## APO RUSHING SMOKER FOR ALL FORMER B.S.A. TO BE HELD THURSDAY

Beta Omicron chapter of Alpha Phi Omega, national service fraternity, extends a cordial invitation to all present or former Boy Scouts at M.S.M. to attend their Rushing Smoker which will be held in the A.P.O. Student Lounge next Thursday evening at 7 p. m. Complete details regarding the evening program are not available, but there will be smokes and cokes and a short program of movies is tentatively scheduled, in addition to a brief outline of the aims and achievements of Alpha Phi Omega, both nationally and locally, which will be presented by officers of the chapter.

Since the Fraternity's purpose for existence is to promote service through the fellowship of Scout Oath and Law, its membership is necessarily limited to those men who have at one time been, affiliated with the Scout movement. The only other prerequisite for pledgship and subsequent active membership is that any man being pledged shall have completed one semester of his college education and be in good standing with the school he attends.

Among the achievements of this chapter are its annual distribution of desk blotters for students; operating the A.P.O. Book Exchange, through which the students can sell their books at their own prices; serving as guides on the annual Parent's Day; and currently, aiding the national Crusade for Freedom by soliciting signatures of students on petitions of belief in the American Way of Life, the United States' answer to the Communist-sponsored Stockholm Peace Appeal.

Once again, next Thursday evening at 7 p. m. in the A.P.O. Lounge, located in the Rolla Building, all students who are interested in becoming affiliated with a national service fraternity are cordially invited to Alpha Phi Omega's Rushing Smoker, to learn about a growing service movement in the colleges and universities throughout the United States.

## LARYNGITIS SWEEPS THRU SIG EP HOUSE

The Sig Ep house has been very quiet since the Washington U. football game last Saturday. So quiet, in fact, its getting on everyone's nerves. The reason behind this unusual phenomenon can be very easily explained. Sig Ep was very well represented at the football game, having four rows of benches filled with members and alumni. Now take four rows of Sig Ep rosters, with that Sig Ep spirit, and you get a cheering section that can't be beat. As a result of their little exhibition, every soul in the house, without exception, has just lost his voice.

As if the ball game wasn't enough, a victory celebration was held at the Hamilton-Wishire Hotel that night, and as might be expected, the party was quite a success. Part of the success of the party was no doubt due to the presence of several Lindenwood guests.

As reported in last week's edition of the Miner, Sig Ep has a new mascot whose temporary name, for lack of a better one, is Shep. However, Shep promises to make a good mascot, since he already has caught fleas, lice, worms and a sore ear. If he can live through that, he can take anything these Rolla dogs can dish out.

Congratulations are in order for Cliff Marlow, who was married over the summer, and George Stoddard, who lost his pin to a pretty young maid in New York. Also to be congratulated is Jim Argo, who was accepted as a member of the fall pledge class.

## FAULTS OF COLLEGE TEACHERS OUTLINED BY DR. ORDWAY TEAD

Outlining the faults of college teaching, Dr. Ordway Tead, Chairman of the Board of Higher Education of New York City, approached the subject recently from the aspects of the personality and philosophy of the teacher, the methods of instruction currently used in colleges, and the nature of learning.

College teachers, he declared, should guard against what he termed their "greatest occupational hazard, laziness." He advocated "a sharp distinction between hours of work and hours of leisure" of college teachers by providing them with offices away from their homes.

He deplored the fact that, in the conduct of classes, the majority of college teachers "are primarily talkers." Dr. Tead said, "They merely tell others. They are sure that college teaching is the teacher telling. They dispense words and more words. It sometimes seems as if many college classes are conducted on the premise that the printing press and the mimeograph machine are nonexistent."

Younger college teachers, he remarked, commonly have the failing of "trying to imitate their favorite professor, with little or no thought given to the aims of education or the methods by which these aims may be reached."

Dr. Tead assailed what he described as "the passion for objectivity and a kind of intellectual neutrality" which some college teachers adopt. "Failure to realize that two distinct but supplementary aims should be held in view seems the reason for this attitude," he declared, "It is surely better education for the teacher to admit that, at least, he is animated by a passion for truth-seeking."

"Education is for use," he asserted. "It is to enable students to cope with the problem situations of conduct and of aspiration. Neither extreme indoctrination nor a complete non-commitment is the desired prescription." He further warned that college teachers are not safe in assuming that "the desire to learn is spontaneously general and dominant." To ignore the problem of the student's desire to learn, he said, is failing to take account of the primary condition of carrying learning on to completion.

"For many teachers, a searching understanding of the learning process would have to mean a complete revamping of their methods of dealing with subject matter and with their students."

## "Rock House" Is Scene Of One Man Party

It seems that over the weekend the "Ole Rock House" was evacuated en masse. Everybody took off to St. Louis to see the Washington U. slaughter. Everybody, that is, except one freshman pledge who stayed behind to guard the house. Instead of guarding the house he threw a party for himself. I don't want to mention any names but his initials are George McQuie.

Saturday night after the game "Bobby Joe" Stinson had a party at his house. The party was a huge success and a good time was had by all.

The past week saw the house preparing for intramural ping pong. A tournament was held between fourteen aspiring ping pong champs in the house. After two gruelling days and nights of hard fought competition "Lonnie" Hook and "Bobby Joe" Stinson emerged as Triangle's doubles team for 1950. Harry Pierson captured the singles berth. These men should advance far in their field of endeavor.

Well, I guess that is all for now. See you next week.

Shown above is part of the action which occurred during the game at Washington University's Francis field. The Miners came from behind twice to upset their old rivals by the score of 34 - 19. The play above resulted in a touchdown when Kwadas leaped high to snag the ball in Washington's end zone.

## MANY NATIONALITIES REPRESENTED IN NEW CLUB HERE ON CAMPUS

The International Fellowship, a newly formed organization here on the campus, will sponsor movies tonight in room 300 Harris Hall. The purpose of the International Fellowship is to promote a better understanding of the nineteen different nationalities represented here at MSM. The movies are from New Zealand, Peru and Panama and should provide entertainment for anyone who is interested in attending.

Immediately following the movies there will be a regular business meeting and all those interested in joining the Fellowship are urged to attend. The above club also has the radio program on KTRR every Thursday from 8:30 to 9:00 P. M.

## ASCE's Make Plans For Successful Year

Over one-hundred enthusiastic Civils were on hand Wed., Sept. 20, in Harris Hall to enjoy cigars, cigarettes, and the humorous words of Mr. A. C. McCutchen, President of the Mid-Missouri Section of A. S. C. E.

The main purpose of the meeting was to organize committees and to introduce the faculty to new students. Professors Carlton and Butler challenged the new officers consisting of John Griffith, Pres., Dave Parrish, Vice-President; Howard Clark, Secretary, and John Clark, Treasurer, to work for an even better Chapter than last year's which won National Recognition.

Asst. Faculty Advisor, "Little Brass" Roberts, is spearheading the Parents Day Exhibit Committee, along with Clark Houghton as Chairman. From the looks of the Committee meeting, the Civils are once again aiming for the outstanding exhibit in the school.

## First B.S.U. Meeting To Be Held Today At The Baptist Church

The first Baptist Student Union meeting of the Fall semester will be held at the Baptist Church (7th and Cedar), Friday, Sept. 29, at 7:30 P. M.

This year our State Convention will be held in St. Louis, Oct. 20-22. Many famous speakers will be there including Dr. C. Oscar Johnson, past President of the Baptist World Alliance. All who plan to attend the Convention are urged to be at the meeting tonight as further plans will be made at that time.

A special invitation is extended to those students whose church is not represented in Rolla, and all Baptist preference students. A great time is in store for all as refreshments and recreation will be the main features immediately following the meeting. Bring a friend.

## SHUTTER-BUGS FOCUS PLANS FOR SEMESTER

This promises to be an active year for members of the M. S. M. Photo Club. At their last meeting the club laid plans for the coming semester, which are to include several series of color slides from the Eastman Kodak Company on taking, developing and printing good pictures and an outing tentatively planned for Sunday, October 9. Transportation will be furnished by the members having cars.

The club will also maintain a bulletin board and print display on the first floor of Norwood Hall. Anyone who has a print he would like to have displayed is invited to bring it in, whether it is a picture of the girl friend or the family dog.

The purpose of the club, as the name implies, is to get all the fellows who are interested in photograph to get together to swap ideas and talk shop. Members also get a chance to practice what they preach in the clubs well equipped darkroom. So whether you use a two-hundred dollar camera or bought your camera with two box tops and twenty-five cents, anyone interested in photography is invited to attend the next meeting October 6.

## Ozone Lamp Kills Odors And Germs

It won't be long before you can bring that fresh-clean smell which prevails outdoors during an electrical storm right into your living room.

Ozone, a form of oxygen produced when electricity is discharged into oxygen or air, is an efficient natural deodorizer. Now, it can be produced at the flick of a switch by a new, four-watt lamp which is designed to dispel unwanted odors.

A glass ball, less than an inch and a half in diameter, the new lamp bulb gives off just barely noticeable concentrations of ozone. It operates on household current, and is used with a ballast in a simple fixture which allows the free escape of ozone, but shields the eyes from the ultraviolet energy generated by the lamp.

Although they are expected to find wide acceptance in homes, and other living and working areas, the first ozone lamps to be produced are being acquired by manufacturers for use in automatic clothes dryers, refrigerators, and beverage vending machines.

The lamps have a mild germicidal effect. To help maintain the desired condition of sterility, they are expected to be used in small, sanitary storage cabinets for beauty and barber supplies, medical and dental instruments, tooth brushes, and other items.

"And to think I mortgaged the house to send my boy to college. All he does is go out with girls, drink, and smoke."

"Do you regret it?"

"Sure. I should have gone myself."

## G.F.'s Turbo Research Adds Greater Range To Commercial Planes

Lynn, Mass.,—A turbosupercharger which will enable piston powered commercial airliners to fly non-stop from Chicago to London with heavy payloads has been developed by the General Electric Company.

Turbosuperchargers, pioneered by General Electric and widely used by America's fighting planes in World War II, are the devices which enable airplane piston engines to "breathe" in the rarefied air of high altitudes. Spun by the engine's exhaust, they compress the rarefied air to sea level pressure before it enters the cylinders. Tests have shown 32 per cent more takeoff power, and a reduction of more than 20 per cent in fuel consumption is possible with this combination as compared with transport powerplants now in use.

The engineers said this has resulted from aerodynamic design improvements in the turbo and advanced engine designs which permit operation of the turbosupercharger under higher exhaust pressures than previously possible.

The new turbosupercharger entirely eliminates the conventional geared supercharger, or impeller, operating off the engine shaft. There are no mechanical connections between engine and turbo. Development of a direct cylinder fuel injection system eliminated the major need for a geared supercharger which is used to insure uniform fuel distribution to the cylinders. Engineers said elimination of the geared supercharger not only saves up to 500 hp, previously drawn from the piston engine, but also makes possible a more efficient method of cooling the combustion air going to the cylinders.

Airliners equipped with such powerplants could fly non-stop from Chicago to London, a distance of 5000 miles, carrying nearly half as many passengers as are now loaded for Chicago to New York flights. Commercial transports are unable to make such flights at present. Neither can they fly non-stop from New York to London with profitable payloads. G-E engineers said that with the new powerplants non-stop trans-Atlantic flights could be made at faster speeds and with heavier payloads than is now possible by airliners making two stops enroute.

## HONOR ROLL MEN AT ADELPHI COLLEGE ARE GIVEN UNLIMITED CUTS

Garden City, N. Y. - (I.P.)—An unlimited cuts system for students on the Dean's List at Adelphi College has been unanimously approved by the college faculty, effective immediately. The Dean's List includes those students whose work during the two semesters of the preceding regular college year has averaged 2.5 or above. The list is announced at the beginning of each college year.

According to the new policy, Dean's List students shall have no limit placed upon the number of absences from any class. However, this permission for unlimited cuts shall in no case be reason for the repetition of any part of the work for the benefit of the absentee.

Any announced tests, exams, or other exercises missed will be considered failures for that particular exercise. In any case of prolonged absence due to illness or other unavoidable causes, however, the student may petition the Academic Standards Committee through the Director of Student Personnel for permission to make up the work without penalty.

The man who wakes up and finds himself famous hasn't been asleep.

## Pigskin Prom and Parents Day Billed for Next Sat.

### All Non-Fraternity Men Urged To Attend Independent Smoker

Now is the time for all non-fraternity men to join the organization, instituted, for them to represent them on the campus. The Independents are holding their fall smoker Monday night at 7:15. As a member of the Independents you will be represented in such organizations as the Student Council and the St. Pat's Board. Not only are you represented in these organizations, but you have a good chance of becoming an active member. Of last year's class officers 11 out of the total 16 were members of the Independents. Every organization you join on this campus will go down on your school record as a good mark and we hope, that you as a non-fraternity man will receive another good mark on your record by joining the Independents Monday night.

Remember the time, Monday night, the place, 103 Old Chem. and the refreshments.

### Chi Epsilon Holds First Meeting, Make Plans for Parents Day

Missouri School of Mines Chapter of Chi Epsilon, the national honorary civil engineering fraternity, held its first meeting of the school year last Thursday, Sept. 21.

President Bob Zane announced that Chi Epsilon will do its part in the Parent's Day celebration on October 7th, by furnishing guides to show the parents around the campus. He also appointed a committee to be headed by Bob Vansant, to look up prospective pledges.

Pledge projects are already being considered by various members to keep these pledges busy this fall. The projects will be in the form of something that will help to make an even better civil engineering department.

Into "Veep" Bob Slankard's hands dropped the job of keeping a card index of all the alumni of the chapter. The meeting was closed with the announcement that there will be another, next Thursday.

### Kappa Sig's Climax Win With Hay Ride

Saturday's game, besides bringing thrills and excitement, brought many Kappa Sigma alumni back to the Kappa Sigma cheering section. Such men as Bob Knauer, our last year's president, and others were there to witness the game. That night the St. Louis alumni chapter gave a hay-ride, which many of our members attended. Man, what a mood for live—a victory in the afternoon, so why not one that night. I wouldn't say that everyone made out, but it seems that Ray Rafferty had to be drug out of a hay loft and made to come back to Rolla.

Our pledges seem to be looked upon with favor by one of the local females. In weeks to come she is going to give a party for all of them, furnishing the women. Go to it pledges, you'd better save the best looking ones for the actives.

"Yes, grandmother I'm a model and the artist I pose for does painting, sculpturing and etching."

"But, of course, dear, he does one thing better than anything else. Doesn't he?"

"Yes, grandmother, but nevertheless, he's pretty good at painting, etching and sculpturing."

## CHARLIE NOVAK'S ORCH. FEATURED AT ANNUAL M CLUB EXTRAVAGANZA

One week from this Saturday is the date set for the Pigskin Prom, the annual Parents Day dance sponsored by the M Club. Now is the time to make all the necessary preparations needed to make this a big weekend. Show your support by both coming to watch them play Maryville and then join all the boys from the squad that night and help them celebrate their victory.

Music for the dance will be provided by that popular St. Louis orchestra led by Charles Novak. Charlie and his boys are currently playing in many of St. Louis' hotspots.

For a casual evening of dancing from nine until twelve in the evening, keep next Saturday October 7, on your schedule. The tickets for the dance are given away at the phenomenally low price of one dollar, stag or drag. Those of you who wish tickets can obtain them from any member of the M Club, or at the entrance on the night of the dance.

The dress for the evening will be informal.

## BELLS RING AS AIR LIFT CARRIES FREEDOM SCROLLS TO REGION

Response to the call for signatures to the Freedom Scrolls, heart of the dramatic Crusade for Freedom now being conducted throughout the country, has been so great that a supply "air-lift" has had to be instituted between New York Crusade headquarters and the Missouri-Kansas Region, reserve Major General Leif J. Sverdrup, chairman for the two states has announced. National Crusade Chairman Lucius D. Clay has personally supported the emergency measures to rush Freedom Scrolls to this area, General Sverdrup said.

"We can assure everyone in our region that there will be scrolls for signatures within a very few days," Sverdrup said. "They are being flown from New York to regional and state offices in Missouri, and County Chairmen will receive them shortly."

This is the second time that General Clay has directed an air-lift; as military governor of the American Zone in Germany after World War II, he directed the Berlin airlift which broke the Russian stranglehold on Berlin.

Impetus to the Crusade is being felt throughout the two states following the appearances this past week of the Freedom Bell. In St. Louis, nearly a quarter of a million people saw the bell, either at street rallies or over television. They also heard voices from behind the Iron Curtain as new American citizens, many displaced persons from Russian satellite countries, told what American Freedom means to them and what the Crusade will mean to the people within the Soviet sphere.

"We must convince the Russian people that we are not against them but that we are firmly against their godless government," said one.

"There is a bitter joke about Freedom in Poland," said another. "There they say 'the Communists have liberated us yes—liberated us from our homes, our families and our lives.'"

"To me," said an elderly doctor speaking in a heavy Rumanian accent, "America is like Heaven."

There were tears in his eyes and in the eyes of thousands (Continued on Page 4)

## THE MISSOURI MINER

THE MISSOURI MINER is the official publication of the students of the Missouri School of Mines and Metallurgy. It is published at Rolla, Mo., every Friday during the school year. Entered as second class matter February 8, 1945 at the Post Office at Rolla, Mo. under the Act of March 3, 1879.

Subscription Price 75c per Semester. Single copy 5c (Featuring Activities of Students and Faculty of M. S. M.)

## EDITORIAL

Each and every year the student faces the same problems of Matriculation. It would appear that in a college of this type, which in all respects is progressive, would cope with these matters as soon as such attention is warranted. The problem facing the student of acquiring his books within a reasonable time after the opening of school has long been left idle.

Since there are two stores which retail school supplies, these stores quite naturally operate on a competitive basis. Such competition is as it should be, but nevertheless certain complications arise which hinder the students and the profs, and therefore the entire school. It is conceivable that neither store knows before hand how many books for each course will be purchased in their respective store. Consequently the tendency to prevent a surplus stock exists, which in many cases causes a shortage of some books. This leaves the students one of two choices; they can either rush the book stores during the first day or two of school, or purchase the books at their leisure and take the chance that their books will not be in stock when they want them.

The first week or two are the most important for the student. While admittedly they are the easiest, it is these first few weeks that can make or break a student. If the student applies himself and accomplishes all his work, he will have developed an early interest in the course which usually prevails throughout the semester. On the other hand if his attitude is lackadaisical during this initial period his interest lapses and he gets behind in his work where he may remain for the rest of the semester.

Then again there is the more remote case, which is not a rarity, when a majority of the class does not have books. In this latter case both the student and the instructor suffer because the class cannot operate properly. The result is an extra burden on the instructor and intensified study by the students when the books finally are obtained. The condition is further made worse by the fact that the books are not available for at least another ten days after the beginning of school.

If some feasible system could be worked out between the two book stores, it seems highly probable that both could profit by it. Not only could sufficient books be purchased, but also the surplus of certain texts would be minimized. The student would therefore be enabled to begin his work with the proper footing during this rudimentary and important part of the semester.

"I helped put five men through college today"

Washington Weekend  
Staggers Theta Xi

After a pleasant and unusually joyous weekend in St. Louis, the Theta Xi house has quieted down somewhat. There were only seven bankrupt "Miners" in this deserted house over the weekend, and they sure looked sad and sombre about the good time they missed.

Frank Guzzy and Nick Giosefi were in a state of fluidity at the game. They read the papers thoroughly to be sure they could convince us they had actually attended the game. It seems that one of our past semester graduates "took care" of a few of the boys while in St. Louis, so that accounts for their flustered stomachs and jittery hands.

Frank Wees must be trying hard to collect the insurance on his car. They say he gently nudged a new Cadillac while coming back to Rolla. The other driver was reckless he claims. But I hear his recklessness was limited to waiting for the traffic lights to change before moving. Caution, Frankie boy. What if he was bigger than you?

Dud Blancke still dazed over Schoeppe's TD run on Saturday. He claims the offensive team should do all the scoring. His only claim to fame is that he is the only footballer to handle the ball every play. What price glory?

Congratulations to our new pledges. The new men pledged are Henry Purnhagen, Robert Jost, Jack Canady, and Earl Pickett. Quality plus.

But with the addition of our new pledges, we regret to note the temporary loss of Bill Boyosko and Gene Knopf to the Marine Corps. Here's wishing you fellows are back with us sooner than you left and may you carry the best of everything with you, while your away.

Two officers were vacated during the summer session, and the new officers are: Vice-president, John Brady and Corresponding secretary, Donald Rober.

Congratulations are in order to Dick McMasters. During the excitement of the Washington game he dropped his pin to a cute little St. Louis girl.

We, of Theta Xi, wish to thank John Moscarei for leading the summer session boys to their fine job of painting and redecorating the house. It sure looks good.

Him: "I met your sister on the street the other day. She looks shorter."

Her: "Yes. She got married and is settling down."

"I'm afraid my poor wife can never have a child," sighed a frustrated husband. "Inconceivable, eh?" asked a friend. "No I mean unbearable," said the husband. "Impregnable," amended the friend.

Gettings Things  
Done The Hard Way

A fraternity house on an eastern campus was throwing an informal shindig. Like most open house parties, there were people from all over the school mingling through the house, and even though you lived there, there were many strange faces.

One of the members from that particular fraternity was peeping over the top of his drink at the multitude of people. One person in particular caught his attention as he eyed him coming down the stairs with an armful of clothing. Running to investigate, he grasped the man roughly by the shoulder and said, "All right, mister, just what the hell do you think you're doing?"

A little shaken the man turned and spouted, "It's all right, I'm from the cleaners."

"Well if that's the case, wait one moment." With that the member flew up the stairs, grabbed a few pairs of pants, a tuxedo, and two suits, and hurried back downstairs. "Here," he said, "take these, and have them cleaned and pressed."

The man from the "cleaners" turned and walked through the door. To this day the frat man is still wondering what ever became of his clothes; proof of the old adage that "there's one born every minute".

Have you heard about the young bride who didn't know whether to say, "I do," "I have," or "I will?"

## THE MARRIAGE RING

This past weekend certainly was an eventful one for many people.

First of all the University Dames held their annual tea at the lovely home of Mrs. Curtis L. Wilson on Saturday afternoon from 3:00 to 5:00 p.m. It was a big success.

The rooms were decorated with beautiful flowers. The table was covered with a lace table cloth with a bouquet of mixed flowers arranged in the center. Ice cream punch, mixed nuts, and white and chocolate cake were served.

Joyce Simpson met the guests as they entered. Name tags were given to each by Bonnie Hauck and Barbara Boscia had charge of the guest book.

In the receiving line were Mrs. Wilson, Mary Minnis, president, Marie Crowell, vice-president, Jean Hughes, recording secretary, Roberta Rhodes, corresponding secretary, and Mary Jane Stuart, treasurer. Hostesses were Mrs. Schrenk, Lois Tonking, Evelyn Carl, Betty Farrer and Romie Lange. Mrs. Grawe served punch.

Glenda De Shurley played lovely back ground music on the piano and Marie Crowell sang several songs.

We were happy to see so many new faces and hope we may see them again at our next meeting. One of our guest was a Turkish girl. So happy to have you with us, Shafia.

After the tea Mary Minnis invited officers and hostesses to her house for a party. A fine time was had by all.

Among the many that attended the football game with Washington University in St. Louis were Georgia and Dave Robinson and Rhoda and Irv Falk.

Mr. and Mrs. David Anderson spent the week end in St. Louis with William J. Edward an Alumnus of M.S.M.

Two faithful members of the University Dames will no longer be with us. Clara Corwine and Lillian Sutton have given their husbands to the service of our country. The fellows had not finished their schooling. We are sorry to see you go and wish you all the good luck in the world.

Anyone having news to be put in the "marriage ring" or wanting to join the Dames organization, please call me at 155-M.

HOW WOULD YOU  
DEFINE IT?

People daily hear of communism and socialism, and are told of their evils. Sometimes the struggling student might be at a loss, however, actually to define the terms.

A weekly newspaper published at Sonora recently defined them thusly:

SOCIALISM: If you have two cows, you keep one and give the other to your neighbor.

COMMUNISM: If you have two cows, you give them both to the government, then maybe the government gives you back some milk.

SOFT-PINK COMMUNISM: If you have two cows, you're a capitalist.

IMPERIALISM: If you have two cows, you steal somebody's bull.

CAPITALISM: If you have two cows, you sell one and buy a bull.

NEW DEALISM: If you have two cows, you milk the other, then throw part of the milk down the sink.

ANARCHISM: If you have two cows, your neighbor shoots one and takes the other.

NAZISM: If you have two

cows, the government shoots you and takes the cows.

FAIR DEALISM: If you have two cows, you milk them every other day, give the milk to everybody, build the cows an air-conditioned barn and feed them extra when they go dry.

REALISM: If you have two cows, they're both dry.

# MINERS POWER OVER WASHINGTON U. 34-19

## Williams Sparks Team To Eighth Win In Row

The Miners beat Washington U. last Saturday afternoon at Francis Field for the first time since 1914. There could be no excuse of the Miners playing inspired, over their heads, etc. as is so often the case against a much bigger school, as the 34-19 score indicated. The defensive team shone, pass defense presenting a welcome sight for the 1500 well-satisfied alumni and Miners. The total crowd was estimated at 8000. Except for the first quarter, and a portion of the third quarter, the Bears' attack, both ground and air, was effectively stymied by the veteran Miner gridmen. It was during those two periods that the hilltoppers did their scoring. As for the Miners, it was two TD's in the second quarter, one in the third, and two more in the fourth. Alden Williams did a fine job at the quarterback slot, hitting his receivers twice for touchdowns, and otherwise playing a bang-up game as field general. Veteran end Gene Kennedy was lost to the team for probably the rest of the season when he suffered a broken jaw late in the third quarter.

Williams completed seven passes, Bullman had two, and Huffman, one, making ten completed for the Miners, whereas Washington only had four. The Bears had the edge in first downs, 12-10, but the Rolla men rolled up 345 yards, total rushing and passing, to only 210 for the Bears. It was MSM's eighth straight victory over two seasons, and their second straight this season. Tomorrow afternoon, the Miners entertain Murray, KY. State Teachers for another non-conference game. After that, five conference games round out the football season.

Here's how the game went by quarters:

### First Quarter

The Miners won the toss, and elected to receive. Big Ralph Stocker, 196 pound quarterback, heaviest in the W. U. backfield, kicked into the end zone. The Miners had trouble getting their offensive rolling, and Kennedy kicked to the Miner 37. After another exchange of kicks, the Bears made a first down on the Miner 47. Stocker again had to kick, but Kwadas fumbled on the Miner 6, Maune of Washington recovering. For three downs, the Miner line held, but then Jim O'Hare, transfer from St. Louis U., plunged over for the first score. The first conversion

attempt was good, but the Bears were off-sides, and the second try failed. W. U. 6, Miners 0. After the punt, the Miners made a first down, but lost the ball on downs as the first quarter ended.

### Second Quarter

Washington made another first attempt a Bullman pass and cardown through the line. After Beverage recovered a fumble on the Miner 29, Stocker interceded to the 30. After another first down, the Bears kicked. Bullman was being rushed behind the line, having to hurry his passes, and again Stocker intercepted. Marching steadily down the field, the Bears were on the Miner 16 when Roger Schoepel, defensive center, and something of a gridiron behemoth, intercepted a pass on the 20 and labored 80 yards for MSM's first touchdown. Two Miner blockers were behind him but the big guy was never headed. Bill Wohler's conversion was good and the Miners led, 7-6, with four minutes remaining in the first quarter. After the Miner punt was returned to the Washington 20, Weiderholdt fumbled, and co-captain Dave Anderson recovered. With three minutes to go, Ed Kwadas, who was really driving all afternoon, carried to the 8, making it first and goal. After Dowling had gone to the 5, Gene Huffman skirted left end wide into the corner of the end zone, second TD in two minutes for the Miners. Wohler's kick was again good, making the score 14-6, Miners. A tight Rolla defense bottled the Bears then. Fullback Clodfelter picked up 7, but then lost 2, and after two incomplete passes, the Miner offense took over, with Bullman completing a pass to Kennedy as the half ended.

### Third Quarter

The Uteritz team came back strong after the half, with Stocker going through for first downs twice on quarterback sneaks, and Clodfelter and Votava driving through the line repeatedly. Miner back, Koedding, injured his leg as Weiderholdt drove for 7 more to the Miner 15. Huffman went into the backfield, and after O'Hare went for 2, Weiderholdt again carried, this time into the end zone at 8:14 of the quarter. Stocker's kick was good, and the Miner lead was cut to 14-13. Williams fumbled the punt return at the Miner 34, and it was Washing-

Schoepel intercepts a Washington University pass and goes all the way for a touchdown. Schoepel's 80 yard run was our first TD in the game.

ton's ball again. After a series of line bucks the Bears had carried the ball to the 13, Stocker passed to Lyng for Washington's third and last touchdown. After the first conversion was nullified by a holding penalty, Stocker's second attempt was low from the 30, and the Bears led 19-14, with six minutes remaining in the third quarter. After Huffman returned the punt to the Miner 27, two plays lost 2½ yards, making it 3 and 12½. Then Williams, called A. D., really heaved one out in front of Huffman, who snagged it going away from his two closest pursuers, and sprinted the rest of the way. The pass was good for 40 yards, the touchdown play going 75 yards. This time Wohler's kick was no good, and the Miners led 20-19. After the kickoff, W. U. lost the ball on downs, and the Miners again started moving on a Williams pass to Jim Tietjens good for 15, and some fine running by Kwadas and Dowling. Kennedy got his jaw broken and was replaced by Beverage as the third quarter ended.

### Fourth Quarter

Another Williams to Tietjens pass put the ball on the Washington 17. After Dowling picked up 5, Williams tossed into the end zone to Kwadas, who made a fine running catch. Wohler's kick was good. Score 27-19, Miners. The Bears were again stalled and kicked deep into Miner territory. After almost being tackled in the end zone for a safety, Kwadas got the ball out to the 12. After a series of kick exchanges, Weitzel, a varsity newcomer, intercepted a Stocker pass to set up another touchdown march. On a reverse play, Huffman threw a long pass to Dick Jones, the play was good for 44 yards. A series of line plunges by Dowling brought another first down, and then he scored from the 4. With Woh-

ler's kick good, the scoreboard read 34-19, Miners. With only four minutes to go, fans started filing out of the stadium. Lawyer-coach Bullman started substituting freely as the Miners went on the offense again. Ralph Moeller, 18 yr. old half-back, carried for 14, Bill Koedding went for 3, and Moeller again for 4 in another touchdown drive as the game ended.

### Lineup:

Miners	Washington U.
Teitjens	L.E. Maune
Weinel	L.T. Adler
Roermann	L.G. Stein
Blanche	C. Winkler
Thurston	R.G. Ritzen
Theiss	R.T. Bentzinger
Kennedy	R.E. Bennett
Williams	Q.B. Stocker
Kwadas	L.H. Hopper
Huffman	R.H. Clapp
Dowling	F.B. Milstead

First Downs	Bears	Miners
12	10	
Yards Rushing	172	123
Yards Passing	38	222
Passes Attempted	21	16
Passes Completed	4	10
Passes Intercepted	2	2
Punts	6	3
Punting Average	33.4	30
Fumbles Lost	2	3
Yards Penalized	46	5

## Football Gambling Is Third in Nation

The leaves are turning golden and with the summer bowing out, the advent of another football season is upon us. Football is a rare sport in that it strikes a spark of enthusiasm at its very mention. So captivating are its thrills, that people are willing to bet their fortunes on it, and they usually do.

In the past when the baseball season finished the bookies would shy away from college football. They preferred to idle in the Florida sun and take the loose winter cash at Hialeah. With a few improvisations football has been added to his long list and it rounds out his autumn "business". In fact it rounds it so well that gambling on football is ranked third behind racing and baseball. Formerly, the favored team would be given odds on its chances of winning. Betting in this fashion led to disastrous results for the bookie. A smart better picking the favorites almost always beat the bookies. This situation left the bookie holding a "Dutch Book" or one that stood to make him lose money.

The next refinement was called the "point-spread". This renovation to give the bookie a more solvent condition. They would quote a national favorite as Michigan 12-17. This means you would take Michigan's opponent and take 12 points or take Michigan and give 17 points.

The "profession" has streamlined the point-spread method to the present "point-difference" system. If Missouri is favored by 12½ points to beat Oklahoma, Missouri has to win by 13 points in order to collect. In order to reach into the local drugstores, college campuses, and office workers, the parlay card is the latest innovation. The idea here being to pick 4, 6, or 8 winning teams with corresponding odds.

No matter what system you use, your chances of trying to beat the "book" are always against you. Regardless how your lucky may run one week, the low brow, uneducated bookie has calculated he will always win at least 16% of all the bets he handles. Bookies no longer try to fix college football when they can fix the odds to take your money. Autumn is here and football parlay cards will descend upon you again. The only sure way of doubling your money is to fold it back into your pocket.

Jim: "Are you fond of nuts?"  
Joan: "Is this a proposal?"

**J.J. FULLER JEWELER**

With the second week of intramural football well under way and the weather taking a change to that which is idea for the sport, Sigma Nu, champions of the past two years advanced another knotch in the double elimination play as they downed the Lambda Chi eleven, 27 to 0.

Passes from Joe Gray accounted for all four of the Snake's tallies, with Tarantola, Thurman, Nichols, and Martin on the receiving end.

Theta Xi rolled over A. E. Pi, 25 to 0, scoring twice on passes from Ken Wiley to Lester Freedman. An interception by Don Tone and a run by Wiley accounted for the other touchdowns.

With Don Newkirk running across for one tallie and passing for the other, the Sig Ep outfit had little trouble in downing the boys from the North Dorm.

Engineer's Club defeated the Jr.-Srs. as Gamma Delta and Tech. Club received forfeits from South Dorm. and Soph-Fresh.

Remember those chocolate babies they used to sell in candy stores, ten for a cent? A little shaver demanded two cent worth, and added, "I want all boy babies." The confectioner asked why. The little shaver explained succinctly, "More chocolate!"

## Springfield Host To Pittsburg Kan Sat'day

Thus far in the season it seems that none of the other teams of the MIAA have a team strong enough to wrest the title away from the Miners. But if you are a football fan you know that it is an unpredictable game.

More definite information will be had this week-end when usually powerful Springfield takes on twice defeated Pittsburg, Kan. The Miners took Pittsburg 26-7 so the outcome of this game will give some comparison of Springfield and the Miners. Springfield has a 1-1 record, having lost their opener to Arkansas State Teachers, 21-13 and beating Northwestern Oklahoma, 13-7.

Kirksville and Maryville dropped their games last week. Kirksville losing to strong Missouri Valley, 45-20, and Maryville was edged by Fort Hays (Kan.) State, 21-14.

Cape Girardeau spotted Millikan College of Decatur a 7-0 first quarter lead and then went on to dominate the remainder of the game. The final score was 12-7, Cape's Fred Barry looks like the man to stop on the Cape team as he rolled up 130 yards.

The Miners play their last non-conference game tomorrow against Murry (Ky.) State before entering conference competition.

The only man who never makes a mistake is the man who never does anything.

## CALIFORNIA'S CAMPUS TO BE SCENE OF DEAN OF MEN'S CONFERENCE

Berkeley, Calif. - (I.P.)—The University of California's campus will serve as the meeting place for a Dean of Men's Conference of the Far West next spring. Co-sponsors of the conference in '51 will be Stanford University and St. Mary's College.

Increased college enrollments during the post-war years has caused an increase in problems of communications, student government, counseling an discipline. Among the resolutions passed at the conference last spring were the following:

1. There is a need for the formation of a student-faculty organization. This organization, composed of student leaders and the Deans of Men, should meet at least once a year on the campus of a California institution.
2. Student government must take greater responsibility for its actions in order to safeguard the privileges granted to it.
3. A greater orientation program must be fostered for the new student through cooperation and leadership of both faculty and students.
4. Fraternities to meet their obligation to the college and men of the campus must endeavor not only to initiate the outstanding individual, but initiate the student who has latest leadership abilities, and help him to develop these abilities for the benefit of his fellow student and the college.
5. The fraternity will find its highest good in service to the institution of which it is a part.
6. College administrations should take necessary steps to encourage closer faculty and student participation in student non-academic activities.
7. Student governments and faculty leaders should make a concerted effort to impress upon the average student his responsibility as a citizen of the campus.

## FREEDOM CRUSADE

(Continued from Page 1)

standing in the street as he said it.

Will the voice of Radio Free Europe, the civilian broadcasting stations to be financed by the Crusade to carry the truth through the Iron Curtain, actually be heard?

A young Russian displaced from Poland, answered: "The voice of American citizens will be heard behind the Iron Curtain. People will listen—they are listening now—though they risk their lives to do it."

Rousing demonstrations followed the Freedom Bell across Missouri to Kansas City where a parade began at the outskirts of the city, with Boy Scouts carrying Freedom Scrolls through the crowd to accept enrollments and contributions.

The Freedom Bell was rung in both cities—in St. Louis by five year old Michael Kaufmann, son of former Mayor Aloys P. Kaufmann, who spoke as "a Swiss immigrant to whom America has been very kind." Assisted by several men, Michael tolled the bell 55 times. In Kansas City, a young soldier, recently wounded in Korea, served as official bell ringer.

Thousands of signatures to the Freedom Scroll and of contributions to the Crusade will begin this week. General Sverdrup said. They will run into many thousands of names. Already, 30,000 names of school children were enrolled in Kansas City. In St. Joseph, Mayor Stanley I. Dale, chairman for Buchanan County, reported an anticipated 20,000 signatures. Preparations have been made for more than a million signatures in St. Louis and the 57 Eastern Missouri counties alone.

First Young Matron: "When I got married I wore blue to show my faithfulness."  
Second Young Matron: "When I got married I wore white to show my purity."  
Third Young Matron: "When I got married I wore a business suit."

## Reservists Must Submit Special Form For Deferment

St. Louis, September 13 -- Information received this date from the Department of the Army necessitates that any request for delay from employer in private industry, educational institution, for any individual called to active duty in a Reserve or National Guard unit, or as an individual Reservist must be submitted on a special form which can be procured at Main Recruiting Stations or sub-offices of National Guard or Organized Reserve Corps. Delay may also be authorized in case of extreme compassionate reasons. The Chief of the Missouri Military District and the Adjutant General, State of Missouri request the cooperation of all private industry in making any request for delay of Reservists or National Guardsmen in proper form in order that request can be expeditiously handled.

Delay of personnel of civilian components will be granted only in most exceptional cases for personnel between ages of 18 and 26 years, with greater latitude granted with increase of age above 26. Information in detail and necessary forms can be procured at the closest ORC sub-office, National Guard Instructor's office or Recruiting Main Station. Forms are available for individual requests only and must be submitted in triplicate by employer. Request for delay of National Guardsmen should be submitted to the Adjutant General, State of Missouri, and for Reservists, to the Chief of Missouri Military District, St. Louis, Missouri.

No request for delay will be accepted until the individual has received official notification that he can expect to be called to active duty with an alerted unit or as an individual Reservist. This procedure is not applicable to personnel of civilian components only.

An opportunist is a person, who, finds himself in hot water, decides he needs a bath anyway.

## Engineers' Psalm

Verily, I say unto thee, marry not an engineer, for the engineer is a strange being, and is possessed of many evils; yea he speaketh eternally in parables which he calleth 'formulae,' and he hath but one Bible—a handbook.

He talketh always of stresses and strains, and without end of thermodynamics. He soweth always a serious aspect and seemeth not to know how to smile; and he picketh his seat in the car by the springs therein and not by the damsel besides him; neither does he know a waterfall save for its power, nor the sunset except for its absorption.

Always he carrieth his slide rule with him and he entertaineth his maiden with steam tables. Verily, though his damsel expecteth chocolates, when he calleth he bringeth samples of iron. Yea, he holdeth his damsel's hand but to measure the heat content thereof, and he kisseth her but to test the viscosity of her lips. In his eyes shineth a faraway look which is neither love nor longing, but rather a vain attempt to recall a formula.

There is but one key to his heart, and that is the Tau Beta Pi, and when his damsel writeth of love and signeth with crosses, he taketh not these symbols for kisses but rather for unknown quantities.

Even as a youth, he pulleth a girl's hair to test its elasticity. But as a man he discovereth different devices; for he would count the vibrations of her heart-strings and reckon the strength of her materials; for he seeketh ever to pursue his scientific passion in a formula; and his investigations, and inscribeth his marriage is a simultaneous equation involving two unknowns and yielding diverse answers. From Brooklyn Polytech Paper.

A girl standing on the street corner and wearing a low cut V-neck sweater was approached by a male student.

He asked: "Is that 'V' for Victory?"  
Replying, she said: "No, that's for virtue, but it's an old sweater."

## FOLLOW THESE SIMPLE RULES TO SUCCESS

It seems the tables have been turned, and for once the guys are going to get some advice on how to hang on to their favorite jills.

Have you been getting the cold shoulder lately when you try to turn on the charm? Well, maybe you need to change your technique.

For instance, be mysterious: You've been giving the fair Susie Q quite a rush. You're standing on the front porch after having taken her to the movies. There's a moon and a soft breeze. The time is now for a kiss. Well, DON'T Instead, smile, shake her hand, say "It's sure been an enchanting evening" -- and vanish into the night. It may sound as exciting as being your best friend's stand-in for his steady but it's supposed to drive Susie Q crazy -- about you.

You're also urged not to talk so much about yourself, but ask your girl about her; dress well; learn how to push a chair in gracefully under a gal rather than pull it out; don't rely on basic English, but learn a few new words.

We don't know how you guys who think you're the answer to every girl's dream are going to measure up to this; but it's our bet you can use a little improvement. —Adapted from an "American" article.
