad officer chased ten of us off the top of a Missouri Pacific mail coach. By the time we got back to Rolla on Monday at noon, I had become qualified for membership in Quo Vadis, that fine fraternity of railroad gentlemen."

KYBURZ, STEGEMEIER  
COMBINATION CHOSEN  
FOR 1950 ROLLAMO

At recent elections, the more important officers of the Rollamo Board were chosen for the coming year. They are as follows:

Ed Kyburz, Editor-in-chief; Dick Stegemeier, Business Manager; Dick Bauer, Literary Editor; Harry Chapman, Sports Editor; Bill Cox, Head Photographer.

Before this semester is over these men will have begun work on the Rollamo edition for next spring, 1950. When the fall semester begins in September, the complete staff will be selected and work will begin in earnest.

The Kyburg-Stegemeier team should prove a successful one, as both men have been energetic workers on the Board previously.

# MIAA Track Meet At Jackling Field

## Track Next As Intra-Mural Softball, Tennis, Horseshoes Season Ends

### Ralph Baker, Soph Star to Start On Mound For All-Star Team

### BILL WISCH TO MANAGE TEAM SELECTED BY UMPS SPORTS SCRIBES, AND INTRA-MURAL MANAGERS

### Umps, Sportscribes Pick Team From Manager's Nominees

The 1949 All-Star Softball Squad has been picked by the MINER sports staff and the intra-mural managers. Final selections were made by the three intramural umpires, Norm Niederstadt, Nick Gioseffi, and Don Tene.

Bill Wisch, prominent among amateur softball teams in the state, will coach the team from the bench. He will be aided by Dave Meskan at first base. The third base coach will be named later.

Ralph Baker, standout star on the mound for the Sophomores this season will draw the starting assignment on the hill. Baker's battery mate, Bender, will be behind the plate. Other twirlers will include Carl Bilyeu of Pi Kappa Alpha, and Albert Zeis of Jackling Terrace.

Starting in the outfield will be Mable of Kappa Sigma, Cady of Pi Kappa Alpha and Doelling from the Snake house, Sigma Nu. In the infield will be first sacker of Triangle Fred Crossman, second baseman from the Tech Club, Linus Renner and third baseman Miller from Kappa Sigma. Starting at shortstop will be Tunnick, an impressive figure this season with the Tech Club contingent.

The All-Star game will be played at two o'clock on Saturday, May 21st on the softball lot on Nagagomi Road and Bishop Avenue (U. S. 56) Intramural umpires will handle the game.

This game, the highlight of the spring intra-mural schedule, is under the direction of the MINER sports department. Plans are being made to make the softball All-Star Game an annual affair. It is hoped that a large number of intra-mural fans turn out to see the league champions match bats with the "league's finest".

GENE HUFFMAN  
Missouri Mines  
Gene Huffman, a Rolla boy, will have the distinction of being the first freshman to earn three varsity letters. Sparking the football and basketball teams during the Fall and Winter, Gene is a dash and relay man on the cinder squad.

### THETA KAP, LAMBDA CHI SURPRISE DIAMOND MEN

Theta Kappa Phi proved to be the surprising team as they advanced to the semi-finals before being eliminated by Lambda Chi 2-1. Conquering an early season tendency toward wildness, John Bruskotter and team manager Bill Wisch teamed up on the mound chores to overrun the Juniors-Seniors 4-3, Jackling Terrace 3-1, and Sigma Pi 2-1. The sharp infield work of Olenburg, Stegemeier, Meiners and Bosse handled the opposing teams with professional efficiency.

The amazing Lambda Chi Alpha squad, coached by Tyre, has had a fine season with the hurling of Frank Motta. In spite of the lack of height in the infield the boys cover an amazing amount of ground on the ground balls. Blevens, an outfield and second sacker both has shown fine form at the plate while outfielder teammate "Red" Dintelman is an asset to any team. This week the La Chi team trimmed the Sophomores 9-1 as hurler Baker of the Sophomore team was once again lacking fielding.

The Kappa Sigma squad, depleted by seniors away on senior trips fell easy pray to the Tekes and Lambda Chi as they dropped 10-2 and 12-1 games.

The team:

OUTFIELD:  
Mable, Kappa Sigma  
Greer, Sigma Pi  
Dintelman, Lambda Chi Alpha  
Cady, Pi Kappa Alpha  
Roennfeldt, Jackling Terrace  
Doelling, Sigma Nu  
1st BASE:  
Olenburg, Theta Kappa Phi  
Crossman, Triangle  
2nd BASE:  
Miners, Theta Kappa Phi  
Renner, Tech Club  
3rd BASE:  
Miller, Kappa Sigma  
Zuppan, Lambda Chi Alpha  
SHORTSTOP:  
Tunnick, Tech Club  
D. Stegemeier, Theta Kappa Phi  
PITCHERS:  
Baker, Sophomores  
Bilyeu, Pi Kappa Alpha  
Zeis, Jackling Terrace  
Lowe, Tau Kappa Epsilon  
Motta, Lambda Chi Alpha

GEORGE BOCK  
Missouri Mines  
George Bock, holder of the indoor record for the shotput will attempt to establish a new outdoor meet record in the MIAA meet Saturday. George is undefeated thus far this season.

FRIDAY, MAY 13, 1949

### INTRAMURAL TRACKMEN TO COMPETE MAY 18, 19

by Murray Schmidt

Intramural track will soon be upon us... next week, May 18 and 19, Jackling Field will be the scene of many a young stalwart in the struggle for supremacy over friendly rivals for the honor of winning and placing in field and track events.

#### Dash Events

As the list of men entered is too comprehensive, it would be quite a task to enumerate the men who might be expected to be seen in the dash finals. Jake Jare will be running for the Tekes, Leo Cardetti for the Theta Kaps, Fred Crossman for Triangle, Bob Koelling for Sigma Nu, Howie Lester for Sig Ep, Kurt Frank for the Kappa Sigs, Milan Zupan for the Lambda Chi's, Bob Billard for the Pikers, Smiley Givens for ol' KA, and Hulien McDaniels for the Sigma Pi boys.

#### Hurdle Events

Dick Hughes will probably run the hurdles for the Engineers Club with quite a pack right along with him. Jack Guth, of the Sigma Nu House, will be trying for a repeat in his victory in the low hurdles. Bob Perry, who won the high hurdles last year, will not be in the running this year as he is away on his senior trip. If he should return in time, he will be right there in the lineup when the finals begin.

#### Shot Put

The strong man division will see many new faces this year; Warren Roach, entry for the PI-KA House, has already put the shot out over 40 feet in practice... the record is only 39' 5 1/2". Other big boys who will be seen in the circle might include, Roy Shourd, Jerry Wilson, Fred Eckert, Ed Thrall, Gail Weinrich, Bill Roemerman, and last but not least Bob Suren who placed 2nd in last year's running.

#### Discus

This, too, will bring out the strongest, most talented men; throwing the discus requires both skill and strength. Bob Suren took 3rd last year and again will be back; Tom Brown, who also placed, will be in there trying for a better position. Others include: Joe Gerino, for the Engineers Club; Warren Roach, Roger Schoepel, John Brillos, Dale Heineck, and Bill Roemerman.

#### High Jump

With Bob Perry gone, the field will be opened up quite a bit. Don Meiners won second place last year and might be looked toward as being quite dangerous this year. Ed Thrall, Bill Gray, Joe Lowe, 'Moe' Moser, Dick Hughes, and record holder, Bill Hill, will be all competing. Bill, along with Norman Rankin, set the present intramural record of 5' 7 5/8", so, should be considered as a potential winner.

#### Broad Jump

Earl Heyne, Buz Bilyeu, Charlie Harmon, Leo Cardetti, Bruce Tarantola, Irv Schuenemeyer, and Doug Castleberry might all be expected to be in the running for honors in the broad jump.

#### 880 Yard Run

Jerry Shelton, representing KA, will be back again to attempt equalling his first place finish of last year; Tom Herman, of Theta Kap House, is a strong contender, as well as Gene Laytham, a Triangle boy who ran second in the cross country event last fall. Dick Bullock, Bud Cheadle, Joe Lowe, Hank Shee-

The undefeated net-men have dwindled each time they played until it has reached the point where they are playing off the semi-finals. On the winners' side of the bracket the Sigma Pi Epsilon's "Shorty" Voiles has defeated the singles man from the Engineers Club and Bob Morlock from the Theta Kappa Phi. While on the losers side the Engineers Club entry defeated the Jr.-Sr. net-man. This now leads up to a game between the Engineers Club and Theta Kappa Phi with the winner winning the losers bracket thereby giving him a chance at the winner of the winners bracket "Shorty" Voiles. The winner of the losers bracket must defeat "Shorty" twice as it is double elimination with "Shorty" still undefeated. The losers bracket man has already one defeat, leaving him only one left.

The doubles are also showing who are the best net-men as they are now down to the semi-finals on the losers side and the finals on the winners side. On the winners side Wesley Foundation's brother combination of Jerry and Jack Colner defeated the Kappa Alpha's Dick Smart and Doug Castlebury. The Kappa Sigs game with the Triangle fraternity was a forfeit. The Wesley Foundation brothers then defeated the Kappa Sigs thereby becoming the undefeated winners. The two brothers, Jack and Jerry, play an excellent game together as they no doubt have been playing together a good many years. They proved this when they defeated all their opponents with good margins in their games.

On the losers side Chi Sigma defeated the Triangle fraternity while the Kappa Alpha then played with the strong Chi Sigma coming out on top. This leaves just one match left in the losers bracket as the Chi Sigma must play the Kappa Sigs, with the winner playing the undefeated Wesley Foundation for the championship.

### KAPPA SIGMA CAPTURES HORSESHOE SINGLES

The intramural horseshoes are now narrowed down to the final match with Tau Kappa Epsilon Fraternity's "Jake" Jare pitching against the Kappa Sigma Fraternity's Bob McGown for the championship. With "Jake" Jare who has lost one game, but bounced back to capture the losers bracket and play the undefeated Bob McGown. On Wednesday night "Jake" defeated Bob, but it was double elimination so the players are now even (Continued on Page 4)

ley, and Ted Ruppert will all be running, to.

The old intramural records are as follows:

### CAPE INDIANS EDGED MINERS, BILLIKENS AS NEW MILE RECORD MADE

Last Saturday, May 7, the MSM track was the scene of the Miner-Cape-St. Louis U. triangular meet. Cape walked off with the olive branch by netting 65 points; Rolla was second, having gathered 57 1/2, and St. Louis U. garnered 47 1/2 to take third.

#### Corse Breaks Track Record

In the mile run Corse of Cape broke a long standing record on the Rolla track. This was 4:34.7 set by King in 1945. Corse's time was 4:31.6.

The 800 relay was captured by the St. Louis team of Holtman, Milani, Hahn, Williams in 1:32.4. Cape Girardeau came in second. St. Louis's Hahn broke the tape a fraction of a second before Rausch of Rolla, time 52 seconds; third and fourth were White and Green of St. Louis and Cape respectively.

In the hundred yard dash Williams from St. Louis U. sped across in 10.2 seconds to take first. He was followed by a teammate, Holtman, and Reeves of Rolla.

In the 120 yd. High Hurdles Corbin of MSM took first in 16 seconds. Tied for second were Schuchardt of Rolla and Boverie of St. Louis U.

Corse continued to rack up points for Cape as he whipped across in 2:00.1 to take first in the 880-yd. run, close behind was Dolecki of Rolla and Allen of Cape.

Williams kept St. Louis U. in the running by taking the 220-yd. dash in 22.8 seconds and third came Reeves of Rolla and Holtman of St. Louis.

The two-mile endurance jaunt was won by Smith of MSM, followed by Walsh of St. Louis and Shaffer of Rolla. Time 10:40.1.

Boek's 44' 10" bested the field of shot putters and Bequette of Cape threw the discus 123' 6" to win. Stephens of Rolla took the high jump at 5' 11", Voiles of Rolla pole vaulted 11' 6" and Collier of Rolla threw the javelin 158'.

Mile run—Won by Corse (C), Smith (MSM), 2nd; Walsh (StL), 3rd; Hampton (C), 4th. Time 4:31.6.

440-yard run—Won by Hahn (StL); Rausch (MSM), 2nd; Witte (StL), 3rd; Green (C), 4th. Time, 52.0.

120-yard high hurdles—Won by Corwin, (MSM); Schuchardt (MSM) and Boverie (StL) tied for 2nd; Poole (C), 4th. Time, 16.0.

100-yard dash—Won by Williams (StL); Holtman (StL), 2nd; Reeves (MSM), 3rd; Day (C), 4th. Time 10.2.

880-yard run—Won by Corse (C); Dolecki (MSM), 2nd; Allen (C), 3rd; Froelich (StL), 4th. Time 2:00.1.

220-yard dash—Won by Williams (StL); Reeves (MSM), 2nd; Holtman (StL), 3rd; Day (C), 4th. Time 22.8.

880-yard relay—Won by St. Louis (Holtman, Milani, Hahn, Williams); Cape Girardeau, 2nd. Time 1:32.4.

Hwo-mile run—Won by Smith (MSM), Walsh (StL), 2nd; Shaffer (MSM), 3rd; Gross (StL), 4th. Time 10:40.1.

220-yard low hurdles—Won by Poole (C); Burger (C), 2nd; Milani (StL), 3rd; Boverie (StL), 4th. Time 25.8.

Mile Relay—Won by School of Mines (Huffman, Dolecki, Rausch, Harwood), Cape, 2nd. Time 3:32.2.

Shotput—Won by Boek (MSM); McDaniels (C), 2nd; Ruvala (StL), 3rd; Hayes (C), 4th. Distance 44 feet 10 inches.

Discus throw—Won by Bequette (C); Ruvala (StL), 2nd; Hahn (C), 3rd; Hayes (C), 4th. Distance 123 feet 6 inches.

High Jump—Won by Stephens (MSM); Coffey (C), 2nd; Reniere (StL), 3rd; Dolecki (MSM), 4th. Height 5 feet 11 inches.

Broad Jump—Won by Coffey (C); McEwen (C), 2nd; Grimsley (MSM), 3rd; Maag (MSM), 4th. Distance 21 feet 4 inches.

### Cape Girardeau Indians Promise Fight For Cindertrack Laurels

by Ollie North

For the first time in years Rolla plays host today and tomorrow to the track team of the schools in the MIAA. Representatives from Springfield, Maryville, Cape Girardeau, Kirksville and Warrensville will engage the local squad on Jackling Field, and the meet promises to be most interesting. It is anticipated that at least one record will fall, and possibly two others.

Judging by past performances, Maryville ranks as the favorite, followed by Cape, Rolla, Springfield, Warrensburg and Kirksville in that order. The latter two schools have shown little the past couple of years, but the other four are definitely contenders.

#### Top Sprinters At Maryville

Maryville took the indoor meet at Columbia, and it is rumored that they have won with regularity since then. The have a trio of sprinters who figure to massacre the opposition in both dashes, as they did last year, and again at Columbia. Neil, Zuchowski and Carter are 10-second men, and they will also run the 880-relay, which should make Maryville top team in that event.

Not to put all their eggs in one basket, Maryville boasts other big names. Distance-runner Anderson administered a sound defeat to our Don Smith in the 2-mile at Columbia, and is reported to be running it in better than MIAA record time—9:59.2—so this should be a close one. Corse edged him out at Columbia by a narrow margin.

Other Maryville point-getters are hurdler Burnham, pole-vaulter Appliman, high-jumper Schonenman and weightmen Wormsley, Butherus and Daly. Wormsley took the outdoor shot and Butcherus the javelin last year, and look like possible repeaters.

#### Cape Strong In All Events

Cape turned back the Miners and St. Louis U. on Jackling Field last Saturday, and figure to have the best balanced team in the meet. The star, of course, is Ralph Corse, who shattered (Continued on Page 4)

## HOST

Gale Bullman

Gale Bullman, Miner football mentor and track coach will be host to the track teams of the MIAA conference at the annual meet to be held Saturday on Jackling Field.

- 100 yd. dash—Neil (Maryville) 1934. 9.8 sec.
- 220 yd. dash—Reid (Cape Girardeau) 1948. 21.4 sec.
- 440 yd. dash—Stobbs (Maryville) 1934. 49.6 sec.
- 880 yd. run—Reid (Cape Girardeau) 1942. 1:58.6
- Mile run—Taylor (Maryville) 1940. 4:26.5
- Two mile run—Donald (Springfield) 1938. 9:59.2
- 120 High Hurdles—McLane (Cape Girardeau) 1938. 14.8 sec.
- 220 Low Hurdles—McLane (Cape Girardeau) 1938. 24.1 sec.
- Shot put—Binkley (Cape Girardeau) 1939. 46' 7".
- Discus—Barter (Kirksville) 1933. 143' 10.5"
- Pole vault—Spurlock (Cape Girardeau) 1941. 13' 10.5"
- High Jump—Mulky (Cape Girardeau) 1941. 6' 4.5"
- Broad Jump—Neil (Maryville) 1936. 23' 3"
- Javelin—Kennedy (Warrensburg) 1928. 196' 10"
- Half Mile relay—Maryville. 1:29.1
- Mile relay—Cape Girardeau 3:25.6

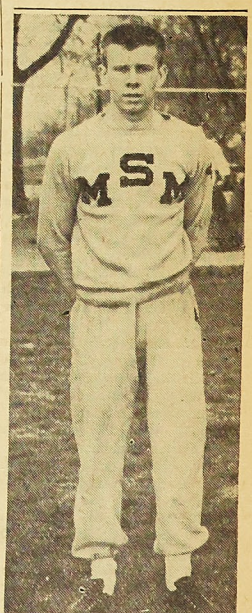

CLETUS VOILES  
Missouri Mines

Cletus "Shorty" Voiles, holder of the indoor pole vault title, will try to add the outdoor title to his list on Saturday in the MIAA meet. During the winter Miner fans saw "Shorty" dribble circles around opponents on the hardwood floor.

Pole Vault—Voiles (MSM) and Hlob (C), tied for first; Bone (C), 3rd; Grimsley (MSM), Heckenberger (MSM) and Wilmering (StL), tied for 4th. Height 11 feet 6 inches.

Javelin throw—Won by Collier (MSM); Hampton (C), 2nd; Momet (C); Boek (MSM), 4th. Distance 158 feet.

PETE PERINO  
Missouri Mines

Pete Perino, a hustling basketball star spends his Spring broad jumping for the Miner squad. Thus far, Pete has been quite reliable in bringing home the points.

### First Since 1939

The MIAA track, tennis and golf meets to be held here on Friday and Saturday will be the first conference meets to be held here since 1939.

## Dukes Mixture

Greetings once again to all you good people.

I want to remind you all here first, of the dance to be given in honor of the 80 voice Lindenwood Girls' Choir tomorrow night. On my last visit up their way, I found the girls to be, for the most part, quiet, unassuming, fascinating and WOW! I predict that the Miners attending the concert and dance will find the evening most enjoyable. Those who wish may bring their own dates at no additional cost. I hope to see you there.

One of the anglers who frequent Frisco Pond had a bit of tough luck the other day. His reel jammed while playing in an eight ft. sturgeon. While he and his companions were making the necessary repairs, the sturgeon, virtually undisturbed, chewed the line in twain, and after flipping the water with his tail and drenching them, he retired to the depths of the pond. The boys returned wringing wet and smelling of strong drink. My deepest sympathies.

Those of you who missed the Military Ball missed a wonderful time indeed. The dance was graced with the presence of a great many beautiful 'imports' from the outside, as well as the always charming local girls. The dance was very colorful and pleasant, and was a delight to all who attended.

I have it on authority that the job of surveying the campus is now just about complete. The job was begun in or shortly before the early 1880's. These Civils are handy guys to have around.

The 'Maorshmallow of the Week' this time goes to the Missouri Miner in observance of the second prize awarded it at the convention held in Columbia, Mo. Friday last. In college newspaper competition in this state, the Miner issues for the last year were judged second only to those of Washington University. It is notable too that the Miner is one of the few, if not the only paper not used as a lab for journalism students.

### ODE TO FINALS

I wish I were a penguin, And had some cute webbed feet. I like the penguin's stature, And his mode of dress so neat. They're down in the Antarctic, They never fear the summers heat.

An' penguins ain't got finals, Or any darn deadlines to meet. They don't even have to study, All they hafta to do is sleep and eat.

If I could only be a penguin— My life would be complete. (I, Dunnitt)

### THE SHAPE OF THINGS TO COME:

May 14. Lindenwood Gals come to Rolla. Wheeeeee!  
May 15. As usual about this time of month, Miners, nearly bankrupt, go into hibernation.  
May 25. 8:00 AM. Finals begin.  
10:00 AM. Ville language.  
May 26. Grades begin to be posted. Many smiles; much strong language.  
May 29. Those students pinned to local talent, and intending to leave Rolla for the summer will be displeased to find their pins being returned to them. Sorry, fellas.  
May 30. Finals end. Strong drink commences, anubary 'grad' arrive in Rolla for commencement. 400 tipsy graduating seniors serenade Dean's mansion.  
May 31. 10:00 AM. Graduation! 448 receive diplomas.  
June 1. Students in St. Louis for boat ride; Chem and physics instructors visible on campus.  
9:00PM to 12:00 St. Pat's Board gala excursion cruise on the Steamer Admiral.  
June 2. 12:05 AM. Boat ride over, those few pins not returned Sunday, returned.  
Sept. 18. Noticeably fewer baby carriages seen in Every-Sunday-on-the-campus buggy parade.  
Noted that the boys up in the barracks are hotter than the dickens over the ruling that those in the barracks next semester are required to eat at the school cafeteria. Wonder why they're sore?

I predict that next semester rooms around town will be more plentiful, and prices might be lower!

Correct in yourself what you dislike in others.

Peopel who live in glass houses—should undress in the dark.

## - SPORTS -

### PANTALEO MEDALIST AS CAPE DOWNS MINERS, STL

Last Saturday while the cindersmen were busy 12 men played a warm 18 holes of golf. Although our own Tony Pantaleo was the low man for the day we came in second. The four men from Cape Girardeau walked off of the links the victors for the day. St. Louis U's team came in third.

From Cape the low man was Fred Naucke with 73, Clyde Little was next with a 74 for the afternoon, Ray Marshall shot a 75 and Hubert McCullough 76. This gave Cape a total score of 298.

Tony Pantaleo only needed 70 strokes to get around the course for the MSM team. The next man of the team was Lloyd Youngs with a 75, Walther Kramer was next swinging 78 times while it took Jake Jare 81 strokes to go the round, MSM's total team score was 304.

The boys from St. Louis U. weren't use to the sand greens we have here but they only needed a total of 309 strokes to go the round. Dave Ferrenbach was their low man with 73, Linn Durbin shot a 76 while Tom Reidy took 79 strokes. Their low man for the day was Hugh Fitzgerald with 81.

The scores only varied 11 strokes but the boys from Cape were the most consistent and that seems to be what it takes to be a winner, so congratulations to them are in order.

### TENNIS TEAM TAKES ON MIAA NETMEN ON SAT.

This coming Saturday will see the net men from five of the six schools entered in the MIAA conference compete to take the title away from the last years winners from Springfield. The Singles will be played in the morning starting at 9. While the doubles will be left until 1:30 PM.

Last year Busiek from Springfield beat Axsom from the MSM team in the finals to take the top honors. This year Axsom and Williams will again constitute the MSM team, in singles and doubles. They went all of the way to the finals last year only to be nosed out by Busiek and Martin of the Springfield team.

As yet, there are no names on the entire list from the other schools.

There are two men entered from each school and they will play in both the singles and doubles matches. The only school from the conference not having a team entered is Kirkville.

There will no doubt be some real good tennis matches this Saturday so why not go up there and give the boys from MSM a little cheering.

### AXSOM, WILLIAMS ONLY MINER TENNIS WINNERS

St. Louis came down here Saturday with their tennis team and took 6 out of 7 matches. They made a clean sweep of the singles with their Jack Weber taking the first two games from R. Williams by the scores of 6-3, 6-3. Ben Soberay of St. Louis beat R. C. Axsom MSM 6-0, 6-2. L. E. Byrd, MSM lost to Jack Gobel 6-0, 6-3. Andy Ries of St. Louis U. beat J. R. Campbell by score of 7-5, 6-1. Harris of St. Louis U. won from J. W. Jrenger, MSM by the scores of 6-4, 6-3.

In the doubles division MSM's combination of Williams and Axsom beat the Weber, Ries combo from St. Louis U. by the scores of 6-4, 4-6, and 6-0. Soberay and Gobel from St. Louis U. beat our own Rice and Herman by the scores of 6-4 and 6-3.

Although we didn't do very good the boys sure deserve a lot of credit because the St. Louis U. team is considered pretty good with Jack Weber leading the squad.

Noted that the boys up in the barracks are hotter than the dickens over the ruling that those in the barracks next semester are required to eat at the school cafeteria. Wonder why they're sore?

I predict that next semester rooms around town will be more plentiful, and prices might be lower!

Correct in yourself what you dislike in others.

Peopel who live in glass houses—should undress in the dark.

### MIAA TRACK MEET HERE

(Cont. from Page 3)

Johnny Kings' local mile mark last week, and also turned in a sizzling half-mile. He may set a new record in the shorter race, and perhaps in the mile, if Anderson crowds him.

Other capable Indian athletes are Hiob, who tied Cletus Voiles in the pole vault, hurdlers Poole and Burger, middle distance and relay men Allen and Hampton, high-and broad-jumper Coffey, sprinter Day, broad jumpers Riddings and McEwen, and weightmen McDaniel, Bequette, Hays, and Habs. McDaniel is consistently close to George Bock with the shot. Coffey, Poole and Bequette were winners last week.

### Miners Tops In Field Events

The Miners faithful followers are familiar with most of the local squad. The teams strength lies mainly in the field events, and there will be a lot of competition there. The shot put is a toss-up between George Bock and McDaniel and Wormsley. The latter scored at last years outdoor meet, although George edged him at Columbia both last year and this.

Shorty Voiles has an impressive string of wins in the pole vault and is a logical choice. Pete Perino won the broad jump at Columbia, but has missed the last two meets with a bad knee, and is a question mark. Jack Stephens has capably filled the high jump spot, his latest effort being a win over Coffey, who took the event at Columbia. Rob Collier and Earnie Doerr are other Miner weightmen who are counted upon for points.

In the races it is a different story. The logical winner is Harold Corbin, who won the outdoor high hurdle title last year, took second in the short 60-yard indoor run, and has won consistently since. Bob Schuchardt will start in both the high and low hurdles and should get places in both. Ted Reeves has performed well in the sprints, but is not expected to be able to stop Maryvilles speedsters. Stan Dolecki, Cliff Turner, Bob Sanders and Paul Harrawood will run the middle distances and relays and have excellent chances for places. Don Smith has the misfortune to tangle with Anderson and Corse, but should get a second in the two-mile and a third in the mile.

The Miners 880-relay squad is not counted upon heavily, but the mile baton-passers should do very well. They won at Columbia and have scored several times since. Saturday they won easily in 3:22.2, as Gene Huffman, Maurice Rausch, Stan Dolecki and Paul Harrawood really gunned it. That is reported to be the fastest time shown by a Miner team since 1928!

Springfield Well Represented  
Springfield, too, has a well balanced team, as shown by the score they gave the Miners in their dual meet. The squad includes broad-jumper and hurdler Bayless, half-miler Rea,

sprinters Powers and Glazier, distance men Schatz and Phillips and weightmen Stringer and Davis. The team is expected to figure heavily in the relays, high jump, javelin and discus.

So far as is known, Warrensburg has only Nazworthy, who looked good at Columbia, in the hurdles, broad jump and javelin, and pole vaulters Stelgmeier and Highfill. Warrensburg was a distant fifth at Columbia and should finish in that spot again.

Kirkville may get a few minor places with Walker in the high jump, Sparks in the pole vault, and Smith and Luckhardt in the longer runs.

The all-day affair gets under way at 8:30 AM tomorrow with the javelin throw and broad jump. The dash and hurdle preliminaries will be held in the morning, with the other events and finals starting at 1:30 PM. Several local beauties will present medals to the various winners, by way of adding a touch of femininity to the contest.

A big crowd is expected, and the various coaches and athletes will appreciate it if spectators will stay in the stands. Some past meets have been marked by interference with officials and contestants, and such occurrence at this meet will be especially disliked. Be a sport—obey the announcer and stay out of the way.

But come up and cheer your favorites—it's gonna be a darn good meet!
