# THE MISSOURI MINER

Missouri School of  Mines & Metallurgy

VOLUME 37

ROLLA, MO., FRIDAY, MAY 4, 1951

NUMBER 26

## C. E. Engineering Graduates Engaged in Many Different Fields

### Basic Groundwork Offered in All Fields To Civil Graduates

From oil fields to city skyscrapers, from South America to South Bend, Civil Department graduates of the Missouri School of Mines are filling positions as different and varied as the scope of engineering itself.

Since the first Civil graduated in 1874 in a class of three — through the record class of 142 in 1950 — a total of 855 civil engineers have received their first degrees at the School of Mines. Although complete information isn't available on all the graduates, a spot check of the alumni files bears out the reputation of civil Engineering as the broadest in scope of any of the engineering professions.

#### Wide Job Distribution

Following is a breakdown of the job distribution on the 171 members of the classes 1937 to 1947 inclusive for whom employment data is available:

- 58 in Corporation Employment
- 24 in Miscellaneous Engineering and Production
- 14 in Petroleum Engineering
- 8 in Railroad Engineering
- 7 in Aeronautical Engineering
- 5 as Sales Engineers
- 50 Engineering, Construction, Structural Engineering and Consulting.
- 17 Engineers, Superintendents and contractors on construction
- 17 with Consulting Engineers
- 16 in Structural Engineering and Design
- 55 in Public Service Engineering
- 15 in Hydraulic Engineering
- 14 in Highway Engineering
- 10 in Surveying and Mapping
- 7 in Sanitary and Public Health Engineering.
- 5 in Engineering Teaching
- 4 officers in the Armed Forces
- 8 in work of a non-engineering nature.

#### Thorough Groundwork

To train these versatile graduates the C. E. Department offers (Continued on Page 4)

## Triangle Paid Visit By Field Secretary

This past week saw the boys at the "Ole Rock House" getting the house in ship shape. There were two reasons for the mass cleaning job which was done at the house. The first reason was that Bro. Neubauer, Triangles Field Secretary, paid us a visit over the weekend and the second reason was the dance coming up this coming weekend. We were very glad to see Bro. Neubauer. The constructive criticisms which he made were appreciated very much.

Everyone in the house is preparing for the dance this coming weekend. One thing that we are glad to see is that everybody has a date coming down for the dance. The Social Committee has come up with a very novel idea for the dance Saturday night. This novel idea is that everybody in the house bring a record as their price of admission and also come dressed in a manner which will best portray the title of the record. We are eagerly waiting to if anybody's girl is going to come dressed as, "She Wore A Yellow Ribbon."

With the Intramural Track Meet just around the corner the guys here at the house are really getting ready in earnest for this event. There will be many new faces on this years squad due to the fact that we lost four of our best men to the Miner Track Team.

Arlo Heiland is still going great guns in the Horse Shoe Tournament. He still hasn't lost a game yet. Dave Meskan and Glen Hook are still in the running in the Tennis Tournament. Keep up the good work men and we should come out pretty good in the final standings.

## INDEPENDENT'S MACHINE WELL OILED; 3 ELECTED TO STUD. COUN. OFFICES

Last Tuesday night, under the capable leadership of the retiring president, Walter Pearson, the election of officers for the coming school year took place. The election results were predominantly Independent.

The men elected for office were: President: Joseph Varanouskas, Seniors; Vice-President: Harry Willis, Juniors; Secretary: Leland Beverage, Sigma Pi; Treasurer: Bill Patterson, Juniors.

The last official duty of the retiring council will be that of giving the new man a banquet at the Houston House on May 2.

The new men are not inexperienced at Council Work. When Student Council elections are held in each of the various organizations on the campus, the man subsequently elected is designated an alternate. As alternate, he will go to meetings during that school year and get a general idea of how business is run at the Council. When the incumbent moves out, the alternate moves up to the position of official Council member, and another alternate is elected for that year. That way members gain an insight on the workings of the Council before taking office.

Don't forget, guys, if you have a legitimate gripe about how the way things are run around here, we'd certainly like to hear from you. Contact your representative in the Council. Who knows, we might be able to get something done about it.

I for one am in favor of having the Snack Bar open at 8:30 instead of 10:00. How about you?

## Wedding Bells Ring Again at Kappa Sig

Last weekend most of the fellows around the house saw brother Jack Koch take the big dive into marriage. The wedding was followed by a large reception which everyone seemed to enjoy. All the fellows are getting ready for our annual Sweetheart Dance which will be held this weekend. As usual Bob Jones is bringing his date down from the Krey Packing Company. Bob is also working on the committee for bigger and better green driveways. I believe we are the only fraternity on the campus to have someone going for three degrees. This outstanding student is Bob "Inspector General" Hirsch. Bob started out just going for a degree in Electrical Eng., but then when our illustrious G.M. Jim "Little Mussolini" Spinello went into the hospital with the mumps Bob started a little field work for his C.E. degree. Bob's recent undertaking is his Law degree. Besides all this Bob has decided to work out a new radio program. The stars of the show are: Bob Hirsch as Mr. D. A.; Dan Devaney as Harrington and Ted Ruppert as Miss Miller.

On the sports side this week I would like to tell a little bit about the background of one of our star football players, namely; Chuck "Sore Arm" Anderson. Chuck was born in the village of Beaverville, Missouri at a very young age. Chuck grew up like most young beavers with the only exception that he developed in the wrong places. At the age of six Chuck developed a certain liking for idiozed foods. This little habit is something he never quite got over. At a later age Chuckie visited Mexico, where he bought interest in a Mexican hot tamale. Up to this very day he is still in a south of the border daze. Some late news is that Bobbie Jones just broke another record. "Sports" record that is. Any resemblance to persons living or dead in this article is purely coincidental.

## Collegian Urged to Rush Application for Draft Deferment Quiz

College students were urged to apply immediately for the aptitude test which will serve as a means of determining draft deferments for students. The plea came in a statement today by Elmer P. Brock, vice-president of the U. S. National Student Association, an organization which represents over 800,000 American college students.

Brock said he felt many students were under the impression the tests have been cancelled or have been made meaningless by a Congressional amendment to the draft bill stating the local draft boards are not bound by the results of the tests in granting deferments.

"It was understood beforehand that the ultimate decision as to whether a students should or should not be drafted rests with his local draft board," Brock said. The amendment does not in any way modify the original plans for the aptitude tests, he said.

Brock, 4-year veteran of World War II, said it is important that students cooperate in the deferment plan because of the need to maintain a continued flow of college-trained personnel in any long range global struggle.

He said that according to information received at the National Student Association headquarters, no student taking the test will be drafted until his test score and scholastic rating has been determined.

Students should keep in mind the plan does not exempt them from ultimate military service but provides them with the opportunity of pursuing their education during the next academic year, Brock pointed out. The student "has everything to gain and nothing to lose" by taking the test, he emphasized.

Under an order issued by President Truman students who score 70 or higher or who are in the upper ranks scholastically may receive an occupational deferment in order to continue their education. The test will be given at testing centers throughout the nation May 26, June 16, and June 30.

"While no provisions have been made by Congress for the deferment and education of qualified students who can not afford to attend college, such a plan must, necessarily, be worked out in the future," Brock said. "At the present time, the primary objective of the aptitude test is to insure that top students now in college will be able to continue their education."

## KERAMOS HOLD SEMI-ANNUAL INITIATION NEW OFFICERS ELECTED

Thursday, April 19, at 4:30 p.m., the Spring pledge class was initiated into Keramos, the National Professional Ceramic Engineering Fraternity. Those initiated were John R. Ford, Jerry D. Plunkett, Emil C. Hrbacek, Everett G. Stevens, Samuel J. Schneider, Helio P. Guimaraes, and Chester A. Rachwal.

After the initiation ceremony, a short business meeting was held. President Stan Niemczura was elected to represent the chapter at the convention of the American Ceramic Society, currently being held in Chicago. The group then travelled to the Houston House, where a chicken dinner was the center of attraction. Emil Hrbacek read his prize-winning theme on "Why I chose Ceramics."

The Missouri School of Mines Ceramic Honorary Club was organized in April 1947 with the prime objective being to petition Keramos, the National Professional Ceramic Engineering Fraternity, for a chapter. The peti-

## New Officers Elected By Engineers Club

At the last meeting of the Engineer's Club new officers were elected for the coming year. The new officers are:

President, Wayne Hahne; Sec'y-Treasurer, Eldwood Knobbe; Bus. Manager, Albin Charneski; Board of Control, Joe Reynolds, Ralph Carl, Parker Bennett, Ronald Davis.

As a departing gesture last years Bus. Manager, Bill Bowlin, served T-bone steaks with all the trimmings.

The Club's annual outing and Beer Bust took place last Friday. Much of the well known amber fluid freely to the enjoyment of all who attended. Though many preferred the liquid diet there was food galore for those who wished to put a sound bottom under said liquid. Highlight of the afternoon was a game of Indian Softball. This brand of game was played since it allowed more time for the enjoyment of the beer and required the least work since there was no base running. After watching the hitting and fielding displayed it was thought that a keg of beer on the field might have helped our intramural softball team. An idea for next year. Landsman Sweeny gave an exhibition of the very ultimate of ballet dancing while chug-a-luging. A very difficult feat ???

The Engineer's Club will be open to all students and professors during the summer session. Both independent and fraternity men will be accepted for this summer. This is your chance to beat the high cost of living. Leave your name at the Office of the Assistant Dean if you are interested and you will be notified when the Club will open. There will also be openings in the Club for next fall. Interested persons should see any member and fill out an application blank. Your money goes further in the Engineer's Club.

Theta Kaps — Tekes Enjoy Rare Beer Bust

Spring is here, the time when a young man's fancy turns to getting a hotel reservation for his Spring Formal date. The young men to whom spring has come but lately are finding it a pretty long walk from 707 State to Colonial Village.

Wednesday afternoon Bob (the Fist) Schafer won the intramural tennis singles championship by beating Bill Wohler of Engineers' Club. Don Meiners and John Bruskotter took fourth in the doubles. This week is "work week" in intramural sports for the House of Mu. Connie Buessmeier took fifth in horseshoes singles. Don Meiners and Eddie Gegg are still advancing in doubles. The softball team with timely hitting behind the pitching of John Bruskotter beat Triangle Monday and Tech Club Wednesday after being rained out Tuesday. Dick Bosse and Don Meiners are battling over 400 and Eddie Gegg and Leo Cardetti are over 300. With track yesterday and today and golf tomorrow, the house that wins the All-Sports trophy will have the tiredest bunch of men on the campus.

Last Friday and Saturday a bunch of the boys had a happy time painting the chapter room and dining room walls and each other a bright new color. Brothers Stegemeier, Calcaterra, and Menke looked very chic in pale green. Bolger didn't.

The beer bust with Tekes Saturday afternoon, evening, and night was a roaring success. Many a remarkable feat was performed in the twilight softball game which was marked by numerous criminal decisions by a series of loud-mouthed umpires.

Fate growled at us last week — two members are attacked by intestinal troubles; a third has received greetings from Uncle Samuel. Oh well, we can't have this warm weather and unassailable fortune, too!

tion was approved by the Executive Council and the active chapters of Keramos in May 1947 and the local chapter was installed on July 26, 1947 as the eighth chapter of the fraternity.

## MSM Players Final Show This Year Opens Tonight

### Int'l Fellowship to Elect New Officers At Tonite's Meeting

The International Fellowship will hold its election of officers for the fall semester at their regular meeting tonight at 7:00. After the election several movies will be shown. "Invitation to the Nation" presents scenes of Washington D. C. and historic American shines in nearby Virginia. "Brazil" features a tour of beautiful Rio de Janeiro and various towns and the shores of the Amazon. Chimp the Chimpanzee takes a comical trip to Florida in the last movie.

Refreshments will be served to complete the meeting. The Fellowship's regular meeting place is Room 300, Harris Hall. All interested persons are invited to attend.

### Down With the Mayor Say's Eric As Sigma Nu's Enjoy Big Party

The Sigma Nu House once more echoed to the gay and care-free laughter of happy and slightly inebriated fellows with their dates. Friday night was not quite what it should have been. Perhaps one of the reasons was that Bill "Bootlegger" Hallett didn't arrive with the hooch until about eleven. By that time everyone who had dates had reconciled himself to that fact and had settled down to an evening of lovin'. Poor fellows, what an awful poor substitution. Saturday afternoon, after everyone had allowed their heads to shrink to normal size, we all went on a picnic on the Meramec River. What bliss, just to lie out in the sun, with refreshments on one side and a girl on the other. As Omar the Arab put it - "A jug of wine, a loaf of bread and Thou beside me singing in the Wilderness..."

Some of the fellows just had the loaf of bread and jug of wine. Figuratively speaking that is. Some of the more hardy souls went in swimming. They said that wasn't bad, but it is to be wondered as to whether they are that peculiar blue color all the time.

Those that had gone to the picnic came back to the house just in time to start paying again. What an odd coincidence! This time, was our annual Kiddies party. Everyone had the chance to revert back to their happy child hood days and every one came dressed as a child. On some it looked natural, on others, well sometimes nothing helps. One fellow commented that he wouldn't have minded carrying some of the girls' books home for them. He would have had a long walk. Another fellow admitted that there were some wonderfully developed girls there, mentally that is.

(Continued to page 2)

## Music Notes

Perhaps the time has come to review the purpose and scope of the music Club. Mr. Forbes, of the Drawing Department, is our faculty advisor. Our members meet each Sunday evening at his house to listen to his large collection of records, and to those brought by other members.

The club imposes no fees or restrictions; all it asks is that you have a genuine interest in serious music. Some fellows bring their homework to these record sessions, and indicate that studying is made easier by an atmosphere of good music.

Fate growled at us last week — two members are attacked by intestinal troubles; a third has received greetings from Uncle Samuel. Oh well, we can't have this warm weather and unassailable fortune, too!

## MSM Cast to present New Comedy Hit

On Fri. and Sat., May 4 and 5, the M.S.M. Players will present George Kelly's smash comedy hit "The Show-Off." Critics consider this one of the finest comedies ever presented on the American stage. This play has no message, no propaganda, no high ideals - it is a slice of life that will appeal to all. It is the story of a Aubrey Piper, Liar, Braggart, Egotist. The fantastic adventures of this unusual hero have amused and fascinated all who have seen this truly enjoyable comedy.

An excellent cast has been hard at work and will be ready to give a top performance by opening nite. Cal Smith will play the hero Aubrey Piper. Cal is well cast for it is seldom that such an amazing character as Aubrey can be so well matched to a human personality — some members of the cast wonder if Cal is really acting. Jo Purnhagen will amaze and amuse you as mother Fisher while Ann Blevens and Phyllis Markos will play the parts of Amy and Clara Fisher.

#### Cast of Characters

Clara ..... Phyllis Markos  
Mrs. Fisher ..... Jo Purnhagen  
Amy ..... Ann Blevens  
Frank Hyland ..... Denvil Tippet  
Mr. Fisher ..... Ed Roster  
Joe ..... Dick Slates  
Aubrey Piper ..... Cal Smith  
Mr. Gill ..... Bill Harper  
Mr. Rogers ..... George Woodcock  
Student activity cards will admit all students free of charge. The fun starts at 8 p.m. in Parker Hall on May 4 and 5.

## TKE Softball Game Becomes Beer Bust

The latest event at the Tekes house was the beer bust with the men from Theta Kap. It seems that some "fools" thought we were going to play a ball game. We did go through the motions of such an event, but that was as close as we came to playing a game. The final unofficial score was up in the three digits while the errors were too many to record. It seems that it is almost impossible to play the game and drink beer at the same time; you either have to do one thing, and guess which one was chosen. The strange part about the game was the number of umpires behind the plate and the startling decisions they released. The game had a very short life and with the interest it showed, I wonder if the game is here to stay. It seems that a few of the boys aren't satisfied with their beds at the house, but found other resting places to retire in.

Now that Spring is here and mans heart turns to various other things besides the duties of school, the boys are providing a little out-let in the form of a barn dance and a outing this week-end. The main portion of the imported females is again arriving from that girls reform school, better known as Stephens College. The girls were very fortunate to obtain their paroles just as are giving our little old "wiener" roast. The announcement of this affair really started things popping, because the guys began receiving those customary "Dear Johns". So many of these notes made their appearance that the receivers had started a club dubbed the Royal Order of the Dear Johns. Since Bill Vose received two of these, sorry my mother is sick, notes, he was elected to bear the honorable title of Sir Purple Shaft.

The members of the house want to thank Walt McLuckie, Percy McCullah, Bud Pohlman, and Dave Whitmer for winning the bridge tournament and providing the house with another treasured trophy for our new case.

## THE MISSOURI MINER

THE MISSOURI MINER is the official publication of the students of the Missouri School of Mines and Metallurgy. It is published at Rolla, Mo., every Friday during the school year. Entered as second class matter February 8, 1945 at the Post Office at Rolla, Mo. under the Act of March 3, 1879.  
Subscription Price 75c per Semester. Single copy 5c (Featuring Activities of Students and Faculty of M. S. M.)

## Letters To The Editor

Sirs:

I never called him "toots," it was always "Prof" — what it should have been. While attending M.S.M. since June 1948 it has been my good fortune to have been taught by some brilliant men — a few of which were indeed outstanding instructors. But of all the instructors who have tried to remove the cloud of nescience that surrounds this student's mind, Professor Schuman stands apart: he is simply the best.

At a time when good instructors are sorely needed to stem the increasing drop of enrollment, some have seen fit to remove the man who could run mathematical circles around every other man in his department; they have removed a man who enjoyed the close and loyal friendship of his students as no other Professor could. He is a man who relishes his work from the onset and struggles tirelessly until the goal of each semester has been achieved: the lucid explanation of mathematics to the delight and satisfaction of all his students.

Humbly stated, this is my sincere

recommenda-tion to the Chairman of the Mathematics Department: reinstate Professor Schuman and beg his pardon for a gross error so that in the years to come students of this era can not look back and say, "Indeed, April 1951 was a time for unpopular men to remove the popular ones."

Yours sincerely,  
Robert H. Schwaig

Dear Sir:

My wife, who works in a school office and who has to pass the football field everyday, has been subjected to some rough language, wolf whistles, and what have you. This always happens when she is walking alone and can do nothing about it. Any other unaccompanied woman gets the same treatment when she has to pass the football field.

I am wondering if the gentlemen of the football and track teams who are guilty would save their smutty sayings, wolf whistles, etc. for their mothers and sisters as we do not need or want them.

A Disgruntled Husband

## MSM Alumnus Picked For AEC Training in Reactor Technology

Bobeman, April — Paul A. Haas, graduate student at Montana State college, has been selected to attend the Atomic Energy Commission's School of Reactor Technology next fall.

One of 39 such students selected from over 400 applications, Haas will begin work at Oak Ridge, Tenn., in September. At present he is a research fellow in the Chemical Engineering department at Montana State and will receive his master's degree in June in that field.

Haas, whose home town is Rolla, Mo., received his bachelor's degree in Chemical Engineering from Missouri School of Mines in June, 1950.

## ELEVEN SCHOLARSHIPS MADE AVAILABLE BY FOUNDRY FOUNDATION

The Foundry Education Foundation has made available for the Fall and Spring Semesters of 1951-1952 at Missouri School of Mines ten undergraduate scholarships and one graduate fellowship. Students applying for such scholarships agree to give serious consideration to entering the foundry as a career (upon graduation). Among the items considered by the committee in charge of awarding these scholarships are scholastic standing, interest in foundry, financial need and general campus activities such as membership in professional societies such as the American Foundrymen's Society, sports, etc.

The foundry industry is the fifth largest industry in the United States and at the present time engaged in the production of many items vital to the defense effort.

Letters of application for the above scholarships should be forwarded before April 30, 1951 to Dr. Daniel S. Eppelsheimer, Chairman, F.E.F. Scholarship Committee, Metallurgy Department, Experiment Station Building.

## SIGMA NU PARTY

(Continued from Page 1)

As the evening grew hotter and hotter, (it was rather warm out) some of the less thirsty couples retired to the cool and dark part of the house. A person who just happened to look in, said that it seemed hotter in there than elsewhere. Must have been his imagination. One thing has to be said in favor of dressing as a child, it gives everyone a more delightful sense of freedom to get acquainted. Ah, youth, what carefree days those were.

Eric, our thoroughlybred black mongrel seems to resent his enforced imprisonment. He didn't use to go after people with jaws agape and a gleam in his eyes as he does now. In fact there was a decided lack of a gleam in his eyes. We only hope that Eric doesn't find out where the mayor of this "fare" metropolis lives, Eric might want to add him to his list. Eric is seriously considering going to the courts and demand his rights as set out under the Emancipation Proclamation. Perhaps the mayor might take the oath — "with malice towards none, dogs included, and charity for all."

Judge: "Mm, beating your wife again. Fine is ten dollars and forty cent."  
Defendant: "Do you mind telling what the forty cents is for?"  
Judge: "Amusement tax."

A gold digger is a girl who mines her own business.

free to attend this meeting and perhaps be elected to an office. MSPE is a very worthy organization with a foresight that is unsurpassed. When and if engineers become united 100 per cent, a great goal will have been realized. If you do not see advantages in professionalism or are not sure what it is join the MSPE and find out. See you Tuesday!

## Tulane Student's Are Urged Not to Speed Up Their Programs

New Orleans, La. (I. P.)—Although Tulane University will expand its customary summer session into a full 15-week summer semester, President Rufus C. Harris recently urged students who are not affected by the military services and who do not find it desirable to accelerate their programs not to do so, since experience has shown that year-round programs are not conducive to the best educational progress.

The Summer Semester will consist of two seven and one-half week terms, with classes held six days a week. It was stressed here that this program is regarded as very temporary by the administration and is in no sense designed as a permanent one.

Attention was also called to a recent joint statement by the presidents of seven leading Eastern colleges and universities in

Prof: "I believe you missed my class yesterday."

Student: "Why no, I didn't. Not in the least."

The Miner took his favorite girl friend to attend an open air opera on a beautiful clear and warm summer evening. During the first act, he found it necessary to excuse himself. He asked an usher as to where the mens room might be found.

"Turn to the left and walk down to the big oak tree and there it is."

The Miner did as he was told. In due time he returned to his seat.

"Is the second act over?" he asked his girl.

"You should know," she replied haughtily, "You were it!"

which they said, "Experience has shown that from the point of view of both students and faculty, a forty-eight hour week, three-terms-a-year program is highly unsatisfactory and justifiable only under war conditions."

The institutions taking this stand were Harvard, Brown, Columbia, Massachusetts Institute of Technology, Princeton, Tufts and Yale. Dr. Henry M. Wriston, president of Brown University, said the educational purpose of the announcement was to afford uninterrupted college work for students after they had completed military service.

In making his announcement regarding the accelerated program at Tulane, Dr. Harris said that during this period of national emergency, "it seems desirable that we offer the opportunity for young men to obtain as much college education as possible in the shortest practicable period before they are called to military service. This is being done simply by expanding the summer session to a full semester's work without unnecessarily disrupting the normal academic year which is best suited for the needs of most students."

Miners Win  
Fourth Track Meet

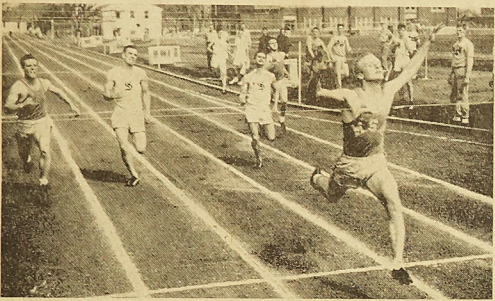

Mario R. Trieste  
Sports Editor

# WINGFOOTS UPSET SPRINGFIELD

## Outcome of Meet Decided by Dead Heat 880 Relay: Totals - 72½ - 63½

Last Saturday the Miner's cindermen performed the almost impossible feat of defeating the Springfield Bears in a dual track meet. This was the first time in nine years that the Silver and Gold was able to emerge from a dual meet with the Bears and walk away bearing the winners wreath. The MSM thin-clads are now beginning to show that winning style which they lacked at the first of the season by proceeding to knock off the various teams that finished ahead of the squad in the In-door meet.

### FRED SMITH BREAKS THE TAPE IN 100 YARD DASH

at Columbia. By defeating the strong Springfield squad, the Miners were able to prove that they are the team to defeat in the Out-door meet at Cape. The team has taken four straight meets now, but their greatest victory occurred last Saturday when they defeated the In-door conference champs by a total of 9 points.

The outcome of the meet was figured to be very close at the beginning, when the 880 yard relay race finished in a dead heat. Al Kent started the race for the Miners, but got off to a poor start when one of the starting blocks slipped. Bob Proctor ran the second leg of the race, but he wasn't able to close the apparent gap and passed the baton on to Johnny Weitzel. John ran a very nice 220 yards and he was able to close the dividing space, but he lost some of the gain on a poor pass to Fred Smith. Fred closed up very fast and was able to break the tape along side of the Bears anchor-man.

Warren Roach tossed the shot over the 40 foot mark to take his usual first place. It is very apparent that he won't be challenged in this event at the Conference meet and is certain of bringing the first place honors to the MSM squad. Tom Brown's tosses have improved and he was beaten out of second place honors by only a few inches.

The distance races proved to be the weak spot in the Miners offense, the cinderment were unable to gain a point in the half-mile, mile, or the two mile. Gene Edwards was ill and was unable to run, thus hurting the squads chances in both the mile and two

Fred Smith had a very busy day by taking the first place honors in both the 100 and the 220 yard dashes. The Miners are very strong in the dashes and this was proven when the team compiled a total of 16 points out of a possible 18. Al Kent took a second in the 100 and 220 and is giving Fred good support in these events.

By taking all three places in the high and low hurdles, the Miners cause was greatly helped. Bob Schuchardt has again proven his worth to the team by tak-

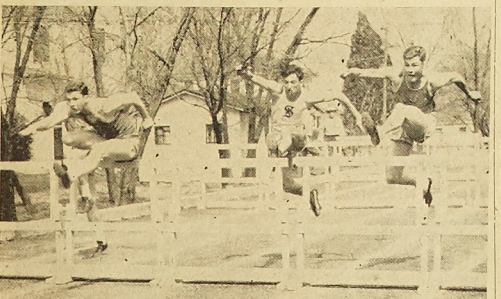

ing first place in the high and low hurdles. Wally Short took a second place in the highs while mile runs.

Gene Huffman proceeded to capture the second place laurels in the lows. The third place position went to Huffman in the highs and to Bob Proctor in the lows. Bill Bayer was handed his first defeat in the 440 yard dash this season, but his defeat was only a few steps from victory as he was nosed out at the tape. Bill is almost certain of placing in the Conference, because he was defeated Saturday by the man who finished first in the In-door meet.

The pole vault ended in a three way tie for first and Walt Smith and Giddens both shared this honor by clearing the bar at the 11 foot mark. The team fared well in the rest of the field by taking a second and third in the discus and broad jump. Bruer gained a tie for first place in the high jump with a leap of 5'7".

The loss of Fred Smith and Bill Bayer in the mile relay hampered the teams drive for victory in this event. The team made a noble try, but they lacked that extra drive that was missing with the loss of these two men.

With their victory Saturday, the team chances in the Out-door meet, in two weeks, seems to have improved. The squad appears strong in the shot, high and low hurdles and in the dashes. The team has improved a great deal since the beginning of the season and it seems apparent that they will make a better showing in the Out-door meet than they did in the In-door meet early in the Spring.

BOB SCHUCHARDT LEADING THE HIGH HURDLES

## GOLF TEAM WINS 4TH STRAIGHT VICTORY 30-0

The Missouri Miners Golf Team breezed to their fourth straight victory last Saturday, paced by Kenny Lanning's 5-under-par 66. Sweeping all 30 points in their match with the Springfield Bears, the Miners took the lead on the first hole and were ahead throughout the whole match.

Shay Huffman had a 73, Jim Hubbard a 74, and Hank Carroll a 76 to complete the Miner scores. Bryon Daughtery was low for Springfield with a 75.

The Box Score:  
Kenny Lanning, MSM, 32-34-66 defeated Byron Daughtery, Springfield 38-37-75 — MSM 6 points.

scoring 1 point each 9 holes, 1 point 18, both match and medal play)

Hank Carroll, MSM, 40-36-76 defeated Richard Bonham, Spfld 44-44-88 — MSM 6 points.

Doubles - Lanning and Carroll, MSM, defeated Daughtery and Bonham, Spfld — MSM 3 points.

Shay Huffman, MSM, 36-37-73 defeated Ralph Harrison, Spfld 45-43-88 — MSM 6 points.

Jim Hubbard, MSM, 38-36-74 defeated Lano Williams, Spfld 43-44-87 — MSM 6 points.

Doubles - Huffman and Hubbard, MSM, defeated Harrison and Williams, Spfld — MSM 3 points.

Total — MSM 30, Spfld. 0.

### Track Meet Results

Shot - Dist. 44' 6½", 1, Roach R; 2 DeShazo S; 3, Brown R.  
Mile Time: 4:39.7, 1, Clarke S; 2, Phillips S; 3, Hickey S.

440 - Time: 52.3, 1, Atkins S; 2, Bayer R; 3, Rehm R.

100 - Time: 10.5, 1, Smith, F. R; 2, Kent R; 3, Brown S.

Pole Vault - Height: 11' 1, Giddens R; Smith, W. R; Williams S.

High Jump - Height: 5' 7" 1, Bruer R; Mall S; 3, Jackson R; Emison R; Giddens R.

H. H. - Time: 15.9, 1, Schuchardt R; 2, Short R; 3, Huffman R.

880 - Time: 2:02, 1, Cook S; 2, Milligan S; 3, Smith, M. S.

220 - Time: 23.1, Smith, F. R; 2, Kent R; 3, Limes S.

Discus - Dist 117' 3" 1, Howell S; 2, Oudenhoven R; 3, O'Brien R.

2 Mile - Time: 10:30.5, 1, Clarke S; 2, Phillips S; 3, Hickey S.

L. H. - Time: 26.0, 1, Schuchardt R; 2, Huffman R; 3, Proctor R.

Mile Relay - Time: 3:31.4 — Springfield - Cook, Williams, Milligan, Atkins.

Rolla - Cole, Rehm, Young, Smith, B.

880 Relay - Time 1:35 — Tie Rolla, Kent, Proctor, Weitzel and Smith, F.

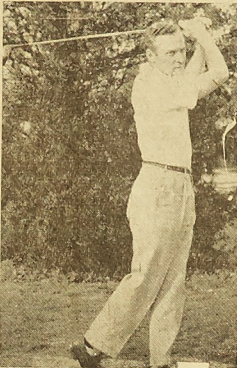

Springfield - Atkins, Powers, Limes and Brown.

Total Results: Miners 72½; Springfield 63½.

Javelin - Dist: 149', 1 Presley, S; 2, Smith, W. R; 3, DeShazo S.

## FAMED ROLLA GOLFER HEADS M.S.M. LINKERS

The biggest asset to the golf team this year is, a new comer to MSM, Ken Lanning, Lanning, a graduate of Rolla High School, has been playing golf since 12 years of age. His first instructions at golf were given to him

### KENNY LANNING

by Coach Bullman, when Lanning was just a little boy caddy-ing at the Rolla golf course.

Ken has won numerous tournaments around the state including the All Ozark Open, Lead Belt, Ozark Hill Championship and Southeast Missouri Tournament. He has also won the Rolla City Tournament the last 3 consecutive years.

Lanning holds the Rolla course record with 29 strokes for 9 holes, and the school record with 61 strokes for 18 holes. With Lanning leading the golf team this year they have a very good chance of winning the MIAA Championship.

Lanning makes his home in Rolla. After serving in the army for three years, he has entered school and is majoring in Civil Engineering. Last year in summer school, he won the intramural golf championship.

## Baseball Failing To Attract New Material

It is generally agreed in baseball circles that in recent years there has been an alarming shortage in young talent for the major league. Too many ball clubs are finding it necessary to use older and less capable men to fill in holes in their lineup. Managers of many major league clubs found the situation the same as it has been for the past decade, in that they were short on young talent and were forced to use "old timers."

Most teams get on the average of two rookies in a year and in most cases only one of these men prove valuable to the team in future season play. In most instances these rookies are pitchers and therefore offer no support to the everyday lineup where all of the ageing players are housed.

Managers like Marty Marion of the St. Louis Cardinals, who was forced to play the aging "Peanuts" Lowery in the lineup, look to the minor leagues for all of their new material and this is where the sport of baseball is failing in its administration. The Minor leagues are the life existence of the majors who look to them for players capable

## INTRAMURAL Sports

Softball is still in the semi-final stages because the bad weather conditions has put the original schedule well behind. Theta Kappa Phi and the Tech Club are the only two teams remaining in the losers bracket and the loser of the match between the two will be out of the softball picture. Lambda Chi will face Sigma Phi Epsilon in the undefeated bracket. Pitching has been the deciding factor in all the softball games thus far and if this situation remains, Lambda Chi has a very good chance of obtaining the intramural softball crown.

Wohlert of the Engineer's Club retaliated with a win in the tennis singles over Huffman of Sigma Phi Epsilon and earned the right to replay Theta Kappa Phi. Theta Kappa Phi, represented by Schaeffer, previously beat the Engineer's Club by scores of 6-8, 6-3, and 6-4.

In the tennis doubles division only the Tech. Club remains in the undefeated bracket having beaten Sigma Nu by scores of 4-6, 9-7, and 6-4. The winner of the Sigma Nu versus Triangle match will play the Tech. Club in the finals. Grey and McCormack will represent Sigma Nu and Meskan and Hook will play for Triangle in the coming semi-final match between the two teams.

The Independents will face the winner of the match between Triangle and Sigma Nu in the horseshoes singles. Jim Tietjens will represent Sigma Nu and Heiland will throw for Triangle.

The doubles in horseshoes are also well on the road to completion. Theta Kappa Phi will throw against the Dorm and the winner will toss the shoes against the Tech Club. Meiners and Gegg will represent the Theta Kaps.

Information pertaining to starting time and number of beats in the track meet should be checked so that everyone will be on time. The varsity track men will be the timers and will pick the winners in each event.

of filling in, in the big leagues.

The minor leagues fail in their mission by not offering enough of a selection and in many cases not the best players for major league use. With the present low salary for a minor league player many teams are finding it difficult to attract the best potential players to their fold.

In the old days beginning baseball salaries were much more attractive and jobs were fewer, but now with jobs easier to obtain and pay far above that of the baseball initial pay many fine ball players are turning to other and better paying jobs.

A raise of pay in the minor leagues would offer a very good solution to the problem by attracting more and better talent. In order to do this a change would have to be brought about in baseball rules which limit minor league salaries.

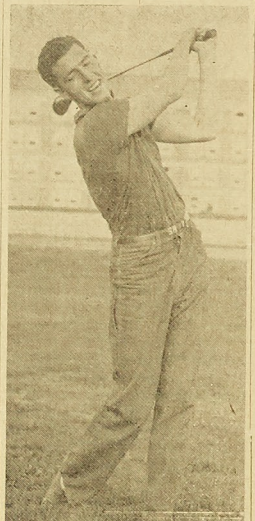

Baseball is definitely losing a part of its attraction to the general public by the broadcasting and television syndicates. If they were to offer higher salaries to the minor league rookies, better players would respond and baseball would add more talent to baseball in general. And baseball would benefit greatly with the addition of the so well needed new generation of players.

Co-ed: "I'll never marry a man who snores."

Housemother: "Yes, but be careful how you find out."

## HUFFMAN MAKES DEBUT WITH VARSITY GOLFERS

Making his bid for varsity letter and adding strength to M.S.M. Golf Squad is Shay Huffman. Shay, although playing his first year with the Miner Club-

### SHAY HUFFMAN

bers, has made a very fine performance with his sizzling drives and accurate iron shots and ranks No. 2 on the highly talented roster.

Huffman attended high school in Rolla except for the years that he was enrolled at St. John's Military Academy in Fort Scott, Kansas.

Coach Gale Bullman started him on his way in golf, as he taught him the fundamentals of play at an early age. He knows the M.S.M. course like the back of his hand but does not limit his low scoring to only that spot. Besides golf, Shay finds time to take a very active interest in his social fraternity - Kappa Sigma.

## Springfield Netmen Defeat Miner Squad

A powerful Springfield tennis squad swept the Miner netman literally off the courts last Saturday. After displaying a fine game of tennis up at Cape Girardeau, Coach Morgan moved Bob Campbell into the number one slot. He did well in the first set winning 6-2, but the following two sets were taken by his opponent, Mel Catten. Charles Harman couldn't find the range consistently and lost 3-6, 4-6. Danny Martin and Bill Carr exchanged fine volley's throughout the match. Even the presence of his girl friend couldn't help Danny take the third match for the set. The lone Miner victory came when the first doubles team of Martin and Harman rallied to win. The match was closely contested but our boys finally pulled it out of the fire.

Results:

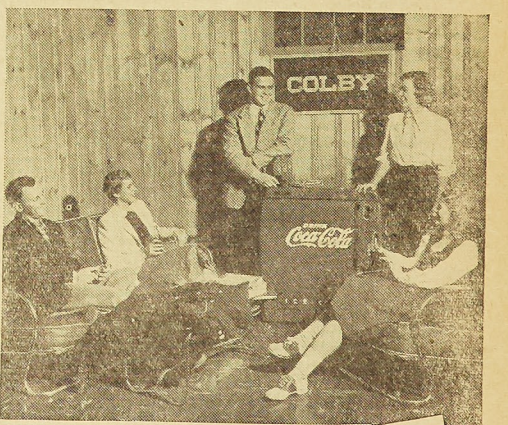

Singles  
B. Chappell, defeated by Mell Catlen 6-2, 1-6, 0-6.  
C. Harman, defeated by Vuell, 3-6, 4-6.  
D. Martin defeated by Carr, 6-2, 1-6, 2-6.  
M. Trieste defeated by Paul Moore, 3-6, 2-6.  
D. Zumsteg defeated by Bill May, 3-6, 2-6.  
R. Evans defeated by L. Burr, 2-6, 1-6.

Doubles  
Harman and martin defeated Vuell and Carr, 2-6, 6-3, 6-4.  
Chappell and Zumsteg defeated by Moore and Burr, 3-6, 5-7.

"No, I don't smoke, drink or neck."  
"Well, then, what do you do?"  
"I tell lies."

Some girls attain their end by not exercising enough.

Compliments of the

## CIVIL GRADS

(Continued From Page 1)

thorough groundwork in the broad fields of structures, hydraulics, highway engineering, sanitary and public health engineering, and surveying and mapping. Students may take electives in their senior year, allowing a moderate degree of specialization in one of these fields. In addition undergraduates who so desire may specialize in sanitary science or take a minor in some other department on the campus.

Graduate work is offered in all phases of civil engineering, and the department is active in research in all fields. In cooperation with the Wire Reinforcement Institute, the department is engaged in a five-year research program with the overall objective of improving present manufacturing methods together with the complete analysis and design recommendations for a more efficient use of welded wire fabric as a concrete reinforcing material. In this field four masters theses have been completed and two are in process. The department has also developed a wire fabric testing device which is now being used by all steel companies making this product for production control.

## Research Program

The C. E. research program is not limited to welded wire fabrics, but has included studies in the fields of structural analysis, hydraulics and hydrology, soil mechanics and concrete materials, highway and airport design, aeronautics and surveying. During the calendar year of 1950, 19 Masters' theses studies were successfully completed, and nine more are expected to be finished this present school year.

The department is well equipped to carry out both undergraduate study and graduate research. In addition to the usual laboratory facilities in Hydraulics, Materials Testing, Highway and Bituminous Materials Testing, Soil Mechanics, Bacteriology and Sanitation, the department is fortunate in having special equipment for graduate and research study. These include complete SR-4 Strain Gage measuring instruments, sonic testing equipment, Beggs' Deformometer gages, new freezing and thawing equipment, and a special Riehle shell-loading machine which has been converted to a beam testing device for fatigue studies. The department is also equipped for special study in the field of sanitary engineering and public health. Through the cooperation of Dan Kennedy, Regional Engineer of the USGS, the school enjoys the use of facilities of the Multiplex Division of the Topographic Branch of the USGS located in Rolla.

## 12 on Teaching Staff

There are at present 12 men on the Civil Department teaching staff handling the 84 hours of lecture and 132 hours of lab per week. The staff and their major teaching assignments are as follows: Professor Joe B. Butler, chairman of the Department; Professor E. W. Carlton, structural engineering, engineer-

## Liberal Loan Fund Is Established At Trinity College

Hartford, Conn. (I.P.) - Trinity College has established one of the most liberal student loan funds ever to be administered by an American college, it was announced here by President G. Keith Funston.

A revolving loan fund has been established with 80 per cent of a \$143,000 bequest from the late George J. Mead, an honorary Trinity alumnus and co-founder of Pratt and Whitney Aircraft Company, to be used for loans to students specializing in the fields of Government, History, Economics, or Public Speaking.

The bequest provides for short term loans of \$100 or less to be repaid within 12 months (before graduation) and long term loans not to exceed \$1,000 to be repaid within 5 years after graduation, each without interest. The remaining 20 percent of the bequest will be used for prizes, lectures and other special purposes in the fields of Government, History and Economics.

ing economy and supervision of graduate work; Associate Professor V. A. C. Gevecker, advanced hydraulics and soil mechanics; Assistant Professor C. W. Eshbaugh, land surveying and photogrammetry; Assistant Professor Leon Hershkovitz, highway engineering; Assistant Professor J. Kent Roberts, sanitary and public health engineering; Instructor J. F. McCarthy, structural engineering and fluid mechanics; Instructor Joe H. Senne, precise surveying and geodesy; Instructor Clifford D. Muir, fluid mechanics; Instructor James J. Trace, fluid mechanics; Instructor Donald L. Dean, structural engineering and fluid mechanics; Instructor Howard W. Nunez, structural engineering and materials testing.

There are currently 386 undergraduates and 25 graduates enrolled in the civil department, giving the department the second highest enrollment on the campus.

## Theta Xi's Prepare For Spring Formal: Gioseffi Elected Pres.

This is the weekend of our annual spring formal and preparations have been going on for several weeks past. John Moscarl and his "boys" have been working on the decorations for the last week, in an effort to finish them in time. This is John's last year with us and he is giving his all in this last effort for the fraternity. All of us here at the house can only say, "Thanks, Johnnie."

Last week the new officers took their places as leaders of the fraternity, for the fall semester of this year.

President, Nicholas Gioseffi; Vice-President, Albert Fosha; Treasurer, Robert Jost; Steward, Richard McMasters; House Manager, Edward Young, Secretary, Roger Krueger.

With this fine staff of officers, the fraternity can do nothing but move ahead as it has done for the two years of its life.

The new officers took charge of our pledges, last Sunday. The newest members of Alpha Phi chapter of Theta Xi are: Walter Clements, Martin Prager, Larry Douglas, Arthur Hanley, and Gerry Cookson. All of these men are ready and able to take an active part in this organization. Best wishes and many active years with Theta Xi, fellas.

A lighter side of life around the House of Rounders, concerns several phrases heard by certain members of the gang. Such sayings as:

Walsh: "There's another 'Kick-off' tonight."  
Fosha: "I never talk about my conquests."

told that nearly everyone at Fulton is either celebrating Parents Day or the dedication of the new school library.

Well, it's happened at our house again. The draft, (who left the door open in Korea?) was just too uncomfortable for George Wenzel, so George decided to enlist in Air Force while he still had the chance. George will report for duty in about a week. Oh for a pair of silver wings!

## BSU to Hold Spring Outing This Saturday

Softball, volley ball, wiener roast all in one afternoon. Tomorrow afternoon at three o'clock the bus will depart from the Baptist Church and will be bound for Meramec Springs for a period of fellowship and fun. Various games and entertainment will be provided for enjoyment, including softball, volley ball etc. A wiener roast will follow in the evening.

Plan now to spend afternoon and evening with the B.S.U. Remember be at the church at 3 p.m. for the best outing yet. Just bring you, the rest will be there waiting for you, you and . . . you too.

Young: "Everybody is going to hate me."

Gjilsten: "Whose a boot-legger?"

If there are any inquiries to what these mean, kindly contact the individual saying such. The house was honored the other night by having the intimate "Dr." R. J. Schoppel and his cronies as guests. They were here investigating the higher chemistry of organic compounds with our own "professor" Thomas Walsh. From all indications, the world is about to witness a profound discovery over the outcome of the meeting of these two scientists.

That is all for this week and till next week, "Keep the bottles empty and enjoy yourself."

smells milder and smokes milder."

A WELL-KNOWN INDUSTRIAL RESEARCH  
ORGANIZATION REPORTS: "Chesterfield is the  
only cigarette in which members of our taste panel  
found no unpleasant after-taste."

ALWAYS BUY CHESTERFIELD
