VOLUME 45

ROLLA, MO., FRIDAY, MAY 15, 1959

Dr. Rubens Ramalho Awarded Fulbright Scholarship to Ecuador

DR. RUBENS S. RAMALHO

Dr. Rubens S. Ramalho, Associate Professor of Chemical Engineering at Missouri School of Mines and Metallurgy, has been awarded a Fulbright Fellowship to help establish the Department of Chemical Engineering in Ecuador, South America.

The Fulbright Fellowship selects outstanding men who have obtained their Doctorate Degree

and sends them to other countries to instruct and start new departments of education. This award is named after Sen. Fulbright of Arkansas, one-time college president, who is now the chairman of the Senate Foreign Relations Committee.

Dr. Ramalho, prior to his departure for South America, will spend the summer of 1959 in

Syracuse, New York, working with the General Electric Company. He will then be in Ecuador September, 1959, to August 31, 1960, and will teach in both the University of Guayaquil and at the University in Quito. Attention will be focused first on the beginning Chemical Engineering courses as embodied in Stoichiometry, material and energy balances, and second on fluid mechanics, heat transmission and thermo-dynamics. Simultaneously, with class lectures, the laboratory will be built up with equipment that can be secured.

Intensive courses in the fundamentals of Chemical Engineering will be offered to a small number of faculty and promising young graduates, as well as courses within the universities.

Dr. Ramilho was born in Brazil and received his undergraduate training there. He has been in this country since 1946 and received both his Master of Science and Doctor's degrees from Vanderbilt University, where he also was a member of the staff of the Department of Chemical Engineering. He has had over three years of industrial work as a chemical engineer, designing oil refineries prior to joining the staff of the Missouri School of Mines and Metallurgy. During the summer of 1958, he was employed by McDonnell Aircraft, working on the IBM 650 Computer.

The honor of receiving the Fulbright Fellowship reflects credit on the school in general, the Chemical Engineering department, and Dr. Ramalho in particular. We of the Miner staff, on behalf of the school, would like to congratulate Dr. Ramalho.

DR. FRITZ WENT

Sigma Xi Presents Dr. Fritz Went Here Next Week

On Tuesday, 19 May, the Society of the Sigma Xi is pleased to present Dr. Fritz Went, of the Missouri Botanical Gardens at St. Louis, who will speak on the subject "The Effect of Environment on the Growth of Plants."

Dr. Went is the son of Dr. F. A. C. Went, the well-known Dutch professor of Botany at the University of Utrecht, and was born in 1903. During his youth he lived next to the Botanical Garden and Botanical Institute of the University, in constant contact with plants and botanists, and this stimulating environment induced him to become a botanist himself. After receiving his Ph. D. degree at the University of

Utrecht in 1927, on a thesis describing the role of the growth hormone in the Avena seedling, he went to Java, where he was connected with the famous Botanical Gardens at Buitenzorg (Bogor) for five years. In 1933 he went to the California Institute of Technology at Pasadena, where he was Professor of Plant Physiology. During his early years in California he worked on hormonal control of plant growth, as well as on root formation and other auxin-affected phenomena, but his research interests gradually turned to environment influences on plant growth. The results of over fifteen years of work in this field are summarized in his book "The Experimental Control of Plant Growth."

His other botanical interests lie in the fields of Ecology, especially of the tropical forest and the desert, and Evolution, which developed in the course of rather extensive travels, all over the world. His interests in Botanical Gardens are still evident as a member of the Board of Governors of the Los Angeles State and County Arboretum. He has lectured on his work in different parts of the world (twice as national Sigma Xi lecturer). Honorary doctor at the Universite' de Paris, Member of the National Academy of Sciences, Correspondent of the Koninklijke Nederlandse Akademie van Wetenschappen, Amsterdam, and of the Academie des Sciences, Paris. Author (with K. V. Thimann) of *Phytohormones* (New York: Macmillan, 1937).

Dr. Went will speak at 8:15 p. m. in the Old Cafeteria building on the campus of the Missouri School of Mines. The public and all interested parties are cordially invited to attend.

AIChE Presents Golden Jubilee Books to MSM

Three books prepared by the American Institute of Chemical Engineers in commemoration of the Golden Jubilee of the AIChE, which was celebrated during 1958, were presented to the MSM Library on May 7, 1959. These books were presented on behalf of the MSM Student Chapter of the AIChE by Gerald Stevenson, President, and were received by

Mr. Earl Randolph, Librarian. The books presented were *Chemical Engineering Around the World* edited by E. L. Piret; *Chemical Engineering in Industry*, edited by W. T. Dixon and A. W. Fisher, Jr.; and *High Lights of the First Fifty Years of the American Institute of Chemical Engineers*, by F. J. Antwerpen and Sylvia Fourdrinier.

Presentation of AIChE books to MSM Library. From left to right: Dr. F. H. Conrad, Sponsor of Student Chapter; Mr. Earl Randolph, Librarian; Gerald Stevenson, President of Student Chapter; and Risdon Hankinson, Vice President.

Greek Day Program

FRIDAY, MAY 15, 1959

8:00 P. M. - 12:00 P. M. Carnival at Rolla Lions Club — proceeds go to the Missouri Boys Town

11:00 P. M. Greek Day Queen announced

8:00 P. M. - 12:00 P. M. Music and Dancing

SATURDAY, MAY 16, 1959

1:30 P. M. - 3:00 P. M. Greek Day Festivities at The Grotto, Newburg, Mo.

3:00 P. M. - 6:00 P. M. Emmett Carter and His Combo will play for listening and dancing at The Grotto pavilion

9:00 P. M. - ? Open House, All Fraternities

THE MISSOURI MINER

THE MISSOURI MINER is the official publication of the students of the Missouri School of Mines and Metallurgy. It is published at Rolla, Mo., every Friday during the school year. Entered as second class matter February 8, 1945, at the Post Office at Rolla, Mo., under the Act of March 3, 1879.

The subscription is \$1.00 per semester. This Missouri Miner features activities of the Students and Faculty of M.S.M.

Dizzy's Corner

Sandwiched somehow into those last tests and finals is the grand, glorious, Greek Weekend. Huzzah, it is here at last. Excitement reigns King. Even the natives are restless.

The locals of Newburg and the Grotto area look forward to the Greek Weekend with almost as much relish as do the Greeks. Makes good conversation during the rest of the year. What else is there to do in such a small town? What's that? Well, they talk too, you know!

With the recent purge (now in process) of all these wild, flaming youth of M. S. M., the main question of the weekend shall be which fraternities shall be remaining fraternities. Why is it that no mention is ever made of the several hundred dollars they raise at the carnival to support the local orphanage.

People will do strange things; trek across frozen wastelands to say they've been to the North Pole; eat chocolate-covered ants (coming next Friday night at your local school cafeteria) (Tuesday's dessert was invaded by the little-ones); think pencil sharpeners are electron guns; and strangest of all, read such nonsense as the Merry-Go-Round.

No offense intended to the brilliant authors, however one MUST consider the source. Bash and Mox-U-Sick (the student council changed their names recently) have been attending M. S. M. so long that their sum-total brain (together they rate slightly above the moronic level) has been slowly dissolved in the pungent brew of engineering. This is supported by the fast fact that dear Bash is still on "pro" and will no doubt remain there for a goodly amount of time.

Bash has kept his scholastic under a bushy basket (haircuts are cheap, dear B. and M. N.). He blames his present status on a certain kit he bought last semes-

ter. Do it yourself sort of thing.

Hear, Hear, Omicron Ziltch is determined to win the contests of skill and concentration at the Grotto. Their star is Mr. Homer Crump, who hails from the fair city of Pumpkin Corners, Missouri, his true specialty is catching greased pigs. Academically he catches more than pigs, as his talents are in other areas. Homer received his training several years ago when stationed at Fort Wood as a kitchen jockey; it was here he was taught to chase those sausage patties around his little tin plate. Believe me, this is no minor feat, it takes much determination and a very strong stomach.

Homer is a natural for the wheelbarrow race as he is permanently deformed into the shape of one of those torture devices called chair, classroom/booknook, engraved "I like me. signed Bash." Poor Homer has grown wheels and has had to be pushed from class

HUMOR?

Military Training, Politics, Government and Affairs.

Unimpeachable authorities confirm that PMS&T Gall holds the rank of Light Colonel in the NK-VD, and that the entire Military Department at MSM has been an underground Communist Cell for an undisclosed number of years. These same sources believe that as the organization grows in strength, it will attempt to take a more dominant part in campus affairs. It was pointed out that the first overt action has been the issuance of red dicekeys to the terrorist counter-espionage arm of the organization, locally known as the Grill Team. The reason for this is to have them appear more in character, and also to hide blood-stains.

A copy of the Manifesto which is to be presented to the assem-

to class since 1924 when his first surveying lecture, Care and Use of the M-1A-1 Plumb-bob, caused him to withdraw into himself. Unfortunately he has not been greased for several seasons and is beginning to squeak.

Not everyone entering the games has the good fortune to be physically deformed, the mental state of the contestant however must be left to the judgment of others.

The carnival last year was a huge success through the combined efforts of both the faculty and the student body as a whole. Every one is hoping to see that very popular humanities instructor again in the "Hit the Boob" booth. Last year balloons of water went at two for fifteen, this year we are hoping for rocks.

The coming weekend shall be one of hibernation for the Diz as of late groups are beginning to collect under my window and throw rocks through the windows. They look quite comical in their little white sheets. Boys will be boys.

Faithlessly yours,
Dizzy.

bled Military Class next September was obtained from an undisclosed source, and found to contain the following important points:

1. No more used Boy Scout badges; the Order of the Red Star will be awarded to the biggest brown-noses of the Poorshot Rifles.
2. The University Code of Military Justice is repealed; all advanced ROTC Cadets will be issued a copy of "Das Kapital" by one K. Marx.
3. The manual of arms will be denounced for chauvinist tendencies; the program for next year includes indoctrination in dialectic materialism.

In an interview with a high-ranking member of the puppet "Committee of Traffic Safety," the following enlightening details were obtained.

Q. Are the faculty members aware of the present crisis?

A. Yes. An interim coalition government is planned, at least until the first five-year plan is completed. Non-deviationist faculty members are expected to assume important positions in the Coalition Party.

Q. What are the goals of this five-year plan?

A. Political and revolutionary principles will be taught in Military Classes. In five years all but a small portion of the student body will be properly indoctrinated.

Q. What type of student will be a member of this "small portion" that you speak of?

A. There is a type of student

common to this campus who can be classified as a counter-revolutionary pseudo-intellectual who is content to remain, seemingly for ever as a parasite existing upon the toil of the masses. Most of them are members of a secret fraternity known as the "Constipated Eagles" and perform perverted rituals connected with calendar magic.

Q. What will be the fate of these people?

A. The Siberian climate is fine.

Judging by the new style uniforms, it is obvious that a decision has been made to assume a posture of strength in this area. It is rumored that the next step may be to take over the local broadcast station, so as to spread propaganda over the entire Midwest. At present, the local Guardians of Public Safety and Morals (affectionately known as "the brave Bulls") have remained unperturbed by this threat. As one unofficially stated, "We could use a change in program material, and that's for sure. The local farmers might not like it, since their cows like to listen to Austin Woods, and won't produce as much as they would for anyone else."

From all appearance there will be no organized attempt at a military coup until next Fall. Students are reminded to be wary of all persons dressed in a mouldy red uniform, striped hard hat, and jump boots. They will most often be found lurking in one of the open strip mines dotting the campus, or lounging around the APO Saloon reading "Izvestia." If one of them appears to be writing your name in a small black book, make sure that your political history is clean. The word is out that there is a deal to supply warm bodies to the Physicists for unholy experiments in the sub-basements of Norwood Hall.

HIP, HIP, HURRAY for the GREYHOUND® way to save money!

Got the good word about Greyhound Scenicruiser Service? It's the latest, the greatest way to go... with air-conditioning, picture windows, air-suspension ride and complete restroom! You'll have a ball headin' home on a Greyhound—it's often faster than other public transportation, and always less expensive!

COMPARE THESE LOW, LOW FARES:

Springfield	\$3.70*
St. Louis	3.40
Chicago	9.95
Kansas City	6.60
ONE WAY	plus tax

BAGGAGE PROBLEMS? You can take more with you on a Greyhound. Or, send your belongings by Greyhound Package Express. They arrive in hours and cost you less!

Collegiate Expansion in Mo. Victim of Tax Redux

In this realm of space and science our school's educational facilities are of utmost importance. This idea should be stressed not only on account of the growing population but for the sole purpose of providing adequate teaching and instructional facilities in our colleges.

The lifeline of any school's expansion and construction program are the funds appropriated by the state. The state obtains these funds through a system of statewide taxation. The enormity of these funds appropriated to our colleges by the state is directly proportional to the degree of taxation. Thus, if our colleges are to expand and construct new facilities, adequate taxation is necessary.

Today, in the Senate Ways and Means Committee, there is a bill which proposes a six million dollar tax reduction for the coming year. The loss of such an amount of money could effect a serious stalemate in collegiate expansion throughout the state of Missouri. Even at the present time, Missouri receives the lowest amount of funds for higher education needs than any of the other midwestern states. Another tax cut under these circumstances could halt college expansion completely.

Plans submitted by the budget office to remedy this threat are an increase in Missouri's beer and liquor tax, a one cent increase in cigarette tax, and a 2% use tax to keep other states out of unfair competition with Missouri. Other states have previously done likewise.

Arizona and Washington have boosted their sales tax, West Virginia has saddled 1% to gasoline tax, and boosted motor vehicle and license fees.

Another interesting fact is that providing Missouri enacted her present tax increase proposals our state would still remain below the average in per capita tax rank.

From this summary of facts it is easily surmised that this vital increase in taxation would certainly not be a step toward overtaxation. Numerous other states, including Texas, California, Oregon, Pennsylvania, Illinois, Nevada, Mexico, Oklahoma and Wisconsin, have similar proposals up before the Senate Ways and Means Committee.

These tax proposals and particularly our own situation here in Missouri must pass and be put into effect or our collegiate system will experience an inevitable educational depression.

Earth Science Society Accepts 10 New Members

Sigma Gamma Epsilon, the National Earth Science Honorary College Organization on the MSM campus, held its initiation banquet at the Houston House in Newburg last Sunday evening, April 26. Ten students in the earth science curricula were officially accepted as new active members in the society. The curricula represented were Petroleum, by Jesus Gomez, Keith Loeffler, and Terry K. Smith; Geology, by Victor J. Hoffman and Andrew Pifer; Ceramics, by Orville Hunter, Jr.; Metallurgy, by David Price, Edward O. Speidel, and Carl A. Vansant; and Mining, by Francis Saupe. Carl Vansant received a free society key for turning in the best paddle.

Mr. Geza Kisvarsanyi, geologist employed by the Bear Creek Mining Company which has its local headquarters in Salem, Mo., was accepted into the society as an associate member.

The present active and associate members heartily welcome these men into Sigma Gamma Epsilon. We are sure that they will take active roles in the development and advancements of the organization.

The W. A. Tarr award, which is made annually to the graduating senior in Earth Sciences for outstanding scholarship, leadership, and character, was presented to Robert T. Stelloh. Mr. Stelloh graduated from the Missouri School of Mines in January, 1959, and is at present working toward his Master's Degree here. The award is not limited to members of the organization, and all graduates of January, June and August are considered for the honor.

Dr. Grawe, professor in the Geology Department, introduced the speaker of the evening, Dr. Bethke, who is also a professor in

the Geology Department. Dr. Bethke spoke on the problems which confront the metals mining industry and stressed that a workable long-range policy in the mining industry be found for the good of the country.

Rich Spiritual Blessing Given At Camp Clover Point to BSU

The BSU greater council received a rich spiritual blessing at this year's statewide spring retreat held May 1, 2 and 3 at Camp Clover Point, on the Lake of the Ozarks. Among the many excellent speakers we heard were Dr. T. B. Maston, Dr. R. Kidth Parks and Dr. Sabin P. Landry, Jr. The state executive council was also installed, among whom were Ray Henson, vice-president, and Tom Martins, Christian Citizenship Chairman, both from MSM.

Last Tuesday, April 28, the annual Spring Banquet was held at the Educational Building of the First Baptist Church. In addition to the turkey dinner and wonderful entertainment, we enjoyed hearing Dr. Sterling Price, pastor of the 3rd Baptist Church in St. Louis.

On Saturday, May 16, the spring planning retreat will be held at Maramec Spring. All executive and greater council members are urged to attend.

You are reminded that the BSU holds vesper services every evening, Monday through Friday, from 6:00 to 6:20 p. m. in the basement of the clinic at 10th and State streets. May 11 to 15 we will have speakers talking on the Southern Baptist Convention. They will explain how it is organized and operated.

36% of PiKA Pinned, Engaged or Married

It was a big week-end in Cape for Brothers Bob Piekarz and Wayne Boswell. Both joined the ever-increasing ranks of the pinned Pikes. Wayne left his pin in Cape with Miss Marilyn Pratte and Bob, with the help of several roses and an orchid, pinned Miss Vivian Clark.

Girls aren't the only things getting pins these days. Last Sunday thirteen men were initiated into the bonds of fraternal brotherhood and are now wearing the shield and diamond. These men are: Bill Hallerberg, Bryan Madison, Bob Brockhaus, Mike O'Brien, Myron Bruns, Dennis Frey, Wayne Boswell, Doug Pinner, Dave Cox, Paul Letterman, Bob Tooke, Gary Schmaucher and Jim Teske. Bob Tooke was elected Outstanding Pledge.

Brother Bryan Madison made it number three for the weekend by pinning Miss Carolyn Schroeder of Edwardsville, Ill. The unattached PiKA's are beginning to sweat, with thirty-six per cent of the chapter pinned, engaged, or

married this could spread through the house like wild-fire, should it become contagious.

Orientation Trip to Fort Wood for ROTC

Approximately thirty-five sophomore and junior military students left Rolla by bus, Friday morning, May 8, under the direction of Capt. Ralph Leighty of the MSM-ROTC department for an orientation trip to Fort Leonard Wood. C. R. Christiansen, Social Professor in Mining, and Dr. Procter, Professor of Geology, with Lt. Col. Fred Vogt, followed by car to spend Friday afternoon and evening with the group.

The tour was to acquaint the group with Fort Wood and show the students what they would normally miss during their six weeks of summer camp. The group arrived at Fort Wood at 11:00 Friday morning and to their billets at 11:30. Lunch was served at the mess hall at 11:30 to 12:20. At 12:30 the group departed for theater No. 4 for a welcome and briefing, then at 1:00 o'clock they were given a

briefing of the tour. The rest of the afternoon was spent touring the enlisted specialist courses, Quarry Machine Operators Course, Sheet Metal Workers Course, Structures Specialist Course, Automotive Maintenance Helpers Course, Light Vehicles Drivers Course. And to end the day at 4:00 in the afternoon the group returned to billets to prepare for dinner at the Officers' Club.

Reveille sounded at 6:30 Saturday morning and after breakfast at 7:00, the group saw a Heavy Equipment Demonstration. Then to Gammon Field at 9:00 for Regimental Review and a tour of the Quartermaster's Facilities. They were briefed by Lt. Newman on Mission of Regiments and Duties of Junior Officers Conduct in Training at 11:00 to 11:30. Lunch was served at 11:30 to 12:20 and at 1:00 the group departed for Rolla to arrive at 2:00.

We think the temperament of women could be improved 1,000 per cent if they'd wear comfortable shoes.

Translate your imagination into action at General Motors

Modern production methods demand new concepts in automatic controls for process machinery. Here a development in servo-mechanism control undergoes performance evaluation tests.

Here at the Technical Center and throughout GM's 35 divisions and 126 plants, engineers and scientists have an opportunity to turn their imagination into action . . . see their ideas grow into reality. For General Motors is involved with the entire field of science and engineering. Whatever your interests . . . automobiles or astrodynamics, motors or missiles . . . there's a place at GM where you and your imagination might fit in.

Along with the unlimited search for new paths of progress, you'll find opportunity for unlimited personal progress. General Motors is always searching its own organization for talented men who can be promoted to supervisory and executive positions.

If you are interested in a fascinating future and have an urge to see your imagination translated into action . . . write General Motors. Personnel Staff, Detroit 2, Michigan.

GM positions now available in these fields for men holding Bachelor's, Master's and Doctor's degrees: Mechanical Engineering • Electrical Engineering • Industrial Engineering • Metallurgical Engineering • Chemical Engineering • Aeronautical Engineering • Ceramic Engineering • Mathematics • Industrial Design • Physics • Chemistry • Engineering Mechanics

GENERAL MOTORS PERSONNEL STAFF
DETROIT 2, MICH.

Queen Candidates--1959 Greek Week

Winner to Be Announced at 11:00 p. m. at Annual Carnival

ACACIA

Miss Lynne Montz

Acacia's candidate for Greek Week Queen is Miss Lynne Montz of Kirkwood, Missouri. Miss Montz is a senior at Kirkwood High School, where she has been active in K-Club (a girls' athletic club), Tri-Y, Pep Club, the school band, and Future Teachers of America. She is five-foot-six, weighs 119 pounds, and her figure is 34-24-34. She has blue eyes and honey-brown hair. Upon completion of her high school studies, Miss Montz plans to attend Southeast Missouri State College, where she will major in Physical Education.

SIGMA NU

Miss Bobbi Lacy

Sigma Nu proudly presents its candidate for the Queen of Greek Day, Miss Bobbi Lacy. This very lovely Tilden, Illinois, lass has become a real addition to "Snake" parties this past year. Bobbi is a senior at Sparta High School in Tilden. The five foot three, brown eyed brunette is pinned to Paul Wiegard.

TRIANGLE

Miss Judy Mendica

Triangle's candidate for Queen of Greek Day is Miss Judy Mendica of East St. Louis, Illinois.

Judy is a senior at St. Teresa's Academy and she is part-time secretary for Treesh Neon Sign Company in East St. Louis. She is vice-president of Alpha Theta Sorority and also an editor of her school paper.

Miss Mendica is a shapely 5' 5" with a very winning personality. She makes friends quite easily and is tops as a conversationalist. Judy's favorite sports include swimming and tennis.

KAPPA SIGMA

Miss Sandra Sampey

The Kappa Sigmas' candidate for Greek Queen is 18-year-old Sandra Sampey from Springfield, Missouri. Until two years ago Sandra made her home in Fort Smith, Arkansas, where she was active as a cheerleader, Student Council representative, and a member of the Delta Beta Sigma sorority. This spring Sandra will graduate from Parkview High School in Springfield, where she is active in the dramatics department and as a member of the Junior-Senior choir.

Sandra's hobby is baton twirling in which she holds state and district first place medals. In this field she was also a band major-ette for three years.

Next fall Sandra plans to enter nurse's training in Springfield, Missouri, on scholarship.

TAU KAPPA EPSILON

Miss Phyllis Curvey

Tau Kappa Epsilon's charming candidate for Greek Day Queen is Miss Phyllis Curvey. Phyllis or "Phyl" as she is affectionately called by the Tekes, hails from Alton, Illinois, where she graduated from Monticello College for Women in June, 1958.

At Monticello, Phyl was active in dramatic and scholastic societies, in addition to intramural sports. Phyl graduated from Monticello with honors, and is presently attending Southern Illinois University Residence Center, majoring in speech and secondary edu-

cation, she is the steady date of Edgar Morris, the house steward.

Phyllis' vital statistics are:

Age: 20 years

Height: 5' 6"

Measurements: 34-24-36

Eyes: Blue

Hair: Light brown

All during high school Phyl was quite active in Junior Achievement and at present is serving as an advisor for this organization in Alton.

These qualifications, when coupled with her charming personality and sparkling wit, are the Tekes' good reason for her election, and we think she is the best candidate for this honor.

PHI KAPPA THETA

Miss Judy Lexa

Phi Kappa Theta's candidate for Greek Week is Miss Judy Lexa. Miss Lexa lives in St. Louis, Mo., where she graduated from Bishop DuBourg High School. She is now attending Fontbonne College in St. Louis, in her junior year of elementary education. She is very active in school affairs as she is now the junior class vice-president, and a member of the Fontbonne Social Committee. Last year Miss Lexa was the Sophomore Penny Carnival queen candidate, and this year was the Junior Representative as maid for queen at the annual Homecoming Dance. Miss Lexa enjoys horseback riding, swimming, and dancing. At last year's Greek Day celebration, Miss Lexa and her escort won the Sir Walter Raleigh race and she also placed in the wheelbarrow race.

Miss Lexa was recently elected as president of the Senior Class of 1960 at Fontbonne.

PI KAPPA ALPHA

Miss Marlene Harer

Pi Kappa Alpha is very proud to present as their Greek Day Queen candidate, 18 year old, 5 foot 6 inch, brown hair, brown eyed Marlene Harer. Marlene,

although originally from St. Louis, has recently returned from Naples, Florida, where she has lived for the last two years.

Marlene attended Lindbergh High School in St. Louis for three years where she was a cheerleader and participated in nearly all of the school's extracurricular activities. She spent her last year in high school in Naples and graduated high on the list of senior superlatives. While in Florida, Marlene experienced her biggest thrill by being selected Swamp Buggy Queen.

Marlene is now working as a receptionist-secretary at Mortgage Syndicate in Clayton. Some of Marlene's many hobbies include dancing, bowling, water skiing, and acting in amateur show productions.

Yes, Pi Kappa Alpha is indeed happy to present as their queen candidate, Miss Marlene Harer.

SIGMA PI

Miss Susan Cottam

Alpha Iota of Sigma Pi is proud to have Miss Susan Cottam as their Greek Day Queen candidate.

Suzi is a pretty little eighteen year old brunette with big brown eyes from Webster Groves, Missouri. She is only five feet two inches tall but she has all the necessary equipment (I'll bet). She attended Webster Groves high school where she graduated in 1958. At present she is a medical secretary in the Clayton Medical Center.

Her favorite activities include swimming, bowling, and of course, dancing. She also enjoys listening to music by her favorite artists. While in high school she won two scholarships, one to Drury and one to Culver-Stockton College.

Although this is the first Greek Weekend Suzi will attend, it is by no means her first party here at Sigma Pi. She will be accompanied to the Greek Day festivities by Gene O'Gorman.

SIGMA TAU GAMMA

Mrs. Bette Jean Harvey

Sigma Tau Gamma is proud to present Mrs. Bette Jean Harvey as their Greek Week Queen candidate. Mrs. Harvey was married to Miner James Harvey last December and since has made her home here in Rolla, where she is a secretary in the Chem. Eng. Dept.

Previous to this time she was a student at S. I. U. Mrs. Harvey attained the honor of serving on the Judicial Council of Woody Hall, was selected as the freshman member of the annual

school fashion show, and was awarded two scholarships while attending Southern Illinois University.

Mrs. Harvey is twenty years of age and enjoys swimming, and all types of decorating.

KAPPA ALPHA

Miss Sandra Bill

Kappa Alpha is proud to present Miss Sandra Bill as their Greek Week Queen Candidate. Miss Bill is twenty-one years old and a senior at Northwest Missouri State College. She is majoring in Home Economics and minoring in Education. Sandra is active in the Student Christian Association and other campus organizations. She was president of Kappa Omicron Phi, a home economics honor fraternity, and is listed in Who's Who in American Colleges and Universities. As can be seen Kappa Alpha can be proud of their queen candidate for 1959 Greek Week.

LAMBDA CHI ALPHA

Miss Betty Ann Lewis

Lambda Chi Alpha's Queen candidate for the Greek Week festivities is Miss Betty Ann Lewis. Betty's sparkling personality is complemented by her sultry green eyes and soft blond hair. She is 5 feet 7 inches tall and weighs a cute 125 pounds. Her home is in East Prairie, Missouri.

Betty is majoring in Education for Exceptional Children at Southwest Missouri State College at Springfield, Missouri. She is a sophomore and is a member of Alpha Delta Pi Social Sorority. While at East Prairie, she became interested in writing and vocal work. Currently, she is actively participating in the choir and working in the campus journalism program. After graduation, she plans to continue her studies in the field of education. Later, she plans to marry and have a family.

Queen Candidates

THETA XI

DELTA SIGMA PHI

Miss Judith Jane Cole

Theta Xi's candidate for the Greek Day Queen is Miss Judith Jane Cole from Wichita, Kansas. Judy is the 17-year-old daughter of Mr. and Mrs. Donald Cole and is at present a senior at Monticello College Preparatory School. She is 5' 2" tall, has light brown hair and blue eyes.

Judy is very interested in all water sports such as water skiing and is now participating in a synchronized swimming group.

She has worked several times as a model for hair stylists, and also for many different department stores. Judy is thinking very seriously of making a career out of modeling.

SIGMA PHI
EPSILON

Miss Judy Ann Campbell

Sigma Phi Epsilon's Greek Day Queen candidate is Miss Judy Ann Campbell. Judy is twenty years old and is 5' 3" tall with dark hair and dark eyes.

She originally hailed from Joplin, Missouri, but now makes her home in St. Louis where she graduated from Brentwood High School in 1957.

Presently employed as a receptionist for Lumberman's Mutual Insurance Co., Judy takes time out for bowling, dancing and partying at Sig Ep as her hobbies.

What sells hot hogs is the word "hot."

Miss Delila Duckworth

Delta Sigma Phi's candidate for Greek Day Queen is Miss Delila Duckworth. This charming, brown haired, blue eyed young lady with a wonderful personality is from Albany, Mo. Delila, who is 19 years old, is presently a sophomore at Northwest Missouri State College at Maryville, where she is majoring in business education. She is a member of the Tri-Sigma Sorority.

BETA SIGMA PSI

Eta Chapter of Beta Sigma Psi is proud to announce the selection of Mrs. Edith Haber as its candidate for Greek Day Queen of 1959. Edith's husband, Don, is a MSM graduate of the Petroleum Geology Dept., and is presently doing post-graduate work here at school, while teaching in the Mechanics Department.

Edith has graced the Beta Sig house with her presence at our dances many times, and we are all happy that she will represent our fraternity.

This charming lady was born in Lansing, Illinois, and raised in St. Louis, and is a graduate of the Lutheran Hospital Nurses Training School. This training came in very handy when Edith became the proud parent of a daughter named Christy.

The Beta Sigs are proud to have Edith as their queen candidate, and we all wish her the best of luck.

Kirksville Cops Conference Track, MSM Finishes Third

The Miner cindermen were the surprise of the MIAA Conference track meet as they placed third behind Kirksville and Cape Girardeau. The meet which was held last Saturday, May 9, on Jackling Field was held on a wet track on

a day sprinkled with intermittent showers. Only one record was set, as Warrensburg's Ralph Castor put the shot 48' 11 1/2" to top the previous record set in 1956 by Lohr of Cape Girardeau, with a 48' 8 3/8" put. Kirksville placed

first with a total of 78 8/15 points. Cape Girardeau placed second with 54 1/30, while Rolla came in third with 33 1/15 points. Warrensburg, Maryville and Springfield finished in the bottom half in that order.

James Schmidt of Cape Girardeau totaled 12 1/4 points to lead the field in individual scoring and received a trophy for his efforts. The Miners' Ken Houseman was close behind with 11 points to take the second place individual trophy. Other cindermen that scored high were Kirksville's Larry Testman with 9 1/2, Rolla's Mike Vancil, with eight points, tied with Kirksville's Larry Swift, and Larry Stater of Kirksville had 6 1/4 points.

Rolla's points were scored by:

Ken Houseman	11
Mike Vancil	8
Doug Irwin	5 3/15
Joe Gay	3
Charles Glaeser	1 1/2
Wayne Lucas	1 1/5
Sherman Grady	1
Harry Schneider	1/2
Henry Peterson	1/2
Conrad Schroeder	1/2

Total 33 1/15

The following is a summary of the individual events:

LIKE A BIG BIRD — Art Farnham clears the bar in the conference meet.

Sports Spotlight

Roy Smith, selected by the "M" club as athlete of the month for March, is a sophomore majoring in Mechanical Engineering, and a two-year letterman on the MSM swimming team. Smith is the most versatile member of the swimming team, as was demonstrated when he switched from freestyle to butterfly events after semester break, when the regular butterfly event swimmer left school on a co-op scholarship. Although Roy had never swum butterfly before, he stepped into the spot left open and managed to do very well. Roy was the fastest man on the record-setting 400 yard freestyle relay team, and can swim any collegiate event and do well.

Smith is 20 years old, and hails from Jackson, Missouri, where he attended high school. While in high school, Roy lettered in football, basketball and track. Smith attended Cape for a quarter before transferring to the School of Mines, and was a member of the basketball team while at Cape. Smith is a member of the Engineers Club and the "M" Club. He lives at Jackling Gym. Roy's

Javelin was won by Cape Girardeau's Tom Thrower with a 160' 7" heave. The broad jump title was taken by Maryville's Roger Wake as he jumped 23' (Continued on Page 7)

Roy Smith

outside interests include most sports, and particularly hunting and fishing.

Smith is perhaps the best all-around swimmer MSM has ever had and next year he hopes to enlarge his versatility by swimming the backstroke events. With two years of eligibility left, Roy will continue to be a valuable asset to Coach Van Nostrand's team.

Congratulations to Roy Smith, athlete of the month of March.

If the girl who types this stuff doesn't think I am getting personal and shooting at her, why should you, stranger?

Do You Think for Yourself? (THIS QUIZ IS THE TIP-OFF!*)

1. Do you think that men who look you straight in the eye when they talk are (A) to be trusted? (B) nearsighted? (C) watching your reaction?

A ☐
B ☐
C ☐

2. Of three men who have asked her for a date, should a girl pick (A) the one with a big car and money? (B) the one who makes lots of jokes, but is broke? (C) the one who helped her study for an exam?

A ☐
B ☐
C ☐

3. Mountaineers say they climb a mountain "because it's there." Does this strike you as (A) logical? (B) indicative of an inferiority complex? (C) a symbol of man's drive to conquer nature?

A ☐
B ☐
C ☐

4. If you were offered a million dollars to be the first man to fly to the moon, would you (A) leap at the chance? (B) take the money and hire someone else to go? (C) find out why the job paid so much?

A ☐
B ☐
C ☐

5. Do you think the maxim "A penny saved is a penny earned" is (A) an excuse for miserliness? (B) a thrift precept more people should follow? (C) a disastrous economic policy?

A ☐
B ☐
C ☐

6. Do you believe that the expression "Every cloud has a silver lining" is (A) sticky sentimentality? (B) optimism with a poetic license? (C) faulty meteorology?

A ☐
B ☐
C ☐

7. Do you think that helping other people at all times will (A) give you a lot of fun? (B) win you a lot of friends? (C) get you into a lot of trouble?

A ☐
B ☐
C ☐

8. Do you think the primary purpose of parking meters is to (A) stop all-day parking? (B) raise money? (C) make people leave their cars at home?

A ☐
B ☐
C ☐

9. In choosing a filter cigarette, would you depend most (A) on the claims you read and hear? (B) on satisfying yourself that you're getting the right filtration and taste? (C) on the recommendations of your friends?

A ☐
B ☐
C ☐

When you think for yourself... you depend on judgment, not chance, in your choice of cigarettes. That is why men and women who think for themselves usually smoke VICEROY. They know that only VICEROY has a thinking man's filter and a smoking man's taste.

*If you have checked (C) on three out of the first four questions, and (B) on four out of the last five... you certainly think for yourself!

The Man Who Thinks for Himself Knows —

ONLY VICEROY HAS A THINKING MAN'S FILTER... A SMOKING MAN'S TASTE!

Track

(Continued from Page 6)

174", just 3 3/4" short of the MIAA Conference record. A discus throw of 142' 11 3/4" by Swift of Kirksville was good enough for a first place, but just shy of the 144' 4 1/2" conference record he had hoped to break. Joe Gay of Rolla placed third in the discus event. The 880 yard relay was won by Kirksville in a near-record time of 1:30.8 (record 1:29.1). Jim McFadden of Kirksville beat out Vancil in an exciting and close mile run with a time of 4:30.3. Mike missed the school record by a flat second. Schmidt of Cape Girardeau missed the 440 yard conference record by .5 second when he turned in an excellent 50.1 time to take first in that event. The 100 yard dash went at 10.2 to Testman who set the conference record at 9.7 in 1957. The 120 yard high hurdles were won by Stater of Kirksville with a time of 15.7. Frank Green won the 880 yard run with a 1:58.0 time, which was 2 seconds over the conference record. John Dörberg of Cape Girardeau and Phil Robbins of Maryville tied for first with a 6' 0" jump while five tied for third place in the high jump. Schmidt beat out Rolla's Houseman (insuring his individual high scoring title) in a photo-finish in the 220 yard dash. Elmer Rudliff of Cape Girardeau ran a sparkling 10:07.2 two-mile to finish ahead of Vancil's 10:18. Low hurdles were won by Bob James of Maryville with a time of 24.6. Bill Croy of Maryville took first in the pole vault with a 12' 0" vault, while seven cinder-men tied for the second place spot. The mile relay was won by Cape Girardeau with a time of 3:28.9.

The 31st annual MIAA meet probably was one of the most outstanding meets in the history of the MIAA. Although only one record was set, every event with the exceptions of the javelin and pole vault came close to the established conference records.

Medals were awarded to the top four men in each event, while trophies were given to the first place team Kirksville, and the second place team Cape Girardeau. The first place teams in mile and 880 yard relay also received trophies along with the first and second place trophies given to the top two individual scorers.

Be sure and read next week's issue for a complete coverage of the track season and the Miners' remarkable advance from last place at the conference indoor meet held in March to third place at the recent outdoor meet.

Final conference meet standings:

	Outdoor (May)	Indoor (March)
Kirksville	78 8/15	84 2/3
Cape Girardeau	54 1/30	29 2/3
Rolla	33 1/15	12-2/3
Warrensburg	27 2/3	23 1/3
Maryville	26 1/2	14 5/6
Springfield	20 1/5	16 1/6

Maryville Scores Upset In Conference Tennis

by Tom Dunn

Maryville scored a surprising upset in the MIAA Conference Tennis Meet held here last Friday and Saturday. Maryville collected 12 points in the singles competition to gain enough points to edge out a strong Springfield team who picked up 9 of their 11 points in the doubles competition. Rolla finished a disappointing fifth behind Cape Girardeau and Kirksville.

Bregin of Maryville was the winner of the singles competition as he breezed by, in excellent style, every opponent to face him. Coester of Rolla lasted three rounds before he was beaten out by Kirksville's Ruddy in a 6-4, 6-2 match. Stahlschmidt, Rolla's other singles entry, was beaten his first time out by Freeze of Maryville, 6-2, 6-4.

The doubles championship is to be decided between two Springfield teams at Springfield. The teams of Jacob-Wills and Renvick-Chambers, both of Springfield, went into the finals. Because of weather the finals for the doubles title will be finished at Springfield. Rolla's Coester-Stahlschmidt team lasted only two rounds before being beaten while the Rolla team of Hampe-Schmidt was stopped by Springfield's Renvick-Chambers in their first match.

Team totals:

Maryville	12
Springfield	11
Cape Girardeau	7
Kirksville	6
Rolla	5
Warrensburg	0

INTRAMURAL Sports

by Jerry Luecke

After a week of play-off games, the intramural softball championship was finally decided with Triangle coming out top dog in a field of 21 teams. Triangle gained the coveted title by winning its league, and then in a series of five games eliminated Prospectors Club and Shamrock Club champs of their respective leagues.

Triangle entered the finals with a 6-1 record, their only defeat coming at the hands of the Dorms. Triangle ended the league action in a tie with Phi Kappa Theta. Triangle quickly disposed of Phi Kap to gain a play-off berth. Prospectors Club also finished a 6-1 mark. They also were forced into a tie-breaking game, easing by Delta Sig, 2-1, to make the finals. Shamrock Club sported an undefeated 6-0

record coming into the finals.

Triangle squared off against Prospectors in the first game of the finals, and on the strength of an 18-hit barrage defeated the Prospectors 11-4. On the following night, Shamrock Club tripped up the fraternity men, 18-15, in a wild error-ridden nine-inning game. After the loss to the Shamrockers, Triangle made a terrific comeback on the strength of their fine hitting attack and the near matchless pitching of Dick Wad-

dell, and defeated the Prospectors 12-1 to eliminate them and dispatched the Shamrock Club 5-1 and 6-0 on successive nights to gain the title.

All in all the finals merely climaxed a very exciting season. The ties at the end of league play were indications of the balance of power within the various leagues.

Most of us in the U. S. A. are doing as well as could be expected, don't you think?

CHEVY'S THE HOTTEST ONE AGAIN!

HOTTEST LOOKING, HOTTEST SAVING,

A V8-powered Impala Convertible . . . unmistakably '59!

HOTTEST SELLING OF THE LEADING LOW-PRICED 3

What we mean—this new Chevy's whipped up a one-car heat wave. Its fresh style caught on right away, of course. But—whether you prefer a V8 or 6—where Chevrolet really

leaves the other cars in the shade is out on the road. A pair of Chevy 6's came in one-two in their class in this year's Mobilgas Economy Run. And the winning average was 22.38 m.p.g.

Why not drop down to your dealer's and see for yourself why Chevy's this year's hottest selling car?

ASCE Student Conference Held at Oklahoma U.

Three members of the MSM Student Chapter of ASCE attended the Mid-Continent Conference of Student Chapters at the University of Oklahoma, May 7, 8 and 9. One of the highlights of the conference is the student paper competition in which student members give talks on various engineering subjects.

Our chapter was well represented in the competition this year with three papers. Jim Kamicar gave a paper on the "Membrane Filter Method of Coliform Determination," Al Moellenbeck talked on "The Effects of Nuclear Radiation on Portland Cement Concrete," and Troy Roberts' paper was "The Use of Influence Diagrams in the Design of Elastic Arches."

Beta Sig in Officer Election Last Week

During the past week there has been a change in the regime. Election of officers was held. We would like to extend our congratulations to the following officers: Louis Kuhlman, president; Norman Friedmeier, 1st vice president; Dick Schmelig, 2nd vice president; Wayne Siesennop, treasurer; Bob Roussin, secretary; Bob Springer, commissary; Bob Hecht, assistant commissary; Marv Monday, athletic manager; Bill Roth, corresponding secretary and Dave Sandler, rush chairman. We are certain these men will serve us well.

Last weekend things were rather quiet around the house. Most of the members made their way home for the weekend. Big Bob seemed especially anxious to leave Friday. It seems he had a rendezvous with his past in St. Louis. We are sure Bob was touched with a bit of melancholy. Oh those dear old memories.

The few members who did stay in Rolla owe a vote of thanks to R. B. He made the weekend a bit less painful by adding a bit of beauty, or did he?

The big thing in everyone's mind for the past week has been Greek Day and now that it is here everyone seems ready to take full advantage of it. Our honorable blonde from room 14 seems especially prime for this weekend. In fact he has been prime for the past two weeks. It looks like this will be one of his bust weekends.

In closing, we would like to welcome all of the wonderful dates. Your being here has given the campus a bright new look.

Mom's Day Banquet Big Success for PKA

The Mother's Day banquet this year was a huge success. About one hundred and thirty-five persons attended the get-together which is held every year at the Pike House, to honor the Pi K A mothers who do so much for us.

Brother Janning, with the help of Brother Schneider and the rest of the chapter, has completed his most recent project. That of refinishing the living room floor. It looks very nice and should be capable of withstanding many more of those movin' Pike parties.

The chapter was very fortunate in being able to secure a large number of beer mugs to be given away at our Greek-Carnival Booth. Come to the booth tonight, test your skill and win a mug.

Jim Kamicar from the MSM Chapter was elected vice-president of the Mid-Continent Conference. Schools represented include: The University of Oklahoma, Oklahoma State University, the University of Kansas, Kansas State, Washington University, University of Missouri, University of Nebraska and MSM.

Sig Ep Holds Open House Mother's Day

Last week Sig Ep held a mass evocation of pledges! It seems that some dissension arose after the pledges decided to pull a walkout. Well, that's what they called it. When the fellows returned after spending a pleasant weekend at Lake Taneycomo, they discovered their mattresses missing. Naturally, bad pledges must be punished. This made

Phi Kaps Anticipate Great Greek Weekend

It's been pretty quiet around the Phi Kap house, like a lull before the storm in anticipation of Greek-Week. If the weather is nice we should be dancing under the stars on the dance patio this weekend. Our queen candidate for the Greek-Week celebration is Miss Judy Lexa. Judy is from St. Louis and has attended many dances at the Phi Kap house over the past three years.

With last Sunday being Mother's Day, our suitcase students took advantage of the opportunity and went home to see mother between dates. A mere nine faithful, diligent students remained to enjoy another exciting Rolla weekend.

them very unhappy, being accustomed to sleeping on cushioned springs. Later the pledges decided that new initiates didn't need mattresses to enjoy a good night's rest, so they tried to swipe ours. Well anyway, they were caught, tried and punished. Tied to the stake (flagpole) the execu-

tion squad armed with buckets of water and led by General Bub and his crew of sadists thoroughly drenched this bad group.

It was certainly gratifying to meet and greet some of the Moms and Pops at the open house celebration held Mother's Day, not neglecting the good-looking sisters of our fraternity brothers and pledges. These mothers who work so hard all year round, and still find time to devote to the Mother's Club, to make their sons' home away from home a better place to live, well many thanks would hardly be enough. Why not show your appreciation by making every day your Mother's Day?

Congratulations are in order to brothers: Elrod, Halbrook, Jost, Rogers, Stewart and Swank who were recently initiated into Theta Tau professional engineering fraternity.

Don't miss the Greek Day celebration at the Sig Ep house Saturday night—a Viking party is planned. Remember Greeks, classes resume bright and early Monday morning at 7:30. Oh well what the ---!!

Piano to Delta Sig Gift from Huffs

It was fairly quiet last weekend. I guess everyone was saving himself for Greek Weekend. Of course a few had to party anyway.

The chapter is indebted to Mr. and Mrs. Huff for their gift of a piano. It will not only add to the appearance of the game room, but might also help some of us to carry a tune. We would also like to thank the pledges for the fine manner in which they are carrying out the pledge project. While they are not completely finished, the condition of the game room is improving rapidly.

Tonight is the night of the carnival at Lions Park. To learn a new trick with a Coke bottle and to win the largest prize going; no, we are not giving away the Flagstaff Brewery, come to the Delta Sig booth on the midway. Just remember, if you do the trick, you will have the shadiest mind on campus.

Dull men and dull women seem to have all the fun.

THINKLISH

English: AGILE WOODSMAN

English: ROYAL AUSTRALIAN MAMMAL

English: MUSCLE-MAN CONTEST

English: DELEGATES TO A JAZZ CONVENTION

Thinklish translation: When the secretary of this meeting makes notes, he uses a saxophone. The chairman is the only guy who can rap his gavel with a syn-copated beat. The delegates (in Thinklish it's heprezentatives!) come from all schools of jazz: hot, cool, and room temperature. But they're in perfect harmony on one thing: the honest taste of a Lucky Strike. Get Luckies yourself. (You'll trumpet their praises.)

English: MALE FOREBEARS

HOW TO MAKE \$25

Take a word—*substitute*, for example. With it, you can make an artificial hedge (*shrubstitute*), a washing machine (*tubstitute*), an English lemonade stand (*pubstitute*) and dehydrated food (*grubstitute*). That's Thinklish—and it's that easy! We're paying \$25 for the Thinklish words judged best—your check is itching to go! Send your words to Lucky Strike, Box 67A, Mt. Vernon, N.Y. Enclose your name, address, college or university and class.
