## Miners Upset Favored SMS Bears

### Mr. Wilson Gives Talk At ASME - SAE Meet

Last Wednesday night saw one of the greatest performances ever put on for the students and faculty here at MSM. The setting was not the stage of Parker Hall but a long demonstration bench in the new auditorium of the Chemical Engineering building.

The footlights consisted of two spotlights throwing a flood of light on this unusual stage. The star performers were two objects-gasoline vapor and one man-Lou Wilson of the Ethyl Corporation.

All this may seem a bit flowery and quite a build-up to describe a demonstration of the dangers in the handling of gasoline, but very few of the more than 250 students and faculty members who attended this joint ASME-SAE meeting can say that they ever saw a better, more informative show.

A show it was, complete with sound effects, color, humor and ingenuity. No one could sleep through this performance if he wanted to do so, for one never knew when a nerve-shattering blast would come screaming out at them.

Utilizing every trick of a true showman, lights switching on and off, sleight of hand movements, and a sometimes morbid sense of humor, Lou Wilson drove home very effectively the points showing the great potential power and what is just as important, the great danger existing whenever gasoline is present.

Mr. Wilson is not new either to the show nor the Ethyl Corporation who produce gasoline additives familiar to every motorist. He has been with the company for 25 of its 30 years of existence and can well be called one of the pioneers of the gasoline additive industry.

But what was more important to the audience Wednesday night was the fact that Mr. Wilson has been putting this safety show on for the Ethyl Corporation since the second world war when the Ethyl Corporation was requested to do such a project as this.

Using a small scale gasoline service station, an electric arc from a light switch, a long glass tube and many other props, Lou Wilson showed in a way that another man lacking his ingenuity could never put across, a few basic characteristics of gasoline and what makes gasoline both man's best source of power and his most dangerous enemy. Such things as the three things needed for combustion of any fuel, the dense nature of gasoline vapor and its tendency to lie on the ground and collect in pockets where they can be dangerous, were brought out in his machine gun like presentation in such a manner that it will be some time before his audience here at MSM will forget them.

### Movies to Be Shown At Next Meeting of Independents, Oct. 11

A large group of well fed Miners left the first meeting of Independents with many memories being brought to life by those up to date World War I movies that were shown last Tuesday night.

It looks as if the two year campaign by Chuck "the lush" Miller is finally going to prove successful. Plans are in their final form for a fall outing, weather and pocketbook permitting of course.

Monday, October 11, has been set as the date of our next meeting with faculty advisor elections as well as discussion of the outing. U. S. Steel will provide the entertainment with movies of the construction of the U.N. building. Also the Keystone Cops will contribute 10 minutes of the latest, most modern slapstick comedy ever shown on the silent screen. Don't miss this one, you Independents.

Hats off to the A.P.O. and the Student Council for the first step towards a student lounge. Now that the motion has been passed, it should be only 1959 until we see the cottonpicking room.

### PIKERS WEEKEND DANCE AND HAYRIDE SUCCESS DESPITE "DEAR JOHNS"

All of the Pikers are in solemn reminiscence of the great times had on Friday night's hayride and Saturday night's dance. This Pledge Dance was the first social event of the season. All are sure the Pledges have an idea of how real partying should be carried out, Miner Style.

As the usual quota of Dear Johns usually come the day before the dance, this dance was surely no exception. The only ones that were surprised were the pledges that wondered "how could anyone do something like this to me."

Friday night's hayride almost turned into a canoeing party down on the Little Piney when a few of the stags played the part of "Tug Boat Anne". This little adventure didn't last for long after the owner of the canoes discovered that the boys wanted to sail around the world and confirm Columbus' fact that the earth is round.

The Pikers are still trying to solve last week-end's mysteries—The Big Date Scandals.

### RADIO CLUB HAS TALK ON FCC REGULATIONS IN FIRST MEETING

The Radio Club held its first regular meeting September 30. An informative discussion on the latest FCC regulations on licensing was given by Maurice Suhre. An invitation was given by William Kouns, acting president, to all those interested in radio to join the club. The advantages of membership as enumerated were—

1. Use of the Radio Shack.
  2. Use of Club transmitter and other equipment.
  3. Study of code through instructors and code machines.
  4. Increase radio knowledge by attending Club meetings at which discussions, lectures and demonstrations are given.
  5. Inter-change of "ham" ideas.
- Next meeting will see the arrangement of code classes and a tour of the Radio Shack. Watch the bulletin board for date and place.

Picture plus 3 cartoons at the Uptown Theatre next Wed. night.

### NEXT WEEK'S INTERVIEWS

The Dow Chemical Company will interview the January and June graduates in Metallurgical and Chemical Engineering on Thursday, October 14, 1954.

The Continental Oil Company, Production Department will interview the January and June graduates in Mining-Petroleum Engineering on Thursday, October 14, 1954.

### MSM CHAPTER OF ETA KAPPA NU TO RECEIVE PLAQUE FOR SERVICE

Gamma Theta Chapter of Eta Kappa Nu, National Honorary Electrical Engineering Fraternity, on the Missouri School of Mines Campus, has just been notified that they have been selected as the Chapter which has compiled the best record of service for the last school year.

This selection was won in competition with 56 Chapters of the Eta Kappa Nu located on as many engineering college campuses throughout the U.S. The award will consist of a suitable engraved plaque which will be presented at a formal ceremony at a later date. It is expected that presentation will be made by Dr. Marvin J. Kelly, M. S. M. 1914, Eminent Member of Kappa Nu, and President of Bell Telephone Labs, who will come to the M.S.M. campus to make the award.

The award is made annually by the New York Alumni Chapter of Eta Kappa Nu to the chapter receiving such recognition.

### Gas Heat Turned on Soon at Sig Pi; New Fall Officers Chosen

Sigma Pi is beginning to get back to normal after a successful rush week. We formally pledged 17 new men September 20th. These included: D. Clabey, D. Crofts, W. Daylong, H. Dillard, D. Jones, J. Keyes, W. King, D. Kiohr, J. Lawson, C. Mazanek, A. Meyers, D. Rockwell, W. Shepard, K. Schultz, B. Bright, R. Schaefer, and J. Johnson. Welcome to Sigma Pi, fellows.

The kitchen got a face-lifting job before the rushers arrived and is in sprinkling shape. Last year, the pledge class donated to the fraternity, a floor polisher which arrived just before school began. Now our new pledges can keep the floors gleaming this year. Also, we have purchased several new pieces of furniture for the influx of new pledges.

Good luck to our fall semester officers: President, Paul Gramlich; First Counselor, Jim Moore; Second Counselor, Joe Bushko; Third Counselor, Dave Boring; and Fourth Counselor, Harold Olsen. With their capable guidance Sigma Pi should really go places this semester.

Too bad there isn't a badminton intramural contest. With flood lights installed on our court I believe we are becoming quite adept at the game.

Among other improvements to the house, we are planning to have a gas furnace installed. This will greatly increase the size of our recreation room and permit the installation of a ping pong table. Then watch out for Sigma Pi during Intramural ping pong.

And to round out a full schedule, Joe is in love again! That's news?

### New House Overflows As Tech Club Boasts Total of 115 Members

As things settle down to another peaceful (?) term, we find that approximately 115 men are now members of the Tech Club. That large sum and it takes a lot of work to manage the club efficiently. We'd like to thank our officers who are doing a fine job this year. Added thanks goes to Steve Fitzgerald who came down a couple of weeks early to assist in the moving of articles into the New house.

The club has started off slow in sports this term. The table tennis team started off with Charlie Berger and Armond Rios taking doubles from TKA. At the same time Bob Schneider took the singles match from TKA. Our 'doubles boys tasted defeat at the hands of the Tri-angle duo in the second match. The grid boys, in the first game of the season, were defeated by Sig Ep. (24-14). The football boys came back with a strong 46 to 7 victory over Theta Xi. Their attack was led by Guy Wiggs and Joe Chorzel pitching and running with Gib Jurenka and Jim Graham doing a noble job on the receiving end.

### BETA SIGMA PLEDGES HAVE "GET ACQUAINTED WITH ROLLA" NIGHT

The big talk among the Beta Sigs this week is the upset of our old rivals, Springfield, last Saturday. Everyone agrees that it was the greatest game ever, and we're looking forward to another victory tomorrow.

Another big issue is the rapidly approaching Homecoming. For just one week, Rolla, "Stud Town, U.S.A.", will be decorated with the loveliest sight of all, members of the opposite sex. For the benefit of all you late-comers, it is rumored that L. C. has several hundred prominent socialites waiting at the loading pens. If you don't have a date yet, get egg!

"Ole 'Bring 'Em Back Alive' Abendroth was out on another expedition this past week-end. Rounds fired—6. Total game bagged—1 squirrel. Ab sent it to the taxidermist to get it stuffed, but he told him that someone had already stuffed it—with buckshot.

Everyone around here is quite puzzled at a couple of the stud's weekly trips to St. Louis. When they are asked what the attraction in St. Louis is, they just mutter to themselves and walk away. How about it, Don and Bob?

Mr. Parker and Mr. Schlake seem to get quite a large charge out of picnics at Meramac State Park. The one last Sunday wasn't as enjoyable as it could have been, however. It seems that they forgot to take the candelabra along. Tap, Tap.

Anyone interested in forming a "Breakfast in St. Louis Club", please contact Jim Haber at 1337. Meetings are held on Tuesday mornings.

Anyone knowing the whereabouts of a good sewage system, please contact Rawee. While you're at it, see if you can pick up a good recording of "The High and the Mighty" for him.

The pledges have had a very busy week. Last Saturday was "Get acquainted with Rolla" night, which they all did, and Monday night they gave us a summary on what they learned. Very interesting. All the summer prizes were then awarded.

### Ye Olde Powder Keg Joins MSM Trophies

#### SCHOOL ACTIVITIES DISCUSSED AT MEETING OF STUDENT COUNCIL

The Student Council representatives met for the first time this year, last Tuesday, September 27. The meeting was the most active "first meeting" the Old Infirmary saw in many years.

Among the many things discussed were: class elections; Glee Club appropriations; standing committees for publicity; school improvements, general lectures, and student publications. The meeting resulted with the final approval, by the representatives, of the appropriations for the A.P.O. Lounge decorations.

The Student Council also tentatively agreed to provide the trophies for the St. Pat's float parade this year. Final action on this proposal will take place later in the year.

The drinking fountains purchased by the Student Council of last year have been installed on the intramural field and are in operation. The purchase and installation cost ran about \$700.

The Student Council will have close to \$2000 this year to spend on student improvements. Some ideas already suggested along the line of school improvements are the repairing of the water fountain in the center of the campus and the building of new football bleachers.

Improvements on the MSM campus sponsored by the Student Council include the water fountains on the intramural field and on the varsity field, and the new basketball scoreboard.

The Powder Keg, won last Saturday by the Miners, is sponsored by the MSM Student Council in cooperation with the SMS Student governing body.

If you have any suggestions for improvement around the school, relay your ideas to your Student Council representative.

Ye Olde Powder Keg trophy will soon join the many other M. S. M. trophies in the Miner trophy case, to remain there

#### STORY ON SPORTS PAGE

until next year at this time. The trophy was presented to Art Baebler, Student Council President of M. S. M. by the President of Springfield's student body, Jerry Anderson; after the Miners' outstanding 18-12 victory over the S.M.S. Bears last Saturday.

The Powder Keg trophy is a barrel-like affair made of solid walnut with brass bands and engraving plates. It was established two years ago by the two Student Body Organizations to symbolize the traditional rivalry between the two schools.

Last year, Springfield won the right to be the first to display the trophy by their 12 to 6 victory over the Miners. This year, they were again confident of keeping the Trophy and taking it back with them to Springfield. However, some great playing by the Miner team sent the Bears home a very surprised and empty-handed team.

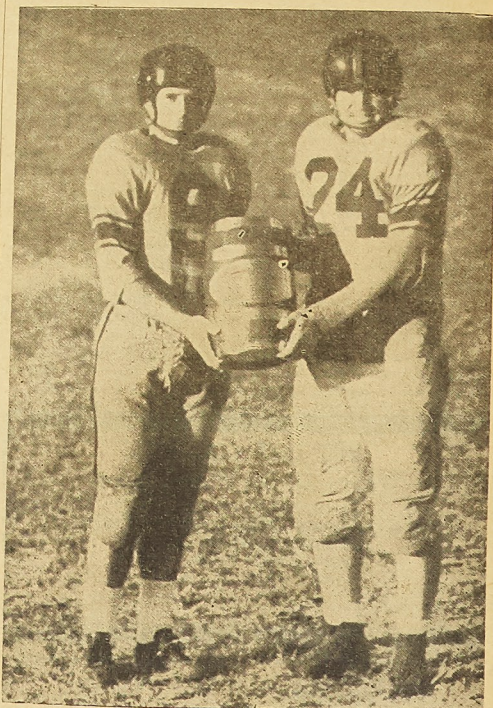

The trophy will be placed in the trophy case after the school year and when the score of the game is engraved on it.

Mr. McGoo, Bugs Bunny and Tom and Jerry Cartoons next Wed. night.

### Tau Beta Pi Plans For Semester Program

The first meeting of Tau Beta Pi, this semester, was held on Wednesday, October 6. Plans were laid out for this semester, and committees appointed to take care of all arrangements.

Tau Beta Pi is an Engineering scholarship fraternity. The Missouri Beta Chapter was established in 1908.

M.S.M. football co-captains Pete Weitzel and John McCarthy holding the powder keg won by the Miner team last Saturday as a result of the Miners' 18-12 Victory over the powerful SMS Bears.

THE MISSOURI MINER

PAGE 3

## Miners Surprise Springfield, 18-12

### Miners Face Cape in Second Conference Game Tomorrow

Tomorrow the inspired Miners from M. S. M. will travel to Cape Girardeau in an attempt to tumble the high-flying Indians of Coach Kenneth Knox. Cape Girardeau, who have yet to lose a game, have already proven their ability as they rolled over Arkansas State 32-0 and Memphis Navy 12-0. The only game that has put the Indians under pressure was the S. I. U. game where Cape squeezed by a hard-fighting team 7-6. Cape's well balanced team has shown all the aspects of a conference championship squad with a fast, hard-charging line, a group of backs that can gain ground, a capable quarterback that provides an aerial attack, and depth on the bench. With 15 lettermen returning to the Indians squad and several bright prospects showing in the ranks of the freshmen and veterans, The Cape team should be able to find several first ranking teams.

Men sure to make the headlines for Southeast Missouri State out of the wide field of talent are the quarterback Larry Yeargain, left halfback, Ken Hargins, and right tackle Ken Dement.

### THIS WEEKEND IN CONFERENCE PLAY

The Northeast Missouri State Teachers College Bulldogs of Kirksville open defense of their M.I.A.A. football title in a game with Marryville tonight.

It will be an all-league slate this week, with Saturday night games showing Springfield at Warrensburg and Rolla at Cape Girardeau.

Rolla got the jump on the field last Saturday by upsetting Springfield, 18-12, at Rolla. A three-touchdown underdog, the Miners came up with a bruising ground game after Springfield had scored first. Pete Weitzel, Keith Smith and Bob Helm each scored for Rolla. Charles Raich scored for Springfield.

Warrensburg lost its first game in three starts, 33-12, to the Pittsburg, Kan., Gorillas at Pittsburg. Pittsburg, a Central Kansas Conference power, scored first, and was ahead all the way.

Warrensburg's two touchdowns were made by end Ed Schriefer and halfback Stan Hensley, both in the last period.

Maryville was outscored by Fort Hays, Kan., State, 20-7, at Hays, while Cape Girardeau, playing at home, won its third victory against no losses, 12-0, over Memphis Navy. Cape used a blocked punt and a pass interception for its touchdowns in the last period.

By Charles Hunter

Last Saturday the Miners acquired the powder keg from Springfield. The victory was one of hard blocking, tackling and running. There is no question in the fans' minds, the Miners were up for the game, but this thought must be kept in mind also. Every school in the conference is much stronger than last, which simply means we are going to have to be up for every game we play from now on.

Cape is our next contest. It is going to be their homecoming. This, plus the fact they haven't been beaten this year, is going to put them under a lot of pressure from every side. For them to win the conference they are going to have to beat us, plus get by Springfield or Kirksville and possibly both. This is a big order for Hargins and company.

The next week Maryville moves into Rolla and our own homecoming. There is little question in most of our minds that the local boys are really going to be driving that after-

noon. Last year's game with Maryville was a sad disappointment to many of us. Several situations came up which could have gone either way, but always seemed to go against us. Maryville, with a few breaks, should be the chance for the Miners to get their breath before the final drive to the wire with Warrensburg and Kirksville.

The Mules should be in a lot better shape than last year. They have won two games out of three so far. There has been a great renewed interest in football in Warrensburg this year, shown by the 200 boys that answered the call to the first practice sessions. They have the same coaches they had last year, plus a lot of manpower. Their only loss was a 33 to 7 drubbing by the same Pittsburg team that beat us in our season opener.

If we get by Cape, Maryville and Warrensburg, it may well be the parents day battle between Rolla and Kirksville that will decide the conference winners. The Bulldogs have their usual powerhouse of fast backs and huge linemen. Their latest victory was over Ft. Leonard Wood's army team. Those boys are big too, which is the best indication that the Bulldogs are going to be very hard to beat.

A boy sought a job at a drugstore. The druggist prepared to fill in the application form.

"Your name?"  
Alexander Graham Bell.

"That's a pretty well-known name, isn't it?"

"It ought to be," the boy replied. "I've been delivering groceries around this neighborhood for two years."

### M.S.M. Disproves Experts By Defeating Springfield, Favored by 3 Touchdowns

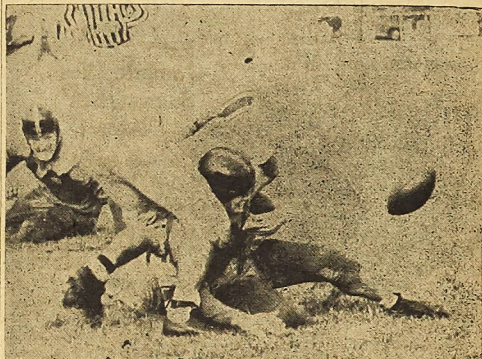

by Rit Zdanis

A great Miner football team went out on Jackling Field last Saturday and dealt Springfield a stunning blow. The Miners, rated a three or four touchdown underdog, proved that this year's conference title will be no walk away, as it was predicted to be. An uppy Springfield team, which has often stated that it wants out of the "small college" conference, was handed a sweet 18 to 12 defeat by a hard fighting, alert Miner eleven.

The boys from M.S.M., who fought against seemingly overwhelming odds, put on a show, the likes of which haven't been seen on Jackling Field in quite a few years.

T-master Pete Weitzel and strong-running Keith Smith

### Dark Moments for Miners — Weitzel Fumbles

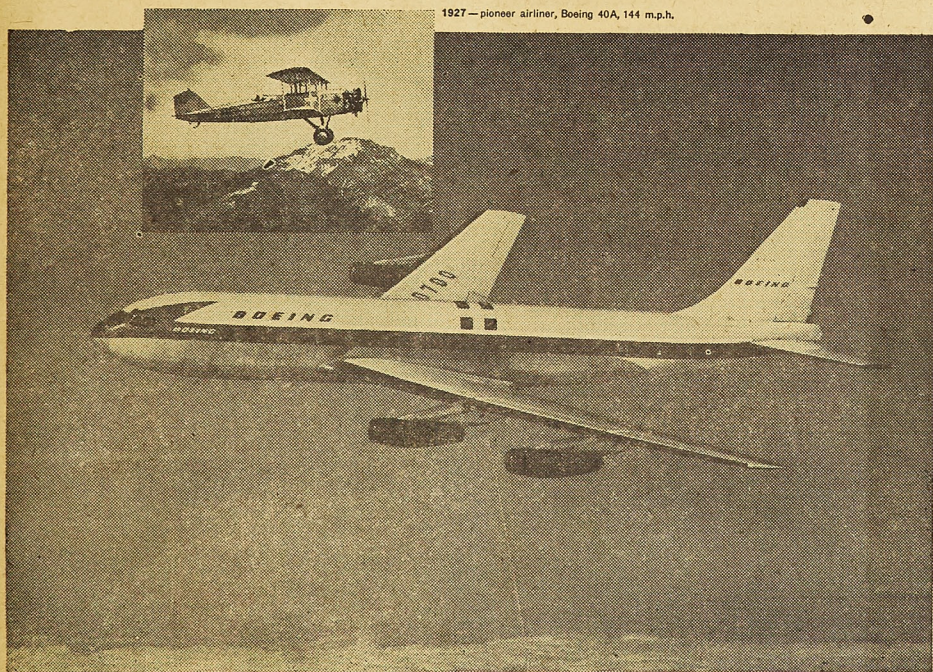

played the key offensive roles in the game that put Rolla on the top of the M.I.A.A. standings. Weitzel scored one touchdown and started the other two with pitchouts to Smith and Gribble. Springfield fullback Joe Miano started off the scoring with a touchdown, after a long pass had put the Bears in scoring distance. On the PAT, the pass from center was fumbled and the try failed. The Miners retaliated in the closing minutes of the first

were't enough, however, as the Bears regained possession after four plays. With time running out in the half, the Bears marched to the Rolla 20, where they also lost the pigskin on downs. The score at half time remained 6-6.

The Miner eleven receive the kick-off after the half and after failing to make one foot on the fourth down, the Bears took over. It looked as if Springfield would score, but Miner center John Summers intercepted a blocked pass and

(Continued on page 4)

1927—pioneer airliner, Boeing 40A, 144 m.p.h.

1954—America's first jet transport, the Boeing Stratoliner, 550 m.p.h.

### Two trail-blazing transports... both Boeings

America's pioneer transcontinental airline passenger plane, the 40A of 1927, was a Boeing. Today, America's first jet transport is another Boeing, the 707. This quarter-century of commercial design leadership is paralleled by military design leadership ranging from the old B-9 bomber to the fighter-fast Boeing B-47 and B-52 jet bombers of today.

For 38 years Boeing engineers have blazed exciting new trails in design, research and production. They're blazing them today in jet aircraft, guided missiles, and research in supersonic flight and the application of nuclear power to aircraft.

If such new-horizon engineering appeals to you, Boeing offers a reward-

ing career, whether you are in civil, mechanical, electrical or aeronautical engineering, or a related field. Boeing is expanding steadily, and employs more engineers today than even at the peak of World War II. Boeing also promotes from within, and holds regular merit reviews to give you individual recognition.

At Boeing you'll find an unusual range of opportunity, from applied research to production design, from work with new materials and techniques to contacts with a cross-section of industry through the company's vast subcontracting program. Boeing employs draftsmen and engineering aides to handle much routine work, thus freeing engineers for more stimulating assignments.

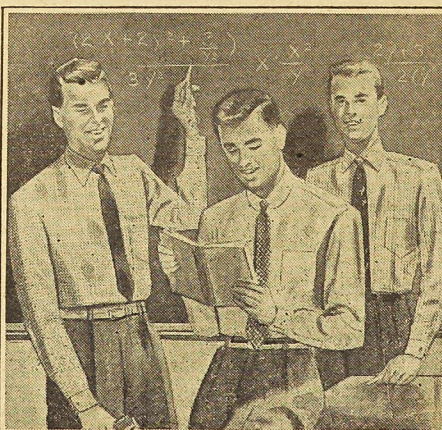

Boeing engineers enjoy stable careers — 46% having been with Boeing for 5 years or more; 25% for 10, and 6% for 15. Many engineers have been here 25 years, and 7 have been with Boeing for 30.

Boeing helps engineers continue their graduate studies, and reimburses them for tuition expenses.

For further Boeing career information, consult your Placement Office, or write: RAYMOND J. B. HOFFMAN, Admin. Engineer Boeing Airplane Company, Wichita, Kansas

### INTRAMURAL Sports

#### FOOTBALL

Last week saw another separation of the men from the boys, as the Intramural races in football and table tennis moved into the quarter finals. The athletic field saw plenty of action as Lambda Chi edged out Pi.K.A., 20-14 in a real thriller. The Theta Kaps rolled over the Engineer's Club by the score of 35 to 13. Sigma Nu also shifted into high gear and trounced Sig Ep 20-0. Beta Sig was hard pushed but eked out a 14-7 victory over Kappa Sig to also advance in the winning bracket.

Over in the losers side where it is "Do or Die", the Tkes came out on the short end of a 6-4 score against Kappa Alpha. Wesley was decidedly outclassed by Sigma Pi 44-9. At the same time the Tech Club was rebounding to rout Theta Xi 44-6, and Triangle ran the Dorm right out of the tournament by the overwhelming score of 45-0.

#### TABLE TENNIS

In the Celluloid world, commonly known as table tennis or ping pong, Beta Sig beat Tri-

continued on page 4

### Miners VS. Springfield

(Continued from Page 3)

scotted around right end to the Springfield 45 yard line. Then Weitzel pitched out to Smith, who carried the pigskin to the Bear's nine. The Miners then fumbled on the fourteen, three plays later. On the first play,

### No Joy in Springfield Tonight

S.M.S. Coach Bill Dellastations gloomily watches Miner-Springfield game late in fourth quarter.

The Bears fumbled and the Miners recovered. Weitzel, then, pitched out to Smith for the second time. This time, Smith went

over standing up for the second Miner tally. The extra point attempt was wide.

After the kick-off, a hard fighting S.M.S. team plunged all the way to the Rolla 24. Then the Miners took over, only to have Bear center Eugene Dineen intercept on the 30 yard line. John Androlewicz, a big Bear

Miner end Jim Murphy threw Quarterback Sullenger for a loss, thus forcing the Bruins to punt. A nice return by Fitzgerald and a 36 yard reverse around left end by Bob Helm set up the final Rolla tally on the Bear's nine. A two play T.D. march was climaxed by Weitzel's trick "keep play", as he pitched out to Gribble with five and one half minutes left in the game. After the kick-off, the Miners halted a Springfield drive. The Miners, then, ran out the remaining two minutes midst a standing ovation. Final score — 18-12. A well deserved victory for the hardest fighting Miner team in many a moon.

The M.S.M. campus now has possession of the "Powder Keg", an emblem of victory in this annual football classic. Now the miners will be fighting to give "ye ole powder keg" a permanent home.

### Intramural Sports

continued from page 3

angle, K.A. lost to Kappa Sig, Lambda Chi outslamed Wesley, while PKA was downed by the Tech Club. Also in the singles bracket, K.A. beat Sigma Pi in their postponed game of last week. For the losers, Sigma Nu won over Theta Xi, the Dorm beat Sigma Pi, and the Tkes overcame Sig Ep. Theta Kappa Phi had too much english on the ball for the Engineers Club. In the semi-finals of the winners bracket, Beta Sig licked Kappa Sig.

In the doubles bracket Beta Sig took Sigma Pi, Lambda Chi whipped Sig Ep, Kappa Sig lost to Sigma Nu and Triangle had too many angles for the Tech Club.

Over on the losers side, Theta Xi won by fortitude over the Dorm, Wesley beat TKE, Engineers Club forfeited to K.A. and Theta Kap won over Pi K.A.

Looking over the standings, Beta Sig and Lambda Chi are out in front with Sigma Nu close behind in the beginning weeks of the long road to the championship.

"I know I'm not much to look at," admitted the suitor. "Oh, well," philosophized his bride-to-be, "you'll be at the office most of the time."

### Lights Burning Late As Sigma Nu's Return To Study for Quizzes

If lights burning late into the night, if the sound of hair being torn from scalps by the handful, if the sounds of mournful groans and mumbled calculations — can be classified as typical of study, the Sigma Nu house is again hard at study. After digging out of the heavy snowfall which occurred on the morning of the first hour quizzes, some optimistic souls still have hopes of someday graduating, but most of us have given up in despair. Resigning ourselves to a lifetime as MSM students, we have joined the R. O. M. T. — Royal Order of Mug Tipplers.

One cheerful note on the scene is the football team. Under the coaching of our commander, Pat Broadus, the Snakes have been working out regularly since the first of September. The practice paid off last week as Sigma Nu defeated Theta Xi and Sig Ep in our first two games of the season. The team is in good shape and we are hoping for more victories to follow.

After the noise and confusion of Rush Week had died away, the following men were wearing the pledge pin of Sigma Nu: Phil Baker, Frank Berweiler, Pete Blair, Jack Emery, Reen Gant, Jim Hagood, Rick Housh, Dave Jenkins, Neil Koenig, Herold Oldham, Keith Reed, Bob Schwartz, Jim Sisson, Clark Smith, Herb Smith, Bob Sucher, and John Stoehler. Congratulations, men!

### Eleven New Pledges Received by Theta Xi

The house would like to thank Mr. and Mrs. Christopher and Mr. and Mrs. Williams for the excellent job they did in redecorating the house during the summer.

The house pledged the following men; Terry Kniman from St. Louis, Mo.; James Curley from Bronx, New York; Engene Russell from Cromwell, Conn.; Donald Squires from Springfield, Ill.; Jack Carter from St. Louis, Mo.; Jack Burton from Kirkwood, Mo.; Francis Rupert from Hialeah, Florida; Robert Garrett from Schenectady, New York; James Twyman from Bevier, Mo.; Byron Hardinge from Rolla, Mo.; and Marvin Bennett from St. Louis, Mo. Congratulations are in order to the Pledge Class for thoroughly trouncing the pledge class of Kappa Sigma in their recent football game.

Chester "cream" Hodge has been elected sports manager for the house and here's hoping he turns out some top-notch teams in the coming year.

Congratulations to Bill "String" Barlow in his pinning Miss Bertie Settle of Baltimore, Maryland. Say, what is this I hear about you losing your pin in the U.S. Mails, Bill?

### Triangle Invaded by KA! Sorry Boys, We Don't Borrow Cannons

Well, apparently KA thinks we have "their" cannon, as they pulled a sneak raid on our house last Saturday while a great majority of our men were at the football game. We are still wondering what possible claim they may have on that cannon to pull a trick like that.

Still a bit apprehensive about leaving the house unguarded, we did manage to get everyone out on the intramural field Monday to witness a 45-0 victory over the Dorm. It seems as though the players have worked out the bugs in their plays, and are at last starting to roll.

Another new pledge this semester is Ron Harris. Congrats Ron.

I would like to end this weeks article with this little gem about cans. It seems a teacher ask some of her young students to write some poetry. One little boy wrote, "My name is Sam. I want to be a man if I can and I think I can." This prompted a little girl to write,

"My name is Ann and I want to be a mother if I can and I think I can." Another little boy immediately raised his hand and came out with this gem. "My name is Dan, and I want to help Ann with her plan if I can and I think I can."

### COMO AND HOGAN

Perry Como, top TV and recording star, and Ben Hogan—only active golfer to win 4 national championships, enjoy a Chesterfield during a friendly round of golf.

**WHAT A PAIR!**

**WHAT A BUY — CHESTERFIELD King Size**  
(at the New Low Price) and Regular

Like Ben and Perry you smoke for relaxation, comfort and satisfaction. In the whole wide world no cigarette satisfies like a Chesterfield.

You smoke with the greatest possible pleasure when your cigarette is Chesterfield—because only Chesterfield has the right combination of the world's best tobaccos—highest in quality—low in nicotine.

In short, Chesterfields are best to smoke and best for you.
