THE MISSOURI MINER

Missouri School of  Mines & Metallurgy

VOLUME 41

ROLLA, MO., FRIDAY, APRIL 22, 1955

NUMBER 26

Charlie Spivak to Play For Miners Tues. Night

The mellow trumpet of Charley Spivak, famous band leader, and his band, will be featured in Parker Hall Auditorium on Tuesday, April 26, at 8:00 p.m. by the General Lectures Program.

Charlie Spivak, "The Man Who Plays The Sweetest Trumpet in the World," is the musician whose fresh and original idiom in trumpet playing is described as "honey in the horn." He is the leader of a band which rocketed to top flight stature so fast that it now ranks among the kings in the entertainment world.

Notches in Spivak's musical belt are 20th Century-Fox's "Pin-Up Girl" starring Betty Grable and "Follow The Boys" for Universal and a flock of box-office records created at the Paramount Theater in New York, the Hotel Statler, New York, the Palladium in Hollywood and other top spots. Spivak's music-making is so solidly established for its individuality that it can be identified whenever and wherever it is played, as "indubitably Charlie's."

Born in New Haven, Connecticut, Spivak got his first trumpet while still in grade school, a tiny instrument with the first valve practically on top of Charlie's nose. He went to Hill House High School in New Haven, studying the trumpet on his own time with George Hyer who was a member of the New Haven Symphony Orchestra. The fact that Spivak's family had chartered out a medical career for him didn't alter Charlie's decision to take to the brass, and when Paul Specht, then one of the country's outstanding bandleaders, offered him a job he signed up—and remained with the outfit for five years.

He then joined the Benny Pollack band, another number one outfit, and his next stop was the Dorsey Brothers band where he sat alongside such musicians as Glenn Miller, Skeets Herfurt and Bob Crosby. When Ray Noble came to America, he asked Glenn to help him organize a band, and the first musicians to be signed was Spivak.

When Spivak left to try his musical wings on his own, he became the highest paid free lance trumpeter in radio, playing on the Ford Symphony Hour, Kate Smith and Fred Allen broadcasts. When he felt ready to organize his own band, a lot of encouragement came from Glenn Miller who told him he had all the ingredients necessary for a winning combination. Spivak got his first big engagement at the Glen Island Casino, jumping-off-place for more than a dozen of the nation's top-flight bandleaders. He was so successful that the Casino, traditionally a summer spot, broke a precedent by keeping its doors open for the winter season to accommodate Spivak's drawing power. Spivak came to the Cafe Rouge of the Hotel Statler (then the Hotel Pennsylvania) shortly thereafter, and broke Glenn Miller's and Jimmy Dorsey's records there and then did the same thing at the Hotel Commodore. He has been a regular fall attraction at the Statler every season. A highlight was his award by Downbeat Magazine as the top sweet band.

Admission is by Student Activity Card, with non-students paying a \$1.00 fee.

OPENINGS AVAILABLE FOR MEMBERSHIP IN NEW SHAMROCK CLUB

The quota for this semester of the Shamrock Club is not yet filled and there are still some openings for members. Men who

CHARLIE SPIVAK

ENGINEER-IN-TRAINING EXAMINATION WILL BE GIVEN THIS SATURDAY

The annual Engineer-In-Training examination will be given on April 23, 1955 in Room G-6 Chemical Engineering Building, by the Registration Board of Missouri, for the benefit of those who wish to enroll with the Board as Engineers-In-Training, the initial step toward registration as a professional engineer.

The following information is given for those applicants who elect to take the preliminary examination:

The preliminary examination is a written examination consisting of two four-hour periods and covers the fundamentals of engineering. It is necessary, also broad in scope.

The applicant will have a reasonable choice as to the questions he elects to answer, since more questions will be given than are required to be answered. This choice, however, will not be unlimited because answers will be required in certain categories so that the examinee may show his knowledge of basic engineering fundamentals.

The examinee may bring to the examination any textbooks or reference books which he thinks may be helpful. Applicants are strongly urged to prepare for the examination by a thorough review of the fundamentals of an engineering education.

Non-graduating students eligible to take the examination will be June graduates or January, 1956 graduates.

Application forms may be obtained at the Civil Engineering Office, and a fee of \$5.00 in cash, money order or bankdraft is required with the application.

Sample questions are available at the Civil Engineering Office. However, these sample questions can only be taken as indicating the general type of questions to be expected in the April 23 examination. Sample questions are all inclusive or exclusive.

are presently enrolled as students, will have up to the end of this semester to apply for membership. Next semester, incoming freshmen will get first priority for entrance into the club. Only if there are openings after the freshmen have been admitted, will upper classmen be considered.

The purpose of the Shamrock Club is to serve the best quality food available, at reasonable rates. Once operating, the Shamrock Club will have full rights and privileges as that of the other food co-ops on the campus. If you are at all interested, please contact Norman Walker or Bill Bohling at 1108 Pine Street, and watch for our notices for the next meeting.

Bloodmobile to Visit Rolla Monday; Many Students Expected

Next Monday, April 25th, the Bloodmobile will again visit Rolla. The Bloodmobile will be at the Episcopal Church between the hours of 8 to 12 in the morning and in the afternoon between the hours of 1 to 5 p.m. So let's all try to make a trip up there and give a pint.

As in the past the Alpha Phi Omega Fraternity will award the traveling trophy to the organization with the highest percentage of donors. Last semester this trophy was awarded to the Theta Kappa Phi Fraternity. Through the courtesy of the Military Department, a merit will be given to each R.O.T.C. student who donates a pint of blood.

The per cent of donors last semester was below 10% of the student body. This is not a good showing for us Miners. Let us try to raise the per cent this time to 75%. This could be easily accomplished with the help of each organization on the campus. So let's all go up Monday and donate a pint of blood. The members of APO are hoping to see a more competitive spirit between the different organizations.

Remember, there is no SUBSTITUTE for BLOOD. It cannot come from a physics book or calculus book. It must come from the human veins.

Alumnus Refunds \$200 Scholarship Received in Soph. Year

Fred William Schmitz, '45, has written to Dean Wilson sending him a check for \$200 as a refund of the Lucy Wortham James Scholarship he was granted at the beginning of his sophomore year here in 1943. Fred was under no obligation to return the money, but he stated in his letter to Dean Wilson that he wished to return the amount of the scholarship granted to him in order to make available an additional scholarship through the Lucy Wortham James Foundation for another deserving boy next fall.

Fred has recently been transferred to Sterling, Louisiana, the newest plant of the Commercial Solvents Corporation. He has charge of the research laboratory and power plant.

NEXT WEEK'S INTERVIEWS

North American Aviation, Inc., Downey, California, will be on campus Monday, April 25 to interview all degree levels graduating in Civil, Chemical, Electrical, Mechanical and Physics majors. All interested individuals are requested to secure a place on the schedule.

A representative of Convaire, Fort Worth, Texas, will be on campus Wednesday, April 27 to interview all degree levels of Physics majors. The added activity and work in nuclear energy has dictated this return trip at this late date. All interested seniors and graduates are requested to secure a place on the interview schedule.

Representatives of the Kansas City District, Corps of Engineers, will be on campus Thursday, April 28, 1955 to interview all graduating seniors interested in their program. This district has over 500 miles of Missouri River as well as all military construction in a six state area under its jurisdiction. All interested seniors are requested to contact the Office of the Assistant Dean.

INDEPENDENTS TO HOLD SPECIAL MEETING FOR ELECTIONS ON MONDAY

The Independents will hold a special business meeting Monday, April 25, at 7:00 in room G-6 of the new Chem. building. This meeting has been called so that officers for the coming year may be elected. At this meeting, the student council representatives will also be elected. The Independents have 12 representatives on the student council each of these representatives has an alternate who attends the student council meetings in the absence of the representative.

As in the past, the student council positions are important ones, as these men act as envoys for the whole Independent group, and help to make decisions that pertain to the welfare of all students, and not a select few.

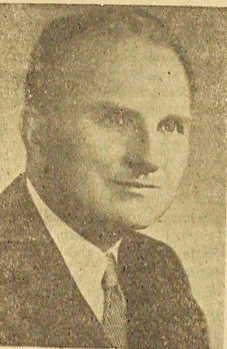

All seniors are requested to come to G-6 early, to aid in the election procedure. Remember, that's next Monday at 7:00 in G-6! Disney cartoons will also be shown.

Mr. Neil Douglass to Present Travelogue In Parker Hall Sat.

"Fantasy Holds the Reins", a film travelogue of Holland, Denmark and Finland, will be presented by the Rolla Explorers' Club in Parker Hall Auditorium Saturday, April 23, at 8:00 p.m.

The program is to be presented by Neil Douglas, famous writer, explorer, lecturer and photographer, and is the newest of his many film travelogues covering interesting parts of the world.

Mr. Douglas is an engineering graduate of Lafayette College, a Charter Member of Tau Beta Pi, All-American football player, and is active in many other activities. His professional affiliations include the American Geographical Society, Am. Polar Society, Am. Geophysical Union, Explorers' Club, Swiss Alpine Club, Arctic Institute, and British Glaciological Society. He is one of the eight glaciologists in the world (those who gather scientific data on active tidal-front glaciers).

NEIL DOUGLASS

The exciting travelogue to be presented by him will take the viewer to colorful Dutch towns with their picturesque canals, flower farms, arched bridges and many other wonderful sights. Then the journey to Denmark with its age-old customs. Finally to Finland, across the Baltic Sea. The land of enchantment will unfold its many charms before the viewer's eyes.

Though the entertaining lecture will be presented by the Rolla Chapter of the Explorers' Club, students will be admitted free of charge with the Student Activity Card.

Ray Skubic Selected as Fraternity Man of the Year CHOSEN OVER MANY CAMPUS LEADERS AFTER LONG DEBATE BY INTERFRATERNITY COUNCIL

JOHN MILES RECIPIENT OF ASME OUTSTANDING MSM STUDENT AWARD

John B. Miles, senior student in the Mechanical Engineering Department was the recipient of the American Society of Mechanical Engineers' 75th Anniversary Outstanding Student Award for MSM.

John received this award which consisted of a bronze medal and a citation during the Kansas-Missouri ASME Anniversary meeting held in Columbia, Missouri Wednesday night, April 13.

The award was an outstanding one in that John is one of approximately 150 other students throughout the country who received it and was unique in that his father, Dr. Aaron J. Miles, Chairman of the Mechanical Engineering Department introduced John to David W. Morgan, national president of the A.S.M.E. who made the formal presentation.

The award was made on the basis of scholarship, activities, honors, and personnel ratings by his instructors. Any student enrolled in engineering courses on our campus was eligible for the award with no preference given to department or year of graduation.

John was chosen over many outstanding student leaders on our campus by the officers of the student branch of the ASME. His outstanding record included an overall grade point of 2.93, letters in Basketball and tennis, president of Tau Beta Pi, membership in Pi Tau Sigma, Phi Kappa Phi, and a host of other honorary and Professional Organizations on the campus.

Lambda Chi Initiated Three Men Last Sun. Our Congratulations

Initiation was held Sunday, April 17, for three men. They are: Henry Lamb, Robert Hughes, and James Connors. Our congratulations to these men.

The annual House Birthday Banquet will be held Saturday, April 23. A large number of alumni are expected to be present.

After a long drawn-out discussion by the members of the Interfraternity Council, Ray Skubic of Theta Kappa Phi fraternity emerged as this year's choice for the Fraternity Man of the Year Award given each year by the Interfraternity Council. It is much to Ray's credit that he won out over several other fraternity men on the campus who rank high in scholarship and all-around activities.

Ray hails from Saint Louis, where he graduated from St. Mary's High School in 1949. While attending Saint Mary's he won city recognition as a top basketball player and participated in other sports equally well. While in high school Ray became well acquainted with the School of Mines.

In the fall of 1951 Ray enrolled at MSM where he chose Theta Kappa Phi as his fraternity. He received a curators scholarship, indicative of his outstanding high school record and his future success at MSM. He chose civil engineering as his curriculum and became a member of the ASCE. As a freshman he became a member of the Miner and Rollamo Boards, both in which he took an active part. He also continued his athletic career by going out for the basketball team and participating in various intramural sports.

As a sophomore Ray was elected to membership in the M Club and played basketball for the second year. For that season ('52-'53) he received all conference honorable mention. Besides serving as historian of his fraternity, he was elected Sports Editor of the Rollamo.

During his third year Ray was elected to membership in the Blue, Chi Epsilon, and the St. Pat's Board. He moved to a higher position on the Rollamo staff, being elected as Business Manager. In this capacity he also served on the Board of Publications. He also helped to start and became a charter member of the Newman Club, which is now established on the campus. He continued his outstanding performance on the basketball court and became well-known to the fans for his aggressive play on the court. At the beginning of his Junior year he also joined advanced ROTC.

To begin his senior year Ray was perhaps the most active man on the campus. He was elected president of Theta Kappa Phi fraternity, Editor-in-Chief of the Rollamo, and captain of the basketball team. At the same time he was serving as vice-president of the Blue Key and Treasurer of Chi Epsilon. He also served as President of the Board of Publications and continued his active participation in the M club and the St. Pat's Board, becoming senior member in the St. Pat's Board.

In addition to his many honors, Ray found time to participate in all intramural sports in which he was eligible. He has played softball, football, volleyball, track, horseshoes and handball, as well as wrestling which shows his all-around ability as an athlete.

Despite all his extra-curricular activities, Ray has managed to obtain a very commendable grade point overall of 1.73 for his 7 completed semesters and hopes to raise it during this semester.

He will graduate in June of this year with a Bachelor of Science in Civil Engineering. He has made many friends during his five years at MSM who will hate to see him go. It will be a long time before anyone so deserving is chosen as fraternity man of the year.

Receiving a medal as an outstanding student at the School of Mines is John Bruce Miles, right, during recent ceremonies at Missouri University observing the 75th anniversary meeting of the St. Louis and Kansas City sections of the American Society of Mechanical Engineers. Presenting this award is David W. R. Morgan, president of the Society, while looking on in the center is the father and sponsor of Student Miles, Dr. Aaron J. Miles, professor and chairman of the department of Mechanical Engineering at the School of Mines. (Picture by Rolla Daily Herald)

THE MISSOURI MINER

THE MISSOURI MINER is the official publication of the students of the Missouri School of Mines and Metallurgy. It is published at Rolla Mo., every Friday during the school year. Entered as second class matter February 8, 1945 at the Post Office at Rolla, Mo. under the Act of March 3, 1879.

Subscription Price \$1.00 per Semester. (Featuring Activities of Students and Faculty of M.S.M.)

THE CISTERN

Spring fever was upon the Miners, and George was feeling it too. His mind was no longer on his books, all he could think about were the birds and bees. His editor had noticed it also, besides that, he noticed that the Miners no longer looked forward to Friday afternoon just to read their newspaper, but now there was a new interest. His readers were migrating to coed schools.

Worried about this new fad, he instructed George, his ace reporter, to go incognito on one of these sex safaris, expenses paid of course.

George had always been a bit of an opportunist, so on Friday afternoon he found his way out to the "Village Pub" to start working on his expense account. The Miners were out strong and attendance was better than at a Physics class on a negative hour day. Someone stuck his head in the door and offered the first taker a ride to Coed U. There was an immediate rush for the exit. George was caught in it and pushed out the door into the gutter, but he managed to hold on to his glass. In a flash he was out of the gutter and into the car. It was about this time that Dr. Molartooth came stumbling out begging to be taken along. He convinced them that his finesse would be invaluable on an expedition of this sort.

The trip was uneventful except for frequent stops at bars and cornfields and other likely looking spots.

The first stop was at a female fraternity house. Nobody

home. George had never seen one before, being a typical Miner, so he went on an uncondemned tour. What he found cannot be disclosed here. The next stop was at a little hole fondly called the "Navels", where they could sit and spit and do the things they like to do. Liquid refreshments were served in quaint quart bottles.

They arrived just in time for the floor show which consisted of three lovely squirming coeds. Dr. Molartooth interpreted the dance for George as the primitive love dance of Aphrodite. The only accompaniment was a rhythmic tapping on the prop door over which was displayed, as explained by Molartooth, the idea of the dance. This was the Latin words: Laudius Audius Daudius Imidius Eaudius Sasius, which was abbreviated, L.A.D.I.E.S., because of lack of space. The dance was climaxed by the appearance of Aphrodite from within the chamber.

As she passed the table someone must have hit Molartooth in the breadbasket because he dropped all his rolls. Bowing low he excused himself and went gliding across the floor to where Aphrodite had relaxed. As he held out his hand to introduce himself he tripped on the cord from the one ball machine, landing in a puddle of three day beer. Recomposing himself, he sat down beside her and soon they were lost in silent conversation.

They left them there. George wrote the story and was fired.

OUTING ENJOYED BY THETA KAPS DESPITE RIOTOUS WATER FIGHT

Well, the old Cow House has returned to normal (?) after a very enjoyable outing in the wide open spaces. It all started with a challenge from Sig Ep. to a duel. We never did settle the duel; in fact the only thing that was decided, was that everyone had a good time and got wet. But J. C. still insists that there was some non-igneous rock in that cave. Did have a good Indian ball game going until someone tried to empty the creek on our backs. That night several of the more adventuresome guys took off in search of the fair sex. There are many varying alibis about the outcome. Some even claim Miz-zou has fewer girls than good old MSM, but we won't buy that.

The softball team won its first game by beating Theta Xi, 9-7. The team looks good and will really roll when "Fitz" gets the old arm uncranked. In tennis, Bob and Jim still are undefeated in doubles, while Dick has won two and lost one. The doubles team in horseshoes is also undefeated. Ray has split two games in singles.

There is a strange array of pictures in the South Room. First the large economy size, then a bearded lady. Rumor has it that a wall to wall print is next.

The seniors are spending many hours of anticipation on the front porch awaiting the appearance of the new grass

Pikers Pick New Men For St. Pat's Board; Congratulations Men!

Surprise, surprise, Duncan Block, the fellow who always said it could never happen to him, went and did it. He got married. Congratulations Duncan on hooking a swell girl like Shirley.

It seems that the boys are having a little trouble with their softball games. Our first softball game was rained out three times. At this rate, the finals will be played off in June. Hopes are high this year for winning the softball trophy. With a little luck and a lot of teamwork, the Pikers might just win.

Our new representative to the St. Pat's Board is Al Johnson. Congratulations Al. Judging from his past performance, Al looks like the man who can really fill the bill for the St. Pat's Board.

Well, Kenny Mann and his rulebook are still champs in bridge over here in the PiKA house. The point system has found a true crusader in Kenny. He has a little trouble making his bids, but this is just a temporary difficulty which is sure to be ironed out after he goes down a couple hundred more times.

WESLEY OPEN HOUSE PARTY HUGE SUCCESS, YOUNG LADIES ATTEND

The Saturday night open house party was very successful, due to the presence of some very attractive young ladies.

The next scheduled party will be May 14th. There will not be one April 29th because of the annual spring retreat of the Missouri Methodist Student organizations. Information is available elsewhere in this issue. Anyone participating is sure to have a good time. These organizations also include those from some colleges for women.

Sunday evening the group discussed communism. David Troutner was in charge of the program.

Don Stadler was in charge of the worship service.

Due to the absence of the song leaders, there was no group singing.

Robert Fuller and Don Stadler were selected discussion leaders from MSM for the spring retreat.

Jack Coleman was appointed to promote Power, Motive, and Concern at the retreat.

Papers explaining Universal Military Training were distributed and discussed; debated would be a better word.

BOYS TOWN OBJECT OF SIGMA NU'S AS WORK WEEK IS COMPLETED

By Clark Smith

Hello, coffee lovers!

Once again Sigma Nu has held their annual work-week. This year the object of our combined efforts was Boys' Town. Among numerous other things accomplished, the Great Sigma Nu Canal was built. A marvelous feat of engineering skill, it was several inches deep, and extended for miles in all directions.

The ranks of the unattached are being rapidly depleted by those who are foolish and/or lucky enough to find themselves a soul-mate. Our congratulations to Karl Swanson who has pinned a sweet young thing from Lindenwood, and P. P. Corneli who finally pinned Fi Fi. Fi Fi has been like a mother to all of us this past year. Also, congratulations to Royal S. Webster who has married up with a beautiful girl from the country — a foreign country: Cuba to be exact. Where have you been keeping yourself lately, Royal?

We're proud to say that we are back on top in intramurals, and plan to stay there. The Gock is doing a great job pitching shoes, and the softball team is in fine shape, and looks very promising.

Well, that's all till next time. See ya then.

Girlie: "Would you help a young woman in trouble?"
Sailor: "Sure, what kinda trouble you wanna get into?"

Professor: "Young man, do you know who I am?"
Freshman: "No, sir, but if you remember your address, I'll take you home."

She: Darling, did you ever try selling vacuum cleaners?
He: No, of course not.
She: Well, you'd better start now; that's my husband coming up the walk.

Triangle Winner of Basketball Tourney At Northwestern U.

The big news around the old Rock House is the addition of the new trophy to our collection. The round ball players journeyed to the National Triangle basketball tournament at Northwestern University and after a grind of four straight games, walked off the floor with first place well in hand. The Northwestern chapter took first in the beer drinking contest but we would like to inform you Minors that we were unable to compete, otherwise, we would have upheld the good name of the school. While on the subject of sports, I might say that the softball team blasted out eighteen runs in their first game to win easily. If such power continues, the prospects are good for a title contender. Hunnicutt and Hemken cut loose with a four bagger each and Macios "the Mouse" had the opposing hitters eating out of his hand.

This coming weekend marks the burning of our mortgage. Alumni and girls will invade our house and a big celebration is planned for all. Picnics by the river are planned and if we can keep everyone out of the water, it should be a very "dry" weekend. Of course that's using the word "dry" very loosely.

Intramural Track and Field To Be Held May 10 & 11

By Dick Okenfuss

The Intramural Track and Field Meet will be held on May 10 and 11. On Tuesday, May 10, the preliminaries will be run off. Then on Wednesday the finals will take place. All entries must be in by May 5. Each organization is permitted two entries in each event. One contestant may participate in two individual events and a relay. Six men will qualify for the finals in each event.

Points will be awarded on a 5-4-3-2-1 basis. Events will be as follows:

1. 50 yard dash
2. Shot put
3. 100 yard dash
4. Discus
5. 70 yard high hurdles
6. 120 yard low hurdles
7. Broad jump
8. 880 yard run
9. 440 yard relay

Golf also comes up in May. The golf tourney is scheduled for Saturday and Sunday, May 7 and 8. Thirty-six holes will be played, 18 each day. In case either day is canceled because of inclement weather, the 18 holes played will be the final score. Two men will compose a team. All entries are due May 4.

In softball, wet grounds is still hampering the schedule. In games played so far, Theta Kappa Phi whipped Theta Xi, Tri-Alpha defeated Engineers Club,

Sigma Nu beat the Dorm, and Sigma Phi Epsilon downed Beta Sigma Psi.

Tennis is progressing extremely well and with good weather could possibly be finished next week. Wesley Foundation defeated Sigma Nu and Pi Kappa Alpha beat Kappa Sigma in the semifinals of the winners bracket in singles. In the losers bracket, Beta Sigma Psi beat both Tau Kappa Epsilon and Sigma Phi Epsilon. Triangle defeated Lambda Chi Alpha.

The doubles is also progressing well. In games this week, first in the winners bracket, Tech Club beat Triangle. In the losers bracket, Beta Sigma Psi defeated Kappa Alpha and Theta Xi. Kappa Sigma beat Tau Kappa Epsilon and Sigma Phi beat Lambda Chi Alpha.

Horseshoes has also been held delayed because of rain, but in games this week first in singles, Theta Xi beat Kappa Sigma, Sigma Nu defeated Theta Kappa Phi, Pi Kappa Alpha whipped Kappa Alpha, and Wesley Foundation beat Lambda Chi Alpha.

In doubles, Tech Club whipped Beta Sigma Psi. Theta Kappa Phi defeated Pi Kappa Alpha, Kappa Alpha downed Sigma Nu, and Theta Xi beat Triangle.

As we have said before, the intramural sports season is drawing to a close. There are just five sports still undecided and they could completely change the current standings. If you noticed last week, only 130 points separates the top three teams. However, this does not eliminate the rest of the teams. Every team still has a fighting chance, if

By Don Binz

Among the several track events held during this past week throughout the conference, one was the meet of Washington University of St. Louis and North-east Missouri State College. Washington seemed to have no trouble as they convincingly defeated Kirksville 75-56. The Bears were the big guns throughout the meet, capturing 10 of the 14 first places. Washington's first places were registered in the pole vault, high jump, shot put, broad jump, 100 yd. dash, 880 yd. run and the mile relay. In addition, the Bears managed to sweep the 440 yd. dash and the discus throw. The remaining firsts left to Kirksville were the mile run, the 220 yd. low hurdles, 120 yd. high hurdles, and the grueling two mile race.

Southwest Missouri State College took on Missouri University this week in tennis and golf, but

not to win the grand trophy, to upset the leaders and really tighten up the race. So let's support intramural sports the rest of the year. They have given the school some excellent sporting events this year and deserve a big hand. The best thing would be to get out and back your teams whole heartedly. Let's have a good turnout the rest of the year.

were sadly up ended in both events. Tennis was a complete romp for M. U. when they shut-out Springfield 7-0. Golf wasn't much better as the Tigers built a commanding 12 1/2 - 5 1/2 point edge. The only boys for S.M.S. to rise victorious were Don Palen who shot par for 9 holes and Jim Dillon who breezed in with a 38 for nine holes. Don Palen was low for the day when he shot a 75 defeating M.U.'s ace, Tom Faerber 2 - 1. Dillon tied Don Collier 1 1/2 - 1 1/2 shooting a 79.

The School of Mines met Westminster, April 20, defeating them in track and golf, but coming in on the short end of the score in the tennis courts.

The trackmen of Rolla seemed to have no trouble in handling Westminster which was shown by the one-sided score of 96-35. Events won by Westminster were the mile run, shot put, 120 yd. high hurdles, 880 yd. run and the two mile run. Bob Williams, of the Miners, took the 440 yd. dash, Bob Helm heaved the javelin for a distance of 168' 6" and a first place. Gene North captured the pole vault, Bob Eshbaugh sped to a first in the 220 yd. dash and Evans took the high jump. Eakers threw the discus 124' 1 1/2" to take that event. Eshbaugh scored his second first of the day when he leaped

Meet The Miners Lose To Wash. U., 70 - 61

by Sam Bowman

M.S.M. has had the distinction of having one of the outstanding golf teams of this region for some time. The Miners have been on top consistently for the past several years not only in conference play, but against all comers. Such names as Bill Lanning and Shay Huffman have graced Miner score cards in the past seasons, but these outstanding golfers have been lost to competition by graduation.

With the parting of the backbone of our team, the Miners have had to look for new talent. Without looking too hard some excellent replacements have been found. Harry Penn is the only carry over from last year's team that won the conference title.

Some of the newcomers include Herman Roy. Herman is responsible for the Miners' victory over Westminster last Wednesday. He had a fine last round to ice the match for the Miners.

Other members of the stick squad include Fred Fletcher, Jim Joslin and Arch Burk. The boys have not been defeated as yet this year, and we hope that they can go undefeated again this year. The boys have met and captured Springfield 1-6, Drury 11-10 and last Wednesday finally won over a good Westminster team 6 1/2-5 1/2.

Next week we will meet some of the track team.

21' 1/2" in the broad jump, and the mile relay team of Hill, Eshbaugh, Bob Williams, and Bob Jackson, raced to victory with a time of 3:34.4. Roger Feaster turned in a spectacular show as he flew over the century dash course in 10 seconds flat. Only four men have ever accomplished this feat at Rolla. The record here is 9.9 seconds held by Fred Smith.

The mainstay of the Miner's attack was Bob Eshbaugh who scored 14 points during the meet. Eshbaugh's total points for this year now stands at 59. An average of about 6 1/2 points in the last events of the season would assure Eshbaugh of setting a new school record. Fred Smith now holds the school record with 83 1/4 points for one season.

Old Lady Luck continued to frown on the tracksters from M.S.M. last week. The Miners, yet to win a meet, were beaten by Washington University 70 to 61 on Wednesday and lost 83 2/3 to 47 1/3 to Southern Illinois University on Saturday.

The dual meet with Washington University in St. Louis was within the grasp of the victory-hungry Miners, but with the inevitable Miner luck holding true to form, M.S.M. was unable to take the meet-deciding mile relay and lost by a scant 9 points.

Miner weakness in the distance events again proved to be to our opponents' advantage. The Bears from "Wash. U." were able to sweep the mile, place two men in the half mile, and one man in the two mile run. If one third of the 22 points compiled in the distance events by the Bears could have been taken by the Miners, the meet would have been the Miners' first victory of the season.

The Miners' consistent-winning century man, Rodger Feaster, took first place in the 100 with a time of 10.3 seconds and second in the 220 yard dash at Washington. Bob Eshbaugh, number two Miner dash man, placed third in the 100 and first in the 220. The combination of Eshbaugh and Feaster netted the Miners a total of 14 out of a possible 18 points in the two shortest races of the meet—a confirmation of Miner superiority in the sprints.

The 440 yard dash, low hurdles, pole vault, javelin, and discus were the remaining events of the Washington "U." meet in which M.S.M. was either able to record first place or at least a tie for first place. Bob Williams stretched those long legs of his to win the quarter mile in a time of 51.8 seconds. The Miners first place in the low hurdles was chalked up by Pete Weitzel in 26.5 seconds. Bob Helm, Gene North, and Rex Williams were responsible

for Miner afternoon victories in the field events. Helm heaved the javelin 167' 1 1/2" for his win. Rex Williams took the discus with a throw of 123' 2 1/2", and Gene North tied for first place in the pole vault at a height of 12 feet.

The Bears cinched victory in the meet by winning the mile relay. The foursome from "Wash. U.", composed of Klub, Utz, Elsworth, and McGinley, turned in a very fast time of 3 minutes 29.4 seconds for the race, but they were hard pressed all the way. A margin of approximately five yards separated the anchor men of each team at the tape, but it might as well have been a mile as far as the points were concerned, for the Bear's margin of victory in the meet were those five yards.

Quite a different story must be told about the Miner-S.I.U. Meet. The lads from M.S.M. were only able to collect four first places in their afternoon's work. Miner victories were recorded in the 100, 220, mile relay, and javelin. The remaining track and field events were dominated by S. I. U.

Eshbaugh and Feaster reversed roles to take first and second places for M.S.M. in the 100 and 200 yard dashes. Feaster won the 100 in 10.7 seconds while Eshbaugh took second, whereas in the 220, Eshbaugh took the honors with Feaster placing second.

Bob Helm and Jim Murphy placed 1-2 in the javelin for the Miners. Helm's winning throw was 163.9', slightly less than his 1st. place mark against Washington University the previous Wednesday.

In the mile relay, a feat of sheer determination was necessary on the part of the Miner's "Pap" Allison to give M.S.M. first place. Allison was spiked on the foot accidentally during the first baton exchange, but he didn't drop out of the race. Allison continued to run and increased the Miner's lead which ultimately gave them victory. A time of 3 minutes 33 seconds was recorded for the relay.

It is unnecessary to make excuses for the Miner's track record so far this season. Although having a stronger team than last year, the Miners have been unable to receive the "breaks" so necessary to defeat the tough opponents thus far faced, but the trend of events is due to shift in favor of M.S.M. With that shift, the 1955 track record should improve considerably.

The guy dipped his first oyster in his first taste of tabasco sauce, ate the oyster, and jumped up with a scream. The manager ran over to him.

"Hey, now," he said, "you keep quiet or I'll put you out!" "I wish you would," the guy said, hopefully. "I'm on fire."

What young people are doing at General Electric

Young manager handles finances for building of \$5,000,000 plant

In the next ten years, the demand for General Electric industrial heating equipment will double. To meet this demand, a giant new plant (model at right) is being built at Shelbyville, Indiana.

The plant will cost \$5,000,000, and the man responsible for handling finances for the entire job is 32-year-old R. E. Fetter.

Fetter's job is important, responsible

Dick Fetter's work as Financial Manager of the Department began long before General Electric started building the plant. He and his group first had to estimate probable operating costs and predict whether the plant would be profitable.

Now, during construction, Fetter's chief concern is keeping track of all the expenses on this multimillion-dollar project. When the plant is completed, he will set up a complete financial section and manage everything from tax, cost, and general accounting to payrolls, budgets and measurements, and internal auditing.

25,000 college graduates at General Electric

This is a big job. Fetter was readied for it in a careful step-by-step program of development. Like Fetter, each of the 25,000 college-graduate employees is given his chance to grow, to find the work he does best, and to realize his full potential. For General Electric has long believed this: When young, fresh minds are given freedom to make progress, everybody benefits—the individual, the company, and the country.

DICK FETTER joined G.E. in 1947 after receiving a B.S. from Bucknell University, and serving 32 months in the Air Corps. At G.E. he completed the Business Training Course, class of '49.

Progress Is Our Most Important Product

METHODIST STUDENTS
TO BEGIN APRIL 29

The following article was taken from "MoMeStuMo", the official publication of the Missouri Methodist Student Movement printed March 28, 1955 in Columbia, Mo.

It is of interest to all Methodist students at the Missouri School of Mines and Metallurgy.

All students wishing information or who are interested in participating in the Spring Retreat, meet at the Methodist Fellowship House at 7:30 p.m., Sunday, April 24, 1955.

COUNCIL SCHEDULES
RETREAT APR. 29-MAY 1

The issue of prime importance at the Jan. 8 Council meeting was of course the spring Retreat. The dates of April 29-May 1 were confirmed and it was announced that Dr. Heil Bollinger would be the main speaker. Dr. Bollinger is a secretary of the Department of College and Religious Life of the Board of Education of the Methodist Church. He is especially interested in the educational phase of student work, and is our representative to the WSCF (World's Student Christian Federation.)

This makes him an especially good person to keynote the chosen Retreat theme. The Council did a lot of talking, thinking, and praying before deciding on this theme. We left the matter several times, coming back to it later in an effort to find a choice that would suit everybody. We wanted the theme to be challenging, yet inspiring, and at the same time down-to-earth practical. Finally, from a list of five possibilities, they decided on "If Christ Is The Hope of the World, What Next?"

The cost of the weekend will be about \$6.00, excluding transportation and any expense involved in the Saturday afternoon activity.

The conference (a MoMeStuMo synonym for Retreat) will open its doors at 4 p.m. Friday for registration. The two discussion leaders to be chosen from each school will meet with Dr. Bollinger at 6 p.m. and supper will be at 7 p.m. 2 p.m. Sunday has been set as the closing time.

The traditional Saturday afternoon excursion period is to be extended to offer alternatives to the usual boat trip. These will be organized definitely at the lake, but will probably include a cave trip, hiking and swimming.

In addition to the Constitution and the Retreat, several other items were taken under consideration at the Jan. 8 Council meeting.

Louise Novinger, state World Christian Community Chair-

National Convention
Of Beta Sigma Psi
Held Over Weekend

"What a blast!" "Truly enjoyed myself" and so on. These are the kind of comments that were heard during our national convention held here in Rolla this past weekend.

The delegates started rolling in Friday afternoon. The boys were a little shook when they got a call at the house to pick somebody up at the Rolla airport. It seems three of our brothers flew in from Manhattan, Kansas in their own private plane. Such is life.

Everybody became acquainted at our social outing Friday night. Afterwards we adjourned to the Top Hat, which really impressed some of the "beans".

Saturday was taken up with business meetings in the morning and afternoon. The final official event of the weekend was the banquet held at the Pine Room. Our main speaker was Mr. Fred Litschel of St. Louis. Mr. Litschel is an alumnus of Alpha chapter and is also a former national officer. He gave a very inspiring talk, to which everyone gave close attention.

After the banquet, we adjourned back to the chapter house for another evening of fellowship. One of the more fabulous characters to come to light during the evening was "Lash" Larue, of our chapter at Manhattan. He liked everything except "limeades". Most of the delegates and visitors had left by Sunday noon. We are sure the weekend was enjoyed by everyone concerned. Neil Wolf and his convention committee deserve a big vote of thanks for their work in planning this affair.

man, noted that some of last year's MSFF pledges were not in yet. After discussing the possibility of each school sending its pledge directly to national instead of through the state, the matter was dropped. A postcard vote is being taken to decide this important issue.

Jack Coleman, of Rolla, was appointed to promote Power, Motive, and Concern at the Retreat.

Our treasury contained \$154.61, according to Treasurer Russ Estes. From this several bills and traveling expenses were paid.

It was voted to have each school group choose two people to serve as discussion leaders at the Retreat.

As in previous years the group camp 2-C at the Lake of the Ozarks State Park has been reserved for us. It has 21 cabins, an assembly hall and a mess hall all strung out along the top of a ridge. One side of the ridge slopes down to a beach and waterfront.

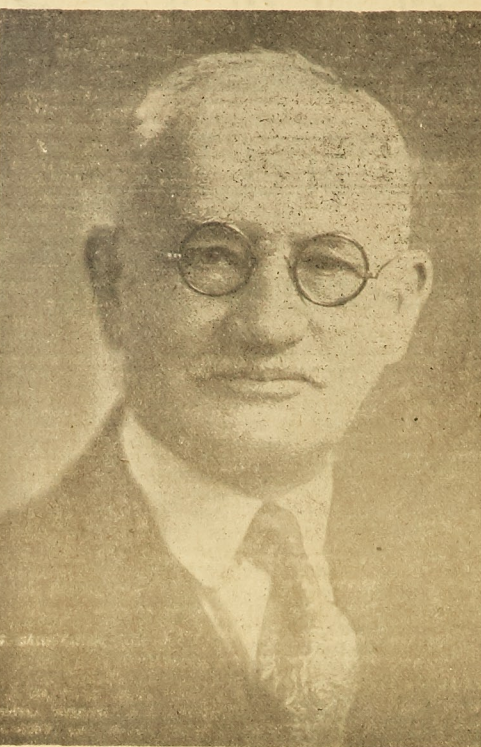

"Well I certainly made an impression on her," said the cane-bottomed chair as the nude model stood up.

DR. SCHARON TO SPEAK
ON URANIUM

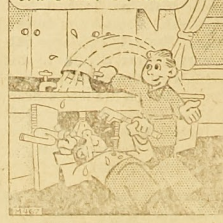

Dr. LeRoy Scharon of Washington University will give an open lecture on "URANIUM, That Magic Word" at Parker Hall on Thursday, April 28, at 7:30 p.m. The lecture is sponsored by Sigma Gamma Epsilon, honorary earth science fraternity.

Dr. Scharon has spent consid-

erable time on the Colorado Plateau with the Atomic Energy Commission working on problems in the geology, mining, and the prospecting of uranium. His lecture will cover all of these fields and will be illustrated by many colored slides. This interesting lecture was recently given for the St. Louis District Meeting of the American Institute of Mining Engineers.
