Hilltoppers, Blue Barron Orchestra Here Tuesday Night

THE HILLTOPPERS

Famous Quartet to Present 2 Concerts; Wendy Moore Vocalist

The Lecture Series of M. S. M. will embark on its 1956-57 season Tuesday evening, October 23, at Parker Hall. The first of (?) outstanding programs will feature "The Hilltoppers," and Blue Barron and his "Music of Yesterday and Today" Orchestra. It will be a return engagement for these gifted performers as they also displayed their talents for the Miners in last year's Lecture Series.

The Hilltoppers, ex-college mates at Western Kentucky State College, began their phenomenal rise to fame with their hit recording of "Trying". Since that time they have made numerous night club and theatre appearances and were also seen on Ed Sullivan's "Toast of the Town" and The Perry Como Show, to name a few.

The leader of the "Hilltoppers" is Jimmy Socca, whose rich, booming baritone voice was helped make the quartet such a unique vocal group. Handling the tenor chores is 26 year old Lou Mastor. The bass assignment belongs to Carl Garvin, and Eddie Crowe rounds out the quartet with his enchanting baritone

voice.

Other hit recordings by the "Hilltoppers" besides "Trying" in the past few years are: "If I Were King", "P. S. I Love You", "To Be Alone", "From the Vine Came the Grape", "Poor Butterfly" and "There Is No Greater Love", to mention a few.

Also features in this evening of musical entertainment will be Blue Barron and his Orchestra. Blue, who formed his band while attending Ohio University, has always been a favorite on the college campuses throughout the nation. Rebelling against the excessive blaring of most bands he stylizes his music on the mellow lines, and from his theory of combining swing and sweet music was born his "Music of Yesterday and Today". Blue has starred in leading supper clubs and hotels throughout the nation. Radio, too, has demanded its share of his talents. His music has graced many broadcasts, among them the Coca-Cola Spotlight Show and the Manpower Commission's Sunday Serenade. Also featured with the Orchestra are Wendy Moore, The Three Blue Notes, and the Barron Glee Club. A few of the

favorite Blue Barron recordings are: "Cruising Down the River", "There's Yes-Yes In Your Eyes", "You're So Understanding", "Powder Your Face With Sunshine", "Santa Claus Is Coming to Town", and a host of others. There will be two complete performances of the show, the first at 7 o'clock and the last at 9 o'clock. Non-student admission will be one dollar. Make plans now to attend this wonderful show presented by the Lecture Series on Tuesday evening, Oct. 23.

3 Freshman Students Awarded Rolla Lions Club Scholarships

Three freshmen students here at the School of Mines have been awarded \$100 Scholarships for this school year by the Rolla Lions Club. These scholarships, annually awarded, are given to freshmen members of the football squad who, from their high school record, and their score on the engineering aptitude test, have shown that they should have a successful college career here at M. S. M.

The following men were recommended as recipients of this year's awards by the scholarship committee. They are: Robert A. Booth of Herrin, Illinois. He is an end on the football squad and is enrolled in Chemical Engineering. Next is Thomas W. Cooper from Normany High School in St. Louis. He is also an end and is enrolled in Civil Engineering. Third is William J. Wheeler from Harrison, Arkansas. He is a quarterback and chooses Electrical Engineering as his major.

All of these students indicate by their high school record of having a successful college career both in the classroom and on the gridiron.

Congratulations to all of you.

Norman Walker, MSM Grad, Awarded Hughes Fellowship

Norman L. Walker, a 1956 graduate of the Missouri School of Mines has been awarded a Hughes Master of Science Fellowship enabling him to continue his education while employed part-time at Hughes Aircraft Company in Culver City, California.

Walker was awarded a bachelor of science degree in electrical engineering.

The former Missouri man and 200 others from 75 other universities who also were granted Hughes fellowships, are taking advanced courses at universities in the Los Angeles area while employed in Hughes research and development laboratories in practical work closely allied to their studies.

Walker is attending the University of Southern California.

Hughes manufactures electronic armament control systems for jet interceptors, Falcon air-to-air guided missiles, cathode ray storage tubes and several types of semiconductors. Other fields of activity include digital computers, ground radar, microwave devices and antennas, radomes and precision plastics, communication systems and miniaturization.

Walker is a member of Eta Kappa Nu, Tau Beta Pi and

Students Present Music, News, Sports On Radio Program

The "M. S. M. Student Hour," the Missouri School of Mines official radio program, which is presented by the speech classes with Professor J. M. Brewer of the Humanities Department in charge will be expanded this year to a full hour to student news and music. In past years the broadcast has been only of fifteen minutes duration. The broadcast is put over the air by the local radio station, KTTR, every Wednesday evening from 7:00 p. m. to 8:00 p. m.; however, the actual setting of the program is in the M. S. M. studios in the basement of Parker Hall. Special thanks go to Mr. Luther Martin and Mr. Martin Mitchum, a graduate of the Missouri School of Mines, who have donated air time for a student broadcast for the past five years.

The program is divided into four sections. The first section deals with general announcements and the weekly calendar of organizational meetings, special lectures and all other happenings on campus. All who desire announcements of this nature should send the announcements to Professor Brewer in Room 305, Rolla Building, before noon every Wednesday.

The next feature of the M. S.

Campus Tour, Banquet, Football Game Highlights Parents Day Activities

Tomorrow, Saturday October 20, a large group of parents, many of them driving long distances, will converge on Rolla and the School of Mines. Many will be visiting our campus for the first time. Others, we will be welcoming for a second, a third, or perhaps, a fourth time. To all of these parents, the school and its students wish to extend a cordial welcome and a hope that their short stay is a pleasant one.

The School plans open house for Mom and Pop Saturday morning. Tours of the campus, starting at Parker Hall, will be conducted by student guides. The tour of the buildings of the campus will include explanations of each branch of engineering and the sciences. Tours will be conducted by members of the thirteen social fraternities and members of Blue Key and Alpha Phi Omega service fraternities.

Parents who enjoy a good football game will certainly not be disappointed. Saturday afternoon's game between the Miners

and the Southwest Missouri State Bears of Springfield promises to be a good one. The Miners, who ran away from Kirksville here last week, now have a 1-0 record in the conference. Springfield, with an upset victory over Cape Girardeau, also boasts a 1-0 conference record. The M. S. M. ROTC Band and the Pershing Rifle Drill Team will perform at halftime.

Saturday evening Dean Wilson will serve as host to the parents at a banquet held in their honor. The featured speaker for this year's Parents' Day will be Mr. Randall R. Kitt. Mr. Kitt, a lawyer by profession, has been a member of the University of Missouri Board of Curators for two years. Mr. Kitt makes his home in Chillicothe, Missouri. Mr. Elmer Ellis, president of the University of Missouri, will be among the distinguished guests. The banquet will be held, as in the past, at the College Inn of the Edwin Long Hotel. Reports are that a capacity crowd is expected.

TIME TABLE FOR PARENTS' DAY

Tour of Campus	9:00 a. m. to 12:30 p. m.
Parker Hall	
M. S. M.-Springfield Football Game	2:00 p. m.
Jackling Field	
Parents' Day Banquet	6:30 p. m.
College Inn, Hotel Edwin Long	

M. Student Hour is the sports news. Full coverage of intercollegiate and intermural sports at M. S. M. besides a full report of the activities of the other teams in the M. I. A. A. of which M. S. M. is a member.

General news is the next presentation. This includes anything that might be of interest to the students and the residents of Rolla. Under this topic comes

NOTICE TO STUDENTS

The faculty has voted to start the Thanksgiving holidays at noon on Wednesday, November 21, 1956.

Classes will resume on Monday morning, November 26.

Curtis L. Wilson,
Dean

THE MISSOURI MINER

THE MISSOURI MINER is the official publication of the students of the Missouri School of Mines and Metallurgy. It is published at Rolla, Mo., every Friday during the school year. Entered as second class matter February 8, 1945 at the Post Office at Rolla, Mo. under the Act of March 3, 1879.

Subscription Price \$1.00 per Semester. (Featuring Activities of Students and Faculty of M.S.M.)

Traffic Regulations?

In the past few weeks a certain amount of furor has arisen concerning the "traffic Regulations" here at the School of Mines and Metallurgy. So far, the majority of the students have been opposed to these regulations. As the Missouri Miner is the publication of the students, it now stands generally opposed to these regulations, both in content and in the manner in which they are presented.

The fact that there is a parking problem on the campus cannot be denied. The fact that something necessarily had to be done to remedy this situation also cannot be denied. However, the traffic regulations as released by the School of Mines and Metallurgy have caused a tremendous uproar, above and beyond that which could naturally be expected.

Why? Because the school has not only set up the necessary parking regulations, they have seen fit to require auto registration, operator's permits, and other rules and regulations concerning who, when, and where an auto may be operated. Their reasons for such actions: To provide ample parking facilities for the regular employees of Missouri School of Mines and Metallurgy, and also because the school "... has a responsibility for the protection of health and safety of students ..." This would be funny; that the school really worries about the few students who actually are injured in auto accidents, if it were not for the inadequacy of health and safety facilities on campus now. To-wit: the MSM Hospital!

In compliance with the puzzlement present in the minds of the students over these regulations, here are several questions that we wish the Director of Traffic Safety would be so kind as to answer. Maybe he can help to lift the dark veil of confusion and mystery that now surround these Traffic Regulations.

Just where does the School of Mines and Metallurgy obtain the authority to issue these operator's permits? The State of Missouri issues operator's license through authorized clerks, to those people who meet the requirements and satisfactorily pass certain quizzes and exams. The state issues an official document stating, "The above person is hereby licensed to operate a motor vehicle in the State of Missouri." Where, then, does the School of Mines and Metallurgy obtain the authority to say that just because a man has this state license, he can not operate a motor vehicle in Rolla without a student operator's permit? And where do they get the power and authority to prohibit someone from driving on the streets of Rolla? After all; these are public streets, not the property of the School of Mines.

Incidentally, how does the school intend to control and regulate the students from driving in and about Rolla? Does the Director of Traffic Safety intend to send out his assistants to patrol the streets, to stop and arrest any violators? Or does he intend to set up road blocks on all streets, leading to and from Rolla?

So how about it, Mr. Director of Traffic Safety? Where does the school get this authority? By what right are you passing these regulations? How about letting us, the students, know what the score is? After all, it's we students that will have to pay the fines?

Richard H. Okenfuss

Voting Is Both a Privilege

And an Obligation

Voting used to be considered a privilege in the days when only a few males in the human species, by virtue of their race and sex, were qualified to vote. Consequently, most men who could, voted. Today, all people who qualify as American citizens can register to vote simply by paying a five-minute call to their town hall several weeks in advance of elections. This is a part of the American heritage.

However, voting is considered by many to be a moral obligation more easily avoided than met. The moral obligations underlying our heritage are part of the civil responsibility undertaken by free people. They can be detested as dutiful actions or with a change in attitude, anticipated as acts of will. When regarded as dutiful actions, these obligations cause complacency, a national problem which is innately alien to our heritage. It is an attitude that can be changed by the combined efforts of optimistic young people. Today many of our elders need youth to lead them to register and vote as acts of will. Perhaps by establishing a new and positive attitude toward voting, we can overcome this mounting apathy.

A CONCERT IN PARKER HALL

"Come one and come all to Parker Hall
For the big band concert tonight.
Hear the hottest band in all the land
It's a 'Rock and Roller's' delight.
Since the day you were born, you've never heard such a horn,
And the singer?—'Man, she's a "gas"!'
Be there before eight, if you don't want to be late,
Your admission is your student's pass."

Thus read the signs, at the School of Mines,
And the fever was running high;
I estimated aloud, that the sum of the crowd
Would be two thousand Miners and I.
So, about seven o'clock, I joined the flock
Of Miners standing in files,
And found me a seat, about fifteen feet,
Inside from one of the aisles.

Soon the seats were filled, yet about us milled
Many Miners throughout the halls,
Some sat on the floors, in windows and doors,
And others crowded against the walls.
I said "Hi" to a few of the Miners I knew
While waiting for the show to begin;
There was Brosie, and Fred, and Wally, and Ted,
All good Miners, and real fine men.

Those musicians played until the whole house swayed,
For never had musicians heard
Such a hell of a roar, and applause before,
As in Parker Hall occurred!!
Oh, those cats were wild, and the players smiled;
The drummer began to drool,
For the tune outlined was an African kind
Of hot passion and yet—"real cool."

How those Miners cheered, when the singer appeared;
She almost left the stage;
Never before that night, had she seen such a sight,
As two thousand men in a rage!!
She was scared you could tell, but they kept up the yell,
She was flattered and impressed;
She smiled for the guys, while four thousand eyes
Kept her mentally undressed!

The Miners wen wild, whne she wiggled and smiled,
And the place became a riot,
They ran in the halls, and bounced off the walls,
For nothing could keep them quiet!
Then, through the crowd ahead, I could see ole Ted,
His eyes were fixed in a trance,
He leaped the stage, and there engaged
The singer in a dance.

There was no doubt, as they danced about,
The Miners liked him too;
They stomped the floor and yelled for more,
As around the stage they flew.
So the musicians began to play and join in
As Ted showed them his stuff,
But the singer feared, from the way they cheered,
That they'd never get enough.

So she signalled a friend, for the concert to end,
The curtain finally dropped;
But no Miner denied he was well satisfied
After the music stopped.

So come one and come all, to Parker Hall,
On all the concert nights;
Two thousand Miners and I, wouldn't tell you a lie,
We know you'll enjoy the sights!!

The Dean Comments; Welcomes Parents

Of all the special occasions during the academic year at Missouri School of Mines and Metallurgy—Parents' Day, Homecoming, Engineers Day, Commencement and the like—Parents' Day is certainly the most pleasant and most delightful. In a joking way I might say that our faculty likes Parents' Day because then the students are on their best behavior. The students too like Parents' Day because sometimes the folks leave a couple of extra dollars spending money.

Seriously we are all anxious to have the parents see this engineering college and the type of education which is available here. You can visit the laboratories and classrooms where students work and you can meet their teachers about whom they have written home, I hope in glowing terms. You may note some crowded conditions but the State Legislature has appropriated funds for several more buildings and the Board of Curators, which is our governing body, has really wonderful plans for enlarging our educational facilities. The Board wants also to enlarge the social and athletic facilities so that in a few years the Missouri School of Mines and Metallurgy will be able to accommodate an even larger student body than the present one.

We are very proud of our students. They are fine young people and we salute their parents whose love and devotion can never be fully appreciated until later years when these young people send their own sons and daughters to college. So parents, we extend a cordial welcome to you and hope that you will come back to see us many times.

CURTIS L. WILSON
Dean

U. S. Naval Ordnance Test Station Rep. To Be on Campus

Harold F. Metcalf, a representative of the U. S. Naval Ordnance Test Station (NOTS), China Lake, California, will be on the Missouri School of Mines campus on Thursday and Friday, October 25 and 26, 1956, to discuss job opportunities with seniors who are majoring in the fields of physical science and engineering.

Mr. Metcalf heads a group of engineers at NOTS whose job it is to design and develop processing and handling equipment for the propellant charges that go into rockets and guided missiles.

NOTS is the Navy's largest ordnance research, development, and test center, employing over 6,000 persons. The highly technical work at NOTS requires some of the finest minds in the world and the employees there represent more than 200 colleges and universities in the nation plus several foreign institutions of higher learning. The Missouri School of Mines is well represented at NOTS.

Mr. Metcalf will be particularly interested in talking to students in the field of engineering, physics, chemistry, and mathematics, although there are jobs open for writers, editors, administrators, illustrators, secretaries, librarians, and many others.

"Would you call for help if I tried to kiss you?"
"Do you need help?"

President Ellis Calls Hearing for Increase Of Engineer Grads

Dr. Elmer Ellis, President of the University of Missouri has invited the President of all colleges of Missouri to convene in a conference to study means of providing engineering education asked by students and required by national needs.

A total of 37 administrative officers from 19 Missouri colleges and universities have already accepted the invitation to attend a conference here at the University of Missouri on Oct. 22 to study ways of increasing the number of engineering students in the schools, President Elmer Ellis said today.

Dr. Ellis said that national and state need for more engineers in colleges be given every opportunity to select engineering as a field of specialization. The conference will also deal with coordinating pre-engineering programs of study in non-engineering colleges, consider wider use of the three-year liberal arts and two-year professional engineering studies, and one and two-year pre-engineering courses in junior and senior colleges.

Dr. Ellis said that the demand for engineering training is overtaxing facilities of engineering schools and "it is essential that pre-engineering courses be available in non-engineering college and each course dovetail properly into student programs upon transfer to regular colleges of engineering."

The program of the conference, which will be held in Room 214 of Memorial Student Union, will open October 22 at 10 a. m., with Dr. Ellis meeting the conferees and outlining the purposes of the meeting.

He will be followed by Miles G. Blim, dean of Junior College of Kansas City, who will discuss "The Junior College and the Pre-Engineering Curriculum," and then by J. W. Jones, president of Northwest Missouri State College at Maryville, who will speak on "The Partial Training of Engineers in the Four-Year Non-Engineering College."

Luncheon will be served, after which the conferees will return to resume their discussions, with a talk by Don A. Fischer, acting dean of the College of Engineering of Washington University, St. Louis, on "Problems of Transfer Students in the College of Engineering."

A panel discussion to explore the problems of "How to Achieve Closer Integration of Engineering Education in Our Colleges," will conclude the formal program schedule. Members of the panel will include: Dean Frederick Marston of Kemper Military School; Dean Frank Clippenger of Drury College, Springfield; Dean Victor Blum of the Institute of Technology of St. Louis University; and Assistant Dean Vernon Gevecker of the University's School of Mines and Metallurgy at Rolla.

Professor J. F. Davidson, head of the MSM Mechanics Department, will also attend.

An open discussion and business session will conclude the conference.

NOTICE

Wednesday evening the St. Pat's Board will present a benefit movie, "The Stratton Story" at the Uptown Theatre. Admission will be 50 cents. Help support your St. Pat's Board.

Chi Epsilon Chooses Fifteen New Pledges

by Eugene E. Lucke

The Missouri Echelon of Mines Chapter of Chi Epsilon, the Honorary Civil Engineering Fraternity held its pledge smoker September 27, 1956. This semester fifteen men have been pledged. They are: Seniors: Don S. Ballard, Richard B. Heagler, John W. Moore, Carl J. Thyne, Jr.; Juniors: Joseph E. Crowe, Raymond H. Frankenberg, Jack B. Haydon, Frank W. Hill, Charles R. Hoffman, Dale L. Klor, Hugh A. Langford, Jerry K. Littlefield, Don E. Modesitt, Howard W. Lichius, Dale E. Strub.

Membership in Chi Epsilon is extended only to students in the field of Civil Engineering and it is based upon scholarship, character, practicality, and sociability, the four primary requirements of a successful engineer.

"Did you make the debating team?"

"N-n-no. They s-s-said I was not t-t-tall enough."

BAND SELECTED FOR HOMECOMING DANCE

Frank Hill, St. Pat's Board member in charge of the 1956 Homecoming Dance, recently announced the selection of the band which will play for this year's dance. Carl E. Votaw and his Band of Gold of Springfield, Missouri, will play for dancing and entertainment from 9 until 1 Saturday night, November 3, in Jackling Gymnasium. Mr. Votaw and his five piece aggregation are formerly of St. Louis, Missouri.

The dance Saturday night will climax a long Homecoming day of activity for visiting alumni of M. S. M.

Admission to the Homecoming Dance will be \$1.50 per person or couple.

NEXT WEEK'S INTERVIEWS

Company: TENNESSEE COAL & IRON COMPANY, Fairfield, Alabama.

Interested In: January and June graduates in Mining and Geology Option, Civil, Electrical and Mechanical Engineering.

Interview Dates: Tuesday and Wednesday, October 23 and 24, 1956.

Company: WESTINGHOUSE ELECTRIC CORPORATION, St. Louis, Missouri.

Interested In: January graduates in Electrical and Mechanical Engineering.

Interview Date: Tuesday, October 23, 1956.

Company: CAMERON IRON WORKS, INC., Houston, Texas.

Interested In: January and June graduates in Metallurgical and Mechanical Engineering.

Interview Date: Tuesday, October 23, 1956.

Company: GENERAL TELEPHONE COMPANY OF ILLINOIS, Springfield, Illinois.

Interested In: January and June graduates in Electrical, Mechanical, Civil and Chemical Engineering.

Interview Date: Wednesday, October 24, 1956.

Miners Make It Two In A Row At Home Down Kirksville 33-6

Thomas Colandrea

It seems as though the Missouri Miners like playing on their own field as they, for the second home win, took top honors in last Saturday's game. It was quite a game with the M.S.M. team ahead from the first quarter to the last. Upon winning the toss, the Kirksville team elected to receive, Parker obliged by kicking off. The ball was brought up to the Kirksville 34 yard line on the kick and on the next play they gained 2 more yards, lacking 8 for the first down. Fitzgerald, Kirksville's star fullback, fumbled the ball on the following play with the Miners recovering on the Kirksville 46 yard line. The home team did nothing but lose yardage on the next 3 plays and Parker was forced to punt.

There was no play on the ball as it came to rest on the Kirksville 28 yard line. The opposition went for a gain of 8 yards in 3 downs and therefore were forced to return the punt on the next down. The Miners, it seems, were off to a slow start as they were able to gain but 2 yards before returning the ball to Kirksville. Davis received Allison's punt and went as far as the Kirksville 42 yard line before being stopped. Rash, on the next play, took the ball for a 2 yard loss followed by a loss of 3 yards resulting from a handoff to Rash who was caught behind the line of scrimmage. Once more Kirksville was forced to punt with Fitzgerald performing a tremendous kick to the Miner 15 yard line where the ball went out of bounds. The ball exchanged hands two more times before the first 1st down of the game was executed. Helm started the action by intercepting a pass of Fitzgerald's on the Miner's 20 yard line. Feaster carried the ball to the Miner 25 yard line for a gain of 5 yards. A penalty on the next play rendered a gain of 5

more yards for the MSM team and hence a first down. Another penalty against Kirksville brought a gain of 15 more yards for the Miners with the ball being brought up to the Miner 44 yard line.

One down later Quarterback McPherson passed to Northrup who went up to the Kirksville 49 yard line before being brought down. The Miners were penalized on the next play and the ball was brought back to the Miner 46 yard line. A pass by McPherson to Allison gained a first down for the Miners and the same combination rendered another yard for the Miners. McPherson gained 2 more yards, making it 3rd and 7 on the Kirksville 43 yard line. After an incomplete pass by McPherson, Allison punted out of bounds on the Kirksville 27 yard line with Kirksville taking possession of the ball.

Testman brought a first down for the Kirksville team by passing off to Davis who went a distance of 17 yards before being tackled on the Kirksville 44 yard line. On the next play a penalty was invoked against Kirksville but refused by the Miners since only a yard was gained on the play to make it 2nd down and 9 yards to go for the 1st down. They gained but 5 yards before they were forced to punt back to the Miner team by a pass from Zbornak to Hull who was dropped upon receiving the ball on the 50 yard line. Zbornak then proceeded to punt to the Miner 15 yard line.

Feaster, on the first play took the ball for a gain of 2 yards to the Miner 17 yard line. A pitch-out to Ray Parker brought about a gain of 2 more yards to make 3rd down and 6 yards to go for the 1st. A pass was rendered incomplete to Roth to bring about the punt by Parker to Rash who received for the Kirksville team and was able to bring

the ball up to the Kirksville 34 yard line before being stopped by the Miners. Kirksville wasn't able to get farther than their own 41 yard line, 3 yards short of a 1st down. Zbornak kicked the ball to the Miner 42 yard line where it went out of bounds, the Miner squad taking possession of the ball. Feaster kept the ball on the 1st play only to be caught 4 yards behind the line of scrimmage. A lateral to Allison from Feaster succeeded in gaining 9 yards, with the ball coming to rest on the Miner 47 yard line. Feaster and Allison teamed up again, this time with Feaster passing to Allison for a gain of 17 yards for the 1st down. A 5 yard penalty against Kirksville brought the ball up to the opposing team's 31 yard line. Another lateral to Allison by Feaster gave the M.S.M. team a T.D., the first of the game. Rockwell attempted the PAT but it was no good. With 9:49 left to play in the game Rockwell kicked off to Young who brought the ball to the Kirksville 33 yard line. It looked as though the Kirksville team would make a 1st down with a total gain of 8 yards on the 2 following plays but on the 3rd play Davis was tackled for a loss of 10 yards. Fitzgerald was then forced to punt, Varga taking the ball from the Miner 42 yard line to the Kirksville 38. A pitch-out to Allison was good for a gain of 2 yards. An off sides penalty against Kirksville brought about a gain of 5 yards for the Miners making it. Once again Feaster carried the ball by executing the quarter-back sneak and with some fine faking and running together with some terrific blocking he went the distance for another Miner T.D. The PAT was no good and Rockwell kicked off to the Kirksville team. The score standing at 12 to 0 with 6:50 remaining till half time.

Bob Helm is shown scoring his first touchdown of the afternoon against the Kirksville Bulldogs. Bob scored from 2 yards out after Roger Feaster had returned an intercepted pass to the Kirksville 2 yard line. This touchdown came late in the second quarter and made the score Miners 18, Kirksville 0.

—Photo by Ned Peet

Don Roth

MSM Athlete of the Month

The "M" Club of MSM has announced its choice as the athlete of the month of September. Donald Roth was elected by a vote of the lettermen's organization as the outstanding athlete on the campus last month.

Roth, a senior, is putting on the gold and silver the fourth year. This is Don's third year as starting left end on the Miner team. Don is not only a three-year letterman in football but is also a three-year man in tennis. So far Roth has been the leading pass receiver on the Miner squad.

Don stands 6' 1" tall and weighs 185 pounds. He is the lightest man in the Miner line.

Here at MSM, Don is majoring in Mechanical Engineering.

Activity-wise, Don is Grand Scribe of Kappa Sigma Fraternity Vice-President of Blue Key, St. Pat's Board member and treasurer of the M-Club. We feel that the M-Club has made a very wise choice and we would like to take this opportunity to extend our congratulations to Don.

Kirksville went a distance of 9 yards in two plays with the ball on the Kirksville 40 yard line. Feaster, on the next play, intercepted a pass and was brought down 2 yards short of a T.D. A hand-off to Helm, who went over the goal line made the score 18-0. Rockwell increased the lead by one with a successful PAT. Parker kicked off for the Miners with the ball being brought as far as the Kirksville 36 yard line. Kirksville came back quickly by gaining a T.D. with just one play, a pass from Zbornak to Davis, Davis going the distance for the touchdown. Zbornak missed the kick making the score 19-6 with just 3:40 left to play till the end of the half. It seemed as though the Miners were due for another T.D. when McPherson took the ball from the Miner 44 yard line to the Kirksville 33 yard line. Parker, fumbled on the next play and Kirksville recovered on their 36 yard line. Kirksville was able to execute just one play before the half ended.

During half-time the ROTC band went through quite a display including many well-played songs and a very impressive (Continued on Page 5)

INTRAMURAL Sports

The league play in intramural flag football came to a close last week, with only the double elimination tournament among the winners of the three leagues, this week, to decide the championship team.

The winner of League I is Tech Club. Theta Kappa Phi came out on top in League II while the Engineers Club took top honors in League III. All of the league winners are undefeated going into the playoffs.

On Monday of last week Lambda Chi Alpha defeated the Shamrock Club, Kappa Sigma downed Sigma Pi, Sigma Phi Epsilon won over the Dorm while the Tech Club came out on top over Sigma Nu after a tie in regulation time. The Engineers Club won over Triangle and Theta Kappa Phi took a close one from Tau Kappa Epsilon.

Tuesday saw the Engineers Club come back and win another one, this time from the Baptist Student Union, to assure a first place for them in their league. Theta Kappa Phi knocked off the Prospectors Club to cinch a first in their league, also. In other games Sigma Nu downed Sigma Tau Gamma, Wesley Foundation topped the Dorm, Theta Xi defeated Kappa Sigma and the Shamrock Club downed Dorm "A".

Thursday, the last day of league play, saw Tech Club take first place in League I by defeating Lambda Chi Alpha. Tau Kappa Epsilon took a second in League II by beating Sigma Pi while Triangle won from Sigma Phi Epsilon to wind up the season for eighteen of the twenty-one teams entered.

In Tennis Singles Eshbaugh stayed on top by defeating Don Gunther and his brother, Jim Gunther, to remain the only undefeated player in singles competition. On the loser's side of the tournament, Auturie defeated Harris and Borsari and then lost to Don Gunther. Borsari had won over Braum earlier in play. Sutherland came out on top over Kosfield but then lost to Hampe. Haubold then took one from Hampe to stay in the race. Hampe to stay in the race.

Switching over to Table Tennis Singles Theta Kappa Phi won over Pi Kappa Alpha to stay on the winners' side of the bracket. Wesley Foundation, also, stayed there by downing the Shamrock Club. On the losers' side, Pi Kappa Alpha beat Kappa Sigma, Tech Club won from Kappa Alpha and Triangle downed Sigma Nu.

Next on the intramural schedule is the Cross Country run to be held at half time at the November 3rd Homecoming game. The Handball Tournament, both singles and doubles, will begin on the fifth of November.

Instructions and workout schedules for all coming sports are posted on the intramural bulletin board in the Ackling Gym.

Don Kozeny

PROSPECTIN' the Conference

by Bob Ahlert

Kirkville's team was broken in two last Saturday by our Miners with the final tally 33 to 6. Our boys didn't look up to par during the game, with some sloppy playing. The win Saturday puts us in first place in the M. I. A. A. along with Springfield and Warrensburg.

Warrensburg kept their winning streak going by beating Maryville 13 to 6 Saturday night. This makes four wins against no losses for them this year. I imagine Warrensburg feels a little better since Cape lost, but who knows, maybe Springfield should be the team to beat Warrensburg.

The Springfield Bears upset Cape Girardeau last Saturday at Springfield by a score of 25 to 0. That was quite a game for the Bears to win, for that was the first time they have scored against the Indians in three years. Also the Bears had a chance to show off to their alumni, as that was their Homecoming game.

The game started off pretty slow with neither team making any headway during the first quarter.

Action came fast and furious midway through the second quarter. Springfield moved 57 yards from their 33 on a 17 yard pass from Birmingham to Riddels. It seemed as the Bears ran out of gas on the Indians' 10 yard line, but finally pushed to the five for a first. From there Thomas plunged five yards for the T.D. The kick for the extra point was blocked leaving the half-time score 6-0.

The third quarter was scoreless with both teams playing good

defensive ball. The Bears kept Cape off their tail with several good punts by Marazza and Vilott.

A dream paradise would be a good phrase for the fourth quarter as far as Springfield was concerned. The Bears advanced to Cape's eleven on a thirty yard run by Rule, midway through the quarter. The Indians stopped Springfield cold, forcing them to kick for a field goal which was good for three points.

The first play after the kickoff O'Keefe intercepted a Cape pass and ran all the way for a TD, behind excellent blocking. Koene-man missed the extra point after kicking the field goal two plays before.

The Indians seemed to go all to pieces after the second touchdown by Springfield. Mathew's pass was intercepted on Cape's 31, but the Bears could not gain any ground. Koeneman came into the game and kicked the pigskin 45 yards for three points.

The bobble of the year came when Springfield kicked off. The ball went into the end zone and the Indians stood by and watched Clopton, of the Bears, fall on the ball for a touchdown. The extra point was good which upped the score to 25-0.

Statistics

	Bears	Indians
First Downs	13	8
Yards Rushing	197	112
Yards Passing	32	26

Tomorrow afternoon's game here with Springfield battling our Miners ought to be quite a game to see. If the Miners are to win they will have to play better ball than they played against Kirkville last week. I think they can do it though, but it will take quite a fight.

Miner-Bear Game To Entertain Parents

by Eugene Simko

Tomorrow the Missouri Miners take on the Springfield Bears at Jackling Field. The Bears, led by quarterback Rod Kramer, promise to be one of the toughest opponents of the season. The Miners have played 34 contests with Springfield since 1904. Of these, Rolla has won 23 and Springfield has come out ahead 10 times. In 1936, the game ended in a 13-13 tie. Last year's battle was won by the Miners 13-7.

Springfield uses the Split-T formation exclusively. Their quarterback, Rod Kramer, has had four years of experience in that slot. In the line, the Bears have back with them, Bill Kaczmarek. Bill made second team all conference tackle his first two years, and is back again this year to bulwark the Bear line.

Last week, playing before a large homecoming crowd at Springfield, the Bears pulled the upset of the season by dropping Cape 25-0. (See Prospecting the Conference.)

Springfield averages 205 pounds in the line compared with a 198 pound average for the Miners. In the backfield, the Bears also have a weight advantage, averaging 176 pounds compared to an average of 167 pounds in the home team backfield. Overall, the Bears have a 6-pound advantage per man with a 19-pound average. The Miners have been playing very good ball in their past games this year, but the Bears, with their slight weight advantage should make this game one of the better ones to be seen this season.

The probable starting line-ups are as follows:

	MSM	Springfield
Don Roth	LE Lew. Ketch'm	
James Wright LT	Bill Kacz'm	
Rex Williams LG	Jim Wood	
Bill Varga ..	C Ben Konem'n	
Tom Herrick RG	Danny Atha	
Giles Sinkwiz RT	Bulas Spons'r	
Wally Nrthp. RE	Bob Riddels	
Roger Feaster QB	Rod Kramer	
Bob Helm	LH Bob Price	
Perry Allison RH	Jim Toler	
D. Rockwell FB	Steve Rule	

Her—"For goodness sakes, use two hands."

Him—"I can't. I've got to drive with one."

Mech. Prof.—"Name a great time-saver."

Stud—"Love at first sight."

Helm fighting Davis of the Kirkville Bulldogs for the ball. This shot was taken late in the third quarter and Helm grabbed the ball as he fell to the ground for a Miner interception.

—Photo by Ned Peet

MINER-KIRKSVILLE (Continued from Page 4)

smoke screen.

Kirkville kicked off to start the second half. Allison received the ball and took it as far as the Miner 23 yard line. A hand off by Feaster proved a loss of 12 yards for the Miners making it second and 22 to go for the first down. Feaster handed off to Helm, who went up to the Miner 16 yard line before being snowed under. Feaster then threw a pass to Helm who went across the 50 yard line and on up to Kirkville 51 yard line before being stopped. Another pass by Feaster to Helm brought a gain of 16 yards with the ball coming to rest on the Kirkville 25 yard line. This is as far as the Miners were able to go being stopped on downs.

Perrin took the ball to the Kirkville 38 yard line for an ultimate gain of 4 yards. Kirkville was able to get the first down, going as far as their own 48 yard line. Fitzgerald handed off to Rash who went a distance of 4 yards going on up to the Miner 48 yard line. Stouffer went for 4 more yards making it second down and 2 yards to go for the 1st down. Kirkville accomplished a gain of 9 more yards for the 1st down. And this is as far as they did go, the Miner line doing a fine job on the defensive part. The Miners weren't able to go anywhere neither and they were finally forced to punt. Kirkville on the next 3 successive plays gained a first down getting as far as their own 31 yard line. They tried passing on the next couple of plays but both attempts were incomplete. Gaining only 3 yards on the next play the opposing team was forced to punt to the Miner 32 yard line, the Miners, on the same play were penalized 15 yards for clipping and there-

fore the ball was brought back to the Miner 17 yard line.

Feaster handed off to Rockwell who fumbled the ball, Kirkville recovered it on our own 14 yard line. This is where the Miners really buckled down and held the opposition to less than 4 yards gainage. Then the Miners took possession of the ball on their own 16 yard line. Feaster, on the next play, passed Allison for a gain of 6 yards. Feaster again passed, this time to Northrup who went up to the Miner 21 yard line before being snowed under. Feaster then threw a pass to Helm who went across the 50 yard line and on up to Kirkville 51 yard line before being stopped. Another pass by Feaster to Helm brought a gain of 16 yards with the ball coming to rest on the Kirkville 25 yard line. This is as far as the Miners were able to go being stopped on downs.

Fraternity News

TAU KAPPA EPSILON

by Thos. Colandrea

Well all of the partying is over and everyone is hitting the books in the TEKE house (well, almost everyone). The pledges had their party time last week-end with a hay ride Friday night and the pledge dance Saturday night. Both proved a great time for those who went (the rumor has it that way, it seems), even without the big orange drinks which usually were the custom in the past.

While everyone was on the hay ride, where was Gerry Schaeffer, Bob Qualls and Roger Finlen, and what were they doing? Well, it seems as though they were riding around St. Louis when what should appear but three young (?) ladies (?). How did it go again, Bob—"If I go over to your house, baby, what is there for me to eat?"—and what was her reply?

THETA KAPPA PHI

The girls have all gone home, and life again returns to its original old grind. This weekend, Theta Kap saw one of the best parties yet. Friday, everything was going along just fine at our party at Onyx Cave, when it started smoking up. So everyone went back to the house, and we had a "wing-ding" of a dance.

Saturday afternoon was spent by everyone at Maramec Spring. Some took the unexpected swim as it seems someone must every time. Saturday night, the music for the dance was furnished by the Chris Woods Combo. The music was really great. At the dance, the "Bird Dogs" were in full force, with some ending up with a different girl from that which they started. Bob, why wouldn't Ol' Joe introduce his date to you? Koz lost his pin over the weekend, and doesn't know where to find it. Congratulations Marge, you finally got it away from him.

SIGMA PI

Ditch the calendars and bottles boys, the parents are invading the campus this week-end. Preparations are being made to decorate the house, and needless to say we'll be prepared to stand a white glove inspection. One group of industrious young (?) men even did a little painting Aye, and a bonny job they did. It seems like one of them got so industrious that he painted the sidewalk in front of the Rolla Hardware Store. In the future, Ken, if you must paint sidewalks, spread the paint out a little more. I don't think you needed a whole gallon for three square feet.

BETA SIGMA PSI

Well, I guess everyone's readying themselves for the "big" day. No, it isn't Homecoming, but the long-awaited Parents' Day. All of our mommies and daddies will be here to see their little boys. Perhaps to the chagrin of some students, their parents will see what their hard-earned money is being spent for. And in addition they may see that college life here at MSM isn't a "bed of roses" after all.

This past weekend was one of turmoil and confusion for every one at the "ole white house," due to a general cleaning, painting, and repairing in preparation for the coming weekend.

As for the Dorothy Dix or Martha Carr department, it seems that Jerry Vie had the happy misfortune of losing his pin to Miss Ruth Coibion of St. Louis. Congratulations, Jerry.

PI KAPPA ALPHA

We had quite a blas at the house during our Pledge dance. It started off with a few friendly drinks and songs out at Colonial Friday afternoon. Our hayride that night was a success despite the fact that one man thought he was out on a rock field trip. Did you find any good specimens, Soma?

This weekend is Parents' Day so we will have to clean up the house, put on our best clothes, and be on our best behavior so as to impress our parents. We will take them up to the M. S. M.-Springfield game in which we hope to see our great star Bill Kruger get to play again.

SIGMA PHI EPSILON

This is Stretch coming to you from station MGSPE (Missouri Gama, Sigma Phi Epsilon), broadcasting from the Sig Ep Pledge Mine which was the theme for our pledge dance last Saturday. We had the entrance to the mine just outside the door and the interior decorations were built around an 8-foot diameter pledge beanie hanging from the ceiling.

Our music came from an intercom system operating from upstairs, very similar to a radio station.

SIGMA NU

First and foremost, we of

Gamma Xi would like to extend a most heart-felt welcome to all the parents of our Brothers and pledges. We sincerely hope you will enjoy yourself so much you'll come back next year. (Unless your son's a Senior.)

You could have at least come to the house for meals, R. B.—Kraut, you old devil you, Satch wasn't really that hungry—Thankx to the pledges for a sensitive interpretation of a classic best seller.

I would like to personally thank the Brothers who serenaded my date from their lofty perch

at two o'clock Saturday A. M., but fellas; did you HAVE to remember ALL the words?

TRIANGLE

A few of the boys around the house are still mumbling to themselves after last weekend. Anybody know why Meskin slid down the third floor stairs on his stomach?

The word of the day last Wednesday was, "kerrr-splash" and "Henson in the pond!" I wonder if we can get "Veep" Henson to do a repeat performance. That triple twist with a full gainer into the pond was pretty good.

The new members of the pledge class have shown a great interest in school activities and have helped to relight the school spirit which seemed to be fading out. Loyalty of this kind is hard to beat on any terms. Speaking about loyalty, three new men went head over heels in the design of the new crew-cuts. Seems like the newest fad is in the three-sided flat-tops.

KAPPA ALPHA

You know in a way there is so much truth in the old adverb—"there is a time and place for everything" which, in our case, modifies the verb—party. The party we had was our 1956 Pledge Dance. All the KAs exchanged their khakis and Levis for suits and slide rules for women and had a ball at the Pine Room last Saturday night. It was truly a gay occasion with all the extra added attractions, such as: women, music, laughter, and things.

Congratulations are in order for Rich Dendler, a junior, who, through his scholastic ability, won the Illinois Mining Institute Scholarship worth 400 smackers. Nice going Rich!

In the world of sports we would hereby like to start the rumor that we have one of the greatest basketball teams to ever hit the campus! Although the table tennis doubles are not yet finished at this time, we are still in there fighting, hoping to come out in fine shape.

We would like to offer the right hand of fellowship to four new brothers—Richard Maguire, Jim Carpenter, Stu Knoepfel, and Humbert Sfreddo—who were initiated November 20.

Kenneth Baxter

SIGMA TAU GAMMA

Since tomorrow, October 21, is Parents' Day, we, the members of Sigma Tau Gamma, can think of no better time than now to express our gratitude to our parents for everything they have done for us during the years we have been studying at the School of Mines. In particular, we would like to pay tribute to all the parents for the part they have played in helping us establish Sigma Tau Gamma on the MSM campus.

We would like to thank Mom for the times she has given us moral support. When the studies seemed almost impossible, when the fraternity was having a hard time with some particular problem, she would cheer us up with "Don't worry. Everything will be okay," while in her heart she breathed a silent prayer that everything would turn out all right.

We would like to thank Dad for the times he has given us useful tips. When we needed some advice on how to build or install something in the chapter house, he would show us. "No, Son. Not that way. Here. Like this." When we needed something for the house and we didn't have the money to buy a new one he would say, "I know a place where you can get it second hand. I'll pick it up for you."

For this and for many other things, we, the members of Sigma Tau Gamma, say, "Thanks, Mom. Thanks, Dad."

Bob Powers

Reader's Digest Helps College Funds For Scholarships

Want to win \$5,000 for yourself and another \$5,000 for the scholarship fund of your college?

All you have to do is to win first prize in the current \$41,000 Reader's Digest contest for college students and faculty members. On blanks obtainable at college book stores, you simply list in order the six articles you consider most interesting in the October issue of the magazine.

You must decide whether Americans are more interested in humor than brains. Will more people read an article on prayer than about the emancipation of Japanese women? Are trading stamps more important than bridges? These are among the subjects covered by articles in the issue.

Contestants with lists closest to the result of a survey of the preferences of Digest readers will receive the prizes. Entries must be postmarked before midnight October 25 and addressed to the Reader's Digest Contest, Box 4, Great Neck, L. I., New York.

Second prize is \$1,000 cash with an equal amount to the school's scholarship fund. There are ten \$500 cash prizes with an equal amount of scholarship funds.

There will be 100 prizes of \$10 in book credit from local college book stores. The best entry from each college will receive an additional \$10 in book credit.

MINER-KIRKSVILLE

(Continued from Page 5)

fumbled the ball on the next play with the Miners recovering on the Kirksville 17 yard line. The Miners had a fine chance to score at this point in the game but were stopped on the Kirksville 1 yard line.

Kirksville took over the ball and were held to the 1 yard line on the next two plays. On the 3rd down Schutze kicked for the Kirksville team with Parker taking the ball, and with fine blocking he went all of the way for the Miners' final T.D. Parker made the extra point bringing in a final score of 33-6 and only 3:50 left to play. After the kickoff Huseman intercepted a pass for the Miners on their own 21 yard line. There was no gain on the next two plays but on the third play a hand off to Roehrs succeeded in bringing the ball to the Miner 35 yard line. The Miners remained on the 35 yard line until, with the final play of the game, a pass by Wheeler brought about a long run, almost

for a T.D., except by a good tackle by Davis, and so the game ended, the Miners winning it by a score of 33-6.

Prof of Political Econ.—"Who is the Speaker of the House?" Stude—"Mother."

"Don't you think George dresses nattily?" "Natalie who?"

LAST CHANCE! to enter Reader's Digest \$41,000 CONTEST

It's fun to do—and you may find you know more about human nature than you think! Just list, in order, the six articles in October Reader's Digest you think readers will like best. Couldn't be simpler—and you may win \$5,000 cash for yourself plus \$5,000 in scholarships for your college.

Have you sent in your entry yet? Entries must be postmarked by midnight, Thursday, October 25. Entry blanks available at your college bookstore.

MSM RADIO HOUR

(Continued from Page 1)

special events, scholarship news and invitations for non-students to visit the campus.

The last section of the radio show pertains to the activities of the foreign students. Members of the International Fellowship play a large part in making the part of the show a success. Mr. Kjeil Arnesen is in charge and does a superb job.

Between sections of "The Radio Hour," music is brought your way by M. S. M.'s own Tune Time Master, Ted McFarlane. Ted, having had considerable experience on a similar program at Swarthmore College is well qualified for his position. The music selections are taken from the M. S. M. music library, Ted's own records, and volunteer requests of students from time to time.

The members of the Miner staff gather news and present it to the "Student Radio Hour" editorial staff, which as stated before, are students from speech classes. The students prepare the news in coordination with the music McFarlane chooses.

The members of the speech classes spend much of their valuable study time presenting the radio show but they feel that the experience gained by presenting a typical radio program over the air is worth it. During the program the students are under constant pressure. Most students find that on their initial program it is not an easy task to read over a mike with good inflection, sufficient volume, and adequate articulation. Since announcements differ each week, the students are not expected to be letter perfect; it's practice for them and distribution of school news.

Special thanks go to all who take part in the program. Professor Brewer, Professor Skitek the E. E. Dept., the foreign students, the speech class, and the technicians all make the "M. S. M. Student Hour" a real part of student life at M. S. M.

IT'S FOR REAL!

by Chester Field

SECRET YEARNINGS!

Oh, why must I be civilized instead of being me?

I'd like to be a beast and kiss each pretty gal I see

I'd like to kick that brain next door,

it's been my favorite dream

And when I'm low I'd like to lie

upon the floor and scream!

MORAL: When you want to let go,

enjoy the real thing

Relax and enjoy a Chesterfield King!

The King of them all for flavor that's real

For deep satisfaction you honestly feel...

Made to smoke smoother by Accu-Ray

Beg... borrow... or buy 'em,

but try 'em today!

Take your pleasure big...

Smoke for real... smoke Chesterfield!
