THE MISSOURI MINER

Missouri School of Mines & Metallurgy

VOLUME 37

ROLLA, MO., FRIDAY, OCT. 27, 1950

NUMBER 6

Alumni Hobble Home For Weekend Festivities

Two Additional Curricula Approved By Engineers

Mechanicals, Mining Geologists, Accredited By Engineers Council

Rolla, Missouri, October 23, 1950. Engineering curricula approved at the Missouri School of Mines and Metallurgy as a result of the recent inspection by the Engineers Council for Professional Development include Mechanical Engineering and Mining Geology in addition to those previously approved, according to Dean Curtis L. Wilson.

Dean Wilson has just returned from Cleveland where he attended the annual meeting of the Engineers Council for Professional Development. He is one of the twenty-four members of the council and is also a member of the Committee on Engineering Schools which submits recommendations for accrediting.

Full Accreditation
At the Cleveland meeting the council approved for full accreditation all of the curricula at the Missouri School of Mines and Metallurgy that were submitted to it for consideration. These were Ceramic Engineering, Civil Engineering, Electrical Engineering, Mechanical Engineering, Metallurgical Engineering and Mining Engineering (including Petroleum option and Mining Geology option). Of the above, all except Mechanical and Mining Geology Engineering had previously been approved.

Chems Left Out
The reinspection this year was a part of the Engineers Council for Professional Development program to inspect all schools again following World War II. These accreditations are normally for a five year period. Chemical Engineering was also inspected at the Missouri School of Mines and Metallurgy, but the report on that curriculum goes through the American Institute of Chemical Engineers and has not yet been presented to the Engineers Council for Professional Development.

Theta Kaps Celebrate 25th Anniversary

Twenty-five years ago 707 State Street became the home of the Order of Cardinal Mercier. Up to this time the Mercier Club was open to any Catholic student but after 1926 they became a regular social fraternity and members of other fraternities were not eligible for membership. For ten years the Merciers remained an independent local fraternity winning distinction on the M.S.M. campus. All plans to establish chapters in other schools were abandoned when in 1936 the Merciers went national with Theta Kappa Phi. Mu chapter came into being in November 1936. Since that time the "Cow House" has distinguished itself in every field of endeavor on this campus. It was one of the few fraternities to remain active during World War II.

Last year was realized one of the fraternities objectives Mu won the First National Efficiency Award of Theta Kappa Phi and also the Chapter Publication Award. Last spring also brought the Intermural All-Sports trophy to Theta Kaps for the first time. This Saturday along with homecoming Mu and the Merciers celebrate their twenty-fifth anniversary. Congratulations from the Miner and best wishes for continued prosperity at M.S.M.

MSPE's Plan Series Of Professional Talks

Tuesday, Oct. 31, will be the date of the next MSPE meeting. We are fortunate in having a very capable guest speaker, Mr. E. S. Rehagen of St. Louis chapter of MSPE. His topic is as yet unknown, but knowing Mr. Rehagen who has previously spoken in various capacities here, we can safely say his talk will be of vital interest to everyone especially graduating seniors. Let's have a large crowd there to show our speaker that we too are professionally minded. The time of the meeting will be 8:00 P. M. in Parker Hall.

This year will find a variety of speakers from all branches of engineering at our student branch MSPE meetings. We hope to have each department in turn secure professionally minded speakers for us so that everyone will feel that his department is an integral part of MSPE. Let's make MSPE what it should be, a common ground for all technical societies to meet on. Let's make it the basis of cooperation. For benefit of those who do not know, MSPE stands for Missouri Society of Professional Engineers.

HILDEGARDE INVADES MSM CAMPUS NOV. 6

One of the most interesting souvenir programs ever prepared for a concert attraction will be available to those who plan to attend the song and piano concert the incomparable Hildegard will present in the auditorium of Parker Hall on November 6.

More than two months was required to make selections from the vast amount of material available concerning the star. The stories, photographs, anecdotes and miscellaneous matter retained, make up the largest program book ever prepared for an artist.

Born In Wisconsin
The stories concerning Hildegard begin with her childhood in Wisconsin and include numerous extracts from her diary which she has kept uninterruptedly since she was ten years of age. They show her to be a complete human being, identical with millions of other American girls and, at the same time, always possessed with the spark of genius that makes her the most talked about personality in this era.

Newspapermen write estimates of her from different angles. Fashion editors discuss her flair for clothes and the air of excitement that is a part of her personality. Photographs show some of her childhood, her adventures in the great cafes and hotels of this country, her five years of radio broadcasting, her triumphs in Paris and London, her many friends in the theatre and in all walks of life.

Informal Program
The program is as informal and thrilling as a performance by Hildegard and quite typical of her in its spontaneity and conformity to the star as she really is.

MINER BOARD TRYOUTS
There will be a meeting for all men who are interested in working on the Missouri Miner. All tryouts who were present at the last meeting should attend also. This will be the last chance to tryout for the Miner this semester. The meeting will be next Tuesday at 7:00 P. M. in the Infirmary Building.

PROMINENT MINER BUSINESSMEN RETURN TO MSM THIS WEEK-END

By Lloyd Lacey

Tomorrow, the 28th of October marks another annual Homecoming celebration at M.S.M., at which wine, women, and alumni abound. The quality and abundance of the wine and women are known and famous, but many Miners are not aware of the fact that among the ranks of those who have previously managed to graduate from the School of Mines are several men who have gained considerable prominence in the strange, mysterious world of industry that we hear so much about.

Among those present will be Dr. M. J. Kelly, Executive Vice-President in charge of Bell Laboratories of New York. Dr. Kelly is the current president of the M.S.M. Alumnae Association. Arriving this morning, he is calling a meeting of the Board of Directors, at which votes will be canvassed for the coming officers of the association.

This issue of the Miner will undoubtedly be compared with those of the "old days" by returning alumnus James L. Head, due to the fact that he was the first editor of the school paper. Mr. Head has gained a place of distinction on our all-time roll of honor by becoming president of the Anaconda Copper Mining Co., vice-president of the Alumnae Association, and by continuing activity in the Association.

Mr. A. E. Barnard, Chief Engineer of the Well-Kalter Manufacturing Co. of St. Louis will also be present for the celebration. Mr. Barnard is the chairman of the alumnae committee of arrangements, working in conjunction with a faculty committee headed by Prof. L. K. Hershkovitz.

Several past presidents of the Alumnae Association and present board members will also be on hand. Mr. Karl F. Hasselmann, president of the Salt Dome Oil Corporation of Houston, Texas; Mr. Carl G. Stifel, president of the Stifel Realty Co. of St. Louis, and Mr. F. C. Schaeffer, Vice-President of the Pickler X-Ray Co. of St. Louis will be some of the old hands at presiding over these affairs present to aid in the festivities.

Speaking of festivities, none of our returning Miners should be disappointed, for a full program has been planned. This morning, (Continued to page 4)

PEP RALLY

Yes there will be a Pep Rally tonight! The torch light parade will form at Jackling Gymnasium at 9:30 sharp. Everyone attend and show the alumni a real Pep Rally. Following the rally there will be a free movie at the Uptown Theatre. The show begins at twelve midnight, and everyone, including the alumni, their wives, and student's wives, are invited to attend. This will be the last Pep Rally this year. Let's make it a good one!

JAMES HEAD, "MINER'S FIRST EDITOR" NEW ALUMNI PRESIDENT

As of November 1, 1950, James L. Head will begin his first term as Missouri School of Mines Alumni President.

With 950 new Alumni, and 500 more expected during this academic year, Mr. Head has accepted a tremendous job. But his capacity to direct the Alumni is endorsed by his record, which dates back to his school days here at Rolla. Mr. Head was a charter member and the first regent of the Iota Chapter of Theta Tau, an organizer of the Satyrus (a sophomore society which is no longer represented on this campus), a member of Sigma Nu, and also a member of Phi Kappa Phi (on installation subsequent to graduation). The writer would like to mention especially, the fact that he was co-founder and editor of the first "Missouri Miner." After graduation in 1916, with a Bachelor of Science Degree in Mining Engineering, he worked in Missouri and Arizona.

In 1917, the United States entered World War I, and James Head received a 1st Lieutenant commission in the Engineers. He was sent to France and placed in charge of the St. Nazaire rock quarry, and was also assistant to the Supt. of Roads, Base Section I, France. He was later detailed to St. John's College Cambridge University, England, as a student.

After the war in September 1919, he went to Rancagua, Chile as a mining engineer for the Braden Copper Company, and worked as mine shift boss and transit-man till 1921. He then (Continued to page 2)

CLASS ELECTIONS MONDAY AND TUESDAY; ALL URGED TO VOTE

At the nomination of class officers held last Monday and Tuesday afternoon there were few students present to make nominations. The Student Council would like to have all students to participate in the elections which will be held next week.

The election of class officers will take place next Monday and Tuesday afternoons from 12:30 to 1:15 and from 3:00 to 5:00 in the Auditorium at Parker Hall. The elections are being held on both days for all classes so it will be possible for more students to vote.

The candidates for office in the different classes are as follows

SENIOR CLASS

For President: Hulon McDaniel, Joseph Fornari.
For Vice-President: Newton Kaplan, William Burch.
For Secretary: Frank Motta, Tom Scheffler.
For Treasurer: Bill Shepard, Paul Freuler.

JUNIOR CLASS

For President: Roger Schoppel, James Sweeney.
For Vice-President: Nick Geosiffi, John Mulholland.
For Secretary: Joe Murphy, Dick Corrigan.
For Treasurer: Joe Geers, Jim Boyle.

SOPHOMORE CLASS

For President: Alfred Neiman, Ralph Carl, Lee Chuen.
For Vice-President: Clay Robbins, Wallace Harper, Paul Trotter.
For Secretary: Bob Underwood, Ralph Young, Bob Jennings.
For Treasurer: Charles Pashodeg, Jim Akers, Carl Weisenbacher.

FRESHMAN CLASS

For President: Herb Lincoln, Jim Highfill.
For Vice-President: Albert Bagi, Dick Reisure.
For Secretary: Bob Wilson, K. Grace.
For Treasurer: Jim Geddel, Larry Beffa, W. Fraboni.

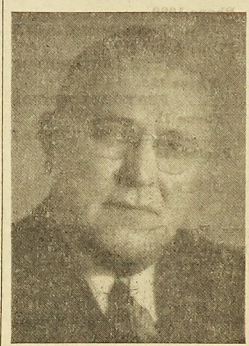

DR. COOLEY ACQUAINTS ASME'S WITH ROCKETS AND JET PROPULSION

Woosh—which way did it go? What was it? Must have been a jet job. Such was the course of discussion at the ASME meeting of October 18. Dr. R. A. Cooley of our own Chemical Engineering Department presented a very interesting talk on jet and rocket propulsion to a goodly crowd of some sixty people. Dr. Cooley explained a series of slides depicting rocket and jet types, thrust measurement, propellants and fuels, etc., and also made some interesting predictions as to the future of rockets.

Friday, Nov. 17th, was selected as the date for the Fall Turkey Shoot and Outing. Come one, come all, fun and refreshments for everyone; let's make this outing a real success. Watch the bulletin boards.

All attending were presented with a small set of steam tables and refreshments rounded out a pleasant and profitable evening. Let us take this opportunity to invite anyone having interest in mechanical engineering to attend these meetings and to join the ASME. You need not be an M. E. to hold full membership and you are sure to find lectures to your interest. Watch the bulletin boards for information on the next meeting. Those who have not received their membership cards may secure them at the M. E. office.

Old Grads Inspect New Additions On Campus

Dr. Howard I. Young, President of the American Zinc, Lead, and Smelting Company of St. Louis will deliver the principal address at the Homecoming convocation. Dr. Young has long been a prominent figure in the mining industry.

DR. HOWARD I. YOUNG TO DELIVER HOMECOMING CONVOCATION ADDRESS

Dr. Howard I. Young, President of the American Zinc, Lead and Smelting Company of St. Louis, will deliver the Homecoming convocation address at the Homecoming, October 27-28, 2:30 p.m., Football Game, Miners vs. Springfield State College. 7:00 p.m., Homecoming Dinner. 9:00 p.m., Homecoming Dance, Jackling Gymnasium.

On the campus proper, the laboratory section of the new Mechanical Engineering Laboratory Building is complete. An annex is under construction on the east side of the Experimental Station. Norwood Hall has been outfitted with fireproof steel stairways. The Chemical Engineering Building has been completed-externally. Jackling Gymnasium has been refloored. Off the campus, the new Dormitory has been completed, with room for 177 students.

The Homecoming Convocation address will be given by Dr. Howard I. Young, Hon. '39, in Parker Hall Auditorium, Saturday, at 11:00 a.m. Dr. Young, an authority in mining, is president of the American Zinc, Lead, and Smelting Company. His talk will be concerned with the mineral resources of the United States.

Informal Dinner
On the social side, there will be an informal dinner Friday night at the Pennant Station Dining Room. There is no set time. Saturday morning the displays (Continued on Page 4)

COME ONE, COME ALL INDEPENDENT'S BIG BARN DANCE TONIGHT

That's right a barn dance tonight. This is our homecoming weekend so why not make a weekend of it by going to the Independent's annual barn dance at Eagles Lodge, Route 72 and Salem Ave.? The dance starts at 8:00 P. M. and will be strictly informal. If you haven't anything to do tonight just remember that you can drag right on out to the barn dance. It's never too late to go to a good dance. Refreshments will be served and there will be ice. Tickets are going for \$1.50 stag or drag and may be obtained by calling Bernard Dowd, Phone 268R.

Decoration Award Strongly Competed for By Fraternities

By Tom Foster

Colleges throughout the country have one weekend during the school year which is as traditional as Thanksgiving. This weekend is homecoming. October 27 and 28, Alumni of the Missouri School of Mines will visit their Alma Mater to meet old friends, and make new ones, carry on business, and have a good time in general. The returning Alumni will no doubt note a number of changes when they look about the cam-

1950 MSM Homecoming

October 27 and 28
Program
October 27
2:00 p.m., Board of Directors Meeting in Rolla.
6:30 p.m., Dutch Treat Dinner, Pennant Station Dining Room October 28.
9:00 a.m. Registration, Parker Hall.
11:00 a.m. Homecoming Convocation, Auditorium Parker Hall, Speaker, Dr. Howard I. Young, Hon. '39, President, American Zinc, Lead, and Smelting Company Subject: Our Natural Resources.
12:30 p.m., St. Louis Section Cocktail Party, Pennant Hotel.
2:30 p.m., Football Game, Miners vs. Springfield State College.
7:00 p.m., Homecoming Dinner.
9:00 p.m., Homecoming Dance, Jackling Gymnasium.

On the campus proper, the laboratory section of the new Mechanical Engineering Laboratory Building is complete. An annex is under construction on the east side of the Experimental Station. Out of the Septic Tank

BY

Flush & Slush

Writing this column is no easy job for us, friends. We're like Mickey Rooney when he was married to Ava "What a Pair of Lungs" Gardner — we have to be put up to it. Then again we're like the guy that went to the Greek wedding — we don't know which way to turn, so this week we'll crucify Hallowe'en on the campus.

Walking down Pine Street the other night, we saw a buddy of ours sporting some sex. I turned to Slush and asked him the pertinent poop; the lady in question saying, "Who was that spook?" Says he, "Spook, hell, that's potential material for our St. Pat's Queen!" First time I ever saw a pumpkin that had eyes that moved. When I asked her name, Slush quips, "That's Irene—goodnight!" Ah, these love songs.

There is going to be an awful lot of people here for Homecoming. We stopped in the Edwin Long yesterday to get a room for our dates and they told us they'd have to be Ladies, because that's what the sign said on the door. We were stopped for an hour while driving downtown — a convoy of bootleggers' trucks was pulling in with the Alumni's supply of booze with Yo Yo Davidson riding shotgun — the real lusher never got too far away from the stuff. Many grads at last year's Homecoming Dance felt like they were dancing on air — age old battle of "Bottled in bond" versus Frisky Mule. See you all next week. Research has almost been completed on "The Flush and Slush Report on Women." We have a few more hot phone numbers to check up on at M.U., Stephens and Lindenwood.

B.S.U. TO HAVE GUEST SPEAKER FROM TURKEY

The regular monthly meeting of the Baptist Student Union will be held tonight in the parlor of the church at 7:30 P. M.

Our guest speaker of the evening will be Mr. Steve Theodorides, a graduate student from Turkey, who will speak to us on the subject of "Religion in Turkey." Mr. Theodorides has various pictures to use for illustration.

All those who attended the State Convention in St. Louis this past weekend are urgently requested to be present for a special meeting to follow the regular meeting. Refreshments will be served to everyone.

Geological Society Views Color Slides On British Columbia

The C. L. Dake Geological Society had its monthly meeting Friday night, October 20th. The meeting got under way at 7:30 in Room 204, Norwood Hall.

No business was discussed and the meeting was turned over to Dr. A. C. Spreng, the new instructor in the Geology Department.

Dr. Spreng lectured on the composition and location of the Mississippian rock strata and the cycles of this period. Following this, Dr. Spreng showed a fine series of color slide projections on British Columbia. These ably illustrated his discussion of the geology of the Canadian Rockies. Afterwards the group moved over to Room 200 where refreshments were served.

EDWIN LONG SCENE OF INTERNATIONAL GROUP'S HALLOWEEN PARTY

The International Fellowship at the School of Mines entertained with a Hallowe'en party at the College Inn of the Edwin Long Hotel Saturday night.

The organization is composed of students from foreign countries at the school and holds regular meetings on the school campus.

The Hallowe'en motif was used for decorations. The evening was spent in dancing and playing several games which were enjoyed by the group. Delicious refreshments were served.

Mr. and Mrs. Ralph Orlansky were the chairmen of the committee in charge of arrangements for the party. Emil Arsan is the president of the organization.

Dr. C. Malcolm Davis, faculty advisor of the group, and Mrs. Davis enjoyed the evening. Later in the evening Mr. and Mrs. Noel Hubbard joined the group.

Letters to the Editor

Last week's Miner brought to the attention of the student body one of the town's problems regarding the influx of troops into Fort Leonard Wood. The particular problem is that of serving colored service personnel in the local restaurants. The article or letter implied the place of business to be Skagg's Restaurant, and the owner readily admits that he did refuse table service to the two soldiers. The problem was discussed in a meeting of the townspeople, the chaplain from Fort Wood being present. No decision was reached at the meeting but rather it was left up to the individual businessman to decide for himself. Virgil Skagg's opinion is representative of that of every businessman in town. Certainly your ethics and principles are admirable, Mr. Cole, and you're to be commended for your stand. If you were able to be in a similar position as Mr. Skagg and practice your principles you'd have one hell of a surprise at the end of the month when you balanced your books.

Possibly you wouldn't show a loss at first but you would definitely notice a decline in business and you can't pay your bills or feed your family with principles, sonny. In fact your article gave other restaurateurs an opportunity to vent their feelings. You have Virgil Skagg to thank for bringing the price of coffee back down to a nickel a cup. You must have been present in his restaurant to see the two colored soldiers refused service, or at least I hope you were. You also must have read his menu and I hope eaten some of his meals. Any other restaurant in this town could reproduce the meal but could they reproduce the price? I don't think they could and they would feel justified or else it wouldn't bother their conscience to kick the price up. Virgil could kick the prices up a nickel or dime and plenty of people would be willing to pay, enough where

it wouldn't change his profits any. You'll notice that he hasn't; here is a businessman that meets the Miner half way. The people in town could have done the same thing. You see the principal reason that the doors to Skagg's is closed for business lies in the fact that he was two days delinquent in his last monthly payment, enough reason for the owner to foreclose. Possibly he found a buyer with a better price or possibly other restaurant owners put a bug in his ear. The ethics are shabby in either case — I could with a great deal of thinking possibly condone the first case and maybe the second, considering the owner is a resident of this town and has no liking for being ostracized. An example of Rolla's square-shooters, right between the eyes! Sure they'd gladly plug a stranger and where a buck is concerned, their own neighbor.

I'm not writing this to champion Virgil Skagg's cause but only because I (and most other people) hate to see a really good businessman and a fine fellow get kicked where he lives. In all seriousness, some people in this town may feel they have grounds for a slander or libel suit (which I earnestly doubt) and would like to take recourse for damages. I'm over twenty-one therefore, you have no recourse on my parents and my sum total assets amount to four bucks. I have no steady source of income, consequently, there is no possibility of attachment. This article does not express the opinions of the student body nor the staff of the Missouri Miner, but of one individual.

Why do I feel qualified to answer you Mr. Cole? Primarily because I've managed a restaurant, larger in size than any in Rolla, and come from a family of restaurateurs who believe their eyes about menu prices and their taste buds about good food. Missouri is a border state and the problem concerning service to negroes produces mixed feelings

as it does in my own which shares the same classification—and feelings. We would go broke in thirty days if we did cater to negroes—why? Ask the American people Mr. Cole.

Big Nick

—O—

From all appearances, you wouldn't know this was Homecoming Week. It's more like shaft your buddy week. We just got the word from a frat on Pine Street on how not to make hotel reservations. Business is not the comparatively simple thing it used to be. . . . At one time the spoken word was sufficient to make an agreement—not so in Rolla. Realizing what the accommodation situation would be like this weekend, this group of boys engaged five rooms at a local hotel on the ninth of this month. Their reservation was accepted and following closely thereafter was a deposit for which a receipt was written. In spite of all this, their reservations were cancelled with a statement to the effect, that the owner didn't need their business. This person cannot have been in Rolla very long or else he would know you can't double-cross any part of the M.S.M. student body without arousing the ire of the rest. This sudden boom isn't going to last forever and said proprietor will be glad to generate some student business. In the meantime, these boys are without accommodations for their dates, thanks to a man who isn't well-versed in business ethics but well-learned in turning a fast buck. Seems to be a disease this week.

JAMES HEAD NEW ALUMNI PRESIDENT

(Continued from Page 1)
obtained a position as head of the Engineering Offices of the Cerro De Pasco Copper Corporation in Cerro De Pasco, Peru. In 1923, the Chile Exploration Company of Chuquicamata, Chile employed him as a mining engineer to direct their mining program. He was transferred to New York in 1929, and became a member of the Staff of the Vice-President in charge of Operations.

Then in 1942, the government again received his services. As Chief in charge of raw materials and primary production in the Aluminum and Magnesium Division, he worked on a \$1.00 a year status for the War Production Board.

Since 1945, he has assumed the position as Resident Engineer for the Mining and Exploration Department of the Anaconda Copper Mining Company in New York. His responsibilities entail him to supply the answers to problems concerning mine operations, and exploration projects.

Along with holding down his present position, Mr. Head is active in many engineering organizations. He is a Director of the American Institute of Mining and Metallurgical Engineers, Vice-president of the Mining and Metallurgical Society of America, the Chairman of Board of the Engineering Societies Library and a member of Engineers' Joint Council. Recently he has accepted chairmanship of the metals group of the Greater New

York Campaign for the Arthritis and Rheumatism Foundation. This is a particular interest of Mr. Head's because for more than 21 years he has watched a member of his immediate family become increasingly incapacitated with rheumatoid arthritis. This condition has now been relieved by the new miracle drug, Cortisone.

The student body wishes to take this opportunity to extend their congratulations to Mr. Head, and cordially welcomes him to our "Homecoming" celebrations this week end in Rolla.

Miner Juggernaut Rolls Over Kirksville Tchrs 47-7

by Ross Crow

The Missouri Miners rode roughshod over a hapless Kirksville State football team last Saturday at Jackling Field, 47-7. The Miners scored at will and had two scores called back in racking up their third conference win and fifth victory for the season. Only the SMS Bears, who play here tomorrow, and the Cape Girardeau Indians stand in the way of a second straight conference title for Gale Bullman's griders. Again, as in games before, it was quarterback Alden Williams doing a fine job as he directed the offense and threw two touchdown passes, and directly set up another one. Ed Kwadas caught one touchdown pass and scored another, as did Gene Huffman. Bill Wohlert, playing offense and defense with Don Dowling out, also scored two touchdowns. Coach Bullman had the bench cleared in the last quarter, when reserve back Tom Koederitz scored the last touchdown. Wohlert made five out of six placements, and Williams missed the last one. Bob Proctor and Dick Hampel shone on pass defense, Proctor making several nice runbacks on pass interceptions and punt returns as did Hampel. Other interesting sights were the punts of Bill Koedding who just started kicking recently. The important Kirksville eleven never got beyond their own 35 against the Miner reserves in the last quarter which speaks well for the future. Statistics showed the Miners rolled up 232 yards rushing and 100 passing as against 79 rushing and 113 passing for Kirksville. Several penalties against both teams for unnecessary roughness, clipping, and personal fouls brought the wrath of the fans down on the officials. The Miners were penalized 110 yards and Kirksville, 40 yards. The officials' plight wasn't helped when they called touchdown runs by Huffman and Proctor back for stepping out of bounds. The Miner rooters insisted that they didn't step out, as did this writer, too, especially on Proctor's run. Only a sparse crowd of Miner rooters along with a few from Kirksville watched the Miners in their defense of the conference title. Play by quarters follows:

First Quarter

Wohlert kicked into the end zone and after Kirksville could not advance, they kicked to Dick Hampel on the Miner 40, who ran it back to our 49. The Miner offense couldn't get rolling, and Koedding kicked beautifully out of bounds on Kirksville's own 6. Kirksville quick kicked to Hampel who ran it to the Kirksville 35. After Kwadas went through the line for 7, Williams passed to Huffman who was alone in the end zone. Wohlert's kick was good and the Miner's led 7-0. Kirksville ran the kick-off to their 19 and on the very first play, end Buddy Morris recovered a fumble on the 11. After a series of line plays, it was 4th and 1. Williams then faded back to pass, was trapped, started to run, and finally threw a nice jump pass to Kwadas, who was standing in the end zone. Wohlert's kick was wide and after three minutes of the quarter, the Miner's led 13-0. After punt exchanges, Hampel again intercepted a pass on the Miner 46 and carried it back to Kirksville's 24. After Huffman went through the middle for 9, Kwadas went around right end wide for the Miner's third touchdown. The kick was good and the scoreboard read 20-0. The kick-off went to the 10 and was carried back to the 28 by Dowell. After Bender threw one incomplete pass, he was smeared behind the line by Ulz and Wilson for a 13 yard loss. Then Proctor intercepted a pass and carried back to the Kirksville's 48 as the quarter ended.

Second Quarter

After an incomplete pass, Koedding kicked to the Kirksville

Starting Lineup:

Miners		Kirksville
Morris	LE	Hochstedler
Beverage	LT	Westfall
Anderson	LG	Jarret
Schoepfle	C	Holmes
Wilson	RG	Wisley
Vanfossin	RT	Schwartzvaber
Smith	RE	Lawrence
Hampel	QB	Bender
Proctor	LHB	Buntun
Moeller	RHB	Dowell
Wohlert	FB	Ranson

Miner Substitutions:

Smith, Williams, Kwadas, Jones, Bullman, Matson, Koedding, Bennett, Moscar, Jehlen, Teitjens, Blancke, Neil, Kimball, Thurston, Bock, Keeg, Scholl, Stewart, B. Wilson, J. Wilson, Koederitz, Murphy, Huffman, Rucker, Roemer, Smith, Ulz, Weinel, Matteson, Ruppert, Theiss, Akers, Weitzel.

Scoring: Miner Touchdowns: Huffman, 2; Kwadas, 2; Wohlert, 2; Koederitz, PAT., Wohlert, 5. Kirksville Touchdowns: Albrecht, PAT., Albrecht.

Statistics:

Miners	Kirksville
Total yds. rushing	232 79
Total yds. passing	190 113
Passes attempted	25 30
Passes completed	13 10
First Downs	12 8
Penalties	110 40

35. On the next play, Bender connected with a pass, but Koedding literally grabbed the ball from the pass receiver's hands. It was 1 and 25, though, for the Miners, as they were penalized 15 for holding. A beautiful screen play with a pass to Wohlert on the 30 was nullified because of an ineligible pass receiver down field. Koedding kicked to the 25 and on the runback Kirksville fumbled on the 38, the Miners recovering. Williams then threw a pass straight into the arms of Kelly, Kirksville line-backer, who made it to his own 47. A pass was good to Reh, but a 20 yard penalty put the ball on the Miner 36. Proctor intercepted and went to the Kirksville 49, only to have it called back on a clipping penalty. After an exchange of punts, Kirksville started moving with a pass from Frazier to Hochstedler on the Miner 30. Henner went through the line to the 18, and after Dowell picked up 6, Albrecht went over from the 12 for a touchdown. The placement by Albrecht was good, and the score was 20-7 with six minutes of the half remaining. Holmes kicked to Huffman on the 10, and he moved it up to the 27. Williams hit Jones on the Miner 40 for a first down. Then after a pass to Teitjens put the ball on the 47, two incomplete passes forced the Miner's to kick. A clipping penalty on the play gave the ball to the Miner's on the Kirksville 30. Kwadas carried to the 20 for another first down, Huffman and Wohlert picked up 3 through the line and then Bullman, in for Williams, passed to Huffman on the 6. Kwadas carried to the 2, and Wohlert went over from there on a line buck. Wohlert's kick was good and the score was 27-7. The kick went to the 15 and was advanced to the 32. Frazier made it to his own 42 as the half ended.

Third Quarter

Huffman caught the kickoff on the 10 and went all the way for a touchdown, but the officials claimed he stepped out on the Miner 46. Tempers were short, and after a 20 yard penalty on a personal foul, and an incomplete pass, Koedding kicked out of bounds on the Kirksville 30. After an incomplete pass, Beverage threw Bender for a 12 yard loss. Kirksville then kicked out of bounds on the Miner 43. Williams threw a long pass to Huffman on the Kirksville 15, and somehow, Huffman got away from his tacklers and went across the goal line. Wohlert's kick was again good and the Miner's led 34-7. The kick was returned to the 29, and in three plays, Henner, who is only 19, had a first down. A pass was good to Law-

MINER - KIRKSVILLE GAME

Miners stopped short of the goal line on this play in the fourth quarter. The march ended with the final tally against Kirksville to make the game a rout 47-7.

rence on the 50, but then the Kirksville offense bogged down and, as it turned out, never got started again as they kicked to Hampel, downed on the Miner 37. After Kwadas made 4, Teitjens caught a pass on Kirksville's 46, and drug tacklers to the 36. Wohlert then skirted left end to the 10. On the next play, the same Wohlert went around right end for a touchdown. His kick was good. Score, 41-7. Kirksville was stymied then by constant pass interceptions as the teams exchanged punts. By now, Coach Bullman had his defensive backs on offense and a new defensive team altogether. Moeller, an 18 year old freshman, picked up 9 around left end, and Proctor made it a first down. Jack Theiss was hurt, and Ulz replaced him.

Fourth Quarter

A pass from Bullman went to Teitjens on the Kirksville 45. Proctor and Koedding combined to take the ball to the 11 in three plays. Proctor went around right

end into the end zone but again Eddie Davidson claimed he stepped out on the 7. A Bullman pass was intercepted on the 7, but an off sides on Kirksville moved the ball down to their own 2. Barton made it to the 10 and a pass to Hochstedler put the ball on the 15. Here they kicked and Proctor made a nice 35 yard return to the Kirksville 25. Koedding made 4 and Proctor went down to the 6 and was hurt on the play. Kirksville was penalized 15 for unnecessary roughness and the ball was on the goal line. Bill Koederitz plunged over for the final score. Williams tried his luck at placement but the kick was short. Miners lead, 47-7. Miners reserves dotted the field now and kept the ball deep in Kirksville territory but couldn't push over. Smith, a 155 pound Miner freshman, made a sparkling kick return from his own 32 to the 18 for 50 yards. The game ended with Kirksville still trying to get going from their own 30.

SPORTS FLASHBACKS

By MARK

THIRTY YEARS AGO—

Rolla, Mo., Oct. 30, 1920—Outweighed 15 pounds per man and minus four regulars, the Miners held the Arkansas Razorbacks to two touchdowns, one in the first quarter and one in the fourth. The defense on both sides was outstanding. The Miners were held three times on the Arkansas goal line.

Twenty Years Ago—Aerial attack wins third in row for Miner eleven as they ran rough shod over Missouri Valley, 38-7.

Fifteen Years Ago—Springfield Bears nose out Miners, 7-2, as they scored an upset over favored Miner eleven.

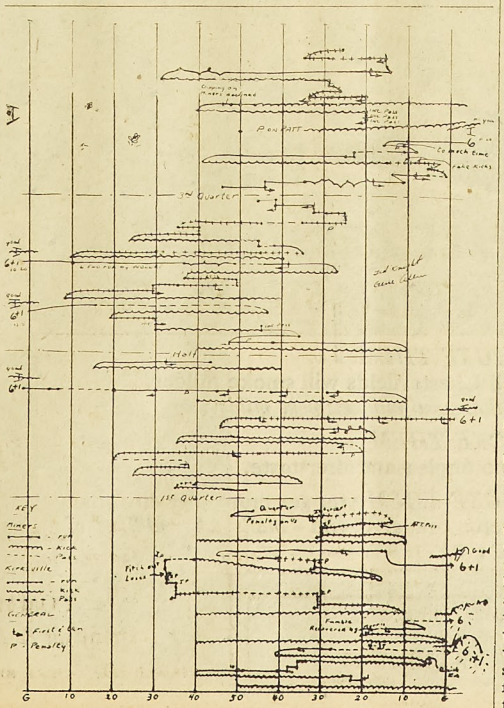

Ten Years Ago—Warrensburg kick helps in

beating Miners 7-6, in a see-saw battle to take lead in the M.I.A.A.

One Year Ago—Miners roll over Warrensburg Mules as they rout them by the score, 31-0.

FLASH:

The Miners first gained recognition as a football power west of the Mississippi with the 1904 football team. That year they won the state football intercollegiate championship by defeating Christian Brothers College, 54 to nothing. The team tied Vanderbilt and Drury, lost only to Missouri U. and Kirksville Osteopaths, and wound up the season by a smashing 54 to nothing victory over the University of Arkansas.

Intramural Sports

The Intramural Table Tennis champions for the year 1950-51 are: John Evans in the single's division, Ed Calcaterra and Dick Bosse in the doubles bracket. Evans, last year's champ, represented Kappa Sig while Calcaterra and Bosse composed Theta Kappa Phi's entry. Runnersup in the double elimination tournament were John Weber of Gamma Delta in the singles with Bill Vose and John Ellis of the TEKE's taking second in the doubles.

Intramural Basketball gets into full swing Monday. This year a new system will be used, there will be two 10 team leagues and each team will play 9 games. At the end of the season the two top teams in each league will vie for the winner's crown. Pi K. A. and Sigma Nu, last year's winners and runnersup respectively, with most of their same men returning will make it a good race for other competing teams.

The brackets are divided as follows:

Natl. League	American League
Sigma Nu	Sig Ep
Wesley	Sigma Pi
Theta Kappa Phi	Tech Club
Lambda Chi	A. E. Pi
Engineer Club	Theta Xi
North Dorm	Tau Kappa Epsilon
Fresh-Sophomore	Pi. K. A.
Gamma Delta	South Dorm
Kappa Sig	Junior-Senior
Kappa Alpha	Triangle

Army - Notre Dame Feud Continues After Grid Relations Cease

By Mario Trieste

The rivalry to top all rivalries is still being waged between the two most publicized schools of the nation. Relations between Notre Dame and Army on the football field ended in 1947, but the rivalry between them still carries on. This rivalry is imbued in its coaches and currently Earl Blaik maneuvers his Black Knights while Frank Leahy leads the Irish. Since their first meeting back in the Knute Rockne era the feud has transcended down to its present day rivalry. Although they no longer face each other on the gridiron the weekly competition for top rating is still evident.

Notre Dame has been selected the top team of the nation so consistently for the past three years, it appeared as if they had permanent possession. But this young 1950 season has already seen the stunning descent of Notre Dame from its mythical height. Purdue steamrolled over the Irish and Indiana last week emphasized the waning power of South Bend. It is only natural now for Army to take the seat of football power. Oddly enough, Stu Holcomb, coach of Purdue, was an assistant to Blaik.

After Leahy arrived at South Bend in 1941 he enjoyed three successive national championships. Meanwhile, Blaik walked into the job of moulding a winning team out of one which had lost six games the previous season. During the time Leahy was in service, Blaik celebrated his most successful years. Blessed with "Mr. Inside" and Mr. Outside", Blanchard and Davis respectively, Army rose to its greatest gridiron fame. These will be the years long remembered, when Army beat Notre Dame 59-0 in 1944, and 48-0 in 1945.

But the first year Leahy returned from the service he served notice on Army that Notre Dame's lean years were behind them. The teams battled to a scoreless tie and Notre Dame was selected as the top team of the nation. Although tied, Army was still running its winning streak to thirty-two games before the Columbia Lions tripped them. In their farewell game the

BEARS PRIME FOR THE MINER HOMECOMING

Once again the Miners meet the Springfield Bears in their Homecoming appearance. This year finds the Miners out after their fourth consecutive conference victory and their second consecutive M. I. A. A. Championship. Tomorrow's game will in all probability find the Conference Championship going to the victor. The Miners now lead the conference with three wins and no losses. While the Bears are in second place with one win and one tie. The Springfield Bears opened their season by dropping a hard fought game to Conway 21-13. They bounced back to beat Northeast Oklahoma State 13-7 and then took Pittsburg Teachers 20-7. Following the Pittsburg game the Bears had to come from behind late in the game to tie the Kirksville Bulldogs 19-19. The next contest found the Bears playing host to the Maryville Bearcats and trouncing them 41-13. In their last outing the Bears were humbled by a powerful Delta eleven, 47-7, from Cleveland, Mississippi. These scores show the Bears to have a potentially great offensive team but their defense is rather doubtful.

The Bear's offense consists of three major formations. The one they use the most is the Spread Wing. In this formation the Bears use a balanced line which is spread in a manner similar to that used in the Faurot or Split "T". The backfield is lined up in a formation similar to that of a Single Wing and runs Single Wing plays off of this line up. The Bears use Bogey Harrison in the tailback spot in this formation and throw quite a few passes. Another formation the Bears use is the increasingly popular Split "T". The Miners have faced this style of offense all season long and should have no trouble in analyzing it. A third style of offense the Bears use is the Short Punt or Notre Dame Box. In all of these formations the Bears place Bogey Harrison in a position where he can pass the ball. Harrison is probably the best passer in the conference and undoubtedly the best the Miners will face all season. No matter how good a pass-

Fighting Irish scored a decisive 27-0 victory, and that has been the last time Army has been beaten to date. Even though Army has been tied only once in the past two seasons, Notre Dame has still outranked them.

Now that Leahy's boys have been knocked off their high perch by two teams and the season isn't over yet, Army is back at the top again. Displaying power, depth, and speed especially against a strong Michigan team, the Black Knights are headed for another national championship. Coach Blaik must be bitter at the thought of not having Notre Dame scheduled when he has such an array of talent to display. But the past records for these two great coaches speak for themselves. In his eight years at Notre Dame, Leahy has been beaten only four times. The Black and Gold on the Hudson have tasted defeat only twice under the guiding hand of Earl Blaik. How can there be any choice between the two unless

they are matched each year? er a quarterback is his success depend upon a good pass catching end. In Brown the Bears have a big, tall, aggressive end who possess the uncanny ability to shake loose from the tightest pass defense and be in the clear to receive passes. Although the Bears are predominately a passing team they have several good backs. Leading the ground attack for the Bears is Lees at left half. Lees is back from last years team and is always a threat when he has the ball. Rounding out the Bears backfield are Holden and Batten. Holden is a very good halfback but just not in Lees class. In Batten the Bears have a big powerful fullback whose driving charges remind the writer of Jim McGrath's slants. Any offense can and does bog down at times during a game. The Bears have a man who can pull them out of trouble by kicking the ball a country mile. This man is Holden.

On the defense the Bears are short of material and are forced to use a major per-cent of their offensive team. They have two good men on the line in Iatarola and Dees and have two excellent line backers in May and Mullins. Their pass defense is rather weak at times. On the whole the Bears defense is not to strong and they rely on their offense to win their games for them.

Now let us look at both teams and try and make some sort of a comparison. The Bears have won three, lost two and tied one in their season play; while the Miners have won five and lost one in their seasons play. The only loss the Miners suffered came at the hands of the powerful eleven from Murry (Ky.) State. Incidentally Murry State is one of the few remaining unbeaten untied teams in the country. Over the season the Bears have scored 113 points while their opponents have scored 115 points. The Miners have scored 153 points to their opponents 67. Now let us narrow this comparison down to conference play. The Bears have scored 60 points in two games and allowed 33 to be scored against them. The Miners have played three games and scored 97 points to 20 against them. The Bears to tie Kirksville had to come from behind while the Miners romped over them 47-7. The Miners playing in the mud beat Maryville 14-0 while Springfield playing on a good field trounced them 41-7. The Bears scored five out of their seven touchdowns on passes while the Miners scored both of theirs on the ground. The mud kept the Miner air attack stopped, but Springfield had full use of theirs. Another chance to compare the Bears and the Miners came when they both met Pittsburg. The Miners won 26-7 while the Bears won 20-7. This is probably about the true comparison. There is another factor to consider. That is the rivalry between the two schools. This rivalry makes up for any difference in the two teams and put them on an even basis. The winner of tomorrow's game will be the team that fights the hardest and makes use of every scoring opportunity.

put up by the various social fraternities will be judged, and the prize awarded at the football game.

Saturday, from 12:30 p.m. to 2:30 p.m., the St. Louis Section of the Alumni Association will be hosts at a cocktail party at the Pennant Hotel.

Bears vs. Miners

Kick-off time for the Miner-Southwest Missouri State College is scheduled for 2:30 p.m. at Jackling Field. The annual intra-mural cross-country race will be run between the halves. A special section will be reserved for the Alumni and their guests.

Saturday night the annual Homecoming Dance, sponsored by the St. Pat's Board, will be held in Jackling Gymnasium. Glenn Richards and his orchestra will furnish the music for the evening. Tickets are \$1.50, stag or drag.

Both Friday and Saturday nights most of the social fraternities on the campus will hold open house.

The Faculty Homecoming Committee is composed of Leon Hershkowitz '41, chairman; D. R. Cox; E. K. Schuman '20; H. F. Thompson '32; C. F. Thorpe

Alumni Hobble Home

(Continued from Page 1)

the day was officially begun with the meeting of the Board of Directors, which is to be followed by an informal dinner at the Pennant tonight. Tomorrow, all alumnae are to meet and register in the lobby of Parker Hall before attending the annual Homecoming Convocation to be held at eleven o'clock. Dr. Howard I. Young, president of American Zinc, Lead and Smelting Co. of St. Louis will deliver the convocation address on the subject of "Our Mineral Industries." All Juniors and Seniors are invited and urged to attend this convocation, as Dr. Young is an outstanding authority in the field of mineral economics.

The St. Louis section of the association has engaged an entire floor of the Edwin Long Hotel for a noon-hour get-together of the Alumnae. All these preparations are to be climaxed, of course, by the Miner-Springfield game in the afternoon, and the campus activities in the evening.

'35; D. F. Walsh '23. The members of the Alumni Homecoming Committee are: A. E. Barnard '27, chairman; W. A. Baumstark '40; M. E. Nickel '38; J. E. Scally '31; R. M. White '26.

BEER BUST AND SMOKER ACQUAINTS THETA TAU TO POSSIBLE PLEDGES

Theta Tau held its smoker, Thursday, Oct. 19, for prospective members of the fall pledge class. Very interesting talks were given by Dean Williams and Dr. Schlechten. Dean Williams spoke to the group on Theta Tau at the Missouri School of Mines, and Dr. Schlechten on Theta Tau in general. Refreshments were served with them becoming acquainted with one another.

Further acquaintance was stimulated by a beer bust at the clay pits Saturday evening.

This fall's prospective pledges are a very promising group of men.

- peeking at the past -

Rolla, Mo., Oct. 26, 1940—The Missouri Miner ended its editorial campaign for Wilkie today at the request of the Miner-Rolla-mo Board of Control.

Basing its stand on a ten percent poll of the student body, which was overwhelmingly in favor of Wilkie, the Miner announced its intention to support Wilkie for president.

Much indignation and com-

plaint was aroused among both students and faculty against this stand. One group of students, not believing the Miner poll was a true indication of student opinion, conducted another of their own. A number wrote letters of complaint to the Miner.

When interviewed by Miner Reporters of his opinion on the matter, glum-faced editor Finley said sourly, "I ain't talkin'."

They were sitting in the park-car. For a long time neither one spoke a word. Finally the girl asked, "What are you thinking about?"

"The same thing you are," replied the boy, whereas she promptly slapped his face.

"Chicken, chicken, chicken," I get awful tired of chicken all the time," complained the rooster.

During the wedding, the bride knows she isn't marrying the best man; after it, she's certain.
