# THE MISSOURI MINER

Missouri School of  Mines & Metallurgy

VOLUME 28

ROLLA, MO., FRIDAY, NOV. 2, 1951

NUMBER 7

## MSM, '51 Version, Welcomes Alumni

### MSM PLAYERS PRESENT PARLOR STORY DEC. 7-8

On December 7th and 8th, the M.S.M. Players will present Parlor Story, a witty and provocative comedy about college life by William McCleery. Parlor Story was a top comedy hit on Broadway two seasons ago, and it's clever college humor and timely setting should add up to an enjoyable experience for the Miners.

The play takes place in the "parlor" of an ex-newspaperman, Charles Burnett. Burnett now is head of the journalism school of a western university. One evening he comes intending to spend a quiet night, but before bedtime his loving wife and daughters have drawn him into a political deal with the Governor of the State, a soul-shaking debate with daughter's boyfriend on love and marriage, a battle with the state police, and a head-on collision with a powerful political fixer.

Dennie Tippet and Fran Dobson play Professor and Mrs. Burnett, Joyce Headrick and Marge Haas the two daughters, Cal Smith and Betty Denison the Governor and Mrs. Bright, George Somewald as the press tycoon Mel Granite, and Ed Roster the radical young editor Eddy West. Dick Slaters and Ted Dobson round out the cast as state troopers.

Keep the 7th and 8th of December open and join us at 8 p.m. in Parker Hall for an evening of real comedy. All M.S.M. students will be admitted free.

### Piker Pledges Relax After Strenuous Week

Once again the furniture is back in the living room and the rug is on the floor at the I K A house. However, there have been some changes made as a result of Work Week. The pledges under the leadership of Jerry Wyman, George Stevens, and Joe Krispin did quite a bit of sanding, painting, varnishing, and polishing. The most "conspicuous" example of their work is the new shade which the library walls so brightly sport.

Saturday night the end of Work Week was properly celebrated. Although we didn't know it, the Pi Kappa house is loaded with legal talent. This talent was brought forth at the trial of Don Pickering. In the court room of Judge "Eagle Eye" Hoffman, a great scene took place as Counsel for the Defendant, Mr. S. Johnson Cole, battled valiantly and successfully for the acquittal of his unjustly accused client. The losing "persecuting" attorney was Mr. R. Leslie Hollocher. Although Mr. Pickering can once more face the eyes of the world, the case isn't finished. The court will meet again November 10th when the impeachment proceedings against Judge Hoffman will start. The impeachment trial will be conducted in the "Soup-cream" Court of "Happy Harold" Koelling.

The chamber music society has acquired two new members as "Waldo" Smid and "Rugged Ralph" Hollocher demonstrated their virtuosity on the drums and piano. Brother Hollocher electrified the audience with his "tremendous" backroom styling of "Near You."

George Stevens bought last week's supply of cigars to announce the dropping of his pin to Miss Beaver of St. Louis. Best of everything to George and Barbara from the men of Alpha Kappa Chapter.

### Am. Welding Society Offers Cash Prizes

The American Welding Society will award \$700.00 in cash prizes and certificates for the two best articles on welding to appear in undergraduate publication between April 1, 1951 and April 1, 1952.

First prize of \$200.00 will go to the undergraduate author of the best paper and \$150.00 to the undergraduate writing the second best paper. Duplicate awards of \$200.00 and \$150.00 will be made to the publications in which the prize winning papers appear.

Students who are interested in participating in the contest should see Dr. James J. Jelinek in Room 200, Rolla Building.

The wards are made annually by the American Welding Society under the conditions of the A. F. Davis Undergraduate Welding Award program. The donor of the funds for this event is A. F. Davis, Vice President and Secretary of the Lincoln Electric Company, Cleveland, Ohio.

Edwin L. Marshall of New York University and the N.Y.U. Quadrangle received the 1950-51 first prize awards; the second prize awards went to Stan Spaulding of Purdue University and the Purdue Engineer. Mr. Marshall's paper entitled "Arc Welded Tractor" appeared in the March 1951 issue of the N.Y.U. Quadrangle. "Analysis and Design of Welded Pressure Vessels" was the title of Mr. Spaulding's article published in the March 1951 issue of the Purdue Engineer.

The cash awards were made last June and the certificates will be presented on October 18th during the Annual Meeting week of the Society at Detroit.

Complete details on the program are given in the leaflets and bulletinboard posters enclosed herewith. Additional copies will be sent upon request.

### Rock House Prepares For Big Homecoming

It looks as if every one made it back from Springfield in due time. But some of the more eager boys had a hard time breaking away from the wonderful hospitality of those coeds. Oh how they love that Bel-aire.

Congratulations are in order first to Brother Jim Hubeli who was initiated last Friday night. We hope you have many happy years as a Triangle, Hubcap. Secondly, we would like to congratulate Ira Fields, Bob Rickey and Terry Godsey on their choice of a Fraternity, and we wish them a very successful pledge-ship.

Homecoming is upon us at last. And it's a good thing that there were so many of those little brown envelopes in the mail box Wednesday morning or there would be no "spirit" in the week-end. We are looking forward to seeing a great number of our illustrious Alumni on their return to the scene of the crime. From all indications it will be a 100% turn out with dates for the operators of the Ole Rock House. We hope that Bro. Beckemeyer will take time out from his driving lessons to join in the festivities over the week-end.

On the sporty side of things, 'Chief' Meskan, 'Fergie' Smith, and 'Big Ed' Stinson, captured second place for Triangle in the field of Ping Pong. And now under the hard hand of 'Nails' Edwards the basketball team is being shaped nicely.

### ASME HEARS TALK BY SHELL OIL ENGINEER

About fifty members and guests of the ASME heard Dr. Echols of the Shell Oil Co. give an interesting talk on the problems that confront the Petroleum Industry today. He outlined the processes of making the various fuels, lub-oils, etc., which are necessary, to meet the requirements for extreme operating conditions of engines and equipment.

We like to remind everyone again about the "Turkey-shoot and Beer-bust" the ASME is giving on Nov. 17. Plenty of tickets are still available. The price is 65 cents.

At our next meeting, Nov. 14, Mr. F. L. McAuley, Mechanical Engineer from Westinghouse, will be our guest speaker. His subject will be: Electricity in the past, present and future.

### Theta Kap's to Have New 'Heated Elevator'

Yesterday was the two-week anniversary of our winning the intramural football championship and the boys have already begun to celebrate. Just as a coincidence it also happens to be Homecoming weekend and all the eager members, and pledges (eager or otherwise) are out working on the decorations like beavers (C.E.'s) building a dam. Housecleaning is also in progress. We're throwing out all the old slide rules, drawing sets, filing cabinets, cameras, and other junk cluttering up the house. We also plan to have the elevator installed by tomorrow. We're planning on building a furnace in the elevator so we can heat any floor that complains about the cold.

Last week we were visited by our national secretary, George Uihlein, who looked over the house, the members, the food, and the books. After a close inspection of the books, it seems Brother Ted Algermissen has not yet seen fit to abscond with the house funds. If George gives us a good report we will have gone a long way toward winning the National Chapter Efficiency Award for the third straight year.

The Pledge Dance over the football championship weekend was a huge success. (Must have raised the board bill at least ten bucks). Parties here and there raged far into the night. When the campaign was over, the losses were found to include a few dozen pieces of tableware and a goodly number of glasses. How else can Susie Stephens carry her drink home?

Another aspect of the same weekend was the descent of those happy warriors, the Pi chapter boys from St. Louis U. on our fair house. Our beating them in the traditional football game for the TKP wine keg didn't seem to bother them much. Those 25 stags raided every party in town, brought back their "blind dates", and had just one helluva good time. It was good to see such an enthusiastic bunch of young gentlemen—sacked out all over the chapter room and lounge.

That miniature wine keg we won was some prize. Larry Quinlan had to take it downstairs and fill it with water Monday to put out the fire that had been raging inside for two days.

The Student Council would like to thank all those who have submitted cheers for the Miner football team. The three winners were 1st prize \$5.00 Martin Frey, 2nd prize \$3.00 Al Burgess, and 3rd prize \$2.00 Robert Hans.

### E. E. Trip Leads to Frisco Diesel Shop

A group of eager and industrious students, the majority being electrical engineering students, always grateful for a chance to leave the confines of Rolla, journeyed to Springfield last Saturday to inspect the Frisco Diesel Maintenance shop. Still reeling from the influence of Morpheus, they tearfully bid goodbye to their books and gathered in front of Norwood Hall before beginning their motor caravan.

The inspection trip, sponsored by the student branch of the AIEE-IRE, began with a short visit to the teletype installations which connect all the important sub-stations to the main office. A bus transported the group to the Frisco Diesel Repair Shop, where under the very capable guidance of Mr. R. W. Troth, superintendent of Communication and Signals; and Mr. Tuck, Assistant Superintendent of Motive Power; the tour began.

The Repair shop employs some 350 persons which perform some function in the maintenance of approximately 150 diesel electric locomotives. The Frisco railroad expects to be completely dieselized by February, 1952, except for a few steam locomotives which will be kept on hand for emergency use. Even in these times of modern improvements, the old still competes with the new in some fields. During the recent flood in Kansas City the Frisco RR resorted to steam engines to combat the flood waters. The newer diesels were unable to efficiently move through flooded area.

Most of the fifty or more who inspected the diesel shop attended the Miner-Springfield game during the afternoon. This proved to be the only disappointment of the trip, when Springfield nosed out the Miners 13-7.

### Gamma Delta Cleans House for Homecoming

Things around Gamma Delta are really buzzing this week. Last week the pledges put the finishing touches on the dining room paint job. They slopped so much paint around that the floor needs sanding now. However, the Homestead should be in good shape for Homecoming.

Homecoming is the main topic around 206 West 9th. Some men have two dates; others don't have any. We're turning over the house to the women this year. As the upstairs is off limits for the men, we've decided to rent cabins for storing our changes of garments (not for sleeping, that's against the rules). Entertainment is planned for the entire weekend with proper refreshments available at all times.

Naturally some of the atmosphere in the various rooms must go when the women come. There's the forced sheet changing detail which wasn't expected until Christmas. The only rays of light shining through this otherwise dismal picture are the women.

After receiving a positive answer from his one and only, Jack Weber tried to stay calm, but in his subconscious dither he wore his shirt backwards and inside out all day. Party Pooper Casey Taylor is going home on business (monkey business?). Bird Book Justus, back from his Senior Trip, is just too beat to get a date. He's going out with the 'fellows'. Paul Egan intends to take his slide rule along on his midnight stroll; that's the only way he knows to figure.

### JACK FORBES, DRAWING INSTRUCTOR AT MSM, DIES OF HEART ATTACK

Mr. Jack Forbes, popular instructor in the Engineering Drawing Department, died last Friday of heart trouble. He had been ill since last April. Services were held at the Episcopal Church and internment took place October 29, at Rolla Cemetery.

Born June 15, 1920 in Denver, Colorado, Mr. Forbes received a B.S. degree in Mechanical Engineering from the Missouri School of Mines in 1944. He began instructing at MSM in September, 1946, after leaving the United States Geological Survey. His father the late Prof. C. R. Forbes served as an instructor and later as head of the mining department for a number of years here, teaching periodically from 1909 until 1947. In 1947, he retired and moved to California where he died in January, 1950.

Mr. Forbes was a member of the National Rifle Association and the National Muzzle-loading Rifle Association. He is survived by his wife, and mother.

### Dates Awaited for By Eager Theta Xi's

"Hail All Ye Rounders, Welcome to Theta Xi". It's good to have our alumni with us again on this, their day. The active members and pledges have been working and planning to make the celebration better than any past Homecoming celebration. The two main attractions at the house this weekend will be the Rounders den and the display at the front of the house. Art Hanley took charge of decorating the basement and getting it ready for that ever agreeable diversion. Al Fosha and Tom Heggs have worked the display through to its completion and from our view, it is the best. These are the attractions awaiting the alumni members, but the undergrads are anticipating a weekend of pleasure and repast from academic activities.

This is the third year for the fraternity on the campus and as a matter of course, it's pleasant to review the last two years. In 1949, we were activated as a chapter of the Theta Xi Fraternity and though our first Homecoming celebration wasn't attended by any alumni, we celebrated with all the vigor of an old fraternity. That year, as this, we played the Cape Girardeau Indians and our display was centered on the "old Miner" throwing his pickaxe at the fleeing redskin. When the pickaxes were moving, it was a convincing display.

Last year was successful to all concerned. We had alumni with us and a novel display. The theme of the display was the football game with the Springfield Bears. If remembered, this was the decisive of the conference schedule and the fellows went all out to depict the defeat of the Bears. That year, our display centered around a log cabin with the bears trying to steal the crown from a window and the Miner, off to the side, drawing a bead on the scoundrel. That display took third place in the final judging.

This year promises to be our triumphant occasion with more enjoyment than ever before. The fellows here at the house are importing women from all the outlying sources at our disposal for the merry making. Some of the boys were worried about the women from Stephens, because a nasty rumor was being circulated that they were bringing their own chaperones. We are glad to have with us, Dr. C. L.

(Continued on Page 2)

### PEP RALLY TONIGHT

This is the chance to show how much spirit you really have. The pep rally will start at 8:30 o'clock in front of the gymnasium, and then proceed through the town ending up at the intramural field. In the past years it was practice to have a pep rally before every home game. This is the first one this year. Let's make it a good one.

## Football Game, Dance to Highlight Gala Week-end

Elaborate preparations have been made for the Missouri School of Mines and Metallurgy's 1951 Homecoming Program. Students and Alumni will participate in what promises to be a big weekend. Many old experiences will be retold and many old adventures relived by the Alumni, who will start arriving this afternoon. Leading the list on the agenda will be a "dutch treat" dinner at the Edwin Long Hotel this evening.

### 1951 MSM Homecoming Program

- 9:00 a.m. Registration, Parker Hall.
- 11:00 a.m. Homecoming Convocation, Auditorium Parker Hall — Address of Welcome — Dean Curtis L. Wilson — Convocation Speaker, Associate Dean Rex Z. Williams, "Engineering Manpower - A Product of MSM."
- 12 noon Class of '26 Luncheon, Colonial Village.
- 12:30 p.m. St. Louis Section Cocktail Party, Hotel Edwin Long.
- 2:30 Football, Miners vs. Cape Girardeau College.
- 7:00 Homecoming Dinner, Hotel Edwin Long.
- 9:00 Homecoming Dance, Jackling Gym.

### THE ENJOY BEAR'S POST-GAME HOSPITALITY

With the advent of Homecoming the Teke house is really buzzing with activity. The boys are going all out making preparations for the big weekend when we welcome our alumni back and have one of those good old fashioned parties that the Tekes are famous for. We hope to make the old boys feel right at home again so they can let their hair down and whoop it up like they did in previous years at T.K.E. Preparations for the Homecoming decorations are now in full swing and we hope to have everything ready to put together without the usual Friday night rush. Mike DeLuca has things well in hand and with his skill as an artist and a few rather unique ideas we hope to once again take first place in the decorations contest.

Apparently the trip to Springfield last weekend proved very successful socially even though the football team did not fare so well. A big party was held with Teke Chapter down there to help them celebrate their victory and help us drown our sorrows. As long as its a good party it doesn't make much difference what the reason for it is. Most of the boys who made the trip will readily affirm that the girls from Springfield are real party girls and its a shame we can't have some of them down here (say about 1000).

Some of the boys really went all out at the party and there were some mighty sad looking operators mopeing around the house Sunday evening. Somebody ought to tell Luo Astroph that it was not the drinks, the lights went out. The poor kid might be worried. The big question of the week however is "What happened to Pee Wee Saturday night! It seems he disappeared sometime during the evening and didn't turn up until late Sunday afternoon. When we ask him what happened all he does is smile slyly and sigh.

Some of the boys are forming a special Dear John Club. It seems like they put a little too much stock in Stephens College when they came down here and things didn't quite come through. It might all work out for the best in the long run though, because most of them are getting fixed up somewhere else and we always say the more contacts

(Continued on Page 4)

Welcome mats will be out in the form of an open house at the Fraternities which are frantically administering the last-minute touches on their houses decorations. These decorations will be judged Saturday morning by a committee composed of faculty members and their wives selected by the Inter-Fraternity Council. The first and second place winners will be recipients of the IFC's roving plaques. The first and second place winners of last years plaques were Tau Kappa Epsilon and Lambda Chi Alpha, respectively.

Launching Saturday's crammed program will be the registration of the Alumni in the morning at Parker Hall. Following registration the Alumni will hear Rex Z. Williams, Associate Dean of the Missouri School of Mines and Metallurgy, present the Convocation Address. Dean Williams' talk "The Manpower Shortage in the Engineering Field" is to be followed by the presentation of awards. The School refuses to disclose the nature of these awards in advance of the ceremonies.

New features which will be noticeable to the returning Alumni are the New Mechanical Engineering Building, the annex to the Old Mechanical Hall now under construction, and the completion of the Experimental Station.

The graduating class of 1926 has planned a luncheon and reunion for noon at the Colonial Village. One of the graduates of this class who will attend the reunion is journeying from Brazil to be present.

Undoubtedly everyone will be present for the football game between the Missouri Miners and (Continued to page 2)

### NINE UNIVERSITIES GUESTS AT CANTERBURY ASSOCIATION ELECTION

Students from nine colleges and universities in Missouri were the guests Saturday of the Columbia Canterbury Club of the Calvary Episcopal Church at the annual fall conference of the Diocesan Canterbury Association.

An organization of Episcopalian students, the group met to plan organizing new Canterbury clubs on campuses and colleges which do not have such groups.

Dr. R. O. Sutherland, professor of physical chemistry at the Missouri School of Mines, was elected as faculty adviser to the diocese. Dr. Harold Bassage, minister of the Calvary Episcopal Church at Columbia, is the other advisor.

Plans were also made for the spring conference to be held at the Lake of the Ozarks.

Colleges and universities represented were: The University of Missouri, Missouri School of Mines at Rolla, Lincoln University, Stephens College, William Wood College at Fulton, Washington University, Kirksville State Teachers College, Fontbonne College in St. Louis, Stowe Teachers College, and Harris College also of St. Louis.

In addition to Don Rumsey and Mr. Richard Sutherland of Rolla, the Rev. O. V. Jackson, rector of Christ Church, was an active member of the meeting.

## THE MISSOURI MINER

THE MISSOURI MINER is the official publication of the students of the Missouri School of Mines and Metallurgy. It is published at Rolla Mo., every Friday during the school year. Entered as second class matter February 8, 1945 at the Post Office at Rolla, Mo. under the Act of March 3, 1879.

Subscription Price \$1.00 per Semester. (Featuring Activities of Students and Faculty of M.S.M.)

## Letters to the Editor

To Paul Blackmon,

Concerning your obviously embittered letter to the editor printed in last week's Miner —

What does your warped mind have against our football team? It is to my knowledge that you have written previous bitter letters to our editor concerning the football boys. Always trying to blacken their names! What's wrong fellow, did you try out for the team and didn't make it? Even if your figures had been correct about our rich players, it still wouldn't be enough to make up for the bruising and beatings they take in a good clean sport they enjoy playing and which adds to our school spirit.

It is suggested you might spend more time on your studies and less on writing articles about people trying to do their job. Also I don't believe I've noticed your name on the honor list.

A FOOTBALL FAN

Oct. 26, 1951

Dear Sir,

In your last issue there appeared a letter from a Mr. P. Blackmon. This letter painted a rather dim view of football here at M.S.M.

In all my life, that is since I learned to read, I have never come in contact with a more dastardly piece of literature. Not only is he misinformed, thoroughly, but also he tries to foist upon all those who read the Miner his misinformation.

I am a football player. I have played here at M.S.M. almost four seasons. I want to tell you just how much money I have received from the school for playing football.

Last year when we went to Bloomington, Ill. to play in the Corn Bowl we received \$8.00. This money was for our Thanksgiving dinner and breakfast the next morning. For this so called pay we were privileged to give up Thanksgiving with our folks at home and play one hour of football in sub-zero weather on a field covered with ice and snow. That \$8.00, now when we came back to school for early football practice we received \$35.00 for food till the beginning of school. We were here on the 22nd. of August and school started on the 10th of September. That is a total of 20 days at \$1.75 a day to feed ourselves on.

Mr. Blackmon, it is terribly hard to feed oneself on \$1.75 a day. Most of the men that came down early to football practice could have about \$300 in those twenty days. Here though they got only their board until school started.

Now then, that is a total of \$43, not salary mind you, but living expenses. In 4 years even if it were salary that amounts to about eleven dollars a year or about \$1 a month. And you say we're getting paid.

Mr. Blackmon, I feel that the school would be better off without rotten, conniving, and cheap students like you, who will do anything to get their name in the paper. Have you, personally, ever done anything for the school besides deride its sports endeavors and those who participate in sports?

The fellows on the football team have done quite a bit to honor the schools name. These men have sacrificed, Bob Proctor a severely injured leg, Rich Hampel, two broken vertebrae, and Bill Uiz, also a bad leg, not to mention many others.

Also Mr. Blackmon, just for fun, how many hours are you carrying, I'm carrying 23 hours. I'd have to love a game to play under those conditions, and I

wouldn't play football for money.

Mr. Blackmon, the football team cares nothing for the taunts of an insignificant pipsqueak like you, but just be careful about making fun of any of the coaches or faculty, especially Mr. Bullman. We may be a bunch of amateurs, but we love our coach and by gosh nobody jumps on him.

Hatefully,  
James A. Tietjens  
Left End, Football Team

Will Mr. Blackmon take these biting remarks lightly? Read next week's Miner for Round 3 in the battle between Mr. Paul (fearless) Blackmon, and the M.S.M. Play for money boys.

October 26, 1951

Editor-in-Chief  
Missouri Miner  
Dear Sir:

For the information of all the students at MSM, fraternity and independent, I wish to state that the KA house at 1311 State Street will be "off-limits" during dances, parties, and special affairs, to everyone other than specially invited guests, unless certain individuals, unknown to us at the present time, cease the practice of pilfering articles and damaging chapter property. During the Pledge Dance, held at the KA house on October 13th, some person or persons threw bathroom articles and a fire extinguisher onto the front lawn from an upstairs window. The recharging of the extinguisher meant more than the money value involved. It also meant that the extinguisher, normally located close to the sleeping quarters, could not be used in the event of a fire.

At some time during the dance, some person or persons, possibly the same ones who damaged the extinguisher, managed to pilfer the dinner bell hanging in the dining room. This matter was referred to the Interfraternity Council by our I.F.C. representative in the event that fraternity men were involved. To date, the bell has not been returned and its whereabouts are unknown.

Other fraternities and campus organizations have lost articles in the past which have not been recovered. These articles are undoubtedly still in the Rolla area. The I.F.C. rule, penalizing fraternities and their members for offenses in chapters other than their own, does not entirely rule out the fraternity men as the offenders. Anyone present at chapter social affairs; meaning an independent, a fraternity man, or an out-of-town date or guest, is involved.

Unless such practices cease, I repeat that KA will be "off-limits". Kappa Alpha has enjoyed a good reputation on the campus for its fine social affairs which are open to all, and we wish to keep it that way. As a gentle hint to those involved — we would be mighty happy to wake up some morning and find the dinner bell hanging in its place on the dining room wall.

Sincerely,  
Melvin C. Hockenbury, I  
Beta Alpha Chapter

Dear Editor,

.....

Disgruntled Dorm Students  
Larry L. Rosine  
Robert VanDuynne  
Robert Towell

This was the only part of your letter that was clean enough to print.

— Ed.

## The Shaft

by Grinn and Barrit

Last week end the Miners' cup of joy seemed to hit an all time low, as everyone was primed for the victory celebration against the Pyrite Bears of Southern Missouri which failed to make its appearance. After crying on each other's shoulders for awhile, we decided to make the most of the situation at hand and found a pair of high spirited young lasses, who were dying to help us drown our sorrows. The girls proved to be a little mixed up on what we were trying to drown, because they soon reached the super saturated point and fell prostrate at our feet. Grinn and I were a little rusty on the art of artificial respiration and after a round table discussion on the various positions, we hit the solution and everything smoothed out in the end. With all the items considered, the host of Miners had a very enjoyable trip and the natives of Springfield will be able to enjoy life again. Their daughters will be safe to roam the streets again, without the threat of being snatched up into the arms of some hairy chested Miner.

This week end will find the Miners playing host to a lot of draft exempt alumni. This group of choice humanity will find that the old institution has taken on a new cloak of morals. They will find that you no longer have to call the Pennant by three in the afternoon in order to reserve a spot so that you could wash your face in some of your favorite suds. Yes, the golden days of college life at dear old MSM have reached a new low and our graduates may find it hard to believe, but brother you can't ignore the cold hard facts. We can only hope that the shock won't be too great for the boys, but I guess we could place the blame on the mass infiltration of infants to the ranks of college students.

Grinn would like to make public the only incident that a Miner really broke out in tears. It all happened last week at the scene of the battle between the Miners and the Bears. A choice group of Kappa Sigs were lucky enough to have smuggled a large portion of liquid refreshment through the carefully guarded

gates of the stadium; they were about to celebrate their success when it fell and broke upon the cold hard concrete. With misty eyes, they exclaimed as they slowly strolled away, there went all our school spirit. We can only hope that this won't occur again, because it could be an important factor in the future progress of this school.

Grinn and I hope that these new resemblances of college students will take careful pains to read the rules for this week-end, which John McClinton has so faithfully supplied us with. We feel that John is a noted authority on this subject, because he had the knowledge to withstand the onslaught for a great period of time. The main thing for these Cub Scouts to do, when the week end arrives, is to head for the nearest bomb shelter and stay put. This last statement is of greatest value, because it is sure death for someone to try to buck the onrushing herd of alumni as they are headed for their favorite bar. John said to please tell you to be on the look out for a certain Yo Yo Davidson, as he makes a habit of abusing small children. A returning alumnus isn't hard to spot because he will be wearing two bottles on his hips, and will be possessed with a wild hunger look in his blood shot eyes. Some of these specimens may be tamed, but it is advised not to offer them a thing to drink, because it is a good way to lose an arm. You may be able to spot some of them on the corner begging for coffee money, so please remember before you refuse them, that you may be a member of this alumni group someday. With all the variables considered these lucky guys are the grandest group in the world, so let's go out of our way to make their short stay in Rolla a happy one, one that they won't soon forget.

As a passing remark to the wheels in the great world of industry, don't forget to come to M.S.M. to obtain the cream of the crop for all branches of engineering. But before you hire any type of engineer, hire a Civil first because he is already handicapped.

Breezes From  
The Windjammer

After the Lord made the earth in six days, and before he started for the Country Club to rest on Sunday, he turned the plans and specifications of the earth over to an engineer. And since that day, Engineers, although paid on a six day basis, have continued to work seven days and nearly as many nights a week. An Engineer can be identified by a trusting look, the resigned expression on his face, and a table of sines and cosines carried near his heart.

Through the ages the Engineer has continued to function, until now our technical schools yearly upward 10,000 young hopefuls onto the American Public, each armed with a slide-rule, two handbooks, and a bad case of brain fatigue due to four years of unremitting toil. Some of these souls are immediately saved by becoming bond salesmen and insurance agents. Some of the remaining souls, after working incessantly as Engineers, gain success by becoming advertising managers, accountants, salesmen, and managing executives. But alas, some fail and become Assistant Chief Engineers, Chief Engineers, and if a complete failure, become Consulting Engineers.

Our Government has had two

famous Engineers who gained fame by ceasing their chosen occupation and becoming public servants - George Washington and Herbert Hoover. An Engineer with a temperament of a grand opera star is an inventor, and can be recognized by his long hair and flowing bow tie.

There is only one Engineer on record who became rich. He recently died in Colorado and left a fortune of \$50,000.00 which he amassed through unceasing toil, superhuman perseverance, remarkable ingenuity, and the death of an uncle who left him \$49,995.00.

Engineering is a good deal like golf, those who are good drivers become managing executives; for those whose best are brassie, the advertising profession offers a good opportunity in case of a good lie; those with approach will find salvation in salesmanship; and those good on the green become cashiers and investment brokers. The duffers remain Engineers.

UNKNOWN

Breaths there a boy with  
soul so queer  
That he didn't want to be  
an Engineer.

## HOMECOMING

(Continued from Page 1)

the Cape Girardeau Indians. This will be the last Conference game for the Miners this season.

The victory starved Miners will be out to avenge last season's defeat by the Indians which should make this a game worth seeing. At half-time the intramural cross-country run will take place. The fatigued winner will receive a medal. In the early evening a banquet is planned for the Alumni at the Edwin Long Hotel's College Inn.

Climaxing the days festivities is the Homecoming Dance to be given at Jackling Gymnasium. This is to be an informal dance which is presented by the St. Pat's Board. A considerable amount of time and energy has been spent by the members of the board on the decorations. The musical atmosphere will be created by Jackson Hall, his Trumpet, and his band. Melodious renditions will float over the air from nine o'clock until one o'clock. Price of admission is one dollar and fifty cents stag or drag. Tickets may be purchased from any St. Pat's board member or at the door. This Homecoming Dance promises to be one of the biggest social events of the year.

## CLASSIFIED ADS

PUBLIC ANNOUNCEMENT — The wedding of John Smith to Mary Brown will take place as arranged.

BIRTH — To John Smith and Mary Brown - a son, both doing well.

FOR SALE — Shotgun, hardly used. Apply Arthur Brown, 477 High St. Rolla.

FOR SALE — Trousers, seat damaged. Apply John Smith 137 7th street.

Jackson, noted geologist from Kentucky State College. We feel it is a real honor to have such distinguished personage in the house. Welcome aboard, "doc". Have fun, kids, but remember that mid-semester is next week and then the "fun" really begins.

Prof. Murphy to Speak  
At Dames Meeting

The University Dames will meet Thursday evening at 8:00 o'clock, November 8, in Building T-3 on the campus.

Of interest to everyone will be a talk on family affairs by William J. Murphy, instructor in the Humanities Department. At this meeting they will also have the election of officers and will announce the winner of the turkey raffle.

The October meeting was highlighted by a card party which was enjoyed by the large number that attended.

THE MISSOURI MINER

PAGE 3

# Miners Play Host to Cape

## Game Highlights Homecoming, Need Victory to Cinch Third

### Last Year's Upset Remembered, Cape Winless in Season Play

The Missouri Miners will be host to the Cape Girardeau Indians tomorrow, afternoon in the annual Homecoming Game at Jackling field. If the Miners win this game they will end the season at third place in the M.I.A.A. Conference. Cape Girardeau, who hasn't been so successful this far this season, has not turned in a victory as of yet, but after the upset victory last year the Miners will be ready for anything. They plan to tackle, block or run over anything that the Indians put on the field.

The Cape squad seems to be building for the future with 25 freshmen on the team, 11 sophomores, 4 juniors, and 4 seniors. It is apparent that they have a green squad, but now have the experience of six games and should be fairly well seasoned. They have two quarterbacks, Bob Spiedel and Roy Vich, both are six feet tall, weigh 165 pounds and have received monograms for football.

The Miners have several men on the injured list, but hope to have all conference end, Jim Tietjens ready for action by game time. All in all, the team looks to have what it takes to take the Cape Indians, and an easy victory is expected.

### INTRAMURAL Sports

#### Cross Country Race At Half-Time Sat.

After the stunning upset by Theta Kappa Phi in the intramural football competition two weeks ago, the intramural scene has been rather quiet. The Theta Kaps defeated Pi Kappa Alpha in two close games in the semifinals and finals to secure the football trophy for the second consecutive year.

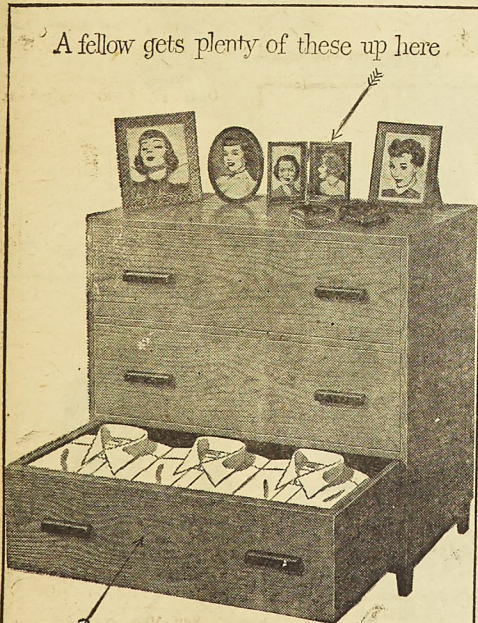

The Cross Country race of the intramural sports will be run off tomorrow afternoon between the halves of the Miner vs. Cape football game. The course followed by the distance runners includes a lap around the track and one around the campus. This course covers a distance of 1 and one-fifth miles of fairly level terrain.

Many of the organizations around the campus have been busy preparing for the intramural basketball tournament which starts next week. Sigma Nu has shown strength in pre-season workouts and appears to have a good chance of taking the basketball trophy for the second straight year.

Also on the list of coming sports is handball, which begins on the 12th of November, and swimming, which will be held on the 5th of December.

#### MINER'S 1951 SCHEDULE

### LUKING IT OVER

By Myles Midgley

#### Pep Rally Tonight

The first pep rally will be held tonight at 8:30. The ROTC band will start this gala event by a short concert in front of the gym 15 minutes before the torch parade begins. The parade will pass by the various organizations on the campus and pick up numbers as they go and will end at the intramural football field.

It is very important that every Miner take active part in this event, and all Miners and their dates are requested to attend this function.

Coach Bullman is looking for a solution for the Miners lack of being able to score from the ten and fifteen yard lines. The Miners have had several opportunities to score in the two previous games but couldn't and thus lost the game. Although far superior in the other departments the Miners lack that last minute drive that makes the points.

Ralph Moeller

Ralph Moeller playing right half back made a fine showing in the Springfield game Saturday. Only a soph. Moeller will be here for two more years and he should make quite a name for himself on the gridiron.

With all the alumni coming back this week-end it will be nice to be able to show them the new "Trophy Case" that holds all the MSM trophies. The only trouble is that the trophy case was forgotten by someone and our trophies will not be on display. If the student council will work real hard maybe by next year the "Trophy Case" will be completed.

The Springfield "Art Class" visited the campus last week and left their master pieces all over. The gym was well decorated, but as the football team were out spending part of their \$10,000 loot missed the Bears, and were very surprised to find their home so well decorated.

It appeared that the referees might be carrying Bruin flags in their pockets and at the end of the game might jump up and down cheering the Bears victory. The clock kept running on incomplete passes and while making penalties they didn't bother to stop the clock either. It takes all kind of people to make the world go around.

Cape Girardeau the "Giant Killers" will be our opponents this week-end. It was Cape that stopped the Miners last year, and as they have not won a conference game yet, the Indians will try to make it the Miners again this year.

Bill Ulz is out of the line-up with a knee injury, and will not be able to play any more this season.

The cross country race will be run over a new course this year and a new record is certain to be made. Gene Laytham and Edwards who have won this event the last two years both lettered in varsity track last spring and will be ineligible to compete, so it will be anyone's race when the gun goes off. The cross country race will be held at half time of the football game.

#### FRATERNITY ALL STARS WIN 7-0 IN WED. TILT

Wednesday afternoon an All-Star football game was played on the intramural field. One of the teams was composed of Independents. Fraternity men made up the other team. The game was played in a spirit of friendliness with everyone getting in to the game for both teams.

The lone score of the contest came on a touchdown pass from Buersmeyer to Koelling. Koelling also successfully made the conversion. The Independents twice threatened to score but each time they were turned back by a strong Fraternity team defense.

The All-Star Fraternity team was coached by Connie Buersmeyer of Theta Kappa Phi, the intramural football champs. Assisting him were the managers of Pi Kappa Alpha and Kappa Sigma, the runners-up in intramural football competition.

#### Allgood Drills Squad First Games Dec. 1st

With Varsity basketball practice well under way, Coach Dewey Allgood has already begun to wonder as to his starting five in his first game here at Jackling Gym on Dec. 1. The first opponent for the cagers will be Harris teachers from up St. Louis way. In past season the Harris Quintet has not caused the Miners much trouble.

The squad will probably be built around Bob Faulkner and Gene Huffman, starters from last years team. Huffman will not return to practice until after the football season has ended by he is expected to round into shape by game time.

It looks like the Miner fans will be in for a far better season and the cagers a higher finish in the M.I.A.A. race.

But before we leave we have a question for women who wear slacks: Does your end justify your jeans?

## Springfield, Kirksville and Maryville Record Conference Wins Last Week

### Miners Retain 3d Spot

Last weekend the M.I.A.A. went the route with all teams participating in conference play. Up north we found Kirksville once again in the winners column as they defeated Warrensburg in the final quarter. Also Maryville, before a large homecoming crowd stormed the Cape Girardeau Indians 7-0, thus gaining their first victory of season. Elsewhere in the state the Springfield Bears toppled the Missouri Miners to the tune of 13-7 on a rain soaked turf.

The Warrensburg Mules trying to stage an upset over Kirksville did a fine job by leading the Bulldogs 7-0 for the first three quarters, however this was in sufficient as the conference leaders roared back with three TD's and two conversions in the final period to hand the Mules their second consecutive conference whaloping 20-7.

Southwest Missouri State remained in the middle of the M.I.

A.A. championship race as they nudged the Missouri Miners 13-7 on a gridiron ankle deep with mud. The Miners were in scoring position four times during the contest but were able to fully capitalize 1 of these occasions for pay dirt. Springfield's ground attack and main key to the victory lock was John Batten who personally accounted for 131 of the 241 yards gained on the ground for the Bears. This triumph was a big hurdle for the Teachers in

their championship bid.

At Maryville the Southeast Missouri Indians of Cape Girardeau were downed 7-0 as the Wildcats pleased a 4,000 strong homecoming crowd. Maryville spent the entire afternoon in Cape's back yard but was able to tally only once against the Indians. The Wildcats held the visitors offensive efforts to 2 first downs while collecting 12 for themselves. This was Maryville's first success of the season.

#### MIAA Conference Standings

	W	L	T	Pct.	Pf.	Op.
Kirksville	3	0	1	.875	72	33
Springfield	2	0	1	.833	51	32
MINERS	2	2	0	.500	56	54
Maryville	1	2	0	.333	27	49
Cape Girardeau	0	2	1	.167	13	32
Warrensburg	0	2	1	.167	26	45

### Look Out Moeller!

Ralph Moeller, sophomore halfback, being hauled down by Bruin defenders in last weeks Springfield-Miner game. Replacing injured Bob Proctor in the line-up, Moeller, although only a second year man, has contributed much to the Miner ground attack.

## 13 to 7 Defeat by Bears Ends Conference Hopes

### Miners Muff Scoring Opportunities

#### In Bowling to Springfield Squad

Suffering a 13 to 17 defeat at the hands of the Southwest Missouri State Bears, the Missouri Miners lost all hopes of gaining a third consecutive title as they were dumped completely out of the M.I.A.A. Championship race. With only one conference outing remaining, the Miners have no chance of even a share of the crown which will now go to either Kirksville or Springfield.

As in previous scraps this season the Miners were unable to advance the ball after they passed the twenty yard marker. In the first two minutes of the game the Silver and Gold had possession of the ball inside the Bruin ten yard line twice and both times they failed to score.

After muffed two scoring opportunities the Miners didn't again threaten the S.M.S. defenders until the last half when they scored. The Bears first tally came after a 68 yard drive when Ray Haley, Springfield Fullback, plunged over from the two. Johnny Batten, the Bruin's All-conference back, accounted for most of the yardage in the drive and also racked up a 39 yard sprint off-tackle.

Only two plays after the resulting kick-off, Ralph Harrison, S.M.S. safety, intercepted one of Howard Bullmans passes and ran it back to the S.M.S. 45 before being hauled down. Three plays later Harrison took a lateral from Batten and scooted around end for 44 yards and the last Springfield score.

Having missed their first extra point try, the Bears passed for the added marker and caught the Miner defense completely off-guard.

Paul Lees passed to Haley. The Miners came back strong in the second half and pushed S.M.S. all over the field but couldn't score. Twice again they were stopped by the Bear defenders inside the 10 yard line.

Finally after a 64 yard march in the fourth quarter the Miners scored. Runs by Ralph Moeller, Gene Huffman and Bill Roemmerman accounted for the yardage and quarterback Bullman carried the ball over for the score.

With 2 minutes left in the last quarter the Miners took possession of the ball again but gave it up after three incomplete passes and a kick.

### RIFLE SQUAD LOSES TO STRONG NEBR. U. TEAM

The Miner Rifle Squad opened its season with a loss to a strong University of Nebraska team. The score was 1867 to 1830. High man for the Miners was Alan Holiday with a 371 followed by Gockel and Schemel with 368. The remainder of the Miner high five was V. Potter, 362, and R. Holland 361. High man for Nebraska was Vincent Goeres with the very fine score of 387.

The Rifle Club this year has combined with the ROTC and varsity teams to form a new club. The club is open to all students and the teams are picked from its membership.

At the club's first meeting R. Holland was elected president, Charles Padden, secretary; John Schemel, Treasurer and V. Potter Executive Officer. This year's coach is SFC Robert C. Dunn of the Military Department. One of the first improvements made by the club and the Military Dept. was the painting of the range and the purchase of 4 new Spotting scopes.

The remainder of the schedule for the team includes M.I.T., University of Michigan, University of Missouri and 20 other schools.

"That brings to mind my girl friend's black garter: she's wearing it in memory of those who passed beyond."

A dumb gal is one that has to count on her fingers; a smart one is the one that counts on her legs.

es and a kick.

With this loss the Miners are now in third place in the conference standings and will remain their regardless of tomorrow's out-come.

## TEKES

(Continued from Page 1)  
the better.

This semester we have several new boys in our pledge class. They are Tom Sevic, Jack Humphrey, Dale Orrick, Art Soellner, Cal Felicetti, Charles Surman, Bob Brown, Paul Miller, and Ralph Perkins. The old pledge-class consists of Jerry Holder, Bob Hoffman, John Padan, and Bill Griffin. These four boys will be initiated after mid-semester.

HARVARD WILL OFFER  
NEW WRITING COURSE

Cambridge, Mass. (I.P.) — Instruction in writing will become an integral part of the General Education Program in Harvard College this year. A new composition course will be required of most freshmen, and at the same time, the General Education Program will become fully effective for all entering students, according to an announcement by Provost Paul H. Buck.

Under the new plan, student themes will be related to required courses in the Humanities, the Natural Sciences and the Social Sciences, which all students will take as broad education for citizenship and community responsibility. The new writing course replaces "English A," the writing course which has been required of almost all freshmen here since 1885.

The new writing course will continue throughout the freshman year and will require one-half the work of a regular full-year course. At the same time, the requirements for graduation will be increased from 16 credits to 16½ credits.

This step, approved by the Faculty of Arts and Sciences, carries out one of the recommendations made in 1946 by a faculty committee headed by Provost Buck. Their report was called "General Education in a Free Society." Courses in General Education, designed by outstanding scholars of the university with the needs of non-specialists in mind, were first introduced on a purely elective basis in the fall of 1946. After three years of trial, some courses were made compulsory for entering freshmen beginning in 1949.

NEW RULE BOOK FOR  
ENGINEERING AWARD

The Rules and Conditions for the fifth annual competition of the Lincoln Arc Welding Foundation's Engineering Undergraduate Award and Scholarship Program are now available in a twenty-four page illustrated booklet. The booklet shows pictures of the design and research projects described in award papers of previous competitions. Brief descriptions of last year's award papers are also presented along with a bibliography of welding texts and references.

This annual Program is a competition for undergraduate engineers to encourage them to use imagination and ingenuity in developing an engineering project in their own field. All registered undergraduate engineers are eligible to compete. Awards totaling \$6750 are made for the best papers on design of machines or structures, or separate components of machines or structures, in which arc welding is the method of fabrication. Welding research and maintenance projects can also be described. The sixty-three awards range from \$1000 to \$25. Scholarship funds totaling \$1750 are also awarded to schools for the establishment of scholarships in honor of the main student awards.

Rules booklets may be obtained by writing to The James F. Lincoln Arc Welding Foundation, Cleveland 17, Ohio.

Formal Pledging Held  
At Lambda Chi Oct. 22

The boys have been busy this past week trying to publish their new alumni newsletter, "The Blueprint." We are planning to keep the alumni posted as to the news of the fraternity and school events. "The Blueprint" will be published monthly and has already created some interest from the visiting alumni. Dennis Kulig has taken the job as Editor.

Milan Zupan, Hugh Blevins, Jim Thompson, and Robert Crosby have been selected to play on the Intra-Fraternity All Star football team, which plays the Independent All Stars Wednesday afternoon. Congratulations men.

Formal pledging was held October 22 for Bud Topel, Bill Campbell, Charley Moore, Warren Hooks, Don Stevens, Kent Smay, Bill Demarco, Ed Ballantyne, and Herb Pillisch. Congratulations men.

## MUSIC NOTES

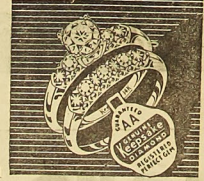

There is no tendency for frivolity in this column today, for we have suffered a stunning loss.

Jack Forbes, an integral gear in our organization, was buried by his friends last Monday. Theoretically, our loss is Heaven's gain, but why couldn't Heaven wait a hell of a lot longer?

An obituary is supposed to overlook the deceased's faults and emphasize his virtues. However, I can honestly state that Jack had no shameful characteristics or impulses, and any review of his life can be nothing but commendable. Physically small, he was a giant in every other regard.

Our respects and strongest sympathies are extended to Jack's hospitable wife, Margery, and to his saddened relatives and other devoted friends.

No longer roll their own.  
It's L.S./M.F.T., you see,  
From Burke to San Antonio!

Jay Chidsey  
University of Chicago

## STUDENTS!

Let's go! We want your jingles! We're ready and willing and eager to pay you \$25 for every jingle we use. Send as many jingles as you like to Happy-Go-Lucky, P.O. Box 67, New York 46, N. Y.

With one side for, and one against,  
Debaters can't agree,  
But one point is unanimous...  
It's L.S./M.F.T.

Grace Ivry  
Syracuse University

"The time has come," the Walrus said,  
To talk of many things—  
Of better-tasting Lucky Strikes,  
The cigarette for kings."

Andrew N. Vladimir  
Yale University

**L.S./M.F.T.-Lucky Strike Means Fine Tobacco**

COPR., THE AMERICAN TOBACCO COMPANY
