Missouri School of Mines & Metallurgy

VOLUME 40

ROLLA, MO., FRIDAY, MAY 14, 1954

NUMBER 29

Final Exam Schedule

FINAL EXAM SCHEDULE

Spring, 1954

Tuesday, May 25, 1954 — Free Day

May 26, 1954, 8:00 a.m., through May 29, 1954 — Final Exam Period

Theses will be due in the library May 19, 1954

Grades for graduating seniors and Master's degree candidates will be due at 12:00 noon on May 21, 1954.

Reports on oral examinations will be due at 5 p.m. on May 26, 1954.

All other grades will be due at 8:00 a.m. on June 1, 1954.

Grades for Ph.D. candidates are due in Columbia by 12:00 noon, June 2.

S.A.E. HEARS SPEAKER ON SELLING IN THE AUTOMOTIVE FIELD

Last Wednesday night, May 12, Mr. James H. Bryson, Field Sales Manager of the Lincoln-Mercury plant in St. Louis spoke to the MSM student branch of the Society of Automotive Engineers. The talk, which was given in the auditorium of the new Chemical Engineering Building, highlighted the advantages of selling in the automotive field.

Mr. Bryson's highly informative talk, which was supplemented with two films, was slanted towards the advantages that could be gained by an engineer in this highly competitive business.

Tuesday night, Professors Scofield and Remington of the Mechanical Engineering Department along with seven members of the S.A.E. student branch, went to St. Louis for the monthly meeting of the St. Louis Section of the S.A.E.

At this last meeting until September, the student members had an opportunity to speak to and thank Mr. Hazell of the Hazell Machinery Company who pays for half of the students ticket to the St. Louis Section's meetings.

Theta Tau Accepts Eighteen Into Fold; Campus Safety to Be Project Next Year

Theta Tau, a professional engineering fraternity here at the School of Mines, has just initiated eighteen new members into its fold. The men are chosen on the basis of scholarship and extra curricular school activities. They must pass a fraternity test and a general engineering quiz before they can be initiated into Theta Tau.

The formal initiation was followed by a banquet held at the Pine Room. There were several short speeches given by the newly initiated men at the banquet and Professor Joseph Butler, head of the Civil Engineering Department, was the principal speaker. He spoke on the "Big things are in the planning stage for next year. Our 50th National Anniversary will be a big event next October. Safety on the campus probably will be the main project to be undertaken, since we now have in our files the reports and surveys taken by the newly initiated members on campus safety."

Two of this year's projects were the car safety inspection and the campus T. B. X-rays given by the State Health Department. The safety check was under the direction of the State Highway Patrol, who wholeheartedly backs and approves the theory that all Missouri licensed cars should undergo such an inspection at least twice a year. The men to be congratulated on their initiation into Theta Tau are as follows: P. Gerard, W. Schuman, D. Chapman, R. Jones, D. Orrick, N. Cooksey, B. Smith, B. Burlison, P. Van Dusen, S. Thompson, J. McCarthy, L. Held, C. Goeckel, J. Bushko, R. Pfaff, V. Powell, S. Smart, and R. Steward.

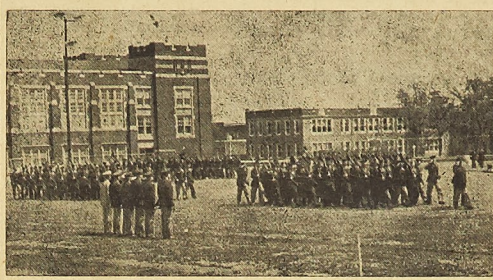

SUMMER REGISTRATION

Students for summer school will start registration in the Registrar's Office on June 7. Those who pre-registered and wish to make no changes will get their papers in the hall and go to the Library to complete their forms.

Those who did not pre-register should get their papers, go to their Adviser and get approval of their summer program, and then return to Parker Hall to complete their registration.

Students not pre-registered may still do so up to and including Friday, May 21st.

Veterans should see Miss Carney in her office for veterans forms.

Scene at the annual ROTC Review held Monday afternoon, May 3.

Elswick President of St. Pat's Board; New Men Take Office

The St. Pat's Board has been now officially set up for next years operations. Fourteen new board members and fourteen senior members will do the planning and work in order to make St. Pat's of '55 a big success. Jim Elswick will be the big man as it's president and head. His assistants are Larry Murphy, vice-president, Rudy Resnick, treasurer, and Fred Smith, secretary. Elswick follows in the steps of Conrad Neal, who as this year's president, brought to the School of Mines a new first in the Civic Drama Guild's three comedy stage plays.

The board is composed of 28 men. Two come from each social fraternity and four men come from the independent organization. Each man is elected from his own particular organization and serves on the board two years, one as a junior member from which St. Pat is chosen, and one year as a senior member from which the board's officers are chosen.

Professor Sam Lloyd, head of the Humanities Department, and Gale Bullman, head coach of the football team, serve as our faculty advisors. It is with their approval alone that the budget and activities may be set into operation. They actually have a job to do that most men on this campus do not realize the size and importance of their judgments. Their suggestions and aid are a big help to the board.

The men on the board for next year are as follows: D. Haber, N. Senter, J. Elswick, K. Smay, J. Franklin, J. Sturdy, R. Resnick, M. Webb, F. Smith, R. Skubic, J. Canady, L. Murphy, R. Newcomer, and M. Craig as senior members, and R. Williams, G. Miklos, J. Averill, R. Kline, J. Murphy, B. Burlison, D. Block, R. Knecht, J. Muller, R. Wiggers, N. Cooksey, and M. Mullins as junior members.

MR. GROMER PRESENTS TRAVELOGUE TO MSM FOR GENERAL LECTURES

Chas. Almstedt
Mr. Julius Gromer, popular lecturer, photographer, and world traveler, presented another moving picture travelogue before the Rolla Explorer's Club in conjunction with the General Lectures Program of MSM last Thursday, May 6, at 8 p.m. in Parker Hall.

Mr. Gromer, who has appeared here before, presented a travelogue movie - a good part of which was shot from a motor boat - which illustrated a journey from California to Alaska along the coast of the Pacific Ocean.

The program was very well attended, as was the last one, for Mr. Gromer has gained considerable renown as a photographer and world traveler, and recalled the excellent film shown last time he was here in Rolla. "From California to Alaska," as the program was entitled, showed the course of a journey through the major coastal cities of California, Oregon, and Washington, and then preceded to

MSM Glee Club; ROTC Band To Present Concert

Sigma Gamma Epsilon Holds Annual Spring Officer Elections

On Thursday, May 6, Sigma Gamma Epsilon, National honorary earth science fraternity, held its annual spring election of officers for the coming year. The results of the election were as follows: President, Leonard J. Keller; Vice-President, Byron K. Smay; Secretary-Treasurer, Charles G. Edwards; Corresponding Secretary, Donald H. Bailey.

After the elections, William Higgs, Grand Secretary-Treasurer of Sigma Gamma Epsilon, outlined the duties and importance of each office. He also commended the retiring officers, Albert F. Vondrasek, Lyle H. Shields, Frederick J. Campen, and Generoso V. Sancianco for the excellent job they did during the past year.

Plans were discussed for a field trip next semester to the St. Joseph Lead Company and to other places of interest in Missouri.

BELGIAN CONSUL TO SPEAK BEFORE MSM INTERNATIONAL GROUP

At their final meeting of the International Fellowship at the School of Mines will present Frans Taelmans, Acting Consul General of Belgium in Kansas City, speaking on "Belgium's Role in European Unification." Taelmans will speak to Fellowship members and Rolla citizens at the group's meeting Friday, May 14, at 7:00 in room 107 of the Mining Engineering Building on the MSM campus.

Taelmans' talk will touch upon the Benelux Economic Union, the Schuman Plan, Belgium's participation in NATO, and Belgium's effort in the European Defense Community. He will also discuss Belgium's activity in the Council of Europe. Taelmans graduated from Louvain in Belgium in 1945. After entering the foreign service of Belgium, he served as Secretary in several delegations to the Benelux Economic Union. During 1951 and 1952, Taelmans was Acting General Consul of Belgium in Chicago. After his recall to Brussels in 1953, he was an official in the Press and Information Service of the Foreign Office. Mr. Taelmans was appointed Acting Consul General of Belgium in Kansas City in March 1954.

A discussion period will follow in which everyone will have a chance to take part. Refreshments and a social period will conclude the meeting. At the meeting Friday night the Fellowship will elect its officers for the coming fall semester. Everyone is cordially invited to

Interfaith Council Elects New Officers For Next School Year

Charles G. Edwards

The newly appointed representatives of the Interfaith Council met Tuesday evening to elect officers for the forthcoming school year. The following church groups were represented at the business meeting: Fire-side, Baptist Student Union, Gamma Delta, and Canterbury Club. The slate of officers for 1954-55 is: Jack Jackson, President, Charles Edwards, Secretary, Vernon Reeves, Treasurer. To the retiring officers, a vote of confidence and appreciation for the excellent way they fulfilled their responsibilities.

The Council's business meeting was followed by a social gathering for all the member groups. The technicolor film "God of

(Continued on page 4)

ROLLA HIGH SCHOOL GIRLS CHOIR TO SING

Tuesday night a 8:00 p.m. the MSM Glee Club and the MSM ROTC Band in conjunction with the Rolla High School Girls' Choir will present a Spring Concert in Parker Hall. Admission is free, and everyone is invited to hear these students show their fine talents.

The Rolla High School Girls' Choir is composed of fifty members and is directed by Mrs. H. B. Estes, well-known and highly competent music teacher at the Rolla High School. The Girls' Choir sings at special occasions, the annual Christmas Concert, and at civic meetings.

The MSM-ROTC Band is directed by William Decker and is composed of forty members. The Band plays for Military functions, for all home football games, and offers two concerts each year.

The Glee Club is under the direction of John M. Brewer of the Humanities Department here at the School of Mines. It consists of thirty members, who sing at Convocations, special occasions, and offers one concert each year at MSM and three or more programs at other colleges.

PROGRAM

I
"Colonel Bogey" Alford
"Danny" Goldman
MSM-ROTC Band

II
"Hallelujah" (Hit the Deck) Youmans
"Halls of Ivy" Russell-Knight
"This Is My Country" Raye-Jacobs
MSM Glee Club

III
"Ballade" De Bussy
Piano solo by Maurice Suhre
MSM Variety Four

IV
"Little Brown Jug"
"Strangers in Paradise"
"Swing Low Sweet Chariot"
MSM Variety Four

V
"Romany Life" Smith-Herbert
"Battle Hymn of the Republic" Howe-Staffe
"Almighty God of Our Father" Will James
Combined Choirs

VI
"Holiday for Strings" Bennett
"St. Louis Blues March" Handy
"Morning, Noon, and Night Overture" Von Suppe
MSM-ROTC Band

REGISTRATION PROCEDURE

Sept. 13, 1954.

All students who preregistered and failed to register will register in the Rolla Building.

Students who failed a required course will go to the gymnasium for adjustment of their schedules.

Freshmen who failed a required course and who preregistered through the Registrar's Office will have their schedule adjusted in the Registrar's Office and will report to the Rolla Building as above. Freshmen not satisfied with the adjusted schedule may go to the gymnasium and discuss their program with the Freshmen Registration Committee.

New students, old students returning, and those not preregistered will go to the gymnasium.

New Freshmen will register on September 8.

THE MISSOURI MINER

THE MISSOURI MINER is the official publication of the students of the Missouri School of Mines and Metallurgy. It is published at Rolla Mo., every Friday during the school year. Entered as second class matter February 8, 1945 at the Post Office at Rolla, Mo. under the Act of March 3, 1879.

Subscription Price \$1.00 per Semester. (Featuring Activities of Students and Faculty of M.S.M.)

The Great Uprising . . .

Inter-Empire News Service
The year in 54 B.C., the place — Rolla, a province of the great Roman Empire.

The people and slaves are highly excited due to the recent arrival of 10 legions of the Great Roman Army who are here to put down a revolution of the students at the Gladiator Academy. They come here under the leadership of a commander Caesar, a well-known and respected figure in Rome. He was sent by the Emperor Philo Donnalionius to act as mediator in the strike, but rumor has it that he secretly favors the students while still trying to maintain an unbiased position.

At the present time, the army is camping outside of town awaiting further orders from Caesar, who is attending a grievance discussion with the leaders of the revolt and the board of governors of the school.

The thought is that Caesar alone is directing the talks, when actually the "Dirty Four", who everyone knows for their knavery and high-handed antics, are directing the bargaining.

These infamous characters were seen sneaking around town spreading rumors that the students at the gladiator academy are incompetent, and it seems they are trying to undermine the students' chances of success.

Everyone knows the "Dirty Four" and all have seen them in their chariots riding to attend an execution or some other function of a morbid nature. They are typically attired in black togas, and hold them over their faces in a manner resembling the method of one Jessie's Jamesicus, the famous chariot robber.

This "fearsome foursome" has been a party to some of the questionable goings-on, and were about to be investigated by the Committee on graft. But

this committee was disbanded due to the mysterious disappearance of several of its key members. To complicate matters, a group of more than 30 mercenaries, but highly influential nobles have backed the villainous quartet for fear of losing their titles and land.

The revolt started when several students walked out of class in protest to the stoning of several teachers, among them the professor of Chariot Warfare, who were martyred because they said Hannibal was a "neat guy" while Caesar was a "tool."

Late last night, the students congregated outside of the dispensary (named in honor of the late praetor, General Scottus) and performed the savage dance and ritual typical of gladiators before entering the Arena, while chanting denunciations of the elder statesmen on the Province Governing Board. They constantly beat their chests and shouted "Ugh! We are more mature than they."

Of course, some of the younger, less mature students want to go to school, but are staying out in sympathy with the wishes of the "big boys."

Caesar has just come out of Dorm 11, where the rioters have held sway, and has made the announcement that the strike is over. He made several concessions to win the urchins over, but that was expected. Since "Age bespeaks wisdom," they made several wise bargains, one of which was a governing board composed entirely of students who will oversee the operation of the academy, and will have the burdens of control on their manly shoulders.

Thus, the watchword of the Revolution has been fulfilled, "Liberty, Equality, Fraternity." (Whoops, wrong revolution. That comes later, during the "Great Enlightening" period of history.)

CONGRATULATIONS TO NEW FALL OFFICERS AT KAPPA SIGMA HOUSE

As the days get warmer and the end of the term approaches, smiles can once again be seen on the faces of the shotgun leery students. Just think of what life will be like with no exams to study for and no problems to hand in. Well we can dream can't we.

Congratulations to our new officers: Jim Elswick, Grand Master; Dale Chapman, Grand Procurator; Bob Myers, Grand Master of Ceremonies; Phil Roush, Asst. Grand Treasurer; Carl Glaser, Grand Scribe; Dick Baruch, Asst. Grand Scribe; John Schlensker and Walt Edwards, Guards; with these men at the helm it looks like we're set for a great Fall semester.

We noticed that, Frank "You can't do this to me, I'll resign" Ellis is wandering around with a rather bitter look on his face these days. It must have been something he ate. Our two dubs, Walt "Hole in One" Edwards and Jack "Sandtrap" Beirne, will take a crack at winning back the intramural golf championship this weekend. Lots of luck. If you've looked at the Bureau of Mines lot lately you would have noticed Bill "Just call me Jackie" Gartland trying to raise his batting average.

"Why does Geraldine let all the boys kiss her?"
"She once slapped a lad who was chewing tobacco."

THETA KAPS COME OUT ON TOP IN THE I. F. C. BRIDGE TOURNAMENT

Most of the Theta Kaps crawled out of their holes long enough to journey home last weekend to build up their morale for the coming onslaught of finals. When we returned though we found out we would have done better if we had stayed down and went to see "Yankee Pasha." Kline's eyes have been bulging half way out of his head ever since. Must have been some picture.

Congratulations are in order for T. A. Corcoran who was elected secretary-treasurer of the Interfraternity Council. I also think he should be ashamed of himself though for the records he bought last Monday. Old favorites are nice once in a while, but when they get ancient that's too much.

Carl Heumann was voted the pledge of the year of Mu Chapter of Theta Kappa Phi last week. This award is presented annually to the outstanding member of the year's pledge class. Nice going, Carl.

The cow house picked up its second trophy of the year when our four "Culbertsons," Goedel, Van Buskirk, Kline, and Douglass, won the I.F.C. Bridge Tournament. They breezed right through and wound up in a tie with the Teke's for first, but they went on to win the playoffs. They were a little punchy when they returned home but we finally understood from their mumbling that they had won.

Yallaly found out recently that he is pursuing the wrong profession. He has been successfully treating Bolger for the mange the past few weeks, and now he feels certain that he would make a wonderful doctor. Tune in next week for another episode with young Steve and his fight against disease in "Rex Yallaly, M. D."

And then there's the cannibal's daughter who liked the boys best when they were stewed.

SIGMA PI ELECT NEW OFFICERS, HOLD THE ANNUAL SPRING DANCE

Last Monday night, election of officers for the coming Fall semester were held. Those elected were as follows: Sage, Paul Gramlich; 1st. Counselor, Joe Bushko; 2nd. Counselor, Dave Boring; 4th. Counselor, Ron Rathbun; Herald, Bill Greer; Steward, Paul Gramlich; I.F.C. member, Bill Pope; Student Council member, Harold Olsen; Social Chairman, Jim Moore; Intramural Manager, Lanny Evans; and Pledge Trainer, Lanny Evans. Congratulations and good luck to you new men in fulfilling the obligations of your new offices.

Last Friday night at the annual Spring dance, the men of Sigma Pi and their dates swayed to the rhythm of Bob Catron. It seemed that the most popular spot in the house was the darkened card room, where all of the couches were filled to capacity. "Man Mountain" Olsen and "Dancing Dan" Gramlich seemed to be having the most fun, as they respectively kept the couches and the dance floor "hot." We have reason to believe that it wasn't really "Big" Ray Williamson's person-

ality that kept the men flocking around him and his date all night. What do you say about it, Ray? "Hood" Pope didn't turn up with a date, but his sorrows didn't seem to show, as he was under the influence of "a" big orange. The dance seemed to be the most successful of the year, as everyone seemed to enjoy it very much.

Many of the house track stars will try their luck at the annual track meet, this week. Joe "The Arm" Bushko is rated as one of the most likely not to place. "Rapid" Rudy Resnick will attempt to shatter the world record with a five minute half-mile. With so many "record breaking" athletes, we should have no trouble.

Foreground: Boeing RB-47E, world's fastest day-or-night long-range reconnaissance plane. Background: Standard B-47E six-jet bomber.

What do you want most in an engineering career?

Is it room to grow? Then join a company that's growing. Boeing, for example, has grown continuously throughout its 37-year history of design, production and research leadership. There's always room up ahead—and Boeing promotes from within. Regular merit reviews are held to give you steady recognition.

Do you want long-range career stability? Boeing today employs more engineers than even at the peak of World War II. Here you'd work on such projects as pilotless aircraft, research on supersonic flight and nuclear power for airplanes, on America's first jet transport, and the world's outstanding jet bombers.

Do you want variety of opportunity? Aviation is unique in this respect. It offers you unmatched variety and breadth of application, from applied research to production design, all going on at once. Boeing is constantly alert to new materials and new techniques, and approaches them without limitations. In addition, Boeing's huge subcontracting program—requiring engineering co-ordination—offers you contacts with a cross section of American industry.

Boeing engineering activity is concentrated at Seattle, Washington, and Wichita, Kansas—communities with a wide range of recreational opportunities

as well as schools of higher learning. The company will arrange a reduced week to permit time for graduate study and will also reimburse tuition upon successful completion of each quarter's work.

There are openings in all branches of engineering (mechanical, civil, electrical, aeronautical and related fields) for DESIGN, PRODUCTION and RESEARCH. Also for physicists and mathematicians with advanced degrees.

For further information, consult your PLACEMENT OFFICE, or write RAYMOND J. B. HOFFMAN, Admin. Engineer Boeing Airplane Company, Wichita, Kansas

THE MISSOURI MINER

PAGE 3

MSM Golfers Victorious; Capture Second Straight Conference Championship

The conference golf meet was a great success for the Miners. Ken Lanning was the medalist with 146 strokes for 36 holes. Ken was playing good golf all morning, but his teammate McCullough was just one stroke off the pace with 147. Huffman and Penn carded 167 and 173 respectively.

There were only three teams entered this year out of the possible six conference schools. Warrensburg finished second with a total of 662 strokes. Springfield was just one stroke behind them with 663. The Miners' total for the meet was 633. This is recognized as one of the best golf scores in MSM history.

Lanning had the low round of 70. He shot 36 on the front nine and then came back to fire a blazing 34 on the back nine. His first round score was 76. Bass of Springfield was the closest opposition to Lanning, but even Bass's best round was just 75. He shot a 76 on the second tour of the links, but couldn't touch the Rolla boys.

Cochran entered from Maryville, but had no other teammates. His scores were 80 and 83 for a total of 163. Since he was

not part of a full team, his score will not be entered in the books.

MINERS LOSE OUT IN CONFERENCE NET PLAY

The Miners' tennis team was not too successful at Springfield. They were able to tie for second place with Maryville, but were still far off of Warrensburg's first place score. The Mules brought home 28 points, while the Miners gathered in 6. Cape scored 3 and Springfield none. Kirksville had no entry in the matches this year.

Warrensburg had the winner and runner-up spot in both the singles and doubles. Roth won his first singles match, but was defeated in his next match. Link also won his first match, but met with the same fate as Roth. Saussele and Link won their first doubles match, but that was as far as it went in the doubles also.

The conference champions have not been decided as yet. Since all the contenders are from Warrensburg, the winners will be determined at some late date.

(Continued on Page 4)

By Chas. Hunter

While at the conference track meet last Saturday, your reporter noted a few facts that he thought would be of interest to the Miner readers. The weather was cool, about 45 degrees, and rain threatened most of the afternoon. The track was quite soft, but didn't seem to hurt the results.

Cape had its eye on the crown from the very first event. They took second and third in the Javelin, and went on to place in every event except the open quarter-mile and two-mile. They won three firsts, five seconds, three thirds, three fourths, three fifths, and 880 yd. relay while placing third in the mile relay.

Warrensburg was accused of fouling and was disqualified in three races. This in itself was more than the margin of victory which Cape needed after the final gun.

Fritz of Cape was the one-man gang, as he accounted for

15 of Cape's 63½ points. The Indians had much more strength than was expected. They took ten places out of a possible thirty in the field events. This gave them 28 points.

The Miners were a fourth place finisher with a second place in the mile relay. It was undecided until the final event of the meet whether Springfield or the Miners would be fourth. As it turned out, the Miners showed well in the relay and were able to gain fourth over Springfield by a half of a point.

Some of the individual performances by the Miners were outstanding. Gene North again showed his ability by gaining a tie for first in the pole vault. When the bar was at 11'6", he cleared it by at least two feet, but when it was raised to 12'6", he was unable to make it again.

The field events were a great disappointment to the men from the Mines outside of North's tie for first. We didn't get a point

SIGMA NU CAPTURES FIRST IN INTRAMURAL TRACK; PIKA SECOND

Sigma Nu fraternity with a decisive victory in intramural track has acquired its first intramural trophy of the year. With somewhere in the neighborhood of 40 points the cinder men were never seriously challenged by any other team. Finishing second were the men from the house on the highway, Pi K. A.

One of the outstanding performers for Sigma Nu was McCloy who won the 120 yd. low hurdles with a time of 14.4. Also performing in the hopping part of track was long lean Bob Nichols of Sigma Nu, who was edged to second place in the 70 yd. high hurdles at the last minute by Bill Hulbert of the Tech Club. Hulbert's time was 10 sec. flat. The 880 yd. tape was broken next by Jerry Zacher of Sigma Nu. A supreme effort by Zacher gave him a first place with Wiggs of the Tech Club second. Zacher's time was 2 min., 8 sec. Just to make sure of everything, the boys from Sigma Nu thought things over and decided they would take first place in the 440 yd. relay, and that is just what they did. Their time was 47.1 which came dangerously close to the record.

Living up to his title of intramural athlete of the year

in the other field events. Dave Anderson had the pleasure of running the fastest half-mile of his career, as he circled the cinders in 2:04.7 to take third. He also started for the mile relay team which placed second. Pete Weitzel was unable to place in any race except the low hurdles, but won them to be the Miners' only first-place winner. Pete was a surprise winner in the lows since Sylvara of Kirksville had the best times all season. Pete was not afraid of this in the least as he stepped into the starting blocks. He concentrated on his position and consequently got one of the best starts of his career. Sylvara was the winner of two first places, but didn't even finish the lows.

Roger Feaster won his heat of preliminaries of the 100 yd. dash with 10.1. This was his best time of the season.

Miners Take Fourth Place In MIAA Meet Held At Springfield

Pete Weitzel Takes Only First for Miners

By Rit Zdanis

With the conference meet last Saturday, the Miners put an end to their current track season. The boys from the Mines came in fourth in a field of six competing teams as they racked up a total of 30½ points. First place in the meet was awarded to Cape Girardeau. Cape copped 63½ of the total 238 points. Warrensburg took second with their 58½ points. Next in order was Kirksville with an even 48 points. The Miners placed next followed by Springfield with 30 points. Maryville took a low sixth place with their scant 7½ points.

The boys from the Mines managed to take the first berths in two of the events. North came through in his usual form to tie with Livasy of Warrensburg for the winning slot in the pole vault. Both men went over the bar with an excellent 12'3". In the low hurdle event, Pete Weitzel, who was definitely a dark horse, turned

was Paul Egan of Beta Sig. Paul took a first in the 100 yd. dash with a time of 10.6 seconds and a tie for first in the 50 yd. dash with Steinbruegge of Pi K. A. The time for the 50 was 5.9 seconds.

In the field events it was Morris with a first in the shot put with a heave of 38 ft. 2½ in. Charlie Sale of T.K.E. took the lead spot in the discus with a toss of 111 ft. Jim Gerard of Pi K. A. took second in both of these events. Winning the high jump with a leap of 5 ft. 6 in. was Atterburg. Another close event was the broad jump which was finally won by Pickering of Pi K. A. with a jump of 19 ft. 4½ in. Hammond of the Tech Club came in second with a leap of 19 ft. 1½ in.

Bets are still being taken on both the Tech Club and Pi K. A. to win the big crown. Intramural golf should tell the story. So gentlemen, place your bets.

in a speedy .261 to take the event.

Horn of Kirksville took the 880 with a 2:01.9 winning time. Miner Anderson placed third in the event to add three precious points to the Miner tally. Anderson ran the event in the fastest time that he has recorded his season. The Mile and the Two Mile were both taken by Springfield's Price. Price turned in winning times of 4:40.2 and 10:38.5 in the events respectively. The 100 yd. dash saw Cape take the first two berths. Fritz crossed the wire in :10.1 and Hargens took the second slot. Roger Feaster of the Miners got his fast legs moving and copped the third berth adding 3 more of the points to the score of the Miners. The boys from the Mines gained 6 more points in the 440 yd. run as Williams copped second place and Eshbaugh took fourth. The event was won by C. Anderson of Warrensburg who turned in a :51.5 winning time. Warrensburg took two places in the High Hurdle Event as Ruben crossed the wire with a :15.4 winning time and Russel turned in a swift time to take the third slot. The boys from Kirksville took the second and fourth slots in the event with Sharp and Aumais as the mail carriers.

Sylvara was the big gun for Kirksville as he took firsts in both the Javelin Throw and the Broad Jump. Sylvara heaved the shaft a distance of 162' 11½" and leaped 21'4½". Cape picked up 13½ points in both of the events. Baker and Fritz took the second and third places in the Javelin respectively. In the Broad Jump Cape's Fritz placed second and Spain tied with Wilks of Springfield for third place. The Miners did exceptionally well in the Relays. The relay team of Smith, Gribble, Feaster, and Eshbaugh placed third in the 880 Relay as they turned in a fast 1:33.4. Cape took the heat with a winning time of 1:31.2, while Kirksville took the second berth. Anderson, Smith, Williams, and Eshbaugh beat a fast 3:35.1 to place second in the Mile Relay. Kirksville won the event with a winning time of 3:34.2.

Williams of MSM placed fourth in the 220 yd. Run. Cape took two places as Hargens turned in a winning time of :22.7 and Fritz placed third. Warrensburg took the second place with the swift running of C. Anderson. The Miners failed to place in both the Discus Throw and the Shot Put. Copeland of Warrensburg took the Discus with a 137'7½" heave and Lohr of Cape Girardeau copped the Shot with a heave of 45'3.75". The boys from the Mines also failed to place in the High Jump. The event was taken by White of Springfield and Day of Warrensburg. Both men rolled over the bar at 6'1". Looking upon the season as a whole, the Miner team has done an excellent job. Next year promises to be a hot year for MSM as Feaster and Eshbaugh will be carrying the brunt of the load. This season's record plainly shows the capabilities of both men. The record of 83½ points in one season, which was set by Fred Smith in 1952, was put in jeopardy this year by the fast Eshbaugh. It will be interesting to see if the speedster can break it next year. The record book shows a job well done this year by a fighting Miner track team.

"IT'S TOASTED" to taste better!

WHY do thousands of college smokers from coast to coast prefer Luckies to all other brands?

BECAUSE Luckies taste better.

WHY do Luckies taste better?

BECAUSE Lucky Strike means fine tobacco. And that tobacco is toasted to taste better. "It's Toasted"—the famous Lucky Strike process—brings fine tobacco to its peak of flavor... tones up this light, mild, good-tasting tobacco to make it taste even better—cleaner, fresher, smoother.

SO, Be Happy—Go Lucky. Enjoy the better-tasting cigarette—Lucky Strike.

LUCKIES TASTE BETTER Cleaner, Fresher, Smoother!

ROTC AWARDS
Continued from Page 1

the highest average score in Rifle Marksmanship. This award was presented to Cadet 1st Lieutenant Dale Henry Emmling of DuQuoin, Illinois.

The Curator's ROTC Award consisting of a medal awarded yearly to the outstanding student in the sophomore course of the ROTC Unit based upon his University standing, his standing in the ROTC, and his aptitude for general service. This award was presented to Cadet Norman Dale Stephenson of St. Louis, Mo.

Colonel Eugene E. Moyers, Professor of Military Science and Tactics at the School of Mines, presented the following awards at the same ceremony.

The Society of American Military Engineers' Awards consisting of a Gold Medal awarded yearly to the outstanding senior an junior engineering student, respectively, enrolled in the Advanced Engineer ROTC Course. These awards were presented to:

Senior Award — Cadet Lt. Colonel James Kenneth Highfill of Doniphan, Missouri.

Junior Award — Cadet M-Sgt. Arthur George Baebler of St. Louis, Missouri.

The Sons of the American Revolution's ROTC Award consisting of a medal awarded yearly to a senior engineering student enrolled in the second year Advanced Engineer ROTC Course for outstanding work in the ROTC program. This award was presented to Cadet 1st Lieutenant Robert Noel Hoffman of Litchfield, Illinois.

The Chicago Tribune ROTC Award consisting of a medal presented each semester to students in the Advanced ROTC Course for military achievement, scholastic attainment and character. These awards were presented to:

Senior Award — Cadet Captain Robert Brewer Pyeaur of Hayti, Missouri.

Junior Award — Cadet M-Sgt. Richard Lee Kaiser of Mexico, Missouri.

Following the presentation of awards the persons decorated joined the members of the reviewing party, consisting of: Colonel Eugene E. Moyers, Dean Curtis L. Wilson, Colonel Daniel Kennedy, and Assistant Dean V.A.C. Gevecker.

GENERAL LECTURES

SIGMA NU'S AWAIT THE
COMING OF FINALS GET
READY FOR TRACK MEET

Well everyone around the "Snake House" is enjoying the lull before the storm, namely finals.

The past weekend the house was very empty, with everyone out in search of that three lettered variety of entertainment.

The "Thinclads" are all warmed up waiting for the track season to start, a swell job is being done by our new intramural coach, the "Gunny" in shaping up the team.

Sunday night the lights were seen to be burning late here at the "Snake House," many "Snakes" returning late from their weekend adventures said to themselves, "What! the boys up gunning?"

Then when inside they discovered that to their surprise that the pledges were doing the Saturday clean up, after missing it because of their dramatic "walkout." The pledges did accomplish one thing over the weekend though. They were out testing the new theory "that you too can walk from Columbia to St. Louis in twenty-one hours."

INTERFAITH COUNCIL

Continued from Page 1

the Atom" was shown and refreshments were served. One of the projects scheduled for the coming year is to investigate the possibility of establishing a Y.M.C.A. in Rolla. The Council intends to determine the need and practicability of this proposal and to investigate ways by which the Association might be supported.

Once again the Council takes this opportunity to urge any recognized student church group who may not be presently represented to send two members to the next announced meeting.

Pikers Play Host to
Mothers of Members
At Real Wild Banquet

Last weekend the Pikers played host to the Mothers of the members of the chapter. Sunday saw a real wild banquet complete with ribs and juice, to which was added all sorts and sizes of cakes which were baked by the mothers. Just which cake took the prize is rather difficult to say, seeing that they were all so good. Our thanks to the parents for helping to make this Mothers Day such a success.

Congratulations go to John Howard who was initiated into Alpha Chi Sigma this last Sunday. Alpha Chi Sigma honors students in the field of Chemical Engineering. Congratulations, John.

After many trips to the river Bill McMorris finally came back with a trophy. Now the question is, just where did he buy them?

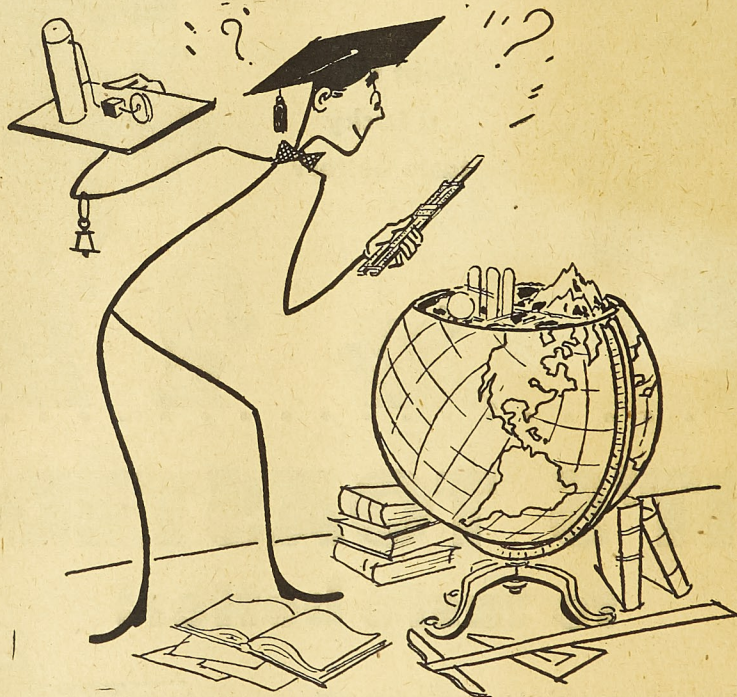

It's been rumored about that Gene Penzel hit an eagle on the No. 13 green of the MSM Golf Course. The witnesses were Ken Mann and Virgil Powell. Gene hit a 108 for the day.

A rather short one, but definitely groovy to say the least... Scoff.

The bee is such a busy soul,
He has no time for birth control.
And that is why in times like these,
You have so many sons of bees.

TERRESTRIAL ENGINEERING?

Probably not. As far as we know, there isn't such a term. Even so, the terrain of a manufacturing plant may have a vital effect on the design and location of its engineering equipment.

It certainly did in the case of our Belle, West Virginia, plant, which is just across the road from a flat-topped hill, 750 feet high.

Perhaps you'd like to match wits with Du Pont engineers, for we feel that this problem was interesting—and its solution ingenious.

Briefly, the situation was this: Carbon dioxide was to be removed from a mixture of gases by bringing them into contact with water in "scrubbers" operating at 450 psi (gauge). The inlet gases contained about 25% CO₂ by volume. Because of its greater solubility, most of the CO₂ would leave the scrubbers dissolved in the water.

It was necessary to reduce the pressure of this water to atmospheric and recover the dissolved carbon dioxide, since CO₂ was needed for use in a chemical synthesis. The degassed water then had to be pumped back into the pressure scrubbers, to repeat the scrubbing cycle.

Still like to match wits? How would you design an

economical closed system for this scrubbing water? After you've thought out your solution, you might like to compare it with the one given below.

Du Pont engineers made use of the precipitous terrain in this way: pressure on the water leaving the scrubbers was sufficient to force it up to the top of the hill for CO₂ recovery. The returning water thereby provided a pressure of approximately 325 psi (750 feet of head) at the base of the hill. This gift of pressure on the suction side of the water pumps resulted in considerable energy saving.

Do unusual problems such as this one challenge you and stir your enthusiasm? If they do, we think you'll be interested in technical work with the Du Pont Company.

to playing the annual Mo.-Ill. baseball game, and so a fine tradition was passed up. We of the staff feel that foul play was afoot, though, as Ill. was afraid to lose and so didn't want to play at all.

Anyhow, the brawl was resumed Saturday night, and ended up when everyone present pooped out.

The stage now shifts to the sports scene. Signs of great bustle and activity are evident as the trackmen labor to rid themselves of their beer-bellies so they will be able to trot again. Jim "Thorpe" Hubel was heard to mutter as he ran down the cinder path: "With the wind behind me, I think I can beat the new mile record." Well, good luck Jim, we're all behind you.

ter date.
The singles will be decided between Brooks and Huffman. The doubles winners were Hieder and Graham on one team and Brooks and Huffman on the other.

The Miners made a better showing than was expected, but could have done even better if John Miles would have been able to participate. John's absence was somewhat of a blow to the cause.
