Final Exam. Schedule

SPRING, 1956

May 22, 1956—Free Day

May 23, 1956, 8:00 a. m. through May 29, 1956—Final Exam Period
Theses will be due in the Library May 16, 1956
Grades for graduating seniors and Master's degree candidates will be due at 12:00 noon on May 18, 1956
Report on oral examinations will be due at 5:00 p. m. May 23, 1956
All other grades will be due at 8:00 a. m. on May 30, 1956
Grades for Ph.D. candidates are due in Columbia by 8:00 a. m., May 30

Greek's Carnival Big Success for Palsy Fund

All of the fraternities on campus combined their talents in producing a dual purpose carnival last Friday evening. A large crowd attended and enjoyed the novelty and cleverness of the new trend. Thanks to the participation of the townspeople and students, a sizable amount of money was spent and the entire proceeds were donated to the Cerebral Palsy Fund which is located at the Trachoma Hospital. Since it was a carnival the ideas couldn't be original, but the workmanship and management involved in such a spectacle was so effective that very satisfactory results were obtained. Practically everything imaginable, within bounds of financial resources, was devised to achieve a good cross-section of a real carnival.

A trophy was awarded to Sigma Pi Fraternity for submitting the best booth. Their booth contained several items. The Sig Pi E.E.'s had their night as they demonstrated a series of electrical phenomena. They also had a softball connected to a string. The string was attached to the top of the booth directly above a bowling pin. The object was to swing the ball past the pin and hit the pin on the return trip. This must have been a physical impossibility, because the game remained unconquered throughout the evening.

The booth containing the pie throw was made more enticing by the pie splattered faces of certain cognizant individuals.

The dunking of a man in a tank of water by hitting a trip release with a baseball was another main attraction.

The jocks were baffled by the increased height of the basket and the misleading backboard in the shoot-a-basket booth.

Other booths included bowling, various games of chance, and some sort of conglomeration approaching a revolving room in which the victim was locked until he was sure up was down.

To complete the evening's activities the Sven Blue Notes from Lebanon played and sang various renditions from their musical vocabulary.

The weather man cooperated to the fullest extent Saturday when he put forth his best efforts in offering a beautiful day. The Greeks took advantage of the weather and Bermuda, Toredors, and T-shirts flourished in the warmth of the sun.

People continued to enter the Grotto, and finally the crowd reached its peak about 1:30. At this time "George Gratz and His College Cats" from Mizzou unsheathed their instruments and began to stomp. The screens in pavilion disregarded Poisson's Ration as the spectators combined with the sizzling music in causing their expansion. George and his "cats" continued their melodious selections until 5:00 p. m. when the games began. Of course by this time everyone was in extra-good shape and over anxious to indulge in the afternoon sports. By 5:00 p. m. there was plenty of dead weight to anchor the tug-of-war teams.

The plant life in the stagnate pond became inebriated after the first team had been dunked. A more hilarious spectacle occurred when the teams lined up for the distance throw in the egg contest. The object of the game was to see which team (consisting of two individuals still in a mobile condition) could throw the egg the farthest and catch it intact. After twelve teams had completed their first throw of approximately twenty feet, all but four of the nimble fingered receivers had smashed their egg. After another throw only two teams remained in the contest. When all of the clowns had lost out, the two remaining teams duelled for some time to determine the winner. The winner of the games was Beta Sigma Psi. They received the privilege of selecting the queen because they accumulated the most points.

Hilltoppers, Blue Baron, Big Success

Last Monday night, at two concerts, Parker Hall was filled twice with overflowing, enthusiastic crowds who wildly cheered the music of Blue Baron, his famous orchestra, and the Hilltoppers, America's popular recording and television singing quartette, when they presented a program of gay, rhythmic, modern music.

The musical evening was under the auspices of the General Lectures Committee, a group of representative students chosen by the Student Council, and faculty members who are appointed by Dean Curtis Wilson to supervise a series of entertainment features for the entire student body at the college.

Since there are only 515 seats in the largest auditorium on the campus, and there are almost two thousand students, it was decided by the committee to try selecting two performances of the concert—one at seven o'clock and one at nine.

The committee has discovered from the experiences of the last two years, that one of the most popular types of program for an M. S. M. audience is that of an orchestra concert. Several well-known orchestra leaders have given shows recently on the Parker Hall stage. To name a few: Les Elgart, Johnny Long, Charlie Spivak, Ted Weems, Wayne King, and last night, Blue Baron. The bands usually have a beautiful girl singer who captivates the near all-male orchestra before she even opens her mouth to sing.

Last night's performance was no exception when pretty, curvaceous, blond Wendy Moore sang with Blue Baron's orchestra. Mr. Baron said that M. S. M. had given his band an ovation they would never forget. One of the Miners accepted the invitation of Mr. Baron to "dance a minute with Wendy," and quickly came to the stage where he and the young singer performed an intricate jitter-bug routine. The contrast between partners was great—he, in the typical Miner attire of khakis, loud plaid shirt and heavy field boots, and she in three and a half inch heels, and a gold cloth dress in the mermaid fashion, with glittering jewels. The Miner carried off the affair with great aplomb, however, as Miners usually do.

The Hilltoppers captivated the college audience because of the type songs they sing and the way they sing them. The first song they ever recorded was one written by a member of the quartette, called "Trying," which catapulted the group to fame while they were still attending school at Western State College in Kentucky.

Parker Hall began to fill as early as 5:30 when students arrived to a rehearsal of the band and the quartette. Although there was an hour and a half wait until curtain time, the efficient Miners did not waste their time. Some studied, others played bridge, looked at color slides they had brought with them, or had lunch. The conversation around me was quite lively, and I received—eavesdrop fashion—a lesson in modern music, among other things. There are all sorts of graduations, I learned of the new music. There is Bop, there is Rock and Roll, and, of course, Dixieland. But there is a differentiation between New Orleans Dixieland and Chicago Dixieland. I overheard last night. There is progressive jazz, the blues, etc. That is a subject for study. Apparently, it is music that the Miners enjoy tremendously because approximately 1400 of them gave Blue Baron and the Hilltoppers appreciative applause.

By Mrs. Sam Lloyd.

Photo Club Elects Hopes for Future With New Leaders

At their last meeting the Photo Club of M.S.M. elected officers for the coming semester. Past president Orville Schafer thanked the club for electing him and announced the new officers as: Bill Schluemer, President; David Frazier, Vice-President; Bob Schneider, Secretary-Treasurer.

One of the Photo Club's many activities is a bi-weekly snapshot contest for both color and black & whites. Points are given for the outstanding pictures and a prize is awarded at the end of each semester to the member who has the most points.

After the election the club was entertained by Mr. Joe Roberts of the Civil Department, who showed color slides he had taken on his trip West last summer. All those who are interested in joining the Photo Club are cordially invited to attend any meeting. Meetings are held on Tuesday nights in the Mining Building. The Club offers complete darkroom facilities for a nominal one dollar per semester dues.

Kenneth Yeo

Two Degrees in Five Years Goal Of 3-2 Plan

Many students here on the campus have been wondering just what this three-two plan is that they have been hearing about. It is actually a very simple procedure. The student would go three years to a liberal arts school that has entered into agreement with M.S.M. While going these three years, he would take such courses as are listed in our Freshman and Sophomore years. He would also take a maximum of humanistic courses such as economics, history, English, languages, psychology, and physiology. At the end of these three years, the student would then move to M.S.M. where he would pursue his studies in the field of his choosing. Here he would take the normal classes of any Junior. When he had completed the two years here, he would graduate with Bachelor of Arts and Bachelor of Science degrees.

This plan was first initiated at M.S.M. in the early 1930's with Shurtleff College of Alton, Illinois as the Liberal Arts school. Due to World War II, this plan was dropped in the early 1940's. It again came to life in 1953, when Drury College of Springfield, Mo., and Illinois College of Jacksonville, Illinois expressed their wish to have this sort of plan to present to their students. There are now nine schools participating in the program. They are: Missouri Valley College, Marshall, Mo.; Central College, Fayette, Mo.; Central Missouri State College, Warrensburg, Mo.; Culver-Stockton College, Canton, Mo.; Drury College, Springfield, Mo.; Illinois College, Jacksonville, Mo.; Northeast Missouri State College, Kirksville, Mo.; Park College, Parkville, Mo.; and William Jewell College, Liberty, Mo. Northwest Missouri State College, Marysville, Missouri has now expressed their wish to join this program, and are being taken under consideration. As Dean Wilson so aptly puts it, "We are interested in the three-two plan with any good school."

By now many of us are probably wondering just how this is to our advantage. The answer that most of us are interested in is money. Nearly any firm is willing to pay \$35 to \$50 more per month to a man who has these two degrees. Their main reason is that they want men who can put a technical language on paper in words that anyone can understand.

The first students on this plan will arrive here in September from Central Missouri State College, so maybe all of us will be able to see the results.

Jim Hagood

Many Honors Bestowed at 7th Annual Convocation

The seventh annual Honors Convocation was presented Thursday, April 26, 1956 at 10 a. m. in Parker Hall Auditorium. The purpose of the Convocation is to present a large number of honors and awards in the form of scholastic society memberships, cash prizes, certificates of merit, recognition keys, trophies, scholarships and fellowships.

The first part of the program was devoted to the awards of the scholastic and departmental scholastic honor societies. Then the honor students were recognized and various honor awards made. The final part of the program was devoted to the granting of scholarships.

Dr. A. J. Owens, Vice-President of the Missouri School of Mines Chapter of the Honor Society of Phi Kappa Phi called attention to the list of names of the 150 students who were the recipients of the Chapter's Book Plate Award in recognition of scholastic achievement.

Niel A. Fiala, Ben F. Holder, Jimmy C. Johnson, August L. Link, James F. Longshore, Kenneth G. Riley.

The Spring 1956 initiates of Tau Beta Pi, a National Engineering Honor Society were introduced by their President, Charles J. McCoy.

Bill W. Ashworth, Robert L. Blount, William C. Bohres, Samuel A. Bradford, Henry W. Buschman, James A. Caselman, Frank J. Coffey, Fred J. Coleman, Fred J. Dietrich, Edgar J. Fiedler.

William T. Fitzgibbons, John C. Gavan, Richard L. Humphrey, Raymond L. Hussey, Bernard C. Leach, Maurice LeGrand, Thomas R. McKellar, Bernie Malson, Liston E. Neely, Larry D. Oppiger, James J. Ridinger, Harry J. Saver, Kenneth W. Shriver, James G. Smith, Jack D. Stewart, James L. Taylor, John R. Troutner, Edwin L. Wagoner, Robert N. Warren, Robert L. Wright.

Harry E. Bardebeck was awarded the Tau Beta Pi Outstanding Freshman Award and the Woman's Badge was presented to D'Jeanne Welden.

Alpha Chi Sigma Fraternity (Chemical) presented the Alpha Chi Sigma Senior Award to Larry Neil Fussell and the Junior Award to David W. Bunch. The awards were presented by the Master Alchemist of the organization, Charles A. Altheide.

Frederick A. Jackson, President of Chi Epsilon (Civil Engineering) presented the Chi Epsilon Sophomore Award of \$20 to Dale A. Strub and introduced their new members:

Darrell D. Ballard, Patrick S. Couch, William L. Demzik, Jack L. Feaster, Charles A. Fray, Willis G. Grinstead.

Ralph C. Hilmes, Joseph F. Kalinowsky, David D. Kick, Charles L. Miller, Marion C. Skouby, Jerry D. Stirling, Leon D. Winn, Forrest D. Worman.

Jack Stewart, President of Eta Kappa Nu Association (Electrical Engineering) introduced the new membership for Spring 1956. The new members are:

John D. Dever, Jerry D. Long, David M. Morrison, Donald F. Snook, James L. Taylor.

He then presented the Eta Kappa Nu Awards, the Freshman Award to Neal Lawson and the Outstanding Electrical Engineering Senior of the Year Award to James F. Longshore.

Donald D. Baker, Secretary of Pi Tau Sigma Fraternity (Mechanical Engineering) presented the spring 1956 initiates:

Danny E. Barbato, David W. Bates, Henry W. Buschman, Duane E. Crofts, William M. Jennings, Tom E. Kalin, Bruce S. Smith, Robert N. Warren, William J. Wright.

Mr. Baker then awarded the Pi Tau Sigma Outstanding Sophomore Award to Donald C. Guedersloh.

Don Williams, President of Sigma Gamma Epsilon Fraternity (Earth Sciences) presented seven new members, as listed below:

James H. Borgerding, B. Curtis Leach, Billy F. Lester, Thomas R. McKellar, Louis L. Mothersbaugh, Joe A. Stoll, Guy L.

Following this, Mr. Williams presented Robert E. Moore with the W. A. Tarr Award for 1956. Robert G. Fuller publicly introduced the new members of Sigma Pi Sigma (Physics). They are as follows:

Harry E. Hardebeck, Horace R. Horton, Raymond L. Hussey, Louis J. Reitsma, Jr.

The Sigma Pi Sigma Physics Award went to Robert G. Fuller.

Blue Key, a National Honor Service Fraternity, announced seven initiates for spring 1956. The new members, as presented by Blue Key President, Charles J. McCoy, are:

John R. Anderson, Samuel S. Bowman, Francis H. Henninger, Maurice LeGrand, Charles L. Miller, Philip S. Roush, Jack D. Stewart.

Robert W. Bruce, Regent of Theta Tau Fraternity, presented new members of Theta Tau. They are:

Richard H. Aberle, Ronald G. Aberle, Henry R. Atkinson, William J. Barlow, Roland W. Behnken, James D. Bess, Robert W. Bruce, James F. Burton, Frank J. Capek, Dale E. Chapman, Thomas D. Cochran.

Joel Cooksey, Duane E. Crofts, William G. Demzik, David G. Edmonds, Guy F. Ellis, George O. Gratz, David L. Harbaugh, Norman E. Hart, Bert E. Hartman, Ralph H. Jones.

Harlan L. Keibel, Bernard C. Leach, David G. McKinstry, Harry M. Meyer, Richard D. Mueller, Harold A. Olsen, Rudolf Resnick, Philip S. Roush, William W. Schramm, John H. Weber, Joseph H. Wolverton.

The Gold Key Award is presented to each student who has maintained a 2.0 grade point average each semester for four semesters, and has no failing grades. Similarly, a Silver Key Award is made to each student who has maintained a 1.75 to 1.99 grade point average each semester for four semesters, and has no failing grades. John R. Hammond, President of the Student Council, gave recognition to recipients of these awards. A total of forty-five received Gold Keys, while twenty-nine other students were awarded Silver Keys.

Guy C. Heinrich, President of the Interfraternity Council, introduced the Fraternity Man of the Year, Charles J. McCoy, Tau (Continued on page 4)

Annual ROTC Inspection to Be Held May 2-3

The annual Review and Inspection of the Missouri School of Mines ROTC Corp of Engineers Regiment is scheduled to take place May 2-3, 1956. The visiting officers will be Col. Harry E. Burcher, University of Colorado, Major Rodney W. Weibel, University of Nebraska, and Col. Hoy D. Davis, representative of the Engineering Section of the Fifth Army.

The inspectors will meet with Col. Moyers, PSM&T, and Dean Wilson to inspect the Administrative Section, the Supply Section, the Operation Section, and the classes. At 1300 hours May 2, the dignitaries will officiate at the Review and Inspection of the Cadet Regiment. The regiment will form on Jackling Field. A dinner for the guests is planned for May 2 at Colonial Village.

The object of this proceedings is to determine the efficiency and the effectiveness of the ROTC program. It is hoped that the Regiment will maintain its high standing that it has always had.

Jerry Littlefield

THE MISSOURI MINER

THE MISSOURI MINER is the official publication of the students of the Missouri School of Mines and Metallurgy. It is published at Rolla, Mo., every Friday during the school year. Entered as second class matter February 8, 1945 at the Post Office at Rolla, Mo. under the Act of March 3, 1879.

Subscription Price \$1.00 per Semester. (Featuring Activities of Students and Faculty of M.S.M.)

Miner Aims for Better Paper With New Policy

The following is the policy of the Missouri Miner concerning articles for publication. All articles should be typed double-space on only one side of the paper. Copy that is hand-written or single-spaced is hard to read and difficult to set up on the line-type. We ask that the writer sign his name at the end of the article. This enables our Secretary to keep account of the article and its length credited to the correct writer.

The deadline for articles is Tuesday at 12:00. We ask that material be in before that time if possible. We can not promise that copy received after that will be printed, as late articles and those improperly written are the first to be cut. If an article must be late because of some circumstance, please, call the editor or managing editor and explain why and also the nature and length of the article. This allows us to save space for the article.

Drop all copy in the Miner box in the Rolla Building or deliver to 707 State Street. We ask that all fraternity and organization news articles please not be taken down to the printers office but dropped into the Miner box. These articles must be edited quite often before printing.

Sometimes due to lack of space, articles are shortened, rewritten, or even left out completely. This is avoided whenever possible but in order to put the paper together correctly, in some cases this must be done. Those articles that come in late or improperly written are the first to be cut.

No article is cut just to get even with someone or out of spite for a person or organization. When an article is cut it is held and printed the following week if it does not become outdated.

One thing the Miner is trying to do is to print some technical or informative articles from time to time. These articles are printed with the hope that they may benefit some of the students. The Miner welcomes any ideas or suggestions on how to better the paper both in content and style.

—Dick Okenfuss

Mr. Doe Receives Fellowship Award

Mr. Bruce R. Doe, graduate and half-time instructor in geology has been awarded the Stano-Ind Fellowship in Geology at the California Institute of Technology for the school year 1956-57. Mr. Doe will begin his work toward a Ph.D. degree at the Institute in September.

Theta Kap Holds Province Conclave

Theta Kappa Phi Fraternity is holding its Midwestern Province Convention in Rolla this week-end, April 27, 28 and 29, with the local chapter as hosts. Several national officers are in attendance. They are James Duane, National President; Frank Carroll, Vice-President (West); and William Grogan, Vice-President (East). Delegates are attending from Oklahoma U., Oklahoma A & M, St. Louis U., and Missouri U., as well as those from the School of Mines.

Mu Chapter of Theta Kappa Phi here on the campus is acknowledged as one of the top chapters in the national and has held

CONVOCATION

(Continued from page 1)

Kappa Epsilon Fraternity. The Intramural Athlete of the year, Robert Kline of Theta Kappa Phi Fraternity, was presented a trophy by Dale Rockwell, president of the "M" Club.

John M. Brewer, Faculty Advisor, presented Gold Keys to student members of the Board of Trustees for Student Publications, of the Miner Board, and of the Rollamo Board. Members of the Board of Trustees are as follows: John W. Brose, Paul R. Douglass, John J. Howard, Roy E. Knecht, George A. Miklos, Harold A. Olsen, James M. Shea, William J. Zickel. Miner Board members receiving the key were: Charles R. Almstedt, Duncan C. Block, James F. Burton, Walter M. Edwards, Charles E. Hunter, Roy E. Knecht, and Charles J. McCoy. The Past Senior Rollamo Board Staff awarded keys were: John J. Howard, William J. Zickel, Morton L. Mullins, John H. Weber, Maurice LeGrand, James R. Gender, Carl J. Heuman, Richard J. Konrad, James L. Urban Marvin W. Ringer and William J. Murphy.

Professor Brewer then presented Glee Club Key Awards to the following: Thomas A. Bertorello, William Englehardt, Charles A. Frey, Richard S. Herndon, Edward MacFarlane, Earnest L. Mosby, Donald R. Parille, Paul P. Sisk, Harry R. Springer, Allan Toigo. These keys were presented in recognition of participation in Glee Club activities for one year. The following are recipients of a service bar for subsequent years of service as a member: Charles G. Baskin, Fred J. Dietrich, Dale W. Harris, William L. Kennedy, John F. Kirse, Ralph W. McCormick, Gaylord L. Meyer, Donald E. Modesitt, James P. Nauert, Donald H. Pritzker, and John F. Rasche.

William J. Jensen, Chairman of the Faculty Committee on Assemblies, presented the Mathematics Achievement Award, a copy of "Handbook of Mathematical Tables," to Robert P. Crabtree and the Physics Achievement Award, a copy of "The Handbook of Chemistry and Physics," to Harry E. Hardebeck. These Awards were made available by the Chemical Rubber Publishing Company.

Horace Robert Horton was the recipient of the American Institute of Chemists — Chicago Chapter Awards. These awards consist of a Medal and an associate membership in the Institute. Dr. W. T. Schrenk, Head of the Chemical Engr. Dept. made the presentation.

Several scholarships were also presented, however the names of the recipients were not known at the time the paper went to press. A list of the scholarships and their recipients will be published in next week's Miner.

A printed program of the Seventh Annual Honors Convocation was distributed at the presentation of these awards. The program contains a complete record of the honors and awards that have been made during the past year. Professor William J. Jensen, Chairman of the Faculty Committee on Assemblies presided at the Convocation.

Their First National Efficiency Award for the apst year. This was the sixth time they have won the award in the past nine years.

Some girls are cold sober. Others are just cold.

Governor Phil M. Donnelly signs proclamation designating April as cancer control month in Missouri. An interested spectator is H. V. Guleman, Sr., Jefferson City business man, who is holding a poster depicting the slogan of the 1956 crusade: "Fight Cancer with a Checkup . . . and a Check."

Mr. Guleman, who was cured of cancer five years ago, feels that he owes his own life to the educational activities of the American Cancer Society; because he was urged to go to his physician for a checkup and was treated in time.

CANCER KILLS MANY EVERY YEAR HAVE A CHECKUP, DON'T YOU BECOME A STATISTIC ALSO

If someone were to ask you, "Are your cells dividing orderly?" would you know what he meant? Your life may depend upon it. What you see when a cut finger heals is the growth of skin tissue over the broken area, and yet you don't see the whole picture. Actually, the healing of that cut finger is aided by the development of new cells to replace those damaged by the cut. But just suppose those cells would not form properly but would start dividing and multiplying in an abnormal fashion; in this case, this abnormal growth might form a tumor, and if this tumor were considered malignant, cancer would result. We've all heard about cancer; more than likely someone within your immediate circle of friends has been affected by this dread disease. "So what?" you ask. "It won't happen to me." And like the man who steps out between parked cars, you go on in your placid way of life. Yet, the fact that both that man and you fail to interpret is that it CAN and does happen. In 1954 some 230,000 adults and 3,600 children died of cancer in the United States alone. These figures certainly didn't drop much in 1955, and the death rate from cancer continues on as one of the giant murderers of today. Let me interject at this point that this is no "scare" article. Both you and I have seen enough of them recently to fail to be impressed by them. But stop and think: 6845 Missourians were killed by the cancer onslaught in 1954. Am I getting through to you? Now comes the big problem: what can you (not the person reading over your shoulder) do to combat this modern "black death"? First: a checkup . . . a trip to the chest X-ray center once a year, twice a year for men over 45 and women over 35. Why? Because your incidence ratio, or chance of contracting cancer is one in 3000 (in the case of males over 45). And this is not the highest ratio either. "With a population of well over 160 million, there should be

Typical School Day Life on the MSM Campus

The sun was shining brightly and birds were singing gaily outside my window as I arose from twelve hours of refreshing sleep and began to get ready for another typical day at the Missouri School of Mines and Metallurgy (with two P's). I slipped into a fresh pair of Ivy League slacks, a new sport shirt, argyle, and a pair of loafers and set out for the frat house to grab some breakfast before tackling the day's classes. The chef bade me a cheery good morning as I sat down to a meal fit for a king. Hame and eggs (over easy), biscuits with honey, and a cup of coffee that was as good as the advertisement claimed.

My first class was at eleven, and I was due for a quiz in diff equations, so I sauntered on over to the math department about ten thirty. The math building

little chance of my contracting cancer," you might say. But don't forget; about 250 thousand Americans will die of this great eliminator THIS YEAR! Maybe now (if you're still reading) you can understand the proximity with which this problem approaches you. But don't stop with a checkup . . . the weapon of research is the iron-clad fist that is battling this killer down day after day. The only way research can be successfully carried out is not of a philanthropic nature, but through monetary contributions; through the pennies, nickels, dimes, quarters and dollars of you, the average American.

That is the reason for the 1956 Cancer Society's slogan: "FIGHT CANCER WITH A CHECKUP—AND A CHECK." If you haven't a check handy, send a bill or coin to Cancer, c/o your local postoffice, to aid another victim or potential victim of cancer. If your life depended on your contribution, you would give until you could give no more; providing it was a matter of your life and death . . . and maybe it is.

never ceased to amaze me. As I walked up to the entrance of the modernistic looking hall, my eye caught the inscription on the cornerstone, "A. D. 1955, Guaranteed Earthquake-Proof." The quiz was a snap; that good looking co-ed who sat next to me sure knew her math.

It was noon before I knew it, so I buzzed over to the spacious student union to grab a few quick ones. The red and white sign that said "Budweiser on Tap" nearly blinded me as I walked through the door. I ordered a tall one, and flipped the waiter a quarter, but he threw it back, and said something about it being on the school today. I took a seat next to a curvaceous blonde that I had met at the Junior Prom last week.

"Hi, Linda, how's every little thing?"

"Hello, Big Boy, how's my favorite hero?"

"Just fine, Sweetheart, what have you got on for tonight?"

"That depends on where we're going. Why don't you drop over to the sorority house for dinner? We're having filet mignon tonight."

"Sounds real crazy, Chick. I'll see if I can get the Jag out of the garage this afternoon and drop over about six. We'll blast out to that new night club and listen to Ray Anthony and his boys for a while. What's the name of that place anyway?"

"You mean the 'Club 63'?"

"Yeah, that's it. If there's nothing doing there, we'll take a run out to the Pizza Parlor and get something to eat."

"That's fine, Handsome, see ya then."

I had the afternoon off, so I headed for the garage to see if they had my Jag ready. I hope so, it sure beats walking.

My Big Ben nearly rang itself off the table before I dragged myself out of the sack. Three hours just isn't enough sleep.

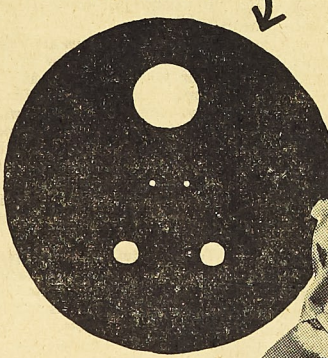

P. T.

Arabian Soldier: What shall we do with this handsome American soldier?"

"Execute him; first he gets in my chair and now he gets in my harem."

M'MM! LOVE THOSE LUCKY DROODLES!

WHAT'S THIS?
For answer, see
paragraph at right.

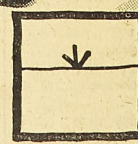

THERE'S A SHINING EXAMPLE of smoking enjoyment in the Droodle at left: Lucky-smoking couple on moonlight drive. Lucky smokers always enjoy better taste, because Lucky Strike means fine tobacco—mild, good-tasting tobacco that's TOASTED to taste better. So get on the beam—light up a Lucky yourself. You'll say it's the best-tasting cigarette you ever smoked!

Prospectin' the Conference

by Don Bins

The big track guns of the M.I.A.A. Conference that were predicted to carry home the honors of the 1956 season seem well on their way to doing just that thing. Among them, Springfield, has breezed through their season with out a hitch so far, running over all competition.

Springfield has an abundance of track talent with strong depth in both the field and track events. Such men as Larry and Terry McKee, Bill Anderson, and Schaeffer seem to take a lot of worry away from the Bear's track coach. Victims that fell to Springfield were such teams as the Missouri School of Mines, 79-56 and Westminster College, 95-36.

Cape Girardeau, a school figured to be strong but not a sure thing, came up in the M.I.A.A. Conference Indoor Track Meet to defeat all comers, thus making them one of the most serious threats to the conference crown.

Since the conference champions are chosen solely on the outcome of one meet, predictions on the ultimate winner are always a risk. As the season closes, the annual M.I.A.A. Conference Outdoor track meet draws near. Here, all of the conference members will gather to show their talent and experience gained over the season.

The tennis and golf teams of all the schools also will meet. The teams that rise to the top of the heap after the games are crowned conference champions. Thus, all the schools try to build throughout the season in order to be ready for the one big track meet of the season.

As the season progresses and "Where have you been, Bill?" "In the phone booth talking to my girl but, darn it, someone wanted to use the phone so we had to get out."

OPPORTUNITIES IN OPERATIONS RESEARCH FOR SENIORS AND GRADUATE STUDENTS in ENGINEERING, PHYSICS, and MATHEMATICS. Current Staff Vacancies at THE JOHN HOPKINS UNIVERSITY.

Operations Research Office, in Washington, D. C., operating under contract with the Department of the Army, provide exceptional opportunities for graduating seniors and graduate students in the rapidly expanding and increasingly important career field of Operations Research.

These positions will appeal to student-scientists who prefer the challenge of complex operational problems of unusual scope and diversity to routine analysis and development work, and who desire a degree of research freedom not ordinarily found in industrial positions.

Our current research program includes problems in tactics, strategy, weapons systems, intelligence, communications, logistics, and military applications of game theory. Studies in these areas are normally carried on by mixed teams of scientists, each of whom is expected to contribute as a specialist to a synthesized solution.

Among the many other attractions and advantages of working at ORO are:

- * Selected opportunities for two-year overseas assignments in Germany or Japan.
 - * Liberal employee benefits and leave privileges.
 - * Rapid advancement for demonstrated capabilities.
 - * A competitive salary scale.
- Your inquiries are invited. Write Dr. Lincoln Hanson, Research Personnel Officer, 7100 Connecticut Avenue, Chevy Chase 15, Maryland.

results of meets are turned in, it will be possible to do a little predicting as to the outcome of the meet. A few of the scores can be analyzed as of this date.

In the annual Harris Teachers College Invitational, Cape Girardeau defeated a well thought team, Washington University, 152-75. A team that links together the conference is Harris, who was also beaten in the meet, 152-38. The Missouri School of Mines completely ran over Harris Teachers, 96-40, and Westminster College, 89-41. However, Springfield has also beaten Westminster, 95-36. In addition, they put the Miners in cold storage three weeks ago, 79-56. So while Cape Girardeau, Springfield, and Rolla have beaten common teams, Springfield has defeated the Miners, leaving the Bears and the Indians riding high. It should be interesting to view the outcome of the conference outdoor meet.

Intramural Sports

Horseshoes play ended last Tuesday evening. Sigma Nu took a clean sweep of both singles and doubles play to gain an overall first place for the season's play.

Singles play ended on Monday evening when Sigma Nu's representative took two games out of the three-game set from the nearest contender. Dorm "A", Sigma Nu's victim, had to be content with second place. Dorm "A" after dropping their set in the initial round of play, they went on to win the losers' bracket, not faltering until they were in the finals. They defeated Tech Club in the final game on the losers' side of the bracket.

Tuesday evening, Sigma Nu representatives clinched the horseshoes crown by blasting a team from Kappa Alpha in the first two of a three-game series. Kappa Alpha moved up to the finals by defeating Theta Xi. They had won their first three matches and then dropped into the losers' bracket by virtue of a first loss at the hands of Sigma Nu. Sigma Nu remained undefeated all season. By their fine play in both singles and doubles play, Sigma Nu gained 300 intramural points.

At a recent meeting of the intramural managers, several changes in rules and schedules were proposed. Another meeting is to be held in about two weeks and final action will be taken at that time. No details are available at this time.

Any organizations that are planning to enter teams in the intramural sports program for the first time next semester are urged to contact Dewey Allgood in the gym within the next week. Plans are being made for a field of approximately twenty-three teams in intramural sports next term.

TENNIS TEAM LOSES TO WASHINGTON UNIV. 9-0

The hard hitting and fast hitting team of Washington University shut out the Miners team last Saturday by the score of nine to zero. Washington has had a terrific season this year by beating teams of our larger Colleges around the country.

The closest we came to a victory was with Paul Sisk running his first set up, but losing, by the score of (7, 5). He then lost his second set by the score of (6, 2).

SCORES

(Singles) Don Roth lost to Wallace Gundlach, 6, 2; 6, 2.

Frank Hill lost to Steve Schneider, 6, 0; 6, 0.

Terry Kohler lost to David Rehukka, 6, 0; 6, 2.

Paul Sisk lost to Dave Brilliant, 7, 5; 6, 2.

Bob Hunter lost to Don Pfeiffer, 6, 0; 6, 1.

Jerry Godzwon lost to Pete Summers, 6, 0; 6, 3.

(Doubles) Roth-Hunter lost to Gundlach-Schneider, 6, 2; 6, 2.

Kohler-Sisk lost to Rehukka-Brilliant, 6, 0; 6, 1.

Hill-Godzwon lost to Pfeiffer-Summers, 6, 1; 6, 1.

The professor who comes in late is rare. In fact, he is a class by himself.

Bob Kline Intramural Athlete of Year

Earlier this week Bob Kline, of Theta Kappa Phi Fraternity, was selected by the Intramural Managers of the respective organizations on campus, and the officials of the various intramural sports, as the Intramural Athlete of the year. The M Club of MSM yearly awards a beautiful trophy to the winner of this honor. This award comes as no surprise to the participating in the intramural program here at school. In his four-year stay here at MSM he has played almost every sport offered by our outstanding intramural program and has shown strong ability in all of them.

Bob, a senior, came to the School of Mines after his graduation from West High, Kansas City, in 1952. In his first year here he showed his versatile ability by participating in eight different sports.

Bob is well qualified for the trophy, having participated on Theta Kappa Phi's track, tennis, flag football, wrestling, swimming, volleyball, softball and basketball teams. It would be hard to pick Bob's outstanding sport because he has excelled in so many.

He was chosen on the all-star team in flag football and basketball this year, and along with his partner won the tennis doubles championship last year and is again in the finals this year. In volleyball he helped bring home two championships and two runner up positions to Theta Kappa Phi, and again was one of the outstanding players in the sport.

Looking at his record in intramural sports during his stay here it is easy to see why he is deserving of the award. That Bob won this honor with so many other fine athletes participating in the intramural program here at school only increases the honor of the award.

Miners Lose Third Meet Of Season By 91-40 Score

By Ted Mueller

The Miners suffered their third defeat of the season as they bowed to Southern Illinois University at Carbondal, Saturday, April 21, by a score of 91-40. In the six field events the Miners gained a total of 25 points out of a possible 54. The track component had its troubles when Roger Feaster, in the 100 yard dash, was disqualified after two false starts. Bob Eshbaugh consistent high scorer in the 440 event managed to win third place. The time for the 440 was 50.4 sec with DeNeal of Southern doing the honors. A fine showing was made by Eshbaugh in the broad jump event when he won second with his last jump of the day. In the track events the Miners could only claim 15 points which gave them their 40 point total.

Pappy Allison took second in the 100 yard dash followed by his teammate Wilson who won third. Allison also claimed second in the 220 running closely behind Sphephe of SIU who won in 23.5 sec. Allison, a very consistent scorer in the dash events, accounted for 3 of the usual 8 points won in this event in previous meets. Feaster, jump from being disqualified in the 100, got off to a bad start in the 220 and failed to add points to the Miners score.

In the 880 SIU competition proved too much as Georgy won in the time of 2:01.6 sec, but Burkhead claimed second for the Miners. Burkhead's time in the 880 in previous meets here on the campus is one of the finest marks set in a number of years here at MSM.

Southern Illinois swept three

the track events, the mile, 2 mile and the 220 low hurdles. This accounted for a total of 27 points in these events which definitely hurt the Miners. These events are exceedingly strenuous and does not reflect the work of the distance men. They are to be commended on their work on the field during events and long hours of conditioning.

Shortputer Smith netted his best throw to date with a distance of 45' 5 1/4". Rex Williams won third in this event which kept up the winning combination. Eakers failed to place in the shot, but won second in the discus and was followed by Agers of MSM.

Kreder tied for first in the pole vault with Council of SIU as did Dick Hammond and Blythe in the high jump event. Kreder's best height of the day was 12' which was the tying mark that held this event in its deadlock and caused honors to be shared. The mark set in the high jump cleared by both Hammond Blythe, was 5'10".

Rushing, SIU javelin entry, set a proud mark of 183' and won first place but Parker and Northrup still easily won second and third in good style. Parker's throw measured 159'11" which is his best throw to date.

The track team showed its best to our neighbors at Southern. It is one of the finest squads to appear on the MSM campus in a number of years and will certainly give Drury College a tussle here at Jackling Field tomorrow.

MINERS ADD VICTORY TO SEASONS GOLF RECORD

Last Saturday MSM golf team increased their season record to six victories in a row. After victories over strong Drury and SIU teams the Miners look ready for another conference title. The Miners defeated Drury 12 1/2-8 1/2.

The results of the MSM-SIU match are as follows:

Harry Penn (69), MSM defeated Goldstein (76), SIU, 3-0.

Arch Burke (71), MSM defeated Belyev (73), SIU, 2-1.

Jim Joslin (70), MSM defeated Barnett (72), SIU, 3-0.

Sam Sands (71), MSM defeated Donarski (76), SIU, 3-0.

Bob Wilkins (78), MSM lost to Zukosky (67), SIU, 0-3.

Total MSM 11—SIU 4.

Although the MSM golfers have played mostly teams from out of their conference this year, they continue to better their scores with each match. Southern Illinois University has been beaten very few times in recent seasons. Drury College golfers hold the Missouri Valley Conference championship. These matches should be some indication of the Miners' readiness to make a good showing at Warrensburg May 12 and 13 in the conference tilt.

A girl need never worry about being supported if she has a figure that doesn't need support. He: I think I have a flat tire. She: That's all right, it makes us even.

—MSM—

"How about a kiss?"
"Sir, I have scruples."
"That's all right. I've been vaccinated."

Advantage, You

You'll make more fine shots with these rackets than any in their class.

The reason? Both the Spalding KRO-BAT® and the Spalding-made Wright & Ditson DAVIS cup® deliver the "feel" you must have for full power and better control.

Both come in every weight and grip size for better tennis, match after match.

Use Spalding-made tennis balls. They're official for more major tournaments than all other brands combined.

SPALDING
SETS THE PACE IN SPORTS

Just look around campus. You'll see that the "custom" details of this Arrow University shirt are definitely "college correct." The box pleat, the soft-roll button-down collar, and the back button are basic requirements. In 9 solid colors, this is the oxford shirt for you. Wear it with comfortable Arrow Bermuda shorts. They're poplin, and available in 6 colors. Shirts, \$5.00. Tie, \$2.50. Shorts, \$5.00.

From any angle — it says "College man"

Fraternity News

Last week-end was, without a doubt, the most elaborate, well planned, and successful social event that Lambda Chi has ever had the pleasure of being hosts to. The house stood out in its finest fashion both inside and out. Considering the time we had to prepare for the open house, I think everyone did a very good job and we hope that all of our guests enjoyed the occasion as much as we did. As far as the success of the event goes, we can say that it met with every expectation since we had an estimated 450 to 500 visitors between the hours of 2 and 5 Sunday afternoon.

The banquet Saturday night was also a big success. There were about 17 alumni back, most of them with their wives. This was the largest number of alumni to return for the house birthday in a number of years. We are in hopes that since we have settled down into our new house that more alumni will return every year.

Theta Xi's welcome Robert Bramlet, Armand Alvandian and Jess Berry into the ranks of Theta Xi Fraternity. Bob is from Springfield, Illinois. The land of Lincoln. Armand hails from Flushing, New York. While Jess is a resident of Rolla. Having recovered from the Greek Day festivities, we are preparing for our founders day banquet on April 29. The Greek day outing was enjoyed by all. Everybody is still wondering how Ellie acquired Bram's clothes after her little swim. We trust the Kappa Sig found his way home in the morning. Some party, huh Corky?

\$26.51—yes, that's the amount that Beta Sig collected Friday night toward the muscular distrophy fund. With Schaeffner, Weigman and Vie in the Booth of Luck, we just couldn't go wrong. Saturday afternoon was enjoyed by all dates and the men of Beta Sig, for they won the honors at the classic Greek Day celebration. As a result of winning, Miss Donna Beck was chosen queen of the festivities. Queen Donna was awarded a beautiful silver bracelet and the Beta Sigs were awarded the Greek Day Trophy.

The Beta Sigs started off by winning the first two events in the games. Wally, the barrel, Shrieber and Elenor, the wheel, Schlake took first place in the wheelbarrow race.

It looks like M-Club initiation at least teaches the men to catch an egg, without breaking it, because Ed Branhof and Tom Smith won this event, and credit must

be given to the tug-a-war team for the wonderful job that they accomplished, even while under adverse conditions.

The Sig Eps Saturday afternoon, in full force, moved out to the Spring Forest Lodge for a very successful and enjoyable Greek Day celebration. Saturday night, as predicted, turned out to be Sig Ep's answer to a real party. The music provided by the Seven Blue Notes was tops. The post of bartender was handled very efficiently by both Rihc "Rabbi" Aberle and Jack "Hawk" Hartman. Charlie Heeger and his wife managed to return and add to the festivities. Many an eye was turned when Phi Mu Can Can girls made their entrance into Buck Slobberlip's Sig Ep Saloon. The "lucky six" escorts found out what it's like to dance skin to skin.

Little observations made at Sigma Nu over the week-end include — "Old Satch" feeling sorry for Chullino that he passed out too; Brother Bisner thanking his friends who came to the "Surprise Party" Saturday night, particularly those who stayed all night; a brother running around in a dress in the wee hours of Saturday morning looking for his skivvies!

Brother Reid really fell for Kay Duncan; however, "Blotto" showed amazing equilibrium for his tremendous hulk by staying partially in the front and partially in the rear seat of the car while wrestling with his date at the same time. Brother "Weasel" really had it stuck in him when

he said "Don't take my pin. Patterson had a rough time keeping his date awake, but these Steves Suzies are asleep most of the time anyway!"

Congratulations are in order for the following — The Horse-shoes team for another first place; Brother Haubold on being elected President of the AIME; Brother Leming on being elected Treasurer of the Alpha Chi Sigma, and Brother McKinstry on being elected Treasurer of AIEE.

The future defenders of America journey out to Fort Wood today to spend the weekend, so next week you can expect a few war stories.

Greek Day was this past week-end and everyone had a terrific time at Triangle. Our good luck continued with a nice crop of blind dates. Although we didn't set the world on fire in the contests, we gave a spirited battle by Jock Dombrosky. Also, some of the alumni showed up to add life to the party and to inform us of future expanding plans.

Following two successive victories there was a week layoff in softball, but the team didn't seem to have grown cold as they came back on Monday to trounce Dorn A. The game proved to be one of mostly catch between Brothers Macios and Robino as Carl showed his best pitching of the season. Hoping it doesn't go to his head, it must be reported that "Close your eyes and swing" Jim Close pounded out a four-bagger left handed.

A bit of congratulation is in order to Brother Ed Beckemeyer. Ed was elected secretary of the A. I. M. E. and already has begun plans for a beer bust.

Well, everyone around Pi K A agrees that Greek Day was a big success. Brother Bones (Bob Cole) had a real surprise waiting for him at the station. His date brought a friend, her mother. Bob goes for the motherly type. Bob's comment for the week-end was "Mother."

John Soma turned lover over the week-end. He's giving the boys in the basement crew advice already and he says "You've just got to understand women. They really aren't so bad."

Softball season is well underway. Let's see all of the PIKES out there supporting their team.

Things around Theta Kappa Phi have quieted down considerably since the last weekend. The girls have gone home and everyone is licking their wounds. Many were hoarse from singing at the beach party, Friday night. Saturday night we had our annual Spring Formal. A wonderful time was had by all. Music was furnished by Jackson Hall and his orchestra.

Here at KA we had a little trouble getting co-ordinated, what with three parties going on simultaneously. The brothers with dates went on a hayride, the stags on a beer bust, and the more tem-

perate stayed here and entertained themselves and various guests here at the house. During the latter part of the evening everyone commuted among the three.

"Oh my aching back! Is that my head or am I still asleep?" This was the familiar cry around Sigma Pi after the tug of war and other games last Saturday afternoon. All of us agreed that the Greek weekend was a huge success. We were quite proud to have taken first place in the stand judging Friday night and I want to thank Dale Klor, Dean Clasy, and all of the fellows who helped on our stand. It's going to be pretty hard to think up any new ideas for next year in that everyone seemed to cover the carnival idea very well.
