THE MISSOURI MINER

VOLUME 44 ROLLA, MO., FRIDAY, MAY 23, 1958 NUMBER 27

Mary Williams Chosen Queen Of Greek Day Celebration

The Greek Weekend was high-lighted this year by the crowning of the Queen. The attractive Miss Mary Dee Williams was chosen as this year's Queen. Mary Dee is about 5' 2" and has deep dark brown eyes. Her sparkling smile and splendid personality won her the approval of everyone. Her home is in Franklin, Indiana, and presently she attends Lindenwood College at St. Louis, Missouri. Her escort was Lee Robinson, a mechanical engineering student. Mary Dee was Lambda Chi Alpha's candidate for Queen.

The Queen was chosen this year at a reception held at the Lambda Chi Alpha's Chapter House. Previously, the Queen automatically went to the house which showed itself best during the Greek Weekend activities. This year the Interfraternity Council decided to hold a reception in order to pick the most qualified candidate. During the reception, the members of the Interfraternity Council met and talked with all the Queen candidates. The council is composed of two representatives from each house on the campus. The council then retired to choose the most qualified candidate for Queen. Upon their return, Allen Pope of Sigma Nu, president of the council, announced that Mary Dee had been chosen Queen of Greek Week.

Those present at the reception were Professor Moulder and Mr. and Mrs. William Murphy of the faculty, members of the Interfraternity Council and their dates, and representatives of the Miner and Rollamo Staffs.

The Queen candidates and their escorts are shown at the reception. The Queen candidates from the various fraternities were: Miss Marilyn Wollgast, Beta Sigma Psi, escorted by Ron Mueller, a junior in the Mech. Department;

Miss Carol Edler, accompanied by Memphord Smith from Theta Xi, a freshman in EE; Miss Carol Heiger, representing Theta Kappa Phi, was escorted by Tom McCarthy, a senior in the EE field; Mrs. Doris Welsh, Pi Kappa Alpha, escorted by Tom Welsh, a senior in M. E.; Miss Marcia Mertens, Sigma Phi Epsilon, escorted by Ted Benthrop, a junior in M. E.

Miss Willadean Smith, Kappa Alpha, hails from St. Joseph, Mo.,

and was escorted by Jim Jackson, a civil engineering junior. From our own Rolla, came Miss Jeannie Mitchell. Her escort, a junior in ceramics, was C. J. Phillips, of Kappa Sigma. Jim Henson, a member of Triangle fraternity, accompanied Miss Karen Heinlein of Jefferson City, Mo. Jim is a junior in civil engineering. Miss Jo Hillsman, from Milwaukee, Wisc., represents Sigma Tau Gamma, and was escorted by Don

(Continued on Page 8)

Lambda Chi Alpha Wins Greek Weekend Trophy

All the Greeks assembled in the spirit and glory of old Greece. The splendor and triumphal knowledge of that old city shown on their faces as the weekend began. Lambda Chi gave a very nice party in honor of the queen candidates on last Friday evening. A very enjoyable time was had by all. Rolla Lions Park was the scene of the first combat of the time was all the fraternities competed against each other for the top amount of money for the Missouri Boys Town. The house that walked off with the top honors was Lambda Chi Alpha with \$68. Many-colored booths of many descriptions covered the grounds. One booth of special interest to ardent comic-strip readers was the picture-taking booth, where for a nominal fee your pix could be snapped with Snooper looking at you with one of his "culture viewings." A very fine group from our own campus played for listening and dancing from about 9 p. m. until after 11 p. m.

The carnival was a great suc-

cess and was hailed with much ado by a throng of people representing not only the Greek population but also a number of others.

Saturday afternoon saw the crowds gather at the Grotto for a fine day of competition. The weather was perfect for the many contests. A few new games were entered on the scroll of the day which included the Sir Walter Raleigh race, and the girl carry. But the ones that gained the most attention were the old favorites of the annual affair. These were the Egg Throw and the Tug of War! Yellow-spotted shirts became the order of the day as the contestants tried their hand. In the game of brute force, the one of war, the creek afforded a place for many a red-faced individual to become completely cooled off!

Emmitt Carter and his men provided the music to dance by at the park pavilion. The strains of his music could be heard even as far away as the creek area, where many a dumbfounded senior found himself from a few houses.

After the total points of the weekend had been tallied, the winner of the overall Greekend trophy was found to be Lambda Chi Alpha. The beautiful trophy was taken by their queen back to their house.

Saturday evening found each house open to everyone. Many varieties of parties offset the usually dreary Saturday evening pastimes. There were shipwreck parties, formal dances and casual get-togethers.

But once again the curtain comes down on a fine Greek Weekend, and school is with us once again. Only the old Greeks have a word for this past celebration, and possibly it is just GREAT!

Rollamo Board Elects Bill Fesler as Editor

At a meeting of the Rollamo Board held May 15, Bill Fesler was elected Editor of the Rollamo for the next school year and Dick Ross is Business Manager.

Bill Fesler is succeeding Rich Konrad, who held this position the past year. He has worked on the Rollamo Board for three years, holding the position of Classes Editor this past year. Bill, who is a member of Pi Kappa Alpha where he held the office of Treasurer, is a Junior in Mechanical Engineering. Bill is active in school organizations, belonging to: Tau Beta Pi, Pi Tau Sigma, Blue Key, SAE and ASME. He hails from St. Louis County, where he attended Affton High School.

Dick Ross has worked on the Rollamo Staff for the past two years in the capacity of Associate Editor. Dick hails from St. Louis, Mo., where he attended St. Mary's High. He is a member of Theta Kappa Phi Social Fraternity, where he held the offices of Alumni Secretary, and is now serving on the Executive Council. Dick is majoring in Civil Engineering.

Holding the position of Associate Editor is Louis Rephlo, a two-year member of the Rollamo Board and the past Literary Editor of the staff. Louis, a Sophomore in the Electrical Engineering also belongs to: Blue Key and Alpha Phi Omega Fraternity. His home address is Jefferson City, where he graduated from St. Perer High School.

Frank Bender, who is Sports Editor for this year, has been appointed Classes Editor for next year. Frank is a Sophomore in the Electrical Engineering Department and has his home in St. Louis.

Wayne Johner, who has his home in St. Louis County, has been appointed Literary Editor for next year. Wayne is a Freshman in the Mechanical Engineering Department.

At this time we of the Rollamo

Staff would like to thank all those who are working to make this year's Rollamo a success, especially the past officers.

Commencement Will Be Held June 1

The eighty-fifth annual commencement of Missouri School of Mines and Metallurgy will be held on Sunday, June 1, in the Rolla High School Auditorium. Baccalaureate exercises will be at 10:00 A. M., and will be highlighted by an address on "Religion and Community," by the Very Reverend Dr. Ned Cole, Dean of Christ Church Cathedral, St. Louis, Missouri. At the 3:00 P. M. Commencement exercises an address on "The Future and Your Heritage" will be given by Charles A. Smith, Executive Vice President of Mexico Refractories, Mexico, Missouri.

Approximately 400 degrees will be conferred, of which 376 will be B. S. degrees, 20 M. S. degrees, and one professional degree.

A departmental breakdown on the Bachelors degrees is as follows:

Mechanical Engineering	83
Civil Engineering	78
Electrical Engineering	70
Chemical Engineering	46
Mining Engineering	42
Metallurgical Engineering	28
Ceramic Engineering	10
Physics Major	12
Geology Major	7

NOTICE

Change in previous instructions to all Korean (PL No. 550) Vets:

If you do not graduate fill in your last report May 1 to June 4. No change in previous instructions:

If you graduate fill in your last report May 1 to June 1. Bring all reports in the Registrar's Office.

Thirty-five Scientists Initiated Into Society of Sigma Xi

Thirty-five scientists were initiated Friday evening into the Society of the Sigma Xi, national Scientific Honorary Society. The initiation ceremonies were held in Room 107 of the Mining Building on the MSM campus.

Initiated as full members were Rudolph A. Black, Associate Professor of Mining Engineering, Charles A. Bonnell, an MSM alumnus, Rodney D. Candle, Assistant Professor of Mining Engineering, Carl R. Christiansen, Associate Professor of Mining Engineering, Andrew A. Cochran, of the U. S. Bureau of Mines, Attilio Ligasacchi, of the Geology Department, Giovanna Ligasacchi, of the Geology Department, G. Edwin Lorey, Assistant Professor of Ceramic Engineering, Robert E. Moore, Instructor in Ceramic Engineering, and Rubens S. Ramalho, Associate Professor of Chemical Engineering. Election as a full member of the Society is an honor bestowed in recognition of significant contributions to research in pure or applied science.

Twenty-five graduate or under-

graduate students at the School of Mines were elected as Associate members in recognition of their outstanding interest in and capacity for scientific research. Those elected were: Raymond Bauer, Chemical Engineering; LeRoy A. Beghtol, Mining Engineering; Raymundo J. Chico, Geology; Wayne G. Custead, Chemistry; Delbert E. Day, Ceramic Engineering; Robert L. Dreshfield, Metallurgy; Eugene D. Fabricius, Physics; Mehdi R. Fard, Chemical Engineering; Harry E. Hardebeck, Physics; Walter B. Hatfield, Jr., Physics; Niels B. Haubold, Mining Engineering; Joseph W. Hensky, Physics; Don L. Kissling, Geology; Eva B. Kisvarsanyi, Geology; D. S. Krishnaswamy, Geology; Arliss V. Martin, Chemical Engineering; Clarence W. Mettenburg, Physics; Donald E. Puyar, Chemical Engineering; Donald A. Rinker, Physics; Robert Ruch, Physics; Roger J. Schoepel, Mining Engineering; Marshall L. Severson, Chemistry; Curtis E. Weddle, Jr., Civil Engineering; Ronald R. West, Geology; Papken Zarzavatjan, Geology.

C. L. Dake Geological Society Holds Picnic at Maramec Springs

The C. L. Dake Geological Society held its spring picnic Thursday, May 15, at Maramec Spring State Park. In spite of the threat of rain the picnic was well attended with about fifty members, faculty and their families present. During the afternoon a softball game was enjoyed by the students and faculty. Later food was enjoyed by all (we hope).

After the meal the presentation of the "Outstanding Student Geologist of the Year" award was made. The recipient of this

award is chosen from among the graduating seniors in geology by the active members of the society, on the basis of scholarship and interest in geology. This year the award went to Don L. Kissling. He received the book "Sedimentary Rocks" by F. J. Pettijohn, which was donated for the occasion by Harper and Brothers Publishers. The society wishes to thank Harper and Brothers and all those who contributed to the picnic and who helped to make it a success.

THE MISSOURI MINER

THE MISSOURI MINER is the official publication of the students of the Missouri School of Mines and Metallurgy. It is published at Rolla, Mo., every Friday during the school year. Entered as second class matter February 8, 1945, at the Post Office at Rolla, Mo., under the Act of March 3, 1879.

The subscription is \$1.00 per semester. This Missouri Miner Features Activities of the Students and Faculty of M. S. M.

Senior Board

Assistant Editor James Walther
Secretary Ronald E. Sander

Greek Day was quite successful this year. The frats really pulled in a wad of dough. This special Spring day for the Greeks is quite a happy one, but as usually happens, the morning after is not quite so happy. The head will be filled with warm, throbbing glue and seemingly disconnected from the remainder of the anatomy, just before death sets in, chew two aspirin tablets and drink down with a cup of hot water and lemon juice. Creep back into bed.

Perhaps the worst type of unhappiness could be called the Mechanical Expanding Throb. MD's tell experienced drinkers this is constriction of the brain's blood vessels, but they don't explain the shrill train whistle. The best cure for this is to step off a high building.

With serene solemnness we approach the closing of this school year, 1958. This year has had many facets, contrasting the dull and the bright, but out of our joys and sorrows we have emerged. Emerged from what, I really don't know, or perhaps a better way to put it would be—emerging into what?

The undergraduates are bubbling over with happiness about their departure for three months which is soon to come. Undoubtedly they will act like the perfect gentlemen they have learned how to be while here at MSM. Then, next year, they will return to this jolly good place.

The graduates are venturing out into the world, the chems are ready to try their wings, other engineers-to-be are anxious to bite into their first job. We, Bax and Mox Nix, are aware that you graduates know quite a bit, but there are a few details in your education that must be supplemented, and we are proud to do it. You'll find listed below a few conversion factors that will be helpful in your engineering practice.

- 1 gallon—128 ounces
- 1 quart—32 ounces
- 1/5th—25.6 ounces
- 1 pint—16 ounces
- 1 jigger—1.5 ounces
- 1 4-oz. glass—4 ounces

- 1 teaspoon—1/8 ounce
- 1 dash—1/6 teaspoon
- 1 small 12-oz. bottle—12 ounces
- 1 large 32-oz. bottle—32 ounces
- or 2 1/2 12-oz. glasses
- 1/4 barrel—992 ounces, 7 1/2 gallons, or 165 12-oz. glasses.

Well, hope you can use it sometime or another. That's about all this year, ole friend. It's been fun. We would like to close leaving you this reminder—a rolling stone may not gather any moss, but it sure as hell can hurt your foot if it runs over it. Bax and Mox Nix.

NOTICE

This will be the last issue of The Miner this year.

Here's my final grades. Give me two days' head start—then post them.

strictly ad lib

Down Beat Magazine and Dot Records are collaborating on a significant jazz concert presentation in New York in mid-May. The concert, set for New York's Town Hall on May 16, featured Manny Albam and his roaring big band of jazz greats, featuring Art Farmer, Al Cohn, Pepper Adams, Bob Brookmeyer, Jimmy Cleveland, Hank Jones, Eddie Costa and others. The concert is to be recorded for a series of Dot jazz LPs. Oother concerts are in the planning stage.

Red Norvo, the ageless one, is enthused about the number of jazzmen playing vibes today. Recently, he told Down Beat's John Tynan, "Who was playing vibraphone 15 years ago? Today just look at how many musicians regularly play the instrument. Then everybody plays differently on it. I never heard a bad vibraphone player."

Tenor man Johnny Griffin is one of the bright lights in the current jazz field. He is as concerned with the future of jazz as he is with its present. As he told Don Gold, "An effort should be made within jazz to create and encourage strong personalities. I don't think we should worry about where the next Bird will come from. We should encourage the jazzmen to play the way they feel they want to play—not to worry about what someone played on a record."

Drummer Chico Hamilton is his own best press agent. The leader of the unique jazz quartet is ready to discuss music on a moment's notice. For a Down Beat Cross Section feature, he commented on a variety of topics. Here is a sample of Hamilton in action. Chico on Lionel Hampton: "He's responsible for me in more ways than one. He fired me once and that led to what I am today. I think Lionel has been and still is a tremendous musician. He has a love of God and people—a basic asset, I think, because I think you get music from God and people."

MUSIC NEWS: Mary Lou Williams rented Carnegie hall for Sept. 20, to present a jazz concert-benefit, with proceeds to be used to establish a foundation to aid musicians who need work and rehabilitation after withdrawing from narcotics . . . Al (Jazzbo)

Collins, after nearly a year in Salt Lake City, returned to New York to join the thin ranks of jazz disc jockeys there . . . Stan Kenton, after a valiant effort to sustain his band at the Balboa Rendezvous ballroom in California, gave up. "It doesn't look like we're going to succeed," he told Down Beat. "A bundle of money went into keeping the band at the ballroom, but it doesn't look now like it's going to make it at all." . . . Columbia Pictures took the leap into the record industry with its own label . . . Vice President Nixon hailed the Newport Jazz Festival International Youth Band as "an outstanding example of what can be done by private citizens and groups in furtherance of the concept of 'people to people' and the develop-

ment of mutual understanding through contact among people of similar interests." . . . Leonard Bernstein asked Composer Bill Russo to compose a major work for the New York Philharmonic orchestra . . . Broadcast Music, Inc. provided a full scholarship to the School of Jazz at Lenox, Mass., for a student to be chosen from the applicants by Dean Jule Foster and faculty members.

Here are the five best-selling jazz albums in the nation, based on a bi-weekly survey of 300 retail record outlets as reported to Down Beat.

- (1) Andre Previn and His Pals *Pal Joey* (Contemporary 3543)
- (2) Shelly Manne and His Friends, *My Fair Lady* (Contemporary 3527)
- (3) The Mastersounds, *The King and I* (World Pacific 405)
- (4) Erroll Garner, *Concert by the Sea* (Columbia 883)
- (5) Count Basie, *Basie* (Roulette R 52003)

Alumni Association Gives Welcome To Graduating Seniors of 1958

The Missouri School of Mines Alumni Association wishes to welcome into its fold the graduating seniors of the Class of 1958.

In order to get them started in the activities of the Association, each will receive a copy of the MSM ALUMNUS, the Association's official bi-monthly publication and will be given all the privileges, except voting privileges, of the Association without monetary contribution until November 1, 1959.

The major objectives of the Association is to render service to the school, the alumni, the student body, and of course, our nation. We hope the new alumni will take an active part in the Association's activities as soon as they are established and that they

will identify themselves with one of the twenty-one local sections of the Association throughout the United States. A listing of the local section's officers will be found in an early issue of the MSM ALUMNUS which you will receive. The new graduates should contact the local section officers and inform them of their whereabouts as well as keeping the national office, with offices on the campus at Rolla, up-to-date on their current addresses.

The alumni office is here to serve. And do not hesitate to call on us.

We wish to congratulate the graduates on their accomplishments and they have all of our good wishes for a bright and prosperous future.

Noted Physicist Lectures on Recent Developments in Glass Research Field

Dr. E. U. Condon, Past Director of the U. S. Bureau of Standards and Director of Research for Corning Glass Works, and at present the Chairman of the Physics Department of Washington University, gave the last talk of the Sigma Xi Lecture Series for this year. His subject, Recent Developments and Applications of Glass, was presented Friday night, May 16, in the Chemical Engineering Building, MSM campus. Dr. Condon was also on campus for the Initiation Ceremonies and Banquet of the Sigma Xi Society which preceded his talk.

According to Dr. Condon, glass, one of the oldest artistic and engineering materials, should be the subject of further intensive fundamental research in order to evaluate many as yet unexplained phenomena and to be used as a tool for studying physical science problems. He briefly defined glass in its relationship to the crystalline and liquid states and referred to the modern thinking concerning the structure of silicate glasses. To acquaint the audience with the many sides of glass research and applications, the Corning Glass Works film, "Glass and You," was shown; this film depicted the historical development of glass with emphasis on the experiments, research, and automatic production of glass.

After discussing some portions of the film, Dr. Condon concluded his talk with an explanation of some of the newer glasses developed by Corning Glass Works. He emphasized the radiation properties of certain special glasses. Historically, some window and bottle glasses become slightly colored after continued exposure to sunlight, and research into this phenomenon resulted in the development of present-day Photo-Sensitive glass. This glass, with proper ultra-violet and heat treatment, can produce a permanent image within the glass of any desired picture or pattern. Dr. Condon explained the solid state reasoning behind this process, and showed how it led into the discovery of a new application of glass, photo-ma-

chining or engraving. Here, any pattern is developed in the glass, and differential etching is used to remove the developed glass, leaving the desired pattern; this process makes possible the forming of almost any engineering design hitherto impossible to produce. This procedure also has been used to make half-tone printing plates. A final new product discussed by

Dr. Condon was Pyro-Ceram, a glass article which can be completely crystallized after being formed. This makes possible the production of any shape suitable to glass-forming techniques which then can be treated to develop properties better than the original glass. One of the applications of this process has been the production of nose cones for missiles.

"Putting Hubby Through" Is Motto of University Dames

The annual May Banquet of the University Dames was held Thursday evening, May 8th, at the College Inn of the Edwin Long Hotel. This is a big night for many of the girls, as it is the night of the installation of our new officers, and also the night the graduating wives receive their diplomas.

The evening got under way with the serving of a delicious dinner of fried chicken, with all the trimmings. A regular business meeting was conducted after dinner, with the President, Alice Hadler, in charge. Presentation of diplomas was next on the program, with 69 girls receiving their PHT's (Putting Hubby Through). The lights were then lowered for the Installation ceremony which is done by candlelight, and is a beautiful and impressive part of the program. New officers installed were:

Betty Steele President
Peggy Speidel Vice President
Til Weitzel Recording Secretary
Judy Sands Treasurer
Valere Grady Asst. Treasurer
Donnie Williams Corresponding Secretary
Marian Fabiniak Asst. Corresponding Secy.

Following the installation of new officers the outgoing president, Alice Hadler, was presented a beautiful gold pin by the new President. The Dames Choral Group then sang two numbers, "Come to the Fair," and "I Heard a Forest Praying." The members of this group are to be commend-

ed for the fine work they have done this year.

To conclude the evening's entertainment, a Fashion Show was presented, with members of the Dames participating. The narrat-

or for the show, Mrs. Eleanor Dreshfield, described the costumes as they were modeled, and made witty comments to some of the "New" styles being shown this season.

Two door prizes were given, and these were won by Treva Welch and Doddie Zesch. The prizes were furnished by Carp's Dept. Store and Scott's Drug.

The sponsors of Dames were presented with gifts, in appreciation of their help and guidance this past year. Our sponsors are: Mrs. C. L. Wilson, Mrs. W. T. Schrenk, Mrs. I. H. Lovett and Mrs. O. R. Grawe. Alice Hadler, the outgoing President, wants to take this opportunity to thank all those who helped in any way toward the success of the Banquet, and also to those who have faithfully served with her during her term in office. We also wish our graduates the very best of everything, and sincerely hope the future holds the fulfillment of all their hopes and dreams.

University Dames who received diplomas:

Jim Alford, Wayne Andreas, Elgene Anspach, Jerry Armstrong, Jack Ball, Roger Brendecke, Arch Burk, Edward Duderstadt, Adolph Elling, William Field, Calvin Foster, John Giboney, Donald Gillenwater, Charles Green, James Grenia, James Hackett, Forrest Helzer, Richard Hopper, William Hurlburt, Philip Jackson, James Klingele, Dick Knapp.

Don Link, Bill McCulley, Arthur Macalady, Bob Marlowe, Donald Micka, Robert Minton, Wallace Northup, Richard O'Dell, Willard Owens, Harold Pressly, Donat Puyear, John Richey, Jacob Russo, Joseph Sainz, James Sapp, Orville Schaefer.

John Schiermeier, William Schluemer, Ken Schultz, Harvey Shell, Murray Siroka, William Smith, Larry Spencer, George Tomazi, William Thomas, Rex Thomas, Lloyd Tuggle, Lester Unnerstall, Bill Walker, Norval Wallace.

John Waters, Charles Welch,

Sigma Xi Initiation

(Continued from Page 1)

At the impressive initiation ceremonies the initiates were ushered into the presence of the Society by Dr. Frank H. Conrad. Dr. Harold Q. Fuller, founding President of the Rolla Chapter briefly told of the history of the Society on the MSM campus. The Aims and Objectives of the Society were described by Dr. Philip M. Bethke, Vice President. As a highlight of the ceremony, Dr. E. U. Condon spoke briefly to the initiates on the challenge of the future, indicating the role of the scientist in promoting world understanding and extending the advances of civilization to as yet undeveloped areas of the world. Dr. Dudley Thompson, President of the Rolla Chapter, administered the pledge to uphold the principles of the Society to the initiates and presented them to the Society.

The initiation ceremonies were followed by a banquet in honor of the initiates at the College Inn in the Hotel Edwin Long. Dr. Thompson introduced the officers and committee members of the Society along with Dr. Condon, and presented an inspirational talk entitled "Stardust." The banquet was followed by an address by Dr. Condon on the "Structure of Glass" held in Room G-6 of the Chemical Engineering Building.

The Society of the Sigma Xi differs from most honorary societies by electing its members solely on the basis of their actual or potential contributions to fundamental research in pure or applied science. Election to membership is one of the highest honors that can be bestowed on workers in scientific research.

Him — "I hope you'll dance with me tonight."

Her — "Oh certainly. I hope you don't think I came down here merely for pleasure."

Missouri Mines Chapter Third of 23 in ASCE Midwest Judging

Last Thursday, May 15, a meeting of the ASCE was held at the Masonic Lodge. The guest speaker was William Wisely, the Executive Secretary of ASCE, who spoke on Professional Engineering.

That evening a meeting was held for the Mid-Missouri Section in Springfield. William Wisely was also the speaker there. Howard Lichius received the Mid-Missouri Section outstanding senior award.

The MSM chapter itself received

a citation. Out of 23 annual reports turned in and judged, the MSM chapter was ranked third.

The next meeting will be held May 23 at 7:30. Election of officers will take place at this meeting.

Engineers Club . . Intramural Champs

Tech Club Takes Close Second

5 New Track Records Set

On Thursday, May 15, the track finals were held at Jackling Gym, thus ending the 1957-1958 intramural season. This year the organization that captured first place was Engineers Club, with Tech Club a close runner-up.

During the track meet, five new records were made and two tied. This season the meet proved to be quite a thriller with Tech Club and Engineers running neck and neck down to the very last field event which was the deciding factor. But Engineers showed themselves the superior of the two and enabling them to capture first place.

Following are the results of each event:

Shot 43 ft., 1 3/8 in.
(New Record)

1. McCaw Sig Nu
2. Pikey Eng.
3. Kemper Kappa Sig

4. Robins Triangle
 5. Henderson Tech.
- High Jump 5 ft., 10 1/2 in.
(New Record)

1. Whitehair Eng.
- 2.-3. Olson Kappa Sig
- Godfrey Tech.
- 4.-5. McCaw Sig Nu
- Davis Sig Nu
- Camp T. K. P.
- Lucas Lambda Chi
- Swoboda Tech.

Discus 125 ft., 1 in.
(New Record)

1. Kemper Kappa Sig
2. Schmidt Tech.
3. Robins Triangle
4. Woley Sig Pi
5. Harris Triangle

Broad Jump 21 ft., 3 in.
(New Record)

1. Houseman Lambda Chi
2. Whitehair Eng.
3. Litzler Triangle

4. Brenning Tech.
5. Henson Triangle

50-yd. Dash 6.0

1. Arimura Tech.
2. Peterson Lambda Chi
3. Cooper Sig Nu
4. Hodge Eng.
5. Davis Triangle

High Hurdles 9.4
(New Record)

1. Van Cleave Sig Pi
2. Urban Pi K. A.
3. Collins Eng.
4. Harvey Delta Sig
5. Thompson Triangle

880 2:08

'M' CLUB BANQUET ENDS A GOOD YEAR

Sunday evening at the Pine Room here in Rolla, found the members of the "M" Club, members of the coaching staff, and members of the athletic committee gathered for a tasty repast and a look at the 1957-58 season in the Miners' sports world.

One of the worthwhile reasons for the banquet is the presentation of the "Letterman of the

Year" awards in each sport. The coaching staff presented awards to: Perry "Pap" Allison, back of the year; to Donnell "Moose" Agers, lineman of the year; to

Nick Barre', basketballer of the year; to Robert Sucher, swimmer of the year; to Terry Kohler, tennis player of the year; to Arch Burke, golfer of the year; and to "Mike" Vancil, track man of the year.

The evening was topped by a fine speech by Dean Curtis Wilson, who gave a very interesting

Intercollegiate Cross Country Returns to MSM; Nick Barre to Coach

by J. P. McKeone

The coming Fall Semester will find the Cross Country Run returning to the MSM Campus as an Intercollegiate Sport after a long absence. The last meet held on the MSM Campus was about 1950, after which the competition between the MIAA Conference Schools diminished to such a degree that further participation was found to be fruitless, and that sport was discontinued. Several MIAA Schools have kept their Cross Country teams though they had quite a bit of trouble finding competition. These colleges will have a slight edge upon those schools which did not keep it up when the contests start up again next fall.

According to present plans, the MSM-Men will participate in at

least five dual meets, in addition to the Conference Meet to be held on the MSM Golf Course on November 15, 1958. A 3½-mile course will be set up on the Golf Course so that it will not interfere with any late-season golfers, as done when the sport was popular previous to this time.

The MSM team, under the leadership of Nick Barre, will be made up of the best group of long-distance runners as possible, with some members of the Track Team if necessary. The usual Dual Meet finds ten men running for each team, with seven being used for Conference Meets. Most Cross Country Courses are set up with a distance between three and seven miles long, so, as you can see, this sport is more flexible than many others, and will probably be harder to get into condi-

tion for. Seven miles is quite a run.

In the MIAA Conference, Cape Girardeau and Warrensburg have kept their teams, so that competition in the Conference should not be extremely cut out. Among the five teams against whom the Miners have a tentative schedule, only Springfield has allowed this sport to disappear from the campus. According to present tentative plans, the Miners will go up against Washington University, Drury, Westminster, Cape and Springfield. A pretty rough looking schedule for an inexperienced team, but the MSM-Men will come out ahead, we hope.

Anyone interested in going out for the Cross Country can obtain more information by contacting Nick Barre or Coach Gale Bullman any time before the beginning of next Semester.

Coed: "The man I marry must shine in company, be musical, tell jokes, dance, and stay home."

Senior: "You don't want a husband, you want a TV set."

"Do you believe in free love?"
"Have I ever sent you a bill?"

"M" Club

(Continued from Page 4)

speech on winning conquests by preparation.

All members and guests enjoyed this opportunity to hash over the season's sports thrillers and incidents throughout the year.

Mother: Do you like your new nurse, Jimmy?

Jimmy: No, I hate her. I'd like to grab her and bite her neck like daddy does.

"Don't you think George dresses nattily?"

"Natalie who?"

Fraternity News

TRIANGLE

Now, with the busy week of last week over, everyone's thoughts are turning to finals which are coming sooner than many of us wish. One nice thought, however, is that of no more classes after the finals, for quite a while.

Our track team came through and we had men who placed in every event except the high jump and 880. We failed to have anyone finishing in first or second place, however, and that hurt. All of our men except But Winfred and Tony Robino will be returning next year and with more practice and experience they should be able to come through. Congratulations for a good try, and best of luck for next time.

Congratulations are also in order for Bert Houston who, it was announced at the track meet, was chosen as the "M" Club intramural athlete of the year. Bert really earned such an honor as this, competing in every intramural event except table tennis, tennis and golf. He was playing on our 1957-58 champion basketball team, was runner-up this year in the 175-lb. class on our championship wrestling team, and was 50% of our first-place horseshoe doubles. Well done, Bert.

I think the highlight of our booth at the Greek Day carnival was when Rex put his head through the little hole. Never has one person had more Miners wanting to throw water-filled balloons at him and, I am sorry to say, we soon ran out of balloons. The responsibility of our activities of that weekend were on the shoulders of Lee Coad and he carried them well. We all thank Lee for the fine work he did in managing the job.

TAU KAPPA EPSILON

Back again! Greek Day around Teke House was a tremendous success, thanks to all concerned. There were many, many sheets used up in the Greek Party Saturday night, but the girls are gone now, and it's time to get back to the studies — what a disgusting thought. Memories are made of this? Special thanks to Al Fike for his work on the Booth for the IFC Carnival, and thanks to our patrons.

People are just recovering from a wonderful weekend, and some haven't come to as yet. Some members of the house are planning to evaporate to Monticello for this weekend, how about it, Ed?

Teke came out fourteenth in the overall intramural standings. Why is there such a spread in points between second and first? Oh, well, look out next year.

Sackus Rattus Award of the year goes to Bob (Rack) Qualls with an average of 18.269 hours per day in bed. Congratulations Bob. A close runner-up was Chuck Marosek, who deserves a sincere round of applause for a good try.

On the serious side, though, Nick Barre was honored with an appointment to the Tau Kappa Epsilon All-Teke Basketball team, and Tom Colandrea was elected by Alpha Sigma Nu, National Metallurgical Honor Society. Congratulations to all these Award Winners.

Anybody want some left-over Barbequed Ribs?

LAMBDA CHI ALPHA

A new trophy ornamented the chapter room last Saturday night. It was significant for a very successful week for the men in the red cube at 1705 Pine. Thursday night saw our track team place third in the intramural meet, coming in first of all fraternities. Brother J. J. Houseman broke an eleven-year-old record in the broadjump, Brother Chuck Homan tied another record in the 880-yard run, and Brother Henry Peterson came in second in both the 50-yard dash and the low hurdles. It was a great day.

Friday night saw our booth at the IFC carnival place second in both place and income, Pledge Willy Waller and Brother Ed Balantyne being largely responsible for the success. The election of Miss Mary Dee Williams, who was already reigning over Brother Leland Robinson, for Queen of Greek Week brought the house more honor.

Saturday afternoon's games then wound it up. Pledge Wayne Lucas' expert leadership in driving a female wheelbarrow clinched the trophy more or less, and our heavy men pulling the Pikers into the river did the rest.

In retrospect: a very successful and memorable week.

KAPPA SIGMA

Well, now that the big blast is over, all Kappa Sigs are trying to "put their noses to the grindstone" by studying hard for finals, but somehow memories of the pleasant Greek Weekend keep creeping back. The carnival Friday night was enjoyed by everyone though it was nearly rained out. Saturday afternoon was exciting, especially the gooey eggs and the refreshing muddy dip in the pond, even though it wasn't of our own free will. Saturday evening all were entertained by Emmett Carter. So ended Greek Weekend with the last date heading homeward Sunday night.

THETA KAPPA PHI

The end of the year is fast approaching, accompanied by the dreaded finals. This fact is in evidence around the Cowhouse as many of the members are studying diligently in preparation for the exams, even when study hours aren't in effect. It's rather hard to wipe the dust and cobwebs off the textbooks and start to gun for the scholastically eventful weeks to follow. That's life, though.

The Greek Weekend was tremendous as far as the Theta Kaps are concerned. The Carnival, the outings at the Grotto and Table Rock, and the Saturday night dance were enjoyed by all.

Although Greek Week was the last party weekend of the year, it marked the initiation of the patio as an open-air dance floor at the formal Saturday night. The patio was decorated with Chinese lanterns and proved to be a perfect setting for the dance. A new custom for graduating seniors was also introduced that night.

Congratulations to the members of the track team for their hard work in preparing for the meet. Special praise to Denny Camp for his "good show" in the high jump, although he didn't jump seven feet.

DELTA SIGMA PHI

Last week the Delta Sig news was listed under a Sigma Phi Epsilon heading.

Everyone accounted for that attended the past weekend of festivities consisting of a Sailors' Ball in conjunction with Greek Day had a wonderful time. Congratulations to our IFC member Al Maisak for the carefully planned series of events. Those persons contributing their efforts in the design and the operation of the carnival booth are to be praised, along with the decorators of Davy Jones' locker. The fish on the walls were realistic enough to catch many a fisherman's eye and everything seemed to be flowing with the exception of water.

Delta Sig's entries in the Greek Day events provided much hilarity, had a winner, too; the tug-of-war team emerged with a victory. The water was too inviting, so our president, Jim Weimholt, got tossed into the creek; also Darrell Schmedding got so excited, perhaps it was the content or shape of a Coke bottle, he just falls into the water.

ACACIA

Our Greek Week activities did not quite suit us, but we'd all like to congratulate Lambda Chi on their fine showing. There's only one thing to say in passing: Watch out next year!

A rose should go to the fellas on the second floor of the dorm for the fine booth they created.

This force was ably led by Otto Mielke. Ben Harsfield, the old jack-of-all-trades, constructed the basic unit and with the help of the rest of the colony, made it go. The whole colony should be commended for the spirit showed at this affair.

John Childress sustained minor injuries when Bud Cook shoved a ladder on him during the actual construction of the booth. Bud, is that brotherly love? By the way, the ladder was completely demolished.

Wood, what happened to the transportation? PYTHIA!

SIGMA TAU GAMMA

Here we are, only a week left. It sure will do us all some good to leave school and relax.

Congratulations to the men who built the 12'x16' kite that flew over the grotto last Saturday. For the benefit of those who had poor vision, the letters read in the Greek form of "STG." The men of "Sig Tau" are proud of being able to put it into orbit.

Also a very loud "Well done" to our semester's pledge class on the well-panned pledge project which they presented Saturday night. It will be remembered by all that saw it, especially Walt.

It seems that the annex crew has a round robin going on. They band together every night and "entertain" one of their number. Nothing like fun.

Good luck to the graduating seniors as they start on their way into the world of industry. Remember to drop Alpha Omega a line to let us know where you are.

No cat has nine tails; but one cat has one more tail than no cat; therefore one cat has ten tails.

BETA SIGMA PSI

The last dance weekend is over and it was enough to last all of us through the summer. Seems as though Roehrs lost the title of "witch doctor" to his roommate. Ron did manage to do better Saturday night, even though his date accused him of having four of his fingers missing.

O. B. made the most of his last dance as a student down here. Sure is a good thing he's not stag every dance weekend. If only he knew where that dent on his fender came from.

Thanks are due to the "Monticello Limited" driver, even though his first assistant had to take over Saturday afternoon.

Everyone is beginning to get that gleam in his eyes which means that the spring semester is almost over. The gleam is caused by too much cramming, which always seems to happen at the end of a semester, along with the saying, "Next semester I'll do better."

The word for the week is, "Remember Pat (actually Dixie)."

"Sam, how long are they going to give you in the jug for killing your wife?"

"Two weeks."
"Only two weeks for killing your wife?"
"Yeah. Then I get hung."

Engineers Club Elects Tom McNally President

May 8th was election day at the Engine Club and a rousing meeting was held in G-6. The following well-qualified officers were elected for the coming '58-'59 school year. Tom McNally, president; board of control Junior members are Bob Booth and Chuck Murray; Sophomore members are Jim Baysden and Ron Avery. Representatives to the inter Co-op Council are Lynn Rockwell and Rich Buckles. Members elected to the board of Governors of the Independents are Jim Berkel and Ed Wakefield, and our new intramural manager is Louis Meisenheimer. Sherry (Zeek) Isaacs was elected Business Manager and Don Feaster Treasurer at a previous meeting. The meeting broke up in a general bathing party in Frisco Pond with quite a few members getting dunked involuntarily.

As the intramural program is coming to a close, we find the men from 1109 Pine on top by 132 points in the intramural standing. After taking second in both softball and golf, we are looking forward to doing as well or better in track and copping the first-place intramural trophy.

On looking back through this school year we can see that our Club has become a more close-knit and progressive organization on campus. We have had exceptional program, and nalofficers into

tional officers, a good athletic program, and a grand group of individuals who have worked hard together to make our Club bigger and better. Here's looking forward to more progress in the '58-'59 school year.

Prospectors Club

The floors are waxed and the fence is finally up and "painted." However, we all have work to do right up to finals. Ah, to be away—anywhere. Syl "The Herder" Brasswell got New York's "Clean Sweep" campaign in his blood, and, as a result, has done a fine job with his bi-weekly crews of chimney sweeps and floorshiners. Multi-congrats to Jerry Butler for his performance at the Columbia Invitational Drill Meet, and also to the rest of our PR's—jolly good show ol' chaps.

We all welcome two new talented pot-pushers, Mrs. Josephine Denton and Mrs. Evelyn Diehr to Chez Ziegler.

George Franke, who, as this year's president, has initiated new

and well appreciated advances for the club, graduates this August. Congratulations to him and his class, and our best wishes for a pleasant summer (with or without a job).

Shamrock Club

The intramural totals are in and the club Jocks deserve a pat on the back as they finished in ninth place overall with a total of 2951.7 intramural points.

A well-deserved pat also goes to the club members who have earned varsity letters during the past year. They are: in swimming, Dave Ford his fourth, Ralph Moore his third, Gordon Aderman his second, and Roy Smith his first; in golf, Dave Lester his second; and in track John Rasche his third. Also reported

receiving an M (average passing grade) was Charles Hunt, enrolled in advanced basket weaving. (He too deserves a pat tho perhaps a bit lower and harder).

Member makes good: Bob Willey, local R.O.T.C. Gung Ho has been elected as charter member and VICE-President of the "I hate Babs" club. (We approve of her selection of FRIENDS.)

So with the story of the prohibitionist who found a bottle of scotch in her hotel rooms, but decided to take the bitter with the suite, we come to the helpful hint of the week: "When the skies are gray, watch those waterlogged grades keep them above C level."

PR'S Participate In Armed Forces Day Activities

The Pershing Rifles drill team participated in the Armed Forces Day activities at Ft. Wood last weekend by presenting a display of trick drill to guests of the post. This is the second consecutive year that the Pershing Rifles team has drilled at the annual affair.

Air Conditioning—temperatures made to order. Get a demonstration!

The beautiful Delray 2-Door Sedan, one of three budget-priced Delray models.

Chevrolet's dollar-stretching DELRAY YOU JUST CAN'T TIE THIS BUY!

Here's surefire proof Chevrolet always knows how to give you more for your money—from longer, newer, lovelier bodies to a wider range of engines, transmissions and suspension systems. The more you look the more you'll find to like in Delray—**THE LOWEST PRICED OF ALL THE LOW-PRICED CHEVROLETS!**

Chevy doesn't have any "smaller" models. The big, beautiful Chevrolet Delray is just as long, just as wide, just as softly sprung on the same 117-inch wheelbase as the luxurious Bel Air models. Like every other Chevrolet, it has the extra solidity and quality of Body by Fisher. There's no stinting on optional equipment, either. You

can get anything from Fuel Injection* to Level Air* ride, any Chevrolet transmission, any Chevrolet engine, just as you choose. Take a long, long look at this one next time you drop in at your Chevrolet dealership—because the more you demand for your money the surer it is you'll decide on Delray!

*Optional at extra cost.

They're Full-Size Chevrolets

No skimping in seat width, legroom, wheelbase—Delray gives you every generous dimension offered by any Chevrolet.

A COMPLETE CHOICE OF ENGINES

You can order a Delray with Chevy's top Fuel Injection V8 if you like—or get any one of the five V8's or the Blue-Flame Six!

AUTOMATIC DRIVES

Choice of time-proved Powerglide* or supremely smooth Turboglide*—the only triple-turbine drive in Chevy's field.

UNIQUE

Full Coil Suspension

Delray's standard suspension system puts a cloud-soft coil spring at each wheel, blends this with the beautiful roadability of four-link rear control arms!

and Delray is the only

car in its class with the extra rigidity of an all-new Safety-Girder frame, the extra clarity of Safety Plate Glass all the way around, the extra convenience of crank-operated vent windows!

Drive with care... everywhere!

CAPTAIN E. J. FULLER OF MSM R.O.T.C. IS PROMOTED TO RANK OF MAJOR

Colonel Lloyd L. Rall, PMST at the Missouri School of Mines has announced that Captain Elisha J. Fuller has been promoted by the Department of the Army to the grade of Major, effective 13 May 1958. Major Fuller came to the School of Mines in July 1957, and since has served as Assistant PMST and Operations Officer of the Department. He resides at 12 Frost Drive with his wife, Norma, and their three children.

Gladys Johnson was about to deliver a lecture when a workman appeared on the stage, waving a screwdriver and beckoning the chairlady. After a hasty conference, she brushed past Miss Johnson and told the standing-room-only audience, "I'm sorry to say there will be a slight delay. Word has just been given me that there is a screw loose in our speaker."

Queen of Greek Week

(Continued from Page 1)
Hertzburg, a junior in C. E., Webster Groves, Mo., sends Miss Holly Allen, Sigma Nu.

Bill Kleffman, a senior in Mech., escorted Miss Carol Lee Shaffer of Edwardsville, Ill., as a representative of Delta Sigma Phi. The retiring Queen of Greek Day was Mrs. Robert Grossenbacker, representing Sigma Pi.

The formal announcement of the Queen was made at the carnival at Lions Park, Friday night. At 11:00 P. M., Allen Pope presented a purse as a token of our appreciation for making the Greek Weekend a success.

EE: "How do you keep drinking that Union coffee?"
ME: "I take a spoonful of Drano every week."

Pictured above is Miss Mary Williams receiving a purse from Al Pope in recognition of being Queen of Greek Week.
